

B-C is BEST!

**Year In and Year Out
Day In and Day Out**

Most edible oil refiners have found this
statement true over the years

IF you want

- economical bleaching
- less FFA rise
- greater stability
- less filter cloth replacement
- better clay uniformity

*In other words
Better-Cheaper Bleaching*

USE B-C

BENNETT-CLARK CO., INC.

P. O. Box 951

NACOGDOCHES, TEXAS

D. R. Rathmann

Dorothy M. Rathmann is the author of a 70-page book entitled "Vegetable Oils in Nutrition" recently published by the Corn Products Refining Company. The book, offered as part of the company's program of service to members of the medical profession and research workers in nutrition and biochemistry, is available without charge from the Medical Department, Corn Products Refining Company, 17 Battery place, New York 4, N. Y.

Meetings

The Electrochemical Society will hold its 111th meeting at the Statler hotel, Washington, D. C., May 12-16, 1957.

A conference on "Liquid Scintillation Counting" has been scheduled for August 20-22, 1957, by Northwestern University, Evanston, Ill. Invited papers will cover coincidence counters, single channel counters, chemistry of liquid scintillators, and applications in various fields. Abstracts of non-solicited papers may be sent to the program chairman, F. Newton Hayes, Los Alamos, N. M., by June 1, 1957.

A short course in paint and varnish technology will be offered by the School of Chemical and Metallurgical Engineering at Purdue University, Lafayette, Ind., from June 24-28, 1957.

The semi-annual meeting of the Glass Container Manufacturers Institute Inc. will be held at The Greenbrier, White Sulphur Springs, W. Va., May 21-23, 1957.

"Corrosion Control by Choice of Materials" is the theme of the meeting of the Northeast Region of National Association of Corrosion Engineers to be held May 20-22, 1957, at Syracuse University, Syracuse, N. Y.

About 50 papers will be presented at the 12th industrial waste conference to be held at Purdue University, Lafayette, Ind., May 13-15, 1957.

A 16-page brochure on the European Congress of Chemical Engineering and theACHEMA Congress 1958, to be held in Frankfurt am Main, Germany, May 31-June 8, 1958, has been published in English, French, German, Italian, and Spanish. Copies are available from DECHEMA Deutsche Gesellschaft für Chemisches Apparatewesen, EV., Frankfurt am Main 7, Postfach.

July 15 Is Deadline for FAPA Entries

JULY 15 has been set as the deadline for manuscripts to be submitted for the \$500 award offered in 1957 by the Fatty Acid Producers' Division of the Association of American Soap and Glycerine Producers Inc. and administered by the American Oil Chemists' Society. Entry forms may be obtained from the American Oil Chemists' Society, 35 E. Wacker drive, Chicago 1, Ill.

The award is to be given for work done in an educational institution in the United States or Canada while the individual is a candidate for a degree (bachelor, master, or doctor) or on the staff of an educational institution within one year after receipt of such a degree. Submission of a paper or thesis may take place within one year after the author is graduated. In respect to team authorship, at least one of the candidates must meet the requirement as set forth, in which event the entire team shall be considered eligible for the award.

Announcement of the winner will be made at the fall meeting of the Society in Cincinnati, September 30-October 2.

Revue Francaise Des Corps Gras

Official Organ of the Institut des Corps Gras

Editor: J. P. Sisley

60, RUE DE RICHELIEU
PARIS (2^{ème}) (FRANCE)

•
Subscription rate: one year, francs 3.500
(postage paid)
•

This well-informed monthly Review is a world-wide reflection of improvements in the field of fats and connected industries.

Short course lectures:

- 1954, Oil Information Week, 1000 francs
- 1955, Soap Information Week, 1000 francs
- 1956, Fatty Acids Information Week, 1100 francs

» Fette • Seifen • Anstrichmittel «

Editor: Prof. Dr. H. P. Kaufmann

is the leading scientific journal in the field of fats and fat products as well as their associated products in Germany. It is the organ of Der Deutschen Gesellschaft für Fettwissenschaft (DGF).

Subscription rates are
U. S. \$15 a Year

Anyone interested in exchanging back issues of Oil & Soap or the Journal of the American Oil Chemists' Society for Fette und Seifen should write to Industrieverlag von Hernhausen K. G., Rodingsmarkt 24, Hamburg 11, Germany.

"INDISPENSABLE..." says Fred H. Hafner,
Director Soybean Oil Meal Sales, General Mills, Inc., Minneapolis

"We were among the first of the soybean processors to buy a Steinlite Fat & Oil Tester. After three seasons of satisfactory service, we consider it an indispensable piece of equipment!"

test OILSEED PRODUCTS Faster! At Lower Cost with the STEINLITE FAT & OIL TESTER

- Cut time-lag between sampling and oil test results!
- Reduce costly delays of ordinary testing methods!
- Know oil content in 15 minutes or less!

Steinlite oil tests are quick and accurate... may be performed before, during or after processing by non-technical personnel.

FREE literature now available on this amazing electronic tester. WRITE TODAY!

Thomas — LABCONCO
**KJELDAHL
 DIGESTING APPARATUS**

KJELDAHL DIGESTING APPARATUS, High Temperature, Micro, Electric, Thomas-Labconco. With six 200-watt heaters, each with separate rheostat control, pilot lamp and "on-off" switch, for completely independent operation at temperatures up to 450°C. Stainless steel housing is 19 $\frac{1}{8}$ inches long \times 7 $\frac{5}{8}$ inches deep \times 10 $\frac{3}{16}$ inches high to tops of heaters. Finish is corrosion resistant throughout. Fume duct is of Pyrex brand glass and is in accordance with "Recommended Specifications for Microchemical Apparatus," *Analytical Chemistry*, Vol. 23, No. 3 (March, 1951), p. 524. Accommodates Kjeldahl flasks 10 ml, 30 ml or 100 ml capacity, making the apparatus suitable for micro or semi-micro analysis.

Disc-shaped heaters embedded in refractory cement are 3 inches from center to center on transite top and are separated from controls by a ventilated air chamber. Stainless steel heater tops have 26 mm diameter openings to take 30 ml or 100 ml Kjeldahl flasks. Readily insertable wire gauze discs are available for use in heater tops for supporting 10 ml Kjeldahl flasks or tubes less than 26 mm in diameter.

Fume duct is 516 mm long \times 51 mm outside diameter and has six openings 22 mm diameter for flask necks; drains through center outlet tube, $\frac{1}{16}$ -inch o.d. Fume duct is supported by two slotted aluminum clamps attached to wing-shaped brackets at rear corners of housing. Permits easy adjustment for flasks or test tubes up to 12 inches long at any desired angle.

7498-E. Kjeldahl Digesting Apparatus, Micro, Thomas-Labconco, Electric, as above described, with six independently controlled 200-watt heaters. Complete with six heater tops for 30 or 100 ml Kjeldahl flasks, fume duct of Pyrex brand glass, two clamps with locking bolts to support duct, and 4 ft., 3-wire connecting cord with 2-prong attachment plug cap and grounding tail. For use on 115 volts, a.c. or d.c. Maximum power consumption 1200 watts.... **242.25**

More detailed information sent upon request.

More and More Laboratories RELY ON THOMAS

if you're feeling very well

or if you're feeling queerly

if it's living you want most

have a checkup yearly

Many cancers can be cured if detected in time. That's why it's important for you to have a thorough checkup, including a chest x-ray for men and a pelvic examination for women, each and every year... no matter how well you may feel.

AMERICAN CANCER SOCIETY

HARVEY S. FIRESTONE, JR.

“Every month more than 90 per cent of Firestone employees invest \$900,000 through the Payroll Savings Plan”

“Every month more than 90 per cent of Firestone employees in plants across the nation invest \$900,000 in United States Savings Bonds through the Payroll Savings Plan. We are proud of our share in conducting this investment program. But we are prouder of our employees who responded so magnificently in our 1956 drive that they set a national record for participation. Their good judgment in investing in U.S. Savings Bonds is a sound provision for their future security. It is also a definite contribution to the future stability of our country.”

HARVEY S. FIRESTONE, JR., *Chairman
The Firestone Tire & Rubber Company*

The United States Government does not pay for this advertising. The Treasury Department thanks, for their patriotic donation, the Advertising Council and

If employee participation in *your* Payroll Savings Plan is less than 50% ... or, if *your* employees do not now have the opportunity to build for their future through the systematic purchase of U.S. Savings Bonds ... a letter to: Savings Bonds Division, U.S. Treasury Department, Washington, D. C., will bring prompt assistance from your State Director. He will be glad to help you put on a person-to-person canvass that will put an application blank in the hands of every employee. This is all you have to do. Your men and women will do the rest, because they will welcome the opportunity to build for personal and national security.
