Northeast Section News

An exceptional program for the Symposium, "Separation and Fractionation Techniques," has been outlined by Symposium Chairman M. K. Smith. The meeting will take place April 6, 1965, at the Hotel Essex in Newark, N. J.

Speakers from both Government research agencies and from industry will present papers of unusual value on both analytical and production procedures. The schedule is as follows:

Unusual Separation Techniques. Steven Donatos, Associate Editor, Chemical Engineering Magazine.

Liquid Partitioning of Lipids. H. J. Dutton, Northern Research Laboratory, USDA.

Practical Design of Distillation Equipment. P. N. Heere, Distillation Engineering Co.

LUNCHEON

Capacitance Control of Mixed Solvents Separations. E. A. Gastrock, Southern Regional Research Laboratory, USDA.

Separation Through Control of Crystallization. R. E. Casparian, Fred S. Carver, Inc.

Molecular Sieves. P. K. Maher, Davison Chemical Division.

The Kontro Separator. James Donovan, Artisan Industries.

Registration requests should be addressed to Mr. Smith in care of the Baker Castor Oil Company, Bayonne, N. J. 07002.

Steinlite

MODEL
300-LOS

FAT AND OIL
TESTER

FRED STEIN
LABORATORIES, INC.
Atchison, Kansas

Steinlite
determines either
content in just
10 to 15 minutes!

Steinlite offers profitable advantages for these products:

- Frankfurter Emulsions
- Luncheon Meat
- Corn Chips
- Bologna Emulsions
- Deviled Ham
- Pork Sausage
- Flax
- Ground Beef
- Fried Noodles
- Copra
- Potato Chips
- Ground Pork
- Soy Beans
- Trimmings
- Peanuts
- Corn Meal
- Sesame Seed
- Dog Food
- Cottonseed
- Cabbage Seed
- Fish Meal
- Corn Germ
- Castor Beans
- Pumpkin Seed
- Mink Food
- Malva Beans
- Safflower Seed
- Sunflower Seed
- Rice Bran
- Chocolate

Tell Us More!

Write today—Tell us about your product—We'll tell YOU all about STEINLITE, as it applies to your product. No obligation on your part! Just address inquiries to our Fat and Oil Department.

North Central Section News

Ladies' Night to Feature Bell's "Weapons for Defense"

"Weapons for Defense," an illustrated lecture presented by the Illinois Bell Telephone Company, will be the feature of the Ladies' Night Program scheduled for Wednesday, March 24, 1965. Earl Nicholas, of Bell's Public Relations Department will present the talk.

The lecture will explain "White Alice," "Sage," and "Texas Towers," and the part these installations play in the defense of the North American Continent. There will be a demonstration of defense converted to offense as the weapons collect information, seek out, attack and destroy an enemy invader. Through a special hookup, guests will be able to talk to the NORAD Center in Colorado Springs.

It promises to be a most unusual as well as enjoyable program.

The tempting dinner menu includes fruit cup, prime ribs of beef, and coffee cognac ice cream with creme de cocoa. Place: The Swedish Club, 1258 N. LaSalle St., Chicago, Ill. Price: \$4.50. Time: social period, 6:00 PM; dinner, 6:30 PM. Reservations should be sent to North Central Section in care of AOCSS Headquarters, 35 E. Wacker Dr., Chicago 60601, or phone St2-2455.

Bailey Award Presentation to Highlight May Meeting

Plans for the fifth Alton E. Bailey Award Presentation, an important occasion for the North Central Section and the American Oil Chemists' Society, are rapidly taking shape. This year's Award Night on May 5, 1965, will mark the first time the Award has gone international with the selection of T. P. Hilditch, Emeritus Professor, University of Liverpool, England.

Unfortunately, Professor Hilditch will be unable to attend personally. However, the Bailey Award Committee takes great pleasure in announcing that Dr. F. D. Gunstone, who is a former student of Professor Hilditch and is himself distinguished in the same field, will accept the Award for him. Dr. Gunstone will present a talk on the glyceride structure of fats, beginning with historical coverage of Professor Hilditch's contributions and bringing the subject up to date by including some of his recent work at St. Andrew's University in Scotland.

An international approach became possible through the establishment of a Bailey Award Fund. The North Central Section deeply appreciates the generous support of the following companies which are sponsoring this fund jointly: Archer Daniels Midland Company; Anderson, Clayton and Company; Central Soya; Distillation Products Industries; Durkee Famous Foods; S. C. Johnson & Son, Inc.; Osear Mayer & Company, National Dairy Products Corporation; Wurster & Sanger, Inc.

Northern California Section News

The final 1964 meeting of the Northern California Section was held at the Engineers' Club in San Francisco on November 20. Floyd De Eds, Chief, Pharmacology Laboratory, Western Regional Research Laboratory, gave an interesting talk and informative talk on "Aflatoxin and Other Mold Metabolites as Related to Oilseeds and Meal Feedstuff."

Following is a list of the 1965 officers of the Northern California Section of the AOCSS:

Chairman—E. J. Jacobson; Secretary—W. E. Rathjen; Treasurer—Bernard Freedman; Vice-Chairman—C. A. Lathrop; Past Chairman—T. A. Applewhite.
