

• *New Literature*

"Rumania, a Country with a Modern Chemical Industry," is an attractive 100-page booklet providing a comprehensive view of Rumanian resources and industry, and industrial progress of the last two decades. (Meridiane Publishing House, Bucharest, or, Centrul de documentare al industriei petrolului si chimiei, B-dul N. Balcescu, nr. 16, Bucharest.)

BECKMAN INSTRUMENTS, INC., Spineo Division, is offering a 30-page bibliography, DS-245, of automatic amino acid analyzer applications. In addition to the extensive references, there is a complete subject index. (Palo Alto, Calif.)

ANALABS, INC., has published a new 42-page booklet entitled "Guide to Stationary Phases for Gas Chromatography," ed. 2, by T. R. Lynn. The more than 400 references are indexed according to materials separated, with brief notes about the separation. A free copy may be obtained by writing to P.O. Box 5215, Hamden, Conn.

THE AMERICAN SOCIETY FOR TESTING AND MATERIALS will issue the 1965 Book of ASTM Standards in February. The volume will contain 23,000 pages and approximately 3700 standards, 1260 of them new since 1964. (H. H. Hamilton, ASTM, 1916 Rac St., Philadelphia, Pa. 19103)

GUSTAFSON MANUFACTURING COMPANY offers information about three new automatic sampling devices, including the Cross-Cut Sampler, which laterally cuts a flowing stream. It has modified other standard samplers to fit special applications. (Corn States Hybrid Service, Inc., P.O. Box 2706, Des Moines 15, Iowa)

BECKMAN INSTRUMENTS, INC. has available a new catalogue (SB-244) which describes all major modules and components necessary to complete or expand a column chromatography system. Also described are new Beckman Custom Spherical Resins for protein hydrolyzate and physiological fluid analysis, and the regular ground resins for preparative work. (Spineo Division, Beckman Instruments, Inc., Palo Alto, Calif.)

LACHAT CHEMICALS, INC. has printed a new, expanded catalogue of their pure aliphatic chemicals ("World's Complete Stock of Pure Chemicals for Research and Gas Chromatography"). (10540 S. Western Ave., Chicago 60643)

SPENCER KELLOGG DIVISION OF TETRON, INC. has released a 12-page Products Catalog, containing a broad range of technical information covering 88 linseed oil, castor oil, and soybean oil products, plus other chemical vehicles and resins. (Buffalo, N.Y. 14240)

THE SCIENTIFIC GLASS APPARATUS CO. has a new 16-page issue of "What's New for the Laboratory" (No. 55), describing and illustrating over 30 items, including an Automatic Pipette for

the BBL Fibrometer, a Portable Cold Finger, and a new electric furnace by Thermolyne. (Bloomfield, N.J., or branches)

AMERICAN INSTRUMENT CO., INC. has made available the following literature:

Bulletin 2387, describing its new Grating Monochromator, employing a building-block approach for addition of many spectroscopic accessories and components.

A 38-page Condensed Catalogue describing major product lines, including most important uses, features, specifications, and price of the instrument, along with specific listings of additional free literature.

A 4-page Bulletin 2393, describing room assemblies prefabricated to al-

most any interior dimensions within which temp and relative humidity can be controlled as close as $\pm 1^\circ\text{F}$ and $\times 1\%$ R.H. (8030 Georgia Ave., Silver Spring, Md.)

THE GLYCERINE PRODUCERS' ASSOCIATION has just issued a 20-page booklet, "Chemical Properties of Glycerine and Its Derivatives," bringing up to date the available data originally compiled in "Glycerol," the ACS monograph by Miner and Dalton. (295 Madison Ave., New York 17, N.Y.)

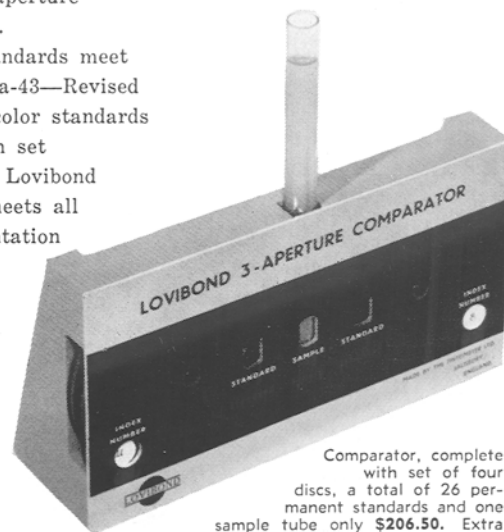

LINDBERG/HEVI-DUTY MARKETING SERVICES offers bulletin No. 92221, describing Carbochek, a new portable electronic infrared instrument for analyzing and recording constituents of gases, vapors, or liquids. (2450 W. Hubbard St., Chicago, Ill.)

APPROVED COLOR GRADING with PERMANENT GLASS STANDARDS

- **FAC Color Standards. See AOCs Official Manual**
- **Lovibond 3-Aperture Comparator**

Here is the recently approved permanent glass FAC Color Standard for use with new Lovibond three aperture Color Grading Comparator.

These FAC glass color standards meet with AOCs Method CC 13a-43—Revised 1964 specifications. Glass color standards are mounted in discs. Each set interchangeable to fit new Lovibond Comparator. Entire unit meets all illumination and instrumentation specifications of AOCs and Inter-Society Color Council.

Comparator, complete with set of four discs, a total of 26 permanent standards and one sample tube only \$206.50. Extra tubes \$4.00 per dozen.
