

Technical service is one important ingredient in Drew Catalysts

[HERE ARE THREE MORE:]

1 / Drew is basic in fats and oils.

2 / Drew catalysts are designed for specific fat hydrogenation purposes and are also used in the hydrogenation of various organic chemicals.

3 / Drew offers you a maximum allowance for your spent catalyst.

What about Service? You will find Drew's to be second to none . . . with extended technical services — from crude oil to finished product.

6 catalysts available including Selectol®, Resistol® and Nickel Aluminum.

Watch for new **Crystol** Catalyst.
