

This is one way to handle vitamin A fortification of food

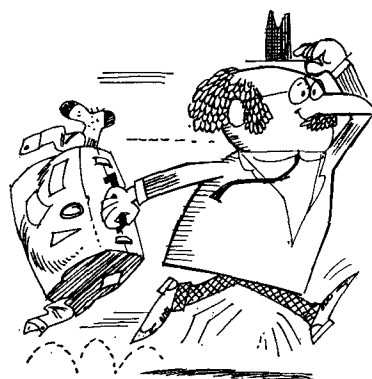

Get our vitamin A in premeasured cans that come to you as you need them—*fast*. You open the can and pour. One can fortifies one batch. Cans are available with color-coded labels; the vitamin A can be custom-blended with vitamin D and carotene or other acceptable colorants.

Premeasured cans are one way to handle fortification. Another is with our vitamin A in bulk—oil or dry. Either way, the quality is high, our response to your needs is quick, and our technical resources are at your disposal.

Get in touch with Distillation Products Industries, Rochester, N. Y. 14603 (Division of Eastman Kodak Company). West Coast distributor: W. M. Gillies, Inc.
