

• *Names in the News*

C. C. CANDEE was recently appointed president of Chemetron Chemical Division of Chemetron Corporation. Mr. Candee will be responsible for all units of the division: Northwest Chemical Co., Detroit; Girdler Catalysts, Louisville, Ky.; and Organic Chemical Department, New York, N. Y.

Photovolt Corp. has announced the election of Howard Schwartz as president. Simultaneously, he was elected to the board of directors. He replaces B. A. Silard, who is retiring after more than 25 years with Photovolt. Dr. Silard will remain on the board of directors and also serve as a consultant.

At a regular meeting of the Board of Directors of Pacific Vegetable Oil Corp., B. T. Rocca, Jr., was elected chairman of the board, a position that has been vacant since B. T. Rocca, Sr., retired in 1963. The board also elected J. C. Harley president, with full charge of the company operations.

Three promotions have been designated by Votator Division of Chemetron Corporation. H. A. Meilun has been appointed Votator equipment sales manager; H. E. Huber (1958) and J. P. Bolanowski have been named to the newly created position of chemical equipment sales manager and food equipment sales manager, respectively. Mr. Meilun replaces E. T. Beck (1950) who was recently appointed Votator general sales manager.

G. L. BRAUDE (1960) has been named Director of Special Projects of the Research Division, W. R. Grace & Co. Dr. Braude is known for his work in ozonation of fatty acids, organic sulfur in nitrogen compounds, ion exchange processes in various polymers.

C. R. HAUSER, Professor of Chemistry at Duke University, has been named to receive the 1967 SOGMA Medal for Creative Research on Organic Chemistry. In announcing the award, A. H. Tenney of Union Carbide Corporation stated that Dr. Hauser's work has led to the synthesis of hundreds of important chemicals.

R. F. ROBBY, research associate, Enjay Laboratories, was recently granted an Award of Merit by the American Society of Testing and Materials at their 70th Annual Meeting. The award was in recognition of his service as secretary and member of Committee E-13 on Absorption Spectroscopy. At the same meeting V. E. Amspacher, Pennsylvania Railroad Company (retired), was granted an Award of Merit for his guiding of Committee D-26 on Halogenated Organic Solvents.

GIRDLER®

CATALYSTS

for hydrogen and synthesis gas manufacture •
purification of gas streams • slurry and fixed
bed hydrogenation of organic compounds •
selective hydrogenation • hydrogenation
of fats, oils and fatty acids •
dehydrogenation • alkylation • dehydration •
experimentation • custom applications
