chemical products. In addition to his administrative duties, Mr. Holt has written numerous papers on the methodology of cereals, vegetable oils, coatings, fertilizers, and related topics; he has served on many committees in technical and trade organizations in addition to AOCS, serving frequently as chairman.

The election of KIRK RICH to Vice-President of Grestco Dyes & Chemicals, Inc., Brooklyn, N.Y., was announced recently by J. F. MULVANEY, President.

Mr. Rich, currently in charge of research and development, has been associated with Grestco for the past six years.

Daniel Swern (1942), senior research investigator for the Fels Research Institute and professor of chemistry at Temple University, has received the 1968 Honor Scroll Award of the Philadelphia Chapter of the American Institute of Chemists.

Dr. Swern was cited for "his outstanding contributions to the advancement of the profession, his inspiration of younger professionals, and his promise of future achievements."

Currently he is working on cancer-causing and cancer-inhibiting agents in the foods and products of our environment.
