Northeast Section

New Protein Sources, and Hydrogenation-Dehydrogenation Sessions Planned

The Northeast Section of the AOCS will hold its Annual Symposium on April 23, 1968, at the Military Park Hotel, Newark, N. J.

This program, as in past years, will be an all-day meeting, but it will be different in that the subjects presented will cover two entirely different fields.

The morning session will focus on new protein sources. These include fish protein concentrates, proteins from petroleum products, and new soybean protein products. The afternoon session will be devoted to both hydrogenation and dehydrogenation of fats and oils.

The luncheon meeting at the Newark meeting will be of exceptional interest. The speaker will be A. R. Baldwin, who will discuss the fats and oils industry in Russia. Dr. Baldwin will base his remarks on first-hand observations made during a recent trip to that country.

The April JAOCS will carry titles and authors of papers to be presented. Further information can be obtained from M. Eijadi, Drew Chemical Corporation, 416 Division St., Boonton, N. J. 07005.

Food and Drug Officials to Confer

The 72nd Annual Conference of the Association of Food and Drug Officials of the United States (AFDOUS) will be held at the Hartford Hilton, Hartford, Conn., June 16-20, 1968.

For further information, contact should be made to Eaton Smith, Division Chief, Connecticut Department of Consumer Protection, State Office Building, 165 Capitol Avenue, Hartford, Conn. 06115.

ISCC Seeks Godlove Award Candidates

The Godlove Award Committee of the Inter-Society Color Council is soliciting from each member body one name for consideration by the Award Committee.

The merit of a candidate may be judged by his contributions to any one of the spheres of interest in color, whether or not it is represented by the member-bodies. The contribution to color may be direct; it may be in the active practical stimulation of the application of color, or it may be an outstanding dissemination of knowledge in color by writing or lecturing.

Nomination forms and information may be obtained from the chairman of the committee. The name of the nominee and any information supporting the choice should be sent no later than June 30, 1968, to Walter Granville, Chairman, Godlove Award Committee for 1969, P. O. Box 188, Libertyville, Ill. 60048.

• New Products

LACHAT CHEMICALS INC., Chicago Heights, Ill. now offers a complete series of purified products for research use and as analytical standards: The di-acid esters of saturated aliphatic straight-carbon chain acids, starting with C6 through and including C18, of ethylene glycol and also, of diethylene glycol. The esters are reported as 99.0% pure and should prove useful as reference standards in many research, development and commercial-chemical programs. Prices and further details are available from the company upon request.

SPECIALTY GLASS PRODUCTS, INC., Willow Grove, Pa., will custom-make glass transport trays for protection of delicate mechanical or electronic components and subassemblies.
