Conference on Surface Chemistry With Application to Cosmetic Science

The Society of Cosmetic Chemists and Columbia University College of Pharmaceutical Sciences will jointly sponsor the first Educational Conference on Cosmetic Science from November 2 to 7, 1969. The conference will be conducted at Columbia's Arden House, the former estate of the Harriman family. The program will treat "Surface Chemistry with Application to Cosmetic Science."

The Conference has been especially designed for scientists whose heavy schedules have prevented them from adequately keeping abreast of the most recent developments in emulsion and suspension theory and technology. The topics have been selected to expose scientists who graduated more than five years ago to concepts that were not taught in colleges at that time.

Participants in the Conference will live at Arden House, Harriman, New York, thus providing them with ample opportunity for engaging in stimulating discussions with the faculty and other participants. In the morning sessions, faculty members will lecture for approximately 3 hours. Afternoons will be devoted to independent study and individual problem assignments. Panel discussions led by the Conference Chairman or faculty members will be held in the evenings.

The following topics will be discussed: Basic Surface Science, R. E. Johnson, Jr., E. I. du Pont de Nemours, Wilmington, Delaware; Colloid Stability, H. van Olphen, National Academy of Sciences, National Research Council, Washington, D.C.; Physical Chemistry of Surfactants, Morton Rosoff, College of Pharmaceutical Sciences, Columbia University, New York City; Measurements in Surface Chemistry, J. C. Boylan, Eli Lilly and Co., Indianapolis, Indiana.

To make reservations, contact: S. M. Gross, College of Pharmaceutical Sciences, Columbia University, 115 West 68th Street, New York, N.Y. 10023.

SECOND CALL FOR PAPERS

AOCS 43rd Annual Fall Meeting

W. E. Link, Technical Program Chairman, has issued a second call for papers to be presented at the AOCS Fall Meeting, October 5-8, 1969, Leamington Hotel, Minneapolis, Minnesota.

Papers on lipids, fats and oils, and all related areas are welcome.

Submit two copies of a 100- to 300-word abstract with title, authors and speaker to W. E. Link, Ashland Chemical Company, 10701 Lyndale Avenue South, Bloomington, Minnesota 55420.

The deadline for submitting papers is June 15, 1969.
