

Northeast Section Meets in New York City

The March meeting of the Northeast Section was held at Whyte's Restaurant in New York City. There was an excellent attendance of members and guests. The speaker was C. G. King, Emeritus Professor and Special Lecturer at Columbia University.

Dr. King, born in Washington and educated at Washington State University, Math Masters at University of Pittsburgh and Post Doctoral at Columbia and Cambridge University spoke on the biomedical and biochemical aspects

of fats and oils.

Dr. King, "Father of Vitamin C," covered in great depth the history of research in Lipid Chemistry referring to well known authorities in this field. Interwoven in his talk, four major points were covered: molecular structure, prostaglandins, chain length and food patterns related to health.

Efforts are being made to make the text of Dr. King's address available through *JAACS*.

Left to Right: C. G. King, Speaker; Hans Kaunitz, Columbia Univ.; D. S. Fritz, Secretary AOCs Section, Woburn Chemical Corp.

Left to Right: I. Taussky; Stanley Dominik; M. M. Mattikow; E. I. Marshack, Consultant.

Left to Right: S. S. Chang, Rutgers Univ.; D. S. Bolley, Baker Castor Oil; J. J. Gale, Baker Castor Oil.

Left to Right: D. S. Fritz; A. M. Rossetto.

Left to Right: D. J. Meshnick, Treasurer AOCs Section, Brew Chemical; A. N. Wrigley; A. M. Rossetto

Left to Right: A. M. Rossetto, President AOCs Section, L. A. Salomon; H. Vollenwider, Sandoz; G. W. Raupp, Drew Chem.; R. L. Tracy, Croll-Reynolds Co.; Frank Naughton, Baker Castor Oil.
