

AOCS-ISF WORLD CONGRESS

Conrad-Hilton Hotel ★ Chicago, Illinois
September 27-October 1, 1970

★ ★ EXHIBITS ★ ★

ANALABS, INC., Hamden, Conn. (BOOTH 42). Exhibiting: Solid supports for gas chromatography, high purity lipid standards for GLC and TLC, Snyder-Kimbal zonal scraper for TLC, and accessories for gas and thin layer chromatography. Representative: Ted Lynn.

THE V. D. ANDERSON COMPANY, Cleveland, Ohio (BOOTH 35). Literature will be available on all Anderson processing equipment. (See advertisement page 407A).

APPLIED ENGINEERING COMPANY, Orangeburg, S.C., (BOOTH 32). Brochures and pictures on hydrogen and nitrogen plants. Representatives: K. A. Rogers, George Frier. (See advertisement page 440A).

APPLIED SCIENCE LABORATORIES, INC., State College, Pa. (BOOTH 16). Featuring: Gas chromatography supplies, HI-EFF Fluidizer, column coiler, chromatofile, TLC supplies & equipment, TLC streaker, high-purity lipid standards, mini-aktor vials. Representatives: Melvin Miller, Dr. Subramania Ramachandran, Richard Kruppa.

ARTISAN INDUSTRIES INC., Waltham, Mass. (BOOTH 57). Featuring: reactors, evaporation, fractionation, stripping. Bulletins will be available describing Artisan services and equipment for process industry. Representatives: James L. Baird, Leo J. Monty. (See advertisement page 417A).

BLAW-KNOX CHEMICAL PLANTS, INC., Pittsburgh, Pa. (BOOTHS 31,43). Featuring: information on technology, proprietary equipment and contracting services that Blaw-Knox offers to processors of oil seeds, edible oils, vegetable proteins and fatty acids. Emphasis on Blaw-Knox' ability to assume total responsibility for design and erection on "first of a kind" plants. Representatives: Ken Becker, Robert Good, William Coombs, Louis Kingsbaker, V. J. Hostler. (See advertisement page 415A).

CALL-A-COMPUTER INC., Minneapolis, Minn. (BOOTHS 33,41). Call-A-Computer will demonstrate an on-line computer (time-sharing terminal) connected to the Chicago branch; also will run gas chromatographic demonstrations with a computer analysis and print-out of the results of chromatographic tests, on a real-time basis in conjunction with Vidar Corp. of Mountain View, Cal. Demonstration of time-sharing programs for gas chromatographic analysis. Representatives: Vern Rodberg, Bob Gunderson, Ron Whitehouse.

CAMAG INC., Milwaukee, Wis., (BOOTH 4). Thin-Layer Chromatography, Thin-Layer and High-Voltage Electrophoresis equipment and supplies including a new streaker (LINOMAT), camera stand (REPROSTAR) scanners, coaters, etc. Representative: R. K. Vitek.

CHEMETRON CORPORATION, GIRDLER CATALYSTS AND VOTATOR DIVISIONS, Louisville, Ky. (BOOTHS

30,44,51). Display of literature, photographs of equipment and materials manufactured by Chemetron and overseas affiliates. Representatives available to discuss fatty oil processing, including extraction, refining, bleaching, hydrogenation and deodorization, plus manufacture of margarine, shortening, and salad oil; special emphasis on catalysts for hydrogenation and a new style deodorizer design. Representatives: (Votator) N. T. Joyner, E. T. Beck, P. H. Miller, C. T. Zehnder, V. L. Zehnder. (Catalysts) J. W. Benedict, E. W. Black, R. W. Voight. (Overseas) W. Depmer, G. W. Howard, F. G. De Saulles. (See advertisement page 405A).

CROLL-REYNOLDS CO., INC., Westfield, New Jersey (BOOTH 17). Steam Jet Vacuum Equipment, Scrubvactor Recovery Systems, Steam Jet Refrigeration Systems. Literature and technical advice will be available on all forms of equipment. Representatives: S. W. Croll, Jr., David H. Jackson, Ben Entwisle. (See advertisement page 434A).

CROWN IRON WORKS COMPANY, Minneapolis, Minn. (BOOTH 2). Featuring: Solvent Extractor equipment. Representatives: Glenn Brueske, Sam Smith. (See advertisement page 427A).

THE DE LAVAL SEPARATOR CO., Poughkeepsie, N.Y. (BOOTH 27). Back drop, showing pictures of De Laval installations. Complete literature available on all systems. Representatives: Karl Klein, Donald Willis, E. G. Bahret, P. E. Lawatsch.

EMI-ENGINEERING MANAGEMENT, INC., Des Plaines, Ill. (BOOTH 34). Featuring: photographs, flow-sheets, displays, samples and bulletins describing products and services—such as engineering, contracting, consulting, supply of processes and systems for protein products, solvent extraction, oil refining, deodorizing, hydrogenation, fatty acids. EMI engineers will be available for detailed discussion. Representatives: Edward Loew, Arnold Gavin, Ralph Berger. (See advertisement page 411A).

GLENCO SCIENTIFIC, INC., Houston, Texas (BOOTH 52). Liquid Chromatography columns, fittings, valves, and accessories featuring new high pressure LC Pumping Unit, 1000 psi, with pulse dampener and variable pressure relief control. Gas Chromatography sample injection syringes, glass GC columns, sample storage tubes, and evaporative concentration glassware. Glenco liquid Reagent Dispensers in three models for repetitive accurate dispensing of variable volumes. Representatives: James A. Ramin, Frank Meluso.

HOFFMANN-LA ROCHE, INC., Nutley, N.J. (BOOTHS 36,38). Featuring: B.H.A., Vitamin E, Ascorbic Acid, Vitamins, Carotenoids. Representatives: R. C. Christiansen, J. C. Lamping, E. J. Schuller, J. W. Gage, B. W. Carmichael, E. L. Sakach, Dr. B. Borenstein. (See advertisement page 419A).
