

## Call for Nominations: Award of Merit

The Society Award of Merit is to be presented to qualified Society members at the 65th Annual Spring Meeting, Mexico City, Mexico, April 27-May 2, 1974.

The Award is given to recognize current and past achievements in serving the Society:

- (a) Active productive service to AOCS committee work.
- (b) Marked leadership in technical, administrative, or special committee or Society activities.
- (c) Outstanding activity or service that has particularly advanced the Society's prestige, standing, or interest.
- (d) Any distinguished service to the Society not herein otherwise specifically provided for.

Nominations shall cite the record of the nominee which qualifies him for the Award. Two copies of the nomination shall be submitted to: Joseph A. Fioriti, Research Specialist, Technical Center, General Foods Corp., 250 North Street, White Plains, N.Y. 10625 before February 2, 1974. ■

## Award competition announced

The Synthetic Organic Chemical Manufacturers Association announced that competition for its 1974 Gold Medal Award has begun.

The SOGMA Award, which is accompanied by a \$1,000 honorarium, was designed two years ago to recognize "outstanding accomplishments in the application of environmental chemistry which contributes in a significant way to improving the nation's environment and the general welfare of its citizens."

Nomination forms and additional information may be obtained by contacting the Chairman, Research and Technical Programs Committee, Synthetic Organic Chemical Manufacturers Association, 1075 Central Park Ave., Scarsdale, N.Y. 10583. ■

### • Obituary

George B. Crump, recognized as a world-wide expert in edible fats and oils, died on September 21 at the age of 63.

He began his career at the Cudahy Packing Company and Drew Chemical Edible Oil Division. He joined Standard Brands in 1944 and in 1951 became technical director of the Margarine Division. He became known for his contributions to the growth of margarine.

Mr. Crump was graduated from the Sheffield Scientific School of Yale University, where he was a member of Theta Xi and Alpha Chi Sigma. He did graduate work at Louisiana State University.

He had been a member of AOCS since 1935. ■

## edible oils... highest quality from Wurster & Sanger processing plants

Wurster & Sanger combines the most modern design techniques with proven W&S engineering in the efficient upgrading of edible fats and oils.

Nearly 250 Wurster & Sanger plants are in operation or under construction in 50 countries. Many of these plants are repeat orders from satisfied customers.

Starting with degumming and continuing through neutralizing, water washing, vacuum drying, hydrogenating, winterizing and deodorizing, Wurster & Sanger plants are custom designed to meet specific processing requirements.

Of particular interest to the fats and oils industry at this time is the Wurster & Sanger continuous deodorizing system. More than 40 of these high efficiency, low maintenance plants have been put into operation over the past few years. Based on world wide per capita consumption figures, the superior quality oils produced by Wurster & Sanger Continuous Deodorizers reach 200,000,000 people.

Send for Wurster & Sanger edible oils processing story-information on our full services. Do it today!
