Greatest Advance Since the Typewriter was Invented! No More Smeary Erasing—Covers Mistakes Instantly, Permanently!

SELF-CORRECTING TYPEWRITER RIBBON!

Most exciting, needed advance since the typewriter was invented! As of this moment, every messy, smudgy, smeary typewriter eraser in the world hits the scrap heap for good. No more erasing—ever! Bottom half of miracle ribbon is like a magic wand that makes errors disappear before your eyes. To make corrections, just back space, shift ribbon selector and retype error. Presto! White ink makes error completely invisible. Order extra ribbons for friends. This is one gift they'll love you for! No CODs.

TLC short courses and workshops

In response to hundreds of requests from the east coast, a series of short courses and workshops on thin layer chromatography will be presented by CAMAG Inc. this spring. Eleven 1 day programs will feature lectures on basic principles and theory of chromatography, practical workshops, color films on TLC techniques and electrophoresis, and discussions of workshop results. Topics included are adsorbent and solvent selection, plate preparation, sample application, development of chromatograms, scanning, preconditioning adsorbent layer, and preparative TLC. Programs will be held in Albany, Baltimore, Boston, Garden City, N.Y., Newark, New Brunswick, N.J., New York City, Philadelphia, Raleigh and Washington, D.C. For complete information, write Program Director, CAMAG Inc., 2855 South 163rd St., New Berlin, Wis. 53151.

President's Club recruitment packages mailed to members

A January mailing from AOCS headquarters to all current members included materials for use in qualifying for the newly created AOCS President's Club and President's Honor Roll. Sent to all members were a letter from President O'Connor explaining what this new program hopes to accomplish, and a supply of special membership invitations and applications for use in recruiting new AOCS members.

The program is designed to increase the number of Society members and to provide recognition for those current members who actively participate in the program. Prominent notices in *JAACS*, special social functions and identification at AOCS meetings and other programs are being planned for every member who successfully recruits at least one new member. To the Honor Roll qualifiers—those who recruit at least three new members—specially designed certificates will be presented.

In addition, the Governing Board is considering other programs and activities specifically designed for and restricted to President's Club and Honor Roll members.

AOCS membership has declined somewhat in recent years, primarily because of the general economic condition and a rather large dues increase. This year the membership has stabilized. Now the Society needs the active involvement of all its members to return the membership roll to former levels and beyond.

Each member has received sufficient material to use in qualifying for the Honor Roll. Any who want to spread the word still further may obtain additional materials by contacting Jim Lyon, AOCS Executive Director, 508 S. Sixth St., Champaign, Ill. 61820; telephone (217) 359-2344. ■

Rosedowns

Suppliers of
the largest
Semi-Continuous
Deodoriser
in Europe.

Rosedowns Semi Continuous Deodorisers are manufactured under licence from Votator of America in a range of capacities from 25 metric tons per day to 325 metric tons per day throughput. The Rosedowns Votator system of deodorising oils and fats in semi and fully continuous plant is the most advanced, resulting in the highest possible quality of its products.

To match Rosedown's unique plant and equipment a unique service in support.

Together we have twice the experience . . .

. . . and it shows all over the World.
