

**1974-75
Supplement to the
AOCS DIRECTORY OF MEMBERSHIP**

This supplement includes the current list of officers, committees, and affiliations of the American Oil Chemists' Society. It is designed as a snap-out so it can conveniently be kept with the complete 1973-74 Directory published last year.

The supplement lists alphabetically all members who have joined the Society since the publication of the last complete Directory. Listings include the home and business addresses and phone numbers as they were available at the time of publication.

The next complete listing of AOCS members will appear in the summer of 1975.

COMMITTEES FOR 1974-75

Appointments of executive officers, representatives to affiliated organizations, committee chairmen and members of committees, with the exception of members of the Publications Committee, are for a period of one year. The Executive Director, Managing Editor, representatives of the Society, members of the Examination Board and the Director of Publications are appointed by the Governing Board. Unless otherwise noted, other committee chairmen are appointed by the president, and they in turn select the personnel of their respective committees with the approval of the president. New standing or special committees are appointed by the president as needed.
