

AOCS Election of Officers 1975-1976

The AOCS must be responsive to the needs and aspirations of its members, and to these ends I will direct my effort.

National Meetings provide many opportunities for professional development and fellowship to those attending but not all meetings are held in locations economically accessible to all members. Therefore, I will encourage multiplication of AOCS short courses and symposia at sites convenient to many.

The needs of our members who seek employment, and of industry which seeks new employees, will be answered in some measure by the employment service to be given at future national meetings of the Society. Particularly because we face an uncertain economic future, I wish to see the AOCS provide an employment service continuously available to its members and their industries and not limited to once or twice a year at annual meetings.

The Official Methods of the AOCS are indispensable to the industries in which we work and hopefully prosper. I will encourage AOCS committees to expand their efforts to up-date old methods and develop new ones when the need arises. Through such work as this, the AOCS deserves the support of members and industry alike; without the AOCS methods, much trade and business would be difficult, if not impossible.

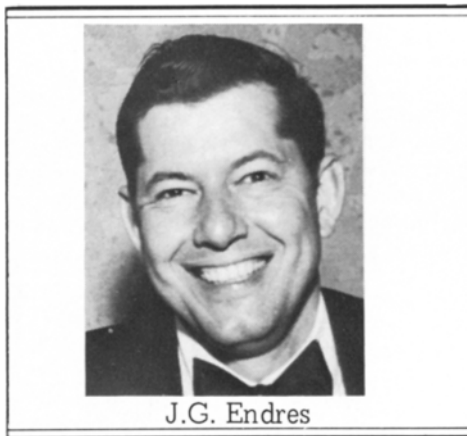

There are many disciplines in the AOCS relating to chemistry, engineering, and economics. I will support Program Committee efforts to encourage meetings of interest to each group, and I will plan forums within the AOCS at which members will meet others who have like interests.

Services of the AOCS to its members and industry cost money, and the AOCS has been intentionally slow to raise dues. As your incumbent treasurer, and perhaps your future vice president, I promise to seek means to decrease expenses and to augment income by means which do not rely solely upon increases in dues.

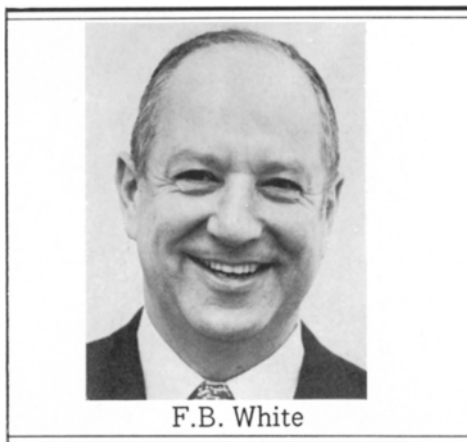

—F.B. White

F.B. WHITE (1948): Manager of International Operations and Coordinating Manager, Process Plants Division, Foster Wheeler Corp., Livingston, N.J. B.S. and Masters, Chemical Engineering, Princeton University; Professional Engineer License, University of State of New York; New Jersey State Board Professional Engineer License. Formerly employed by Sylvania Indus-

White, Endres in vice presidential race

trial Co. AOCS: Treasurer, 1974-75; Chairman, Finance Committee, 1971-; Chairman, Public Relations Committee, 1970-; Member, Environmental Control Committee, 1970-; Member, International Relations Committee, 1968-; Member, Communications Committee, 1968-70; Member, Hotel Selection Committee, 1950-51, 1956, 1970; General Chairman, Fall Meeting, 1968; Member, National Meeting Planning Committee, 1966; Special Far East Representative, 1963-66; Hotel Chairman, New York Convention, 1960; member, Membership Committee, 1953; Member, Advertising Committee, 1952; Lecturer, Short Courses, 1952, 1956, 1970; Northeast Section President, Symposium Chairman, 1972. Fellow, American Institute of Chemical Engineers; Treasurer, Cub Scout Pack 166, Randolph, N.J.

Our Society has had an outstanding history of service to its members and to the corporations and institutions they represent. Members benefit through the reporting of scientific and technical information in our journals and from the highly regarded technical methods program and the work of our many committees. Our membership has recognized the value of these services. Membership has grown because of these services. The AOCS has been singularly successful in blending and meeting the exigency of government, academia, and industry, both domestically and internationally. The journals continue to be one of the best forums for reporting scientific and technical research. The technical methods program, on the other hand, has become relatively static. This situation must be reversed. A financially strong society can respond to membership needs and desires and provide the desired services.

If I am chosen by the members to serve them, I will pursue a program of action to stimulate the activity of our technical committees, enhance the scope of our journals, ensure financial strength and growth, and maintain a sensitivity to the needs of all segments of our society, both here and abroad.

—J.G. Endres

J.G. ENDRES (1961): Food product development director, Central Soya Company, Inc., Chicago, Ill. B.S. Chemical Engineering, University of Illinois, 1955; Ph.D., Food Science, University of Illinois, 1961. Research chemist, Armour Food Research, 1961-1964, assistant director of research, Armour Food Research, 1964-1970; vice president and director of research and engineering, CFS Continental, 1970-1972. Assistant professor, Department of Food Science, University of Illinois, 1974-. Author of numerous papers and patents on thermal oxidation, fat technology and bakery technology. AOCS: Treasurer, 1970-74; Chairman, Society Improvement Committee, 1974-; Technical Correspondent, 1970-; Chairman, Scopes Committee, 1970-74; Member, Publications Committee, 1973-; Member, Education Committee, 1973; Advisor and Plant Tours Chairman, Fall Meeting, 1973; Member, Ways and Means Committee, 1967-; Abstract Committee, 1964-71; Board Member-at-Large, 1968-70; Member, Nominating Committee, 1965-1967; North Central Section President, 1970-71, Treasurer, 1968-70, and Board Member, 1966-69.

Candidate for president: W.E. Link

W.E. Link

W.E. LINK (1954): Manager, Analytical Chemistry, Ashland Chemical Co., Research and Development Division, Ashland Oil Inc., Columbus, Ohio, 1969-. B.S., Northland College, Ashland, Wis., 1942. M.S., University of Wisconsin, 1951, Ph.D., 1954. Assistant Professor, Northland College, 1947-52; Research Chemist, Archer-Daniels Midland Co., 1954-55; Group Leader, 1955-67; Group Leader, Ashland Chemical Co., 1967-69. Author of numerous papers and articles on analysis of fats and oils, nitrogen derivatives, alkyl resins, and gas liquid chromatography. AOCs: Vice-President, 1974-75; Chairman, Membership Committee, 1974; Secretary, 1973-74; Meetings Planning Committee,

1973-74; Communications Committee, 1973-74; Publication Committee, 1972-; Editor, AOCs *Official and Tentative Methods*, 1971; Board Member-at-Large, 1971; Chairman, Industrial Oils and Derivatives Analysis Committee, 1969-71; National Program and Planning Committee, 1968; Instrumental Techniques Committee, 1962-; Gas Chromatography Committee, 1961-; Member, Spectroscopy Committee, 1967-; Program Chairman, Minneapolis Meeting, 1969; Chairman, Standards Committee, 1962-68; Minneapolis Convention, 1963; Minneapolis Short Course, 1959; Chairman, Statistical Committee, 1957-62; Chairman, Peroxide Committee, 1955-58.

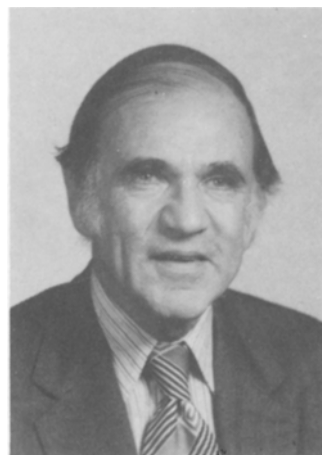

F.P. KHYM (1944): Manager, Finished Food Products Plant, Anderson Clayton Foods, Monterrey, Mexico. Certificate of Industrial Engineering, Morgan Park College; attended Armour Institute of Technology; advanced work, University of Chicago. Formerly employed by Armour and Co. Thirty-five years experience in fats and oils industry. AOCs: General Chairman, Spring Meeting, 1974; Member, Meetings Planning Committee; Member, Program and Planning Committee; Director, first Latin American Short Course on Fats and Oils, 1967; Monterrey Section officer and consultant. First Vice-President, American Chamber of Commerce of Mexico; Treasurer, Instituto Mexico, Norte American, Relaciones Culturales; Rotary member; former President and Board Member, American School Foundation of Monterrey; former President, American Society of Monterrey.

F.P. Khy

Khy, Salomon bid for secretary

H.G. SALOMON (1952): President, L.A. Salomon and Brother, Inc., Port Washington, N.Y. B.S. in economics, Wharton School of the University of Pennsylvania, 1934. AOCs: Ways and Means Committee; National Meeting Planning Committee; AOCs Foundation President and Treasurer; General Chairman, 1971 Atlantic City Meeting; Chairman, 1968 New York Convention Fund Raising Committee, Chairman, 1960 New York Convention Exhibits; Advertising Committee, 1957-64; Membership Committee, 1957-64; 1957 Cincinnati Convention, Exhibits; Northeast Section President (1963-64), Vice-President (1962-63), Secretary (1960-62). Member, Chemists' Club of New York, Waterworks Association, and Trustee of Port Washington Public Library.

H.G. Salomon

Krishnamurthy, Firestone vie for treasurer

D. Firestone

D. FIRESTONE (1955): Research Chemist, Division of Chemistry and Physics, Bureau of Foods, Food and Drug Administration, Washington, D.C. B.S., chemistry, City University of New York, 1948; M.S., chemistry, Polytechnic Institute of Brooklyn, 1951; Ph.D., organic chemistry, George Washington University, 1969. AOCs: Member-at-Large, Governing Board, 1974-; Member, Uniform Methods Committee, 1974-; Member, Instrumental Techniques Committee, 1960-; Member, National Program and Planning Committee, 1966-70, 1972-; Member, Award in Lipid Chemistry Canvassing Committee, 1972-73; Member, Program Committee, AOCs-AACC Joint Meeting, 1968; Lecturer, Short Courses 1966 and 1967. Member, American Chemical Society; Member, Association of Official Analytical Chemists.

R.G. Krishnamurthy

R.G. KRISHNAMURTHY (1961): Group Leader, Edible Oil Products, Kraftco Corp., Glenview, Ill., 1967-. B.S., University of Mysore, India, 1951; M.S., Rutgers University, 1964; Ph.D., Rutgers University, 1965. Assistant Research Professor, Rutgers University, 1965-66; Research Chemist, Best Foods Division, CPC International, 1966-67. AOCS: Award of Merit, 1974; Member-at-Large, Governing Board, 1974-; Chairman, Scopes Committee, 1974-; Chairman, Local Section Committee, 1974-; Chairman, Technical Program, Fall Meeting, 1976; Member, Flavor Nomenclature Committee, 1969-; Mem-

ber, Meetings Planning Committee, 1967-; Chairman, Fall Meeting Registration 1973; Member, Nomination and Election Committee, 1973; Chairman, Bond Award Committee, 1971-73; Technical Program, ISF, 1970; Member, Literature Review Committee, 1961-66; McGee (Honor Student) Award, 1963; North Central Section Vice-President, 1974, Secretary-Treasurer, 1973, Publicity Chairman, 1972, Technical Program Chairman, 1971. Recipient, Jaipuria Gold Medal of All India Oil Technologists' Association, 1954, American Men and Women of Science.

Three members-at-large to be chosen from six candidates

N. PELICK (1962): Chairman of the Board, Supelco, Inc., Bellefonte, Pa. B.S., 1959, M.S., 1964, Pennsylvania State University. Fields of interest: (A) separation and purification of natural fat compounds from animal, plants, and bacteria; (B) gas and thin layer chromatographies of lipids, and (C) isolation and identification of glycosphingolipids. Author of 12 publications in the field of lipids and 2 patents for thin layer chromatography apparatus. AOCS: Member, Board of Directors, AOCS Foundation, Treasurer, 1973; Chairman, Education Committee, 1972; Chairman, Biochemical Methods Committee, 1971, 1969; Cochairman, Education Committee, 1970; Cochairman, Biochemical Methods Committee, 1970; Member, Lipid Award Committee, 1964-65, Chairman, 1966; Lecturer, 1974, 1973, 1970, 1964 Short Courses; Cochairman, 1972 Short Course; Chairman, Local Arrangements Committee, 1966 Short Course; Chairman, Local Arrangements Committee, 1964 Symposium; Northeast Section Member. Member, National Research Council, National Academy of Sciences on Lipids.

N.O.V. SONNTAG (1953): Director of Research, Glyco Chemicals, Inc., Williamsport, Pa. B.S., 1948, Ph.D., 1951, Polytechnic Institute, Brooklyn. Fields of research: fatty acids research and development, fatty chemicals, hydantoin chemicals, emulsifiers, food from fats, synthetic fatty acids, fatty acid chlorides, amides, esters, halogenated fats and derivatives. Group Leader, 1960-67, Emery Industries; Associate Manager, Chemicals Research, 1960-67, National Dairy Research and Development Division. AOCS: Member, AOCS Foundation, 1974-; Chairman, Program and Planning Committee, 1971-73; Member, Fatty Nitrogen Committee; Member, Analytical Committee. Member, American Chemical Society.

N. Pelick

N.O.V. Sonntag

T.H. Applewhite

V.K. Babayan

T.H. APPLEWHITE (1959): Manager, Edible Oil Products Laboratory, Kraftco Corp., Research and Development, Glenview, Ill. B.S., 1953, Ph.D., 1957, California Institute of Technology. Research Chemist, Dow Chemical Corp.; Research Chemist and Investigation Head, Western Regional Laboratory, USDA, 1959-67; Research Director, Pacific Vegetable Oil Corp., 1967-69. Author of over 35 publications and patents. AOCS: Chairman, World Conference on Oilseed and Vegetable Oil Processing Technology, 1976; Associate Editor, 1967-; Member, Publications Committee, 1967-71, 1973-; Member, Society Improvement Committee, 1971-73; Member, Program and Planning Committee, 1969-71; General Chairman, Spring Meeting, 1969; Member, Drying Oils Committee, 1967-69; Member, Safflower Seed Analysis Committee, 1967-69; Member, Membership Committee, 1964-65; Northern California Section Officer, 1962-65, Chairman, 1964.

V.K. BABAYAN (1948): Vice-President, Research and Development and Quality Control, Stokely-Van Camp, Inc., Indianapolis, Ind. B.A., Chemistry, 1938, and postgraduate work, 1938-43, New York University. Director, Laboratories, Drew Chemical Corp, 1962-65; Director, Research and Development, E.F. Drew and Co., 1949-62; Chief Chemist, Theobald Industries, 1948-49; Director, Research and Development, Ridbo Laboratories, 1941-48. Author of numerous articles and patents concerning various aspects of nutrition, fats and oils, and fatty derivatives. AOCS: Member, AOCS Foundation Board of Directors; Member, Membership Committee, 1970-; Member, Methods Committee; Chairman, various seminars and symposia. Member, American Chemical Society, Institute of Food Technology, National Canners Association, American Association of Cereal Chemists, New York Academy of Science, American Association for the Advancement of Science, Association of Research Directors, Chemists' Club.

F.C. NAUGHTON (1955): Manager, Product and Process Development Department, Industrial Chemical Division, NL Industries, Inc., Hightstown, N.J. M. Ch. Engineering, Polytechnic Institute, Brooklyn. AOCs: Member, Hotel Selection Committee and General Chairman, 1977 National Meeting; Member, Meetings and Planning Committee, 1969-74; Member, Local Sections Committee, 1974; Member, Nominating Committee, 1966, 1974; Member, Philadelphia Convention Committee, 1966, 1974; Member, Communications Committee, 1968-73; Member, Hydrogenated Oils Committee, 1972-73; General Cochairman, Atlantic City Meeting, 1971; Member, Education Committee, 1969-70; Chairman, New York Meeting Registration Committee, 1968; Member, Short Course Committee, 1968; Member, New York Meeting Committee, 1960; President's Honor Roll; Northeast Section President, 1967-68, Vice-President, 1966-67, Secretary, 1963-66, Symposium Chairman, 1971, member, Achievement Award Committee.

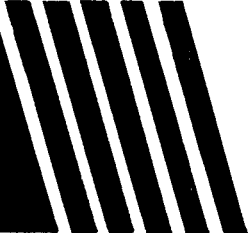

F.C. Naughton

G.A. Jacobson

G.A. JACOBSON (1953): Division Head, Basic Research Department, Campbell Institute for Food Research, Camden, N.J. B.S., 1948, M.S., Chemistry, 1949, Kansas State University; Ph.D., Food Science and Biochemistry, University of Illinois, 1953 (F.A. Kummerow, Major Professor). Research Chemist, Swift and Co., 1953-56. Research publications in chemical measurements of fat flavor, chemical and biological changes in frying fats, and physical and chemical changes in fats and oils during interesterification; Patents on crystal modification of fats and natural antioxidants. AOCs: Member-at-Large, Governing Board, 1974-; Chairman, Fall Meeting Publicity Committee, 1974; Executive Chairman, Membership Committee, 1973-; Member, Program Planning Committee, 1973-; Member, Nominating Committee, 1973; Member, Flavor Standards Subcommittee, 1968-; Member, Finance Committee, 1970-73; Technical Program Chairman, Fall Meeting, 1971; Chairman, Fall Meeting Finance Committee, 1966; Northeast Section Governing Board, 1973-.

HYDROGEN

You need it at a price which is competitive despite the ever-rising costs and a shortage of natural gas and oil. Your future demand for economically produced hydrogen even in small quantities will be filled by a

BAMAG Waterelectrolyser

Here are some facts you should know:

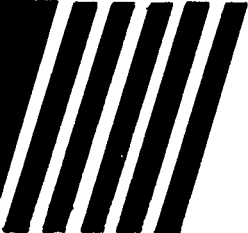

- gas of the highest purity
- low energy consumption
- capacities from 3 to 340 Nm³/h H₂
- automated
- low personnel costs
- friendly to the environment
- 230 units built over the last 45 years in all parts of the world

These are only a few of the advantages a BAMAG Water- electrolyser can offer. Please write for more information.
