

Eastman vs. Instability

Vegetable oil? A few years ago we introduced a new antioxidant, Tenox[®] TBHQ (tertiary butylhydroquinone).

In vegetable oils, particularly the more polyunsaturated oils, TBHQ has proven to be an extremely effective antioxidant.

If you use BHA or BHT in your oil, you might be better off with TBHQ. At least, it may be worthwhile to find out.

If you haven't evaluated TBHQ, we would like to help. Call 800-251-0351 (in Tennessee 800-352-0301) or send us this coupon.

Better Products for Better Food.

Health and Nutrition Division

Eastman Chemical Products, Inc., Kingsport, Tenn. 37662.

Please send me more information on Tenox TBHQ.

Northeast Section News

Annual Achievement Award Presented to Monick

On September 14, 1976, the Northeast Section of the American Oil Chemists' Society will present John Monick with their Annual Achievement Award. At the Awards Banquet, Monick will speak on the subject, "Industrial Research—What Is It?"

Monick has been employed by the Colgate-Palmolive Company for 38 years in various research and development areas. He is a research associate and was formerly head of Organic Chemical Development. He received a PhD in engineering science from New York University in 1955. He has since completed nine publications, including a recent book entitled *Alcohols*, and holds a dozen patents in the areas of detergents, fuels, and various mixing and drying processes.

Among his achievements, Monick assisted Martin H. Ittner in the splitting of fats and oil, and beta phase soap. In 1950, he produced the first pound of sprayed FAB for Colgate-Palmolive. He was also in charge of GARDOL development for toothpaste.

A member of AOCS since 1950, Monick has worked on the Publicity and House committees of the national Society and program committees of the Northeast Section.

1976-77 Officers Elected

Francis Luddy of USDA's Eastern Regional Research Labs is the 1976-77 president and Howard Gordon of Hoffman-LaRoche the new vice president of the Northeast Section. Reuben Grinstein (Diamond Shamrock) was elected secretary, David Berner (CPC International) is treasurer, and directors are Harry Theobald, Jr. (Theobald Industries), Lucy Sun Hwang (Hoffmann-LaRoche), Manny Eijadi (PVO International), and Kak-Yuen Tao (W.A. Cleary).

Northeast Section officers for 1976-1977. Left to right: Reuben Grinstein, Francis Luddy, David Berner, and Howard Gordon.

Left to right: Art Wrigley, Frank White, and David Berner.

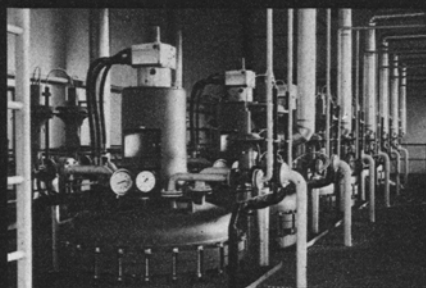

Standing: Howard Gordon. Left to right: Henry Salomon, Manny Eijadi, and Nelson Lossen.

1976-77 Northeast Section Program Chosen

At a meeting in June at the home of Manny Eijadi, the following program for the year 1976-77 was selected:

Date	Subject	Location	Chairman
Sept. 14, 1976	Annual Awards Banquet	Robinhood Inn Clifton, NJ	K.Y. Tao
Oct. 12, 1976	Natural Antioxidants and Minor Components in Oil Processing	Rutgers University	S. Chang
Dec. 7, 1976	Protein Utilization	Chemists Club, New York City	Glen Jacobson
Feb. 8, 1977	Annual Symposium	Newark, NJ	M. Eijadi, J. Marcus, R. Grinstein
March 29, 1977	Future of Tall Oil and Rosin Fatty Acids	New Brunswick, NJ	N. Lossen, W. Bernholz
June 14, 1977	Nutrition	Robinhood Inn Clifton, NJ	H. Gordon

FUNDA[®] Filtration

The FUNDA[®]-Filter is widely used in the oil industry for the following processes:

Raw oil (bruised grain)
Neutralized oil (bleaching)
Hydrogenized oil (catalyst)
Miscella
Winterisation
Cosmetics

Our company have developed many different extraction processes by means of Hexane, water, steam, inert gas.

These processes are carried out directly in the filter and usually followed by dry discharge, to avoid any pollution.

All our installations can be delivered with fully automatic controls.
