## Editorial

Dear Colleagues:

This January issue of the Journal of the American Oil Chemists' Society has a new cover design, our first in 15 years. But that's not the only change. The News Section has been reorganized and redesigned to make it easier for you to find articles of interest.

The review process for technical articles will not be changed. We will clearly indicate reviewed articles by using the AOCS symbol of crossed flasks with the title of each reviewed article. Minor typographical changes have been made to make technical articles more readable.

The purpose of all these changes has been to make JAOCS more attractive, easier to read and lower in cost. We would appreciate having your comments.

Sincerely,

A.R. Baldwin  
AOCS Director of Publications
