In This Issue

We think you'll find some interesting reading in this issue of *JAOCS*. To start with, there's our cover story on the formal opening of Lever Brothers \$43-million addition to its soap production facilities in Hammond, Indiana. You'll also find a photograph tour of the new sunflower processing plant built at Riverside, North Dakota, by Cargill. It's the first large-scale, all-sunflower processing facility in the United States. Finally, and to some this will be saving the best for last, there is the Award in Lipid Chemistry acceptance lecture presented by Dr. James Mead during the 1980 ISF/AOCS World Congress.
