

Lipids

JULY 1980

Glucagon and N⁶,O^{2'}-Dibutyryl Adenosine 3':5'-Monophosphate Inhibition of Lipogenesis and Phosphofructokinase Activity of Hepatocytes from Meal-fed Rats

Surface Viscosities of Phospholipids Alone and with Cholesterol in Monolayers at the Air-water Interface

Cigarette Smoke Affects Lipolytic Activity in Isolated Rat Lungs

Factors Affecting Fatty Acid Oxidation in Bovine Mammary Tissue

Singlet Oxygen Oxidation of Methyl Linoleate: Isolation and Characterization of the NaBH₄-reduced Products

Effect of Dietary Fatty Acid Composition on the Biosynthesis of Unsaturated Fatty Acids in Rat Liver Microsomes

The Influence of Urea on Lipogenesis in Renal Papillae of Rats

Lipids of Myocardial Membranes: Susceptibility of a Fraction Enriched in Sarcolemma to Hydrolysis by an Exogenous Mammalian Phospholipase A₂

New publications

Advanced Inorganic Chemistry, 4th Edition, by F.A. Cotton and G. Wilkinson, 1980, John Wiley & Sons, 1936 pp., \$27.50.

Kinetics Applied to Organic Reactions, by W. Drenth and H. Kwart, 1980, Marcel Dekker, Inc., 207 pp. \$19.75.

Functional Fluids for Industry, Transportation and Aerospace, edited by M.W. Ranney, 1980, Noyes Data Corporation, 364 pp., \$45.

Inorganic Reaction Chemistry, Systematic Chemical Separation, by D.T. Burnes, A. Townshend and A.G. Catchpole, 1980, John Wiley and Sons, 248 pp., \$57.50.

Advances in Lipid Research, Vol. 17, edited by R. Paoletti and David Kritchevsky, 1980, Academic Press, 308 pp., \$31.

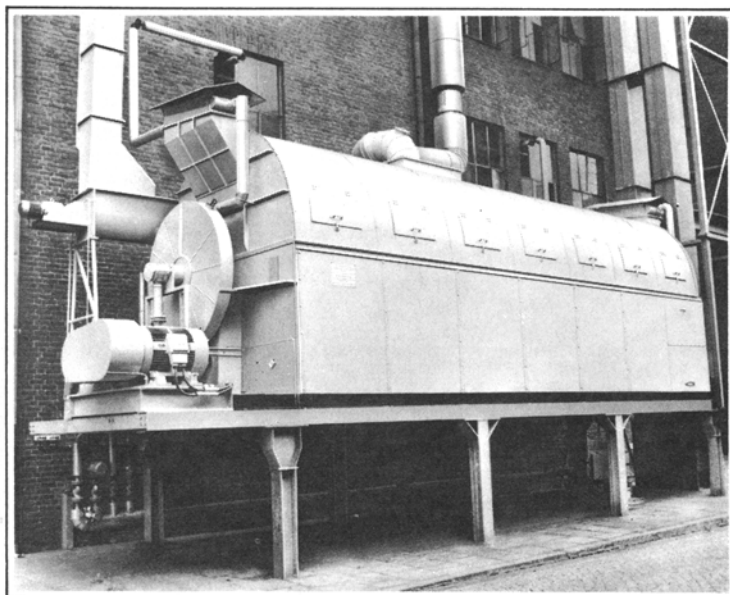

Vitamin E: A Comprehensive Treatise, Vol. 1, edited by L.J. Machlin, 1980, Marcel Dekker, Inc., 660 pp., \$79.50.

Long-Term Properties of Polymers and Polymeric Materials, edited by B. Ranby and J.F. Rabek, 1980, John Wiley & Sons, 608 pp., \$28.

Quantitative Toxicology (Selected Topics), by V.A. Filov, A.A. Golubev, E.I. Liublina and N.A. Tolokontsev, 1980, John Wiley & Sons, 462 pp., \$32.50. □

VETTER Tube Bundle Dryers

(steam-heated) for

- 1 conditioning crushed soybeans
a) with additional drying
b) with additional moistening
- 2 desolventizing soybean meal in a gastight, pressure-tight and explosionproof design, for installing between the extractor and the toaster
- 3 drying desolventized soybean meal
- 4 cooling the dried soybean meal
- 5 the combined drying and cooling of the meal

Please ask for our reference list. We are represented in all parts of the world. For more information, name and address of our nearest agency, please contact:

**Hans Vetter
Maschinenfabrik**
