Call for nominations

AWARD IN LIPID CHEMISTRY

In April 1964, the Governing Board of the American Oil Chemists' Society established an Award in Lipid Chemistry under the sponsorship of the Applied Science Laboratories, Inc., State College, PA. Previous awards were presented as follows: Erich Baer, 1964; Ernest Klenk, 1965; H.E. Carter, 1966; Sune Bergström, 1967; Daniel Swern, 1968; H.J. Dutton, 1969; E.P. Kennedy, 1970; E.S. Lutton, 1971; A.T. James, 1972; F.D. Gunstone, 1973; P.K. Stumpf, 1974; W.O. Lundberg, 1975; George Popjak, 1977; Ralph Holman, 1978; Stephen S. Chang, 1979; James F. Mead, 1980; Laurens van Deenen, 1981.

The award consists of \$2,500 accompanied by an appropriate certificate. It is planned that the eighteenth award will be presented at the AOCS Annual Meeting in Toronto, May 2-6, 1982.

Canvassing Committee Appointees

Policies and procedures governing the selection of award winners have been set by the AOCS Governing Board. An Award Nomination Canvassing Committee is appointed; chairman is Earl G. Hammond. The function of this committee is to solicit nominations for the eighteenth award. Selection of the award winner will be made by the Award Committee whose membership will remain anonymous.

Rules

The rules prescribe that nominees will have been responsible for the accomplishment of original research in lipid

chemistry and must have presented the results thereof through publication of technical papers of high quality. Preference will be given to individuals who are actively associated with research in lipid chemistry and who have made fundamental discoveries that affect a large segment of the lipid field. For award purposes, the term "lipid chemistry" is considered to embrace all aspects of the chemistry and biochemistry of fatty acids, of naturally occurring and synthetic compounds and derivatives of fatty acids, and of compounds that are related to fatty acids metabolically or occur naturally in close association with fatty acids or derivatives thereof. The award will be made without regard for national origin, race, color, creed, or sex.

Letters of nomination together with supporting documents must be submitted in octuplicate to Earl G. Hammond, Department of Food Technology, Iowa State University, Ames, IA 50011, USA, before the deadline of November 1, 1981. The supporting documents will consist of professional biographical data, including a summary of the nominee's research accomplishments, a list of his publications, the degrees he holds, together with the names of the granting institutions, and the positions held during his professional career. There is no requirement that either the nominator or the nominee be a member of the American Oil Chemists' Society. In addition, letters from at least three other scientists supporting the nomination must be submitted in octuplicate.

Remember the deadline: November 1, 1981

1981 Official Referee Chemists Certified

The AOCS Examination Board has certified official referee chemists working for 51 analytical laboratories, based on the chemists' participation in the Smalley Check Sample Program.

Applicants must demonstrate high proficiency in fats and oils and oilseed analysis, using designated methods on check samples distributed through the AOCS Smalley Program.

Laboratories employing referee chemists are listed below in alphabetical order, followed by a listing of the categories in which certificates are granted. Each laboratory has a number

code; each analytical category has a letter code. The two lists are cross-referenced. Each laboratory listing includes the letter code for analytical categories in which it has an Official Referee Chemist; each category listing is followed by the number codes for those laboratories employing an Official Referee Chemist in that specialty.
