

Exhibitors

ATT-Verfahrenstechnik GmbH (Booth 74). Information will be available on installation and processes for the production and purification of oleochemicals like fatty acids and fatty acid derivatives (esters, nitrile, amines, salts) fatty alcohols, glycerine, mono-glycerides, glycols by straight-run distillation, fractionation, extraction, crystallization and reaction methods (splitting, dehydration, esterification, interesterification, dimerization, polymerization, isomerization and hydrogenation). Address: 9, Ludgeristrasse, 4400 Münster, West Germany.

Ballestra S.p.A. (Booth 52). The company designs and builds patented plants for the chemical industry. Address: Via Fantoli, 21/17, 20138 Milano, Italy.

Bofors Nobel Chematur (Booth 76). Information will be available on the Bofors-Nobel centrifugal separator which can be used as a replacement for bulky washing vessels, cracking-settlers and boilers. Address: Box 800, S-691 80 Bofors, Sweden.

BBC Brown, Boveri & Co., Ltd. (Booth 57). BBC presents their ozone technology, renowned for efficiency, reliability, high ozone concentrations, small space requirements and low maintenance costs. BBC ozone generating plants are designed for operation with air or oxygen as the fuel gas. BBC ozone systems for the ozonolysis of fatty acids. Address: P.O. Box 58, CH-5401 Baden, Switzerland.

Chemap A.G. (Booth 54). Address: Alte Landstrasse, CH-8708 Mannedorf, Switzerland.

Desert Whale Jojoba Company, Inc. (Booth 47). As the leading manufacturer and exporter of jojoba seed, oil and derivative products, Desert Whale will be exhibiting their pure, cold-pressed jojoba oil, refined colorless jojoba oil, hydrogenated jojoba wax and transisomerized jojoba oil, all reflecting consistently strict quality control as well as a superior triple filtering system. Address: P.O. Box 41594, Tucson, Arizona 85717, USA.

Fratelli Gianazza S.p.A. (Booths 62 and 71). On display will be models of "Contipercol" which is a continuous high pressure fat-

splitting plant, a fatty acids distillation plant, a glycerine distillation and bleaching plant and an oil hydrogenation plant. Address: Viale Cadorna 78/84, 20025 Legnano, Milano, Italy.

Harshaw Chemie B.V. (Booths 63, 64, 65 and 66). Harshaw will exhibit its complete program of catalysts for the oleochemicals industry: nickel catalysts for fatty amine production and fatty acid production; nickel, cobalt and copper chromite catalysts for the oxo-process; copper-chromite catalysts for fatty nitrites production. Address: 67 Strijkviertel, De Meern, The Netherlands.

Jojoba Growers Association (Booth 70). Photographs and samples of jojoba oil, seed, meal, wax and plants will be displayed. Literature and samples of oil will be available for distribution. Address: 3420 East Shea Blvd. #125, Phoenix, Arizona 85028, USA.

L.F.C. Lochem B.V. (Booth 69). Among the items featured in the exhibit will be the L.F.C. Lochem pressure leaf-filters for edible and vegetable oil applications and chemical and oleochemical applications; filters especially suitable for bleaching, winterization, catalyst removal, amine filtration and all polishing applications and replacement filter-leaves for several filter types. Address: Havenstraat 5, P.O. Box 35, 7240 AA Lochem, Holland.

Lurgi Umwelt und Chemotechnik GmbH (Booth 68). The exhibit will feature information on planning and construction of complete plants for the production of fatty alcohols, methyl esters, fatty acids and glycerine by the following processes: pressure splitting of fats and oils, distillation and fractionation of fatty acids and fatty alcohols, fatty alcohols by catalytic high pressure hydrogenation of fatty acids, catalytic hydrogenation of fatty acids, hydrogenation by pressure, electrolysis of water, pretreatment and evaporation of sweet water, high vacuum distillation of crude glycerine, separation of stearin and olein by wetting agents (Henkel system), esterification of fatty acids with methanol (Henkel system) and transesterification of fats and oils with methanol. Address: P.O.B. 11 12 31, Gervinusstr. 17/19, D-6000 Frankfurt am Main 11, West Germany.

Exhibitors

G. Mazzone S.p.A. (Booths 48 & 53). General literature, advertising material and photographic panels will be displayed. Address: 10-12 Viale Trentino, Busto Arsizio I-21052, Italy.

Mettler Instrumente AG (Booths 55 & 56). Mettler will exhibit the TA3000 Thermal Analysis System, the FP800 Thermo System, the DL 40RC Memo Titrator for automatic titrations and Mettler electronic analytical and precision balances. Address: CH-8606 Greifensee, Switzerland.

Palm Oil Research Institute of Malaysia (Booths 58 & 60). Information on palm oil regarding its production, characteristics, utilization and export statistics will be provided through posters and audio visual presentation. Samples of palm oil, its various products and PORIM technology booklets shall be displayed. Address: 18th Floor, Angkasa Raya, Jalan Ampang, Kuala Lumpur, Malaysia.

Schmidting-Werke (Booth 75). The exhibit will feature a model of a fractional crystallizer for fatty acids, fatty acid crystals, pictures, flow sheets and general information on distillation plants for fatty chemicals. Address: Emdener Strasse 10, D-5000 Cologne 60, West Germany.

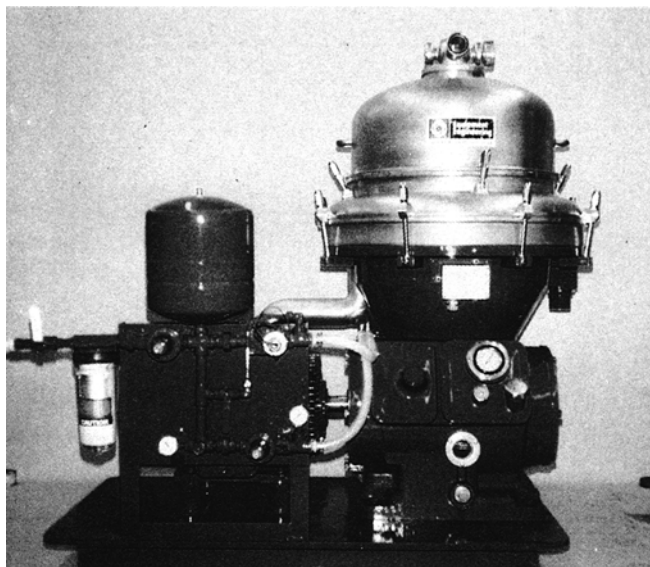

Ste. Nouvelle des Ets. Olier (Booth 76). Address: 12, Rue Amadeo, 63000 Clermont-Ferrand, France.

Technicon (Booth 67). Address: 6-10 Quai De Seine, 93200 Saint-Denis, France.

Tintometer GmbH (Booth 61). On display will be Lovibond automatic and visual color measuring instruments which conform to the AOCS, FAC and Lovibond specifications. Address: Westfalendamm 73, D-4600 Dortmund 1, West Germany.

Westfalia Separator AG (Booth 73). The exhibit will feature information on degumming, conditioning and alkaline-refining of edible oils, fractionation and winterization plants. Address: 4740 Oelde, West Germany.
