HOLLOW FLATES AND/OR FRAMES?
Yes, Star makes them!

For heating, cooling, or maintaining the temperature of your filtrate, we can fabricate your Star filter with hollow plates and or frames.

They're ideal for filtering difficult liquids! To heat thick syrups, waxes, stearates, paraffin, lard and materials solid or semi-solid at room temperature. To chill perfumes, shampoos and solvents to congeal insoluble oils. Or, to maintain temperatures of anti-biotics, intramuscular injection fluids and blood, so subject to deterioration if too hot or too cold.

FROM 1/2" TO 36" SQUARES
 1 GPM TO 2,000 GPM

with a Star filter, you'll wonder where the free fatty acids went!
