IFSCC elects officers

Dr. S. Ohta of Japan has been elected 1985-86 president of the International Federation of Societies of Cosmetic Chemists, succeeding Dr. J. Rubin of Argentina.

Other officers for the year include J. Puig Martin of Spain as vice president, R. Luks of Switzerland as treasurer, W. E. Lange of the United States as honorary secretary, and L. Motitschke of Germany, P. J. Rothwell of Great Britain, R. van Croonenborgh of The Netherlands and G. Bucher of the United States as committee members on the IFSCC presidium.

At the IFSCC annual meeting, the council established a new award named for the late M. G. de Navarre, an AOCS member who was instrumental in establishing the IFSCC.

The 1986 IFSCC International Congress will be held in mid-September in Barcelona, Spain.

News briefs

The implementation of exploration

and development programs in certain countries will cause oilfield chemical consumption to rise sharply as these countries attempt to reduce their dependency on foreign oil imports and/or increase crude oil exports, according to a study conducted by Colin A. Houston & Associates. The firm, based in Mamaroneck, New York, explained that the soft crude oil market does not necessarily translate into lackluster world oilfield chemical growth. However, it added, OPEC member-countries will have much lower growth rates than non-OPEC countries.

Stepan Co. has named Edward T. C. Hyer Jr. plant manager for the company's manufacturing facility in Winder, Georgia.

Chevron Chemical Co. has appointed J. E. (John) Peppercorn to the position of senior vice president, industrial chemicals, San Francisco. In this post, he will be responsible for activities of the Aromatics and Derivatives, Olefins and Derivatives and Oronite Addi-

tives Divisions, as well as activities of Chevron do Brasil.

The PQ Corporation has appointed Richard W. Kelso as vice president and director of plant operations expertise.

Cyclo Chemicals Corp. has appointed Brad Rope as technical sales representative for the West Coast. He will be based at the

Cyclo Manufacturing Plant in Los Angeles.
