PRODUCTION MANAGER

We are looking for a Mechanical/Chemical/Industrial Technology Engineer to direct the activities of our Bulk Products Dept. Our growing company has been manufacturing a variety of products from fats and oils for over 40 years. We need an active, hands-on manager with either an engineering degree or comparable production experience in fats and oils. You will find our compensation and benefit programs attractive and our production team among the best. Send resume and salary history to: Operations Manager Bulk Products, **Valley Products Co.**, P.O. Box 16745, Memphis, Tennessee 38186. Equal Opportunity Employer.

WANTED: A research institute in Beijing, China would like to have a set of the past issues of *JAOCs* and/or *LIPIDS*. They prefer to have the issues covering the last 20 years and will pay for the shipping cost. If you or if you know someone who is willing to donate his journals, please contact Peter Wan at Kraft, Inc., 801 Waukegan Road, Glenview, IL 60025; TEL: (312) 998-7939.

PROGRAM LEADER— OIL AND FATS TECHNOLOGY

The Food Protein Research and Development Center is seeking a Ph.D. level Chemist/Food Scientist/Engineer to organize and lead a fats and oils processing and utilization research program. The individual must be able to communicate effectively, organize work, teach a course in fats and oils technology, and lead technical staff and graduate students. Applicable experience in oils and fats will be recognized in salary and title, and training of individuals with skills in allied fields will be considered. Send resumes and inquiries to Dr. E.W. Lusas, Director, Food Protein Research and Development Center, Texas A&M University, FM-183, College Station, TX 77843-2476. Phone: 409/845-2741. An Equal Opportunity/Affirmative Action Employer.
