## Errata

On Page 746 of the June 1989 *JAOCS*, the name of International Bio-Synthetics (IBIS) Inc.'s vice president of business development for U.S. operations was incorrect. The correct name is Jim Reed.

Some lines were misaligned in Table 4 in a Technical News Feature (Page 775, June 1989 *JAOCS*). The table is printed correctly below:

TABLE 4

#### Potential Annual Recoveries from Palm Minor Components

Item	Annual amounts (tons)	Major isomers
Vitamin Es		
PFAD <sup>a,b</sup>	800	$\gamma$ T3, $\alpha$ T3, $\alpha$ T1 <sup>a</sup>
Pruning	26,000	$\alpha$ T1
Replanting	380	$\alpha$ T1
Carotenoids		
CPO <sup>a,b</sup>	4,450	$\beta$ - and $\alpha$ -carotene
Pruning <sup>c</sup>	9,800	$\beta$ -carotene
Replanting <sup>c</sup>	150	$\beta$ -carotene

<sup>a</sup>See Table 2 and Figure 3 for explanation of abbreviations.

<sup>b</sup>The  $\delta$ T3 is of intermediate amount. The  $\beta$ - and  $\alpha$ -carotene ratio is about 2:1.

<sup>c</sup>Rigorous analyses were not given (see ref. 35);  $\beta$ -carotene was the presumed major isomer.
