

# ERRATA

In the paper entitled "A Rapid Method for Extraction of Total Lipids from Whey Protein Concentrates and Separation of Lipid Classes with Solid Phase Extraction," by M.N. Vaghela and A. Kilara (*JAOCs*, Vol. 72, no. 10, 1995, pp. 1117–1121), incorrect values appeared in the middle column of Table 3 (p. 1120). The corrected table in its entirety is reprinted below.

**TABLE 3**  
**Total Lipids of Dry Whey and Whey Protein Concentrates with Varied Protein Content Using Modified Lipid Extraction Procedure**

Dry whey products	Total lipids <sup>a</sup> (% w/w)	
	Method of Clark <i>et al.</i> (Ref. 10)	Present procedure
Whey powder, 12% protein	0.81 ± 0.08	0.89 ± 0.03
Whey protein concentrates, 34% protein	3.48 ± 0.25	3.60 ± 0.18
Whey protein concentrates, 75% protein	7.68 ± 0.31	7.87 ± 0.25

<sup>a</sup>Reported values are means ± standard deviations.
