RICHARD CLAY & SONS, LIMITED,
BUNGAY, SUFFOLK.

CONTENTS

PAPERS COMMUNICATED TO THE CHEMICAL SOCIETY.

	PAGE
I.—The Action of Hydrogen Sulphide on a Neutral Solution of Potassium Permanganate. By HORACE BARRATT DUNNICLIFF and SUKH DAYAL NIJHAWAN	1
II.—Preparation of 1-Halogeno-2-nitronaphthalenes and 2-Nitronaphthalene. By HERBERT HENRY HODGSON and ERNEST KILNER	7
III.—The Influence of Carbon Rings on the Velocity of Reactions involving their Side Chains. Part I. The Hydrolysis of Cyclic and Open-chain Malonic Esters. By RICHARD GANE and CHRISTOPHER KELK INGOLD.	10
IV.—Tesla-luminescence Spectra. Part VI. Some Amino-derivatives. By WILLIAM HAMILTON MCVICKER, JOSEPH KENNETH MARSH, and ALFRED WALTER STEWART	17
V.—The Solubility of Sodium Iodide in Ethyl Alcohol. By FREDERICK ERNEST KING and JAMES RIDDICK PARTINGTON	20
VI.—The Structure of the Normal Monosaccharides. Part III. Rhamnose. By EDMUND LANGLEY HIRST and ALEXANDER KILLEN MACBETH	22
VII.—The Specific Heats of Hydrocyanic Acid. A Reply. By EDITH HILDA INGOLD	26
VIII.—Resolution of <i>dl</i> -Dicentrine. By ROBERT DOWNS HAWORTH, WILLIAM HENRY PERKIN, jun., and JOHN RANKIN	29
IX.—Synthetical Experiments in the <i>iso</i> Quinoline Group. Part VI. A Synthesis of Derivatives of Paraberine. By RAY CAMPBELL, ROBERT DOWNS HAWORTH, and WILLIAM HENRY PERKIN, jun.	32
X.—Keto-enol Isomerism of Ethylenebisacetylacetone. By GILBERT T. MORGAN and CYRIL JAMES ALLAN TAYLOR	43
XI.—The Solubilities of Sodium, Potassium, and Calcium Ferrocyanides. Part I. By MONICA FARROW	49
XII.—Studies of Valency. Part VII. Surface Polarity and the Reaction of Ethylene and Chlorine—The Effect of the Adsorbed Water Layer. By RONALD GEORGE WREYFORD NORRISH and GRIFFITH GLYN JONES	55

	PAGE
XIII.—The Chemistry of the Caryophyllene Series. Part I. By GEORGE GERALD HENDERSON, JOHN MONTEATH ROBERTSON, and (in part) CARL ALOYSIUS KERR	62
XIV.—The Density of Boric Oxide Glass and the Suspected Variation in the Atomic Weight of Boron. By HENRY VINCENT AIRD BRISCOE, PERCY LUCOCK ROBINSON, and GEORGE EDWARD STEPHENSON	70
XV.—Butyl Esters of the Simpler Amino-acids. Part I. By WALTER THOMAS JAMES MORGAN.	79
XVI.—The Nitration of β -Naphthoic Acid and Some New Amino- and Nitro-naphthoic Acids. By HAROLD AINS- WORTH HARRISON and FRANK ALBERT ROYLE	84
XVII.—A Revision of the Structural Formula of Glucose. By WILLIAM CHARLTON, WALTER NORMAN HAWORTH, and STANLEY PEAT	89
XVIII.—Studies in Adsorption by an Optical Method. Fix- ation by Dispersoids of Methylene-blue within the Disperse Phase. By ANDOR FODOR and RASSA RIWLIN	102
XIX.—Substituted Dihydropentazines—A New Series of Cyclic Nitrogen Compounds. By FREDERICK DANIEL CHATTAWAY and GEORGE DAVID PARKES	113
XX.—Purification of Phosphoric Oxide. By GEORGE INGLE FINCH and REGINALD PERCY FRASER	117
XXI.—Production of Arsenic Subsulphide. Reduction of Certain Arsenic Compounds by Sodium Hyposulphite [Hydrosulphite]. By WALTER FARMER and JAMES BRIERLEY FIRTH	119
XXII.—Hydrogen Electrode Studies of the Precipitation of Basic Chromates, Borates and Carbonates. By HUBERT THOMAS STANLEY BRITTON.	125
XXIII.—Chloro-derivatives of <i>m</i> -Hydroxybenzaldehyde. By HERBERT HENRY HODGSON and HERBERT GREENSMITH BEARD	147
XXIV.—The Nitration of <i>m</i> -Bromophenol. By HERBERT HENRY HODGSON and FRANCIS HARRY MOORE	155
XXV.—Condensation of 3-Bromo- and 3-Nitro-4-dimethyl- aminobenzaldehyde with Ethyl Acetoacetate and Ammonia. By LEONARD ERIC HINKEL and WILLIAM REES MADEL	161
XXVI.—The Oxidation of Certain Sesquiterpenes with Chromyl Chloride and Chromic Acid. By DAVID TEMPLETON GIBSON, JOHN MONTEATH ROBERTSON, and JAMES SWORD	164

XXVII.—Action of Hydrogen Fluoride on Compounds of Selenium and Tellurium. Part I. Selenium Dioxide. By EDMUND BRYDGES RUDHALL PRIDEAUX and JOHN O'NEIL MILLOTT	167
XXVIII.—The Hydration of Strong Electrolytes, the Viscosity of their Aqueous Solutions, and the Dilution Law. By JAMES NETHERWOOD SUGDEN	174
XXIX.—Action of Acetylene Tetrabromide on Organic Bases. By JAMES DAVIDSON FULTON	197
XXX.—Heterogeneous Equilibria between the Sulphates and Nitrates of Sodium and Potassium and their Aqueous Solutions. Part I. The Ternary Systems. By MOHAMMED ABDUL HAMID	199
XXXI.—Heterogeneous Equilibria between the Sulphates and Nitrates of Sodium and Potassium and their Aqueous Solutions. Part II. The Quaternary System $H_2O-Na_2SO_4-NaNO_3-K_2SO_4-KNO_3$. By MOHAMMED ABDUL HAMID	206
XXXII.—Preparation, Hydrolysis, and Reduction of the Fluoro-, Chloro-, and Bromo-benzyl Bromides. By JOHN BALDWIN SHOESMITH and ROBERT HENRY SLATER	214
XXXIII.—Cyclic Organo-metallic Compounds. Part I. Compounds of Tellurium. By HARRY DUGALD KEITH DREW	223
XXXIV.—The Quaternary Salts of Benzoxazoles. By LESLIE MARSHALL CLARK	232
XXXV.—Reactions of the <i>meso</i> -Hydroxyanthrones. By MARCUS AURELIUS MATTHEWS	236
XXXVI.— <i>cyclo</i> Hexanespirocyclohexane. By WOODFORD STANLEY GOWAN PLUCKNETT NORRIS	245
XXXVII.—The Interaction between Copper and Sulphuric Acid. By CECIL WILLIAM ROGERS	254
XXXVIII.—Hydrogen Electrode Studies of the Reactions between Solutions of Salts of Weak Metallic Bases and the Acetate, Oxalate, and Tartrate of Sodium, with a Note on the Effect of Dextrose on Zirconium Chloride Solution. By HUBERT THOMAS STANLEY BRITTON	269
XXXIX.—The Absorption of Gases by Colloidal Solutions. By ALOIS GATTERER	299
XL.—The Reciprocal Salt Pair (Na, Ba)-(Cl, NO_3) in Aqueous Solution at 20°. By ALEXANDER FINDLAY and JAMES CRUICKSHANK	316
XLI.—The Equilibrium between Ethyl Alcohol and the Alkali and Alkaline-earth Salts. Part I. By DAVID GLYNWYN ROBERT BONNELL and WILLIAM JACOB JONES	318

XLII.—The Dissociation Pressures of Alcoholates. Part I. By DAVID GLYNWYN ROBERT BONNELL and WILLIAM JACOB JONES	321
XLIII.—The 4- and 4'-Methoxybenzoylbenzoins. By HERBERT GREENE	328
XLIV.—The Reaction between Hydroxylamine and Ferric Chloride. By ALEC DUNCAN MITCHELL	336
XLV.—The Structure of the Normal Monosaccharides. Part IV. Glucose. By EDMUND LANGLEY HIRST	350
XLVI.—3:4- and 2:5-Dimethoxyphenylhydrazine. By WILLIAM HENRY PERKIN, jun., and LEON RUBENSTEIN	357
XLVII.—The System Ferrous Oxide-Phosphoric Acid-Water and Some of its Oxidation Products. By SYDNEY RAYMOND CARTER and NORMAN HOLT HARTSHORNE	363
XLVIII.—Condensations involving Reactive Methyl Groups in Heterocyclic Bases. By JAMES ERNEST HUMPHRIES.	374
XLIX.—The Relative Directive Powers of Groups of the Forms RO and RR'N in Aromatic Substitution. Part I. By JAMES ALLAN and ROBERT ROBINSON	376
L.—The Relative Directive Powers of Groups of the Forms RO and RR'N in Aromatic Substitution. Part II. The Nitration of some 2-Benzoyloxyanisoles substituted in the Benzyl Group. By ALBERT EDWARD OXFORD and ROBERT ROBINSON	383
LI.—The Relative Directive Powers of Groups of the Forms RO and RR'N in Aromatic Substitution. Part III. The Nitration of some <i>p</i> -Alkyloxyanisoles. By ROBERT ROBINSON and JOHN CHARLES SMITH	392
LII.—The Relative Directive Powers of Groups of the Forms RO and RR'N in Aromatic Substitution. Part IV. A Discussion of the Observations Recorded in Parts I, II, and III. By JAMES ALLAN, ALBERT EDWARD OXFORD, ROBERT ROBINSON, and JOHN CHARLES SMITH	401
LIII.—The Relative Directive Powers of Groups of the Forms RO and RR'N in Aromatic Substitution. Part V. The Nitration of <i>p</i> -Methoxydiphenyl Ether. By THOMAS RUSSELL LEA and ROBERT ROBINSON.	411
LIV.—The Equilibrium between Methyl Formate and Methyl Alcohol, and Some Related Equilibria. By JENS ANTON CHRISTIANSEN	413
LV.—The Equilibria underlying the Soap-boiling Processes. The System Potassium Oleate-Potassium Chloride- Water. By JAMES WILLIAM McBAIN and WILLIAM JOSEPH ELFORD.	421

LVI.—Tetrahydroacridine, Octahydroacridine, and their Derivatives. Part II. Resolution of the Octahydroacridines (A) and (B). By WILLIAM HENRY PERKIN, jun., and WILLIAM GREENWELL SEDGWICK	438
LVII.—The Conversion of Berberine into β -Homochelidonine (α - <i>allo</i> Cryptopine). By ROBERT DOWNS HAWORTH and WILLIAM HENRY PERKIN, jun.	445
LVIII.—10-Chloro-5 : 10-dihydrophenarsazine and its Derivatives. Part I. The Synthesis, Preparation, and Some Properties of 10-Chloro-5 : 10-dihydrophenarsazine. By HAROLD BURTON and CHARLES STANLEY GIBSON	450
LIX.—10-Chloro-5 : 10-dihydrophenarsazine and its Derivatives. Part II. The Action of Primary Chloroarsines on Diphenylamine and its Homologues. By HAROLD BURTON and CHARLES STANLEY GIBSON	464
LX.—The Molecular Configurations of Polynuclear Aromatic Compounds. Part V. The Identity of the Nitration Products derived from 2 : 7- and 4 : 5-Dinitrophenanthraquinones. By GEORGE HALLATT CHRISTIE and JAMES KENNER	470
LXI.—Orientation Effects in the Diphenyl Series. Part I. By HENRY GEORGE DENNETT and EUSTACE EBENEZER TURNER	476
LXII.—The Complex Salts of $\beta\beta'\beta''$ -Triaminotriethylamine with Nickel and Palladium. By FREDERICK GEORGE MANN and (Sir) WILLIAM JACKSON POPE	482
LXIII.— $\gamma\gamma'\gamma''$ -Triaminotripropylamine and its Complex Compounds with Nickel. By FREDERICK GEORGE MANN and (Sir) WILLIAM JACKSON POPE	489
LXIV.—The Resolution of <i>dl</i> -Alanine and the Formation of <i>trans</i> -2 : 5-Dimethylpiperazine. By FREDERICK BARRY KIPPING and (Sir) WILLIAM JACKSON POPE	494
NOTES.—Air Oxidation of Titanous Sulphate Solution. Vanadous Sulphate, a New and Powerful Reducing Agent. By A. S. RUSSELL	497
The Effect of Heat on Chloral Hydrate. By JAMES DENIS MOUNFIELD and JOHN KERFOOT WOOD	498
Preparation of Ethylene Bromohydrin. By FREDERICK HENRY McDOWALL	499
An Automatic Siphonic Gas Circulator. By GEORGE M. GREEN	500
LXV.—A Comparison of Some of the Physical Properties of the Alkali Cyanates and Azides. By JOHN ARNOLD CRANSTON and ALEXANDER YOUNG LIVINGSTONE	501

	PAGE
LXVI.—Studies on the Dependence of Optical Rotatory Power on Chemical Constitution. Part VI. Rotatory Powers of Phenyl, <i>o</i> -, <i>m</i> -, <i>p</i> -Tolyl and β -Naphthyl Derivatives of <i>d</i> -Camphorimide and <i>d</i> -Camphoramidic Acid. By BAWA KARTAR SINGH and AMAR NATH PURI	504
LXVII.—Conditions of Formation of Rings Attached to the <i>o</i> -, <i>m</i> -, and <i>p</i> -Positions of the Benzene Nucleus. Part II. The Reduction of <i>m</i> - and <i>p</i> -Phenylenediacetonitrile. By ALAN FRANCIS TITLEY	508
LXVIII.—The Action of Hydrogen Fluoride on Compounds of Selenium and Tellurium. Part II. Tellurium Dioxide. By EDMUND BRYDGES RUDHALL PRIDEAUX and JOHN O'NEIL MILLOTT	520
LXIX.—The Action of Alcoholic Potassium Hydroxide upon Chloronitrobenzene. By DONALD HENRY RICHARDSON.	522
LXX.—Action of Mercurous Nitrate on Chloroauric Acid. By WILLIAM BRANCH POLLARD	529
LXXI.—Halogenation of 2:6-Dimethylbenzobisthiazole and of 3:5-Diphenylimino-2:4-diphenyltetrahydro-1:2:4-thiodiazole. By ROBERT FERGUS HUNTER	533
LXXII.—Bromination of some 5-Substituted 1-Phenylbenzothiazoles. By ROBERT FERGUS HUNTER	537
LXXIII.—Studies in Colour and Constitution. Part I. The Influence of the Methylthiol Group, alone and in Conjunction with the Methoxy-group. By HERBERT HENRY HODGSON and FREDERICK WILLIAM HANDLEY	542
LXXIV.—Iodination in the Carbazole Series. By STANLEY HORWOOD TUCKER	546
LXXV.—Optical Activity and the Polarity of Substituent Groups. Part III. Menthyl Acetophenone- <i>o</i> -carboxylate. By HAROLD GORDON RULE and JOHN SMITH	553
LXXVI.—The Chlorination and Bromination of 4-Aminodiphenyl. By HAROLD ARCHIBALD SCARBOROUGH and WILLIAM ALEXANDER WATERS	557
LXXVII.—The Influence of the Intensity of Illumination on the Velocity of Photochemical Changes. The Determination of the Mean Life of a Hypothetical Catalyst. By FRANK BRIERS, DAVID LEONARD CHAPMAN, and ERNEST WALTERS	562
LXXVIII.—The Action of Alkaline Arsenites on Some Halogenated Organic Compounds. By ISIDORE ELKANAH BALABAN	569
LXXIX.—The Crystal Structure of Catechol. By WILLIAM AUGUSTUS CASPARI	573

- LXXX.—Unsymmetrically Substituted Dinitro- and Diamino-derivatives in the Stilbene and Tolane Series. Part I. The Elimination of Hydrogen Chloride from 3:4'-Dinitrostilbene Dichloride. By HAROLD AINSWORTH HARRISON and HAROLD WOOD 577
- LXXXI.—The Budde Effect in Bromine. Part I. The Photoactive Constituent of Wet Bromine. By BERNARD LEWIS and ERIC KEIGHTLEY RIDEAL 583
- LXXXII.—The Budde Effect in Bromine. Part II. The Kinetics of the Reaction and the Light Absorption of Wet and of Dry Bromine. By BERNARD LEWIS and ERIC KEIGHTLEY RIDEAL 596
- LXXXIII.—Studies of Valency. Part V. Absorption Spectra of Halogen and Sulphonic Derivatives of Camphor: Origin of the Ketonic Absorption Band. By THOMAS MARTIN LOWRY and GLYN OWEN 606
- LXXXIV.—Studies of Valency. Part VI. General and Selective Absorption of Halogen Derivatives of Methane. The Origin of General Absorption. By THOMAS MARTIN LOWRY and ROSE RACHEL SASS 622
- LXXXV.—The Equivalent Conductivity of Solutions of Sodium Hydroxide and the Mobility of the Hydroxyl Ion. By HUMPHREY RIVAZ RAIKES, ALBERT FREDERICK YORKE, and FREDERICK KENNETH EWART 630
- LXXXVI.—The Mercuration of Aromatic Substances. Part II. *o*-Nitrotoluene. By SAMUEL COFFEY 637
- LXXXVII.—Tautomerism in the Thyroxin Molecule. By CEDRIC STANTON HICKS 643
- LXXXVIII.—*N*-Alkylated Amidines. By MONMOHAN SEN and JÑANENDRA NATH RÂY 646
- LXXXIX.—Substitution in Vicinal Trisubstituted Benzene Derivatives. Part IV. By LEON RUBENSTEIN 648
- XC.—The Decomposition of Substituted Carbamyl Chlorides by Hydroxy-compounds. Part II. The Influence of the Hydroxy-compound. By TUDOR WILLIAMS PRICE 653
- XCI.—Investigations on the Dependence of Rotatory Power on Chemical Constitution. Part XXVIII. *d*-*sec*-Butylbenzene. By PHILIP WILLIAM BENSON HARRISON, JOSEPH KENYON, and JOHN ROBERT SHEPHERD 658
- XCII.—The Chemistry of Polycyclic Structures in Relation to their Homocyclic Unsaturated Isomerides. Part VI. Some Reactions of *iso*Phorone. By JOHN WILLIAM BAKER 663

XCIH.—The Molecular Configurations of Polynuclear Aromatic Compounds. Part VI. β -Dinitrodiphenic Acid; its Constitution and Resolution into Optically Active Components. By GEORGE HALLATT CHRISTIE, ALBERT HOLLDERNESS, and JAMES KENNER	671
XCIV.—Styrylpyrylium Salts. Part VI. Styryl Derivatives of 9-Methylxanthylum Chloride and 3:6-Dihydroxy-9-methylxanthylum Chloride. By HAROLD ATKINSON and ISIDOR MORRIS HEILBRON	676
XCv.—Arylsulphuric Acids. By GEORGE NORMAN BURKHARDT and ARTHUR LAPWORTH [with FRANK ASHWORTH]	684
XCvI.—A New Reaction of Certain Diazosulphonates derived from β -Naphthol-1-sulphonic Acid. Part I. Preparation of Phthalazine, Phthalazone, and Phthalimidine Derivatives from 4'-Nitrobenzene-2-naphthol-1-diazosulphonate. By FREDERICK MAURICE ROWE, ESTHER LEVIN, ALAN CHAMLEY BURNS, JOHN STANLEY HERBERT DAVIES, and WOLFE TEPPER	690
XCvII.—Absorption Spectra and Tautomerism. Part I. Keto-enol Tautomerism. Ethyl Acetoacetate, Acetylacetone, and α -Benzoylcamphor. By RICHARD ALAN MORTON and WILLIAM CHARLES VICTOR ROSNEY	706
XCvIII.—Absorption Spectra and Tautomerism. Part II. Ethyl Mesityloxidoxalate, Formylphenylacetate, and Diacetylsuccinate. By RICHARD ALAN MORTON and EDWARD ROGERS	713
XCIX.—Absorption Spectra of Mesityl Oxide. By RICHARD ALAN MORTON	719
C.—Studies of Dynamic Isomerism. Part XXI. The Velocity of Mutarotation of Tetramethylglucose and of Tetra-acetylglucose in Aqueous Acetone. By GRIFFITH GLYN JONES and THOMAS MARTIN LOWRY	720
CI.—Absorption Spectra of Condensed Nuclear Hydrocarbons. By NORMAN STEWART CAPPER and JOSEPH KENNETH MARSH	724
CII.—The Interaction of Nitric Oxide and Hydrogen and the Molecular Statistics of Termolecular Gaseous Reactions. By CYRIL NORMAN HINSHELWOOD and THOMAS EDWARD GREEN	730
CIII.—Synthetical Work on the <i>iso</i> Quinoline Alkaloids. Part I. Substituted <i>o</i> -Carboxyphenylethylamines. By GEORGE ALFRED EDWARDS	740
CIV.—The Electrometric Titration of Halides. By WALTER CLARK	749

CV.—The Absorption Spectra of Various Derivatives of Salicylic Acid. By JOHN EDWARD PURVIS	775
CVI.—Elimination of the Amino-group of Tertiary Amino-alcohols. Part III. A New Method for the Preparation of Optically Active Ketones. By ALEX. MCKENZIE, ROBERT ROGER, and GEORGE OGILVIE WILLS	779
CVII.—Experiments on the Variation of the Angles of Crystals during Growth. By ERNEST SYDNEY HEDGES	791
CVIII.—The Nitration of Benzamidines. By ROBERT FORSYTH, VISHVANATH KRISHNA NIMKAR, and FRANK LEE PYMAN	800
CIX.—Derivatives of Tetrahydrocarbazole. Part V. Carboxylic Acids. By WINIFRED MAUDE COLLAR and SYDNEY GLENN PRESTON PLANT	808
CX.—The Oximes of 2 : 4-Dinitrobenzil and the Beckmann Change. By GERALD BISHOP and OSCAR L. BRADY	810
CXI.—Synthetical Work on the <i>iso</i> Quinoline Alkaloids. Part II. A Method of Opening the Rings of Cyclic Ketones. By GEORGE ALFRED EDWARDS	813
CXII.—Trypanocidal Action and Chemical Constitution. Part IV. Arylamides of Aminohydroxyphenylarsinic Acids. By LESLIE FRANK HEWITT and HAROLD KING	817
CXIII.—Liquid-line Corrosion. By ERNEST SYDNEY HEDGES	831
CXIV.—Observations on Liquid Boundaries and Diffusion Potentials. By SYDNEY RAYMOND CARTER and FREDERICK MEASHAM LEA	834
CXV.—The Hydrolytic Action of Low-pressure Superheated Steam on Salts of the Alkaline-earth Metals. By PERCY LUCOCK ROBINSON, HAROLD CECIL SMITH, and HENRY VINCENT AIRD BRISCOE	836
CXVI.—Studies with the Microbalance. Part III. The Filtration and Estimation of very small Amounts of Material. By ERNST JOHANNES HARTUNG	840
CXVII.—The Ternary System Sodium Thiosulphate–Sodium Sulphate–Water. By RICHARD RANDOLPH GARRAN	848
CXVIII.—The Ternary System Sodium Sulphide–Sodium Sulphate–Water. By ARTHUR ROBERT HOGG	855
CXIX.—The Constitution of Maltose. By (Sir) JAMES COLQUHOUN IRVINE and IAN MACLEOD ARMSTRONG BLACK	862
CXX.—The Constitution of the Disaccharides. Part X. Maltose. By CONRAD J. ASTLEY COOPER, WALTER NORMAN HAWORTH, and STANLEY PEAT	876

	PAGE
CXXI.—Synthesis of Derivatives of γ -Xylose. By WALTER NORMAN HAWORTH and GEORGE CRONE WESTGARTH	880
CXXII.—Termolecular Reactions. Reduction of Silver Acetate by Sodium Formate. By ALEXANDER COUTIE	887
CXXIII.—The Relative Concentrations of Various Electrolytes required to salt out Soap Solutions. By JAMES WILLIAM MCBAIN and ALBERT VINCENT PITTER	893
CXXIV.—Hydrofluozirconic Acid and the Analysis of Zirconium Fluoride. By EDMUND BRYDGES RUDHALL PRIDEAUX and EDWIN CLAXTON ROPER	898
CXXV.—The Morphine Group. Part III. The Constitution of Neopine. By CONSTANT FREDERIK VAN DUIN, ROBERT ROBINSON, and JOHN CHARLES SMITH.	903
CXXVI.—The Morphine Group. Part IV. A New Oxidation Product of Codeine. By ROBERT SIDNEY CAHN and ROBERT ROBINSON	908
CXXVII.—Researches on Residual Affinity and Co-ordination. Part XXVI. A Quadridentate Group in Combination with Bivalent Metals. By GILBERT T. MORGAN and J. D. MAIN SMITH	912
CXXVIII.—Derivatives of 2-Keto-1 : 2-dihydrobenzisothiazole. By ERNEST WILSON MCCLELLAND and ALBAN JAMES GAIT	921
CXXIX.—The Vapour Pressures of Chlorine Dioxide. By FREDERICK ERNEST KING and JAMES RIDDICK PARTINGTON	925
CXXX.—The Oxidation Potential of the System Selenium Dioxide-Selenium. By SYDNEY RAYMOND CARTER, JOHN A. V. BUTLER, and FRANK JAMES	930
CXXXI.—Applications of Thallium Compounds in Organic Chemistry. Part III. Alkylations. By CHRISTINA MARY FEAR and ROBERT CHARLES MENZIES	937
CXXXII.—Determination of the Rate of Hydrolysis of Sparingly Soluble Esters. By R. CHRISTIE SMITH and H. A. PATERSON	940
CXXXIII.—Experiments on the Synthesis of Brazilin and Hæmatoxylin and their Derivatives. Part I. Veratrylidene-7-methoxychromanone and an Account of a New Synthesis of some Benzopyrylium Salts. By WILLIAM HENRY PERKIN, jun., JĀNANENDRA NATH RĀY, and ROBERT ROBINSON	941
NOTES.—Acetyl- <i>o</i> -phenylenediamine and Acetyl-1 : 2 : 3-benzotriazole. By FRANK BELL and JOSEPH KENYON	954

Density of Boric Oxide from a Fractional Crystallisation of Boric Acid. By HENRY VINCENT AIRD BRISCOE, PERCY LUCOCK ROBINSON, and GEORGE EDWARD STEPHENSON .	954
A Synthesis of 1:2-Dihydroquinaldine. A Correction. By FREDERICK ALFRED MASON	955
The Reduction of Ethyl Dibenzylacetoacetate. By ELLEN SUSAN HILL	956
Synthesis of Naphthathioxins. By REGINALD CHILD and SAMUEL SMILES	957
Critical Temperature of Mercury. By LEONARD ALFRED SAYCE and HENRY VINCENT AIRD BRISCOE	957
Some Organo-silicon Compounds. By RONALD RUMSEY WIDDOWSON	958
Deposition of Metallic Zinc on the Positive Pole of a Simple Voltaic Cell. By SPENCER ROBERT HUMBY and MICHAEL WILCOX PERBIN	959
The System Ammonium Acetate-Acetic Acid-Water. By RUTH SUGDEN	960
ANNUAL GENERAL MEETING	962
PRESIDENTIAL ADDRESS.	978
OBITUARY NOTICES	993
CXXXIV.—Germanium. Part II. Germanium Tetrachloride and its Ammonia Compounds. By WILLIAM PUGH and JOHN SMEATH THOMAS	1051
CXXXV.—The Binary System Barium Iodide-Water. By JOHN PACKER and ALBERT CHERBURY DAVID RIVETT.	1061
CXXXVI.—The Constitution of Magnesium Acetate Solutions. By ALBERT CHERBURY DAVID RIVETT	1063
CXXXVII.—The Nitration of Benzil. By FREDERICK DANIEL CHATTAWAY and EDWARD AUTY COULSON	1070
CXXXVIII.—Synthesis of 7-Methoxy-3-(6'-bromohomopiperonyl)-2-methyl-1:4-benzopyrone. By WILSON BAKER	1074
CXXXIX.—Preparation and Resolution of <i>dl-cis</i> -2:5-Dimethylpiperazine. By FREDERIC BARRY KIPPING and (Sir) WILLIAM JACKSON POPE	1076
CXL.—Interactions of Tellurium Tetrachloride and Aryl Alkyl Ethers. Part II. By GILBERT T. MORGAN and RICHARD EATOUGH KELLETT	1080
CXLI.—The Behaviour of Mannose Diacetone on Methylation. By (Sir) JAMES COLQUHOUN IRVINE and ANDREW FORRESTER SKINNER	1089

CXLII.—Ethyl Hydrogen Sulphate. Part II. By M. ABDUL HAMID, KIRPAL SINGH, and HORACE BARRATT DUNNICLIFF	1098
CXLIII.—The Reactivity of Alkyl Iodides with Sodium Benzyl Oxide. A Criticism. By LEONARD JAMES GOLDSWORTHY	1102
CXLIV.—The Rate of Reaction between Formic Acid and Iodine in Aqueous Solution. By DALZIEL LLEWELLYN HAMMICK and MICHAEL ZVEGINTZOV	1105
CXLV.—The Complexity of the Solid State. Part III. The Behaviour of Pure Sulphur Trioxide. Part II. By ANDREAS SMITS and PIETER SCHOENMAKER	1108
CXLVI.—Preparation of Nickel Membranes for Ultrafiltration. By JOHN MANNING	1127
CXLVII.—Ring-chain Tautomerism. Part XV. The Phenol-succineins and -glutareins. By SIKHIBHUSHAN DUTT	1132
CXLVIII.—Synthesis in the Thianthren Series. Part II. By MONMOHAN SEN and JÑANENDRA NATH RÂY	1139
CXLIX.—The Hydrates of Chromic Nitrate. By JAMES RIDDICK PARTINGTON and SIDNEY KEENLYSIDE TWEEDY	1142
Hæmoglobin. A Lecture delivered before the Chemical Society on February 11th, 1926. By JOSEPH BARCROFT, C.B.E., M.A., F.R.S.	1146
CL.—A Theory of Colour on the Basis of Molecular Strain. The Effect of Chromophoric Superposition. By SIKHIBHUSHAN DUTT	1171
CLI.—Studies on the Walden Inversion. Part X. The Reaction between Water and the Phenylchloroacetate and Phenylbromoacetate Ions. By ALLAN MILES WARD	1184
CLII.—Substituted Cinnamic Amides and Acids. By HAROLD AINSWORTH HARRISON and HAROLD WOOD	1195
CLIII.—The Chemistry of the Glutaconic Acids. Part XIX. A Consequence of Mobility. By JOHN PACKER and JOCELYN FIELD THORPE	1199
CLIV.—Selective Solvent Action. Part V. Salting in. By ROBERT WRIGHT	1203
CLV.—10-Chlorophentharsine, and its Rate of Formation from <i>o</i> -Phenylthiolphenyldichloroarsine. By ELWYN ROBERTS and EUSTACE EBENEZER TURNER	1207

CLVI.—Some Reactions of 1- <i>p</i> -Toluidinocyclopentane-1-carboxylic Acid. A New Carbazole Synthesis. By STEPHEN HELLICAR OAKESHOTT and SYDNEY GLENN PRESTON PLANT	1210
CLVII.—The Hydrolysis of Guanidine. By JAMES BELL	1213
CLVIII.—Nitrosylsulphuric Acid. Part I. By GEORGE ALBERT ELLIOTT, LESLIE LEONARD KLEIST, FREDERICK JAMES WILKINS, and HARRY WILLIAM WEBB	1219
CLIX.—Unsymmetrically Substituted Dinitro- and Diamino-derivatives in the Stilbene and Tolane Series. Part II. The Mode of Addition of Water to 3 : 4'-Dinitro- and Diamino-tolanes. By HAROLD AINSWORTH HARRISON	1232
CLX.—Investigations in the Diphenyl Series. Part I. Migration Reactions. By FRANK BELL, JOSEPH KENYON, and PERCY HARRY ROBINSON	1239
CLXI.—The Labile Nature of the Halogen Atom in Organic Compounds. Part XII. Halogen Compounds of Barbituric Acids. By ALEXANDER KILLEN MACBETH, THOMAS HENRY NUNAN, and DAVID TRALL	1248
CLXII.—The Velocities of the Reactions between Ethyl Iodide and the Sodium Salts of Various Substituted Phenols in Ethyl-Alcoholic Solution. By LEONARD JAMES GOLDSWORTHY	1254
CLXIII.—Carboxylated β -Diketones. By GILBERT T. MORGAN and CHARLES RAYMOND PORTER	1256
CLXIV.—A Comparison of the Atomic Weights of Silicon from Different Sources. By PERCY LUGCOCK ROBINSON and HAROLD CECIL SMITH	1262
CLXV.—The Reactivity of <i>meso</i> -Substituted Anthracenes. Part I. By JAMES WILFRED COOK	1282
CLXVI.—The Solubility of Beryllium Oxide in Solutions of its Salts. By NEVIL V. SIDGWICK and NEIL B. LEWIS	1287
CLXVII.— ω -Mono- and Dibromo-derivatives of Quinaldine and Nitroquinaldines and their Products of Hydrolysis. By DALZIEL LEWELLYN HAMMICK	1302
CLXVIII.—The Nature of the Alternating Effect in Carbon Chains. Part IV. Some Abnormal Reactions as Evidence of the Incipient Ionisation of Certain Hydrogen Atoms in Hydrocarbon Radicals. By ERIC LEIGHTON HOLMES and CHRISTOPHER KELK INGOLD	1305

	PAGE
CLXIX.—The Nature of the Alternating Effect in Carbon Chains. Part V. A Discussion of Aromatic Substitution with Special Reference to the Respective Rôles of Polar and Non-polar Dissociation; and a further Study of the Relative Directive Efficiencies of Oxygen and Nitrogen. By CHRISTOPHER KELK INGOLD and EDITH HILDA INGOLD	1310
CLXX.—The Nature of the Alternating Effect in Carbon Chains. Part VI. A Study of the Relative Directive Efficiencies of Oxygen and Fluorine in Aromatic Substitution. By ERIC LEIGHTON HOLMES and CHRISTOPHER KELK INGOLD	1328
CLXXI.—A Method for Determining the Solubility of Sparingly Soluble Substances. By STOTHERD MITCHELL	1333
CLXXII.—The Inhibition of the Glow of Phosphorus. By HARRY JULIUS EMELÉUS	1336
CLXXIII.—An Improved Hydrogen Sulphide Generator. By HENRY GEORGE DENHAM and JOHN PACKER	1344
CLXXIV.—The Doubtful Existence of Aurous Oxide. By WILLIAM BRANCH POLLARD	1347
CLXXV.—Studies with the Microbalance. Part IV. The Photochemical Decomposition of Silver Iodide. By ERNST JOHANNES HARTUNG	1349
CLXXVI.—Trypanocidal Action and Chemical Constitution. Part V. Arylsulphonamides of some Phenylarsinic Acids. By LESLIE FRANK HEWITT, HAROLD KING, and WILLIAM OWEN MURCH	1355
CLXXVII.—The Action of Phosphorus on Salts of Silver and Other Metals. By OSWALD JAMES WALKER	1370
CLXXVIII.—Experiments on the Formation of Mother-of-Pearl. By PHANI BHUSAN GANGULY	1381
CLXXIX.—Aminobenzthiazoles. Part III. The Tautomerism and Unsaturation of the Aminothiazole System. By ROBERT FERGUS HUNTER	1385
CLXXX.—Aminobenzthiazoles. Part IV. The Stability of the Bromides of the 1-Xylidinodimethylbenzthiazoles. By ROBERT FERGUS HUNTER	1401
CLXXXI.—The Direct Synthesis of Nitrous Oxide. By DAVID LEONARD CHAPMAN, RICHARD ALLEN GOODMAN, and RODNEY THOMAS SHEPHERD	1404
CLXXXII.—Resins in Coal. Studies in the Composition of Coal. By WILFRID FRANCIS and RICHARD VERNON WHEELER	1410

CLXXXIII.—A Study of the Rule of the Conservation of the Type of Substitution in Aromatic Substances. Part I. Chlorination of 2-Chloro-4-nitrotoluene. By WILLIAM DAVIES and GEOFFREY WINTHROP LEEPER	1413
CLXXXIV.—The Boiling Points of Some Higher Aliphatic <i>n</i> -Hydrocarbons. By FRANCIS FRANCIS and NORMAN EDWARD WOOD	1420
CLXXXV.—The Monochloro-derivatives of <i>m</i> -Cresol. By GEORGE PHILIP GIBSON	1424
CLXXXVI.—The Action of Thionyl Chloride on Hydroxy-anthraquinones. Part II. Quinizarin. By ALBERT GREEN	1428
CLXXXVII.—The Heat of Combustion of Salicylic Acid. (A Reply to E. Berner.) By PIETER EDUARD VERKADE and JAN COOPS	1437
CLXXXVIII.— <i>As</i> -Chlorotetrahydroarsinoline and Some Quaternary Arsonium Compounds. By ELWYN ROBERTS, EUSTACE EBENEZER TURNER, and (in part) FRANK WARD BURY	1443
CLXXXIX.—The Resin of <i>Hevea</i> Rubber. By GEORGE STAFFORD WHITBY, JACOB DOLID, and FREDERIC HARRISON YORSTON	1448
CXC.—Some Fatty Acid Derivatives. By GEORGE STAFFORD WHITBY	1458
CXCI.—The Conditions underlying the Formation of Unsaturated and Cyclic Compounds from Halogenated Open-chain Derivatives. Part VIII. Products derived from Pimelic Acid. An Application of Bischoff's Dynamic Hypothesis. By ALBERT HASSELL and CHRISTOPHER KELK INGOLD	1465
CXCII.—The Conditions underlying the Formation of Unsaturated and Cyclic Compounds from Halogenated Open-chain Derivatives. Part IX. Products derived from Suberic and Azelaic Acids. By FRANK ROBERT GOSS and CHRISTOPHER KELK INGOLD	1471
CXCIII.—The Mechanism of Tautomeric Interchange and the Effect of Structure on Mobility and Equilibrium. Part I. The Three-carbon System. By CHRISTOPHER KELK INGOLD, CHARLES WILLIAM SHOPPEE, and JOCELYN FIELD THORPE	1477
CXCIV.—The Constitution of Polysaccharides. Part IX. The Degradation of Cellulose to an Anhydrotrisaccharide. By (Sir) JAMES COLQUHOUN IRVINE and GEORGE JAMES ROBERTSON	1488

CXCV.—The Constitution of Polysaccharides. Part X. The Molecular Unit of Starch. By (Sir) JAMES COLQUHOUN IRVINE and JOHN MACDONALD	1502
CXCVI.—The Ultra-violet Spectra of Praseodymium, Neo- dymium, Samarium, Europium, and Erbium. By JAMES HENRY GARDINER	1518
CXCVII.—Extinction of Methane Flames by Diluent Gases. By HUBERT FRANK COWARD and FRANCIS JOHN HART- WELL	1522
CXCVIII.—Periodic Phenomena at Anodes of Copper and Silver. By ERNEST SYDNEY HEDGES	1533
CXCIX.—The Existence of the Suboxides of Lead and Thallium. By FREDERICK AUFENAST and HENRY TERREY	1546
CC.—The Precipitation of Cadmium Sulphide from Aqueous Solutions of Cadmium Chloride in the Presence of Hydrochloric Acid and Other Chlorides. By SUBRA- MONIA KRISHNAMURTI	1549
CCI.—The Interaction of Hydrogen and Nitrous Oxide on the Surface of Gold. By WILLIAM KENNETH HUTCHISON and CYRIL NORMAN HINSHELWOOD	1556
CCII.—The Specific Heats of Hydrogen Cyanide. A Reply. By JAMES RIDDICK PARTINGTON	1559
CCIII.—The Laws of Aromatic Substitution. Part V. The Directing Effect of Electrolytically Dissociated Groups. By BERNHARD FLÜRSCHELM and ERIC LEIGHTON HOLMES	1562
CCIV.—Properties of Conjugated Compounds. Part I. Conjugative Associations in Extended "Conjugated" Systems. By ERNEST HAROLD FARMER and JOHN ROSS	1570
CCV.—The Isomerism of the Styryl Alkyl Ketones. Part III. Methoxy-2- and -4-hydroxystyryl Alkyl Ketones. By ALEXANDER MCGOOKIN and DONALD JAMES SINCLAIR	1578
CCVI.—The Halogenation of Phenols. By FREDERICK GEORGE SOPER and GILBERT FREEMAN SMITH	1582
CCVII.—Compounds of Tervalent Molybdenum. Part IV. Bromides. By WILLIAM WARDLAW and ARTHUR JACOB IMMINS HARDING	1592
CCVIII.—The Dehydration of Glycols derived from α -Naphthylglycollic Acid. By ALEX. MCKENZIE and WALTER SAMUEL DENNLER	1596

CCIX.—The Complexity of the Solid State. Part IV. The Behaviour of Pure Sulphur Trioxide. Part III. By ANDREAS SMITS and PIETER SCHOENMAKER . . .	1603
CCX.—The Photolysis of Acetaldehyde and of Acetone. By EDMUND JOHN BOWEN and HAROLD GARFIT WATTS . . .	1607
CCXI.—The Constitution of the Condensation Product of β -Phenylhydroxylamine and Acetone. By FRANCIS HARROLD BANFIELD and JOSEPH KENYON . . .	1612
CCXII.—The Classification of the Sugars. By JOHN G.WILLIAM MALTBY	1629
CCXIII.—The Unsaponifiable Matter from the Oils of Elas- mobranch Fish. Part I. A Contribution to the Study of the Constitution of Squalene (Spinacene). By ISIDOR MORRIS HEILBRON, EDWARD DAVID KAMM, and WILLIAM MORGAN OWENS	1630
CCXIV.—Synthesis of Iodine Compounds of the Salvarsan Group. By ALEXANDER DOUGLAS MACALLUM	1645
CCXV.—The Introduction of the Selenocyano-group into Aromatic Compounds. By FREDERICK CHALLENGER, ARNOLD THORNTON PETERS, and JACOB HALÉVY	1648
CCXVI.—The Orienting Influence of Free and Bound Ionic Charges on Attached Simple or Conjugated Unsaturated Systems. Part I. The Nitration of Some Derivatives of Benzylamine. By HARRY RAYMOND ING and ROBERT ROBINSON	1655
CCXVII.—Copper Hydride and its Crystal Structure. By HEINZ MÜLLER and ALBERT JAMES BRADLEY	1669
CCXVIII.—The Relationship between the Optical Rotatory Powers and the Relative Configurations of Optically Active Compounds. Part III. By GEORGE WILLIAM CLOUGH	1674
CCXIX.—The Reactivity of <i>meso</i> -Substituted Anthracenes. Part II. By JAMES WILFRED COOK	1677
CCXX.—The Nature of the Alternating Effect in Carbon Chains. Part VII. A Study of the Relative Directive Efficiencies of Oxygen and Sulphur in Aromatic Sub- stitution. By ERIC LEIGHTON HOLMES, CHRISTOPHER KELK INGOLD, and EDITH HILDA INGOLD	1684
CCXXI.—The Action of Light on Concentrated Aqueous Solutions of Ammonium Thiocyanate. By MARSHALL HOLMES	1690
CCXXII.—The Catalytic Decomposition of Solutions of Sodium Hypochlorite by Finely Divided Metallic Oxides. By EUGEN CHIRNOAGA	1693

	PAGE
CCXXIII.—Studies of Equilibria in Systems of the Type Lead Halide-Potassium Halide-Water. By LESLIE JAMES BURRAGE	1703
CCXXIV.—The Catalytic Decomposition of Nitric Oxide at the Surface of Platinum. By THOMAS EDWARD GREEN and CYRIL NORMAN HINSHELWOOD	1709
CCXXV.—Experiments on the Synthesis of Anthocyanins. Part I. By ALEXANDER ROBERTSON and ROBERT ROBINSON	1713
CCXXVI.—The Transformation of Monomethyl Fructose into Derivatives of γ -Fructose. By CHARLES FREDERICK ALLPRESS	1720
CCXXVII.—A Method of inserting the Thio-aryl Group. By LESLIE GEORGE SCOTT BROOKER and SAMUEL SMILES	1723
CCXXVIII.—Aminopropyl-1 : 2 : 4-triazoles. By JOSEPH REILLY and PETER J. DRUMM	1729
CCXXIX.—The Constitution of Sucrose. Part I. Oxidation of Tetramethyl γ -Fructose. By GEORGE MCOWAN	1737
CCXXX.—The Constitution of Sucrose. Part II. Evidence contributed by the Oxidation of <i>d</i> -Arabinose. By GEORGE MCOWAN	1747
CCXXXI.—Sugar Carbonates. Part II. Derivatives of Arabinose and Xylose. By WALTER NORMAN HAWORTH and WILLIAM MAW	1751
CCXXXII.—Studies in the Diphenyl Series. Part I. The Isomeric 4 : 4'-Dichloro-3 : 3'(2 : 3' ?)- and 3 : 5'-dinitrodiphenyls. By HERBERT HENRY HODGSON and (in part) FAQIR CHAND GOROWARA	1754
CCXXXIII.—Orientation Effects in the Diphenyl Series. Part II. The Constitution of Bandrowski's Dinitrobenzidine. By RAYMOND JAMES WOOD LE FÈVRE and EUSTACE EBENEZER TURNER	1759
CCXXXIV.—The Preparation of 3 : 4-Methylenedioxyhomophthalic Acid. By ROBERT DOWNS HAWORTH, WILLIAM HENRY PERKIN, jun., and THOMAS STEVENS STEVENS	1764
CCXXXV.—Synthesis of Cryptopine and Protopine. By ROBERT DOWNS HAWORTH and WILLIAM HENRY PERKIN, jun.	1769
CCXXXVI.—The Adsorption of Water Vapour on a Plane Fused Quartz Surface. The Isosteric Heats of Adsorption of Water on Silica and on Platinum. By SAM LENHER	1785

CCXXXVII.—The Chemistry of the Three-carbon System. Part V. The Alkylation of Unsaturated Ketones. By GEORGE ARMAND ROBERT KON	1792
CCXXXVIII.—Mercuration of <i>o</i> -Nitrotoluene. By HAROLD BURTON, FREDERICK HAMMOND, and JAMES KENNER .	1802
CCXXXIX.—On Active Nitrogen. Part I. Its Nature and Heat of Formation. By ERIC JOHN BAXTER WILLEY and ERIC KEIGHTLEY RIDEAL	1804
CCXL.—Low Temperature Oxidation at Charcoal Surfaces. Part II. The Behaviour of Charcoal in the Presence of Promoters. By ERIC KEIGHTLEY RIDEAL and WINIFRED MARY WRIGHT	1813
CCXLI.— <i>ortho</i> -Dithiolbenzene. By WILLIAM ROBERT HARDY HURTLEY and SAMUEL SMILES	1821
CCXLII.—The Isomerism of the Dihydroxystearic Acids produced by Oxidation of Acids of the Oleic and Elaidic Series. By THOMAS PERCY HILDITCH	1828
CCXLIII.—The Chemistry of Polycyclic Structures in Relation to their Homocyclic Unsaturated Isomerides. Part VII. Tautomerism Corresponding with that of Nitrosophenol and Quinoneoxime in the <i>bicyclo</i> Pentane Series. By ALBERT HASSELL and CHRISTOPHER KELK INGOLD	1836
CCXLIV.—Investigations on the Dependence of Rotatory Power on Chemical Constitution. Part XXX. The Resolution of Methyl <i>cyclohexyl</i> carbinol. By ALLAN DOMLEO and JOSEPH KENYON	1841
CCXLV.—A Study of the Basic Copper Sulphates. By GEORGE FOWLES	1845
CCXLVI.—The Structure of Fructose, γ -Fructose, and Sucrose. By WALTER NORMAN HAWORTH and EDMUND LANGLEY HIRST	1858
CCXLVII.—The Correlation of Additive Reactions with Tautomeric Change. Part V. The Structural Con- ditions affecting Mobility and Equilibrium in Additive Reactions. By KENNETH ERNEST COOPER, CHRIS- TOPHER KELK INGOLD, and EDITH HILDA INGOLD .	1868
CCXLVIII.—The Order of Removal of Manganese, Chromium, Iron, Cobalt, and Nickel from Amalgams. By ALEXANDER SMITH RUSSELL, DEREK CURTIS EVANS, and SYDNEY WILLIAM ROWELL	1872
CCXLIX.—The Positions of Tungsten and Molybdenum in the Normal Potential Series. By ALEXANDER SMITH RUSSELL and SYDNEY WILLIAM ROWELL	1881

	PAGE
NOTES.—An Alternating-current Cell. By ERNEST SYDNEY HEDGES	1892
The Hydrolysis of Acetyl- <i>o</i> -benzylideneaminophenol. By FRANK BELL and JOSEPH KENYON	1893
The Reversibility of Triazan Formation. By KENNETH ERNEST COOPER and EDITH HILDA INGOLD	1894
The Solubility of Lead Iodide in Solutions of Sodium Chloride at 25°. By LESLIE JAMES BURRAGE	1896
Action of Nitrous Acid on <i>p</i> -Iododimethylaniline. By MARGARET FERRIER AITKEN and THOMAS HAROLD READE	1896
The Alleged Decomposition of Aqueous Ammonium Nitrite Solutions by Light. By MARSHALL HOLMES	1898
The Temperature of Maximum Density of Alcohol-Water Mixtures. By JOHN P. MCHUTCHINSON	1898
CCL.—The Structure of Lactones from Simple Sugars. Trimethyl γ -Arabonolactone and the Supposed β -Gluconolactone and β -Mannonolactone. By WALTER NORMAN HAWORTH and VINCENT STANLEY NICHOLSON	1899
CCLI.—Styrylbenzopyrylium Salts. Part VII. The Conversion of 7-Methoxy-2:3-dimethylchromone into Styrylpyrylium Salts. By ISIDOR MORRIS HEILBRON and AHMAD ZAKI	1902
CCLII.—The Viscosities and Densities of Anhydrous Methyl Alcohol and of Solutions of some Halides of Sodium and Potassium in this Solvent. By FREDERICK KENNETH EWART and HUMPHREY RIVAZ RAIKES	1907
CCLIII.—Constitution of the Yellow Sodium Compounds formed from Ethyl Citraconate (or Itaconate) and Ethyl Sodiomalonnate. By CHRISTOPHER KELK INGOLD and CHARLES WILLIAM SHOPPEE	1912
CCLIV.—The Isomerism of the Oximes. Part XXV. The Dissociation Constants of some Isomeric Aldoximes. By OSCAR L. BRADY and RICHARD F. GOLDSTEIN	1913
CCLV.—The Estimation of Ferro- and Ferri-cyanides. By WILLIAM MURDOCH CUMMING and WILLIAM GOOD	1924
CCLVI.—The Rotatory Dispersion of the Esters of Lactic Acid. Part II. The Isomeric Butyl Esters. By CHARLES EDMUND WOOD, JOHN EDWARD SUCH, and FRANK SCARF	1928
CCLVII.—Studies of Dynamic Isomerism. Part XXII. Methyl Alcohol as an Amphoteric Solvent for the Mutarotation of the Sugars. By IRVINE JOHN FAULKNER and THOMAS MARTIN LOWRY	1938

CCLVIII.—Isomeric Phenylserines. By MARTIN ONSLOW FORSTER and KESHAVIAH ASWATH NARAIN RAO . . .	1943
CCLIX.—A Synthesis of Pyrylium Salts of Anthocyanidin Type. Part IX. Some Hydroxyflavylium Salts. By ALEXANDER ROBERTSON and ROBERT ROBINSON . . .	1951
CCLX.—A Synthesis of Pyrylium Salts of Anthocyanidin Type. Part X. Delphinidin Chloride 3-Methyl Ether. By ELISABETH STEWART GATEWOOD and ROBERT ROBINSON	1959
CCLXI.—A Synthesis of Pyrylium Salts of Anthocyanidin Type. Part XI. A Synthesis of Peonidin Chloride. By THOMAS JOSEPH NOLAN, DAVID DOIG PRATT, and ROBERT ROBINSON	1968
CCLXII.—Derivatives of Homocatechol. Part I. By FRANZ ROBERT GRAESSER-THOMAS, JOHN MASSON GULLAND, and ROBERT ROBINSON	1971
CCLXIII.—Derivatives of Homocatechol. Part II. By JOHN MASSON GULLAND and ROBERT ROBINSON	1976
CCLXIV.—2:3:4-Trinitrotoluene. By FRANK HOWORTH GORNALL and ROBERT ROBINSON	1981
CCLXV.—Derivatives of 1-Benzyltetrahydroisoquinoline. By ROBERT ROBINSON and HELEN WEST	1985
CCLXVI.—Synthetical Experiments in the Phenanthrene Group of the Alkaloids. Part I. By ROBERT ROBINSON and JUNZO SHINODA	1987
CCLXVII.—Pseudo-ternary Systems containing Sulphur. Part I. Sulphur and Quinoline, Pyridine, and <i>p</i> -Xylene. By DALZIEL LLEWELLYN HAMMICK and WILLIAM E. HOLT	1995
CCLXVIII.—New Derivatives of Guaiacol and Veratrole substituted in the 3- and 6-Positions. By ALBERT EDWARD OXFORD	2004
CCLXIX.—Formation and Stability of <i>spiro</i> -Compounds. Part XIII. <i>spiro</i> -Compounds from the Substituted Lævulic Acids. By EUGENE ROTHSTEIN and JOCELYN FIELD THORPE	2011
CCLXX.—Researches on Residual Affinity and Co-ordination. Part XXVII. Ethylenediammine Copper Salts. By GILBERT T. MORGAN and FRANCIS HEReward BURSTALL	2018
CCLXXI.—Researches on Residual Affinity and Co-ordination. Part XXVIII. Thermal Measurements on Derivatives of Cupric Iodide. By GILBERT T. MORGAN, SYDNEY RAYMOND CARTER, and WILLIAM FINNEMORE HARRISON	2027

CCLXXII.—Nitration of Chlorinated 3-Hydroxybenzaldehydes and some Consequences of Adjacent Substitution. By HERBERT HENRY HODGSON and HERBERT GREENSMITH BEARD	2030
CCLXXIII.—Nitrosation of Phenols. Part III. Nitrosation of 4-Halogeno- <i>o</i> - and - <i>m</i> -cresols and Oximation of the 4-Halogeno-2:5-toluquinones. By HERBERT HENRY HODGSON and FRANCIS HARRY MOORE	2036
CCLXXIV.—Orientation Effects in the Diphenyl Series. Part III. The Mononitro-4:4'-dihalogenodiphenyls and Some Allied Compounds. By RAYMOND JAMES WOOD LE FÈVRE and EUSTACE EBENEZER TURNER	2041
CCLXXV.—The Catalytic Hydrogenation of Carone. By SUBRAMANIA NARAYANA IYER and JOHN LIONEL SIMONSEN	2049
CCLXXVI.—The Alcohols of the Hydroaromatic and Terpene Series. Part V. The Geometrical and Optical Isomerism of the Methylcyclohexanols. By GEORGE ALECK CROCKER GOUGH, HAROLD HUNTER, and JOSEPH KENYON	2052
CCLXXVII.—Piperitone. Part VIII. The Condensation of Piperitone with Aldehydes. By JOHN CAMPBELL EARL and JOHN READ	2072
CCLXXVIII.—Preparation of 3:5-Dihalogenophenols. By HERBERT HENRY HODGSON and JOHN SAMUEL WIGNALL	2077
CCLXXIX.—The Dependence of Rotatory Power on Chemical Constitution. Part XXIX. The Resolution of Sulphoxides into their Optically Active Forms. By PHILIP WILLIAM BENSON HARRISON, JOSEPH KENYON, and HENRY PHILLIPS	2079
The Physical Properties of Glasses. The Relationship to Chemical Composition and Mode of Preparation. A Lecture delivered before the Chemical Society on April 29th, 1926. By WILLIAM ERNEST STEPHEN TURNER, O.B.E., D.Sc.	2091
CCLXXX.—Optical Activity and the Polarity of Substituent Groups. Part IV. <i>sec</i> -. β -Octyl Esters of <i>o</i> -, <i>m</i> -, and <i>p</i> -Methoxy- and Nitro-benzoic Acids. By HAROLD GORDON RULE and ANNIE HUTTON NUMBERS	2116
CCLXXXI.—Conessine. By DARAB DINSHA KANGA, PANCHANDANA RAMASWAMI AYYAR, and JOHN LIONEL SIMONSEN	2123
CCLXXXII.—The Chemistry of the Three-carbon System. Part VI. Some Systems containing the Benzoyl Group. By MAURICE DUNCAN FARROW and GEORGE ARMAND ROBERT KON	2128

CCLXXXIII.—The Propagation of Flame in Mixtures of Methane and Air. Part IV. The Effect of Restrictions in the Path of the Flame. By WILLIAM RONALD CHAPMAN and RICHARD VERNON WHEELER	2139
CCLXXXIV.—The Catalytic Dissociation of Carbon Monoxide. By JOHN CLEMINSON and HENRY VINCENT AIRD BRISCOE	2148
CCLXXXV.—A Differential Method for the Measurement of the Vapour Pressure of Liquids. By VICTOR GEORGE JOLLY and HENRY VINCENT AIRD BRISCOE	2154
CCLXXXVI.—The Reactivity of <i>meso</i> -Substituted Anthracenes. Part III. By JAMES WILFRED COOK	2160
CCLXXXVII.—The Chemistry of the Glutaconic Acids. Part XX. Tetrahydroisophthalic Acid. By ERNEST HAROLD FARMER and HENRY LORIMER RICHARDSON	2172
CCLXXXVIII.—The Oxidation of Tartaric Acid by Solutions of Silver Salts. By DURBAN ROY MAXTED.	2178
CCLXXXIX.—A New Method of Diagnosing Potential Optical Activity. Part II. The Optical Activity of Chlorobromoacetic Acid. By JOHN READ and ANN MORTIMER McMATH	2183
CCXC.—The Optical Resolution of Chlorosulphoacetic Acid. By JOHN READ and ANN MORTIMER McMATH	2192
CCXCI.—The Action of Thionyl Chloride on Hydroxyanthraquinones. Part III. By ALBERT GREEN	2198
CCXCII.—Synthesis of Certain Higher Aliphatic Compounds. Part II. The Hydration of Stearolic Acid. By GERTRUDE MAUD ROBINSON and ROBERT ROBINSON.	2204
CCXCIII.—Researches in the Menthone Series. Part II. Optically Active Menthones and Menthylamines. By JOHN READ and GEORGE JAMES ROBERTSON	2209
CCXCIV.—Researches in the Menthone Series. Part III. Optically Inactive Menthylamines. By JOHN READ, ALISON MARY RITCHIE COOK, and (in part) MARY ISOBEL SHANNON	2223
CCXCV.—The Condensation of Benzyl Methyl Ketone with Salicylaldehyde. By ROBERT DICKINSON	2234
CCXCVI.—10-Chloro-5 : 10-dihydrophenarsazine and its Derivatives. Part III. Homologues and Amino-, Chloro-, and Cacodyl Derivatives. By HAROLD BURTON and CHARLES STANLEY GIBSON	2241
CCXCVII.—Derivatives of Naphthaquinolines and Naphtha-isoquinolines. By CHARLES STANLEY GIBSON, KALVOI VENKATAKRISHNA HARIHARAN, KOTTIAZATH NARAYANA MENON, and JOHN LIONEL SIMONSEN	2247

CCXCVIII.—Derivatives of Tetrahydrocarbazole. Part VI. Compounds Derived from 6-Methyltetrahydrocarbazole. By BASAVALINGAIAH LINGAIAH MANJUNATH and SYDNEY GLENN PRESTON PLANT	2260
CCXCIX.—2 : 2'-Bis-1 : 3-benzdithiolene. By WILLIAM ROBERT HARDY HURTLEY and SAMUEL SMILES	2263
CCC.—The Interaction of Sulphur Dioxide and Hydrogen Sulphide. By ERNEST MATTHEWS	2270
CCCI.—The Formation of Protective Oxide Films on Copper and Brass by Exposure to Air at Various Temperatures. By WILLIAM H. J. VERNON	2273
CCCII.—Acid and Salt Effects in Catalysed Reactions. Part I. By HARRY MEDFORTH DAWSON and JOHN STANLEY CARTER	2282
CCCIII.—Imino-aryl Ethers. Part IV. Reversible Migra- tion of an Aryl Group. By ARTHUR WILLIAM CHAPMAN	2296
CCCIV.—Studies in Adsorption by an Optical Method. Fixation of Methylene-blue by Yeast-phosphoprotein Sol within the Disperse Phase. By RASSA ROWLIN	2300
CCCV.—A Critical Study of Ring Structure in the Sugar Group. By HARRY DUGALD KEITH DREW and WALTER NORMAN HAWORTH	2303
CCCVI.—An X-Ray Study of Some Structural Modifications of Long-chain Compounds. By STEPHEN HARVEY PIPER, THOMAS MALKIN, and HAROLD E. AUSTIN	2310
CCCVII.—The Electrolytic Synthesis of Tetramethyladipic Acids. By ERNEST HAROLD FARMER and JACOB KRACOVSKI	2318
CCCVIII.—The Formation of Phosphinic Acids from Triaryl- methoxyphosphorus Dichlorides. By DAVID RUNCIMAN BOYD and FREDERICK JAMES SMITH	2323
CCCIX.—A New Synthesis of Fisetin and of Quercetin. By JAMES ALLAN and ROBERT ROBINSON	2334
CCCX.—A Synthesis of Kaempferide and of <i>iso</i> Rhamnetin. By TOM HEAP and ROBERT ROBINSON	2336
CCCXI.—A Synthesis of Acacetin and Certain Other Deriv- atives of Flavone. By ROBERT ROBINSON and KRISH- NASAMI VENKATARAMAN	2344
CCCXII.—A Modification of the Gabriel Synthesis of Amines. By HARRY RAYMOND ING and RICHARD HELMUTH FRED MANSKE	2348
CCCXIII.—The Fission of Some Methoxylated Benzo- phenones. By THOMAS RUSSELL LEA and ROBERT ROBINSON	2351

	PAGE
CCCXIV.—The Hydrolytic Fission of Some Substituted Dibenzoylmethanes. By WILLIAM BRADLEY and ROBERT ROBINSON	2356
CCCXV.—The Action of Hydrazines on Semicarbazones. Part II. By WILLIAM BAIRD and FORSYTH JAMES WILSON	2367
CCCXVI.—The Non-acidic Oxidation Products of Paraffin Wax. By FRANCIS FRANCIS and HARRY FREDERICK GAUNTLETT	2377
CCCXVII.—Studies in the Diphenyl Series. Part II. The Nitration of Diphtalylbenzidine. By HERBERT HENRY HODGSON	2384
CCCXVIII.—The Isomerism of the Oximes. Part XXVI. The Methyl Ethers of the Aldoximes. By OSCAR L. BRADY, FREDERICK P. DUNN, and RICHARD F. GOLDSTEIN	2386
CCCXIX.—The Isomerism of the Oximes. Part XXVII. The Mechanism of Methylation of the Aldoximes. By OSCAR L. BRADY and RICHARD F. GOLDSTEIN	2403
CCCXX.—The Isomerism of the Oximes. Part XXVIII. The Beckmann Rearrangement of the <i>N</i> -Methyl Ethers of Aldoximes. By OSCAR L. BRADY and FREDERICK P. DUNN	2411
CCCXXI.—The Reaction between Picryl Chloride and Pyridine in Alcoholic Solution. By FRANCIS WILLIAM HODGES	2417
CCCXXII.—An Experimental Study of Protective Colloids. Part I. The Influence of Concentration. By SAMUEL SUGDEN and MONTAGUE WILLIAMS	2424
CCCXXIII.—Mercuration of Some Alkylphenols and Alkylphenolaldehydes. By THOMAS ANDERSON HENRY and THOMAS MARVEL SHARP	2432
CCCXXIV.—The Nature of the Alternating Effect in Carbon Chains. Part VIII. The Nitration of Some Benzylamine Derivatives with Special Reference to the Respective Rôles of the Ions, Salts, and Bases. By FRANK ROBERT GOSS, CHRISTOPHER KELK INGOLD, and IAN STUART WILSON	2440
CCCXXV.—The Nature of the Alternating Effect in Carbon Chains. Part IX. The Directive Influence of Groups of the Form $-CRR'NO_2$ in Aromatic Substitution. By JOHN WILLIAM BAKER and CHRISTOPHER KELK INGOLD	2462

	PAGE
CCCXXVI.—The Space Formula of Diphenyl. By RAYMOND JAMES WOOD LE FÈVRE and EUSTACE EBENEZER TURNER	2476
CCCXXVII.—The Alkaline Hydrolysis of Esters in Aqueous Alcoholic Solution. Part I. The Interaction of Phenoxides and Aliphatic Esters in Alcoholic Solution. By ERIC STEPHEN GYNGELL	2484
CCCXXVIII.—Alternation in the Heats of Crystallisation of the Normal Monobasic Fatty Acids. Part II. By W. E. GARNER, F. C. MADDEN, and J. E. RUSHBROOKE	2491
CCCXXIX.—The Tautomerism of Amidines. Part VI. Methylation of 4-Anilino-2-phenyl-6-methylpyrimidine. By ROBERT FORSYTH and FRANK LEE PYMAN	2502
CCCXXX.—The Determination of the Atomic Weight of Silver by the Direct Ratio of Silver to Oxygen in Silver Oxide. By HARRY LISTER RILEY and HERBERT BRERETON BAKER	2510
CCCXXXI.—Quaternary Ammonium Perhalides. By THOMAS HAROLD READE	2528
CCCXXXII.—Some Thiazole Derivatives. Part I. By HERBERT WILLIAM STEPHEN and FORSYTH JAMES WILSON	2531
CCCXXXIII.—Conductivities of Some Organic Salts of Beryllium. By NEVIL V. SIDGWICK and NEIL B. LEWIS	2538
CCCXXXIV.—The Spatial Structure of <i>cyclo</i> Paraffins. Part II. The Structure of 1:1-Disubstituted <i>cyclo</i> Hexanes. By WILFRED ALAN WIGHTMAN	2541
CCCXXXV.—The Chemistry of Petroleum. Part III. The Acid Sludge from the Refining of Persian Kerosene. Part I. The Aromatic Hydrocarbons. By STANLEY FRANCIS BIRCH and WOODFORD STANLEY GOWAN PLUCKNETT NORRIS	2545
CCCXXXVI.—The Solubilities of Thallous Chloride in Salt Solutions at 0°, 25°, and 50°, and its Heats of Solution. By JOHN ALFRED VALENTINE BUTLER and EDWARD STANLEY HISCOCKS	2554
CCCXXXVII.—Degradative Experiments in the Morphine Group. By ROBERT SIDNEY CAHN	2562
CCCXXXVIII.—New Crystalline Forms of Trimethyl Glucose and Dimethyl Glucose. By WALTER NORMAN HAWORTH and WILLIAM GREENWELL SEDGWICK	2573
CCCXXXIX.—Periodic Phenomena at Anodes of Magnesium, Zinc, Cadmium, Mercury, Tin, and Lead, and at an Unattackable Anode. By ERNEST SYDNEY HEDGES	2580

CCCXL.—Thionyl Bromide and Besson's Supposed Thionyl Chlorobromide. By HORACE ALFRED MAYES and JAMES RIDDICK PARTINGTON	2594
CCCXLI.—Parallelism between the Effect of Neutral Salts on the Electrical Charge of Hydrated Manganese Oxides and the Concentration of Hydrogen Ions liberated. By BHUPENDRANATH GHOSH	2605
CCCXLII.—Examination of an Ancient Egyptian (Tut-ankh-Amen) Cosmetic. By A. CHASTON CHAPMAN and H. J. PLENDERLEITH	2614
CCCXLIII.—The Hydrates of Manganous Oxalate. By NORMAN HENRY CHAMBERLAIN, JOHN HUME, and BRYAN TOPLEY	2620
CCCXLIV.—The Dielectric Constants of Some Liquids and Liquid Mixtures. By LEONARD ALFRED SAYCE and HENRY VINCENT AIRD BRISCOE	2623
CCCXLV.—Equilibrium in the Systems Nickel Sulphate-Potassium Sulphate-Water, Zinc Sulphate-Potassium Sulphate-Water, and Manganese Sulphate-Potassium Sulphate-Water at 25°. By ROBERT MARTIN CAVEN and WILLIAM JOHNSTON	2628
CCCXLVI.—An X-Ray Investigation of the Normal Saturated Dicarboxylic Acids and their Ethyl Esters. By ALEXANDER R. NORMAND, JOHN D. M. ROSS, and EDWARD HENDERSON	2632
CCCXLVII.—Studies of Precipitated Solids. Part I. Strontium Sulphate. By BERTRAM LAMBERT and WILLIAM HUME-ROTHERY	2637
CCCXLVIII.—Studies of Precipitated Solids. Part II. Calcium Sulphate. By BERTRAM LAMBERT and ROBERT JOHN SCHAFFER	2648
CCCXLIX.—The Influence of Intensive Drying on Inner Equilibria. Part II. By ANDREAS SMITS	2655
CCCL.—The Influence of Intensive Drying on Inner Equilibria. Part III. By ANDREAS SMITS, WILLEM DE LIEFDE, EMANUEL SWART, and ANTONY CLAASSEN	2657
CCCLI.—Studies in the Camphane Series. Part XLI. The Unstable Modification of <i>iso</i> Nitrosocamphor. By MARTIN ONSLOW FORSTER and KESHAVIAH ASHWATH NARAIN RAO	2670
CCCLII.—The Configuration of the Bistriaminopropane Metallic Complexes. By FREDERICK GEORGE MANN and (Sir) WILLIAM JACKSON POPE	2675

CCCLIII.—The Complex Salts of $\alpha\beta\gamma$ -Triaminopropane with Copper and Platinum. By FREDERICK GEORGE MANN	2681
CCCLIV.—Preparation of Hydroxybenzophenones and Hydroxyxanthenes. By HAROLD ATKINSON and ISIDOR MORRIS HEILBRON	2688
CCCLV.—Nitration of Fluorene. 2:5-Dinitrofluorene. By GILBERT T. MORGAN and REUBEN WILLIAM THOMASON	2691
CCCLVI.—Phototropic Amino-aryl Disulphoxides. By REGINALD CHILD and SAMUEL SMILES	2696
CCCLVII.—The Oxidation of Narcotine by Hydrogen Peroxide. By ALLAN MACLEAN DRUMMOND and ANDREW McMILLAN	2702
CCCLVIII.—Investigations in the Diphenyl Series. Part II. Substitution Reactions. By FRANK BELL and JOSEPH KENYON	2705
CCCLIX.—Synthetical Experiments in the <i>iso</i> Flavone Group. Part II. A Synthesis of Methylgenistein (Methylprunetol) Dimethyl Ether and the Constitution of Prunetol (Genistein). By WILSON BAKER and ROBERT ROBINSON	2713
CCCLX.—The Condensation of Phenols with Chloral. By FREDERICK DANIEL CHATTAWAY	2720
CCCLXI.—The Chemistry of the Three-carbon System. Part VII. Derivatives of Malonic Acid. By GEORGE ARMAND ROBERT KON and ERIC ALFRED SPEIGHT	2727
CCCLXII.—The Chemistry of the Three-carbon System. Part VIII. Tautomeric Systems terminated by a Phenyl Group. By REGINALD PATRICK LINSTEAD and LESLIE THOMAS DOUGLAS WILLIAMS	2735
CCCLXIII.—The Chemistry of the Three-carbon System. Part IX. The $\alpha\beta$ - $\beta\gamma$ -Change in β -Alkylcinnamic Acids. By JOHN DOBNEY ANDREW JOHNSON and GEORGE ARMAND ROBERT KON	2748
NOTES.—The Reaction between Aluminium, Iodine, Ethyl Alcohol, and Water. Preparation of Ethyl Iodide. By A. O. JONES and G. MELLING GREEN	2760
The Isomeric Fluorobenzaldehydes and their Derivatives. By JOHN BALDWIN SHOESMITH, CHARLES EDWIN SOSSON, and ROBERT HENRY SLATER	2760
The Oxidation of Sabinol with Hydrogen Peroxide. By GEORGE GERALD HENDERSON and ALEXANDER ROBERTSON	2761

CCCLXIV.—Examination of the Volatile Oils from <i>Xanthorrhœa arborea</i> , <i>X. hastilis</i> , and <i>X. reflexa</i> . By HEDLEY HERBERT FINLAYSON	2763
CCCLXV.—Olefinic Terpene Ketones from the Volatile Oil of Flowering <i>Tagetes glandulifera</i> . Part II. By THOMAS GILBERT HENRY JONES	2767
CCCLXVI.—Melting-point Curves of Optical Isomerides in the Camphor Series. By JOHN D. M. ROSS and IAN C. SOMERVILLE	2770
CCCLXVII.—The Systems Sodium Iodide–Acetone and Sodium Iodide–Methyl Ethyl Ketone. By ALAN ERIC WADSWORTH and HARRY MEDFORTH DAWSON	2784
CCCLXVIII.—The Influence of Dissolved Salts on the Mutual Miscibility Temperature of the Systems Ethyl Alcohol or Methyl Alcohol–Paraffins. By EDWARD JOHN HOWARD and WILLIAM HAMILTON PATTERSON	2787
CCCLXIX.—Miscibility Tests of Dilute Solutions of Chromic Chloride Hexahydrates. By EDWARD JOHN HOWARD and WILLIAM HAMILTON PATTERSON	2791
CCCLXX.—The Dielectric Constants of Mixtures of Organic Liquids. By ROBERT NAPIER KERR	2796
CCCLXXI.—Derivatives of Stilbene. By JULIUS NICHOLSON ASHLEY	2804
CCCLXXII.—A Synthesis of Some Substituted 3-Methylquinolines. By STANLEY GORDON WILLIMOTT and IAN ALEXANDER SIMPSON	2807
CCCLXXIII.—The Chemistry of Cadinene. Part II. Compounds related to Cadinene. By GEORGE GERALD HENDERSON and JOHN MONTEATH ROBERTSON	2811
CCCLXXIV.—The Specific Heats of Hydrocyanic Acid. A Reply. By EDITH HILDA INGOLD	2816
CCCLXXV.—The Metallic Compounds of Certain Monoximes and the Structure of the Oximes. By THOMAS WESTON JOHNS TAYLOR and (MISS) ELINOR KATHARINE EWBANK	2818
CCCLXXVI.—Preparation of the 5-Halogenoresorcinols. By HERBERT HENRY HODGSON and JOHN SAMUEL WIGNALL	2826
CCCLXXVII.—Germanium. Part III. Salts of Germanic Acid. By WILLIAM PUGH	2828
CCCLXXVIII.—The Preparation and Hydrolysis of the Isomeric Azoxybenzyl Bromides. By JOHN BALDWIN SHOESMITH and WILLIAM EDMUND TAYLOR	2832

CCCLXXIX.—The Photochemical Decomposition of Aqueous Oxalic Acid Solutions. By ARTHUR JOHN ALLMAND and LEWIS REEVE	2834
CCCLXXX.—The Photochemical Decomposition of Aqueous Formic Acid Solutions. By ARTHUR JOHN ALLMAND and LEWIS REEVE	2852
CCCLXXXI.—The Velocity of Saponification of Mono- and Di-substituted Chloro- and Methoxy-derivatives of Ethyl Benzoate. By WILLIAM BLAKEY, HAMILTON MCCOMBIE, and HAROLD ARCHIBALD SCARBOROUGH	2863
CCCLXXXII.—The Basic Sulphate of Copper. A Reply. By HUBERT THOMAS STANLEY BRITTON	2868
CCCLXXXIII.—Acid and Salt Effects in Catalysed Reactions. Part II. The Minimum Reaction Velocities for Acid-Salt Mixtures. By HARRY MEDFORTH DAWSON and NORMAN CECIL DEAN	2872
CCCLXXXIV.—The Periodic Electrochemical Passivity of Iron, Cobalt, Nickel, and Aluminium. By ERNEST SYDNEY HEDGES	2878
CCCLXXXV.—Studies of Electrolytic Polarisation. Part IV. The Electro-deposition Potentials of Iron, Cobalt, and Nickel. By SAMUEL GLASSTONE	2887
CCCLXXXVI.—Studies of Electrolytic Polarisation. Part V. The Electro-deposition Potentials of Alloys of Iron, Cobalt, and Nickel. By SAMUEL GLASSTONE	2897
CCCLXXXVII.—The Relative Stability of the Quinolone and Indolinone Rings. By JOHN ALFRED AESCHLIMANN	2902
CCCLXXXVIII.—Nitration of 2-, 3-, and 4-Phenylpyridines. By ROBERT FORSYTH and FRANK LEE PYMAN	2912
CCCLXXXIX.—Synthesis of Some Derivatives of Methylene-dioxybenzene. By WILLIAM HENRY PERKIN, jun., and VICTOR MARTIN TRIKOJUS	2925
CCCXC.—The Density of Calcium Carbonate Hexahydrate. By JOHN HUME and BRYAN TOPLEY	2932
CCCXCI.—Solubility Influences. Part II. The Effect of Various Salts on the Solubility of Ethyl Acetate in Water. By SAMUEL GLASSTONE, DENYS W. DIMOND, and EDWARD C. JONES	2935
CCCXCII.—Solubility Influences. Part III. The Salting-out Effect of Mixtures on Aqueous Solutions of Ethyl Acetate. By SAMUEL GLASSTONE, DENYS W. DIMOND, and EDGAR R. HARRIS	2939
CCCXCIII.—The Crystal Structure of Quinol. Part I. By WILLIAM AUGUSTUS CASPARI	2944

CCCXCIV.—The Spectra of the Phosphorescent Flames of Carbon Disulphide and Ether. By HARRY JULIUS EMELÉUS	2948
CCCXCV.—Aminobenzthiazoles. Part V. Stability of the 1-Alkylaminobenzthiazole Bromides. By ROBERT FERGUS HUNTER	2951
CCCXCVI.—Aminobenzthiazoles. Part VI. The Addition of Bromine to Nascent Tautomeric Systems of the Aminothiazole Type and the Mobility and Unsaturation of the 5-Bromo-1-alkylaminobenzthiazole System. By ROBERT FERGUS HUNTER and CHARLES SOYKA	2958
CCCXCVII.—Aminobenzthiazoles. Part VII. The 2-Alkylamino- β -naphthathiazole System. By GEORGE MALCOLM DYSON, ROBERT FERGUS HUNTER, and CHARLES SOYKA	2964
NOTES.—The Colour produced by the Action of Light on Concentrated Solutions of Ammonium Thiocyanate. By EMIL ALPHONSE WERNER and KENNETH CLAUDE BAILEY	2970
The Condensation of Quinaldine with <i>m</i> -Nitrobenzaldehyde. By THOMAS WESTON JOHNS TAYLOR and CHARLES POWYS WOODHOUSE	2971
Arrangement for Alternating Current Electrolysis. By HENRY J. S. SAND and WILLIAM V. LLOYD	2971
CCCXCVIII.—The Diffusion of Zinc in the α -Series of Solid Solution in Copper. By JOHN STANLEY DUNN	2973
CCCXCIX.—The Crotonic Acid Series. Part I. Nitrogen Derivatives of Crotonic Acid. By MONTAGUE ALEXANDRA PHILLIPS	2979
CCCC.—The Oxidation of Ammonium Sulphide. By MALCOLM P. APPLEBEY and JOHN A. LANYON	2983
The Composition and Characterisation of Genuine Proteins. Hugo Müller Lecture, delivered before the Chemical Society on October 28th, 1926. By SØREN PETER LAURITZ SØRENSEN	2995
CCCCI.—The Ignition of Gases by an Explosion-Wave. Part I. Carbon Monoxide and Hydrogen Mixtures. By COLIN CAMPBELL and DONALD WHITLEY WOODHEAD	3010
CCCCII.—The Conductivity of Phosphoric Acid Solutions at 0°. By ALAN NEWTON CAMPBELL	3021
CCCCIII.—Interaction between Hydrated Silica and Neutral Electrolytes in its Relation to the Nature of Hydrolytic Adsorption. By JNANENDRA NATH MUKHERJEE, BIVAS CHANDRA GHOSH, K. KRISHNAMURTI, GAJENDRA NARAYAN GHOSH, SUBHENDU KUMAR MITRA, and BANKIM CHANDRA ROY	3023

	PAGE
CCCCIV.—The Dicarbazyls. Part I. Synthesis of 3 : 3'-Dicarbazyl. By STANLEY HORWOOD TUCKER	3033
CCCCV.—The Stereochemistry of the Hydronaphthalenes. Part I. Decahydro- β -naphthamides. By FRANCIS WILLIAM KAY and NOEL STUART	3038
CCCCVI.—The Interaction of Thiocarbonyl Chloride and Chloro-substituted Anilines and the Inhibitory Action of <i>ortho</i> -Substituents. By GEORGE MALCOLM DYSON, HERBERT JOHN GEORGE, and ROBERT FERGUS HUNTER	3041
CCCCVII.—Investigations in the Diphenyl Series. Part III. Derivatives of 4-Hydroxydiphenyl. By FRANK BELL and JOSEPH KENYON	3044
CCCCVIII.—Investigations in the Diphenyl Series. Part IV. Halogenation of 4-Aminodiphenyl. By JOSEPH KENYON and PERCY HARRY ROBINSON	3050
CCCCIX.—Cyclic Organo-metallic Compounds. Part II. Tellurylium Compounds, a New Series of Intensely Coloured Tellurium Derivatives. The Migration of Anions in Solids. By HARRY DUGALD KEITH DREW	3054
CCCCX.—Preparation of <i>cis-o</i> -Carboxycyclohexaneacetic Acid. By GEORGE ARMAND ROBERT KON and MUHAMMAD QUDRAT-I-KHUDA	3071
CCCCXI.—Co-ordinated Mercaptides. By ALAN MACLEAN DRUMMOND and DAVID TEMPLETON GIBSON	3073
CCCCXII.—The Constituents of Oil of Supa. A New Natural Source of Copaene. By GEORGE GERALD HENDERSON, WILLIAM M'NAB, and JOHN MONTEATH ROBERTSON	3077
CCCCXIII.—The Structure of the Benzene Nucleus. Part V. Some <i>meso</i> -Derivatives of Anthracene. By CHRISTOPHER KELK INGOLD and PHILIP GUY MARSHALL	3080
CCCCXIV.—The Alleged Nitration of <i>S</i> -Methylthioguaiacol. A Criticism. By ALFRED POLLARD and ROBERT ROBINSON	3090
CCCCXV.—Action of Nitric Acid on <i>S</i> -Methylthioguaiacol. A Correction. By CHRISTOPHER KELK INGOLD and EDITH HILDA INGOLD	3093
CCCCXVI.—The Constitution of the Disaccharides. Part XI. Maltose. By WALTER NORMAN HAWORTH and STANLEY PEAT	3094
CCCCXVII.—The Chemistry of the Three-carbon System. Part X. The Mobility of Some Cyclic Ketones. By GEORGE ARMAND ROBERT KON and JOHN HENRY NUTLAND	3101

CCCCXVIII.—The Mechanism of Kolbe's Electrosynthesis. By DAVID ALEXANDER FAIRWEATHER and OSWALD JAMES WALKER	3111
CCCCXIX.—Optical Activity dependent on Co-ordinated Beryllium, Copper, and Zinc. By WILLIAM HOBSON MILLS and REGINALD ARTHUR GOTTS	3121
CCCCXX.—The Unsaponifiable Matter from the Oils of Elasmobranch Fish. Part II. The Hydrogenation of Squalene in the Presence of Nickel. By ISIDOR MORRIS HEILBRON, THOMAS PERCY HILDITCH, and EDWARD DAVID KAMM	3131
CCCCXXI.—The Unsaponifiable Matter from the Oils of Elasmobranch Fish. Part III. Tetracyclosqualene and the Production of a New Naphthalene Hydrocarbon. By JOHN HARVEY, ISIDOR MORRIS HEILBRON, and EDWARD DAVID KAMM	3136
CCCCXXII.—Derivatives of Acenaphthpyridine. Part I. By SRIKUMARAN UNNI NAIR and JOHN LIONEL SIMONSEN	3140
CCCCXXIII.—3-Methoxy-2-phenylindole and 3-Benzoyl- amino-2-phenylindole. By ROBERT ROBINSON and SIDNEY THORNLEY	3144
CCCCXXIV.—The Partial Esterification of Polyhydric Alcohols. Part IV. The Oxidation of Allyl Esters to α -Monoglycerides. By ARTHUR FAIRBOURNE and GRAHAM EDWARD FOSTER	3146
CCCCXXV.—The Partial Esterification of Polyhydric Alcohols. Part V. The α -Structure of Alleged " β "- Monoglycerides. By ARTHUR FAIRBOURNE and GRAHAM EDWARD FOSTER	3148
CCCCXXVI.—The Absolute Density and Coefficient of Expansion of Silicon Tetrachloride. By PERCY LUCOCK ROBINSON and HAROLD CECIL SMITH	3152
CCCCXXVII.—The Thermal Reactivity of Ozone in Presence of Hydrogen. By JOSEPH WATKIN BELTON, ROBERT OWEN GRIFFITH, and ANDREW MCKEOWN	3153
CCCCXXVIII.—Acid and Salt Effects in Catalysed Reactions. Part III. Dependence of the Characteristics of the Minimum-Velocity Mixture on the Concentration of the Acid and the Application of Minimum Velocity to the Determination of Catalytic and Ionisation Constants. By HARRY MEDFORTH DAWSON and CHARLES RANDALL HOSKINS	3166
CCCCXXIX.—The Action of Antimony Trichloride upon Diazotised Diamines. By WILLIAM HERBERT GRAY	3174

	PAGE
CCCCXXX.—Low Temperature Oxidation at Charcoal Surfaces. Part III. The Behaviour of Blood Charcoal and the Influence of Temperature on the Reaction Rate. By ERIC KEIGHTLEY RIDEAL and WINIFRED MARY WRIGHT	3182
CCCCXXXI.—A Phase-rule Study of the Zinci-, Cadmi-, Mercuri-, and Nickelocyanides of Potassium. By ALEXANDER STEVEN CORBET	3190
CCCCXXXII.—Optical Activity and the Polarity of Substituent Groups. Part V. <i>sec.</i> - β -Octyl Esters of some Substituted Acetic Acids and their Behaviour towards Solvents. By HAROLD GORDON RULE and ROBERT K. S. MITCHELL	3202
CCCCXXXIII.—The Crystalline Forms of 5-Nitrosalicylic Acid and of Related Compounds. By FREDERICK DANIEL CHATTAWAY and WILLIAM RYLE CLIFFORD CURJEL	3210
CCCCXXXIV.—The Mercuration of Aromatic Substances. Part III. <i>p.</i> - and <i>m.</i> -Nitrotoluenes. By SAMUEL COFFEY.	3215
CCCCXXXV.—Studies in Optical Superposition. Part VII. The Bornyl Dimethoxysuccinates. By THOMAS STEWART PATTERSON, JAMES DAVIDSON FULTON, and JEAN McWATERS SEMPLE (Mrs. I. F. MACCULLOCH)	3224
CCCCXXXVI.—The Decomposition of Substituted Carbamyl Chlorides by Hydroxy-compounds. Part III. The Influence of Substituent Groups. By TUDOR WILLIAMS PRICE	3230
CCCCXXXVII.—The Formation and Stability of Associated Alicyclic Systems. Part III. The Change from "Meta-" to "Para-" Bridged Rings. By ERNEST HAROLD FARMER and JOHN ROSS	3233
NOTES.— <i>p.</i> -Dimethylaminobenzylidene Pentaerythritol. By ARTHUR FAIRBOURNE and JAMES WILLIAM WOODLEY	3240
5-Methoxy- α -naphthaldehyde. By JOHN BALDWIN SHOE-SMITH and HANNES RUBLI	3241
Some New Organo-tin Compounds. By KENNETH KNIGHT LAW	3243
OBITUARY NOTICES	3244
