

INDEX OF AUTHORS' NAMES, 1927.

A.

- Achar, N. Venkatanarasimha,** and **Francis L. Usher,** chemical action at an interface: the production of acidity in neutral salt solutions, 1875.
- Acworth, Joseph J.,** obituary notice of, 959.
- Aeschlimann, John A.,** the reaction between Grignard reagents and 10-chlorophenoxarsine or 10-chloro-5:10-dihydrophenarsazine, 413.
- Allmand, Arthur J.,** and **Herbert C. Cocks,** the electrolysis of potassium chloride solutions by alternating currents, 2626.
- Allmand, Arthur J., Percy W. Cunliffe,** and **Robert E. W. Maddison,** the photodecomposition of chlorine water and of aqueous hypochlorous acid solutions. Part II., 655.
- Allmand, Arthur J.,** and **Robert E. W. Maddison,** on the alleged retardation of certain reactions by light, 650.
- Allpress, Charles F., Walter N. Haworth,** and **John J. Inkster,** sugar carbonates. Part III. Derivatives of γ -methylfructoside, γ -ethylfructoside, and normal methylfructoside, 1233.
- Angel, Thomas H.** See **Leonard E. Hinkel.**
- Archibald, Eben H.,** and **William Ure,** the viscosity of ether at low temperatures, 610.
- Asahina, Yasuhiko, Richard H. F. Manske,** and **Robert Robinson,** a synthesis of rutecarpine, 1708.
- Askew, Henry O.,** the production of fog in the neutralisation of alkali with hydrogen halides, 966.
- Attree, Gordon F.,** and **Arthur G. Perkin,** the position of the sugar nucleus in the quercetin glucosides, 234.
- Avery, John, Walter N. Haworth,** and **Edmund L. Hirst,** the constitution of the disaccharides. Part XV. Sucrose, 2308.

B.

- Baird, William, Robert Burns,** and **Forsyth J. Wilson,** reactions of thiosemicarbazones. Part III., 2527.
- Baird, William,** and **Forsyth J. Wilson,** the action of hydrazines on semicarbazones. Part III., 2114.
- Baker, Herbert B.,** presidential address, 949.
change of properties of substances on drying, 2902.
- Baker, John W.,** the nature of the alternating effect in carbon chains. Part XII. Nitration of some derivatives of methyl benzylaminoformate, 565.
- Baker, John W.,** and **Alfred Eccles,** the nature of the alternating effect in carbon chains. Part XXI. The directive influence of the groups $-\text{CH}_2\cdot\text{CH}(\text{CO}_2\text{Me})_2$, $-\text{CH}\cdot\text{C}(\text{CO}_2\text{Me})_2$, $-\text{C}(\text{CO}_2\text{Me})\cdot\text{CH}_2$, and $\text{CH}\cdot\text{CH}\cdot\text{C}(\text{CO}_2\text{Me})_2$ in aromatic substitution, 2125.
- Baker, John W.,** and **Christopher K. Ingold,** the nature of the alternating effect in carbon chains. Part XI. Further evidence on the substitution of benzylamine salts, 261.
the nature of the alternating effect in carbon chains. Part XV. The directive action of some groups of the form $-\text{CR}'\text{R}''\cdot\text{COR}$ in aromatic substitution, 832.
- Baker, John W.,** and **Ian S. Wilson,** the nature of the alternating effect in carbon chains. Part XVII. The directive action of the groups $\cdot\text{CH}_2\cdot\text{CH}_2\cdot\text{NO}_2$, $\cdot\text{CH}\cdot\text{CH}\cdot\text{NO}_2$, and $\cdot\text{C}(\text{NO}_2)\cdot\text{CHR}$ in aromatic substitution, 842.
- Baker, Wilson,** 7-hydroxy-3-phenylcoumarin, 2898.
- Balaban, Isidore E.,** and **Harold King,** gold and mercury derivatives of 2-thiolglyoxalines; mechanism of the oxidation of 2-thiolglyoxalines to glyoxalines, 1858.
trypanocidal action and chemical constitution. Part VII. *s*-Carbamides and arylamides of naphthylamine-di- and -tri-sulphonic acids with some observations on the mesomorphic state, 3068.
- Barnes, George R.,** and **Frank L. Pyman,** the sulphonation of glyoxalines. Part III., 2711.

- Barnett, Edward de B., James W. Cook, and Ivor G. Nixon**, the synthesis of meso-alkyl and meso-aryl anthracene derivatives. Part I., 504.
- Barnett, Edward de B., James W. Cook, and John L. Wiltshire**, the synthesis of meso-alkyl and meso-aryl anthracene derivatives. Part II., 1724.
- Barnicoat, Cuthbert R.**, melting points of the substituted amides of dibasic acids, 2926.
- Barrett, Herbert S. B.** See *Joseph Reilly*.
- Bassett, Henry, and Reginald G. Durrant**, the inter-relationships of the sulphur acids, 1401.
- Baw, Hla, o-nitrobenzylphenyldimethylammonium chloride**, 1398.
- Beard, Herbert G.** See *Herbert H. Hodgson*.
- Becker, Maurice L.** See *Edward O. Jones*.
- Bell, Ernest V., and George M. Bennett**, cis-trans-isomerism of disulphoxides, 1798.
- Bell, Ernest V., George M. Bennett, and Alfred L. Hock**, decomposition of some halogenated sulphides, and the nature of the "polymeric" ethylene sulphides, 1803.
- Bell, Frank, and Percy H. Robinson**, investigations in the diphenyl series. Part V. Derivatives of 4-amino- and 4-hydroxy-diphenyl, 1127.
- investigations in the diphenyl series. Part VI. The configuration of diphenyl derivatives, 1695.
- investigations in the diphenyl series. Part VII. The relative stability of optically active diphenic acids, 2234.
- Bengough, Guy D., John M. Stuart, and Alfred R. Lee**, the routine preparation of low-conductivity water, 2156.
- Bennett, Charles L.** See *Oscar L. Brady*.
- Bennett, George M., and William A. Berry**, monothioethylene glycol. Part III. Nitrophenyl thioethers, 1666.
- the influence of the sulphur atom on the reactivity of adjacent atoms or groups. Part II. Comparative reactivities of chlorine in some β - and γ -chloro-sulphides, 1676.
- Bennett, George M., and Alfred L. Hock**, benzyl δ -chlorobutyl ether: a new unsymmetrical derivative of tetramethylene glycol, 472.
- Bennett, George M., and Alfred L. Hock**, the influence of the sulphur atom on the reactivity of adjacent atoms or groups. Part I. A qualitative comparison of the reactivities of chlorine and hydroxyl in the α -, β -, γ -, and δ -positions to a sulphur atom, 477.
- the nature of the supposed dimethiodide of trimethylene sulphide, 2496.
- Bennett, George M., and Leslie V. D. Scorah**, studies in the penthian series. Part I. The action of sodium ethoxide on ethyl β -thiodipropionate, 194.
- Bennett, George M.** See also *Ernest V. Bell*.
- Bennett, James A. J., and Ernest W. J. Mardles**, ionisation and chemical change during slow combustion, 3155.
- Bennett, Randle.** See *Frederick D. Chattaway*.
- Berchem, Rudolph G.** See *William W. Myddleton*.
- Berner, Andre**, the ratio of the heats of combustion of benzoic acid and salicylic acid, 338.
- Berry, William A.** See *George M. Bennett*.
- Betts, Raymond L., Rudolph Muspratt, and Sydney G. P. Plant**, the reactions of 1-anilino-cyclohexane-1-carboxylic acid; synthesis of ψ -indoxylspirocyclohexane, 1310.
- Bhagvat, Madhay B., and John L. Simonsen**, the constitution of the acid formed by the action of sulphuric acid on camphorquinone, 77.
- Bhide, Balwant W., and Herbert E. Watson**, esterification in mixed solvents, 2101.
- Bills, Edwin J.** See *James C. Duff*.
- Blakey, William, Walter I. Jones, and Harold A. Scarborough**, substitution products of 4-hydroxybenzophenone and of its methyl ether, 2865.
- Blakey, William, and Harold A. Scarborough**, substitution products of 3-nitro- and 3-amino-diphenyl, 3000.
- Bottomley, Arthur C., and Robert Robinson**, the orienting influence of free and bound ionic charges on attached simple or conjugated unsaturated systems. Part IV. The nitration of toluene- ω -sulphonic acid and of toluene- ω -sulphonyl chloride, 2785.
- Bowen, Edmund J., and Charles W. Bunn**, the photochemical oxidation of alcohols by the dichromate ion, 2353.
- Bowen, Edmund J., and Edward G. Pells**, a study of the chemiluminescence of phosphorus vapour, 1096.

- Boyd, David R.**, and **Harold H. Hatt**, the mechanism of the reaction between a carboxylic ester and a Grignard reagent, 898.
- Bradfield, Alan E.**, **Leslie H. N. Cooper**, and **Kennedy J. P. Orton**, halogenation of the *p*-hydroxydiphenylamine. Part II., 2854.
- Bradfield, Alan E.** See also **Kennedy J. P. Orton**.
- Brady, Oscar L.**, and **Charles L. Bennett**, the isomerism of the oximes. Part XXX. The preparation of *o*-methoxybenzaldehyde from bis-nitrosyl-*o*-methoxybenzyl, 894.
- Brady, Oscar L.**, and **Richard F. Goldstein**, the isomerism of the oximes. Part XXXI. The furfuraldoximes and 2-methoxy- and 4-methoxy-1-naphthaldoximes, 1959.
- Brady, Oscar L.**, and **Louis Klein**, the isomerism of the oximes. Part XXIX. Isomeric *p*-nitrobenzyl and methyl ethers of some aldoximes, 874.
- Brady, Oscar L.**, and **Alan D. Whitehead**, the isomerism of the oximes. Part XXXII. Sulphates, 2933.
- Bretscher, Egon.** See **Harold G. Rule**.
- Bridgman, (Miss) Joan.** See **Samuel Glasstone**.
- Brindley, William H.**, and **Frank L. Pyman**, the alkaloids of ipecacuanha. Part IV., 1067.
- Briscoe, Henry V. A.**, **Percy L. Robinson**, and **Harold C. Smith**, the density of boron trichloride and the suspected variation in the atomic weight of boron, 282.
- Briscoe, Henry V. A.** See also **Walter M. Madgin**.
- Britton, Hubert T. S.**, an electrometric study of tungstic acid, 147.
the soluble alkaline-earth aluminates, 422.
electrometric study of the precipitation of silicates, 425.
electrometric study of the precipitation of phosphates, 614.
- Brogan, Francis J. A.**, the diacyl derivatives of benzidine and *p*-phenylenediamine, 1381.
- Brooker, Leslie G. S.**, **Reginald Child**, and **Samuel Smiles**, aromatic sulphonyl disulphides, 1384.
- Brown, Andrew C.**, **Eric C. Pickering**, and **Forsyth J. Wilson**, reactions of carbonylhydrazide. Part I., 107.
- Buckingham, Reginald.** See **James W. McBain**.
- Bucknall, William R.**, **Sydney R. Carter**, and **William Wardlaw**, the complex chlorides of tervalent molybdenum, 251.
- Bucknall, William R.**, and **William Wardlaw**, the complex cyanides of molybdenum, 2981.
- Bunn, Charles W.** See **Edmund J. Bowen**.
- Burgess, Henry**, co-ordination compounds of beryllium and *m*- and *p*-nitrobenzoylacetone, 2017.
- Burns, Robert.** See **William Baird**.
- Burstall, Francis H.** See **Gilbert T. Morgan**.
- Burton, Harold**, and **Charles S. Gibson**, 10-chloro-5:10-dihydrophenarsazine and its derivatives. Part IV. Carboxy-derivatives, 247.
9-methylcarbazole-3-arsinic acid and its reduction products, 2386.
derivatives of *o*-aminophenylarsinic acid, 2387.
- Bury, Charles R.** See **William E. Hamer**.

C.

- Campbell, Colin**, and **Donald W. Woodhead**, striated photographic records of explosion-waves, 1572.
- Carter, Sydney R.**, **Frederick M. Lea**, and **Robert A. Robinson**, the effect of hydrochloric acid on the electrode potential between mercury and mercurous chloride, 1906.
- Carter, Sydney R.**, and **Norman J. L. Megson**, the constitution of certain salts and acids in solution as determined by observations of critical solution temperatures, 2023.
- Carter, Sydney R.**, and **Robert A. Robinson**, the normal oxidation-reduction potential of mercury, 267.
the oxidation-reduction potentials of mercurous and mercuric chlorides in hydrochloric acid solution, 1912.
- Carter, Sydney R.** See also **William R. Bucknall**.
- Cashmore, Albert E.**, the constituents of the cell-wall of the flax fibre, 718.
- Caspari, William A.**, the crystal structure of quinol. Part II., 1093.
- Cavanagh, Bernard**, a new method of (absolute) potentiometric titration, 2207.
- Caven, Robert M.**, and **William Johnston**, equilibrium in the systems $\text{MnSO}_4\text{-K}_2\text{SO}_4\text{-H}_2\text{O}$ and $\text{MnSO}_4\text{-(NH}_4)_2\text{SO}_4\text{-H}_2\text{O}$ at 0°; also in the system $\text{CuSO}_4\text{-Na}_2\text{SO}_4\text{-H}_2\text{O}$ at 0°, 25°, and 37.5°, 2358, 2902.

- Chakravarti, Satyendra N., Robert D. Haworth, and William H. Perkin, jun.**, synthetical experiments in the isoquinoline group. Part VII. A synthesis of 3:11-dimethoxyprotoberberinium salts, 2265.
synthetical experiments in the isoquinoline group. Part VIII. A synthesis of protoberberinium salts, 2275.
- Chalk, Leslie J., and James R. Partington**, Besson's supposed phosphorus suboxide, P_2O , 1930.
- Challenger, Frederick, Vira Subramaniam, and Thomas K. Walker**, the mechanism of the formation of citric and oxalic acids from sugars by *Aspergillus niger*. Part I., 200.
- Challenger, Frederick, and (Miss) Vera K. Wilson**, dicyanates and dibenzoates of triphenylbismuthine and triphenylstibine, 209.
- Challenger, Frederick.** See also **Thomas K. Walker.**
- Chapman, Arthur W.**, imino-aryl ethers. Part V. The effect of substitution on the velocity of molecular rearrangement, 1743.
- Chapman, Ernest, Arthur G. Perkin, and Robert Robinson**, the colouring matters of carajura, 3015.
- Chapman, William R., and Richard V. Wheeler**, the propagation of flame in mixtures of methane and air. Part V. The movement of the medium in which the flame travels, 38.
- Charlton, William, Walter N. Haworth, and Wilfred J. Hickinbottom**, the constitution of the disaccharides. Part XIV. Melibiose and its relationship to raffinose, 1527.
- Chattaway, Frederick D., and Randle Bennett**, the interaction of chloral and arylhydrazines, 2850.
- Chattaway, Frederick D., and Edward A. Coulson**, the nitration of benzil: 3:5:3':5'-tetranitrobenzil, 577.
- Chattaway, Frederick D., and William G. Humphrey**, the action of halogen-substituted phenylhydrazines upon dihydroxytartaric acid, 1323.
1-phenyl-4-amino-5-ketopyrazoline-3-carboxylic acid, 2133.
the action of tolylhydrazines upon dihydroxytartaric acid, 2793.
- Chattaway, Frederick D., and Alexander A. Morris**, the condensation of chloral with phenol, 2013.
- Chattaway, Frederick D., and Fernando C. y Prats**, the condensation of *p*-hydroxybenzoic acid with chloral, 685.
- Chattaway, Frederick D., and Arthur J. Walker**, the reduction of *o*-nitrophenylsodiazomethanes, 323.
- Chatterjee, Bibhucharan, and Robert Robinson**, the orienting influence of free and bound ionic charges on attached simple or conjugated unsaturated systems. Part III. The nitration of *m*-nitrophenylbenzylsulphone, 2780.
- Chew, Clifford, and Frank L. Pyman**, the tautomerism of amidines. Part VII. Methylation of benzenyl-*p*-nitrodiphenylamidine, 2318.
- Child, Reginald.** See **Leslie G. S. Brooker.**
- Clark, Leslie M.**, quaternary salts in the benzelenazole series, 2805.
- Clarke, John, Robert Robinson, and John C. Smith**, the relative directive powers of groups of the forms RO and RR'N in aromatic substitution. Part VIII. The nitration of 4-*n*-butoxyanisole, 2647.
- Clarke, Sydney G., Joseph Kenyon, and Henry Phillips**, investigations on the dependence of rotatory power on chemical constitution. Part XXXI. The resolution of *m*-carboxyphenylmethylsulphine-*p*-toluenesulphonylimine, 188.
- Clemo, George R., William H. Perkin, jun., and Robert Robinson**, strychnine and brucine. Part IV., 1589.
- Cockram, Charles, and Richard V. Wheeler**, studies in the composition of coal; the resolution of coal by means of solvents, 700.
- Cocks, Herbert C.** See **Arthur J. Allmand.**
- Cohen, Ernst, Kamerlingh Onnes** Memorial Lecture, 1193.
- Collie, John N., and Louis Klein**, the action of bromine on dimethylpyrone, 2162.
- Connor, Robert J.** See **John B. Shoosmith.**
- Constable, Frederick H.**, the nature of the sintering of active copper catalysts, 1578.
an auto-poisoning phenomenon shown by catalytically active copper at moderate temperatures, 2995.
- Cook, (Miss) Alison M. R.** See **John Read.**
- Cook, James W.** See **Edward de B. Barnett.**
- Cooper, Kenneth E., and Christopher K. Ingold**, the nature of the alternating effect in carbon chains. Part XVI. The directive action of some groups of the form -COR in aromatic substitution, 836.

- Cooper, Leslie H. N.** See *Alan E. Bradfield*.
- Copisarow, Maurice** [with *George E. Wilson, Hubert C. Hillary, and Howard B. Stent*], the Liesegang phenomenon and stratification, 222.
- Coulson, Edward A.** See *Frederick D. Chattaway*.
- Cowley, John F.** See *Thomas W. J. Taylor*.
- Cox, Charles B.** See *Edmund B. R. Prideaux*.
- Crawford, John W. C., and Joseph Kenyon**, the constitution of carnitine. Part I. The synthesis of α -hydroxy- γ -butyrotetramethylbetaine, 396.
- Cross, Edwin J., and Arthur G. Perkin**, reduction products of the hydroxy-anthraquinones. Part VIII., 1297.
- Crossley, Arthur W.**, obituary notice of, 3165.
- Crowe, William H.** See *Reginald T. Mullen*.
- Cunliffe, Percy W.** See *Arthur J. Allmand*.
- D.**
- Dadswell, Herbert E., and James Kenner**, the influence of nitro-groups on the reactivity of substituents in the benzene nucleus. Part IX. 2:3- and 2:5-Dinitro-4-methoxytoluenes, 580.
- the basic character of the acetylides and its influence on the course of their substitution, 1102.
- Davies, (Miss) Christina, and Alexander D. Monro**, solubility of cupric sulphide in alkali sulphides in presence of sulpharsenates, 2385.
- Davies, William**, Pregl's universal filling applied to macro-combustion, 3161.
- Davies, William, and Geoffrey W. Leeper**, some experiments with 1:8-naphthalyl chloride, 1124.
- Davies, William, and Harry G. Poole**, the disulphonation of *m*-dichlorobenzene and of *s*-trichlorobenzene, 1122.
- the two *o*-cyanocinnamic acids, 2661.
- Dawson, Harry M.**, acid and salt effects in catalysed reactions. Part IV. Derivation of a general equation for the catalytic activity of acids; the general catalytic catenary, 213.
- acid and salt effects in catalysed reactions. Part VI. The early stages of an auto-catalysed reaction; generalised form of the simple auto-catalytic catenary, 458.
- Dawson, Harry M.**, acid and salt effects in catalysed reactions. Part VII. The tridimensional co-ordination of catalytic variables; relations between the data for pure acids and the corresponding minimum-velocity mixtures, 756.
- acid and salt effects in catalysed reactions. Part VIII. The determination of hydrolytic velocity coefficients from isocatalytic data; reaction velocities in buffer solutions and compound catalytic catenaries, 1146.
- acid and salt effects in catalysed reactions. Part IX. A general kinetic method for the determination of the degree of dissociation of water, 1290.
- Dawson, Harry M., and William Lowson**, acid and salt effects in catalysed reactions. Part X. The hydrolysis of ethyl acetate with acetic acid as catalyst, 2107.
- acid and salt effects in catalysed reactions. Part XI. The hydrolysis of ethyl acetate and the catalytic catenary, 2444.
- Deacon, George E. R.**, studies of equilibria in the systems sodium chloride-lead chloride-water, lithium chloride-lead chloride-water, 2063.
- Dey, Biman B.** See *Panchapakesa Krishnamurti*.
- Dickinson, Robert, and Isidor M. Heilbron**, styrylpyrylium salts. Part VIII. 3-Styryl derivatives of β -naphthapyrylium chloride, 14.
- styrylpyrylium salts. Part IX. Colour phenomena associated with benzo-naphtha- and dinaphtha-*spiro*-pyrans, 1699.
- Dickinson, Robert, Isidor M. Heilbron, and Francis Irving**, the intermolecular condensation of styryl methyl ketones. Part I., 1888.
- Dixon, Bertram E., and John L. White**, the reaction between manganese salts and sodium hypochlorite in the presence of certain other salts, 1469.
- Dobson, Hildyard J. E.**, obituary notice of, 3173.
- Drew, Harry D. K., Edward H. Good-year, and Waller N. Haworth**, the study of lactones derived from simple sugars, 1237.
- Drew, Harry D. K., and Walter N. Haworth**, studies in polymerisation. Part I. 2:3:4-Trimethyl *l*-arabono-lactone, 776.

- Drew, Harry D. K., and Reuben W. Thomason**, cyclic organo-metallic compounds. Part III. Nitro- and amino-derivatives of phenoxtellurine, 116.
- Drumm, Peter J.** See **Joseph Reilly**.
- Duff, James C., and Edwin J. Bills**, complex metallic amines. Part IX. The introduction of nitrophenol radicals into cobaltamine complexes; distinctive behaviour of mononitrophenoxides, 2365.
- Duffin, Walter M.** See **Ernest H. Farmer**.
- Durrant, Reginald G.** See **Henry Bassett**.
- Dyson, George M., Herbert J. George, and Robert F. Hunter**, the inhibitory effect of substituents in chemical reactions. Part I. The reactivity of the amino-group in substituted arylamines, 436.
- Dyson, George M., Robert F. Hunter, and Richard W. Morris**, aminobenzthiazoles. Part VIII. The effect of polar substituents on the formation and stability of nucleus-substituted 1-aminobenzthiazole bromides, 1186.
- E.**
- Earl, John C., and James Kenner**, the recovery of pinene from its nitroso-chloride, 1269.
the action of hydrogen iodide on nitroso-compounds, 2139.
- Eccles, Alfred.** See **John W. Baker**.
- Edwards, Morris J., and John M. Williams**, the properties of malonic anhydride (carbon suboxide), C_3O_2 , 855.
- Ellis, George W.**, the determination of carbonyl in aldehydes and ketones, 848.
- Ellis, Oliver C. de C., and Richard V. Wheeler**, the movement of flame in closed vessels; correlation with development of pressure, 153.
the movement of flame in closed vessels; after-burning, 310.
- Ellison, Thomas E.**, some substituted phenyl styryl ketones, with remarks on the condensation of cinnamic acid with resorcinol and pyrogallol, 1720.
- Emeléus, Harry J.**, the glow of arsenic, 783.
- Emeléus, Harry J., and Ronald H. Purcell**, the origin of the ultra-violet spectrum of the glow of phosphorus, 788.
- Emmett, William G.**, the use of titanous chloride in the volumetric estimation of copper and iron, 2059.
- Evans, Eric B., Ernest E. Mabbott, and Eustace E. Turner**, the interaction of alkali sulphites with some halogeno-compounds, and the optical resolution of α -phenylpropanesulphonic acid, 1159.
- Evans, Ulrick R.**, the passivity of metals. Part I. The isolation of the protective film, 1020.
- Ewins, Arthur J., George Newbery, and Ralph W. E. Stickings**, heterocyclic compounds containing arsenic. Part I. The action of chloroacetamide on 3:4-diaminophenylarsinic acid, 851.
- F.**
- Fairbourne, Arthur, and Harold R. Fawson**, the oxidation of nitrophenylcyanacetates, 46.
- Fairbrother, Fred, and Harold Varley**, the electroendosmosis of aqueous solutions through a diaphragm of sintered glass powder, 1584.
- Farmer, Ernest H., and Walter M. Duffin**, muconic and hydromuconic acids. Part IV. Geometrical form and reducibility, 402.
- Farmer, Ernest H., and Alfred T. Healey**, the properties of conjugated compounds. Part II. Addition to butadiene esters, 1060.
- Farmer, Ernest H., and Jacob Kracovski**, the effect of *gem*-dialkyl groups on the formation and stability of the anhydrides of dicarboxylic acids, 680.
- Farmer, Ernest H., Banarsi D. Laroia, Theodore M. Switz, and Jocelyn F. Thorpe**, properties of conjugated compounds. Part III. The bearing of hexatriene chemistry on the reactive form of conjugated hydrocarbons, 2937.
- Farmer, Ernest H., and Henry L. Richardson**, the chemistry of the glutacenic acids. Part XXI. Non-formation of Δ^2 -tetrahydroisophthalic acid by reduction of isophthalic acid, 59.
- Farmer, Walter, and James B. Firth**, reduction of silver compounds in alkaline solution, 1772.
the reduction of arsenic compounds in acid and in alkaline solution by sodium hyposulphite (hydrosulphite); production of sodium arsenohyposulphite, 2019.

- Farrow, (Miss) Monica**, the system calcium ferrocyanide-sodium ferrocyanide-water. Part II., 1153.
- Faulkner, Irvine J.** See *Evan M. Richards*.
- Fawcett, Reginald C.**, and **Robert Robinson**, polynuclear heterocyclic aromatic types. Part III. Pyrroloquinoline derivatives, 2254.
the relative directive powers of groups of the forms RO and RR'N in aromatic substitution. Part VII. The nitration of benzphenetidine and of *o*-, *m*-, and *p*-nitrobenzphenetides, 2414.
- Fawson, Harold R.** See *Arthur Fairbourne*.
- Firth, James B.** See *Walter Farmer*.
- Flint, Colin F.**, the determination of total carbon and carbon dioxide in small quantities of soil solutions, 2975.
- Francis, Francis**, the preparation of triacetoneamine hydrate, 2897.
- Francis, Francis**, and **Norman E. Wood**, the oxidation of *n*-triacontane, 1897.
- Francis, Wilfrid**, and **Richard Vernon Wheeler**, the reactions between oxygen and coal, 2958.
- Fulton, James D.** See *Thomas S. Patterson*.
- G.**
- Garner, Frederick B.**, and **Samuel Sugden**, the parachor and chemical constitution. Part VI. Some cases of supposed ring-chain tautomerism, 2877.
- Garner, William E.**, and **J. E. Rushbrooke**, melting points and heats of crystallisation of homologous series. Part III. Myristic acid derivatives, 1351.
- Garner, William E.**, and **Douglas McKie**, the heat of adsorption of oxygen on charcoal. Part II., 2451.
- George, Herbert J.** See *George M. Dyson*.
- Georgeson, (Miss) Elizabeth H. M.**, and **Francis J. Hartwell**, the "uniform movement" of flame in mixtures of hydrogen and air, 265.
- Ghosh, Bhupendra N.**, the alleged second isoelectric point of gelatin, 1250.
- Gibson, Charles S.**, the isomerism of reduced derivatives of quinoxaline. Part II. The stereoisomeric 2:3-dimethyl-1:2:3:4-tetrahydroquinoxalines 342.
- Gibson, Charles S.**, **Kelvoi V. Hariharan**, and **John L. Simonsen**, derivatives of methyl 2:2-dimethylcyclopentan-3-one-1-carboxylate, 3009.
- Gibson, Charles S.**, and **John D. A. Johnson**, 10-chloro-5:10-dihydrophenarsazine and its derivatives. Part V. The general method of synthesis and determination of constitution, 2499.
- Gibson, Charles S.** See also *Harold Burton*.
- Gilbert, Frank L.**, **Frank C. Laxton**, and **Edmund B. R. Prideaux**, the determination of dissociation constants of dihydric mono- and dinitrophenols electrometrically and colorimetrically, 2295.
- Gilbert, Frank L.** See also *Edmund B. R. Prideaux*.
- Gilbert, Lionel F.** See *(Miss) Miriam Levi*.
- Gilman, Henry**, and **F. Schulze**, beryllium dialkyls, 2663.
- Glasstone, Samuel**, studies of electrolytic polarisation. Part VI. Electrodeposition potentials of alloys of zinc with iron, cobalt, and nickel, 641.
- Glasstone, Samuel**, *(Miss) Joan Bridgman*, and **William R. P. Hodgson**, solubility influences. Part IV. The salting-out of aniline from aqueous solutions, 635.
- Goldstein, Richard F.** See *Oscar L. Brady*.
- Goodson, John A.**, separation of *d*-neobornylamine from *d*-bornylamine, 930.
δ-d-bornylsemicarbazide and *δ-d*-neobornylsemicarbazide, 1997.
- Goodyear, Edward H.**, and **Walter N. Haworth**, the oxide-ring structure of normal and γ -derivatives of mannose; preparation and oxidation of derivatives of γ -mannonolactone and δ -mannonolactone, with an addendum on the formulation of normal and γ -sugars as derivatives of pyran and furan and the suggestion of a new nomenclature, 3136.
- Goodyear, Edward H.** See also *Harry D. K. Drew*.
- Goss, Frank R.**, **Walther Hanhart**, and **Christopher K. Ingold**, the nature of the alternating effect in carbon chains. Part X. The nitration of some derivatives of β -phenylethylamine, 250.
- Graham, Hugh**, **Alexander K. Macbeth**, and **Wilfred B. Orr**, the labile nature of the halogen atom in organic compounds. Part XIII., 740.
