

# INDEX OF AUTHORS' NAMES, 1932.

## A.

- Achmatowicz, O., G. R. Clemo,** and **W. H. Perkin, jun.,** strychnine and brucine. Part XVI. *neo*Strychnine, 767.
- Achmatowicz, O., W. H. Perkin, jun.,** and **R. Robinson,** strychnine and brucine. Part XV. *neo*Strychnidine and its derivatives. Part XVII. *neo*Brucine and *neobrucidine*, 486, 775.
- Adair, A.** See **F. D. Chattaway.**
- Alexander, J. R.,** and **H. McCombie,** the action of chloramine-T on disulphides containing the S-S linking, 2087.
- Allen, E. C.,** and **S. Sugden,** the parachor and chemical constitution. Part XVII. Fluorine compounds, 760.
- Allibone, T. E.** See **G. R. Gedye.**
- Allmand, A. J.,** and **J. W. T. Spinks,** the action of light on mixtures of ozone and chlorine. Part II. Results with high ozone concentrations, 599.
- Allsopp, C. B.** See **T. M. Lowry.**
- Andrew, L. W.** See **D. L. Hammick.**
- Angell, F. G.** See **H. J. S. King.**
- Ant-Wuorinen, O.** See **W. N. Haworth.**
- Anwar-Ullah, S.,** chlorine hydrate, 1172. bromine chloride hydrate, 1176.
- Applebey, M. P.,** and (*Miss*) **M. A. Leishman,** the system potassium carbonate-ammonia-water, 1603.
- Applebey, M. P.,** and **M. E. D. Windridge,** the system zinc sulphate-ammonia-water, 1608.
- Aston, F. W.,** physical atomic weights, 2888.
- Atkinson, R. G.,** and **R. F. Hunter,** the condensation of *aa'*-dibromo-dicarboxylic esters with thioureas and the synthesis of dithiazolidylmethane derivatives, 1579.
- Ayling, E. E.** See **L. E. Hinkel.**

## B.

- Backeberg, O. G.,** the action of phosphorus pentachloride on acetanilide, 1138.
- 4-anilinoquinaldine derivatives, 1984.

**Bacon, E. S.,** and **D. H. Richardson,** the reduction of nitro-compounds by aldehydes in ethyl-alcoholic potassium hydroxide solution, 884.

**Badhwar, I. C., K. S. Kang,** and **K. Venkataraman,** synthetical experiments in the chromone group. Part VII. Synthesis of 7:8:4'-trihydroxy-, 7:8:3':4'-tetrahydroxy-, and 7:8:3':4':5'-, 5:7:3':4':5'-, and 3:7:3':4':5'- pentahydroxy - flavones, 1107.

**Badhwar, I. C.,** and **K. Venkataraman,** the condensation of  $\alpha$ -formylphenyl-acetonitriles with phenols. Part II., 2420.

**Baker, J. W.,** reactions of  $\omega$ -substituted acetophenone derivatives. Part II. The mechanism of the interaction of  $\omega$ -halogenoacetophenones with primary and tertiary bases. Part III. Comparison of the mechanism of interaction of  $\omega$ -halogenoacetophenones and of benzyl halides with primary and tertiary bases, 1148, 2631.

the salt-forming characteristics of doubly- and singly-linked elements of the oxygen group. Part V. The rotation of camphor in strong mineral acids, 2923.

**Baker, J. W.,** and **L. Hey,** the salt-forming characteristics of doubly- and singly-linked elements of the oxygen group. Part III. The carbonyl group in ethyl benzoate. Part IV. Oxonium phosphates of the carbonyl group, and investigations with derivatives of the type  $\text{CH}_2\text{Ph}\cdot\text{COR}$ , 1226, 2917.

**Baker, W.,** a new stereoisomeride of 2:3:5:6-tetrachlorodioxan, 2666.

**Baker, W.,** and **F. B. Field,** cyclic esters of sulphuric acid. Part II. The constitution of methylene and glyoxal sulphates, and the reaction of methylene sulphate with tertiary bases, 86.

**Baker, W., A. W. W. Kirby,** and (*Miss*) **L. V. Montgomery,** derivatives of 1:2:3:4 - tetrahydroxybenzene. Part II., 2876.

- Baker, W.**, (*Miss*) *L. V. Montgomery*, and *H. A. Smith*, synthesis of derivatives of myristicin, 1281.
- Baker, W.**, and *R. Robinson*, synthetical experiments in the isoflavone group. Part VI. The reactions of some ketoethylene oxides, 1798.
- Balaban, I. E.**, an investigation into the formation of 4(5)-aminoglyoxalines. Part II. The non-reactivity of the halogen atom in 4(5)-bromoglyoxaline-5(4)-carboxylic acid, 2423. some aminotetrahydroquinolines, 2624.
- Baldwin, W. A.**, and *R. Robinson*, the orienting influence of free and bound ionic charges on attached simple or conjugated unsaturated systems. Part VI. Nitration of phenylalkylsulphones, 1445.
- Ball, W. C.** See *S. A. Mumford*.
- Barber, H. J.**, the hydrolysis of arylthioarsinites, 1365.
- Bardhan, J. C.**, and *S. C. Sengupta*, resin acids. Part I. Synthesis of phenanthrene hydrocarbons derived from *d*-pimaric acid, and a new route to phenanthrene. Part II. Synthesis of 1-methyl-7-isopropylphenanthrene (retene), 2520, 2798.
- Barnett, A. J. G.** See *H. G. Rule*.
- Barnett, E. de B.**, and *C. L. Hewett*, the orientation of the  $\alpha$ -chloroanthrones, 506.  
the influence of *Bz*-substituents upon some reactions of the anthrones. Part I., 1452.
- Bassett, H.**, and (*Miss*) *I. Sanderson*, the compounds of lithium chloride with cobalt chloride; water as a linking agent in polynuclear kations, 1855.
- Bassett, H. L.**, and (*Miss*) *A. O'Leary*, studies in the reactivity of aromatic hydroxyl groups. Part III., 2945.
- Bassett, H. L.**, and *H. G. Williams*, the production of isoprene from rubber, 2324.
- Battrick, W. E.** See *H. T. S. Britton*.
- Bawn, C. E. H.**, the infra-red spectra and structure of tautomeric compounds, 1189.
- Bawn, C. E. H.**, and *W. E. Garner*, the catalytic action of hydrogen on the carbon monoxide flame, 129.
- Beattie, S.**, *I. M. Heilbron*, and *F. Irving*, dicarbocyanines; a new series of cyanine dyes, 260.
- Beck, A. B.**, *A. K. Macbeth*, and *S. W. Pennycuik*, surface-tension determinations of malonic esters, and the constitutive nature of the parachor, 2258.
- Bell, F.**, the bromination of  $\beta$ -naphthylamine, 2732.
- Bell, (Sir) H.**, obituary notice of, 1325.
- Bell, R. A.** See *A. E. J. Vickers*.
- Bell, R. P.**, a convenient method of preparing anhydrous aluminium bromide, 338.  
a titration method for the determination of water, 2903.  
the heat of solution of water vapour in various solvents, 2905.
- Bills, E. J.** See *J. C. Duff*.
- Blackburn, J. C.** See *F. S. Kipping*.
- Bloomfield, G. F.**, and *E. H. Farmer*, reactions of olefinic compounds. Part I. Additivity of olefinic acids towards hypochlorous acid and ethyl hypochlorite: orientation in relation to additive mechanism, 2062.  
properties of conjugated compounds. Part XVIII. Addition of hypochlorous acid to sorbic acid, 2072.
- Blount, B. K.**, the action of alkylmagnesium iodides on triphenylphosphine dichloride, 337.
- Blount, B. K.**, and *R. Robinson*, a ring homologue of tropacocaine, 1429.  
strychnine and brucine. Part XX. Some derivatives of pseudostrychnine; comments on a recent memoir of H. Leuchs—Über Strychnos - Alkaloide, LXVIII, 2305.  
some analogues of pseudopelletierine, namely, thiotropinone, selenotropinone, and *N*-methylaztropinone, 2485.
- Bodger, W. H.** See *O. L. Brady*.
- Bodycote, E. W.**, *W. N. Haworth*, and *C. S. Woolvin*, polysaccharides. Part XVI. The molecular structure of inulin and of the derived difructofuranose anhydride, 2389.
- Bohr, N.**, chemistry and the quantum theory of atomic constitution, 349.
- Bolam, F. M.** See *R. D. Haworth*.
- Bolam, T. R.**, and *G. Bowden*, ionic interchange in sulphur sols; the lyotropic series and the mechanism of coagulation, 2684.
- Bott, H. G.**, and *E. L. Hirst*, formation of furfural from methylated pentoses, 2621.
- Bowden, G.** See *T. R. Bolam*.
- Bowen, E. J.**, light filters for the mercury lamp, 2236.
- Bowen, E. J.**, and *J. E. Chatwin*, the photochemical oxidation of alcohols by potassium dichromate. Part IV., 2081.

- Bowen, E. J.**, and **W. M. Cheung**, the photodecomposition of chlorine dioxide solutions, 1200.
- Boyd-Barrett, H. S.**, experiments on the synthesis of physostigmine (eserine). Part IV. The Plancher rearrangement of indole derivatives, 321.
- Boyd-Barrett, H. S.**, and **R. Robinson**, experiments on the synthesis of physostigmine (eserine). Part III. Synthesis of desethoxydehydroeseretholemethine, 317.
- Bradfield, A. E.**, **A. R. Penfold**, and **J. L. Simonsen**, the constitution of eremophilone and of two related hydroxy-ketones from the wood oil of *Eremophila Mitchellii*, 2744.
- Bradford, B. W.**, thermionic emission during the catalytic combination of carbonic oxide-oxygen mixtures on a platinum surface, 1544.
- Bradley, W.**, and **R. Robinson**, kationoid reactivity of aromatic compounds. Part I., 1254.
- Brady, O. L.**, and **W. H. Bodger**, chemical evidence of chelation in the sodium salts of *o*-hydroxybenzaldehydes, 952.
- Bramley, A.**, and **H. D. Lord**, the equilibria between mixtures of carbon monoxide and carbon dioxide at various pressures in contact with steels of different carbon concentrations at 750—1150°, 1641.
- Breckenridge, J. G.** See **W. H. Mills**.
- Brinnand, (Miss) M. E.**, **W. J. C. Dyke**, **W. H. Jones**, and **W. J. Jones**, organic antimonial compounds. Part III., 1815.
- Briscoe, H. V. A.**, **C. Evans**, and **P. L. Robinson**, a thermal analysis of the system lithium nitrate-thallos nitrate, 1100.
- Briscoe, H. V. A.**, **P. L. Robinson**, and **A. J. Rudge**, rhenium oxychloride, 1104.  
the parachor of rhenium, 2673.
- Briscoe, H. V. A.**, **P. L. Robinson**, and **E. M. Stoddart**, the thioper-rhenates, 2811.
- Britton, H. T. S.**, and **W. E. Batrick**, physico-chemical studies of complex formation involving weak acids. Part IV. Alkali solutions of lanthanum tartrate, 196.
- Britton, H. T. S.**, and **E. N. Dodd**, physico-chemical studies of complex formation involving weak acids. Part V. Solutions of complex cyanides of silver, zinc, cadmium, mercury, and nickel, 1940.
- Britton, H. T. S.**, and **E. N. Dodd**, electrometric studies of the precipitation of hydroxides. Part V. Tervalent gold chloride solutions, 2464.
- Britton, H. T. S.**, and **F. H. Meek**, physico-chemical studies of complex formation involving weak acids. Part III. Conductometric and potentiometric titrations of metallic acetates, 183.
- Britton, H. T. S.**, and **R. A. Robinson**, physico-chemical studies of complex formation involving weak acids. Part VII. Glass-electrode titrations of vanadic acid. Part VIII. Niobic acid, 1955, 2265.
- Britton, H. T. S.**, and **(Miss) B. M. Wilson**, electrometric studies of the precipitation of hydroxides. Part VII. Glass - electrode titrations of mercuric salt solutions, 2550.
- Britton, H. T. S.**, and **A. E. Young**, electrometric studies of the precipitation of hydroxides. Part VI. Sexavalent uranium chloride solutions, 2467.
- Buchan, S.**, and **H. McCombie**, the chlorination of iodophenols. Part V. *m*-Iodophenol, 2857.
- Buchanan, C.** See **T. S. Patterson**.
- Burgess, H.**, obituary notice of, 2979.
- Burrows, R. B.**, and **L. Hunter**, the nitration of halogenoethylenes, 1357.
- Burstall, F. H.** See **G. T. Morgan**.
- Burton, H.**, the addition of bromine to  $\alpha\beta$ -diphenyl- $\delta$ -methyl- $\Delta^{\alpha\gamma}$ -butadiene, 748.  
the oxidation of  $\beta$ -3:4-dihydroxyphenylethylmethylamine with silver oxide; the isolation of 5:6-dihydroxy-1-methylindole and a synthesis of 5:6-dimethoxy-1-methylindole, 546.
- Bury, C. R.**, and **D. G. Davies**, specific heats of aqueous solutions of formic, acetic, propionic, and *n*-butyric acids, 2413.
- Bury, C. R.**, and **E. R. H. Davies**, the system magnesium oxide-magnesium chloride-water, 2008.
- Butler, J. A. V.**, and **A. D. Lees**, adsorption at the surface of solutions. Part II. The effect of lithium chloride on the surface of water-alcohol solutions, 2097.
- Butler, J. A. V.**, and **A. Wightman**, adsorption at the surface of solutions. Part I. The surface composition of water-alcohol solutions, 2089.
- Butler, J. A. V.** See also **R. T. Hamilton**.

## C.

- Cahn, R. S.**, *Cannabis indica* resin. Part III. The constitution of cannabinol, 1342.
- Cahn, R. S.**, and **J. L. Simonsen**, experiments on the constitution of the aloins. Part III., 2573.
- Caldwell, W. A.**, **J. Chapman**, **H. W. Goodwin**, and **F. J. Wilson**, the interaction of acetonephenylhydrazone and phenyl isocyanate, 2086.
- Campbell, C.**, **W. B. Littler**, and **C. Whitworth**, determination of the rate of rise of pressure in the combustion of some gas-oxygen mixtures, 339.
- Caven, R. M.**, the system manganese sulphate-thorium sulphate-water at 30°; a new type of double salt, 2417.
- Cawood, W.**, and **H. S. Patterson**, some physical constants of methyl fluoride, and the atomic weight of fluorine, 2180.
- Cazalet, P. V. F.** See **A. S. Russell**.
- Chapman, A. C.**, obituary notice of, 2981.
- Chapman, A. W.**, and **C. H. Perrott**, dynamic isomerism involving mobile hydrocarbon radicals. Part IV. The rearrangement of 3:5-dichloro-substituted triphenylbenzenylamidines, 1770.  
a ring closure reaction in the triaryl-amidine series; a new source of disecundary orthodiamines, 1775.
- Charlton, W.**, **J. C. Earl**, **J. Kenner**, and **A. A. Luciano**, the nitration of oximes, 30.
- Charlton, W.**, and **J. Kenner**, experiments on the synthesis of polyhydroxylic compounds, 750.
- Chattaway, F. D.**, and **A. Adair**, derivatives of 4:5-diketopyrazoline, 1022.
- Chatterji, K. K.** See **R. C. Ray**.
- Chatwin, J. E.** See **E. J. Bowen**.
- Chaubal, J. S.** See **R. C. Shah**.
- Cheema, U. S.**, **K. C. Gulati**, and **K. Venkataraman**, synthetical experiments in the chromone group. Part VI. 2-Styrylchromones, 925.
- Cheema, U. S.**, and **K. Venkataraman**, synthetical experiments in the chromone group. Part V. Chromones derived from 2-phenylacetyl-1-naphthol and 2- $\beta$ -phenylpropionyl-1-naphthol, 918.
- Cheesman, G. H.**, the surface tension and density of nitric oxide, 889.
- Cheesman, G. H.**, and **H. J. Emeléus**, the ultra-violet absorption spectra of phosphine, arsine, and stibine, 2847.
- Cheesman, G. H.**, and **J. H. Martin**, potassium dibromiodide hydrate, 586.
- Cheesman, G. H.** See also **R. H. Purcell**.
- Cheung, W. M.** See **E. J. Bowen**.
- Child, R.**, the sulphonation of *o*-anisidine and aceto-*o*-anisidine, 715. the recognition of dithio-*o*-toluidine as 2:2'-diamino-5:5'-ditolyl disulphide, 2666.
- Clark, R. E. D.**, derivatives of cyclo-2:5-dithia-3:4 - dimethylenestibine, 1826.
- Clay, H.** See **H. H. Hodgson**.
- Clemo, G. R.**, and **J. Ormston**, synthetical studies in the decalin series. Part I. The preparation of 9-substituted decalins, 1778.
- Clemo, G. R.**, and **G. R. Ramage**, octahydropyrrocoline, 2969.
- Clemo, G. R.**, **G. R. Ramage**, and **R. Raper**, the lupin alkaloids. Part VI., 2959.
- Clemo, G. R.** See also **O. Achmatowicz**.
- Cohen, A.**, trypanocidal action and chemical constitution. Part XII. Arylthioarsinites derived from  $\kappa$ -thiolundecic acid, 593.
- Cohen, A.**, and **H. King**, *p*-xylylarsonic acid, 501.
- Cohen, A.**, **H. King**, and (*Miss*) **W. I. Strangeways**, trypanocidal action and chemical constitution. Part XIII. Arylthioarsinites from cysteine and glutathione. Part XIV. The relative velocity of oxidation of arylarsenoxides, 2505, 2866.
- Cohen, J. B.** See **K. E. Cooper**.
- Collie, B.** See **A. R. Martin**.
- Collie, C. H.** See **O. Gratias**.
- Cook, J. W.**, polycyclic aromatic hydrocarbons. Part IX. The synthesis of methyl and isopropyl homologues of 1:2-benzanthracene. Part X. 1:2:7:8-Dibenzanthracene, 456, 1472.
- Cooper, A. J.**, and **W. Wardlaw**, some reactions of tungsten hexachloride, 635.
- Cooper, K. E.**, and **J. B. Cohen**, the preparation of quinoline-2-aldehyde and some of its derivatives, 723.
- Cope, (Miss) I. S.** See **R. C. Menzies**.
- Cormack, S. B.** See **S. Mitchell**.
- Coulson, E. H.**, and **G. A. R. Kon**, the action of sodium ethoxide on itaconic, citraconic, and mesaconic esters, 2568.

- Coward, H. F.**, and **F. J. Hartwell**, studies in the mechanism of flame movement. Part I. The uniform movement of flame in mixtures of methane and air, in relation to tube diameter. Part II. The fundamental speed of flame in mixtures of methane and air, 1996, 2676.
- Cox, E. G.**, an X-ray examination of  $\beta$ -methylxyloside, 138.  
the crystalline structure of tetraminoplatinous chloride, 1912.  
the crystalline structure of  $\alpha$ -methylxyloside, 2535.
- Cox, E. G.**, and **T. H. Goodwin**, X-ray evidence of the structure of the furanose and pyranose forms of  $\alpha$ -methylmannoside, 1844.
- Cox, E. G.**, **F. W. Pinkard**, **W. Wardlaw**, and **G. H. Preston**, the green salt of Magnus, and some related compounds, 2527.
- Cox, E. G.**, **H. Saenger**, and **W. Wardlaw**, platinum with a covalency of four: diquinolinoplatinous chlorides, 2216.
- Cox, E. G.** See also **H. D. K. Drew**.
- Cremer, H. W.**, and **D. R. Duncan**, a study of the polyhalides. Part III. Behaviour in solution, 2031.
- Crompton, H.**, obituary notice of, 2987.
- Crook, J. H.** See **H. H. Hodgson**.
- Cruse, H. W.** See **H. J. S. King**.
- Cullinane, N. M.**, investigations in the diphenylene oxide series. Part III., 2365.
- Cullinane, N. M.**, (*Miss*) **O. Embrey**, and **D. R. Davies**, synthesis of some nitro-derivatives of diphenylamine, 2363.
- Cumming, W. M.**, and **J. G. Gillan**, the reaction of quinoline and benzaldehyde, 2666.
- Cumming, W. M.**, and **G. Howie**, some dinaphthyl bases. Part I. Syntheses and properties, 528.
- Currie, T.**, and **A. Russell**, a new method for the synthesis of depsides, 2263.
- Cusa, N. W.**, and **F. S. Kipping**, organic derivatives of silicon. Part XLVII. *cyclo*Hexylphenyl and *cyclo*hexyl derivatives, 2205.
- D.**
- Darbyshire, J. A.**, an X-ray examination of the oxides of lead, 211.
- Davies, D. G.** See **C. R. Bury**.
- Davies, D. R.** See **N. M. Cullinane**.
- Davies, E. R. H.** See **C. R. Bury**.
- Davies, G.**, **N. J. Hassid**, and (*Miss*) **M. Taylor**, the transference of water. Part II. Its dependence on concentration and temperature in the electrolysis of sodium chloride solutions, 2497.
- Davies, G.** See also **W. J. Jones**.
- Davies, G. I.**, and **J. L. Simonsen**, bromopiperitone, 1422.
- Davies, R. I.**, **I. M. Heilbron**, and **F. Irving**, the nitration of 3-methoxy-acenaphthenequinone and 2-methoxynaphthalic anhydride, 2715.
- Davies, W.**, the action of ephedrine on benzaldehyde, 1580.
- Davies, W.**, and **J. H. Dick**, aliphatic sulphonyl fluorides, 483.  
benzenesulphonyl fluoride derivatives, 2042.  
the action of some metallic oxides on benzotrichloride and benzal chloride, 2808.
- Davies, W. C.**, and **C. J. O. R. Morris**, *p*-phenoxyphenyldichlorophosphine, 2880.
- Dawson, H. M.**, and **H. Millet**, the nature of the catalytic action of hydrochloric acid in the intramolecular change of *N*-chloroacetanilide, 1920.
- Dawson, H. M.**, and **E. Spivey**, the equilibrium  $Fe^{++} + Y \rightleftharpoons Fe^{+} + \frac{1}{2}I_2$  in aqueous solution, 1838.  
catalytic effects produced by tartaric acid, sodium hydrogen tartrate, and by first- and second-stage tartrate buffers, 2612.
- Demolis, A.**, and **G. A. R. Kon**, the identification of  $\alpha$ -ethoxypropionic acid, 2283.
- Desai, R. D.**, the formation and stability of *spiro*-compounds. Part XIV. The effect of the methylcyclohexane ring on the carbon tetrahedral angle, 1047.  
the chemistry of alkylcyclopentanones. Part II. The effect of the methylcyclopentane ring on the carbon tetrahedral angle, 1065.  
dihydroresorcinols. Part I. The alkylation of substituted dihydroresorcinols, 1079.  
investigations on alkylaconitic acids, 1088.
- Deshpande, R. K.** See **R. C. Shah**.
- Deulofeu, V.**, the molecular weight of *l*-erythrose, 2973.
- Dick, J. H.** See **W. Davies**.
- Dippy, J. F. J.** See **L. E. Hinkel**.
- Dixon, B. E.**, amino-compounds of the platinum chloroamines, 2948.
- Dodd, E. N.** See **H. T. S. Britton**.

- Drew, H. D. K.**, the behaviour of chelate groupings attached to platinum and to palladium, 2328.
- Drew, H. D. K., F. W. Pinkard, and E. G. Cox**, the structure of the isomeric diamminoplatinous chlorides; discovery of a third isomeric form, 988.
- the structure of the simple and mixed tetramminoplatinous dihalides, 1004.
- Drew, H. D. K., F. W. Pinkard, G. H. Preston, and W. Wardlaw**, the supposed isomerism among the palladodiammines, 1895.
- Drew, H. D. K., and G. H. Wyatt**, a supposed anomaly among the platotetrammines, 2975.
- D'Silva, J. L., and E. W. McClelland**, the dismutation of some disulphides. Part II., 2883.
- D'Silva, J. L.** See also **E. W. McClelland**.
- Duff, J. C., and E. J. Bills**, the solubility of picric acid in mixed solvents. Part II. Benzene-alcohol mixtures, 881.
- reactions between hexamethylenetetramine and phenolic compounds. Part I. A new method for the preparation of 3- and 5-aldehydosalicylic acids, 1987.
- Duff, J. C., and E. H. Steer**, amines. Part X. Cobaltous and cupric compounds from tris-( $\beta$ -hydroxyethyl)amine; new method of formation of amino-cupric salts, 2861.
- Dunbar, C.** See **F. M. Rowe**.
- Duncan, D. R.** See **H. W. Cremer**.
- Dunn, (Miss) E. F. M.** See (*Mrs.*) **R. C. Hamilton**.
- Dunn, J. L., and T. S. Stevens**, degradation of quaternary ammonium salts. Part VI. Effect of substitution on velocity of intramolecular rearrangement, 1926.
- Dyke, W. J. C.** See (*Miss*) **M. E. Brinnand and W. J. Jones**.
- Dyson, G. M., R. F. Hunter, and R. W. Morris**, corrected data for the 2-alkylamino- $\beta$ -naphthathiazoles, 2282.
- Egerton, A. C.** See **L. M. Pidgeon**.
- Ellingham, H. J. T.**, alternative electrode reactions. Part I. Reactions at a platinum cathode in nitric acid solutions, 1565.
- Ellis, C. P.**, ethyl palmitate; its density, surface tension, parachor, and Eötvös-Ramsay-Shields coefficient, 1697.
- Embrey, (Miss) O.** See **N. M. Cullinane**.
- Emelús, H. J.** See **G. H. Cheesman**.
- Evans, C.** See **H. V. A. Briscoe**.
- Evans, D. P., and W. J. Jones**, the viscosities of phosphoric esters, 985.
- Evans, U. R.** See **T. P. Hoar**.

## F.

- Fairbourne, A., G. P. Gibson, and D. W. Stephens**, the partial esterification of polyhydric alcohols. Part XII. The function of ethylene-oxide rings, 1965.
- Fairbourne, A., and D. W. Stephens**, the partial esterification of polyhydric alcohols. Part XIII. Glycerol  $\alpha$ -monophenyl ether. Part XIV. The iodohydrins, 1972, 1973.
- Fairbrother, F.**, the dielectric polarisation of hydrogen chloride in solution. Part I. Benzene, cyclohexane, and carbon tetrachloride, 43.
- Farmer, E. H., and R. A. E. Galley**, properties of conjugated compounds. Part XV. The catalytic hydrogenation of butadiene- $\alpha$ -carboxylic acids, 430.
- Farmer, E. H.** See also **G. F. Bloomfield**.
- Fennell, R. C. G., and S. G. P. Plant**, the action of nitric acid on the 1-acyl-2:3-diphenylindoles, 2872.
- Field, F. B.** See **W. Baker**.
- Flürscheim, B., and E. L. Holmes**, the mechanism of some addition reactions of nitroethylenes, 1458.
- Foord, S. G.** See **E. J. B. Willey**.
- France, H. V.** See **H. H. Hodgson**.
- French, (Miss) H. S.** See **T. M. Lowry**.
- Friend, J. A. N.**, the selenates of lanthanum and their solubilities in water, 1597.
- the solubility of praseodymium selenate in water, 2410.
- Friend, N. A. C.** See **H. L. Riley**.

## G.

- Earl, J. C.** See **W. Charlton**.
- Easson, A. P. T., and F. L. Pyman**, a general method for the preparation of 1-substituted glyoxalines from acetalylthiocarbimide and primary amines, 1806.

- Gallafent, V.** See **H. L. Riley**.
