

INDEX OF AUTHORS, 1939.

Adamson, D. W., new syntheses of basic amino-acids and glycine, 1564.

Adamson, D. W., and **Kenner, J.**, reactions of aliphatic diazo-compounds with carbonyl derivatives, 181.

Albert, A., detection of *meta*-orientation in diamino-, dinitro-, and aminonitro-compounds, 920.

Alexander, A. E., use of monolayer measurements for determining structures in aqueous media; the ester and the triazo-group, 177.
built-up films of unsaturated and substituted long-chain compounds, 777.

Anantkrishnan, S. V., and **Venkataraman, R.**, influence of substituents on additive reactivity of ethylene derivatives. Part IV. Mechanism of the reaction, 224.

Anslow, W. K., and **Raistrick, H.**, action of alcoholic monomethylamine on derivatives of benzoquinone and toluquinone. Part I. Methoxy- and hydroxy-methoxy-derivatives, 1446.

Arcus, C. L., and **Kenyon, J.**, mechanism of the Hofmann reaction; retention of optical activity during the reaction with (+)hydratropamide, 916.

Arcus, C. L., and **Smith, J. W.**, mechanism of hydrolysis of *α*-dimethylallyl chloride, 1748.

Ashworth, M. R. F., **Daffern, R. P.**, and **Hammick, D. L.**, mechanism of decarboxylation. Part II. Production of cyanide-like ions from *α*-picolinic, quinaldinic, and *iso*quinaldinic acids, 809.

Atkinson, R. G. See **Barrow, F.**

Audley, J. A., obituary notice of, 203.

Averill, F. J. See **Haworth, W. N.**

Ayling, E. E. See **Hinkel, L. E.**

Azzam, R. C. See **Schönberg, A.**

B.

Backhouse, T., and **Robertson, A.**, rottlerin. Part III., 1257.

Bacon, J. S. D., and **Bell, D. J.**, 3:4-dimethyl galactose, 1869.

Bacon, J. S. D., **Bell, D. J.**, and **Kosterlitz, H. W.**, acyl migration in a derivative of galactose, 1248.

Baddar, F. G., and **Warren, F. L.**, benzanthrones. Part II. The synthesis of 3'-alkyl*mes*obenzanthrones; mechanism of Bally's reaction. Part III. The synthesis of 2'-alkyl- and 2'-aryl-*mes*obenzanthrones; the migration from the 3' to the 2'-position, 944, 948.

Badger, G. M., and **Cook, J. W.**, synthesis of growth-inhibitory polycyclic compounds. Part I., 802.

Bailey, K. C., retardation of chemical reactions. Part IX. Stabilisation of perchloroethylene for medicinal purposes, 767.

Baker, J. W., polar effects of alkyl groups, 1150.

Baker, J. W., and **Groves, L. G.**, determination of dipole moments in the vapour phase. Part II. The moments of alkylbenzenes and alkylcyclohexanes, 1114.

Baker, W., synthesis of 5:6-dihydroxyflavone and the structure of primetin, 956.

Baker, W., and **Banks, R.**, structure of a condensation product of 5-methylcoumaranone, 279.

Baker, W., and **Besly, D. M.**, condensation products of phenols and ketones. Part III. Hydroxyquinol, pyrogallol, and *m*- and *p*-cresols with acetone. Part IV. *o*-Cresol with acetone, 195, 1421.

Baker, W., **Brown, N. C.**, and **Scott, J. A.**, synthesis of 5-hydroxy-8-methoxyflavone (primetin methyl ether), 1922.

Baker, W., **Penfold, A. R.**, and **Simonsen, J. L.**, structure and synthesis of croweacin, 439.

Bamford, C. H., photolysis of organic nitrogen compounds. Part I. Dimethyl- and diethyl-nitrosamines. Part II. Aliphatic amines, 12, 17.

Banks, R. See **Baker, W.**

Banks, W. H., considerations of a vapour pressure-temperature equation, and their relation to Burhop's boiling-point function, 292.

Barakat, M. Z. See **Schönberg, A.**

Barger, G., obituary notice of, 715.

Barger, G., **Madinaveitia, J.**, and **Streuli, P.**, calycanthine, 510.

Barger, G., and **Sargent, L. J.**, alkaloids of *Artabotrys suaveolens*, 991.

Barker, R. L. See **Haworth, R. D.**

Barnett, E. de B., condensation of benzylidene chloride with *o*-xylene, 348.

Barracrough, E., **Batty, J. W.**, **Heilbron, I. M.**, and **Jones, W. E.**, studies in the polyene series. Part I., 1549.

Barrett, P. A., **Bradbrook, E. F.**, **Dent, C. E.**, and **Linstead, R. F.**, phthalocyanines and related compounds. Part XVI. Halogenation of phthalocyanines, 1820.

Barrett, P. A., **Linstead, R. P.**, **Tuey, G. A. P.**, and **Robertson, J. M.**, phthalocyanines and related compounds. Part XV. Tetrabenztriazaporphin: its preparation from phthalonitrile and proof of its structure, 1809.

Barrow, F., and **Atkinson, R. G.**, resolution of inactive alcohols by means of their esters with tartranilic acid, 638.

Barrow, F., and **Thorneycroft, F. J.**, *N*-oximinoethers. Part IV. Formation of oximino-ethers in the Ehrlich-Sachs reaction. Part V. Stereoisomeric *N*-arylethers of oximinophenylacetone, 769, 773.

Bartlett, R. G., **Hart, L. E.**, and **McClelland, E. W.**, preparation and reactions of some arylsulphonylbenzisothiazolones, 760.

Bassett, H., **Henshall, J. H.**, and **Sergeant, G. A.**, isomorphous replacement in hydrated salts. Part II. System NaCl-CdCl₂-H₂O and formation of solid solutions in the systems NaCl-CdCl₂-NiCl₂-H₂O and NaCl-CdCl₂-CoCl₂-H₂O, 653.

Bassett, H., **Henshall, J. H.**, **Sergeant, G. A.**, and **Shipley, R. H.**, isomorphous replacement in hydrated salts. Part I. Systems CoCl₂-CuCl₂-H₂O; CdCl₂-NiCl₂-H₂O; CdCl₂-CoCl₂-H₂O, 646.

Batty, J. W., **Heilbron, I. M.**, and **Jones, W. E.**, studies in the polyene series. Part III., 1556.

Batty, J. W. See also **Barracrough, E.**

Baxt, L. M. See **Newitt, D. M.**

Baxter, G. P., **Guichard, M.**, **Hönigschmid, O.**, and **Whytlaw-Gray, R.**, ninth report of the Committee on Atomic Weights of the International Union of Chemistry, 351.

- Beaven, G. H., Hirst, E. L., and Jones, J. K. N.**, pectic substances. Part IV. Citrus araban, 1865.
- Beilenson, B., and Hamer, (Miss) F. M.**, preparation of simple cyanines, 143.
- Bell, D. J., and Harrison, K.**, micro-method for the determination of the isopropylidene group in sugar derivatives, 350.
- Bell, D. J.** See also **Bacon, J. S. D.**
- Bell, R. P., and Danckwerts, P. V.**, acid catalysis in non-aqueous solvents. Part VIII. Rearrangement of *N*-chloroacetanilide in chlorobenzene solution at 100°, 1774.
- Bell, R. P., and Hirst, J. P. H.**, acid-base catalysis in the depolymerisation of dimeric glycollaldehyde, 1777.
- Bell, R. P., and Lidwell, O. M.**, acid catalysis in non-aqueous solvents. Part VII. Rearrangement of *N*-bromobenzanilide in chlorobenzene, 1096.
- Bell, R. P., and Thomas, J. K.**, reaction velocities at low temperatures. Part I. A convenient low-temperature thermostat. Part II. Bromination of acetone between -40° and +10°, 1573.
- Benford, G. A., Kaufmann, H., Khambata, B. S., and Wassermann, A.**, mechanism of additions to double bonds. Part IX. Kinetics of the association of cyclopentadiene in carbon tetrachloride solution and in the pure liquid state, 381.
- Benford, G. A., and Wassermann, A.**, mechanism of additions to double bonds. Part VI. Kinetics of gaseous associations. Part VII. Chemical equilibrium in solution and in the gaseous state, 362, 367.
- Bennett, G. M., and Jones, B.**, mesomorphism and polymorphism of some *p*-alkoxybenzoic and *p*-alkoxycinnamic acids, 420.
- Bergmann, E., and Bergmann, F.**, further experiments on the thermolysis of cholesteryl chloride, 1019.
- Bergmann, E., and Berlin, T.**, 9-phenyl-1:2:3:4-dibenzanthracene, 493.
