

INDEX OF AUTHORS, 1950.

A.

- Acheson, R. M.** See **King, F. E.**
- Adams, A., and Hey, D. H.,** the nitration of 4-hydroxy- and 4-chloro-3-methylquinoline, 2092.
- Adams, W. J., and Hey, D. H.,** some 4-(dialkylaminoalkyl-amino)-3-phenylquinolines, 3254.
- Adamson, D. W.,** aminoalkyl tertiary carbinols and derived products. Part II. 3-Amino-1:1-di-2'-thienyl-alkan-1-ols and -alk-1-enes, 885.
- Adamson, D. W., and Billingham, J. W.,** aminoalkyl tertiary carbinols and derived products. Part III. 3-Tertiary-amino-1-aryl-1-(2-pyridyl)-propan-1-ols and -prop-1-enes, 1039.
- Addison, C. C., and Elliott, T. A.,** the properties of freshly formed surfaces. Part XV. The application of the contracting liquid-jet technique to the measurement of tensions at liquid-liquid interfaces. Part XVI. Dynamic tensions of sodium dodecyl sulphate solutions at the surface of liquid → air and liquid → liquid contracting jets. Part XVII. The measurement of surface and interfacial tensions of solutions, employing stationary waves on a vertical jet, 3090, 3096, 3103.
- Aitken, R. R., Badger, G. M., and Cook, J. W.,** isomerisation reactions. Part III, 331.
- Aiton, S. D.** See **Loudon, J. D.**
- Ambrose, D., and Brady, O. L.,** the isomerism of the oximes. Part XLIII. The kinetics of the pyrolysis of acyl derivatives, 1243.
- Ames, D. E., and Bowman, R. E.,** experiments on the synthesis of carbonyl compounds. Part III. Addition of ethyl acetoacetate to ethyl sorbate, 329.
the preparation of 2-ethoxyethyl chloride and bromide, 406.
- Ames, D. E., Bowman, R. E., and Mason, R. G.,** synthetic long-chain aliphatic compounds. Part I. Introduction. Myristic, stearic, and tricosic acids, 174.
- Anderson, E. L., and Holliman, F. G.,** an improved synthesis of *o*-2-bromoethylbenzyl bromide, 1037.
- Anderson, G., and Campbell, N.,** the preparation of dimethyl-tetrahydrocarbazoles, 2855.
2- and 4-nitro-3-aminocarbazole, 2904.
- Anderson, H. D., and Hammick, D. Ll.,** interaction between polynitro-compounds and aromatic hydrocarbons and bases. Part X. Picric acid and alkylated benzene derivatives in chloroform solution, 1089.
- Anderson, I. G., Balfe, M. P., and Kenyon, J.,** the dependence of optical rotatory power on chemical constitution. Part XXXIX. (-)-2-Thienylmethylcarbinol. Part XL. (+)-2-(2-Hydroxy-*n*-propyl)pyridine, 1866, 1868.
- Angyal, C. L., Barclay, G. A., and Le Fèvre, R. J. W.,** the dipole moments of ethylene oxide and carbonyl chloride in benzene solution, and a note on a useful modification of Barclay and Le Fèvre's equation, 3370.
- Angyal, C. L., and Le Fèvre, R. J. W.,** the polarities of enols, 562.
- Angyal, S. J., and Matheson, N. K.,** dimorphism of esters of *scyllin*ose, 3349.
- Angyal, S. J., Morris, P. J., Tetaz, J. R., and Wilson, J. G.,** the Sommelet reaction. Part III. The choice of solvent and the effect of substituents, 2141.
- Ansell, M. F., and Hey, D. H.,** the preparation of α -substituted glutaric acids, 1683.
intramolecular acylation. Part II. The ring closure of some α -substituted glutaric acids, 2874.
- Anstee, J. R., and White, D. E.,** 3-hydroxy-4:5-dimethoxy-benzoic acid derivatives, 750.
- Archer, B. L., and Hudson, R. F.,** the mechanism of the hydrolysis of acid chlorides. Part II. The effect of temperature and solvent composition, 3259.
- Arden, T. V.,** the solubility products of ferrous and ferrosic hydroxides, 882.

- Armstrong, G. P., Hall, R. H., and Quin, D. C.,** the autoxidation of isopropylbenzene, 666.
- Armstrong, W. E., Densham, A. B., and Gough, G.,** the determination of thionaphthen in naphthalene by infra-red absorption spectroscopy, 3359.
- Aspinall, G. O., and Baker, W.,** attempts to prepare new aromatic systems. Part II. Heptalene, 743.
- Audsley, A., and Goss, F. R.,** atom polarisation. Part I. The solvent-effect theory and its application to the molecular refraction and polarisation of *n*-paraffins in the liquid state, 2989.
- Austin, A. T.,** the deamination of amino-acids by nitrous acid with particular reference to glycine: the chemistry underlying the Van Slyke determination of α -amino-acids, 149.
- Avison, A. W. D., and Morrison, A. L.,** synthetic analgesics. Part VI. The synthesis of ketobemidone. Part VII. Metadine and related 3-phenylpiperidine derivatives. Part VIII. Further attempts to prepare 3-phenylpiperidine derivatives, 1469, 1471, 1474.
- Awad, W. I.** See **Moubasher, R., and Schönberg, A.**
- Aynsley, E. E.,** decomposition of chromic acid in sulphuric acid; the first-order thermal reaction, 368.
- Aynsley, E. E., Peacock, R. D., and Robinson, P. L.,** the reaction of fluorine with the oxides and oxy-compounds of manganese and rhenium, 1622.

B.

- Backeberg, O. G.** See **Marais, J. L. C.**
- Badcock, G. G., Cavill, G. W. K., Robertson, A., and Whalley, W. B.,** the chemistry of the "insoluble red" woods. Part IV. Some mixed benzoins, 2961.
- Badcock, G. G., Dean, F. M., Robertson, A., and Whalley, W. B.,** the chemistry of fungi. Part X. The synthesis of 4-hydroxy-3-acetyl α umarins, 903.
- Baddar, F. G.,** triad prototropic systems. Part I. The mobility of the azomethine system during decarboxylation, 136.
reactions in sunlight, 749.
- Baddar, F. G., and El-Assal, L. S.,** β -aroylpropionic acids. Part I. The mechanism of interaction between phenol and succinic anhydride in presence of aluminium chloride; the nature of the Fries reaction, 3606.
- Baddar, F. G., and Sugden, S.,** the magnetic susceptibility of certain organic compounds. Part III. The contribution of the nitro-group to the magnetic susceptibility of aliphatic and aromatic nitro-compounds, 308.
- Baddeley, G.,** a connection between the size of an atom and the magnitude of its mesomeric and electromeric effects, 663.
hydrogen chloride-aluminium chloride as an agent of isomerisation, 994.
- Baddiley, J.,** the hydrogenolysis of dithioesters and thioamides, 3693.
- Bader, H., Downer, J. D., and Driver, P.,** new 5-aminogly-oxalines as potential adrenergic agents, 2775.
- Badger, G. M.,** the relative reactivity of aromatic double bonds. Part III. The relation between double-bond character and the velocity of addition of osmium tetroxide, 1809.
- Badger, G. M., Campbell, J. E., Cook, J. W., Raphael, R. A., and Scott, A. I.,** the synthesis of 4:5-dimethylphenanthrene, 2326.
- Badger, G. M., Cook, J. W., and Donald, G. M. S.,** the synthesis of piperidine derivatives. Part IV. 4-Phenylpiperidols, 197.
- Badger, G. M., Cook, J. W., and Ongley, P. A.,** the chemistry of the *Mitragyna* genus. Part I., 867.

- Badger, G. M., Jones, M. L., and Pearce, R. S.**, substituted anthraene derivatives. Part I. *cis*- and *trans*-9 : 10-Dimethyl-9 : 10-dihydroanthraene, 1700.
- Badger, G. M., and Lynn, K. R.**, the relative reactivity of aromatic double bonds. Part II. Addition of osmium tetroxide to substituted 1 : 2-benzanthracenes, 1726.
- Badger, G. M., and Pearce, R. S.**, substituted anthraene derivatives. Part II. An example of 1 : 5-anionotropic rearrangement. Part III. Further examples of 1 : 5-anionotropic rearrangements. Part IV. The ultra-violet absorption spectra of *meso*-substituted 1 : 2-benzanthracenes, 2311, 2314, 3072.
- Badger, G. M.** See also Aitken, R. R.
- Baer, H.** See Elvidge, J. A.
- Bailey, A. S., and Robinson, Sir R.**, synthetical experiments in the chelidonine-sanguinarine group of the alkaloids. Part II., 1375.
- Bailey, A. S., Robinson, Sir R., and Staunton, R. S.**, synthetical experiments in the chelidonine-sanguinarine group of the alkaloids. Part III., 2277.
- Bailey, J. L.**, the synthesis of simple peptides from anhydro-*N*-carboxyamino-acids, 3461.
- Bailey, J. M., and Whelan, W. J.**, the enzymic synthesis and degradation of starch. Part XI. Isophosphorylase, 3573.
- Bailey, J. M., Whelan, W. J., and Peat, S.**, carbohydrate primers in the synthesis of starch, 3692.
- Baker, J. W.**, α -methylene reactivity in olefinic systems. Part IV. The structure of the dimeride formed by the stannic chloride-catalysed polymerisation of trimethyl-ethylene; synthesis and characterisation of isomeric methyl hexyl ketones, 1302.
- Baker, W., and Glockling, F.**, an unambiguous synthesis of 3-aryloxyflavones and their reaction with benzylamine, 2759.
- Baker, W., Haksar, C. N., and McOmie, J. F. W.**, fluorescent reagents; acyl chlorides and acyl hydrazides, 170.
- Baker, W., Ollis, W. D., and Poole, V. D.**, cyclic meso-ionic compounds. Part III. Further properties of the sydnones and the mechanism of their formation, 1542.
1 : 4-diaryl-1 : 4-dihydro-1 : 2 : 4 : 5-tetrazines and derived substances, 3389.
- Baker, W.** See also Aspinall, G. O.
- Balfe, M. P.**, the dependence of optical rotatory power on chemical constitution. Part XLI., 1871.
- Balfe, M. P., Beaven, G. H., and Kenyon, J.**, the dependence of optical rotatory power on chemical constitution. Part XXXVII. *cyclo*Hexylphenylcarbinol, 1857.
- Balfe, M. P., Hargreaves, M. K., and Kenyon, J.**, the dependence of optical rotatory power on chemical constitution. Part XXXVIII. (-)-1-Chloro-3-phenoxypropan-2-ol and (-)-glycide phenyl ether, 1861.
- Balfe, M. P., Kenyon, J., and Searle, C. E.**, fission of the alkyl-oxygen bond in carbinols and of the alkyl-sulphur bond in sulphides and sulphones, 3309.
- Balfe, M. P.** See also Anderson, I. G.
- Banks, A. A., and Eudge, A. J.**, the determination of the liquid density of chlorine trifluoride, 191.
- Bann, B.** See Miller, S. A.
- Banus, J., Emelénus, H. J., and Haszeldine, R. N.**, reactions of the perfluoroalkyl radicals, 3041.
- Barclay, G. A., and Le Fèvre, R. J. W.**, the apparent dipole moments of the chlorinated methanes in the liquid, dissolved, and gaseous states, 556.
- Barclay, G. A.** See also Angyal, C. L.
- Bardwell, J.** See Morgan, K. J.
- Barker, C., and Hilditch, T. P.**, the component acids of a hippopotamus fat, 3141.
- Barker, G. R.**, the determination of carbohydrate residues in pentose nucleic acids, 1636.
- Barker, G. R., and Lock, M. U.**, the chemistry of ribose and its derivatives. Part II. The constitution of an anhydro-*D*-ribose, 23.
- Barker, S. A., Bourne, E. J., Peat, S., and Wilkinson, I. A.**, the enzymic synthesis and degradation of starch. Part VI. The properties of purified P- and Q-enzymes. Part VII. The mechanism of Q-enzyme action. Part VIII. The use of mixtures of P- and Q-enzymes in the synthesis of starch-type polysaccharides, 84, 93, 3022.
- Barker, S. A., Bourne, E. J., and Stacey, M.**, the structure of the starch-type polysaccharide synthesised from sucrose by *Neisseria perflava*, 2884.
- Barker, S. A., Bourne, E. J., and Wilkinson, I. A.**, the enzymic synthesis and degradation of starch. Part IX. Methylation and end-group assay of some synthetic polysaccharides, 3027.
- Barlow, R. B., and Ing, H. R.**, a series of 9-dialkylaminoalkyl-isocalloxazines, 713.
- Barnard, D., and Bateman, L.**, experiments relating to the synthesis of homogeric acid, 926.
some reactions of geranyl magnesium chloride, 932.
- Barnard, D., Bateman, L., Harding, A. J., Koch, H. P., Sheppard, N., and Sutherland, G. B. B. M.**, an infra-red spectroscopic investigation of double-bond structure in simple acyclic terpenes and derivatives thereof, 915.
- Barnes, J. H., Borrow, E. T., Elks, J., Hems, B. A., and Long, A. G.**, the synthesis of thyroxine and related substances. Part VII. The preparation of diphenyl ethers from 2 : 6-di-iodophenols, 2824.
- Barrer, R. M.**, ion-exchange and ion-sieve processes in crystalline zeolites, 2342.
- Bashford, V. G., and Wiggins, L. F.**, anhydrides of polyhydric alcohols. Part XIII. The amino-derivatives of 1 : 4-3 : 6-dianhydro-mannitol, -sorbitol, and -L-Iditol, and their behaviour towards nitrous acid, 371.
- Bassett, H.**, the determination of selenate, and the preparation of some aluminium selenates, 1191.
lead alunite, 1460.
- Bassett, H., and Henshall, J. H.**, the double salts, sodium cobalt sulphate and sodium magnesium sulphate, 1970.
- Bassett, H., and Watt, W.**, pickeringite and the system $MgSO_4-Al_2(SO_4)_3-H_2O$, 1408.
- Bateman, L., and Cunneen, J. I.**, the reaction of oct-1-ene with *N*-bromosuccinimide, 941.
- Bateman, L., Cunneen, J. I., Fabian, J. M., and Koch, H. P.**, the reaction of hexa-1 : 5-diene with *N*-bromosuccinimide, 936.
- Bateman, L., Cunneen, J. I., and Koch, H. P.**, an analysis of the isomeric composition of bromodihydromyrcene, 3045. dehydrobromination experiments with bromodihydromyrcene, 3051.
- Bateman, L.** See also Barnard, D.
- Bauer, L., and Cyerman, J.**, chemotherapeutic diamidines; the sulphur analogue of 4 : 4'-diamidinostilbene, 109.
the chemotherapy of tuberculosis. Part I. Some substituted *N*-4-diphenylamidines. Part II. Some *N*-substituted *p*-phenylbenzamidines, 1826, 2078.
- Beale, R. N., Harris, R. J. C., and Roe, E. M. F.**, the nucleic acids of normal and tumour tissues; the preparation and composition of a pentosenucleic acid from the fowl sarcoma G.R.C.H. 15, 1397.
- Beale, R. N., and Liberman, A.**, the determination of the dissociation constants of very sparingly soluble weak electrolytes, 2287.
- Beaven, G. H.** See Balfe, M. P.
- Beeby, M. H., Cookson, G. H., and Mann, F. G.**, the synthetic application of phenylarsinebis(magnesium bromide). Part I. The synthesis of isoarsindolines, tetrahydroisoarsindolines, and 2-arsaperinaphthanes, 1917.
- Beeby, M. H., Mann, F. G., and Turner, E. E.**, the synthetic application of phenylarsinebis(magnesium bromide). Part II. The synthesis and properties of 6-substituted 6-arsa-1 : 2-3 : 4-dibenzcyclohepta-1 : 3-dienes, 1923.
- Beech, W. F., and Legg, N.**, aminohydroxynaphthoic acids. Part II. Attempted synthesis of 7-amino-4-hydroxy-2-naphthoic acid ("carboxy J-acid") from 3-amino-2-naphthoic acid, 961.
preparation of benzylsuccinic acid from ethyl α -methylcinnamate, 2906.
- Beer, R. J. S., McGrath, L., and Robertson, A.**, peroxides of tetrahydrocarbazole and related compounds. Part I. Tetrahydrocarbazolyl hydroperoxide. Part II., 2118, 3283.
- Bell, D. J., and Greville, G. D.**, characterisation of 3 : 4-dimethyl *D*-glucose, 1902.
- Bell, D. J., and Northcote, D. H.**, the structure of a cell-wall polysaccharide of baker's yeast, 1944.
- Bell, F., and Dinmore, G. A.**, experiments with optically active diphenyls, 3691.
- Bell, F., and Hunter, W. H.**, the reactivity of β -naphthols and β -naphthylamines, 2903.
dinaphthylenes, 2904.

- Bell, F., and Morgan, W. H. D.**, the symmetrical dianthryls. Part IV., 1963.
- Bell, R. P.**, the Brönsted memorial lecture, 409.
- Bell, R. P., and Waind, G. M.**, reaction-kinetic investigations of the incomplete dissociation of salts. Part II. The hydrolysis of carbethoxymethyltriethylammonium iodide and of ethyl acetate by solutions of metal hydroxides, 1979.
- Bendz, G., Culvenor, C. C. J., Goldsworthy, L. J., Kirby, K. S., and Robinson, Sir R.**, quinamine. Part IV. Sulphobenzeneazoquinamine and nitration and oxidation of quinamine to 3 : 6 : 8-trinitro-4-hydroxyquinoline, 1130.
- Benger, M., and Brady, O. L.**, the isomerism of the oximes. Part XXXIX. The hydrolysis of acyl derivatives, 1221.
- Bennett, F. W., and Sharpe, A. G.**, reactions of iodine monohalides in different solvents, 1383.
- Bennett, G. M., and Glynn, E.**, geometrical isomerism of the dioxides of diphenylpiperazine, 211.
- Bennett, R. N. E., and Warren, F. L.**, the *Euphorbia* resins. Part III. The epimerisation and dehydration of euphol, 697.
- Bentley, H. R., and Whitehead, J. K.**, dimethylsulphoximine, 2081.
- Bentley, K. W., and Robinson, Sir R.**, a synthesis of β -anhydrotrimethylbrazilone, 1353.
- Bergel, F., Cohen, A., and Hindley, N. C.**, syntheses of neurotropic and musculotropic stimulators and inhibitors. Part III. Derivatives of unsaturated ω -betaines, 1439.
- Bergel, F., Morrison, A. L., and Rinderknecht, H.**, studies on antibiotics. Part IV. Substituted ω -phenylsulphonylacetophenones, bisphenylthio- and bisphenylsulphonylalkane derivatives, 659.
- Bergmann, E. D., Hirschberg, Y., and Pinchas, S.**, ultraviolet spectrum and constitution of 3-hydroxy-2-naphthoic acid and related compounds, 2351.
- Bergmann, E. D., Pappo, R., and Ginsburg, D.**, a synthesis of 2-(2 : 3-dimethoxyphenyl)cyclohexanone, 1369.
- Bergmann, E. D., and Zimkin, E.**, the reaction of nickel carbonyl with ethynyl-dimethylcarbinol and isopropenyl-acetylene, 3455.
- Bhattacharyya, S. C., and Seymour, D. E.**, 4-aminosalicylic acid and its derivatives. Part II. The synthesis of 4-amino-2 : 5- and 4-amino-2 : 3-dihydroxybenzoic acid, 1139.
- Bhuvanendram, R., Manson, W., and Spring, F. S.**, triterpene resins and related acids. Part XIX. Isolation of a triterpene diol from *Canarium schweinfurthii* resin, 3472.
- Bick, I. R. C., and Todd, A. R.**, alkaloids of *Daphnandra* species. Part III. Micranthine, 1606.
- Bickel, A. F., and Waters, W. A.**, properties and reactions of free alkyl radicals in solution. Part I. Some reactions of 2-cyano- and 2-carbomethoxy-2-propyl radicals with quinones, 1764.
- Billinghurst, J. W.** See Adamson, D. W.
- Birch, A. J.**, hydroaromatic steroid hormones. Part I. 10-Nortestosterone, 367.
reduction by dissolving metals. Part VII. The reactivity of mesomeric anions in relation to the reduction of benzene rings, 1551.
a conversion of cholest-4-en-3-one into cholesterol, 2325.
- Birchough, M. J., and McGhie, J. F.**, lanosterol. Part IX. Ketodihydrostanosterol, 1249.
- Bircumshaw, L. L., and Edwards, J.**, the kinetics of the decomposition of nickel formate, 1800.
- Bircumshaw, L. L., and Tayler, F. M.**, the thermal decomposition of ammonium permanganate, 3674.
- Bircumshaw, L. L.** See also Dawson, J. K.
- Bladon, P., Overend, W. G., Owen, L. N., and Wiggins, L. F.**, the conversion of mannitol and sorbitol into dulcitol, 3000.
- Bladon, P., and Owen, L. N.**, dithiols. Part V. Further non-vicinal dithiols. Part VI. Ethers of 2 : 3-dimercaptopropanol with mannitol and sorbitol. Part VII. 5 : 6-Sorbitoleen and 1 : 2-mannitoleen as intermediates for the preparation of dithiols, 585, 591, 598.
1 : 2-5 : 6-diisopropylidene 3 : 4-anhydro-D-talitol, 604.
- Bloink, G. J., and Pausacker, K. H.**, the intramolecular nature of the benzidine rearrangement, 950.
the formation of osazones. Part I. The reaction of 2-hydroxycyclohexanone with arylhydrazines, 1328.
- Bobtel'sky, M.**, the chemical and physical properties of ethanol-water mixtures, 3615.
- Bobtel'sky, M., and Larisch, R. D.**, the heat of solution of halides, sulphuric acid, oxalic acid, sodium hydroxide, and urea in ethyl alcohol-water mixtures, 3612.
- Boggust, W. A., Cocker, W., Schwarz, J. C. P., and Stuart, E. R.**, some naphthothiazoles, 680.
- Bonnor, W. B., and Smith, C. G.**, some properties of the calcium salts of the lower fatty acids. Part I. Viscosity, 1359.
- Booth, J., Boyland, E., and Turner, E. E.**, the reduction of *o*-quinones with lithium aluminium hydride, 1188.
the optical resolution of (\pm)-*trans*-9 : 10-dihydroxy-9 : 10-dihydrophenanthrene, 2808.
- Borrows, E. T.** See Barnes, J. H.
- Bourne, E. J., Corbett, W. M., and Erilinne, D.**, cyclohexylidene derivatives of mannitol, 786.
