

# INDEX OF AUTHORS, 1951.

## A.

**Abell, R. D.**, the oxidation of toluene by sodium dichromate, 1379.

**Abramovitch, R. A.**, the chlorination of  $\beta$ -D-glucopyranose penta-acetate; abnormal reactions of phosphorus pentachloride, 2996.

**Adams, W. J.**, and **Hey, D. H.**, nitrosoacylarylamines. Part V. The nitrosation of 3-acetamido-4-quinolones and -quinaldones, 1521.

**Adams, W. J.**, **Petrow, V.**, and **Royer, R.**, steroids and related compounds. Part XI. Some derivatives of zymosterol, 678.

**Adamson, D. W.**, **Barrett, P. A.**, and **Wilkinson, S.**, amino-alkyl tertiary carbinols and derived products. Part IV. Spasmolytics; phenyl- and cyclohexylphenyl-carbinols, 52.

**Addison, C. C.**, **Allen, J.**, **Bolton, H. C.**, and **Lewis, J.**, the liquid dinitrogen tetroxide solvent system. Part III. The electrical conductivity of liquid dinitrogen tetroxide, 1289.

**Addison, C. C.**, **Bolton, H. C.**, and **Lewis, J.**, the liquid dinitrogen tetroxide solvent system. Part IV. The dielectric constant, refractive index, and polarisation of liquid dinitrogen tetroxide: the nature of solutions, 1294.

**Addison, C. C.**, **Conduit, C. P.**, and **Thompson, R.**, the liquid dinitrogen tetroxide solvent system. Part V. Reactions involving some alkylammonium salts, with particular reference to solvolysis and the formation of diethylnitrosamine. Part VI. Thermal and conductometric studies of solutions of diethylnitrosamine in liquid dinitrogen tetroxide, 1298, 1303.

**Addison, C. C.**, and **Lewis, J.**, the liquid dinitrogen tetroxide solvent system. Part VIII. Rates, and possible mechanisms, of reaction of zinc with liquid dinitrogen tetroxide. Part X. The reaction of zinc with liquid nitrosyl chloride-dinitrogen tetroxide mixtures, 2833, 2843.

**Addison, C. C.**, **Lewis, J.**, and **Thompson, R.**, the liquid dinitrogen tetroxide solvent system. Part VII. Products of reaction of zinc with liquid dinitrogen tetroxide. Part IX. Products, rates, and possible mechanisms of the reaction of zinc with liquid dinitrogen trioxide-tetroxide mixtures, 2829, 2838.

**Alkroyd, P.**, **Haworth, R. D.**, and **Hobson, J. D.**, purpurogallin. Part IX. The structure of the isomeric *O*-methyl ethers of  $\beta$ -methyltropolone, 3427.

**Alberman, K. B.**, **Blakey, R. C.**, and **Anderson, J. S.**, the oxides of uranium. Part II. The binary system  $UO_2$ -CaO, 1352.

**Alberman, K. B.**, and **Kipping, F. B.**, experiments in the cyclobutane series. Part I., 779.

phyllanthol: a new alcohol from the root bark of *Phyllanthus engleri* (Pax), 2296.

**Albert, A.**, 4-aminopyridine, 1376.

**Albert, A.**, **Brown, D. J.**, and **Cheeseman, G.**, pteridine studies. Part I. Pteridine, and 2- and 4-amino- and 2- and 4-hydroxy-pteridines, 474.

**Allen, J.** See **Addison, C. C.**

**Allen, M. J.**, 2 : 3-bis-*p*-dimethylaminophenylbutane-2 : 3-diol, 1598.

**Allerton, R.**, and **Overend, W. G.**, deoxy-sugars. Part XIX. The conversion of D-arabinose into 3-deoxy-D-xylose derivatives, 1480.

**Almond, C. Y.**, and **Mann, F. G.**, the structure and properties of certain polycyclic indolo- and quinolino-derivatives. Part III. Derivatives of 1 : 2 : 2a : 3 : 4 : 5 : 8 : 9 : 10 : 10a-decahydro-5 : 8-diketo-2a : 10a-diazapyrene, 1906.

**Ames, D. E.**, and **Bowman, R. E.**, synthetic long-chain aliphatic compounds. Part III. A critical examination of two methods of synthesis of olefinic acids. Part IV. Some methyl-substituted oleic acids. Part VI. Some anomalous reductions of 9-keto-10-methoxyoctadecanoic acid, 1079, 1087, 2752.

**Ames, T. R.**, **Davy, G. S.**, **Halsall, T. G.**, and **Jones, E. R. H.**, the chloro- and iodo-acetates of  $\alpha$ -amyrin,  $\beta$ -amyrin, and lupeol, 2506.

**Ames, T. R.**, **Halsall, T. G.**, and **Jones, E. R. H.**, the chemistry of the triterpenes. Part VII. An inter-relationship between the lupeol and the  $\beta$ -amyrin series; elucidation of the structure of lupeol, 450.

**Anand, N.**, and **Todd, A. R.**, nucleotides. Part VII. Analogues of adenosine-5' phosphate and uridine-5' phosphate containing phenylphosphonate and ethylphosphonate groups, 1867.

**Anderson, I. G.**, **Balfe, M. P.**, and **Kenyon, J.**, alkyl-oxygen fission in carboxylic esters. Part IX. Methyl-2-thienyl-carbinol, 385.

**Anderson, J. S.** See **Alberman, K. B.**

**Angyal, C. L.**, **Barclay, G. A.**, **Hukins, A. A.**, and **Le Fèvre, R. J. W.**, the mesomerism of keten and three of its derivatives, 2583.

**Angyal, S. J.**, **Barlin, G. B.**, and **Wailles, P. C.**, fluorene-2-aldehyde, 3512.

**Angyal, S. J.**, and **Warburton, W. K.**, the basic strengths of methylated guanidines, 2492.

**Anous, M. M. T.**, **Bradley, R. S.**, and **Colvin, J.**, the rate of dehydration of chrome alum, 3348.

**Antaki, H.**, and **Petrow, V.**, new syntheses of heterocyclic compounds. Part XII. The condensation of ethyl  $\beta$ -aminocrotonate with some cyclic amidines, 551.

steroids and related compounds. Part XII. Some heterocyclic derivatives, 901.

some glycosylbenzimidazoles, 2873.

**Arcus, C. L.**, and **Boyd, G. V.**, heterogeneous catalysis of the racemisation of (+)-1-phenylethyl bromide, 1580.

**Arcus, C. L.**, **Kenyon, J.**, and **Levin, S.**, experiments relating to the resolution of tertiary alcohols: the resolution and deamination of  $\alpha$ -naphthylphenyl-*p*-tolylmethylamine, and the Curtius, Hofmann, and Schmidt reactions with 2-methyl-2-phenylhexanoic acid, 407.

**Arden, T. V.**, the hydrolysis of ferric iron in sulphate solution, 350.

**Armitage, J. B.**, **Jones, E. R. H.**, and **Whiting, M. C.**, researches on acetylenic compounds. Part XXVIII. A new route to diacetylene and its symmetrical derivatives, 44.

**Arni, P. C.**, and **Percival, E. G. V.**, studies on fructosans. Part II. Triticin from the rhizomes of couch grass (*Triticum repens* L.), 1822.

**Arnstein, H. R. V.**, and **Bentley, R.**, synthesis of 1 : 3-dihydroxy[2-<sup>14</sup>C]acetone, 2385.

the mechanism of alkaline cleavage of some  $\gamma$ -pyrones, 3436.

the mechanism of amide formation from acids and urea, 3509.

**Ascher, K. R. S.**, trichloromethylamine (aminochloroform), 2209.

**Ash, A. S. F.**, **Challenger, F.**, and **Greenwood, D.**, the isomerisation of diallyl sulphilimines, 1877.

**Atkinson, R. O.**, and **Poppelsdorf, F.**, sulphonium derivatives of DL-methionine and 5-(2-methylthioethyl)hydantoin, 1378.

**Aubert, P.**, **Jeffreys, R. A.**, and **Knott, E. B.**, thiazolid-2 : 5-dione, 2195.

**Aubert, P.**, **Knott, E. B.**, and **Williams, L. A.**, dimethinmerocyanines derived from 2-substituted azol-5-ones, 2185.

**Audsley, A.**, and **Goss, F. R.**, atom polarisation. Part II. Relationships between molecular dimensions and boiling points for branched-chain paraffins, 120.

**Awad, W. I.** See **Schönberg, A.**

**Aziz, G.** See **Tadros, W.**

## B.

**Badcock, W. E.**, and **Pausacker, K. H.**, the dehydrogenation of 1 : 2 : 3 : 4-tetrahydrocarbazole, 1373.

**Badcock, W. E.** See also **Barnes, C. S.**

- Baddar, F. G., and El-Assal, L. S.**,  $\beta$ -aroylpropionic acids. Part II. The action of *o*- and *p*-methoxyphenylmagnesium bromide on succinic anhydride, 431.  
phenylpropionic acids. Part III. The effect of substituents on the mode of cyclisation of substituted phenylpropionic anhydrides, 1844.
- Baddar, F. G., and Gindy, M.**, 3:4-benzoxanthenes. Part I. The synthesis and oxidation of 3:4-benzoxanthen, 64.
- Baddeley, G., and Chadwick, J.**, the effect of intramolecular configuration on the rate of unimolecular solvolysis of aralkyl chlorides, 368.
- Baddiley, J.**, adenine 5'-deoxy-5'-methylthiopentose (adenine thiomethyl pentose): a proof of structure and synthesis, 1348.
- Baddiley, J., and Thain, E. M.**, the synthesis of pantothenic acid-2' and -4' phosphates as possible degradation products of coenzyme A, 246.  
coenzyme A. Part II. Evidence for its formulation as a derivative of pantothenic acid-4' phosphate. Part III. Synthesis of pantothenic acid-2':4' phosphate and further structural considerations. Part IV. Derivatives of 2-acetylthioethylamine as acetylating agents, 2253, 3421, 3425.
- Bader, H., Weedon, B. C. L., and Woods, R. J.**, studies in the polyene series. Part XXXIX. Miscellaneous syntheses from ethynylcyclohexene of acetylenic compounds related to vitamin A, 3099.
- Badger, G. M., Cook, J. W., and Donald, G. M. S.**, the synthesis of piperidine derivatives. Part V. Decahydroisoquinolines, 1392.
- Badger, G. M., Cook, J. W., and Gibb, A. R. M.**, the reaction of ethyl diazoacetate with anthracene, 1:2-benzanthracene, and pyrene, 3456.
- Badger, G. M., Pearce, R. S., and Pettit, R.**, polynuclear heterocyclic systems. Part I. Introduction. Part II. Hydroxy-derivatives, 3199, 3204.
- Badger, G. M., and Pettit, R.**, polynuclear heterocyclic systems. Part IV. The linear pentacyclic compounds, 3211.
- Badger, G. M., Seidler, J. H., and Thomson, B.**, polynuclear heterocyclic systems. Part III. The 3:4-benzacridine-5:10-dihydro-3:4-benzacridine complex, 3207.
- Bailey, H. C., and Knox, J. H.**, determination of aldehydes in combustion products, 2741.
- Bailey, M., and Wells, A. F.**, the structures of inorganic oxy-acids: the crystal structure of selenic acid, 968.
- Baker, J. W.**, reactions of  $\omega$ -substituted acetophenone derivatives. Part III, 2506.
- Baker, W., Coates, G. E., and Glockling, F.**, fluorosulphonic acid as a cyclodehydrating agent, 1376.
- Baker, W., Curtis, R. F., and Edwards, M. G.**, condensation products of phenols and ketones. Part VII. Molecular complexes formed by 2'-hydroxy-2:4:4:7:4'-pentamethylflavan, 83.
- Baker, W., Curtis, R. F., and McOmie, J. F. W.**, condensation products of phenols and ketones. Part VI. Proof of the flavan structure of the dimeride of 4-isopropenyl-*m*-cresol, 76.
- Baker, W., Gilbert, B., Ollis, W. D., and Zealley, T. S.**, eight- and higher-membered ring compounds. Part III. Di-, tri-, and tetra-cresotides, 209.
- Baker, W., Glockling, F., and McOmie, J. F. W.**, eight- and higher-membered ring compounds. Part V. Di-(naphthalene-2:7-dimethylene) and its conversion into coronene, 1118.  
attempts to prepare new aromatic systems. Part IV. *cyclo*Pent[a]indene, 3357.
- Baker, W., Hemming, R., and Ollis, W. D.**, the structures of buddleoflavonolide (linarin) and of buddleoflavonol (acetatin), 691.
- Baker, W., and Jones, P. G.**, attempts to prepare new aromatic systems. Part III. *cyclo*Pent[a]indene, 787.  
*N*-(*N*-phenylacetyl- $\alpha$ -DL-glutamyl)-D-penicillamine, 1143.
- Baker, W., McOmie, J. F. W., and Norman, J. M.**, eight- and higher-membered ring compounds. Part IV. Di-*m*-xylylene, tri-*p*-xylylene, and new syntheses of pyrene and of coronene, 1114.
- Baker, W., McOmie, J. F. W., and Ollis, W. D.**, eight- and higher-membered ring compounds. Part I. General introduction, 200.
- Baker, W., and Ollis, W. D.**, *N*-(*N*'-phenylacetylseryl)-D-penicillamines as possible biological precursors of benzylpenicillin, 556.
- Baker, W., Ollis, W. D., Phillips, A., and Strawford, T.**, cyclic meso-ionic compounds. Part IV.  $\psi$ -4-Aryl-2:4-dihydro-2-thio-1-thia-3:4-diazoles ("endothiodihydrothiadiazoles"), 289.
- Baker, W., Ollis, W. D., and Zealley, T. S.**, eight- and higher-membered ring compounds. Part II. Di-, tri-, tetra-, and hexa-salicylides, 201.
- Balfe, M. P., Beaven, G. H., and Kenyon, J.**, alkyl-oxygen fission in carboxylic esters. Part VI. Solvolytic reactions of esters of optically active cyclohexylphenyl-, methylphenyl-, and methyl- $\alpha$ -naphthyl-carbinols, 376.
- Balfe, M. P., Dabby, R. E., and Kenyon, J.**, alkyl-oxygen fission in carboxylic esters. Part VIII. Esters of *p*-methylthio- and *p*-methylsulphonyl-diphenylcarbinols, 382.
- Balfe, M. P., Hargreaves, M. K., and Kenyon, J.**, the (+) and (-)-*o*-tolyl-*p*-tolylcarbinols, 375.
- Balfe, M. P., Kenyon, J., and Searle, C. E.**, alkyl-oxygen fission in carboxylic esters. Part VII. Hydrolysis of methyl- $\beta$ -naphthylcarbonyl hydrogen phthalate, 380.
- Balfe, M. P., Kenyon, J., and Thain, E. M.**, alkyl-oxygen fission in carboxylic esters. Part X. Phthalates of di-*p*-methoxyphenylcarbinol and of *tert*-alcohols, 386.
- Balfe, M. P.** See also Anderson, I. G.
- Bannister, B., and Elsner, B. B.**, the synthesis of hydrocarbons of high molecular weight. Part I. Monoalkyl-naphthalenes. Part II. Some di- and tri-*n*-alkyl-naphthalenes, 1055, 1061.
- Banus, J., Emelús, H. J., and Haszeldine, R. N.**, the heterolytic fission of the carbon-iodine bond in trifluoroiodomethane, 60.
- Barakat, M. Z.** See Schönberg, A.
- Barany, H. C., Braude, E. A., and Coles, J. A.**, studies in molecular rearrangement. Part VIII. The five-carbon oxotropic rearrangement of 1-phenylhexa-2:4-dien-1-ol, 2093.
- Barany, H. C., Braude, E. A., and Pianka, M.**, some derivatives of diacetyl, 1929.
- Barbour, J. B., Bennett, R. N. E., and Warren, F. L.**, the *Euphorbia* resins. Part VIII. Epoxides from, and oxidations at the inert double bond of, euphol, euphorbol, and tirucalol, 2540.
- Barbour, J. B., Warren, F. L., and Wood, D. A.**, the *Euphorbia* resins. Part VII. The characterisation of the groups in euphorbol, 2537.
- Barclay, G. A.** See Angyal, C. L.
- Bardhan, J. C., De, N. C., and Datta, B. B.**, terpene compounds. Part VII. The synthesis and reactions of 5-keto-2-*iso*-propylhexanoic ( $\gamma$ -acetyl- $\alpha$ -*isopropyl*butyric) acid, 3195.
- Barker, C., Crawford, R. V., and Hilditch, T. P.**, thermal interchange of acyl groups in triglycerides, 1194.
- Barker, C. C., Hughes, I. W., and Young, G. T.**, amino-acids and peptides. Part V. Determination of L-glutamic acid by the isotope dilution method, 3047.
- Barlin, G. B.** See Angyal, S. J.
- Barlow, R. B.**, inhibitors of flavoprotein enzymes, 2225.
- Barlow, R. B., Ing, H. R., and Lewis, I. M.**, the structure of the product formed from alloxan and *o*-phenylenediamine in the absence of acid, 3242.
- Barltrop, J. A., Johnson, A. J., and Meakins, G. D.**, 4-hydroxy-2':3'-dimethoxybenzocycloheptatrien-3-one and related topics, 181.
- Barltrop, J. A., and Nicholson, J. S.**, syntheses in the morphine series. Part II. Substituted hexahydrodiphenyls and related topics, 2524.
- Barltrop, J. A., and Taylor, D. A. H.**, a new technique for the reduction of certain heterocyclic methiodides, 108.
- Barnes, C. S., Jackman, L. M., and Macbeth, A. K.**, reactions of  $\alpha\beta$ -unsaturated cyclic aldehydes and ketones. Part VIII. Alcohols derived from (-)-piperitone, 1848.
- Barnes, C. S., Pausacker, K. H., and Badcock, W. E.**, the Fischer indole synthesis. Part V. The cyclisation of some cyclohexanone *o*-substituted hydrazones, 730.
- Barrer, R. M.**, Huttig's multilayer isotherm, 1874.
- Barrer, R. M., and White, E. A. D.**, the hydrothermal chemistry of silicates. Part I. Synthetic lithium aluminosilicates, 1267.
- Barrett, P. A.** See Adamson, D. W.

- Barrott, J., Gillibrand, M. I., and Lamberton, A. H.**, the decomposition of primary nitramines in alkaline solutions, 1282.
- Bartels-Keith, J. R., Johnson, A. W., and Taylor, W. I.**, a synthesis of stiptic acid, 2352.
- Barton, D. H. R.**, triterpenoids. Part III. *cyclo*Artenone, a triterpenoid ketone, 1444.
- Barton, D. H. R., and Brooks, C. J. W.**, triterpenoids. Part I. Morolic acid, a new triterpenoid sapogenin, 257.
- Barton, D. H. R., Brooks, C. J. W., and Holness, N. J.**, triterpenoids. Part II. The partial synthesis of morolic acid, 278.
- Barton, D. H. R., and Bruun, T.**, a new sterol from a strain of *Aspergillus niger*, 2728.
- Barton, D. H. R., Fawcett, J. S., and Thomas, B. R.**, triterpenoids. Part IV. Constitution of lanostadienol (lanosterol), 3147.
- Barton, D. H. R., Head, A. J., and Williams, R. J.**, the kinetics of the dehydrochlorination of substituted hydrocarbons. Part VIII. The mechanisms of the thermal decompositions of *n*-propyl and *n*-butyl chloride and 2:2'-dichlorodiethyl ether, 2039.
- Barton, D. H. R., and Howlett, K. E.**, the kinetics of the dehydrochlorination of substituted hydrocarbons. Part VII. The mechanism of the thermal decompositions of 1:1:2:2- and 1:1:1:2-tetrachloroethane, 2033.
- Barton, D. H. R., and Lindsey, A. S.**, sesquiterpenoids. Part I. Evidence for a nine-membered ring in caryophyllene, 2988.
- Barton, D. H. R., Miller, E., and Young, H. T.**, the stereochemistry of steroids. Part V. The stereochemical course of the addition of halogens to cholesterol, 2598.
- Barton, D. H. R., and Rosenfelder, W. J.**, the stereochemistry of steroids. Part IV. The concept of equatorial and polar bonds, 1048.  
the application of the method of molecular rotation differences to steroids. Part XVII. The action of mercuric acetate on *isodehydrocholesteryl p*-nitrobenzoate, 2381.
- Bassett, H., and Parker, W. G.**, the oxidation of sulphurous acid, 1540.
- Bateman, L., and Cunneen, J. I.**, structural influences determining tautomeric equilibria in phenylpropenes, 2283.
- Bateman, L., Cunneen, J. I., and Lyons, J. A.**, tautomeric equilibria in 1:3(4):8-triene-type olefins; an investigation of double-bond interaction through two methylene groups, 2290.
- Bauer, L., Cymerman, J., and Sheldon, W. J.**, the chemotherapy of tuberculosis. Part III. Some *N*-substituted 4-aminodiphenyls, 2342.  
a novel method of cyanoethylation, 3311.
- Bawn, C. E. H., and White, A. G.**, reactions of the cobaltic ion. Part I. The reaction of the cobaltic ion with water. Part II. The kinetics of the reaction of the cobaltic ion with formic acid. Part III. The kinetics of the reactions of the cobaltic ion with aldehydes and alcohols, 331, 339, 343.
