

INDEX OF AUTHORS, 1956

A

- Abdel-Wahab, M. F.** See Barakat, M. Z., 4685.
- Abel, E. W., Dandegaonker, S. H., Gerrard, W., and Lappert, M. F.** The preparation and characterising constants of the phenylboron chlorides, 4697.
- Abrahams, S. C., and Speakman, J. C.** A crystallographic study of trimethylsulphonylmethane, 2562.
- Abramovitch, R. A.** Tryptamines, carbolines, and related compounds. Part III. 1-Methyl- and 1:*N*-dimethyl-tryptamines, 4593.
- Abramovitch, R. A., and Shapiro, D.** Tryptamines, carbolines, and related compounds. Part II. A convenient synthesis of tryptamines and β -carbolines, 4589.
- Acheson, R. M.** Some experiments with cyclopentanones, 4232.
Several quinoxalines of biological interest, 4731.
- Acheson, R. M., and Bond, G. J. F.** Addition reactions of heterocyclic compounds. Part II. Phenanthridine and methyl acetylenedicarboxylate in methanol, 246.
- Acheson, R. M., and Jefford, C. W.** Addition reactions of heterocyclic compounds. Part III. 2:3-Benzacridine and some dienophils, 2676.
- Acheson, R. M., MacPhee, K. E., Philpott, P. G., and Barltrop, J. A.** Compounds of potential pharmacological interest. Part II. Some heterocyclic and carbocyclic systems related to 1-phenylindane, 698.
- Acheson, R. M., and Robinson, M. J. T.** The condensation of acridone with tertiary aromatic amines and the ultraviolet absorption spectra of the products, 484.
- Acheson, R. M., and Taylor, N. F.** Two hypothetical metabolites of proguanil ("Paludrine"), 4727.
- Acheson, R. M.** See also Barltrop, J. A., 2928.
- Adams, A., Ashley, J. N., and Bader, H.** A search for new trypanocides. Part III. Some analogues of suramin, 3739.
- Adams, A., and Slack, R.** Thiazoles derived from chrysean and isochrysean, 1870.
- Adams, W. J., Patel, D. K., Petrow, V., and Stuart-Webb, I. A.** 16-Oxo- and 16 α -hydroxy-testosterone, 297.
- Adams, W. J., Patel, D. K., Petrow, V., Stuart-Webb, I. A., and Sturgeon, B.** 4:4-Dimethylsteroids. Part II. Some androstane and pregnane derivatives, 4490.
- Addison, C. C., Addison, W. E., Kerridge, D. H., and Lewis, J.** Liquid metals. Part IV. The wetting of zinc by liquid sodium: the significance of the critical wetting temperature, 1454.
- Addison, C. C., and Furnidge, C. G. L.** Critical concentrations of some alkylpyridinium iodides in water and in xylene evaluated from solubility measurements, 3229.
- Addison, C. C., and Sheldon, J. C.** Molecular addition compounds of dinitrogen tetroxide with nitrogen, oxygen, and aromatic hydrocarbon donors, 1941.
Oxidation of dialkyl sulphides and trisubstituted phosphines by dinitrogen tetroxide; molecular addition compounds with dialkyl sulphoxides, 2705.
Double melting of molecular addition compounds of dinitrogen tetroxide with organic donors, 2709.
- Addison, C. C., Sheldon, J. C., and Hodge, N.** The rates of reaction of copper, zinc, and uranium with organic solvent-dinitrogen tetroxide mixtures, 3900.
- Addison, W. E.** See Addison, C. C., 1454.
- Adhya, R. N., Ghosh, A. C., and Bardhan, J. C.** Terpene compounds. Part IX. A method of formation of homocampophoric acid, 358.
- Adhya, R. N.** See also Bardhan, J. C., 260, 355, 1346, 2179.
- Aggarwal, J. S.** See Varma, J. P., 2550.
- Ainscough, J. B., and Caldin, E. F.** The kinetics and mechanisms of some colour reactions of aromatic nitro-compounds at low temperatures. Part II. 2:4:6-trinitroanisole. Part III. *s*-Trinitrobenzene. Part IV. 2:4:6-Trinitrotoluene: a second reaction with ethoxide ion, 2528, 2540, 2546.
- Aitken, I. M., and Reid, D. H.** The synthesis of indeno-[2,1- α]perinaphthene, 3487.
- Akhnookh, Y.** See Tadors, W., 2701.
- Albert, A., Brown, D. J., and Wood, H. C. S.** Pteridine studies. Part VIII. The degradation of pteridine. Methylation of the hydroxypteridines and degradation of the products, 2066.
- Albert, A., Lister, J. H., and Pedersen, C.** Pteridine studies. Part X. Pteridines with more than one hydroxy- or amino-group, 4621.
- Albert, A., and Pedersen, C.** The lability of 1:4:6-triazanaphthalene, 4683.
- Albert, A., and Phillips, J. N.** Ionization constants of heterocyclic substances. Part II. Hydroxy-derivatives of nitrogenous six-membered ring-compounds, 1294.
- Alcock, K.** See Dawson, J. K., 3531.
- Allan, G. G., Fayed, M. B. E., Spring, F. S., and Stevenson, R.** Triterpenoids. Part XLVII. The constitution of some compounds obtained by the dehydration of β -amyrin and related alcohols: further observations on the stereochemistry of α -amyrin, 456.
- Allen, G. D., and Waters, W. A.** The oxidation of isobutyraldehyde with the free radical, $\cdot\text{O-N}(\text{SO}_3\text{K})_2$, from potassium nitrosyldisulphonate, 1132.
- Alles, B. J. P., Kandiah, A., and Sultanbawa, M. U. S.** α -Dipropylsuccinic acid, 797.
- Alles, B. J. P., and Sultanbawa, M. U. S.** The reactivity of 2-bromopent-2-enoic acid, 3472.
- Allsop, I. L., Cole, A. R. H., White, D. E., and Willix, R. L. S.** Infrared spectra of natural products. Part VI. The characterization of equatorial and axial 3-hydroxyl groups in triterpenoids, 4868.
- Ames, D. E., and Bowman, R. E.** Griseoviridin. Part III. Degradation to 10-aminodecanoic acid, and other reactions, 2925.
- Ames, D. E., Bowman, R. E., Evans, D. D., and Jones, W. A.** The synthesis of some indolylalkylamines, 1984.
- Ames, D. E., Franklin, C. S., and Grey, T. F.** *N*-Oxides of some hydroxy- and amino-quinolines, 3079.
- Ames, G. R., and Davey, W.** cycloHexane-1:3-diones. Part I. Hydrolysis of ethyl 2:4-dioxo-6-styrylcyclohexanecarboxylate, 3001.
- Amin, E. S.** The mucilages of *Hibiscus esculentus* (Okra or Bamia fellahi) and *Corchorus olitorius* (Mulukhia), 828.
- Ammar, I. A.** See El Wakkad, S. E. S., 3020.
- Anantaraman, R., and Pillai, K. S. M.** Barringtonol and barringtonogenic acid, two new triterpenoid saponin, 4369.
- Anderson, D. M. W., and Greenwood, C. T.** Carbohydrates of the roots of the parsnip, *Pastinaca sativa*, 220.
- Anderson, J. M., and Percival, E.** The synthesis of glucosamine 6-(dihydrogen phosphate), 814.
The ammonolysis of methyl 2:3-anhydro-D-furanosides. Part II. Methyl 2:3-anhydro-5-O-methyl- α - and - β -D-lyxofuranosides, 819.
- Anderson, R. J., Frearson, P. M., and Stern, E. S.** Some new analogues of pethidine. Part I, 4088.
- Andrews, K. J. M., Marrian, D. H., and Maxwell, D. R.** Potential radiosensitizers: some quinones and related compounds, 1844.
- Andrews, P., Hough, L., and Jones, J. K. N.** Mannose-containing polysaccharides. Part IV. The glucomannans of lily bulbs, 181.

- Ansell, M. F., and Brooks, G. T.** Reduced cyclic compounds. Part II. The synthesis of 1-1'-acetoxyvinylcyclohexene and its reactions with some dienophiles, 4518.
- Ansell, M. F., Hancock, J. W., and Hickinbottom, W. J.** The synthesis and reactions of branched-chain hydrocarbons. Part X. The rearrangement of α -ethynyl alcohols to unsaturated carbonyl compounds, 911.
- Ansell, M. F., and Selleck, M. E.** Reduced cyclic compounds. Part I. The preparation and cyclodehydration of ω -phenyl unsaturated tertiary alcohols, 1238.
- Arcus, C. L., Coombs, M. M., and Evans, J. V.** Reactions of organic azides. Part V. The Schmidt reaction with fluorenones. The structure of the intermediate in the ketonic Schmidt reaction, 1498.
- Arcus, C. L., and Hallgarten, P. A.** The preparation, *via* thiuronium salts, of optically active thiols, 2987.
- Arcus, C. L., and Marks, R. E.** Reactions of organic azides. Part VI. The interaction of 2-acylbenzoic acids and alkyldenedephthalides with hydrazoic and sulphuric acids, 1627.
- Arcus, C. L., and Matthews, R. J. S.** Phosphonic polymers. Part I. The copolymerisation of diethyl vinylphosphonate and styrene, 4607.
- Arden, T. V., and Wood, G. A.** Adsorption of complex anions from uranyl sulphate solution by anion-exchange resins, 1596.
- Ardon, M., and Stein, G.** The decomposition of hydrogen peroxide by ceric salts. Part II. The action of ceric perchlorate, 104.
The oxidation of chromous perchlorate solutions by molecular oxygen, 2095.
- Arkley, V., Dean, F. M., Robertson, A., and Sidisunthorn, P.** Usmic acid. Part XII. Pummerer's ketone, 2322.
- Armarego, W. L. F., and Turner, E. E.** Diaryl-2:2'-disulphonic acids and related compounds. Part I. The diphenyl and the ditolyl series. Part II. The optical stability of a cyclic 2:2'-thiosulphonate, 1665, 3668.
- Aroney, M., and Le Fèvre, R. J. W.** Molecular polarisability. The molar Kerr constants of benzyl alcohol and aniline at infinite dilution, 2775.
- Arris, J., Baddiley, J., Buchanan, J. G., and Thain, E. M.** Coenzyme A. Part X. Model experiments on the synthesis of pyrophosphates of *N*-pantoylamines. New methods for the debenzoylation of esters of pyrophosphoric acid, 4968.
- Arshid, F. M., Giles, C. H., and Jain, S. K.** Studies in hydrogen-bond formation. Part IV. The hydrogen-bonding properties of water in non-aqueous solution and of alcohols, aldehydes, carbohydrates, ketones, phenols, and quinones in aqueous and non-aqueous solutions. Part V. Complex-forming properties of esters, and their relation to the adsorption properties of cellulose acetate and other polymers, 559, 1272.
- Arshid, F. M., Giles, C. H., Jain, S. K., and Hassan, A. S. A.** Studies in hydrogen-bond formation. Part III. The reactivity of amines, amides, and azo-compounds in aqueous and non-aqueous solutions, 72.
- Arthur, H. R., Hui, W. H., and Ma, C. N.** An examination of the Rutaceae of Hong Kong. Part I. Flavonoid glycosides from *Zanthoxylum* species and the occurrence of optically active hesperetin, 632.
- Arthur, H. R., Lee, C. M., and Ma, C. N.** The occurrence of triterpenes in the Aquifoliaceae and Ericaceae of Hong Kong, 1461.
- Arumugam, N.** See Govindachari, T. R., 4280.
- Asafoor, A., and Dalgliesh, C. E.** The use of deactivated charcoal for the isolation of aromatic substances, 2291.
- Ashley, J. N.** See Adams, A., 3739.
- Ashurst, K. G., and Higginson, W. C. E.** The kinetics of the reaction between cobalt(III) and thallium(I) in aqueous perchloric acid, 343.
- Asperger, S., and Ingold, C. K.** Mechanism, kinetics, and stereochemistry of octahedral substitutions. Part VI. Bimolecular basic hydrolysis and aquation of the chloronitrobis(ethylenediamine)cobalt(III) ions, 2862.
- Aspinall, G. O., and Carter, M. E.** The constitution of a xylan from Norway spruce (*Picea excelsa*), 3744.
- Aspinall, G. O., Carter, M. E., and Loat, M.** The degradation of xylobiose and xylotriose by alkali, 4807.
- Aspinall, G. O., and Fordyce, W. B.** Studies on degraded csparto cellulose, 633.
- Aspinall, G. O., Hirst, E. L., and Matheson, N. K.** Plant gums of the genus *Khaya*. The structure of *Khaya grandifolia* gum, 989.
- Aspinall, G. O., Jamieson, R. S. P., and Wilkinson, J. F.** The structure of the extracellular polysaccharide of *Aerobacter aerogenes* A3 (S1) (Klebsiella type 54), 3483.
- Aspinall, G. O., and Meek, E. G.** The constitution of a wheat-straw hemicellulose, 3830.
- Aspinall, G. O., and Wilkie, K. C. B.** The constitution of an oat-straw xylan, 1072.
- Atkinson, C. M., Brown, C. W., and Simpson, J. C. E.** Cinnolines and other heterocyclic types in relation to the chemotherapy of trypanosomiasis. Part XI. Some reactions of simple quinoxaline derivatives, 26.
Some reactions in the phthalazine series, 1081.
- Atkinson, M. R., Shaw, G., Schaffner, K., and Warrener, R. N.** Purines, pyrimidines, and glyoxalines. Part III. A new synthesis of 2-thiouracils, 3847.
- Atkinson, M. R., Shaw, G., and Warrener, R. N.** Purines, pyrimidines, and glyoxalines. Part IV. Cyanouracils from amines and amino-acids, 4118.
- Avis, P. G., Bergel, F., and Bray, R. C.** Cellular constituents. The chemistry of xanthine oxidase. Part III. Estimations of the co-factors and the catalytic activities of enzyme fractions from cow's milk, 1219.
- Avis, P. G., Bergel, F., Bray, R. C., James, D. W. F., and Shooter, K. V.** Cellular constituents. The chemistry of xanthine oxidase. Part II. The homogeneity of crystalline metalloflavoprotein fractions, 1212.
- Ayer, W. A., and Taylor, W. I.** The conversion of bulbocapnine into morphothebaine, 472.
- Ayling, E. E., and Davies, D. A.** Aryldihydroresorcinols. Part II. The influence of the nitro-group in dihydro-5-*o*-nitrostyrylresorcinol, 4803.
- Ayling, E. E., Hodges, J., and Meredith, R. F. K.** Aryldihydroresorcinols. Part I. Dihydro-5- α -naphthyl- and 5-(4-diphenyl)dihydro-resorcinol, 2679.
- Ayrey, G., and Moore, C. G.** Synthesis of di[14 C]benzoyl peroxide from [14 C]benzene, 1356.

B

- Baddar, F. G., and Sawires, Z.** 1-Phcnylnaphthalenes. Part III. The effect of substituents and their position on the absorption spectra of 1-phenylnaphthalene-2:3-dicarboxylic anhydrides, 395.
- Baddar, F. G., and Sherif, S. A. M.** Triad prototropic systems. Part IV. The effects of substituents on the mobility of the azomethinecarboxylic acids derived from ketones, 4292.
- Baddeley, G., Chadwick, J., and Taylor, H. T.** Steric relations between ionisation of aralkyl chlorides and dissociation of anilinium ions. Part II. Part III, 448, 451.
- Baddeley, G., Smith, N. H. P., and Vickars, M. A.** Interdependence of molecular conformation and conjugation in aromatic ethers. Part I, 2455.
- Baddeley, G., and Williamson, R.** Friedel-Crafts acylation and alkylation. A comparison of inter- and intra-molecular processes, 4647.
- Baddeley, G., and Wrench, E.** The interaction of alkylbenzenes with excess of Friedel-Crafts acetylating agent, 4943.
- Baddiley, J., Buchanan, J. G., Carss, B., and Mathias, A. I.** Cytidine diphosphate ribitol from *Lactobacillus arabinosus*, 4583.
- Baddiley, J., Buchanan, J. G., Handschumacher, R. E., and Prescott, J. F.** Chemical studies in the biosynthesis of purine nucleotides. Part I. The preparation of *N*-glycylglycosylamines, 2818.
- Baddiley, J., Buchanan, J. G., Hawker, F. J., and Stephenson, J. E.** Synthesis of "6-succinoaminopurine" [6-(1:2-dicarboxylethylamino)purine], 4659.
- Baddiley, J., Buchanan, J. G., and Letters, R.** Phosphorylation through glyoxalines [iminazoles] and its significance in enzymic transphosphorylation, 2812.
- Baddiley, J., Buchanan, J. G., Mathias, A. P., and Sanderson, A. R.** Cytidine diphosphate glycerol, 4186.
- Baddiley, J.** See also Arris, J., 4968.

- Bader, H.** The addition of thioacetic acid to ethynylcarbinols and the conversion of the adducts into aldols and $\alpha\beta$ -unsaturated aldehydes, 116.
A search for new trypanocides. Part II. 4-Amino-6-dialkylaminoquinolines, 3293.
- Bader, H.** See also Adams, A., 3739.
- Badger, G. M., and Buttery, R. G.** Aromatic azo-compounds. Part VIII. A study of intramolecular hydrogen bonding in 8-hydroxyquinoline, 614.
8-Mercaptoquinoline, 3236.
- Badger, G. M., and Christie, B. J.** Polynuclear heterocyclic systems. Part X. The Elbs reaction with heterocyclic ketones. Part XI. Absorption spectra of compounds containing five-membered rings, 3435, 3438.
- Badger, G. M., and Sasse, W. H. F.** Synthetic applications of activated metal catalysts. Part II. The formation of heterocyclic diaryls, 616.
- Badger, G. M., and Stephens, J. F.** Fluorine-substituted polycyclic compounds, 3637.
- Badger, G. M., and Walker, I. S.** Polynuclear heterocyclic systems. Part IX. $n-\pi^*$ Transitions in the spectra of aromatic aza-hydrocarbons, 122.
- Bagnall, K. W., D'Eye, R. W. M., and Freeman, J. H.** The polonium halides. Part III. Polonium tetraiodide, 3385.
- Bagnall, K. W., and Freeman, J. H.** Electrochemical studies on polonium, 2770.
The sulphates and selenate of polonium, 4579.
- Bailey, A. S., Smith, J. C., and Staveley, C. M.** The reduction of β -alkyl-naphthalenes, 2731.
- Bailey, A. S., and Swallow, D. L.** The synthesis of 1:2-dihydro-1-oxo-5'-phenylfuran(2':3':4)isoquinoline, 2477.
- Bailey, A. S., and Worthing, C. R.** Synthetical experiments in the chelidone-sanguinarine group of the alkaloids. Part IV, 4535.
- Baines, J. E., and Eaborn, C.** Organosilicon compounds. Part XVII. The acidic solvolysis of organosilicon hydrides, 1436.
- Baker, C. A., and Williams, R. J. P.** A new chromatographic procedure and its application to high polymers, 2352.
- Baker, J. W., Brioux, J. A. L., and Saunders, D. G.** Mechanism of aromatic side-chain reactions with special reference to the polar effects of substituents. Part XVI. Hyperconjugation of groups of the type CH_2X in the benzaldehyde-cyanohydrin equilibria, 404.
- Baker, W., Floyd, A. J., McOmie, J. F. W., Pope, G., Weaving, A. S., and Wild, J. H.** Condensation products of phenols and ketones. Part X. The structure of Dianin's compound, a unique inclusion-forming substance, 2010.
- Baker, W., McOmie, J. F. W., and Weaving, A. S.** Condensation products of phenols and ketones. Part XI. A rational synthesis of Dianin's compound, 2018.
- Balenović, K., Bregant, N., and Cerar, D.** (+)- β -Aminobutyric acid; the correlation of its configuration with that of α -amino-acids, 3982.
- Ball, J. C.** See Bentley, K. W., 1963.
- Ballantine, J. A., and Whalley, W. B.** Aluminium complexes of flavonols, 3224.
- Ballard, D. G. H., and Bamford, C. H.** Reactions of *N*-Carboxy- α -amino-acid anhydrides catalysed by tertiary bases, 381.
- Bamford, C. H.** See Ballard, D. G. H., 381.
- Banerjee, R. C.** See Bardhan, J. C., 1809.
- Banfield, J. E., Davies, W., Ennis, B. C., Middleton, S., and Porter, Q. N.** The synthesis of thionaphthen derivatives. Part I. The cyclisation of arylthioacetaldehyde diethyl acetals, 2603.
- Banfield, J. E., Davies, W., Gamble, N. W., and Middleton, S.** Derivatives of thionaphthen. Part II. Thionaphthen derivatives formed by cyclisation of acetyl aryl sulphides and aryl phenacyl sulphides, 4791.
- Banks, R. E., and Musgrave, W. K. R.** Vapour-liquid equilibrium data for the benzene-fluorobenzene system, 4682.
- Barakat, M. Z., Abdel-Wahab, M. F., and El-Sadr, M. M.** Oxidation of organic compounds by solid manganese dioxide, 4685.
- Barclay, J. L., Cleaver, A. J., Foster, A. B., and Overend, W. G.** Deoxy-sugars. Part XXX. Synthesis and characterization of derivatives of 2-deoxy-*aldehydo*-D-galactose and its 2-deoxy-D-glucose analogue, 789.
- Barclay, J. L., Foster, A. B., and Overend, W. G.** The interaction of *aldehydo*-sugars and primary aromatic amines, 476.
- Bardhan, J. C., and Adhya, R. N.** Terpene compounds. Part VIII. The conversion of (\pm)-benzylidenepiperitone into 3-isopropylphenanthrene. Part X. A synthesis of (\pm)-angustione, 260, 2179.
- Bardhan, J. C., Adhya, R. N., and Bhattacharyya, K. C.** Synthesis of polycyclic compounds. Part IV. Substituted 3-alkylphenanthrenes, 1346.
- Bardhan, J. C., and Banerjee, R. C.** Synthesis of polycyclic compounds. Part V. The cyclodehydration of 3-benzylcyclohexanol, 1809.
- Bardhan, J. C., and Mukherji, D. N.** Synthesis of polycyclic compounds. Part VI. The preparation of 1:2:3:4-tetrahydro-6-methoxy-1-oxo-4-isopropyl-naphthalene and related compounds, 4629.
- Bardhan, J. C., and Nasipuri, D.** Synthesis of polycyclic compounds. Part I. A new synthesis of alkylphenanthrenes, 350.
- Bardhan, J. C., Nasipuri, D., and Adhya, R. N.** Synthesis of polycyclic compounds. Part II. The ring closure of β -carboxy- γ -1-naphthylbutyric acid, 355.
- Bardhan, J. C.** See also Adhya, R. N., 358, Rakshit, U., 790, and Ray, M., 1344.
- Barker, G. R., and Luthy, N. G.** The synthesis of pyrimidin-5-yl sulphides and disulphides. Part II, 917.
- Barker, G. R., and Spoor, J. W.** The chemistry of D-ribose and its derivatives. Part VI. *iso*Propylidene and benzylidene derivatives, 1192.
Ribose and its derivatives. Part VII. The condensation of methyl D-ribopyranoside with acetone, 2656.
- Barltrop, J. A., Acheson, R. M., Philpott, P. G., MacPhee, K. E., and Hunt, J. S.** Compounds of potential pharmacological interest. Part IV. Aryl and alkyl derivatives of 1-aminoindane, 2928.
- Barltrop, J. A., and Dodsworth, R. F.** Compounds of potential pharmacological interest. Part III. 2-Substituted 1-phenylindanes, 706.
- Barltrop, J. A., and Morgan, K. J.** Organic sulphur compounds. Part I. The structure of anthra-9:10-quinone-1-sulphenic acid, its derivatives, and analogues, 4245.
- Barltrop, J. A.** See also Acheson, R. M., 698, and Philpott, P. G., 691.
- Barnard, D.** Oxidation of organic sulphides. Part V. The products of the reaction of organic hydroperoxides with alk-2-enyl sulphides, 489.
- Barnard, D., Hargrave, K. R., and Higgins, G. M. C.** The determination of acid strengths of organic hydroperoxides, 2845.
- Barnard, J. R., and Jackman, L. M.** Theoretical studies of the macrocyclic pigments. Part I. The structure of bacteriochlorophyll, 1172.
- Barr, D. A., and Haszeldine, R. N.** Perfluoroalkyl derivatives of nitrogen. Part III. Heptafluoronitrosopropane, perfluoro-2-*n*-propyl-1:2-oxazetidine, perfluoro(methylene-*n*-propylamine), and related compounds. Part IV. The synthesis, properties, and infrared spectra of perfluoroalkyl isocyanates and carbamates, 3416, 3428.
- Barrer, R. M., and Baynham, J. W.** The hydrothermal chemistry of the silicates. Part VII. Synthetic potassium aluminosilicates, 2882.
Synthetic chabazites: correlation between isomorphous replacements, stability, and sorption capacity, 2892.
