

## EDITORIAL REPORT ON NOMENCLATURE, 1958

THE customary annual editorial report on nomenclature is not presented this year. It is the Society's intention to issue later in 1959 a volume in its series of Special Publications which will include all the nomenclature rules previously printed (so far as they remain valid), the new nomenclature rules for organic and inorganic chemistry issued by I.U.P.A.C. as a result of their 1957 Congress (together with editorial comment thereon), the previous annual editorial reports on nomenclature in collated form, a revised version of the brochure "The Presentation of Papers for the Journal of the Chemical Society," and other matter of interest to authors for the Society's publications. Details will be announced later.
