

Dalton Transactions

An international journal of inorganic chemistry

www.rsc.org/dalton

Number 1 | 7 January 2006 | Pages 1–296

ISSN 1477-9226

RSC Publishing

COMMUNICATION

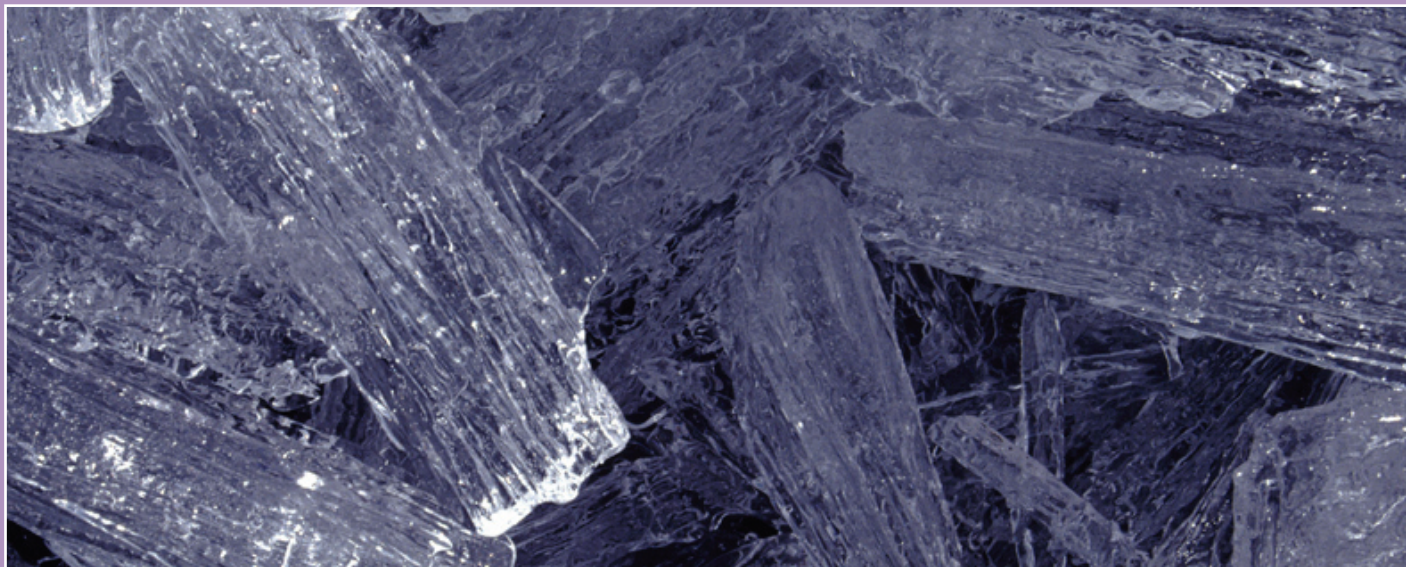

Kyoko Nozaki *et al.*
Synthesis of anionic methylpalladium complexes and their activities for olefin polymerization

COMMUNICATION

Anthony F. Hill and Matthew K. Smith
Dihydrobis(methimazolyl)borate and methimazolyl complexes of titanium

1477-9226 (2006) 1; 1-3

21030559

CrystEngComm

The electronic journal for crystal engineering

CrystEngComm provides a forum for the publication of high impact articles in all aspects of crystal engineering. Its high quality is reflected in CrystEngComm's first impact factor – an impressive 2.596!

- Fast times to publication – typically 50 days
- Full reference linking
- Fully interactive features
- International authorship and world-wide circulation
