PERKIN TRANSACTIONS I
Organic and Bio-organic Chemistry

CONTENTS

	PAGE
Mechanism of the reaction between trialkyl phosphates and dialkyl phosphorochloridates: nucleophilic sites in phosphorus(v) esters By PETER SIMPSON and ANDRZEJ ZWIERZAK	201
Structures of two dimers formed from oroselol with acids By VINAYAK S. KAMAT, THAKUR D. AUDICHYA (in part), GIRISH K. TRIVEDI, and SASANKA C. BHATTACHARYYA	204
Reactions involving transition metals. Part VIII. Decomposition of hydroperoxides catalysed by iridium(I) and by rhodium(I) complexes By BRIAN L. BOOTH, ROBERT N. HASZELDINE, and GEOFFREY R. H. NEUSS	209
<i>N</i> -Bridged heterocycles. Part I. Synthesis and chemistry of <i>NN'</i> -polymethylene- <i>o</i> -phenylenediamines By ROGER J. HAYWARD and OTTO METH-COHN	212
<i>N</i> -Bridged heterocycles. Part II. Synthesis and aromaticity of 1,3-polymethylene-benzimidazolium salts { <i>[n]</i> (1,3)benzimidazolophanium salts}, -benzimidazolones, and -benzimidazoethiones By ROGER J. HAYWARD and OTTO METH-COHN	219
Photo-oxidation of bilirubin in hydroxylic solvents By RAYMOND BONNETT and JOHN CHARLES MARSHALL STEWART	224
Oxidation of oct-1-ene and <i>trans</i> -oct-4-ene by lead(IV), thallium(III), and mercury(II) acetates By ANDREW LETHBRIDGE, RICHARD O. C. NORMAN, C. BARRY THOMAS, and (in part) WILLIAM J. E. PARR	231
Extractives from Guttiferae. Part XXIX. Synthesis of celebixanthone methyl ether and related 1,5,6,7-tetraoxygenated xanthenes By AUGUSTUS J. QUILLINAN and FEODOR SCHEINMANN	241
Synthesis of ten isomers of a macrocyclic polyether, tetramethyldibenzo-18-crown-6, and their complexes with salts of alkali metals By DAVID G. PARSONS.	245
A new regiospecific synthesis of 8-bromocamphor By CHARLES R. ECK, ROY W. MILLS, and THOMAS MONEY	251
Structure and transformation of products of the reactions of 2,2''-thiodi-isobutyrophenone with hydrazine By ERIC CUTHBERTSON, ANDREW D. U. HARDY, and DAVID D. MACNICOL	254
Cyclisation reactions. Part III. Cyclisation of <i>trans</i> -2,3-epoxy-9- <i>m</i> -methoxyphenyl-2,6-dimethylnon-6-ene By DHANONJOY NASIPURI and SWADESH R. RAY CHAUDHURI	262
Potentially carcinogenic cyclopenta[<i>a</i>]phenanthrenes. Part X. Oxygenated derivatives of the carcinogen 15,16-dihydro-11-methylcyclopenta[<i>a</i>]phenanthren-17-one of metabolic interest By MAURICE M. COOMBS, MAUREEN HALL, VERONICA A. SIDDLE, and COLIN W. VOSE	265
Photochemical reactions of 1,2,4-dithiazole-3-thione and 1,2-dithiole-3-thione with olefins By RENJI OKAZAKI, FUMIO ISHII, KAZUMI OKAWA, KENJI OZAWA, and NAOKI INAMOTO	270

	PAGE
Studies in azole chemistry. Part I. Syntheses and reactions of some imidazole 3-oxides By IAN J. FERGUSON and KENNETH SCHOFIELD	275
Neighbouring hydroxy-group participation in the reductive elimination of chlorine from 5 α ,6 β -dichloro-cholestanes with sodium borohydride By YORAM HOUMINER	277
Acyloxyoxosulphonium intermediates in the formation of sulphones from sulphoxides By RITA ANNUNZIATA, MAURO CINQUINI, and STEFANO COLONNA	282
Nucleophile-induced cyclisation of 2-diazo-2'-thiocyanatoacetophenone: 2-(cyanohydrazono)- and 2-(triphenylphosphoranylidenehydrazono)benzo[<i>b</i>]thiophen-3(2 <i>H</i>)-one By WILLIAM T. FLOWERS, GEOFFREY HOLT, MICHAEL A. HOPE, and CONSTANTINE P. POULOS	286
An improved synthesis of 6 <i>H</i> -pyrido[4,3- <i>b</i>]carbazole derivatives By MALCOLM SAINSBURY, BRIAN WEBB, and RAYMOND SCHINAZI	289
Photochemical reactions of β -aminovinyl phenyl ketones and related compounds By HIROMU AOYAMA, TAKEHIKO NISHIO, YOSHITAKA HIRABAYASHI, TADESHI HASEGAWA, HIROSHI NODA, and NOBORU SUGIYAMA	298
Biosynthesis of aromatic isoprenoids. Part III. Mechanism of formation of the furan ring and origin of the 4-methoxy-group in the biosynthesis of furoquinoline alkaloids By MICHAEL F. GRUNDON, DAVID M. HARRISON, and (MRS.) CAROLINE G. SPYROPOULOS	302
<i>N</i> -Quaternary compounds. Part XL. Synthesis of 1a,6a-dihydroindeno[1,2- <i>b</i>]azirin-6(1 <i>H</i>)-ones and isomerisation to isoquinolinium derivatives By PER EGIL HANSEN and KJELL UNDHEIM	305
