SUBJECT INDEX, 1982

- A29
Partial synthesis of [17-¹³C; 15,17-³H]gibberellin A₂₉ from gibberellin A₃, 699-706
- A5
1β-Hydroxygibberellin A₅. Preparation and comparison with gibberellin A₃, 707-11
- A60
Gibberellins A₆₀, A₆₁, and A₆₂: partial syntheses and natural occurrence, 689-97
- A61
Gibberellins A₆₀, A₆₁, and A₆₂: partial syntheses and natural occurrence, 689-97
- A62
Gibberellins A₆₀, A₆₁, and A₆₂: partial syntheses and natural occurrence, 689-97
- ABSTRACTION
Photochemical reactions of N,N-dialkyl-α-thioxoamides, 247-8
Alkyl nitrenes from N-alkylbenzoquinone imine N-oxides, 2027-34
- ACACIA
Synthesis of condensed tannins. Part 6. The sequence of units, coupling positions, and absolute configuration of the first linear [4,6:4,6]triflavanoid with terminal 3,4-diol function, 535-40
- ACER
The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 1. Introduction. Naturally occurring galloyl esters, 2515-24
- ACETAL
Metal-assisted cycloadditions. Part 3. Reactions of dicarbonyl(η⁵-cyclopentadienyl)η¹-2-methoxyallyliron with electron-deficient olefins and acetylenes, 301-6
Regiospecificity in reactions of metal phenoxides. Synthesis of 2,2'-alkylidenebisphenols, 805-8
Ketene silyl acetal chemistry; simple synthesis of methyl jasmonate and related compounds by utilising ketene methyl dimethyl-tert-butylsilyl acetal, 1099-104
1,2-Disubstituted ethanes as possible precursors for the synthesis of Cannabis spirans, 1485-91
Esters of α-arylalkanoic acids from 'masked' α-haloalkyl aryl ketones and silver salts: synthetic, kinetic, and mechanistic aspects, 2575-81
Photochemistry of halogenated benzene derivatives. Part 2. Photoreactions of α-substituted p-chlorotoluenes, 2957-61
- ACETALIZATION
Intramolecular acetalization of naphthoquinones, 1933-6
- ACETAMIDATION
Synthesis of the four stereoisomers of 4-aminoadamantane-2-carboxylic acid, rigid analogs of γ-aminobutyric acid, 73-7
- ACETAMIDE
Novel reagent system for converting a hydroxy group into an iodo group in carbohydrates with inversion of configuration. Part 3, 681-3
Formation of N-substituted trichloroacetamides from amines and hexachloroacetone, 945-8
- ACETAMIDO
Synthesis of the two epimeric 5'-methylcytidines, their 5'-phosphates and [5-³H]-5'-pyrophosphates, and the two 5'-methyldeoxycytidines. A novel cystosine anhydronucleoside with two oxygen bridges between the base and the sugar, 385-93
Synthesis of dihydrobenzofurans from phenolic Mannich bases and their quaternized derivatives, 841-8
The reactions of estrogens with benzeneseleninic anhydride and hexamethyldisilazane, 1915-18
- ACETAMIDOBENZOFURAN
Synthesis of dihydrobenzofurans from phenolic Mannich bases and their quaternized derivatives, 841-8
- ACETAMIDODIANHYDROTALOFURANOSYLPYRIMIDINE
Synthesis of the two epimeric 5'-methylcytidines, their 5'-phosphates and [5-³H]-5'-pyrophosphates, and the two 5'-methyldeoxycytidines. A novel cystosine anhydronucleoside with two oxygen bridges between the base and the sugar, 385-93
- ACETAMIDODEOXYIODOGLUCOPYRANOSIDE
Novel reagent system for converting a hydroxy group into an iodo group in carbohydrates with inversion of configuration. Part 3, 681-3
- ACETAMIDOESTRATRIENE
The reactions of estrogens with benzeneseleninic anhydride and hexamethyldisilazane, 1915-18
- ACETAMIDOESTRONE
The reactions of estrogens with benzeneseleninic anhydride and hexamethyldisilazane, 1915-18
- ACETAMIDOTHIAZOLE
Tautomerism in 2-trichloro- and 2-trifluoroacetamidothiazoles, 939-43
- ACETATE
Reactions of 1-methyl-4-tert-butylcyclohexene and 1-methylcyclohexene with thallium(I) acetate-iodine, 413-19
Reactions of mercury(II) acetate with nitrogen compounds. Part 9. Oxidations of the bis(4-nitrophenylhydrazone)s of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553-5
Steroidal N-nitroamines. Part 1. Denitroamination of steroidal 4β-, 6β-, 7α-, and 7β-nitroamines, 923-9
Cobaloximes. Part 3. A cobaloxime synthesis for use with reactive alkyl halides, 1025-8
Photolysis and thermolysis of phenyl azide in acetic acid. Trapping of 1-azacyclohepta-1,2,4,6-tetraene and nucleophilic aromatic substitution, 1269-73
Synthesis of 25ξ,26-dihydroxyvitamin D₂, 2111-16
Electroorganic reactions. Part 20. Electrogenated bases, ylide formation, and Wittig alkene synthesis, 2921-6
- ACETONE
Studies on S_{RN}1 reactions. Part 6. Synthesis of 3-methyl derivatives of the alkaloids thalacetamine, doryanine, and 6,7-dimethoxy-N-methyl-1(2H)-isoquinoline, 1149-52
- ACETONITRILE
Reactions of norcarane and of norborn-2-ene with iodine(I) azide and iodine(I) chloride, 961-5
The synthesis and reactions of 4H-tetrazolo[5,1-c][1,4]benzothiazines, 1879-84
- ACETOPHENONE
Conversion of aromatic ketones into π-arylalkanoic acids.
Oxidation by thallium(III) and by halogens, 235-42
Synthesis of the alkaloids, 3',4'-dimethoxy-2-(2-piperidyl)acetophenone, julandine, and cryptopleurine, 2487-90
- ACETOXY
Selective aromatization of ring B in 19-norsteroids and synthesis of equilenin-type compounds, 1-7
Reaction of 1-substituted indenenes with diborane or N-bromoacetamide in protic solvents. The effect of the substituent on the stereochemistry of addition, 79-83
Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ξ)-fluoro-25-hydroxyvitamin D₃, 85-91
A mild and efficient degradation of ring A of steroids, 513-16
Addition reactions of benzo[b]thiophene. Part 4. Reactions of some acetoxy- and hydroxybenzo[b]thiophenes with benzene or toluene, 815-21
Pyrazine chemistry. Part 13. Preparation and reactions of pyrazine N-oxides related to mycelianamide, 953-9
Electrophilic fluorination of some steroidal α,β-unsaturated ketones 1105-10
A convenient solvent-specific synthesis of 4-[4-acetoxy-3-(3-methylbut-2-enyl)phenyl]butyric acid, 1601-3
Dehydrogenation of lactones using benzeneseleninic anhydride. X-ray crystal structure of 3β-acetoxy-14α-hydroxy-17a-oxa-D-homo-5α-androst-15-en-17-one, 1919-22
Photoinduced transformations. Part 63. Photorearrangement of 17β-acetoxy-4,4-dimethylestr-5-en-3β-yl nitrite with monochromatic light, 1963-6
Polycyclic analogs of trans-decalones. Part 5. Synthesis, optical resolution, and circular dichroism of trans-transoid-trans-perhydrophenanthren-3-one and trans-transoid-trans-perhydrophenanthren-9-one, 2117-22
Synthesis of polyoxygenated trans-decalins as potential insect antifeedants, 2157-62
Anthracyclines. Part 2. Investigations relating to the synthesis of 4-

- ACETOXY(contd)**
demethoxyanthracyclinones, 2239-48
- ACETOXYBENZOCYCLOBUTENE**
Anthracyclinones. Part 2. Investigations relating to the synthesis of 4-demethoxyanthracyclinones, 2239-48
- ACETOXYBENZOTHIOPHENE**
Addition reactions of benzo[b]thiophene. Part 4. Reactions of some acetoxy- and hydroxybenzo[b]thiophenes with benzene or toluene, 815-21
- ACETOXYBENZYL**
Pyrazine chemistry. Part 13. Preparation and reactions of pyrazine N-oxides related to mycelianamide, 953-9
- ACETOXYBENZYLIDENE**
Pyrazine chemistry. Part 13. Preparation and reactions of pyrazine N-oxides related to mycelianamide, 953-9
- ACETOXYDIMETHYLESTRENYL**
Photoinduced transformations. Part 63. Photorearrangement of 17 β -acetoxy-4,4-dimethylestr-5-en-3 β -yl nitrite with monochromatic light, 1963-6
- ACETOXYDIMETHYLOXOSECOESTRENAL**
Photoinduced transformations. Part 63. Photorearrangement of 17 β -acetoxy-4,4-dimethylestr-5-en-3 β -yl nitrite with monochromatic light, 1963-6
- ACETOXYDINORCHOLESTADIENE**
Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ξ)-fluoro-25-hydroxyvitamin D³, 85-91
- ACETOXYEQUILENIN**
Selective aromatization of ring B in 19-norsteroids and synthesis of equilenin-type compounds, 1-7
- ACETOXYETHYLENEDIOXYSECODINORANDROSTANAL**
A mild and efficient degradation of ring A of steroids, 513-16
- ACETOXYHYDROXYOXAHOMOANDROSTENONE**
Dehydrogenation of lactones using benzeneseleninic anhydride. X-ray crystal structure of 3 β -acetoxy-14 α -hydroxy-17 α -oxa-D-homo-5 α -androst-15-en-17-one, 1919-22
- ACETOXYINDAN**
Reaction of 1-substituted indenenes with diborane or N-bromoacetamide in protic solvents. The effect of the substituent on the stereochemistry of addition, 79-83
- ACETOXYLATION**
Reactions of mercury(II) acetate with nitrogen compounds. Part 9. Oxidations of the bis(4-nitrophenylhydrazones) of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553-5
- ACETOXYMETHYL**
Synthesis of polyoxygenated trans-decalins as potential insect antifeedants, 2157-62
- ACETOXYMETHYLBICYCLODECANESPIROOXIRAN-E**
Synthesis of polyoxygenated trans-decalins as potential insect antifeedants, 2157-62
- ACETOXYMETHYLBUTENYLPHENYLBUTYRATE**
A convenient solvent-specific synthesis of 4-[4-acetoxy-3-(3-methylbut-2-enyl)phenyl]butyric acid, 1601-3
- ACETOXYMETHYLENEBUTENOATE**
Necic acid synthons. Part 1. Total synthesis of integerrineic acid, 2079-83
- ACETOXYNITROPHENYLAZODIMETHYLPENTANO-NE**
Reactions of mercury(II) acetate with nitrogen compounds. Part 9. Oxidations of the bis(4-nitrophenylhydrazones) of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553-5
- ACETOXYPREGNENONE**
18-Substituted steroids. Part 10. Synthesis of 16 α ,18,21-trihydroxypregn-4-ene-3,20-dione (16 α ,18-dihydroxy-11-deoxycorticosterone), 723-8
- ACETOXYSECOANDROSTYNONE**
A mild and efficient degradation of ring A of steroids, 513-16
- ACETYL**
Unusual Michael reaction of acyclic 1,3-dicarbonyl compounds with nitroolefins. A novel pyrrole synthesis, 441-7
Reactions of mercury(II) acetate with nitrogen compounds. Part 9. Oxidations of the bis(4-nitrophenylhydrazones) of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553-5
Studies in metal-ammonia reduction. Part 3. Reduction and reductive methylation of some acyl-naphthalenes with metal-ammonia solutions, 875-80
Reactions of 3-acetylpropolone methyl ethers with guanidine and amidines, 1037-9
4-(1,2,4-Triazol-1-yl)- and 4-(3-nitro-1,2,4-triazol-1-yl)-1-(β -D-2,3,5-tri-O-acetyl-arabinofuranosyl)pyrimidin-2(1H)-ones. Valuable intermediates in the synthesis of derivatives of 1-(β -D-arabinofuranosyl)cytosine (ara-C), 1171-6
- ACETYLATION**
Ketol formation by peracid oxidation of a tricyclic styrene, 657-64
Pyrazine chemistry. Part 13. Preparation and reactions of pyrazine N-oxides related to mycelianamide, 953-9
The reactions of estrogens with benzeneseleninic anhydride and hexamethyldisilazane, 1915-18
Thiadiazoles and thiadiazolines. Part 4. Acetylation, hydrolysis, and cyclocondensations of Δ^2 -1,3,4-thiadiazoline- α -carboxamides, 1993-8
- ACETYLCOPPER**
Phosphonation of aryl halides by copper(I) complexes of trialkyl phosphites, 1143-8
- ACETYLCYANOETHYL**
Chemistry of 6H-pyrido[4,3-b]carbazoles. Part 9. An efficient route to 3-[1-(3-ethylpyridyl)]indoles and the synthesis of some new ellipticines, 587-90
- ACETYLCYANOETHYLPYRIDYLINDOLE**
Chemistry of 6H-pyrido[4,3-b]carbazoles. Part 9. An efficient route to 3-[1-(3-ethylpyridyl)]indoles and the synthesis of some new ellipticines, 587-90
- ACETYLENE**
Studies of heterocyclic chemistry. Part 25. Intramolecular cyclizations of N-acylarylethanethioamides leading to thiazoles, 4H-1,3-thiazines, 4H-pyrido[3,2-e]-1,3-thiazines, and 4H-1,3-benzothiazines, 1239-44
- ACETYLENEDICARBOXYLATE**
Dinitrones from C-benzyl nitrones, 1395-8
- ACETYLETHENE**
Cannabis. Part 25. Synthesis of cannabispirenone-B and its 5,7-difluoro analog, 2403-5
- ACETYLMETHOXYTROPONE**
Reactions of 3-acetylpropolone methyl ethers with guanidine and amidines, 1037-9
- ACETYLMETHYLPHENYLFURYLHYDROXYLAMINE**
Unusual Michael reaction of acyclic 1,3-dicarbonyl compounds with nitroolefins. A novel pyrrole synthesis, 441-7
- ACETYLNAPHTHALENE**
Studies in metal-ammonia reduction. Part 3. Reduction and reductive methylation of some acyl-naphthalenes with metal-ammonia solutions, 875-80
- ACETYLPYRIDINE**
Preparation and reactions of pyrylium salts containing α -pyridyl groups, 125-30
- ACETYLPYRROLE**
Unusual Michael reaction of acyclic 1,3-dicarbonyl compounds with nitroolefins. A novel pyrrole synthesis, 441-7
- ACETYLTHIADIAZOLINECARBOXAMIDE**
Thiadiazoles and thiadiazolines. Part 4. Acetylation, hydrolysis, and cyclocondensations of Δ^2 -1,3,4-thiadiazoline- α -carboxamides, 1993-8
- ACID**
Studies related to penicillins. Part 21. β -Elimination reactions of S,S-dioxides of penicillanic esters, 595-602
Regioselective ether cleavages of rotenoids: spiro-ether formation and stereoselective isotopic labeling of (E)- or (Z)-prenyl methyl groups in (6aS, 12aS)-rot-2'-enonic acid, 779-88
Synthesis of ribosyl and arabinosyl cyanides by reaction of 1-O-acyl sugars with trimethylsilyl cyanide, 903-7
Synthetic enzymes. Part 2. Catalytic asymmetric epoxidation by means of polyamino acids in a triphase system, 1317-24
The structure of four novel C₃₁-secodamarane-type triterpenoid saponins from the female flowers of *Alnus serrulata*, 1399-403
Polyolefinic 18-methyl-19-oxoicosenoic acid pigments from the fungus *Piptoporus australiensis* (Wakefield) Cunningham, 1449-53
Synthesis of β -amino acid peptides. Part 3. Preparation of racemic and chiral 3-aminobutyric acid derivatives and peptides using dihydrooxazin-6-ones and conventional coupling reagents, 1587-92
The reaction of Meldrum's acid with α -dicarbonyl monohydrazones: a new synthesis of pyridazin-3-ones, 1845-53
Necic acid synthons. Part 1. Total synthesis of integerrineic acid, 2079-83

- ACID(contd)**
Stereochemical transformations of 5'-amino-5'-deoxyuridine and its 5,6-dihydro analog. 5'-N-aminoacyl derivatives of 5'-amino-5'-deoxy-5,6-dihydrouridine, 2091-7
Active and passive transport of amino acid and oligopeptide derivatives by artificial ionophore-potassium ion complexes, 2359-63
The chemistry of pseudomonic acid. Part 5. Structure and chemistry of pseudomonic acid C. X-ray crystal structure of ethyl monate C 2827-33
- ACOLANONE**
Synthetic studies on terpenoids. Part 7. Synthetic studies leading to the total synthesis of eudesmane sesquiterpenes, 2547-51
- ACRYLATE**
Synthesis of 1H-1-benzazepines by thermolysis of 2a,7b-dihydro-3H-cyclobut[b]indoles, 741-8
Tetrahydroisoxazolo[2,3-d][1,4]benzodiazepinone ring system: synthesis, stereochemistry, and conformation, 2701-5
- ACTIVE**
Asymmetric induction in the reduction of optically active N-alkylidenesulfonamides by metal hydrides. A new, efficient enantioselective route to chiral amines, 339-43
- ACTIVITY**
The chemistry of pseudomonic acid. Part 4. α,β -Unsaturated ketones derived from monic acid A and its derivatives, 729-34
Amino-acids and peptides. Part 46. Synthesis of bradykinin analogs modified in the vicinity of the carboxy-group, 1229-37
- ACYCLIC**
Unusual Michael reaction of acyclic 1,3-dicarbonyl compounds with nitroolefins. A novel pyrrole synthesis, 441-7
- ACYL**
Synthesis of ribosyl and arabinosyl cyanides by reaction of 1-O-acyl sugars with trimethylsilyl cyanide, 903-7
Conformational behavior of medium-sized rings. Part 13. 5,18-Dihydro- and 5,11,12,18-tetrahydrotribenzo[b,f,j][1,4]diazacyclododecane-6,17-diones, 1715-20
1,3,4-Oxadiazol-2(3H)-one formation from N-acylaminobiurets and related compounds and from S-benzyl 3-acyl(thiocarbazate-s), 2019-21
- ACYLALKYLTHIOCARBAMATE**
1,3-Acyl migration in carbonic acid derivatives. Synthesis of S-polyhaloalkyl N-acyl-N-aryl(alkyl)thiocarbamates, 2813-17
- ACYLAMINO**
Ring transformation of 3-(2-aminoaryl)-1,2,4-oxadiazoles into 3-acylaminoindazoles; extension of the Boulton-Katritzky scheme, 759-66
1,3,4-Oxadiazol-2(3H)-one formation from N-acylaminobiurets and related compounds and from S-benzyl 3-acyl(thiocarbazate-s), 2019-21
- ACYLAMINOARYLTHIOXOETHYLIDENEDITHIOLE-DICARBOXYLATE**
Studies on heterocyclic chemistry. Part 26. The ring transformation of 3-acylthio-4-aryl-3-isothiazoline-5-thiones to benzo[b]- and naphtho[2,1-b]-thiophenes with an acylimino group at C-2 via the 2-arylethanethioamide derivatives, 2867-70
- ACYLAMINOBIURET**
1,3,4-Oxadiazol-2(3H)-one formation from N-acylaminobiurets and related compounds and from S-benzyl 3-acyl(thiocarbazate-s), 2019-21
- ACYLARYLTHIOCARBAMATE**
1,3-Acyl migration in carbonic acid derivatives. Synthesis of S-polyhaloalkyl N-acyl-N-aryl(alkyl)thiocarbamates, 2813-17
- ACYLATION**
Metalation studies with pyrimidines, 153-8
Depsidone synthesis. Part 21. A new synthesis of grisa-2',5'-diene-3,4'-diones, 403-11
Reactions of forskolin, a biologically active diterpenoid from *Coleus forskohlii*, 767-71
Triazines and related products. Part 24. Synthesis of pyrazol-4-ylidenehydrazinoimidazoles by hydrazinolysis of imidazo[5,1-c][1,2,4]triazines and 2-arylaazoimidazoles by diazonium coupling reactions, 1811-19
Structure and reactivity of enamines derived from 5,6-dihydro-2H-thiapyran-3(4H)-one 1,1-dioxide, 2045-50
Selectivity in the trimethylsilylation and acylation of peptide bonds, and its application to modification of the enkephalins, 2939-47
- ACYLCARBAZATE**
1,3,4-Oxadiazol-2(3H)-one formation from N-acylaminobiurets and related compounds and from S-benzyl 3-acyl(thiocarbazate-s), 2019-21
- ACYLCYCLOBUTINDOLE**
Synthesis of 1H-1-benzazepines by thermolysis of 2a,7b-dihydro-3H-cyclobut[b]indoles, 741-8
- ACYLIMINO**
Studies on heterocyclic chemistry. Part 26. The ring transformation of 3-acylthio-4-aryl-3-isothiazoline-5-thiones to benzo[b]- and naphtho[2,1-b]-thiophenes with an acylimino group at C-2 via the 2-arylethanethioamide derivatives, 2867-70
- ACYLIMINOBENZOTHIOPHENE**
Studies on heterocyclic chemistry. Part 26. The ring transformation of 3-acylthio-4-aryl-3-isothiazoline-5-thiones to benzo[b]- and naphtho[2,1-b]-thiophenes with an acylimino group at C-2 via the 2-arylethanethioamide derivatives, 2867-70
- ACYLIMINONAPHTHOTHIOPHENE**
Studies on heterocyclic chemistry. Part 26. The ring transformation of 3-acylthio-4-aryl-3-isothiazoline-5-thiones to benzo[b]- and naphtho[2,1-b]-thiophenes with an acylimino group at C-2 via the 2-arylethanethioamide derivatives, 2867-70
- ACYLOIN**
The acyloin condensation of the diterpenoid fujenal, 611-14
- ACYLOXY**
Analogues of antijuvenile hormones, 2013-18
- ACYLOXYDIMETHYLCHROMEN**
Analogues of antijuvenile hormones, 2013-18
- ACYLSEMICARBAZIDE**
1,3,4-Oxadiazol-2(3H)-one formation from N-acylaminobiurets and related compounds and from S-benzyl 3-acyl(thiocarbazate-s), 2019-21
- ACYLTHIAPYRANONE**
Structure and reactivity of enamines derived from 5,6-dihydro-2H-thiapyran-3(4H)-one 1,1-dioxide, 2045-50
- ADAMANTANECARBOXYLATE**
Synthesis of the four stereoisomers of 4-aminoadamantane-2-carboxylic acid, rigid analogs of γ -aminobutyric acid, 73-7
- ADDITIVE**
Formose reactions. Part 3. Selective formose reaction catalyzed by organic bases, 1975-9
- ADDN**
Reaction of 1-substituted indenenes with diborane or N-bromoacetamide in protic solvents. The effect of the substituent on the stereochemistry of addition, 79-83
Heterocycle stabilized carbanions. Two series of anomalous products from 1-alkyl-4,6-diphenyl-2-pyridones, 143-51
Arylazoglycosides. Part 7. Syntheses of amino sugars from methyl arylazohexenopyranosides, 205-14
Metal-assisted cycloadditions. Part 3. Reactions of dicarbonyl(η^5 -cyclopentadienyl) η^1 -2-methoxyallyliron with electron-deficient olefins and acetylenes, 301-6
Iodoazide adducts of exocyclic alkenes; structure and solvolysis, 315-25
Reactions of iodine(I) azide with $\alpha\beta$ -unsaturated carbonyl compounds, 327-33
Unusual Michael reaction of acyclic 1,3-dicarbonyl compounds with nitroolefins. A novel pyrrole synthesis, 441-7
Addition reactions of benzo[b]thiophene. Part 3. Addition and ring-opening reactions with phenolic ethers, 615-21
The chemistry of organoborates. Part 8. Unique Michael reactions of lithium trialkylalkynylborates, 719-22
Addition reactions of benzo[b]thiophene. Part 4. Reactions of some acetoxy- and hydroxybenzo[b]thiophenes with benzene or toluene, 815-21
Nitroxide chemistry. Part 20. N,N-Bis(trifluoromethyl)hydroxylamine as a carbocation trapping agent, 835-9
Reactions of norcarane and of norborn-2-ene with iodine(I) azide and iodine(I) chloride, 961-5
Triazolopyridines. Part 2. Preparation of 7-substituted triazolopyridines by directed lithiation, 967-71
Electrophilic fluorination of some steroidal α,β -unsaturated ketones 1105-10
Organocuprate conjugate addition reactions of 2,3-dihydrothiin-4-one, its oxide and dioxide, 1177-82
Ketenimine chemistry. Part 1. The reaction of triaryl ketenimines with arenesulfenyl chlorides, 1255-6
The meso-reactivity of porphyrins and related compounds. Part VIII. Substitution and addition reactions of octaethyl-21H,24H-bilin-1,19-dione, a model verdin system. X-ray analyses of octaethyl-5-nitro-21H,24H-bilin-1,19-dione and of 4,5-diethoxyoctaethyl-4,5-dihydro-21H,24H-bilin-1,19-dione,

ADDN(contd)

- 1291-302
The chemistry of some bicyclic pyridinium anhydrobases, 1349-53
Addition reactions of aminium radicals: synthetic studies of oxidative photoaddition of *N*-nitrodimethylamine, 1405-17
Addition reactions of aminium radicals: oxidative and nonoxidative photoaddition of nitrosoamines to nonconjugated polyenes, 1419-28
The chemistry of 4-mercaptoazetidin-2-ones. Part 3. Synthesis of 6-phenoxacetamido-2-alkylidenepenam-3-carboxylic acids, 1429-33
The chemistry of 4-mercaptoazetidin-2-ones. Part 4. Synthesis of cyclopropanespiro-2-bisnorpenicillanic acids, 1435-9
Synthesis of novel β -lactamase inhibitors from clavulanic acid. Preparation and chemical reactions of (5*R*)-3-vinyl-4-oxa-1-azabicyclo[3.2.0]hept-2-en-7-one, 1509-17
Organoiron complexes in organic synthesis. Part 21. Methods for controlling the regioselectivity of nucleophile addition to tricarbonyl(cyclohexadienyl)iron complexes, 1527-34
Fluorocarbon derivatives of nitrogen. Part 8. Reactions between heteroaromatic *N*-imines (*N*-iminopyridinium and *N*-iminoquinolinium ylide) and perfluoropropene, 2*H*-pentafluoropropene, perfluorobut-2-ene, perfluoro(2-methylpent-2-ene), perfluorobut-2-yne, and perfluoropyridine: synthesis of fluorinated 3-azaindolizines (pyrazolo[1,5-*a*]pyridines), 1593-600
Regiospecific annulations of substituted tropones with ethane-1,2-dithiol, 1865-9
Azonia-azulenes. Part 6. Photochemical addition of alcohols to 10*H*-azepino[1,2-*a*]indoles, 1871-8
Products from dimethyl hex-2-en-1-yne-1,6-dioate and dimethyl penta-2,3-diene-1,5-dioate with compounds possessing two adjacent nucleophilic centers, 1905-14
Synthetic approaches to 11-deoxyhomoprostacyclin analogs, 1923-32
Structure and reactivity of enamines derived from 5,6-dihydro-2*H*-thiapyran-3(4*H*)-one 1,1-dioxide, 2045-50
Control of regioselectivity in the addition of sulfonyl chlorides to 3,3-dimethylbutyne (tert-butylacetylene) as a method for differential functionalization of triple bonds, 2197-201
Polyhalo allenes and acetylenes. Part 14. The reactions of perfluoro-1,2-dienes with dichloro- and difluorocarbene, and a new route to 1,1-dichloroperfluoro-1,2-dienes, 2203-6
Fluoro olefin chemistry. Part 14. Preparation and photochemical rearrangement of some acyclic perfluoroalkyl and polyfluoroalkyl olefins, 2211-17
A novel synthesis of the 2-benzylisoquinoline alkaloids sendaverine and corgoine with aziridinium salts as reactive intermediates, 2399-401
2,4-Dinitrobenzenesulfonylnitrene: addition to (*Z*)- and (*E*)-1-phenylpropene, 2491-7
Novel synthesis of pyrazolo[5,1-*c*]-1,2,4-triazoles, imidazo[1,2-*b*]pyrazoles, and [1,2,4]-triazolo[4,3-*a*]benzimidazoles. Reaction of nitrile imines with amino- and oxo-substituted diazoles, 2663-6
1,2,3-Triazoles produced from 5-substituted *N*-methoxytriazolium salts, 2749-56

ADDUCT

- The chemistry of some bicyclic pyridinium anhydrobases, 1349-53
The chemistry of 4-mercaptoazetidin-2-ones. Part 3. Synthesis of 6-phenoxacetamido-2-alkylidenepenam-3-carboxylic acids, 1429-33
The chemistry of 4-mercaptoazetidin-2-ones. Part 4. Synthesis of cyclopropanespiro-2-bisnorpenicillanic acids, 1435-9
Synthesis of novel β -lactamase inhibitors from clavulanic acid. Preparation and chemical reactions of (5*R*)-3-vinyl-4-oxa-1-azabicyclo[3.2.0]hept-2-en-7-one, 1509-17
Formation of isocyanates by deoxygenation of *C*-nitrosocarbonyl compounds, 1571-4

ADENOSINE

- The base-sugar conformation of certain derivatives of adenosine, 1197-1204

ADRIAMYCIN

- Anthracyclines. Part 1. The synthesis of racemic daunomycinone and some related tetrahydronaphthacenequinones, 2227-38

AGENT

- Oxidation of benzylic hydrocarbons with benzeneseleninic anhydride and related reactions, 2179-85

AGLYCONE

- Neoraufuracin and ambofuracin. Two novel 2-benzyl-2-*O*-(methyl- β -*D*-glucopyranos-2-yl)-trans-2,3-dihydrobenzofuran-5. Synthesis of the methylated aglycone, 1157-62
Anthracyclines. Part 1. The synthesis of racemic daunomycinone and some related tetrahydronaphthacenequinones, 2227-38

ALC

- Versatile synthesis of sulfamate esters by phase-transfer methods, 677-9
Nitroxide chemistry. Part 20. *N,N*-Bis(trifluoromethyl)hydroxylamine as a carbocation trapping agent, 835-9
Triazolopyridines. Part 2. Preparation of 7-substituted triazolo[1,5-*a*]pyridines by directed lithiation, 967-71
Electrophilic aromatic substitution of catechins: bromination and benzylation, 973-8
Addition reactions of aminium radicals: synthetic studies of oxidative photoaddition of *N*-nitrodimethylamine, 1405-17
Azonia-azulenes. Part 6. Photochemical addition of alcohols to 10*H*-azepino[1,2-*a*]indoles, 1871-8
New oxidative systems for alcohols: molecular sieves with chromium(VI) reagents, 1967-73
Stereochemistry of olefin and fatty acid oxidation. Part 1. Autoxidation of hexene and hepta-2,5-diene isomers, 2707-13
Stereochemistry of olefin and fatty acid oxidation. Part 2. Photosensitized oxidation of hexene and hepta-2,5-diene isomers 2715-17
Preparation of 6 α -monosubstituted and 6,6-disubstituted penicillanates from 6-diazopenicillanates: reactions of 6-diazopenicillanates with alcohols, thiols, phenylseleninyl compounds, and allylic sulfides, and their analogs, 2757-66
Chemical synthesis and optical purity determination of optically active 1,2-epoxyindan and alcohol products which are also derived from mammalian or microbial metabolism of indene or indanones, 2767-70
Quinones. Part 2. General synthetic routes to quinone derivatives with modified polyprenyl side chains and the inhibitory effects of these quinones on the generation of the slow reacting substance of anaphylaxis (SRS-A), 2909-20

ALDEHYDE

- Total syntheses of wyerone and dihydrowyerone, phytoalexins from the broad bean, *Vicia faba* L., using the dianion derived from 3-(2-furyl)acrylic acid, 623-6
Regiospecificity in reactions of metal phenoxides. Synthesis of 2,2'-alkylidenebisphenols, 805-8
Triazolopyridines. Part 2. Preparation of 7-substituted triazolo[1,5-*a*]pyridines by directed lithiation, 967-71
Synthesis of 25 ξ ,26-dihydroxyvitamin D₂, 2111-16
Oxidation of benzylic hydrocarbons with benzeneseleninic anhydride and related reactions, 2179-85
Enamines in the synthesis of 2-(substituted amino)-3,3-dialkylchromanones, 2771-5
Intramolecular reactions of pyridinium-2-carbonyl azides: conversion of amines into aldehydes, 2953-6

ALDER

- Preparation and reactions of pyridones: steric and electronic effects on cycloadditions with 2(1*H*)-pyridones, 169-73
Heterocyclic polyfluoro-compounds. Part 37. Diels-Alder reactions of trichloro- and trifluoro-1,2,4-triazine, 1245-9
Synthesis of novel β -lactamase inhibitors from clavulanic acid. Preparation and chemical reactions of (5*R*)-3-vinyl-4-oxa-1-azabicyclo[3.2.0]hept-2-en-7-one, 1509-17
Heterocyclic polyfluoro compounds. Part 41. Photochemical isomerization of 1-substituted hexafluoro-1*H*-azepines: hexafluoro-2-azabicyclo[3.2.0]hepta-3,6-dienes and their reactions, 2105-9
Polyhalo allenes and acetylenes. Part 14. The reactions of perfluoro-1,2-dienes with dichloro- and difluorocarbene, and a new route to 1,1-dichloroperfluoro-1,2-dienes, 2203-6

ALDOL

- Syntheses and properties of trimethyltetrahydro[19]annulenones and the benzannulated derivatives, 31-42
Syntheses and properties of a trimethyltetrahydro[21]annulenone and its benzannulated derivatives, 43-50
Syntheses and properties of a trimethyltetrahydro[23]annulenone and a trimethyltetrahydro[25]annulenone, 51-8
Total synthesis of (\pm)-picropodophyllone, 271-6
Halogenated enolates. Synthesis of 2-deoxyentolone derivatives from *D*-glyceraldehyde, 2063-6

ALDOSE

Oxidation of aldose oximes. Formation and structure of hydroxydiazene oxidase acetals and preparation of hydroximolactones. X-ray crystal structure of 2,3:5,6-di-O-isopropylidene- α -D-mannofuranosyl-O,N,N-azoxy 2,3:5,6-di-O-isopropylidene- α -D-mannofuranoside, 2139-47

ALGORITHM

An algorithm for finding the intersection of molecular structures, 631-7

ALIPH

Formation of N-substituted trichloroacetamides from amines and hexachloroacetone, 945-8

ALK

N-Bridged heterocycles. Part 5. α,ω -Bis(2-oxobenzimidazolyl)alkanes and -ethers as selective ligands for Group IA and IIA metals, 261-70

Organometallic compounds in organic synthesis. Part 14. Tricarbonyliron as lateral control group in the selective alkaline hydrolysis of some cyclohexa-1,3-diene carboxylic esters, 1763-9

ALKALOID

Synthesis of gambirtannine derivatives by photocyclization of enamine intermediates, 59-62

A stereospecific synthesis of (+)-muscarine, 809-13

Isolation and identification of three new phenolic fuoroquinoline alkaloids from *Teclea verdoorniana* Excell and Mendonca (Rutaceae), 909-15

Pyrrolizidine alkaloid analogs. Synthesis of eleven-membered macrocyclic diesters of retronecine, 1117-21

Biosynthesis of aristolochic acid, 1153-5

Alkaloids of the Annonaceae. Part 33. Annomontine and methoxyannomontine, two new pyrimidine- β -carboline-type alkaloids from *Annona montana*, 1205-8

Gardneria alkaloids. Part 13. Structure of gardmultine and demethoxygardmultine; bis-type indole alkaloids of *Gardneria multiflora* Makino, 1263-7

X-ray structure determination of gardmultine. A bis-indole alkaloid isolated from *Gardneria multiflora* Makino, 1263-7

The biosynthesis of the β -carboline alkaloids, harman and eleagnine, 1523-5

Experiments towards the synthesis of the ergot alkaloids and related structures. Part 4. Lysergic acid - an attempted 'endo-amide' approach, 1897-903

Nuclear magnetic resonance and x-ray stereochemical studies on 1-benzyltetrahydroisoquinolinium salts, 2067-77

Necic acid synthons. Part 1. Total synthesis of integerrine acid, 2079-83

A novel synthesis of the 2-benzylisoquinoline alkaloids sendaverine and corgoine with aziridinium salts as reactive intermediates, 2399-401

Organoiron complexes in organic synthesis. Part 22. Total synthesis of (\pm)-limaspermine and formal synthesis of (\pm)-aspidospermine using organoiron complexes, 2467-76

Phenanthroindolizidine and related alkaloids: synthesis of tylophorine, septicine, and deoxytylophorine, 2477-85

Chemical studies on the annonaceae. Part 9. Indolosesquiterpene and aporphine alkaloids from *Greenwayodendron* (*Polyalthia*) *suaveolens* stem bark. X-ray crystal structure of greenwayodendrin-3-one, 2807-12

Erythrina alkaloids. Part 6. Isolation and characterization of alkaloids from *Erythrina berteriana* seeds and leaves: formation of oxoerythroidines, 2903-7

A facile total synthesis of (\pm)-cherylline via an aziridinium intermediate, 2935-7

ALKANE

N-Bridged heterocycles. Part 5. α,ω -Bis(2-oxobenzimidazolyl)alkanes and -ethers as selective ligands for Group IA and IIA metals, 261-70

Regiospecificity in reactions of metal phenoxides. Synthesis of 2,2'-alkylidenebisphenols, 805-8

One-pot conversions of amines into olefins via nonisolated pyridinium intermediates, 2347-52

ALKANOATE

Conversion of aromatic ketones into π -arylalkanoic acids.

Oxidation by thallium(III) and by halogens, 235-42

Synthetic and mechanistic aspects of gas-liquid phase-transfer catalysis: carboxylate esters, 993-7

ALKENAL

Regiospecificity in reactions of metal phenoxides. Synthesis of 2,2'-alkylidenebisphenols, 805-8

ALKENE

Metal-assisted cycloadditions. Part 1. Synthesis of substituted cyclopentane derivatives obtained from the reactions of (η^1 -allyl)dicarbonyl(η^5 -cyclopentadienyl)iron with electron-deficient olefins and acetylenes, 285-94

Metal-assisted cycloadditions. Part 2. Reactions of dicarbonyl(η^5 -cyclopentadienyl)(η^1 -3-methoxyallyl)iron with electron-deficient olefins and acetylenes, 295-300

Metal-assisted cycloadditions. Part 3. Reactions of dicarbonyl(η^5 -cyclopentadienyl)(η^1 -2-methoxyallyl)iron with electron-deficient olefins and acetylenes, 301-6

The chemistry of organoborates. Part 8. Unique Michael reactions of lithium trialkylalkynylborates, 719-22

1H-1,4-Benzothiazines. New cyclic sulfonium ylides, 831-4

Nitroxide chemistry. Part 20. N,N-Bis(trifluoromethyl)hydroxylamine as a carbocation trapping agent, 835-9

Syntheses and reactions of hydridorhodium(III) octaethylporphyrin and rhodium(II) octaethylporphyrin dimer, 983-7

A new procedure for olefin oxirane by peroxybenzimidic acid; synthesis of some carbohydrate-precursor oxiranes and other epoxides, 1009-11

Heterocyclic polyfluoro-compounds. Part 37. Diels-Alder reactions of trichloro- and trifluoro-1,2,4-triazine, 1245-9

Synthetic enzymes. Part 2. Catalytic asymmetric epoxidation by means of polyamino acids in a triphase system, 1317-24

Addition reactions of aminium radicals: synthetic studies of oxidative photoaddition of N-nitrodimethylamine, 1405-17

Addition reactions of aminium radicals: oxidative and nonoxidative photoaddition of nitrosoamines to nonconjugated polyenes, 1419-28

Cycloelimination of β -silylethyl sulfoxides: alkene, alkyne, and vinylsilane forming reactions, 1563-9

Fluorocarbon derivatives of nitrogen. Part 8. Reactions between heteroaromatic N-imines (N-iminopyridinium and N-iminoquinolinium ylide) and perfluoropropene, 2H-pentafluoropropene, perfluorobut-2-ene, perfluoro(2-methylpent-2-ene), perfluorobut-2-yne, and perfluoropyridine: synthesis of fluorinated 3-azaindolizines (pyrazolo[1,5-a]pyridines), 1593-600

Oxymetalation. Part 16. Modified procedures for reducing peroxymercurials: conversion of nonterminal alkenes into secondary alkyl tert-butyl peroxides, 1797-805

The reaction of copper(II) complexes of glycine imines with activated olefins, 1827-31

Cross-linked poly-(4-vinylpyridine-styrene)-bromine complexes as stereoselective brominating agents, 2059-62

Fluoro olefin chemistry. Part 14. Preparation and photochemical rearrangement of some acyclic perfluoroalkyl and polyfluoroalkyl olefins, 2211-17

Fluoro olefin chemistry. Part 15. Thermal reaction of hexafluoropropene with hydrocarbon olefins, 2219-26

One-pot conversions of amines into olefins via nonisolated pyridinium intermediates, 2347-52

Studies of heterocyclic analogs of azulenes. Part 9. Regioselective cycloadditions of 2H-cycloheptathiazol-2-one with acetylenic esters and electron-deficient olefins, 2881-3

Electroorganic reactions. Part 20. Electrogenerated bases, ylide formation, and Wittig alkene synthesis, 2921-6

ALKENONE

Ketene silyl acetal chemistry; simple synthesis of methyl jasmonate and related compounds by utilizing ketene methyl dimethyl-tert-butylsilyl acetal, 1099-104

ALKENOXYPHENYL

Thermal reaction of N-(1-azido-2-oxoalkylidene)-N'-(α -alkenyloxyphenyl)hydrazines; intramolecular 1,4-cycloaddition of 1,2,4-triazine-1,3-diene intermediates, 755-8

ALKENYL

Studies on intramolecular cycloaddition reactions of some isoquinolinium salts, 249-55

Stereochemistry of olefin and fatty acid oxidation. Part 1.

Autoxidation of hexene and hepta-2,5-diene isomers, 2707-13

Stereochemistry of olefin and fatty acid oxidation. Part 2.

Photosensitized oxidation of hexene and hepta-2,5-diene isomers 2715-17

ALKENYLATION

A convenient solvent-specific synthesis of 4-[4-acetoxy-3-(3-methylbut-2-enyl)phenyl]butyric acid, 1601-3

ALKENYLISOQUINOLINIUM

Studies on intramolecular cycloaddition reactions of some

- ALKENYLISOQUINOLINIUM**(contd)
isoquinolinium salts, 249–55
- ALKENYLOXY**
Thermal reaction of N-(1-azido-2-oxoalkylidene)-N'-(o-alkenyloxyphenyl)hydrazines; intramolecular 1,4-cycloaddition of 1,2,4-triaza-1,3-diene intermediates, 755–8
- ALKENYNAL**
Syntheses and properties of a trimethyltetrahydro[21]annulenone and its benzannulated derivatives, 43–50
Syntheses and properties of a trimethyltetrahydro[23]annulenone and a trimethyltetrahydro[25]annulenone, 51–8
- ALKENYNOL**
Syntheses and properties of trimethyltetrahydro[19]annulenones and the benzannulated derivatives, 31–42
- ALKENYNONE**
Syntheses and properties of trimethyltetrahydro[19]annulenones and the benzannulated derivatives, 31–42
Syntheses and properties of a trimethyltetrahydro[21]annulenone and its benzannulated derivatives, 43–50
Syntheses and properties of a trimethyltetrahydro[23]annulenone and a trimethyltetrahydro[25]annulenone, 51–8
- ALKOXY**
Analogues of antijuvenile hormones, 2013–18
Photolysis of N-alkoxybenzoquinone imine N-oxides, 2035–9
- ALKOXYAZEPINOINDOLE**
Azonia-azulenes. Part 6. Photochemical addition of alcohols to 10H-azepino[1,2-a]indoles, 1871–8
- ALKOXYBENZOQUINONE**
Photolysis of N-alkoxybenzoquinone imine N-oxides, 2035–9
- ALKOXYCARBONYL**
Metal-assisted cycloadditions. Part 1. Synthesis of substituted cyclopentane derivatives obtained from the reactions of (η -allyl)dicarbonyl(η^5 -cyclopentadienyl)iron with electron-deficient olefins and acetylenes, 285–94
Unusual Michael reaction of acyclic 1,3-dicarbonyl compounds with nitroolefins. A novel pyrrole synthesis, 441–7
Tricyclic products from the reaction between penicillin derived thiazolidineazetidionones and ethyl diazoacetate. X-ray structure of methyl 2-[(1R,3S,4R,5S,6S,8R)-3-benzyl-4,5-bismethoxycarbonyl-6-ethoxycarbonyl-9-oxo-7,10-diaza-2-thiatriacyclo[6.2.0.0.3-7]decan-10-yl]-3-methylbut-2-enoate, 2169–73
Reactions of 1-alkoxycarbonylpyridinium salts with nucleophiles: stereoelectronic restrictions on carbonyl activation of α -nucleophilic attack, 2365–8
- ALKOXYCARBONYLALKYLATION**
Cobaloximes. Part 2. A modified Schrauzer synthesis for base-sensitive cobaloximes, 1019–23
- ALKOXYCARBONYLCYCLOHEXADIENE**
Organometallic compounds in organic synthesis. Part 14. Tricarbonyliron as lateral control group in the selective alkaline hydrolysis of some cyclohexa-1,3-diene carboxylic esters, 1763–9
- ALKOXYCARBONYLCYCLOHEXADIENEIRON**
Organometallic compounds in organic synthesis. Part 14. Tricarbonyliron as lateral control group in the selective alkaline hydrolysis of some cyclohexa-1,3-diene carboxylic esters, 1763–9
- ALKOXYCARBONYLMETHYLPHENYLFURYLHYDROXYLAMINE**
Unusual Michael reaction of acyclic 1,3-dicarbonyl compounds with nitroolefins. A novel pyrrole synthesis, 441–7
- ALKOXYCARBONYLPROPYL**
Cobaloximes. Part 2. A modified Schrauzer synthesis for base-sensitive cobaloximes, 1019–23
- ALKOXYCARBONYLPROPYLPYRIDINECOBALOXIME**
Cobaloximes. Part 2. A modified Schrauzer synthesis for base-sensitive cobaloximes, 1019–23
- ALKOXYCARBONYLPYRIDINIUM**
Reactions of 1-alkoxycarbonylpyridinium salts with nucleophiles: stereoelectronic restrictions on carbonyl activation of α -nucleophilic attack, 2365–8
- ALKOXYCARBONYLPYRROLE**
Unusual Michael reaction of acyclic 1,3-dicarbonyl compounds with nitroolefins. A novel pyrrole synthesis, 441–7
- ALKOXYDIAMINOQUATERPHENYL**
Synthesis of substituted dibenzophospholes. Part 2. Syntheses of intermediate biphenyls and quaterphenyls, 2299–315
- ALKOXYLITHIUM**
Asymmetric induction in the reduction of optically active N-alkylidenesulfonamides by metal hydrides. A new, efficient enantioselective route to chiral amines, 339–43
- ALKOXYPENICILLINATE**
Preparation of 6 α -monosubstituted and 6,6-disubstituted penicillanates from 6-diazopenicillanates: reactions of 6-diazopenicillanates with alcohols, thiols, phenylseleninyl compounds, and allylic sulfides, and their analogs, 2757–66
- ALKOXYPHENYLBENZOXAZINE**
Preparation and reactions of 3-phenyl-4a,5,6,8a-tetrahydro-4H-1,2-benz[e]oxazines, 1891–5
- ALKYL**
Asymmetric induction in the reduction of optically active N-alkylidenesulfonamides by metal hydrides. A new, efficient enantioselective route to chiral amines, 339–43
Versatile synthesis of sulfamate esters by phase-transfer methods, 677–9
Synthesis of alkanesulfonyl chlorides from alkylcobaloximes and trichloromethanesulfonyl chloride, 849–54
Syntheses and reactions of hydridorhodium(III) octaethylporphyrin and rhodium(II) octaethylporphyrin dimer, 983–7
Cobaloximes. Part 2. A modified Schrauzer synthesis for base-sensitive cobaloximes, 1019–23
Cobaloximes. Part 3. A cobaloxime synthesis for use with reactive alkyl halides, 1025–8
Organocuprate conjugate addition reactions of 2,3-dihydrothiin-4-one, its oxide and dioxide, 1177–82
A chemical model for the thymidylate synthetase catalyzed methylation of deoxyuridine monophosphate, 1363–9
Oxymetalation. Part 16. Modified procedures for reducing peroxymercurials: conversion of nonterminal alkenes into secondary alkyl tert-butyl peroxides, 1797–805
Alkyl nitrenes from N-alkylbenzoquinone imine N-oxides, 2027–34
Nuclear magnetic resonance and x-ray stereochemical studies on 1-benzyltetrahydroisoquinolinium salts, 2067–77
Esters of α -arylalkanoic acids from 'masked' α -haloalkyl aryl ketones and silver salts: synthetic, kinetic, and mechanistic aspects, 2575–81
Stereochemistry of olefin and fatty acid oxidation. Part 2. Photosensitized oxidation of hexene and hepta-2,5-diene isomers 2715–17
Enamines in the synthesis of 2-(substituted amino)-3,3-dialkylchromanones, 2771–5
- ALKYLALKYNYLBORATE**
The chemistry of organoborates. Part 8. Unique Michael reactions of lithium trialkylalkynylborates, 719–22
- ALKYLAMINE**
The preparation of pyridiniums from pyrliums, 117–23
- ALKYLAMINO**
Enamines in the synthesis of 2-(substituted amino)-3,3-dialkylchromanones, 2771–5
- ALKYLAMINOALKYLCHROMANOL**
Enamines in the synthesis of 2-(substituted amino)-3,3-dialkylchromanones, 2771–5
- ALKYLAMINO BENZOQUINONE**
Alkyl nitrenes from N-alkylbenzoquinone imine N-oxides, 2027–34
- ALKYLAMINODIPHENYLPYRIMIDINE**
Metalation studies with pyrimidines, 153–8
- ALKYLARYLTHIOUREA**
Sulfur extrusion reactions. Part 5. Reactions of monoprotonic thioureas with ethyl α -chloroacetoacetate, ethyl bromomalonate, and ethyl bromocynoacetate, 653–6
- ALKYLATION**
Synthesis of gambirtannine derivatives by photocyclization of enamine intermediates, 59–62
Heterocycle stabilized carbanions. Two series of anomalous products from 1-alkyl-4,6-diphenyl-2-pyridones, 143–51
Metalation studies with pyrimidines, 153–8
Studies on intramolecular cycloaddition reactions of some isoquinolinium salts, 249–55
Synthetic application of azetidion-2-ones to a synthesis of furan derivatives, 257–60
Organometallic complexes in synthesis. Part 16. Reactions of tricarbonyl(cyclohexadienyl)iron(1+) salts with aromatic amines 713–17
The chemistry of pseudomonic acid. Part 4. α,β -Unsaturated ketones derived from monic acid A and its derivatives, 729–34
Reactions of forskolin, a biologically active diterpenoid from *Coleus forskohlii*, 767–71
Cobaloximes. Part 2. A modified Schrauzer synthesis for base-sensitive cobaloximes, 1019–23

ALKYLATION(contd)

- A chemical model for the thymidylate synthetase catalyzed methylation of deoxyuridine monophosphate, 1363-9
- Synthetic approaches to 11-deoxyhomoprostacyclin analogs, 1923-32
- Transition-metal mediated asymmetric synthesis. Part 3. Preparation and stereospecific alkylation of unsymmetrically substituted tricarbonyl(cyclohexadienyl)iron(1+) salts: an organometallic approach to the synthesis of carvone, cryptomerin, and bilobanone, 2449-56
- Synthesis of bis(imides) and bis(half amides) of N,N'-ethylenedis(i-minodiacetic acid), 2693-6
- An improved synthesis of amphiphilic 4,4'-disubstituted 2,2'-bipyridines, 3041-3

ALKYLBIPYRIDINE

- An improved synthesis of amphiphilic 4,4'-disubstituted 2,2'-bipyridines, 3041-3

ALKYLCOBALOXIME

- Synthesis of alkanesulfonyl chlorides from alkylcobaloximes and trichloromethanesulfonyl chloride, 849-54
- Cobaloximes. Part 3. A cobaloxime synthesis for use with reactive alkyl halides, 1025-8

ALKYLCUPRATE

- Organocuprate conjugate addition reactions of 2,3-dihydrothiin-4-one, its oxide and dioxide, 1177-82
- Synthetic approaches to 11-deoxyhomoprostacyclin analogs, 1923-32

ALKYLDIENEPHTHALIDE

- Photochemistry of epoxyquinones. Part 7. Photoinduced cycloaddition of 2,3-dimethyl-2,3-dihydro-2,3-epoxy-1,4-naphthoquinone to olefins, 2671-85

ALKYLHYDROXYANILINE

- Base catalyzed rearrangements involving ylide intermediates. Part 14. Rearrangement of 4-oxidoanilinium ylides and 3-oxidoanilinium betaines, 893-901

ALKYLIDENE

- Regiospecificity in reactions of metal phenoxides. Synthesis of 2,2'-alkylidenebisphenols, 805-8
- The chemistry of 4-mercaptoazetid-2-ones. Part 3. Synthesis of 6-phenoxyacetamido-2-alkylidenepenam-3-carboxylic acids, 1429-33
- Solution photochemistry of 4-alkylidene-3,3,5,5-tetramethyl- Δ^1 -pyrazolines, 2647-53
- The pyrolysis of 4-alkylidene-3,3,5,5-tetramethyl-1-pyrazolines, 2655-62
- Regiospecificity in reactions of metal phenoxides. Synthesis of 2,2'-alkylidenebisphenols, 805-8

ALKYLIDENEMETHYLPYRAZOLINE

- Solution photochemistry of 4-alkylidene-3,3,5,5-tetramethyl- Δ^1 -pyrazolines, 2647-53
- The pyrolysis of 4-alkylidene-3,3,5,5-tetramethyl-1-pyrazolines, 2655-62

ALKYLIDENEPENAMCARBOXYLATE

- The chemistry of 4-mercaptoazetid-2-ones. Part 3. Synthesis of 6-phenoxyacetamido-2-alkylidenepenam-3-carboxylic acids, 1429-33

ALKYLIDENESULFINATE

- Asymmetric induction in the reduction of optically active N-alkylidenesulfinamides by metal hydrides. A new, efficient enantioselective route to chiral amines, 339-43

ALKYLMANGANESE

- The chemistry of pseudomonic acid. Part 4. α,β -Unsaturated ketones derived from monic acid A and its derivatives, 729-34

ALKYLOXYDIMETHYLCHROMEN

- Analogues of antijuvenile hormones, 2013-18

ALKYLPORPHYRIN

- Polyformylation of copper(II) complexes of octaalkylporphyrins, 581-5

ALKYLPYRIDINECOBALOXIME

- Cobaloximes. Part 2. A modified Schrauzer synthesis for base-sensitive cobaloximes, 1019-23

ALKYLSILYLPYRROLE

- Lithiations of 1-trialkylsilylpyrroles: nitrogen to carbon silyl group rearrangement, 1833-6

ALKYLSULFINATE

- Asymmetric induction in the reduction of optically active N-alkylidenesulfinamides by metal hydrides. A new, efficient enantioselective route to chiral amines, 339-43

ALKYLSULFONYL

- Synthesis of alkanesulfonyl chlorides from alkylcobaloximes and trichloromethanesulfonyl chloride, 849-54

ALKYLTHIANONE

- Organocuprate conjugate addition reactions of 2,3-dihydrothiin-4-one, its oxide and dioxide, 1177-82

ALKYLTHIO

- Photolysis of quinolyl azides in aliphatic thiols. Synthesis of o-alkylthioquinolylamine, 671-2
- Heterocyclic syntheses with malonyl dichloride. Part 13. 6-Chloro-4-hydroxy-2-oxopyran-3-carboxanilides from N-sulfinylanilines and further reaction of malonyl dichloride with thiocyanates, 1575-8
- Heterocyclic syntheses with malonyl chloride. Part 14. A direct synthesis of 4,6-dichloropyrimidines with 5-benzyl or -phenyl and 2-thioalkyl or -thiophenyl substituents, 2499-503

ALKYLTHIOBROMOCHLOROPYRANOOXAZINEDIONE

- Heterocyclic syntheses with malonyl chloride. Part 14. A direct synthesis of 4,6-dichloropyrimidines with 5-benzyl or -phenyl and 2-thioalkyl or -thiophenyl substituents, 2499-503

ALKYLTHIOCARBONYLPROPYLPYRIDINECOBALOXIME

- Cobaloximes. Part 2. A modified Schrauzer synthesis for base-sensitive cobaloximes, 1019-23

ALKYLTHIOQUINOLYLAMINE

- Photolysis of quinolyl azides in aliphatic thiols. Synthesis of o-alkylthioquinolylamine, 671-2

ALKYLTHIOXOAMIDE

- Photochemical reactions of N,N-dialkyl- α -thioxoamides, 247-8

ALKYNE

- Metal-assisted cycloadditions. Part 1. Synthesis of substituted cyclopentane derivatives obtained from the reactions of (η^1 -allyl)dicarbonyl(η^5 -cyclopentadienyl)iron with electron-deficient olefins and acetylenes, 285-94
- Metal-assisted cycloadditions. Part 3. Reactions of dicarbonyl(η^5 -cyclopentadienyl) η^1 -2-methoxyallyl)iron with electron-deficient olefins and acetylenes, 301-6
- Syntheses and reactions of hydridorhodium(III) octaethylporphyrin and rhodium(II) octaethylporphyrin dimer, 983-7
- Cycloelmination of β -silylethyl sulfoxides: alkene, alkyne, and vinylsilane forming reactions, 1563-9
- Fluorocarbon derivatives of nitrogen. Part 8. Reactions between heteroaromatic N-imines (N-iminopyridinium and N-iminoquinolinium ylide) and perfluoropropene, 2H-pentafluoropropene, perfluorobut-2-ene, perfluoro(2-methylpent-2-ene), perfluorobut-2-yne, and perfluoropyridine: synthesis of fluorinated 3-azaindolizines (pyrazolo[1,5-a]pyridines), 1593-600
- Studies of heterocyclic analogs of azulenes. Part 9. Regioselective cycloadditions of 2H-cycloheptathiazol-2-one with acetylenic esters and electron-deficient olefins, 2881-3

ALKYNYLATION

- Synthesis of 25 ξ ,26-dihydroxyvitamin D₂, 2111-16

ALKYNYLBORATE

- The chemistry of organoborates. Part 8. Unique Michael reactions of lithium trialkylalkynylborates, 719-22

ALLENECARBOXYLATE

- The chemistry of 4-mercaptoazetid-2-ones. Part 3. Synthesis of 6-phenoxyacetamido-2-alkylidenepenam-3-carboxylic acids, 1429-33

ALLIACOLIDE

- Studies in terpenoid biosynthesis. Part 27. The acetate and mevalonate labeling patterns of the sesquiterpenoid, alliacolide, 2787-90

ALLOFURANOSYLCYTOSINE

- Synthesis of the two epimeric 5'-methylcytidines, their 5'-phosphates and [5-³H]-5'-pyrophosphates, and the two 5'-methyldeoxycytidines. A novel cytosine anhydronucleoside with two oxygen bridges between the base and the sugar, 385-93

ALLOPHANATE

- Photooxidation of oxazolidones and hydantoins in the presence of benzophenone, 2341-5

ALLYL

- Base catalyzed rearrangements involving ylide intermediates. Part 14. Rearrangement of 4-oxidoanilinium ylides and 3-oxidoanilinium betaines, 893-901
- Synthetic approaches to 11-deoxyhomoprostacyclin analogs, 1923-32

ALLYL(contd)

- Stereochemistry of olefin and fatty acid oxidation. Part 1. Autoxidation of hexene and hepta-2,5-diene isomers, 2707-13
- Stereochemistry of olefin and fatty acid oxidation. Part 2. Photosensitized oxidation of hexene and hepta-2,5-diene isomers 2715-17
- Preparation of 6 α -monosubstituted and 6,6-disubstituted penicillanates from 6-diazopenicillanates: reactions of 6-diazopenicillanates with alcohols, thiols, phenylseleninyl compounds, and allylic sulfides, and their analogs, 2757-66

ALLYLAMINOCYCLOHEXADIENONE

- Base catalyzed rearrangements involving ylide intermediates. Part 14. Rearrangement of 4-oxidoanilinium ylides and 3-oxidoanilinium betaines, 893-901

ALLYLATION

- Synthetic studies on terpenoids. Part 7. Synthetic studies leading to the total synthesis of eudesmane sesquiterpenes, 2547-51

ALLYLCYCLOPENTANONE

- Synthetic approaches to 11-deoxyhomoprostacyclin analogs, 1923-32

ALLYLDICARBONYLCYCLOPENTADIENYL

- Metal-assisted cycloadditions. Part 1. Synthesis of substituted cyclopentane derivatives obtained from the reactions of (η -allyl)dicarbonyl(η^5 -cyclopentadienyl)iron with electron-deficient olefins and acetylenes, 285-94

ALLYLDICARBONYLCYCLOPENTADIENYLIRON

- Metal-assisted cycloadditions. Part 1. Synthesis of substituted cyclopentane derivatives obtained from the reactions of (η -allyl)dicarbonyl(η^5 -cyclopentadienyl)iron with electron-deficient olefins and acetylenes, 285-94

ALLYLIC

- Quinones. Part 2. General synthetic routes to quinone derivatives with modified polyprenyl side chains and the inhibitory effects of these quinones on the generation of the slow reacting substance of anaphylaxis (SRS-A), 2909-20

ALLYLOXIDOANILINIUM

- Base catalyzed rearrangements involving ylide intermediates. Part 14. Rearrangement of 4-oxidoanilinium ylides and 3-oxidoanilinium betaines, 893-901

ALLYLPALLADIUM

- Regio- and stereospecificity of nucleophilic attack on steroidal π -allylpalladium complexes, 2595-7

ALLYLPHENYLTHIOPENICILLINATE

- Preparation of 6 α -monosubstituted and 6,6-disubstituted penicillanates from 6-diazopenicillanates: reactions of 6-diazopenicillanates with alcohols, thiols, phenylseleninyl compounds, and allylic sulfides, and their analogs, 2757-66

ALLYLTHIONONENONE

- Organocuprate conjugate addition reactions of 2,3-dihydrothiin-4-one, its oxide and dioxide, 1177-82

ALNUS

- The structure of four novel C₃₁-secodammarane-type triterpenoid saponins from the female flowers of *Alnus serrulatoides*, 1399-403

ALNUSTIC

- The structure of four novel C₃₁-secodammarane-type triterpenoid saponins from the female flowers of *Alnus serrulatoides*, 1399-403

AMBOFURACIN

- Neoraufuracin and ambofuracin. Two novel 2-benzyl-2-O-(methyl- β -D-glucopyranos-2-yl)-trans-2,3-dihydrobenzofurans. Synthesis of the methylated aglycone, 1157-62

AMBRETTOLIDE

- Synthesis of ambrettolide from phloionolic acid, 1837-9

AMIDATION

- Formation of N-substituted trichloroacetamides from amines and hexachloroacetone, 945-8
- Bridged-ring nitrogen compounds. Part 6. Synthesis of the 2,5-methano-3-benzazocine ring system, 2927-33

AMIDE

- Amide-catalyzed isomerization of 5,6-dihydroisoquinolines: a novel synthesis of 1,2-dihydroisoquinolines, 63-8
- Photochemical reactions of N,N-dialkyl- α -thioxoamides, 247-8
- Synthesis of bis(imides) and bis(half amides) of N,N'-ethylenebis(i-minodiacetic acid), 2693-6

AMIDINE

- Reactions of 3-acetylpropolone methyl ethers with guanidine and amidines, 1037-9

AMINE

- Preparation and reactions of pyrylium salts containing α -pyridyl groups, 125-30
- Reactions of five-membered heteroaromatic oxonium cations with amines, 131-6
- 2-(2-Nitrophenyl)oxaheterocycloniums: potential reagents for oxidative deamination of primary amines, 137-42
- Pyrimidine derivatives and related compounds. Part 41. Reactions of 1,3,6-trimethyl-5-nitouracil and its 6-bromomethyl analog with amines and hydrazines. Synthesis of pyrazolo[4,3-d]pyrimidine N-oxides and their ring expansion to pyrimido[5,4-d]pyrimidines, 277-84
- Photolysis of quinolyl and isoquinolyl azides in primary and secondary aliphatic amines: synthesis of bicyclic azepines, diazepines, and quinolyl- and isoquinolylidiamines, 421-9
- Photolysis of quinolyl and isoquinolyl azides in the presence of methoxide ions. Synthesis of benzodiazepines and pyridozepines 431-3
- Unusual Michael reaction of acyclic 1,3-dicarbonyl compounds with nitroolefins. A novel pyrrole synthesis, 441-7
- Organometallic complexes in synthesis. Part 16. Reactions of tricarbonyl(cyclohexadienyl)iron(1+) salts with aromatic amines 713-17
- Formation of N-substituted trichloroacetamides from amines and hexachloroacetone, 945-8
- Interaction of copper complexes derived from 1,2-quinone monooximes (2-nitrosophenols) with amines, 1075-8
- 4-(1,2,4-Triazol-1-yl)- and 4-(3-nitro-1,2,4-triazol-1-yl)-1-(β -D-2,3,5-tri-O-acetyl-arabinofuranosyl)pyrimidin-2(1H)-ones. Valuable intermediates in the synthesis of derivatives of 1-(β -D-arabinofuranosyl)cytosine (ara-C), 1171-6
- Addition reactions of aminium radicals: oxidative and nonoxidative photoaddition of nitrosoamines to nonconjugated polyenes, 1419-28
- Synthesis and properties of a series of sterically hindered guanidine bases, 2085-90
- One-pot conversions of amines into olefins via nonisolated pyridinium intermediates, 2347-52
- Synthesis of γ -aminobutyric acid analogs of restricted conformation. Part 1. The 2-aminocycloalkylacetic acids, 2553-62
- Intramolecular reactions of pyridinium-2-carbonyl azides: conversion of amines into aldehydes, 2953-6

AMINO

- Synthesis of the four stereoisomers of 4-aminoadamantane-2-carboxylic acid, rigid analogs of γ -aminobutyric acid, 73-7
- Arylazoglycosides. Part 7. Syntheses of amino sugars from methyl arylazohexenopyranosides, 205-14
- Base catalyzed rearrangements involving ylide intermediates. Part 14. Rearrangement of 4-oxidoanilinium ylides and 3-oxidoanilinium betaines, 893-901
- Reactions with heterocyclic diazonium salts: novel synthesis of pyrazolo[4,3-c]pyridazines and of pyrazolo[4,3-c]pyrazoles, 989-91
- Addition reactions of aminium radicals: synthetic studies of oxidative photoaddition of N-nitrodimethylamine, 1405-17
- Synthesis of β -amino acid peptides. Part 3. Preparation of racemic and chiral 3-aminobutyric acid derivatives and peptides using dihydrooxazin-6-ones and conventional coupling reagents, 1587-92
- Triazines and related products. Part 24. Synthesis of pyrazol-4-ylidenehydrazinoimidazoles by hydrazinolysis of imidazo[5,1-c][1,2,4]triazines and 2-arylaazoimidazoles by diazonium coupling reactions, 1811-19
- Stereochemical transformations of 5'-amino-5'-deoxyuridine and its 5,6-dihydro analog. 5'-N-aminoacyl derivatives of 5'-amino-5'-deoxy-5,6-dihydrouridine, 2091-7
- Active and passive transport of amino acid and oligopeptide derivatives by artificial ionophore-potassium ion complexes, 2359-63
- Reactions of 1-alkoxycarbonylpyridinium salts with nucleophiles: stereoelectronic restrictions on carbonyl activation of α -nucleophilic attack, 2365-8
- Intramolecular reactions of N-nitrenes: oxidation of 3-amino-2-(aryllalkyl)quinazolin-4(3H)-ones, 2407-12
- Synthesis of γ -aminobutyric acid analogs of restricted conformation. Part 2. The 2-(aminomethyl)cycloalkancarboxylic acids, 2563-70
- Cyclodienones. Part 6. Preparation of 4-azido-2,4,6-tri-tert-butylcyclohexa-2,5-dienone and its thermal, photochemical, and

- AMINO(contd)**
acid-catalyzed decomposition, 2841-8
- AMINOADAMANTANECARBOXYLATE**
Synthesis of the four stereoisomers of 4-aminoadamantane-2-carboxylic acid, rigid analogs of γ -aminobutyric acid, 73-7
- AMINOANTHRAQUINONE**
Photocycloaddition of 1-aminoanthraquinones to dienes by visible light irradiation, 1771-3
- AMINOARYL**
Ring transformation of 3-(2-aminoaryl)-1,2,4-oxadiazoles into 3-acylaminoindazoles; extension of the Boulton-Katritzky scheme, 759-66
- AMINOARYLALKYLQUINAZOLINONE**
Intramolecular reactions of N-nitrenes: oxidation of 3-amino-2-(aryllalkyl)quinazolin-4(3H)-ones, 2407-12
- AMINOARYLAZOIMIDAZOLECARBOXAMIDE**
Triazines and related products. Part 24. Synthesis of pyrazol-4-ylidenehydrazinoimidazoles by hydrazinolysis of imidazo[5,1-c][1,2,4]triazines and 2-arylaazoimidazoles by diazonium coupling reactions, 1811-19
- AMINOARYLOXADIAZOLE**
Ring transformation of 3-(2-aminoaryl)-1,2,4-oxadiazoles into 3-acylaminoindazoles; extension of the Boulton-Katritzky scheme, 759-66
- AMINO BUTYRATE**
Studies of enzyme-mediated reactions. Part 15. Stereochemical course of the formation of γ -aminobutyric acid (GABA) by decarboxylation of (2S)-glutamic acid with glutamate decarboxylase from *Escherichia coli*, 455-9
Synthesis of β -amino acid peptides. Part 3. Preparation of racemic and chiral 3-aminobutyric acid derivatives and peptides using dihydrooxazin-6-ones and conventional coupling reagents, 1587-92
Synthesis of γ -aminobutyric acid analogs of restricted conformation. Part 1. The 2-aminocycloalkylacetic acids, 2553-62
Synthesis of γ -aminobutyric acid analogs of restricted conformation. Part 2. The 2-(aminomethyl)cycloalkanecarboxylic acids, 2563-70
- AMINOCARBOXYLATE**
Synthetic enzymes. Part 2. Catalytic asymmetric epoxidation by means of polyamino acids in a triphase system, 1317-24
- AMINOCHROMEN**
Analogues of antijuvencile hormones, 2013-18
- AMINOCYANOPHENYLAZOIMIDAZOLECARBOXAMIDE**
Triazines and related products. Part 24. Synthesis of pyrazol-4-ylidenehydrazinoimidazoles by hydrazinolysis of imidazo[5,1-c][1,2,4]triazines and 2-arylaazoimidazoles by diazonium coupling reactions, 1811-19
- AMINOCYCLOALKANE**
Synthesis of γ -aminobutyric acid analogs of restricted conformation. Part 2. The 2-(aminomethyl)cycloalkanecarboxylic acids, 2563-70
Compounds with bridgehead nitrogen. Part 43. The reaction between trans-2-aminocycloalkane thiols and formaldehyde, 2777-81
- AMINOCYCLOALKYLACETATE**
Synthesis of γ -aminobutyric acid analogs of restricted conformation. Part 1. The 2-aminocycloalkylacetic acids, 2553-62
- AMINOCYCLOHEXADIENONE**
Base catalyzed rearrangements involving ylide intermediates. Part 14. Rearrangement of 4-oxidoanilinium ylides and 3-oxidoanilinium betaines, 893-901
- AMINODIAZOLE**
Novel synthesis of pyrazolo[5,1-c]-1,2,4-triazoles, imidazo[1,2-b]pyrazoles, and [1,2,4]-triazolo[4,3-a]benzimidazoles. Reaction of nitrile imines with amino- and oxo-substituted diazoles, 2663-6
- AMINODIBUTYLPHENOL**
Cyclodienones. Part 6. Preparation of 4-azido-2,4,6-tri-tert-butylcyclohexa-2,5-dienone and its thermal, photochemical, and acid-catalyzed decomposition, 2841-8
- AMINODIMETHYLPHENYLPIRAZOLONE**
Reactions with heterocyclic diazonium salts: novel synthesis of pyrazolo[4,3-c]pyridazines and of pyrazolo[4,3-c]pyrazoles, 989-91
- AMINOETHYL**
Phosphorylated sugars. Part 23. Synthesis and reactions of phosphodiester containing 2-aminoethanol and a polyfunctional alcohol and their behavior during acid- and base-catalyzed hydrolysis, 1733-43
- AMINOETHYLPHOSPHORYL**
Phosphorylated sugars. Part 23. Synthesis and reactions of phosphodiester containing 2-aminoethanol and a polyfunctional alcohol and their behavior during acid- and base-catalyzed hydrolysis, 1733-43
- AMINOETHYLPHOSPHORYLGLUCOPYRANOSIDE**
Phosphorylated sugars. Part 23. Synthesis and reactions of phosphodiester containing 2-aminoethanol and a polyfunctional alcohol and their behavior during acid- and base-catalyzed hydrolysis, 1733-43
- AMINOFLUOROTRIAZINE**
Heterocyclic polyfluoro-compounds. Part 39. Preparation and some nucleophilic substitution reactions of trifluoro-1,2,4-triazine, 1251-4
- AMINOHETEROARYL**
Ring transformation of 3-(2-aminoaryl)-1,2,4-oxadiazoles into 3-acylaminoindazoles; extension of the Boulton-Katritzky scheme, 759-66
- AMINOHEXOPYRANOSIDULOSE**
Arylazoglycosides. Part 7. Syntheses of amino sugars from methyl arylazohexenopyranosides, 205-14
- AMINOINDAZOLYLIMIDAZOLECARBOXAMIDE**
Triazines and related products. Part 24. Synthesis of pyrazol-4-ylidenehydrazinoimidazoles by hydrazinolysis of imidazo[5,1-c][1,2,4]triazines and 2-arylaazoimidazoles by diazonium coupling reactions, 1811-19
- AMINOISPROPYLTHIAZOLECARBOXYLATE**
The preparation of thiazole-4- and -5-carboxylates, and an infrared study of their rotational isomers, 159-64
- AMINOMETHYL**
Biosynthesis of porphyrins and related macrocycles. Part 17. Chemical and enzymic transformation of isomeric aminomethylbilanes into uroporphyrinogens: proof that unrearranged bilane is the preferred enzymic substrate and detection of a transient intermediate, 2413-26
- AMINOMETHYLBILANE**
Biosynthesis of porphyrins and related macrocycles. Part 17. Chemical and enzymic transformation of isomeric aminomethylbilanes into uroporphyrinogens: proof that unrearranged bilane is the preferred enzymic substrate and detection of a transient intermediate, 2413-26
- AMINOMETHYLOXAZOLOPYRIMIDINONE**
Intramolecular cyclization reactions in aliphatic thymidine analogs series, 223-7
- AMINOMETHYLPHENOL**
Interaction of copper complexes derived from 1,2-quinone monooximes (2-nitrosophenols) with amines, 1075-8
- AMINOPREGNANE**
Aminosteroids. Part 8. Synthesis of the four isomeric 3,7-diamino-5 α -pregnanes, 1783-9
- AMINOQUATERPHENYL**
Synthesis of substituted dibenzophospholes. Part 3. Synthesis of 4,6-diaryldibenzophospholes from m-quaterphenyls, 2317-31
- AMINOTHIAZOLE**
Formation of N-substituted trichloroacetamides from amines and hexachloroacetone, 945-8
- AMINOTHIAZOLINE**
Studies of heterocyclic compounds. Part 28. Condensation of 3-substituted 5-phenyl-1,2-dithiolylium salts with 2-amino-N-heterocycles, 499-507
- AMINOTOLUENE**
Carbon-13 nuclear magnetic resonance spectra of quinoxaline derivatives, 357-63
- AMINOTRIDEOXYHEXOPYRANOSIDE**
Arylazoglycosides. Part 7. Syntheses of amino sugars from methyl arylazohexenopyranosides, 205-14
- AMINO URIDINE**
Stereochemical transformations of 5'-amino-5'-deoxyuridine and its 5,6-dihydro analog. 5'-N-aminoacyl derivatives of 5'-amino-5'-deoxy-5,6-dihydrouridine, 2091-7
- AMORPHA**
Biosynthesis of rotenoids by *Amorpha fruticosa*: sequence, specificity, and stereochemistry in the development of the hemiterpenoid segment, 789-97
- AMORPHIGENIN**
Biosynthesis of rotenoids by *Amorpha fruticosa*: sequence, specificity, and stereochemistry in the development of the

- AMORPHIGENIN**(contd)
hemiterpenoid segment, 789–97
- AMYLOSE**
Homopolysaccharides interaction with the dimethyl sulfoxide–paraformaldehyde cellulose solvent system. Selective oxidation of amylose and cellulose at secondary alcohol groups, 1579–85
- ANALGESIC**
Stereochemistry of 2,3-dimethyl analogs of the reversed ester of pethidine and related compounds: examples of vicinal diaxial methyl groups in 2,3-dimethylpiperidine derivatives, 749–53
- ANDROSTADIENEDIONE**
A practical catalytic method for the preparation of steroidal 1,4-dien-3-ones by oxygen atom transfer from iodoxybenzene to diphenyl diselenide, 1947–52
- ANDROSTANE**
Iodoazide adducts of exocyclic alkenes; structure and solvolysis, 315–25
- ANDROSTARIENEDIONE**
Electrophilic fluorination of some steroidal α,β -unsaturated ketones 1105–10
- ANDROSTENECARBOXYLATE**
Alkylated steroids. Part 5. Formation of 17 β -acetylenic steroids from hindered 20-oxo compounds via Grignard derived enolates 1079–84
Polycyclic analogs of trans-decalones. Part 5. Synthesis, optical resolution, and circular dichroism of trans-transoid-trans-perhydrophenanthren-3-one and trans-transoid-trans-perhydrophenanthren-9-one, 2117–22
- ANDROSTENETRIONE**
Acid- and base-catalyzed reactions of 4 β ,5 β - and 4 α ,5 α -epoxyandrostane-3,17,19-trione, 2611–15
- ANGIOTENSIN**
Further studies on the protection of histidine side chains in peptide synthesis: the use of the π -benzyloxymethyl group, 1553–61
- ANHYDRIDE**
Pyrrolizidine alkaloid analogs. Synthesis of eleven-membered macrocyclic diesters of retronecine, 1117–21
An investigation of the Wittig reaction between a series of monosubstituted phthalic anhydrides and ethoxycarbonylmethylidetriphenylphosphorane, 1855–63
Dehydrogenation of lactones using benzeneseleninic anhydride. X-ray crystal structure of 3 β -acetoxy-14 α -hydroxy-17 α -oxa-D-homo-5 α -androst-15-en-17-one, 1919–22
Synthesis of (2RS,5RS,6SR)-3-methoxycarbonyl-7-oxo-6-phenoxycetamido-1-azabicyclo[3.2.0]hept-3-ene-2-carboxylic acid, 2123–9
Oxidation of benzylic hydrocarbons with benzeneseleninic anhydride and related reactions, 2179–85
- ANHYDRO**
A stereospecific synthesis of (+)-muscarine, 809–13
- ANHYDROGLUCITOL**
A stereospecific synthesis of (+)-muscarine, 809–13
- ANHYDROGLYCOPYRANOSIDULOSE**
Arylazoglycosides. Part 7. Syntheses of amino sugars from methyl arylazohexopyranosides, 205–14
- ANHYDROHEPTULOSE**
Studies on anhydroosazones. Part 5. Structure and anomeric configuration of the C-nucleoside analogs obtained from the dehydration of D-glucosyl- and D-manno hept-2-ulose phenylosazones, 557–62
- ANHYDROOSAZONE**
Studies on anhydroosazones. Part 5. Structure and anomeric configuration of the C-nucleoside analogs obtained from the dehydration of D-glucosyl- and D-manno hept-2-ulose phenylosazones, 557–62
- ANHYDROURIDINE**
Reaction between 2,2'-anhydro-1- β -D-arabinofuranosyluracil and thiolate ions, 1625–8
- ANHYDROUS**
The x-ray structure analysis of anhydrous heptamethyl dicyanocobryinate (cobester), 2279–88
- ANILINE**
Base catalyzed rearrangements involving ylide intermediates. Part 14. Rearrangement of 4-oxidoanilinium ylides and 3-oxidoanilinium betaines, 893–901
Reaction of some 1,4-benzoquinone monooximes with methanolic hydrogen chloride, 1095–8
Heterocyclic syntheses with malonyl dichloride. Part 13. 6-Chloro-4-hydroxy-2-oxopyran-3-carboxanilides from N-sulfinylanilines and further reaction of malonyl dichloride with thiocyanates, 1575–8
Triazines and related products. Part 24. Synthesis of pyrazol-4-ylidenehydrazinoimidazoles by hydrazinolysis of imidazo[5,1-c][1,2,4]triazines and 2-arylaizoimidazoles by diazonium coupling reactions, 1811–19
- ANILINIUM**
Base catalyzed rearrangements involving ylide intermediates. Part 14. Rearrangement of 4-oxidoanilinium ylides and 3-oxidoanilinium betaines, 893–901
- ANILINOALKYL**
Synthetic application of azetidin-2-ones to a synthesis of furan derivatives, 257–60
- ANILINOALKYLBUTENOLIDE**
Synthetic application of azetidin-2-ones to a synthesis of furan derivatives, 257–60
- ANION**
Cobaloximes. Part 2. A modified Schrauzer synthesis for base-sensitive cobaloximes, 1019–23
Active and passive transport of amino acid and oligopeptide derivatives by artificial ionophore-potassium ion complexes, 2359–63
- ANISIDINE**
Reaction of some 1,4-benzoquinone monooximes with methanolic hydrogen chloride, 1095–8
Benzenesulfenyl radicals. Reactivity of 4'-methoxy- and 4'-methoxy-2-nitrobenzenesulfenyl radicals, 3049–53
- ANISOLE**
Addition reactions of benzo[b]thiophene. Part 3. Addition and ring-opening reactions with phenolic ethers, 615–21
- ANNOMONTINE**
Alkaloids of the Annonaceae. Part 33. Annomontine and methoxyannomontine, two new pyrimidine- β -carboline-type alkaloids from *Annona montana*, 1205–8
- ANNONA**
Alkaloids of the Annonaceae. Part 33. Annomontine and methoxyannomontine, two new pyrimidine- β -carboline-type alkaloids from *Annona montana*, 1205–8
- ANNULATION**
New stereoselective synthesis of 9-methyl-cis-decalin derivatives by double Michael reaction of 3-methyl-4-methylenecyclohex-2-enone and its congeners with dimethyl 3-oxoglutarate, 25–30
C-Aromatic steroids. Synthesis of 11,17 ξ -dimethoxy-18-norandrost-4,8,11,13-tetraen-3-one, 201–4
Anthracyclines. Part 2. Investigations relating to the synthesis of 4-demethoxyanthracyclines, 2239–48
Synthesis of sesquiterpenes occidentalol, chamaecynone, and related compounds characterized by a cis-eudesmane structure, 2849–53
- ANNULENONE**
Syntheses and properties of trimethyltetrahydro[19]annulenones and the benzannulated derivatives, 31–42
Syntheses and properties of a trimethyltetrahydro[21]annulenone and its benzannulated derivatives, 43–50
Syntheses and properties of a trimethyltetrahydro[23]annulenone and a trimethyltetrahydro[25]annulenone, 51–8
- ANOMERIC**
Studies on anhydroosazones. Part 5. Structure and anomeric configuration of the C-nucleoside analogs obtained from the dehydration of D-glucosyl- and D-manno hept-2-ulose phenylosazones, 557–62
- ANTHRACENE**
Photocycloaddition of 1-aminoanthraquinones to dienes by visible light irradiation, 1771–3
- ANTHRACENESPIROOXETANE**
Photocycloaddition of 1-aminoanthraquinones to dienes by visible light irradiation, 1771–3
- ANTHRACYCLONE**
Anthracyclines. Part 2. Investigations relating to the synthesis of 4-demethoxyanthracyclines, 2239–48
- ANTHRONE**
Reactions of spiroindazoles containing keto groups. Part 2. Evidence for a spirobenzocyclopropene intermediate in the thermolysis of anthrone-10-spiro-3'-3'H-indazoles to benz[a]aceanthrylenes, 577–9
- ANTIBIOTIC**
Solution conformations of two synthetic analogs of quinoxaline antibiotics, 1041–8
7-epi-Brefeldin A, a cometabolite of brefeldin A in *Curvularia lunata*, 2387–90

ANTIBIOTIC(contd)

Convenient syntheses of L-digitoxose, L-cymarose, and L-ristosamine, 2583-7

The chemistry of pseudomonic acid. Part 5. Structure and chemistry of pseudomonic acid C. X-ray crystal structure of ethyl monate C 2827-33

ANTIFEEDANT

Synthesis of polyoxygenated trans-decalins as potential insect antifeedants, 2157-62

ANTIJEUVENILE

Analogues of antijuvenile hormones, 2013-18

ANTIMICROBIAL

The chemistry of pseudomonic acid. Part 4. α,β -Unsaturated ketones derived from monic acid A and its derivatives, 729-34

APAMIN

Selective formylation of α - or ϵ -amino groups of peptides, 2625-9

APHIDICOLIN

Organoiridium complexes in organic synthesis. Part 23. New strategies for steroid and aphidicolane synthesis, 2631-9

APICOPHILICITY

A study of the apicophilicity of the 2-furyl group in five-coordinate phosphoranes, 191-5

APIS

Selective formylation of α - or ϵ -amino groups of peptides, 2625-9

APORPHINE

Chemical studies on the annonaceae. Part 9. Indolosesquiterpene and aporphine alkaloids from Greenwayodendron (*Polyalthia suaveolens* stem bark. X-ray crystal structure of greenwayodendrin-3-one, 2807-12

ARABINOFURANOSYL

Studies on anhydroosazones. Part 5. Structure and anomeric configuration of the C-nucleoside analogs obtained from the dehydration of D-glucosyl- and D-mannosyl hept-2-ulose phenylosazones, 557-62

4-(1,2,4-Triazol-1-yl)- and 4-(3-nitro-1,2,4-triazol-1-yl)-1-(β -D-2,3,5-tri-O-acetyl-arabinofuranosyl)pyrimidin-2(1H)-ones.

Valuable intermediates in the synthesis of derivatives of 1-(β -D-arabinofuranosyl)cytosine (ara-C), 1171-6

Stereochemical transformations of 5'-amino-5'-deoxyuridine and its 5,6-dihydro analog. 5'-N-aminoacyl derivatives of 5'-amino-5'-deoxy-5,6-dihydrouridine, 2091-7

ARABINOFURANOSYLPHENYLTRIAZOLE

Studies on anhydroosazones. Part 5. Structure and anomeric configuration of the C-nucleoside analogs obtained from the dehydration of D-glucosyl- and D-mannosyl hept-2-ulose phenylosazones, 557-62

ARABINOFURANOSYLURACIL

4-(1,2,4-Triazol-1-yl)- and 4-(3-nitro-1,2,4-triazol-1-yl)-1-(β -D-2,3,5-tri-O-acetyl-arabinofuranosyl)pyrimidin-2(1H)-ones.

Valuable intermediates in the synthesis of derivatives of 1-(β -D-arabinofuranosyl)cytosine (ara-C), 1171-6

Stereochemical transformations of 5'-amino-5'-deoxyuridine and its 5,6-dihydro analog. 5'-N-aminoacyl derivatives of 5'-amino-5'-deoxy-5,6-dihydrouridine, 2091-7

ARABINOPYRANOSYL

Studies on anhydroosazones. Part 5. Structure and anomeric configuration of the C-nucleoside analogs obtained from the dehydration of D-glucosyl- and D-mannosyl hept-2-ulose phenylosazones, 557-62

ARABINOPYRANOSYLPHENYLTRIAZOLE

Studies on anhydroosazones. Part 5. Structure and anomeric configuration of the C-nucleoside analogs obtained from the dehydration of D-glucosyl- and D-mannosyl hept-2-ulose phenylosazones, 557-62

ARABINOSYL

Synthesis of ribosyl and arabinosyl cyanides by reaction of 1-O-acyl sugars with trimethylsilyl cyanide, 903-7

ARBUZOV

A stable bromoalkoxyphosphorane, a model for the postulated five-coordinate intermediate in the Arbuzov and related reactions 735-40

ARENE

Aryl nitrenes from N,N'-diarylbenzoquinone diimine N,N'-dioxides and N-arylbenzoquinone imine N-oxides, 2023-6

ARENEDIOL

Reactions of 4-hydroxycyclohexa-2,5-dienones under acidic conditions, 1499-507

ARISTOLOCHATE

Biosynthesis of aristolochic acid, 1153-5

ARISTOLOCHIA

Biosynthesis of aristolochic acid, 1153-5

AROM

Conversion of aromatic ketones into π -arylalkanoic acids.

Oxidation by thallium(III) and by halogens, 235-42

Photochemical reactions of N,N-dialkyl- α -thioamides, 247-8

Organometallic complexes in synthesis. Part 16. Reactions of tricarbonyl(cyclohexadienyl)iron(1+) salts with aromatic amines 713-17

Formation of N-substituted trichloroacetamides from amines and hexachloroacetone, 945-8

Oxidation of benzylic hydrocarbons with benzeneseleninic anhydride and related reactions, 2179-85

AROMATIZATION

Selective aromatization of ring B in 19-norsteroids and synthesis of equilenin-type compounds, 1-7

Amide-catalyzed isomerization of 5,6-dihydroisoquinolines: a novel synthesis of 1,2-dihydroisoquinolines, 63-8

Reactions of 4-hydroxycyclohexa-2,5-dienones under acidic conditions, 1499-507

ARSENIC

Isolation and crystal structure of an arsenic-containing sugar

sulfate from the kidney of the giant clam, *Tridacna maxima*. X-ray crystal structure of (2S)-3-[5-deoxy-5-(dimethylarsinoyl)- β -D-ribofuranosyloxy]-2-hydroxypropyl hydrogen sulfate, 2989-93

ARSINOYL

Isolation and crystal structure of an arsenic-containing sugar

sulfate from the kidney of the giant clam, *Tridacna maxima*. X-ray crystal structure of (2S)-3-[5-deoxy-5-(dimethylarsinoyl)- β -D-ribofuranosyloxy]-2-hydroxypropyl hydrogen sulfate, 2989-93

ARTABSIN

Structures of the artabsinoides; photo-oxygenation studies on artabsin, 861-4

ARTABSINOLIDE

Structures of the artabsinoides; photo-oxygenation studies on artabsin, 861-4

ARTEMISIA

Structures of the artabsinoides; photo-oxygenation studies on artabsin, 861-4

ARYL

Synthesis of 2,6-diaryl-4,8-dihydroxy-3,7-dioxabicyclo[3.3.0]octanes, 175-81

Electrochemical reactions. Part 24. Reductive cyclization of i-(2-halophenyl)-j-phenyl compounds: a general reaction, 229-34

Conversion of aromatic ketones into π -arylalkanoic acids.

Oxidation by thallium(III) and by halogens, 235-42

Sulfur extrusion reactions. Part 5. Reactions of monoprotic thioureas with ethyl α -chloroacetate, ethyl bromomalonate, and ethyl bromocycanoacetate, 653-6

Versatile synthesis of sulfamate esters by phase-transfer methods, 677-9

Synthetic and mechanistic aspects of gas-liquid phase-transfer catalysis: carboxylate esters, 993-7

Lewis acid-catalyzed reactions of aryl cyclopropyl ketones. Scope and mechanism, 1029-35

Phosphonation of aryl halides by copper(I) complexes of trialkyl phosphites, 1143-8

Kinetics and mechanism of the reaction of thionyl chloride with substituted acetophenone semicarbazones. The synthesis of 1,2,3-thiadiazoles, 1223-7

The thermolysis of polyazapentadienes. Part 2. Formation of quinoxalines from 5-aryl-1-phenyl-1,2,5-triazapentadienes, 1941-5

Aryl nitrenes from N,N'-diarylbenzoquinone diimine N,N'-dioxides and N-arylbenzoquinone imine N-oxides, 2023-6

Novel synthesis of diimines by the transformation of 1-aryl-4,6-disubstituted pyrimidin-2(1H)-ones, 2149-52

Oxidation of benzylic hydrocarbons with benzeneseleninic anhydride and related reactions, 2179-85

Synthesis of β -lactams from imines and 1-lithiooxy-2-phenylacetylene, 2193-6

Polyhalo allenes and acetylenes. Part 15. Dipolar cycloadditions of N-phenylsydnone and aryl azides to perfluoropropadiene and perfluoropropyne, 2207-10

Formation of some 3-aryl-3,4-dihydroisocoumarins by thermal ring closure of stilbene-2-carboxylic acids, 2819-25

- ARYLALKANOATE**
Conversion of aromatic ketones into π -arylalkanoic acids.
Oxidation by thallium(III) and by halogens, 235–42
Esters of α -arylalkanoic acids from 'masked' α -haloalkyl aryl ketones and silver salts: synthetic, kinetic, and mechanistic aspects, 2575–81
- ARYLALKYL**
Intramolecular reactions of N-nitrenes: oxidation of 3-amino-2-(arylalkyl)quinazolin-4(3H)-ones, 2407–12
- ARYLAZETIDINONE**
Synthesis of β -lactams from imines and 1-lithiooxy-2-phenylacetylene, 2193–6
- ARYLAZO**
Triazines and related products. Part 24. Synthesis of pyrazol-4-ylidenehydrazinoimidazoles by hydrazinolysis of imidazo[5,1-c][1,2,4]triazines and 2-arylaizoimidazoles by diazonium coupling reactions, 1811–19
- ARYLBENZOQUINONE**
Aryl nitrenes from N,N'-diarylbenzoquinone diimine N,N'-dioxides and N-arylbenzoquinone imine N-oxides, 2023–6
- ARYLBENZOTHIOPHENONE**
Addition reactions of benzo[b]thiophene. Part 4. Reactions of some acetoxy- and hydroxybenzo[b]thiophenes with benzene or toluene, 815–21
- ARYLBORONATE**
Reactions of organothallium compounds with diborane, 2949–51
- ARYLDIALKYLTHIOUREA**
Sulfur extrusion reactions. Part 5. Reactions of monoproctic thioureas with ethyl α -chloroacetoacetate, ethyl bromomalonate, and ethyl bromocynoacetate, 653–6
- ARYLDIBENZOPHOSPHOLE**
Synthesis of substituted dibenzophospholes. Part 3. Synthesis of 4,6-diaryldibenzophospholes from m-quaterphenyls, 2317–31
- ARYLDIOXABICYCLOOCTANE**
Synthesis and NMR spectra of 2,6- and 2,4-diaryl-3,7-dioxabicyclo[3.3.0]octanes, 183–90
- ARYLETHANETHIOAMIDE**
Studies on heterocyclic chemistry. Part 26. The ring transformation of 3-acylthio-4-aryl-3-isothiazoline-5-thiones to benzo[b]- and naphtho[2,1-b]-thiophenes with an acylimino group at C-2 via the 2-arylethanethioamide derivatives, 2867–70
- ARYLHYDRAZINE**
Chemistry of 6H-pyrido[4,3-b]carbazoles. Part 9. An efficient route to 3-[1-(3-ethylpyridyl)]indoles and the synthesis of some new ellipticines, 587–90
- ARYLHYDRAZONE**
The reaction of Meldrum's acid with α -dicarbonyl monohydrazones: a new synthesis of pyridazin-3-ones, 1845–53
- ARYLHYDROXYBENZOTHIOPHENE**
Addition reactions of benzo[b]thiophene. Part 4. Reactions of some acetoxy- and hydroxybenzo[b]thiophenes with benzene or toluene, 815–21
- ARYLHYDROXYDIBENZOPHOSPHOLE**
Synthesis of substituted dibenzophospholes. Part 1, 2289–97
- ARYLHYDROXYDIOXABICYCLOOCTANE**
Synthesis of 2,6-diaryl-4,8-dihydroxy-3,7-dioxabicyclo[3.3.0]octanes, 175–81
- ARYLHYDROXYMETHYL**
Lewis acid-catalyzed reactions of aryl cyclopropyl ketones. Scope and mechanism, 1029–35
- ARYLHYDROXYMETHYLOXOBUTANOATE**
Lewis acid-catalyzed reactions of aryl cyclopropyl ketones. Scope and mechanism, 1029–35
- ARYLIMINE**
Sulfur extrusion reactions. Part 5. Reactions of monoproctic thioureas with ethyl α -chloroacetoacetate, ethyl bromomalonate, and ethyl bromocynoacetate, 653–6
Synthesis of β -lactams from imines and 1-lithiooxy-2-phenylacetylene, 2193–6
- ARYLIMINO**
Sulfur extrusion reactions. Part 5. Reactions of monoproctic thioureas with ethyl α -chloroacetoacetate, ethyl bromomalonate, and ethyl bromocynoacetate, 653–6
- ARYLISOCOUMARIN**
Formation of some 3-aryl-3,4-dihydroisocoumarins by thermal ring closure of stilbene-2-carboxylic acids, 2819–25
- ARYLKETOAMIDE**
Reactions of five-membered heteroaromatic oxonium cations with amines, 131–6
- ARYLOXYMAGNESIUM**
Regiospecificity in reactions of metal phenoxides. Synthesis of 2,2'-alkylidenebisphenols, 805–8
- ARYLPYRIMIDINONE**
Novel synthesis of diimines by the transformation of 1-aryl-4,6-disubstituted pyrimidin-2(1H)-ones, 2149–52
- ARYLTHIADIAZOLE**
Kinetics and mechanism of the reaction of thionyl chloride with substituted acetophenone semicarbazones. The synthesis of 1,2,3-thiadiazoles, 1223–7
- ARYLTRIAZAPENTADIENE**
The thermolysis of polyazapentadienes. Part 2. Formation of quinoxalines from 5-aryl-1-phenyl-1,2,5-triazapentadienes, 1941–5
- ARYLTRIMETHOXYDIBENZOPHOSPHOLE**
Synthesis of substituted dibenzophospholes. Part 4. Chemical transformations of 4,6-diaryl-3,7-dialkoxydibenzophosphole 5-oxides, 2333–9
- ASPARTYL**
Decarboxylative rearrangement of an alkanoyl arylcarbonyl peroxide involving migration of a primary chiral center, 591–3
- ASPERGILLUS**
Cytochalasins E and K, toxic metabolites from *Aspergillus clavatus* 541–4
Studies on fungal metabolites. Part 3. Carbon-13 NMR spectral and structural studies on austin and new related meroterpenoids from *Aspergillus ustus*, *Aspergillus varicolor*, and *Penicillium diversum*, 2687–92
- ASPIDOSPERMA**
Organoiron complexes in organic synthesis. Part 22. Total synthesis of (\pm)-limaspermine and formal synthesis of (\pm)-aspidospermine using organoiron complexes, 2467–76
- ASPIDOSPERMINE**
Organoiron complexes in organic synthesis. Part 22. Total synthesis of (\pm)-limaspermine and formal synthesis of (\pm)-aspidospermine using organoiron complexes, 2467–76
- ASYM**
Asymmetric synthesis with carbohydrates. Part 2. Asymmetric Grignard addition reactions conditioned by chiral magnesium alkoxides, 197–200
Asymmetric synthesis of a β -ketol moiety via 3,5-disubstituted isoxazoles: application to (+)-(S)-[6]-gingerol, 2983–7
- ATTACK**
Reactions of 1-alkoxycarbonylpyridinium salts with nucleophiles: stereoelectronic restrictions on carbonyl activation of α -nucleophilic attack, 2365–8
- ATTEMPT**
Experiments towards the synthesis of the ergot alkaloids and related structures. Part 4. Lysergic acid – an attempted 'endo-amide' approach, 1897–903
- AUSTIN**
Studies on fungal metabolites. Part 3. Carbon-13 NMR spectral and structural studies on austin and new related meroterpenoids from *Aspergillus ustus*, *Aspergillus varicolor*, and *Penicillium diversum*, 2687–92
- AUSTINOL**
Studies on fungal metabolites. Part 3. Carbon-13 NMR spectral and structural studies on austin and new related meroterpenoids from *Aspergillus ustus*, *Aspergillus varicolor*, and *Penicillium diversum*, 2687–92
- AUTOXIDN**
Stereochemistry of olefin and fatty acid oxidation. Part 1. Autoxidation of hexene and hepta-2,5-diene isomers, 2707–13
- AZABICYCLOHEPTADIENE**
Heterocyclic polyfluoro compounds. Part 41. Photochemical isomerization of 1-substituted hexafluoro-1H-azepines: hexafluoro-2-azabicyclo[3.2.0]hepta-3,6-dienes and their reactions, 2105–9
- AZABICYCLOHEPTENECARBOXYLATE**
Synthesis of (2RS,5RS,6SR)-3-methoxycarbonyl-7-oxo-6-phenoxycetamido-1-azabicyclo[3.2.0]hept-3-ene-2-carboxylic acid, 2123–9
- AZABICYCLOOCTADIENEDICARBOXYLATE**
Preparation and reactions of pyridones: steric and electronic effects on cycloadditions with 2(1H)-pyridones, 169–73
- AZAHEXACYCLOOCTADECENE**
Heterocyclic polyfluoro-compounds. Part 37. Diels-Alder reactions of trichloro- and trifluoro-1,2,4-triazine, 1245–9

AZAHOMOANDROSTENE

Microbiological transformations. Part 5. Microbiological transformations of 17 α -aza- and 17-aza-D-homoandrost-5-ene derivatives with the fungus *Cunninghamella elegans*, 571-6

AZAHOMOCHOLESTANONE

Photo-induced transformations. Part LXI. Syntheses of some six-membered and eight-membered lactams of the β -homo- and α -nor- β , β -dihomocholestanone series by the photo-Beckmann rearrangement, 931-8

AZAHOMOCHOLESTENONE

Photoinduced transformations. Part 60. Photoinduced rearrangements of cholesteryl nitrites with monochromatic light, 111-16

AZAHOMOESTRENONE

Photoinduced transformations. Part 63. Photorearrangement of 17 β -acetoxy-4,4-dimethylestr-5-en-3 β -yl nitrite with monochromatic light, 1963-6

AZAINDOLIZINE

Fluorocarbon derivatives of nitrogen. Part 8. Reactions between heteroaromatic N-imines (N-iminopyridinium and N-iminoquinolinium ylide) and perfluoropropene, 2H-pentafluoropropene, perfluorobut-2-ene, perfluoro(2-methylpent-2-ene), perfluorobut-2-yne, and perfluoropyridine: synthesis of fluorinated 3-azaindolizines (pyrazolo[1,5-a]pyridines), 1593-600

AZATETRACYCLOALKENE

Heterocyclic polyfluoro-compounds. Part 37. Diels-Alder reactions of trichloro- and trifluoro-1,2,4-triazine, 1245-9

AZATETRACYCLODODECADIENE

Heterocyclic polyfluoro compounds. Part 41. Photochemical isomerization of 1-substituted hexafluoro-1H-azepines: hexafluoro-2-azabicyclo[3.2.0]hepta-3,6-dienes and their reactions, 2105-9

AZATETRACYCLODODECANONE

Synthesis of the four stereoisomers of 4-aminoadamantane-2-carboxylic acid, rigid analogs of γ -aminobutyric acid, 73-7

AZEPINE

Photolysis of quinolyl and isoquinolyl azides in primary and secondary aliphatic amines: synthesis of bicyclic azepines, diazepines, and quinolyl- and isoquinolyl diamines, 421-9

Heterocyclic polyfluoro compounds. Part 41. Photochemical isomerization of 1-substituted hexafluoro-1H-azepines: hexafluoro-2-azabicyclo[3.2.0]hepta-3,6-dienes and their reactions, 2105-9

AZEPINECARBOXYLATE

Heterocyclic polyfluoro compounds. Part 40. Preparation of polyfluoroazepines, 2101-4

AZEPINOINDOLE

Azonia-azulenes. Part 6. Photochemical addition of alcohols to 10H-azepino[1,2-a]indoles, 1871-8

AZEPINONE

Photolysis and thermolysis of phenyl azide in acetic acid. Trapping of 1-azacyclohepta-1,2,4,6-tetraene and nucleophilic aromatic substitution, 1269-73

Cyclodienones. Part 6. Preparation of 4-azido-2,4,6-tri-tert-butylcyclohexa-2,5-dienone and its thermal, photochemical, and acid-catalyzed decomposition, 2841-8

AZETIDINE

Silver(I)-catalyzed oxidation of cyclic secondary amines with peroxodisulfate, 3031-5

AZETIDINONE

Photochemical reactions of N,N-dialkyl- α -thioxoamides, 247-8

Synthetic application of azetid-2-ones to a synthesis of furan derivatives, 257-60

The chemistry of 4-mercaptoazetid-2-ones. Part 3. Synthesis of 6-phenoxyacetamido-2-alkylidenepenam-3-carboxylic acids, 1429-33

Synthesis of β -lactams from imines and 1-lithiooxy-2-phenylacetylene, 2193-6

AZETIDINONETHIOL

The chemistry of 4-mercaptoazetid-2-ones. Part 4. Synthesis of cyclopropanespiro-2-bisnorpenicillanic acids, 1435-9

AZIDATION

Triazines and related products. Part 25. Methods for the attachment of sugar residues to cytotoxic 1,3,5-triazines, 1821-5

Synthesis of adamantane derivatives. Part 53. Simple synthesis of 7-thiaprotadamantane (7-thiatriacyclo[4.3.1.0^{3,8}]decane) and related derivatives via a regioselective and stereoselective intramolecular Friedel-Crafts reaction, 1953-8

Cyclodienones. Part 6. Preparation of 4-azido-2,4,6-tri-tert-

butylcyclohexa-2,5-dienone and its thermal, photochemical, and acid-catalyzed decomposition, 2841-8

AZIDE

Iodoazide adducts of exocyclic alkenes; structure and solvolysis, 315-25

Reactions of iodine(I) azide with $\alpha\beta$ -unsaturated carbonyl compounds, 327-33

Photolysis of quinolyl and isoquinolyl azides in primary and secondary aliphatic amines: synthesis of bicyclic azepines, diazepines, and quinolyl- and isoquinolyl diamines, 421-9

Photolysis of quinolyl and isoquinolyl azides in the presence of methoxide ions. Synthesis of benzodiazepines and pyridoazepines 431-3

Studies on v -triazoles. Part 4. The 4-methoxybenzyl group, a versatile N-protecting group for the synthesis of N-unsubstituted v -triazoles, 627-30

Photolysis of quinolyl azides in aliphatic thiols. Synthesis of o -alkylthioquinolylamine, 671-2

Reactions of norcarane and of norborn-2-ene with iodine(I) azide and iodine(I) chloride, 961-5

Photolysis and thermolysis of phenyl azide in acetic acid. Trapping of 1-azacyclohepta-1,2,4,6-tetraene and nucleophilic aromatic substitution, 1269-73

Heterocyclic polyfluoro compounds. Part 41. Photochemical isomerization of 1-substituted hexafluoro-1H-azepines: hexafluoro-2-azabicyclo[3.2.0]hepta-3,6-dienes and their reactions, 2105-9

Polyhalo allenes and acetylenes. Part 15. Dipolar cycloadditions of N-phenylsydnone and aryl azides to perfluoropropadiene and perfluoropropyne, 2207-10

AZIDO

Azonia-azulene salts. Part 5. Synthesis of 5H-pyrrolo[1,2-a]azepine and of 7H-pyrrolo[1,2-a]azepin-7-one, 1123-30

AZIDOACETIC

Synthesis of (2RS,5RS,6SR)-3-methoxycarbonyl-7-oxo-6-phenoxyacetamido-1-azabicyclo[3.2.0]hept-3-ene-2-carboxylic acid, 2123-9

AZIDODIPHENYLBUTENE

Azonia-azulene salts. Part 5. Synthesis of 5H-pyrrolo[1,2-a]azepine and of 7H-pyrrolo[1,2-a]azepin-7-one, 1123-30

AZIDIFORMATE

Heterocyclic polyfluoro compounds. Part 40. Preparation of polyfluoroazepines, 2101-4

AZIDOIODOBICYCLOHEPTANE

Reactions of norcarane and of norborn-2-ene with iodine(I) azide and iodine(I) chloride, 961-5

AZIDOIODOCYCLOHEPTANE

Reactions of norcarane and of norborn-2-ene with iodine(I) azide and iodine(I) chloride, 961-5

AZIDOIODOCYCLOHEXANE

Reactions of norcarane and of norborn-2-ene with iodine(I) azide and iodine(I) chloride, 961-5

AZIDOIODOMETHYLANDROSTANE

Iodoazide adducts of exocyclic alkenes; structure and solvolysis, 315-25

AZIDOMETHYLOXAZOLOPYRIMIDINONE

Intramolecular cyclization reactions in aliphatic thymidine analogs series, 223-7

AZIDONORBORNYL

Reactions of norcarane and of norborn-2-ene with iodine(I) azide and iodine(I) chloride, 961-5

AZIDONORBORNYL TETRAZOLE

Reactions of norcarane and of norborn-2-ene with iodine(I) azide and iodine(I) chloride, 961-5

AZIDOOXALKYLIDENE

Thermal reaction of N-(1-azido-2-oxoalkylidene)-N'-(o -alkenyloxyphenyl)hydrazines; intramolecular 1,4-cycloaddition of 1,2,4-triaza-1,3-diene intermediates, 755-8

AZIDOOXALKYLIDENEALKENYLOXYPHENYLHYDRAZINE

Thermal reaction of N-(1-azido-2-oxoalkylidene)-N'-(o -alkenyloxyphenyl)hydrazines; intramolecular 1,4-cycloaddition of 1,2,4-triaza-1,3-diene intermediates, 755-8

AZIDOPHENYLTHIO

The synthesis and reactions of 4H-tetrazolo[5,1-c][1,4]benzothiazines, 1879-84

AZIDOPHENYLTHIOACETONITRILE

The synthesis and reactions of 4H-tetrazolo[5,1-c][1,4]benzothiazines, 1879-84

AZIDOTRIBUTYLCYCLOHEXADIENONE

Cyclodienones. Part 6. Preparation of 4-azido-2,4,6-tri-tert-butylcyclohexa-2,5-dienone and its thermal, photochemical, and acid-catalyzed decomposition, 2841-8

AZIRIDINE

A novel synthesis of the 2-benzylisoquinoline alkaloids sendaverine and corgoine with aziridinium salts as reactive intermediates, 2399-401

AZIRIDIUM

A facile total synthesis of (\pm)-cherylline via an aziridinium intermediate, 2935-7

AZO

A novel and chemoselective preparation of chlorosulfonyl-containing azo dyes with phosphoryl chloride-N,N-dimethylacetamide, 1519-22

Aryl nitrenes from N,N'-diarylbenzoquinone diimine N,N'-dioxides and N-arylbenzoquinone imine N-oxides, 2023-6

AZOBENZOCROWN

Photoresponsive crown ethers. Part 6. Ion transport mediated by photoinduced cis-trans interconversion of azobis(benzocrown ethers), 2735-9

AZOCINE

Silver(I)-catalyzed oxidation of cyclic secondary amines with peroxodisulfate, 3031-5

AZODICARBOXYLATE

Structure and reactivity of enamines derived from 5,6-dihydro-2H-thiapyran-3(4H)-one 1,1-dioxide, 2045-50

AZOPYRIDINE

Photoresponsive crown ethers. Part 7. Proton and metal ion catalyses in the cis-trans isomerization of azopyridines and an azopyridine-bridged cryptand, 2741-7

AZOPYRIDINO

Photoresponsive crown ethers. Part 7. Proton and metal ion catalyses in the cis-trans isomerization of azopyridines and an azopyridine-bridged cryptand, 2741-7

AZOPYRIDINOCROWN

Photoresponsive crown ethers. Part 7. Proton and metal ion catalyses in the cis-trans isomerization of azopyridines and an azopyridine-bridged cryptand, 2741-7

BACILLUS

Studies of enzyme-mediated reactions. Part 14. Stereochemical course of the formation of cadaverine by decarboxylation of (2S)-lysine with lysine decarboxylase (E.C. 4.1.1.18) from *Bacillus cadaveris*, 449-53

BACTERICIDE

The chemistry of 4-mercaptoazetid-2-ones. Part 3. Synthesis of 6-phenoxyacetamido-2-alkylidenepenam-3-carboxylic acids, 1429-33

The chemistry of 4-mercaptoazetid-2-ones. Part 4. Synthesis of cyclopropanespiro-2-bisnorpenicillanic acids, 1435-9

Synthesis of (2RS,5RS,6SR)-3-methoxycarbonyl-7-oxo-6-phenoxyacetamido-1-azabicyclo[3.2.0]hept-3-ene-2-carboxylic acid, 2123-9

BARRIER

Synthesis, resolution, and racemization studies of 1,2-epoxy-1,2-dihydrochrysenes, 1535-9

Conformational behavior of medium-sized rings. Part 10. Dithiosalicylides and trithiosalicylides, 1637-48

Conformational behavior of medium-sized rings. Part 11. Dianthranilides and trianthranilides, 1649-99

Conformational behavior of medium-sized rings. Part 12. Tri-3-methyltrianthranilide, 1701-14

Conformational behavior of medium-sized rings. Part 13. 5,18-Dihydro- and 5,11,12,18-tetrahydrotribenzo[b,f,j][1,4]diazacyclododecine-6,17-diones, 1715-20

[4.2]- and [4.3]-Metacyclophanes, 2369-72

BASE

Synthesis of dihydrobenzofurans from phenolic Mannich bases and their quaternized derivatives, 841-8

Aspects of the chemistry of dehydromethionine, 1283-90

Synthesis and properties of a series of sterically hindered guanidine bases, 2085-90

BECKMANN

Photo-induced transformations. Part LXI. Syntheses of some six-membered and eight-membered lactams of the β -homo- and α -nor- β , β -dihomocholestane series by the photo-Beckmann rearrangement, 931-8

BENZALDEHYDE

2-(2-Nitrophenyl)oxaheterocycloniums: potential reagents for

oxidative deamination of primary amines, 137-42

Dihydrostilbenes of Cannabis. Synthesis of canniprene, 1467-75

Intramolecular reactions of pyridinium-2-carbonyl azides:

conversion of amines into aldehydes, 2953-6

Photochemistry of halogenated benzene derivatives. Part 2.

Photoreactions of α -substituted *p*-chlorotoluenes, 2957-61

BENZAMIDE

Studies on $S_{RN}1$ reactions. Part 6. Synthesis of 3-methyl derivatives of the alkaloids thalactamine, doryanine, and 6,7-dimethoxy-N-methyl-1(2H)-isoquinolone, 1149-52

BENZANNULATED

Syntheses and properties of trimethyltetrahydro[19]annulenes and the benzannulated derivatives, 31-42

Syntheses and properties of a trimethyltetrahydro[21]annulene and its benzannulated derivatives, 43-50

BENZAEPINE

Synthesis of 1H-1-benzazepines by thermolysis of 2a,7b-dihydro-3H-cyclobut[b]indoles, 741-8

Rearrangement of 1-(α -hydroxybenzyl)-1,2,3,4-tetrahydroisoquinolines to 1-phenyl-2,3,4,5-tetrahydro-1H-3-benzazepines, 2163-7

BENZENE

Addition reactions of benzo[b]thiophene. Part 4. Reactions of some acetoxy- and hydroxybenzo[b]thiophenes with benzene or toluene, 815-21

BENZENESELENINIC

Dehydrogenation of lactones using benzeneseleninic anhydride. X-ray crystal structure of 3 β -acetoxy-14 α -hydroxy-17 α -oxa-D-homo-5 α -androst-15-en-17-one, 1919-22

Oxidation of benzylic hydrocarbons with benzeneseleninic anhydride and related reactions, 2179-85

BENZENESELENOL

Conversion of toluenesulfonyl hydrazones of α -halo aldehydes and ketones into the corresponding phenylthio and phenylseleno derivatives, 2719-24

BENZENESULFENAMIDE

2,4-Dinitrobenzenesulfenyl nitrene: addition to (Z)- and (E)-1-phenylpropene, 2491-7

BENZENESULFENANILIDYL

Benzenesulfenyl radicals. Reactivity of 4'-methoxy- and 4'-methoxy-2-nitrobenzenesulfenyl radicals, 3049-53

BENZENESULFENYL

Ketenimine chemistry. Part 1. The reaction of triaryl ketenimines with arenesulfonyl chlorides, 1255-6

BENZENETHIOLATE

Reaction between 2,2'-anhydro-1- β -D-arabinofuranosyluracil and thiolate ions, 1625-8

BENZIMIDAZOLE

Practicable syntheses of 2-hydroxymethyl-substituted benzimidazoles and 2-formylbenzimidazole, 2871-5

BENZIMIDAZOLINONE

N-Bridged heterocycles. Part 5. α,ω -Bis(2-oxobenzimidazolyl)alkanes and -ethers as selective ligands for Group IA and IIA metals, 261-70

BENZIMIDAZOLOL

Practicable syntheses of 2-hydroxymethyl-substituted benzimidazoles and 2-formylbenzimidazole, 2871-5

BENZIMIDAZOLONE

N-Bridged heterocycles. Part 5. α,ω -Bis(2-oxobenzimidazolyl)alkanes and -ethers as selective ligands for Group IA and IIA metals, 261-70

BENZOATE

Bromo derivatives of dimethyl 4-oxo-trans-2,6-diphenylcyclohexane-1,1-dicarboxylate and their dehydrobromination, 101-5

2-(2-Nitrophenyl)oxaheterocycloniums: potential reagents for oxidative deamination of primary amines, 137-42

Depside synthesis. Part 21. A new synthesis of grisa-2',5'-diene-3,4'-diones, 403-11

Convenient syntheses of 5-substituted 2-hydroxybenzoates and related reactions, 665-9

Reactions of 3-acetylpropolone methyl ethers with guanidine and amidines, 1037-9

Synthesis of chlorinated isocoumarin derivatives, 1111-15

BENZOCYCLOBUTAINDOLIZINE

Azonia-azulenes. Part 6. Photochemical addition of alcohols to 10H-azepino[1,2-a]indoles, 1871-8

BENZOCYCLOBUTENE

Anthracylines. Part 2. Investigations relating to the synthesis of 4-demethoxyanthracylines, 2239-48

BENZODIAZEPINE

- Photolysis of quinolyl and isoquinolyl azides in the presence of methoxide ions. Synthesis of benzodiazepines and pyridozepines 431-3
- Stereochemical and mechanistic aspects of the base-promoted cyclization of *o*-vinylphenylhydrazonyl chlorides under phase-transfer conditions, 2041-4

BENZODIFURAN

- Synthesis of dihydrobenzofurans from phenolic Mannich bases and their quaternized derivatives, 841-8

BENZOFURAN

- Partially fluorinated heterocyclic compounds. Part 16. Preparation of furan derivatives from pentafluorophenyl and heptafluoro-2-naphthyl prop-2-ynyl ethers with aromatic compounds, and the isolation of hydrogen-abstraction products, 107-10
- Synthesis of dihydrobenzofurans from phenolic Mannich bases and their quaternized derivatives, 841-8
- Neoraufuracin and ambofuracin. Two novel 2-benzyl-2-*O*-(methyl- β -D-glucopyranos-2-yl)-trans-2,3-dihydrobenzofurans. Synthesis of the methylated aglycone, 1157-62
- Organoiron complexes in organic synthesis. Part 24. Studies in the synthesis and reactivity of 6-*exo*-substituted cyclohexadienylum-(tricarbonyl)iron salts, 2641-6
- Natural benzofurans: synthesis of the arylbenzofuran constituents of *Sophora tomentosa*, 3017-20

BENZOFURAN-CARBOXYLALDEHYDE

- Naturally occurring dibenzofurans. Part 1. A synthesis of cannabifuran, 1605-10
- Naturally occurring dibenzofurans. Part 2. The synthesis of schizopeltic acid, 2373-7

BENZOFURANIRON

- Organoiron complexes in organic synthesis. Part 24. Studies in the synthesis and reactivity of 6-*exo*-substituted cyclohexadienylum-(tricarbonyl)iron salts, 2641-6

BENZOFURANOL

- Spirans. Part 15. The effect of ring size upon the regioselective oxidative coupling of heterocyclic phenols, 2617-24

BENZOFUROBENZOPYRANQUINONE

- Synthesis of some pterocarpenes obtained from *Brya ebenus*, 1389-94

BENZOFURYL METHOXYCARBOXYL BUTENOATE

- Naturally occurring dibenzofurans. Part 1. A synthesis of cannabifuran, 1605-10

BENZOPYRANOTRIAZOLE

- Studies on *v*-triazoles. Part 4. The 4-methoxybenzyl group, a versatile *N*-protecting group for the synthesis of *N*-unsubstituted *v*-triazoles, 627-30

BENZOPYRIDOPYRAZINE

- Polyhaloaromatic compounds. Part 48. Reactions of tetrachloro-4-cyanopyridine with mono- and bifunctional nucleophiles, 2897-900

BENZOQUINOLINE-CARBOXYLATE

- Experiments towards the synthesis of the ergot alkaloids and related structures. Part 4. Lysergic acid - an attempted 'endo-amide' approach, 1897-903

BENZOQUINOLINONE

- Experiments towards the synthesis of the ergot alkaloids and related structures. Part 4. Lysergic acid - an attempted 'endo-amide' approach, 1897-903

BENZOQUINONE

- Interaction of copper complexes derived from 1,2-quinone monooximes (2-nitrosophenols) with amines, 1075-8
- Reaction of some 1,4-benzoquinone monooximes with methanolic hydrogen chloride, 1095-8
- Reactions of 4-hydroxycyclohexa-2,5-dienones under acidic conditions, 1499-507
- Aryl nitrenes from *N,N'*-diarylbenzoquinone diimine *N,N'*-dioxides and *N*-arylbenzoquinone imine *N*-oxides, 2023-6
- Alkyl nitrenes from *N*-alkylbenzoquinone imine *N*-oxides, 2027-34
- Photolysis of *N*-alkoxybenzoquinone imine *N*-oxides, 2035-9
- Cyclodienones. Part 6. Preparation of 4-azido-2,4,6-tri-*tert*-butylcyclohexa-2,5-dienone and its thermal, photochemical, and acid-catalyzed decomposition, 2841-8

BENZOQUINONEDIIMINE

- Benzenesulfenamidyl radicals. Reactivity of 4'-methoxy- and 4'-methoxy-2-nitrobenzenesulfenamidyl radicals, 3049-53

BENZOTHIAZEPINE

- Synthesis of heterocycles using a new immonium salt derived from *N,N*-dimethylthiourea, 1059-62

BENZOTHIAZINONE

- 1*H*-1,4-Benzothiazines. New cyclic sulfonium ylides, 831-4
- Studies of heterocyclic chemistry. Part 25. Intramolecular cyclizations of *N*-acylarylethanethioamides leading to thiazoles, 4*H*-1,3-thiazines, 4*H*-pyrido[3,2-*e*]-1,3-thiazines, and 4*H*-1,3-benzothiazines, 1239-44

BENZOTHIOPHENE

- Addition reactions of benzo[*b*]thiophene. Part 3. Addition and ring-opening reactions with phenolic ethers, 615-21
- Addition reactions of benzo[*b*]thiophene. Part 4. Reactions of some acetoxy- and hydroxybenzo[*b*]thiophenes with benzene or toluene, 815-21
- Studies on heterocyclic chemistry. Part 26. The ring transformation of 3-acylthio-4-aryl-3-isothiazoline-5-thiones to benzo[*b*]- and naphtho[2,1-*b*]thiophenes with an acylimino group at C-2 via the 2-arylethanethioamide derivatives, 2867-70

BENZOTHIOPHENONE

- Addition reactions of benzo[*b*]thiophene. Part 4. Reactions of some acetoxy- and hydroxybenzo[*b*]thiophenes with benzene or toluene, 815-21

BENZOTRIAZACYCLODODECINE

- Conformational behavior of medium-sized rings. Part 11. Dianthranilides and trianthranilides, 1649-99

BENZOXADIAZEPINE

- Synthesis of heterocycles using a new immonium salt derived from *N,N*-dimethylthiourea, 1059-62

BENZOXADIAZOLE

- Reactions of 4-hydroxycyclohexa-2,5-dienones under acidic conditions, 1499-507

BENZOXAPHOSPHOLE

- A stable bromoalkoxyphosphorane, a model for the postulated five-coordinate intermediate in the Arbuzov and related reactions 735-40

BENZOXAPHOSPHOLIUM

- A stable bromoalkoxyphosphorane, a model for the postulated five-coordinate intermediate in the Arbuzov and related reactions 735-40

BENZOXAZINE

- Preparation and reactions of 3-phenyl-4a,5,6,8a-tetrahydro-4*H*-1,2-benz[e]oxazines, 1891-5

BENZOXAZINONE

- Preparation and reactions of 3-phenyl-4a,5,6,8a-tetrahydro-4*H*-1,2-benz[e]oxazines, 1891-5

BENZOXAZINYLACETATE

- Synthesis and reactions of some novel imidazobenzoxazines and related systems, 1049-58

BENZOXAZOLE

- Photolysis and thermolysis of phenyl azide in acetic acid. Trapping of 1-azacyclohepta-1,2,4,6-tetraene and nucleophilic aromatic substitution, 1269-73

BENZOXOCIN

- Acid-catalyzed cyclizations: structures of novel products isolated in the reaction of 2-[3-(2,6-dimethoxyphenyl)but-2-enyl]-2-methylcyclopentane-1,3-dione with methanol-hydrochloric acid, 2791-4

BENZOYL

- Synthetic enzymes. Part 2. Catalytic asymmetric epoxidation by means of polyamino acids in a triphase system, 1317-24
- Formation of isocyanates by deoxygenation of *C*-nitrosocarbonyl compounds, 1571-4

BENZOYLACETATE

- Synthesis and NMR spectra of 2,6- and 2,4-diaryl-3,7-dioxabicyclo[3.3.0]octanes, 183-90
- Studies of heterocyclic compounds. Part 28. Condensation of 3-substituted 5-phenyl-1,2-dithioliylum salts with 2-amino-*N*-heterocycles, 499-507

BENZOYLAMINO

- Steric factors in heterocyclic rearrangements. *N*-Methyl-*N*-phenylhydrazones of 3-benzoyl-5-phenyl-1,2,4-oxadiazole, 165-7
- Ring transformation of 3-(2-aminoaryl)-1,2,4-oxadiazoles into 3-acylaminoindazoles; extension of the Boulton-Katritzky scheme, 759-66
- Structure and conformation of *N*-benzoyl derivatives of the biologically important 3-amino-2,3,6-trideoxy-*L*-hexoses and their synthetic precursor γ - and δ -lactones; a proton and carbon-13 nuclear magnetic resonance study, 885-91

BENZOYLAMINOMETHYLINDAZOLE

- Steric factors in heterocyclic rearrangements. *N*-Methyl-*N*-

- BENZOYLAMINOMETHYLINDAZOLE**(contd)
phenylhydrazones of 3-benzoyl-5-phenyl-1,2,4-oxadiazole, 165-7
- BENZOYLAMINOPHENYLTRIAZOLE**
Steric factors in heterocyclic rearrangements. N-Methyl-N-phenylhydrazones of 3-benzoyl-5-phenyl-1,2,4-oxadiazole, 165-7
- BENZOYLAMINOTRIDEOXYHEXONOLACTONE**
Structure and conformation of N-benzoyl derivatives of the biologically important 3-amino-2,3,6-trideoxy-L-hexoses and their synthetic precursor γ - and δ -lactones; a proton and carbon-13 nuclear magnetic resonance study, 885-91
- BENZOYLAMINOTRIDEOXYHEXOSE**
Structure and conformation of N-benzoyl derivatives of the biologically important 3-amino-2,3,6-trideoxy-L-hexoses and their synthetic precursor γ - and δ -lactones; a proton and carbon-13 nuclear magnetic resonance study, 885-91
- BENZOYLBUTANEDIOATE**
Synthesis and NMR spectra of 2,6- and 2,4-diaryl-3,7-dioxabicyclo[3.3.0]octanes, 183-90
- BENZOYL CYCLOPROPANE**
Lewis acid-catalyzed reactions of aryl cyclopropyl ketones. Scope and mechanism, 1029-35
- BENZOYL CYCLOPROPANECARBOXYLATE**
Total synthesis of (\pm)-picropodophyllone, 271-6
- BENZOYL METHYLEPOXYIMINOANTHRACENE**
Formation of isocyanates by deoxygenation of C-nitrosocarbonyl compounds, 1571-4
- BENZOYLOXY**
Studies related to maytansinoids, 1541-51
Stereochemistry of the reduction of 3 β -benzoyloxycholesterol-5-en-4-one with sodium borohydride, 1937-40
- BENZOYLOXYCHOLESTENONE**
Stereochemistry of the reduction of 3 β -benzoyloxycholesterol-5-en-4-one with sodium borohydride, 1937-40
- BENZOYLOXYDIHYDROXYCYCLOHEXANONE**
Studies related to maytansinoids, 1541-51
- BENZOYLPHENYL CYCLOPROPANECARBOXYLATE**
Lewis acid-catalyzed reactions of aryl cyclopropyl ketones. Scope and mechanism, 1029-35
- BENZOYLPHENYLDITHIOLIMINE**
Photochemical and thermal reactions of heterocycles. Part 3. Photoisomerization, photofragmentation, and photodimerization of mesoionic 1,3-dithiol-4-one and -4-imine derivatives, 1885-9
- BENZOYLPHENYLOXADIAZOLE**
Steric factors in heterocyclic rearrangements. N-Methyl-N-phenylhydrazones of 3-benzoyl-5-phenyl-1,2,4-oxadiazole, 165-7
- BENZOYLSTYRENE**
Synthetic enzymes. Part 2. Catalytic asymmetric epoxidation by means of polyamino acids in a triphase system, 1317-24
- BENZYL**
Synthesis of gambirtannine derivatives by photocyclization of enamine intermediates, 59-62
2-(2-Nitrophenyl)oxaheterocycloniums: potential reagents for oxidative deamination of primary amines, 137-42
Investigations into the mechanism of the action of alkali in methanol on 3,6-dibenzyl-s-tetrazines and their 1,4-dihydro-derivatives: the role of s-tetrazines as hydride acceptors and an x-ray determination of the structure of 3,6-bis(4-chlorobenzyl)-1,4-dihydro-s-tetrazine, 1165-70
Dinitrones from C-benzyl nitrones, 1395-8
1,3,4-Oxadiazol-2(3H)-one formation from N-acylaminobiurets and related compounds and from S-benzyl 3-acyl(thiocarbazate-s), 2019-21
Tricyclic products from the reaction between penicillin derived thiazolineazetidionones and ethyl diazoacetate. X-ray structure of methyl 2-[(1R,3S,4R,5S,6S,8R)-3-benzyl-4,5-bismethoxycarbonyl-6-ethoxycarbonyl-9-oxo-7,10-diaza-2-thiatricyclo[6.2.0.0.3-7]decan-10-yl]-3-methylbut-2-enoate, 2169-73
Bridged-ring nitrogen compounds. Part 6. Synthesis of the 2,5-methano-3-benzazocine ring system, 2927-33
Photochemistry of halogenated benzene derivatives. Part 2. Photoreactions of α -substituted p-chlorotoluenes, 2957-61
- BENZYLAMINE**
Vicinal multifunctional compounds. Tautomerism and isomerism in the condensation products of 2-hydroxyimino-3-oxobutanal or 3-hydroxyiminopentane-2,4-dione with benzylamines, 1013-18
- BENZYLAMINO**
Structure and conformation of N-benzoyl derivatives of the biologically important 3-amino-2,3,6-trideoxy-L-hexoses and their synthetic precursor γ - and δ -lactones; a proton and carbon-13 nuclear magnetic resonance study, 885-91
Vicinal multifunctional compounds. Tautomerism and isomerism in the condensation products of 2-hydroxyimino-3-oxobutanal or 3-hydroxyiminopentane-2,4-dione with benzylamines, 1013-18
- BENZYLAMINOHYDROXYIMINOPENTANONE**
Vicinal multifunctional compounds. Tautomerism and isomerism in the condensation products of 2-hydroxyimino-3-oxobutanal or 3-hydroxyiminopentane-2,4-dione with benzylamines, 1013-18
- BENZYLAMINONITROSOBUTENAMINONE**
Vicinal multifunctional compounds. Tautomerism and isomerism in the condensation products of 2-hydroxyimino-3-oxobutanal or 3-hydroxyiminopentane-2,4-dione with benzylamines, 1013-18
- BENZYLAZIDOCARBONYLPYRIDINIUM**
Intramolecular reactions of pyridinium-2-carbonyl azides: conversion of amines into aldehydes, 2953-6
- BENZYLDIARYLPYRIMIDINONE**
Metalation studies with pyrimidines, 153-8
- BENZYLMALONYL**
Heterocyclic syntheses with malonyl chloride. Part 14. A direct synthesis of 4,6-dichloropyrimidines with 5-benzyl or -phenyl and 2-thioalkyl or -thiophenyl substituents, 2499-503
- BENZYL METHANOBENZAZOCINE**
Bridged-ring nitrogen compounds. Part 6. Synthesis of the 2,5-methano-3-benzazocine ring system, 2927-33
- BENZYL METHANOBENZAZOCINEDIONE**
Bridged-ring nitrogen compounds. Part 6. Synthesis of the 2,5-methano-3-benzazocine ring system, 2927-33
- BENZYL METHOXYMETHYLENECARBOLINE**
Synthesis of gambirtannine derivatives by photocyclization of enamine intermediates, 59-62
- BENZYLOXY**
Dihydrostilbenes of Cannabis. Synthesis of canniprene, 1467-75
- BENZYLOXYALKYLDIPHENYLPHOSPHINE**
A stable bromoalkoxyphosphorane, a model for the postulated five-coordinate intermediate in the Arbuzov and related reactions 735-40
- BENZYLOXYBENZALDEHYDE**
Dihydrostilbenes of Cannabis. Synthesis of canniprene, 1467-75
- BENZYLOXYMETHOXYBENZYL**
A novel synthesis of the 2-benzylisoquinoline alkaloids sendaverine and corgoine with aziridinium salts as reactive intermediates, 2399-401
- BENZYLOXYMETHOXYBENZYL AZIRIDINE**
A novel synthesis of the 2-benzylisoquinoline alkaloids sendaverine and corgoine with aziridinium salts as reactive intermediates, 2399-401
- BENZYLOXYMETHYL**
Further studies on the protection of histidine side chains in peptide synthesis: the use of the π -benzyloxymethyl group, 1553-61
The crystal structure of N(α)-tert-butoxycarbonyl-N(π)-benzyloxymethyl-L-histidine, 3045-8
- BENZYLOXYSTILBENE**
Dihydrostilbenes of Cannabis. Synthesis of canniprene, 1467-75
- BENZYL PYRIDINIUM**
2-(2-Nitrophenyl)oxaheterocycloniums: potential reagents for oxidative deamination of primary amines, 137-42
- BENZYL TETRAHYDROISOQUINOLINIUM**
Nuclear magnetic resonance and x-ray stereochemical studies on 1-benzyltetrahydroisoquinolinium salts, 2067-77
- BENZYL TETRAZINE**
Investigations into the mechanism of the action of alkali in methanol on 3,6-dibenzyl-s-tetrazines and their 1,4-dihydro-derivatives: the role of s-tetrazines as hydride acceptors and an x-ray determination of the structure of 3,6-bis(4-chlorobenzyl)-1,4-dihydro-s-tetrazine, 1165-70
- BENZYL TRIBENZODIAZACYCLODODECINEDIONE**
Conformational behavior of medium-sized rings. Part 13. 5,18-Dihydro- and 5,11,12,18-tetrahydrotribenzo[b,f,j][1,4]diazacyclododecane-6,17-diones, 1715-20
- BENZZYNE**
Reactions of spiroindazoles containing keto groups. Part 2. Evidence for a spirobenzocyclopropene intermediate in the

- BENZYLNE**(contd)
thermolysis of anthrone-10-spiro-3'-3'H-indazoles to benz[a]aceanthrylenes, 577-9
- BETA**
Synthetic application of azetidins-2-ones to a synthesis of furan derivatives, 257-60
Studies related to penicillins. Part 21. β -Elimination reactions of S,S-dioxides of penicillanic esters, 595-602
Synthesis of novel β -lactamase inhibitors from clavulanic acid. Preparation and chemical reactions of (5R)-3-vinyl-4-oxa-1-azabicyclo[3.2.0]hept-2-en-7-one, 1509-17
Synthesis of β -lactams from imines and 1-lithiooxy-2-phenylacetylene, 2193-6
- BETAINE**
Versatile synthesis of sulfamate esters by phase-transfer methods, 677-9
Base catalyzed rearrangements involving ylide intermediates. Part 14. Rearrangement of 4-oxidoanilinium ylides and 3-oxidoanilinium betaines, 893-901
Reactions of 1-alkoxycarbonylpyridinium salts with nucleophiles: stereoelectronic restrictions on carbonyl activation of α -nucleophilic attack, 2365-8
- BIAZEPINE**
Silver(I)-catalyzed oxidation of cyclic secondary amines with peroxodisulfate, 3031-5
- BIAZETIDINE**
Silver(I)-catalyzed oxidation of cyclic secondary amines with peroxodisulfate, 3031-5
- BIBENZYL**
Natural products of Thailand high δ^1 -THC-strain Cannabis. The bibenzyl-spiran-dihydrophenanthrene group: relations with cannabinoids and canniflavones, 1455-66
- BICYCLIC**
Reductive cleavage of propellane-type diazanium dications as a route to medium sized ring bicyclic diamines with bridgehead nitrogen atoms, 603-9
- BICYCLODECANONE**
Synthetic studies on terpenoids. Part 7. Synthetic studies leading to the total synthesis of eudesmane sesquiterpenes, 2547-51
- BICYCLODODECANESPIROOXIRANE**
Synthesis of polyoxygenated trans-decalins as potential insect antifeedants, 2157-62
- BICYCLOHEPTANONE**
Synthesis of stable prostacyclin analogs from 2,3-disubstituted bicyclo[3.2.0]heptan-6-ones, 823-30
- BICYCLOHEXADIENYLIDENEDIONE**
Oxidation of alkoxyphenols. Part 26. The trimer of a 2,2'-diphenylquinone (1,1'-bicyclohexa-3,5-dienylidene-2,2'-dione), 2855-62
- BICYCLONONADIENE**
Reactions involving fluoride ion. Part 25. A fluoride-ion-induced skeletal rearrangement, 673-6
- BICYCLONONANE**
On the stereochemistry of Grignard addition to bicyclo[3.3.1]nonan-2-one. Preferential axial attack on a cyclohexanone system by a bulky nucleophile, 979-82
- BICYCLONONANOL**
On the stereochemistry of Grignard addition to bicyclo[3.3.1]nonan-2-one. Preferential axial attack on a cyclohexanone system by a bulky nucleophile, 979-82
- BICYCLONONANONE**
On the stereochemistry of Grignard addition to bicyclo[3.3.1]nonan-2-one. Preferential axial attack on a cyclohexanone system by a bulky nucleophile, 979-82
- BICYCLOOCTADIENEDIONE**
Cyclodienones. Part 8. Hydrolysis of 5-oxo-2,4-di-tert-butylcyclopenta-1,3-dienecarbonitrile, 243-6
- BICYCLOOCTANEDIONE**
Acid-catalyzed cyclizations: structures of novel products isolated in the reaction of 2-[3-(2,6-dimethoxyphenyl)but-2-enyl]-2-methylcyclopentane-1,3-dione with methanol-hydrochloric acid, 2791-4
- BICYCLOOCTANOL**
On the stereochemistry of Grignard addition to bicyclo[3.3.1]nonan-2-one. Preferential axial attack on a cyclohexanone system by a bulky nucleophile, 979-82
- BIFISSETINIDOL**
Synthesis of condensed tannins. Part 5. The first angular [4,6:4,8]triflavanoids and their natural counterparts, 527-33
- BIFISSETINIDOLCATECHIN**
Synthesis of condensed tannins. Part 5. The first angular [4,6:4,8]triflavanoids and their natural counterparts, 527-33
- BIFISSETINIDOLMOLLISACACIDIN**
Synthesis of condensed tannins. Part 6. The sequence of units, coupling positions, and absolute configuration of the first linear [4,6:4,6]triflavanoid with terminal 3,4-diol function, 535-40
- BIFLAVANOID**
Synthesis of condensed tannins. Part 6. The sequence of units, coupling positions, and absolute configuration of the first linear [4,6:4,6]triflavanoid with terminal 3,4-diol function, 535-40
- BILANE**
Biosynthesis of porphyrins and related macrocycles. Part 17. Chemical and enzymic transformation of isomeric aminomethylbilanes into uroporphyrinogens: proof that unrearranged bilane is the preferred enzymic substrate and detection of a transient intermediate, 2413-26
Biosynthesis of porphyrins and related macrocycles. Part 18. Proof by spectroscopy and synthesis that unrearranged hydroxymethylbilane is the product from deaminase and the substrate for cosynthetase in the biosynthesis of uroporphyrinogen-III, 2427-44
- BILINDIONE**
The meso-reactivity of porphyrins and related compounds. Part VIII. Substitution and addition reactions of octaethyl-21H,24H-bilin-1,19-dione, a model verdin system. X-ray analyses of octaethyl-5-nitro-21H,24H-bilin-1,19-dione and of 4,5-dithoxyoctaethyl-4,5-dihydro-21H,24H-bilin-1,19-dione, 1291-302
- BIOL**
Amino-acids and peptides. Part 46. Synthesis of bradykinin analogs modified in the vicinity of the carboxy-group, 1229-37
Active and passive transport of amino acid and oligopeptide derivatives by artificial ionophore-potassium ion complexes, 2359-63
- BIOSYNTHESIS**
6-Farnesyl-5,7-dihydroxy-4-methylphthalide oxidation mechanism in mycophenolic acid biosynthesis, 365-73
Synthesis of condensed tannins. Part 5. The first angular [4,6:4,8]triflavanoids and their natural counterparts, 527-33
Biosynthesis of rotenoids by *Amorpha fruticosa*: sequence, specificity, and stereochemistry in the development of the hemiterpenoid segment, 789-97
Biosynthesis of aristolochic acid, 1153-5
Natural products of Thailand high δ^1 -THC-strain Cannabis. The bibenzyl-spiran-dihydrophenanthrene group: relations with cannabinoids and canniflavones, 1455-66
The biosynthesis of the β -carboline alkaloids, harman and eleagnine, 1523-5
The biosynthesis of thiamine. Syntheses of [1,1,1,5-²d₄]-1-deoxy-D-threo-2-pentulose and incorporation of this sugar in biosynthesis of thiazole by *Escherichia coli* cells, 2131-7
Biosynthesis of citreoviridin. A carbon-13 NMR study, 2175-8
Studies in terpenoid biosynthesis. Part 25. The fate of the mevalonoid hydrogen atoms in the biosynthesis of the sesquiterpenoid, dihydrobotrydial, 2187-92
Studies in terpenoid biosynthesis. Part 26. Applications of deuterium and carbon-13 NMR spectroscopy to the biosynthesis of the illudin sesquiterpenoids, 2445-8
Studies on plant tissue cultures. Part 36. Biosynthesis of a retrochalcone, echinatin, and other flavonoids in the cultured cells of *Glycyrrhiza echinata*. A new route to a chalcone with transposed A- and B-rings, 2725-34
Studies in terpenoid biosynthesis. Part 27. The acetate and mevalonate labeling patterns of the sesquiterpenoid, alliacolide, 2787-90
The biosynthesis of chlorine-containing metabolites of *Periconia macrospinos*, 3037-9
- BIPHENYL**
Synthesis of substituted dibenzophospholes. Part 2. Syntheses of intermediate biphenyls and quaterphenyls, 2299-315
- BIPERIDINE**
Silver(I)-catalyzed oxidation of cyclic secondary amines with peroxodisulfate, 3031-5
- BIPYRIDINE**
An improved synthesis of amphiphilic 4,4'-disubstituted 2,2'-bipyridines, 3041-3
- BIRCH**
C-Aromatic steroids. Synthesis of 11,17 ξ -dimethoxy-18-

- BIRCH**(contd)
norandrosta-4,8,11,13-tetraen-3-one, 201-4
Studies in metal-ammonia reduction. Part 3. Reduction and reductive methylation of some acyl-naphthalenes with metal-ammonia solutions, 875-80
- BISACYL**
Conformational behavior of medium-sized rings. Part 13. 5,18-Dihydro- and 5,11,12,18-tetrahydrotribenzo[b,f,j][1,4]diazacyclododecine-6,17-diones, 1715-20
- BISBENZOTHIENOPYRAN**
Ring contractions of thiochroman-4-ones and thiochromen-4-ones 395-402
- BISCHLOROBENZYL TETRAZINE**
Investigations into the mechanism of the action of alkali in methanol on 3,6-dibenzyl-s-tetrazines and their 1,4-dihydro-derivatives: the role of s-tetrazines as hydride acceptors and an x-ray determination of the structure of 3,6-bis(4-chlorobenzyl)-1,4-dihydro-s-tetrazine, 1165-70
- BISENOLATE**
Convenient syntheses of 5-substituted 2-hydroxybenzoates and related reactions, 665-9
- BISHOMOFARNESENE**
Structures of homofarnesene and bishomofarnesene isomers from Myrmica ants, 949-51
- BISHYDROXYPHENYL**
Regiospecificity in reactions of metal phenoxides. Synthesis of 2,2'-alkylidenebisphenols, 805-8
- BISISOFLAVENYL**
The enamine route to 2-morpholinisoflav-3-ene, 1193-6
- BISMETHOXYCARBONYL**
Thermal, photochemical, and acid-catalyzed rearrangements of the spiro dimer of α,α' -bis(methoxycarbonyl)-o-quinodimethane. X-ray crystal structure of trans,trans-tetrakis(methoxycarbonyl)dibenzof[a,e]-cyclooctene, 2257-63
- BISMETHOXYCARBONYLQUINODIMETHANE**
Thermal, photochemical, and acid-catalyzed rearrangements of the spiro dimer of α,α' -bis(methoxycarbonyl)-o-quinodimethane. X-ray crystal structure of trans,trans-tetrakis(methoxycarbonyl)dibenzof[a,e]-cyclooctene, 2257-63
- BISNITROPHENYLHYDRAZONE**
Reactions of mercury(II) acetate with nitrogen compounds. Part 9. Oxidations of the bis(4-nitrophenylhydrazones) of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553-5
- BISPHENOL**
Regiospecificity in reactions of metal phenoxides. Synthesis of 2,2'-alkylidenebisphenols, 805-8
- BISPHENYLTHIO**
Benzenesulfenanilidyl radicals. Reactivity of 4'-methoxy- and 4'-methoxy-2-nitrobenzenesulfenanilidyl radicals, 3049-53
- BIURET**
1,3,4-Oxadiazol-2(3H)-one formation from N-acylaminobiurets and related compounds and from S-benzyl 3-acyl(thiocarbazate-s), 2019-21
- BONINENAL**
Studies on the chemical constituents of rutaceous plants. Part 45. Novel phenyl propanoids: cuspidiol, boninenal, and methyl boninenalate, 2051-8
- BONINENALATE**
Studies on the chemical constituents of rutaceous plants. Part 45. Novel phenyl propanoids: cuspidiol, boninenal, and methyl boninenalate, 2051-8
- BORON**
Regioselective ether cleavages of rotenoids: spiro-ether formation and stereoselective isotopic labeling of (E)- or (Z)-prenyl methyl groups in (6aS, 12aS)-rot-2'-enonic acid, 779-88
Regiospecific annulations of substituted tropones with ethane-1,2-dithiol, 1865-9
- BOTRYDIAL**
Studies in terpenoid biosynthesis. Part 25. The fate of the mevalonoid hydrogen atoms in the biosynthesis of the sesquiterpenoid, dihydrobotrydial, 2187-92
- BOTRYTIS**
Studies in terpenoid biosynthesis. Part 25. The fate of the mevalonoid hydrogen atoms in the biosynthesis of the sesquiterpenoid, dihydrobotrydial, 2187-92
- BRADYKININ**
Amino-acids and peptides. Part 46. Synthesis of bradykinin analogs modified in the vicinity of the carboxy-group, 1229-37
- BREFELDIN**
7- ϵ -Brefeldin A, a cometabolite of brefeldin A in *Curvularia lunata*, 2387-90
- BRIDGED**
N-Bridged heterocycles. Part 5. α,ω -Bis(2-oxobenzimidazolyl)alkanes and -ethers as selective ligands for Group IA and IIA metals, 261-70
Quinone-capped porphyrins: synthesis and some chemical properties, 1611-15
- BRIDGEHEAD**
Reductive cleavage of propellane-type hydrazinium dications as a route to medium sized ring bicyclic diamines with bridgehead nitrogen atoms, 603-9
- BROMIDE**
Synthesis of gambirtannine derivatives by photocyclization of enamine intermediates, 59-62
Studies on intramolecular cycloaddition reactions of some isoquinolinium salts, 249-55
On the double bond isostere of the peptide bond: preparation of an enkephalin analog, 307-14
A stable bromoalkoxyphosphorane, a model for the postulated five-coordinate intermediate in the Arbuzov and related reactions 735-40
Regiospecificity in reactions of metal phenoxides. Synthesis of 2,2'-alkylidenebisphenols, 805-8
Dihydrostilbenes of Cannabis. Synthesis of canniprene, 1467-75
Synthesis of a nonasaccharide containing terminal N-acetyl- β -D-lactosaminyl residues, part of the 'complex-type' carbohydrate moiety of glycoproteins, 1841-4
- BROMINATION**
Bromo derivatives of dimethyl 4-oxo-trans-2,6-diphenylcyclohexane-1,1-dicarboxylate and their dehydrobromination, 101-5
Ring contractions of thiochroman-4-ones and thiochromen-4-ones 395-402
A stable bromoalkoxyphosphorane, a model for the postulated five-coordinate intermediate in the Arbuzov and related reactions 735-40
Triazolopyridines. Part 2. Preparation of 7-substituted triazolo[1,5-a]pyridines by directed lithiation, 967-71
Electrophilic aromatic substitution of catechins: bromination and benzylation, 973-8
Cross-linked poly-(4-vinylpyridine-styrene)-bromine complexes as stereoselective brominating agents, 2059-62
Heterocyclic polyfluoro compounds. Part 41. Photochemical isomerization of 1-substituted hexafluoro-1H-azepines: hexafluoro-2-azabicyclo[3.2.0]hepta-3,6-dienes and their reactions, 2105-9
Crown ethers as molecular bromine carriers for bromination reactions, 2153-6
Synthesis and characterization of representative octa-1,3,5,7-tetraenes and deca-1,3,5,7,9-pentaenes, 2379-85
Silyl phosphites. Part 20. A facile synthesis of phosphoenolpyruvate and its analog utilizing in situ generated trimethylsilyl bromide, 2509-13
Reactions of 2-chloro-N,N-diethyl-1,1,2-trifluoroethylamine with alcohols. Part 4. In the presence of lithium bromide and dimethyl sulfide: preparation of bromo- and methylsulfinylgibberellins, 2571-4
- BROMINE**
Cross-linked poly-(4-vinylpyridine-styrene)-bromine complexes as stereoselective brominating agents, 2059-62
Crown ethers as molecular bromine carriers for bromination reactions, 2153-6
- BROMINOLYSIS**
Oxymetalation. Part 17. tert-Butyl peroxymercuriation and subsequent demercuriation of phenylcyclopropane, 1807-9
- BROMO**
Bromo derivatives of dimethyl 4-oxo-trans-2,6-diphenylcyclohexane-1,1-dicarboxylate and their dehydrobromination, 101-5
A stable bromoalkoxyphosphorane, a model for the postulated five-coordinate intermediate in the Arbuzov and related reactions 735-40
Cobaloximes. Part 3. A cobaloxime synthesis for use with reactive alkyl halides, 1025-8
Studies on $S_{RN}1$ reactions. Part 6. Synthesis of 3-methyl derivatives of the alkaloids thalactamine, doryanine, and 6,7-dimethoxy-N-methyl-1(2H)-isoquinoline, 1149-52
The chemistry of 4-mercaptoazetidin-2-ones. Part 3. Synthesis of 6-phenoxyacetamido-2-alkylidene-penam-3-carboxylic acids,

BROMO(contd)

- 1429-33
Cross-linked poly-(4-vinylpyridine-styrene)-bromine complexes as stereoselective brominating agents, 2059-62
Heterocyclic syntheses with malonyl chloride. Part 14. A direct synthesis of 4,6-dichloropyrimidines with 5-benzyl or -phenyl and 2-thioalkyl or -thiophenyl substituents, 2499-503
Reactions of 2-chloro-N,N-diethyl-1,1,2-trifluoroethylamine with alcohols. Part 4. In the presence of lithium bromide and dimethyl sulfide: preparation of bromo- and methylsulfinylgibberellins, 2571-4
- BROMOACETAMIDE**
Reaction of 1-substituted indenenes with diborane or N-bromoacetamide in protic solvents. The effect of the substituent on the stereochemistry of addition, 79-83
- BROMOACETYLAMINODIARYLAZO**
The copper-promoted reaction of o-halodiarylazo compounds with nucleophiles. Part 3. The copper-promoted reaction of o-bromodiarylazo compounds with carboxylate ions. A novel method for the preparation of o-hydroxydiarylazo compounds, 1775-82
- BROMOALKANE**
Polyhaloaromatic compounds. Part 46. Circumstantial evidence for the intermediacy of radical anions during the reaction of magnesium with ω -bromoalkoxypolychloro-arenes and -heteroarenes, 93-9
One-pot conversions of amines into olefins via nonisolated pyridinium intermediates, 2347-52
- BROMOALKOXY**
Polyhaloaromatic compounds. Part 46. Circumstantial evidence for the intermediacy of radical anions during the reaction of magnesium with ω -bromoalkoxypolychloro-arenes and -heteroarenes, 93-9
- BROMOALKOXYDICHLORODIFLUOROPYRIDINE**
Polyhaloaromatic compounds. Part 46. Circumstantial evidence for the intermediacy of radical anions during the reaction of magnesium with ω -bromoalkoxypolychloro-arenes and -heteroarenes, 93-9
- BROMOALKOXPENTACHLOROBENZENE**
Polyhaloaromatic compounds. Part 46. Circumstantial evidence for the intermediacy of radical anions during the reaction of magnesium with ω -bromoalkoxypolychloro-arenes and -heteroarenes, 93-9
- BROMOALKOXYPHOSPHORANE**
A stable bromoalkoxyphosphorane, a model for the postulated five-coordinate intermediate in the Arbuzov and related reactions 735-40
- BROMOALKOXYTETRACHLOROPYRIDINE**
Polyhaloaromatic compounds. Part 46. Circumstantial evidence for the intermediacy of radical anions during the reaction of magnesium with ω -bromoalkoxypolychloro-arenes and -heteroarenes, 93-9
- BROMOALLENECARBOXYLATE**
The chemistry of 4-mercaptoazetidino-2-ones. Part 3. Synthesis of 6-phenoxyacetamido-2-alkylidenepenam-3-carboxylic acids, 1429-33
- BROMOARYLAZO**
The copper-promoted reaction of o-halodiarylazo compounds with nucleophiles. Part 3. The copper-promoted reaction of o-bromodiarylazo compounds with carboxylate ions. A novel method for the preparation of o-hydroxydiarylazo compounds, 1775-82
- BROMOBENZAMIDE**
Studies on $S_{RN}1$ reactions. Part 6. Synthesis of 3-methyl derivatives of the alkaloids thalactamine, doryanine, and 6,7-dimethoxy-N-methyl-1(2H)-isoquinoline, 1149-52
- BROMOBENZOATE**
Depsidone synthesis. Part 21. A new synthesis of grisa-2',5'-diene-3,4'-diones, 403-11
Studies on $S_{RN}1$ reactions. Part 6. Synthesis of 3-methyl derivatives of the alkaloids thalactamine, doryanine, and 6,7-dimethoxy-N-methyl-1(2H)-isoquinoline, 1149-52
- BROMOBENZOYLACETATE**
Synthesis and NMR spectra of 2,6- and 2,4-diaryl-3,7-dioxabicyclo[3.3.0]octanes, 183-90
- BROMOCYANOACETATE**
Sulfur extrusion reactions. Part 5. Reactions of monoproctic thioureas with ethyl α -chloroacetoacetate, ethyl bromomalonate, and ethyl bromocynoacetate, 653-6
- BROMOCYANOBUTENE**
Homolytic displacements at carbon. Part 8. Synthesis of 1-cyano-2-(trichloroethyl)cyclopropanes from allylcobaloximes via but-3-enylcobaloximes and 1-bromo-1-cyanobut-3-enes, 645-51
- BROMODIFLUOROHALOMETHANE**
Reactivity of the perhaloalkanes bromochloro- and dibromodifluoromethane with nucleophiles. Part 4. Condensation with carbanions, 1063-5
- BROMODIFLUOROMETHYLPHENYLACETYLENE**
Reactivity of the perhaloalkanes bromochloro- and dibromodifluoromethane with nucleophiles. Part 4. Condensation with carbanions, 1063-5
- BROMODIMETHYLDIPHENYLBENZOXAPHOSPHOLE**
A stable bromoalkoxyphosphorane, a model for the postulated five-coordinate intermediate in the Arbuzov and related reactions 735-40
- BROMODIPHENYLOXOCYCLOHEXANEDICARBOXYLATE**
Bromo derivatives of dimethyl 4-oxo-trans-2,6-diphenylcyclohexane-1,1-dicarboxylate and their dehydrobromination, 101-5
- BROMOGIBBERELLIN**
Reactions of 2-chloro-N,N-diethyl-1,1,2-trifluoroethylamine with alcohols. Part 4. In the presence of lithium bromide and dimethyl sulfide: preparation of bromo- and methylsulfinylgibberellins, 2571-4
- BROMOHYDROXYINDAN**
Chemical synthesis and optical purity determination of optically active 1,2-epoxyindan and alcohol products which are also derived from mammalian or microbial metabolism of indene or indanones, 2767-70
- BROMOINDAN**
Reaction of 1-substituted indenenes with diborane or N-bromoacetamide in protic solvents. The effect of the substituent on the stereochemistry of addition, 79-83
- BROMOISOBUTYRANILIDE**
Base-promoted reactions of α -haloalkylanilides, 2969-72
- BROMOMALONATE**
Sulfur extrusion reactions. Part 5. Reactions of monoproctic thioureas with ethyl α -chloroacetoacetate, ethyl bromomalonate, and ethyl bromocynoacetate, 653-6
- BROMOMALONYL**
Heterocyclic syntheses with malonyl chloride. Part 14. A direct synthesis of 4,6-dichloropyrimidines with 5-benzyl or -phenyl and 2-thioalkyl or -thiophenyl substituents, 2499-503
- BROMOMERCURIOPHENYLPROPYL**
Oxymetalation. Part 17. tert-Butyl peroxymercuriation and subsequent demercuriation of phenylcyclopropane, 1807-9
- BROMOMETHYLALKOXYBENZENE**
A novel synthesis of the 2-benzylisoquinoline alkaloids sendaverine and corgoine with aziridinium salts as reactive intermediates, 2399-401
- BROMOMETHYLBUTENE**
A convenient solvent-specific synthesis of 4-[4-acetoxy-3-(3-methylbut-2-enyl)phenyl]butyric acid, 1601-3
- BROMOMETHYLHYDROXYALKYL PYRIDINE**
Triazolopyridines. Part 2. Preparation of 7-substituted triazolo[1,5-a]pyridines by directed lithiation, 967-71
- BROMOMETHYLOXOPENTANOATE**
The preparation of thiazole-4- and -5-carboxylates, and an infrared study of their rotational isomers, 159-64
- BROMOMETHYLPHENYLMETHYLTHIOMETHYL**
Approaches to bridged thia[17]annulenes, 483-7
- BROMOMETHYLPHENYLMETHYLTHIOMETHYLTHIOPHENE**
Approaches to bridged thia[17]annulenes, 483-7
- BROMONONATRIENE**
Synthesis and characterization of representative octa-1,3,5,7-tetraenes and deca-1,3,5,7,9-pentaenes, 2379-85
- BROMOPHENYLPROPYL**
Oxymetalation. Part 17. tert-Butyl peroxymercuriation and subsequent demercuriation of phenylcyclopropane, 1807-9
- BROMOTHIOCHROMANONE**
Ring contractions of thiochroman-4-ones and thiochromen-4-ones 395-402
- BROMOTHIOCHROMENONE**
Ring contractions of thiochroman-4-ones and thiochromen-4-ones 395-402
- BROMOTRIBUTYLCYCLOHEXADIENONE**
Cyclodienones. Part 6. Preparation of 4-azido-2,4,6-tri-tert-

- BROMOTRIBUTYLCYCLOHEXADIENONE**(contd)
butylcyclohexa-2,5-dienone and its thermal, photochemical, and acid-catalyzed decomposition, 2841-8
- BRYA**
Synthesis of some pterocarpenes obtained from *Brya ebenus*, 1389-94
- BRYACARPENE**
Synthesis of some pterocarpenes obtained from *Brya ebenus*, 1389-94
- BRYAFLAVAN**
Synthesis of some pterocarpenes obtained from *Brya ebenus*, 1389-94
- BUTADIENE**
Electroorganic reactions. Part 20. Electrogenerated bases, ylide formation, and Wittig alkene synthesis, 2921-6
- BUTANAL**
Convenient syntheses of 5-substituted 2-hydroxybenzoates and related reactions, 665-9
- BUTANOATE**
Acid-catalyzed lactonization and iodolactonization of norbornene-carboxylic acids, 2461-5
- BUTENOLIDE**
Synthetic application of azetidins to a synthesis of furan derivatives, 257-60
- BUTENYL**
Homolytic displacements at carbon. Part 8. Synthesis of 1-cyano-2-(trichloroethyl)cyclopropanes from allylcobaloximes via but-3-enylcobaloximes and 1-bromo-1-cyanobut-3-enes, 645-51
- BUTENYLCOBALOXIME**
Homolytic displacements at carbon. Part 8. Synthesis of 1-cyano-2-(trichloroethyl)cyclopropanes from allylcobaloximes via but-3-enylcobaloximes and 1-bromo-1-cyanobut-3-enes, 645-51
- BUTOXYCARBONYL**
The crystal structure of *N*(α)-tert-butoxycarbonyl-*N*(π)-benzyloxymethyl-L-histidine, 3045-8
- BUTOXYCARBONYLAMINO**BUTOXYPHENYL
On the double bond isostere of the peptide bond: preparation of an enkephalin analog, 307-14
- BUTOXYCARBONYLAMINO**BUTOXYPHENYLHEXANOATE
On the double bond isostere of the peptide bond: preparation of an enkephalin analog, 307-14
- BUTOXYCARBONYLAMINO**BUTOXYPHENYLPROPANAL
On the double bond isostere of the peptide bond: preparation of an enkephalin analog, 307-14
- BUTOXYCARBONYLBENZYLOXYMETHYLHISTIDINE**
The crystal structure of *N*(α)-tert-butoxycarbonyl-*N*(π)-benzyloxymethyl-L-histidine, 3045-8
- BUTOXYCARBONYLHYDRAZIDO**
Synthetic approaches to versatile hemoprotein model compounds built from porphyrins and peptides, 1441-8
- BUTYL**
Cyclodienones. Part 8. Hydrolysis of 5-oxo-2,4-di-tert-butylcyclopenta-1,3-dienecarbonitrile, 243-6
Oxymetalation. Part 16. Modified procedures for reducing peroxymercurials: conversion of nonterminal alkenes into secondary alkyl tert-butyl peroxides, 1797-805
Oxymetalation. Part 17. tert-Butyl peroxymercuriation and subsequent demercuriation of phenylcyclopropane, 1807-9
Oxidation of alkoxyphenols. Part 27. The mechanism of formation of dibenzo[d,f][1,3]dioxepins, 2863-6
- BUTYL AZEPINONE**
Cyclodienones. Part 6. Preparation of 4-azido-2,4,6-tri-tert-butylcyclohexa-2,5-dienone and its thermal, photochemical, and acid-catalyzed decomposition, 2841-8
- BUTYLCYCLOPENTADIENONE**
Cyclodienones. Part 6. Preparation of 4-azido-2,4,6-tri-tert-butylcyclohexa-2,5-dienone and its thermal, photochemical, and acid-catalyzed decomposition, 2841-8
- BUTYLDIMETHYLSILYLOXYOCTENYL**
Synthetic approaches to 11-deoxyhomoprostacyclin analogs, 1923-32
- BUTYLMETHYLCYCLOHEXENE**
Reactions of 1-methyl-4-tert-butylcyclohexene and 1-methylcyclohexene with thallium(I) acetate-iodine, 413-19
- BUTYLMETHYLENE**CYCLOHEXANE
Iodoazide adducts of exocyclic alkenes; structure and solvolysis, 315-25
- BUTYLSULFINYL**
Cyclization of $\gamma\delta$ -unsaturated sulfenic acids to give thietane 1-oxide derivatives. Crystal structure of rel-(1R,2S,3R,4R)-3-hexyl-2-(hydroxymethyl)-4-methylthietane 1-oxide, 1325-32
Synthesis of some thietanoprostanoids, 1333-42
- BUTYLSULFINYL VINYLNONANOL**
Cyclization of $\gamma\delta$ -unsaturated sulfenic acids to give thietane 1-oxide derivatives. Crystal structure of rel-(1R,2S,3R,4R)-3-hexyl-2-(hydroxymethyl)-4-methylthietane 1-oxide, 1325-32
- BUTYLTHIAZOLECARBOXYLATE**
The preparation of thiazole-4- and -5-carboxylates, and an infrared study of their rotational isomers, 159-64
- BUTYLTRIMETHYLSILYLOXYNONENYL**
Organocuprate conjugate addition reactions of 2,3-dihydrothiin-4-one, its oxide and dioxide, 1177-82
- BUTYNE**
Control of regioselectivity in the addition of sulfenyl chlorides to 3,3-dimethylbutyne (tert-butylacetylene) as a method for differential functionalization of triple bonds, 2197-201
- BUTYNE DIOATE**
Preparation and reactions of pyridones: steric and electronic effects on cycloadditions with 2(1H)-pyridones, 169-73
- BUTYNOATE**
Synthesis of (-)-steganone, 521-5
- BUTYROLACTONE**
Metabolites of the higher fungi. Part 19. Serpenone, 3-methoxy-4-methyl-5-prop-1-enylfuran-2(5H)-one, a new γ -butyrolactone from the fungus *Hypoxyylon serpens* (Barrons strain) (Persoon ex Fries) Kickx, 215-21
- CADAVERINE**
Studies of enzyme-mediated reactions. Part 14. Stereochemical course of the formation of cadaverine by decarboxylation of (2S)-lysine with lysine decarboxylase (E.C. 4.1.1.18) from *Bacillus cadaveris*, 449-53
- CANNABIFURAN**
Naturally occurring dibenzofurans. Part 1. A synthesis of cannabifuran, 1605-10
- CANNABIS**
Natural products of Thailand high δ^1 -THC-strain Cannabis. The bibenzyl-spiran-dihydrophenanthrene group: relations with cannabinoids and canniflavones, 1455-66
Total synthesis of the spirans of Cannabis: cannabispiradienone, cannabispirenone-A and -B, Cannabispirone, α - and β -cannabispiranols, and the dihydrophenanthrene cannithrene-1, 1477-84
Naturally occurring dibenzofurans. Part 1. A synthesis of cannabifuran, 1605-10
- CANNABISPIRADIENONE**
Total synthesis of the spirans of Cannabis: cannabispiradienone, cannabispirenone-A and -B, Cannabispirone, α - and β -cannabispiranols, and the dihydrophenanthrene cannithrene-1, 1477-84
1,2-Disubstituted ethanes as possible precursors for the synthesis of Cannabis spirans, 1485-91
- CANNABISPIRANOL**
Total synthesis of the spirans of Cannabis: cannabispiradienone, cannabispirenone-A and -B, Cannabispirone, α - and β -cannabispiranols, and the dihydrophenanthrene cannithrene-1, 1477-84
- CANNABISPIRENONE**
Total synthesis of the spirans of Cannabis: cannabispiradienone, cannabispirenone-A and -B, Cannabispirone, α - and β -cannabispiranols, and the dihydrophenanthrene cannithrene-1, 1477-84
Cannabis. Part 25. Synthesis of cannabispirenone-B and its 5,7-difluoro analog, 2403-5
- CANNABISPIRONE**
Total synthesis of the spirans of Cannabis: cannabispiradienone, cannabispirenone-A and -B, Cannabispirone, α - and β -cannabispiranols, and the dihydrophenanthrene cannithrene-1, 1477-84
- CANNIPRENE**
Dihydrostilbenes of Cannabis. Synthesis of canniprene, 1467-75
- CANNITHRENE**
Total synthesis of the spirans of Cannabis: cannabispiradienone, cannabispirenone-A and -B, Cannabispirone, α - and β -cannabispiranols, and the dihydrophenanthrene cannithrene-1, 1477-84

- CAPARRAPI**
Stereoselective olefin cyclization mediated by the selenyl group; direct formation of a selenyl caparrapi oxide, 1085-7
- CAPPED**
Quinone-capped porphyrins: NMR studies of static and dynamic stereochemistry and coordination properties, 1617-24
- CARBAMOYL CYCLOPENTENONE**
Cyclodienones. Part 8. Hydrolysis of 5-oxo-2,4-di-tert-butylcyclopenta-1,3-dienecarbonitrile, 243-6
- CARBAMOYLOXY**
Studies related to maytansinoids, 1541-51
- CARBAMOYLTHIADIAZOLINE**
Thiadiazoles and thiadiazolines. Part 4. Acetylation, hydrolysis, and cyclocondensations of Δ^2 -1,3,4-thiadiazoline- α -carboxamides, 1993-8
- CARBANION**
Reactivity of the perhaloalkanes bromochloro- and dibromodifluoromethane with nucleophiles. Part 4. Condensation with carbanions, 1063-5
- CARBAZATE**
1,3,4-Oxadiazol-2(3H)-one formation from N-acylaminobiurets and related compounds and from S-benzyl 3-acyl(thiocarbazate-s), 2019-21
- CARBENE**
Carbene insertion into [2.2]metacyclophane-1,10-dione: a convenient route to [3.2]- and [3.3]-metacyclophanes, 477-81
[4.2]- and [4.3]-Metacyclophanes, 2369-72
- CARBINOLAMINE**
Synthesis of 1,2,3,9b-tetrahydro-9b-hydroxy-1-phenylpyrrolo[2,1-a]isoindol-5-one via the hydrazinolysis of 2-phenyl-2-(2-phthalimidoethyl)indan-1,3-dione, 2783-6
- CARBOCATION**
Nitroxide chemistry. Part 20. N,N-Bis(trifluoromethyl)hydroxylamine as a carbocation trapping agent, 835-9
- CARBOHYDRATE**
Asymmetric synthesis with carbohydrates. Part 2. Asymmetric Grignard addition reactions conditioned by chiral magnesium alkoxides, 197-200
A new procedure for olefin oxirane formation by peroxybenzimidic acid; synthesis of some carbohydrate-precursor oxiranes and other epoxides, 1009-11
New oxidative systems for alcohols: molecular sieves with chromium(VI) reagents, 1967-73
- CARBOLINE**
Synthesis of gambirtannine derivatives by photocyclization of enamine intermediates, 59-62
- CARBOLINECARBOXYLATE**
The biosynthesis of the β -carboline alkaloids, harman and eleanine, 1523-5
- CARBON**
Synthesis of 2,6-diaryl-4,8-dihydroxy-3,7-dioxabicyclo[3.3.0]octanes, 175-81
Synthesis and NMR spectra of 2,6- and 2,4-diaryl-3,7-dioxabicyclo[3.3.0]octanes, 183-90
Fused mesoionic heterocycles: synthesis of 1,3,4-oxadiazolo[3,2-a]pyridine and 1,3,4-thiadiazolo[3,2-a]pyridine derivatives, 351-5
Carbon-13 nuclear magnetic resonance spectra of quinoxaline derivatives, 357-63
Partial synthesis of [17-¹³C; 15,17-³H]gibberellin A₂₉ from gibberellin A₃, 699-706
New synthetic methods in rotenoid chemistry: [7'-¹³C]- and [7'-¹⁴C]-(-)-rotenone and (\pm)-isorotenone, 773-8
Regioselective ether cleavages of rotenoids: spiro-ether formation and stereoselective isotopic labeling of (E)- or (Z)-prenyl methyl groups in (6aS, 12aS)-rot-2'-enonic acid, 779-88
Structure and conformation of N-benzoyl derivatives of the biologically important 3-amino-2,3,6-trideoxy-L-hexoses and their synthetic precursor γ - and δ -lactones; a proton and carbon-13 nuclear magnetic resonance study, 885-91
Polymeric proanthocyanidins. Carbon-13 NMR studies of procyanidins, 1217-21
Nuclear magnetic resonance and x-ray stereochemical studies on 1-benzyltetrahydroisouquinolinium salts, 2067-77
Novel synthesis of diimines by the transformation of 1-aryl-4,6-disubstituted pyrimidin-2(1H)-ones, 2149-52
Biosynthesis of citreoviridin. A carbon-13 NMR study, 2175-8
Biosynthesis of vitamin B₁₂. Analysis of the proton and carbon-13 NMR spectra of heptamethyl dicyanocobyrinate (cobester), 2265-77
- Studies in terpenoid biosynthesis. Part 26. Applications of deuterium and carbon-13 NMR spectroscopy to the biosynthesis of the illudin sesquiterpenoids, 2445-8
Studies on fungal metabolites. Part 3. Carbon-13 NMR spectral and structural studies on austin and new related meroterpenoids from *Aspergillus ustus*, *Aspergillus varicolor*, and *Penicillium diversum*, 2687-92
- CARBONATE**
A new procedure for olefin oxirane formation by peroxybenzimidic acid; synthesis of some carbohydrate-precursor oxiranes and other epoxides, 1009-11
- CARBONYL**
Carbene insertion into [2.2]metacyclophane-1,10-dione: a convenient route to [3.2]- and [3.3]-metacyclophanes, 477-81
Organoiron complexes in organic synthesis. Part 18. Spiroannellation reactions of some bifunctional tricarbonyl(cyclohexadienyl)iron hexafluorophosphate salts, 489-97
Organoiron complexes in organic synthesis. Part 21. Methods for controlling the regioselectivity of nucleophile addition to tricarbonyl(cyclohexadienyl)iron complexes, 1527-34
Organometallic compounds in organic synthesis. Part 13. Stereoselectivity of complexation of cyclohexadiene esters, 1755-62
Organometallic compounds in organic synthesis. Part 14. Tricarbonyliron as lateral control group in the selective alkaline hydrolysis of some cyclohexa-1,3-diene carboxylic esters, 1763-9
Transition-metal mediated asymmetric synthesis. Part 3. Preparation and stereospecific alkylation of unsymmetrically substituted tricarbonyl(cyclohexadienyl)iron(1+) salts: an organometallic approach to the synthesis of carvone, cryptomerin, and bilobanone, 2449-56
- CARBONYLALKOXYCARBONYLCYCLOHEXADIENE-IRON**
Organometallic compounds in organic synthesis. Part 14. Tricarbonyliron as lateral control group in the selective alkaline hydrolysis of some cyclohexa-1,3-diene carboxylic esters, 1763-9
- CARBONYLATION**
Metal-assisted cycloadditions. Part 2. Reactions of dicarbonyl(η^5 -cyclopentadienyl)(η^1 -3-methoxyallyl)iron with electron-deficient olefins and acetylenes, 295-300
- CARBONYLCYANOMETHOXYCARBONYLMETHOXYSPIROALKADIENEIRON**
Organoiron complexes in organic synthesis. Part 18. Spiroannellation reactions of some bifunctional tricarbonyl(cyclohexadienyl)iron hexafluorophosphate salts, 489-97
- CARBONYLCYANOMETHOXYSPIROALKADIENEIRON**
Organoiron complexes in organic synthesis. Part 18. Spiroannellation reactions of some bifunctional tricarbonyl(cyclohexadienyl)iron hexafluorophosphate salts, 489-97
- CARBONYLCYCLOHEXADIENEIRON**
Organometallic compounds in organic synthesis. Part 12. Methods of determination of the stereochemistry of tricarbonylcyclohexa-1,3-dieneiron complexes, 1745-53
- CARBONYLCYCLOHEXADIENYLIRON**
Organometallic complexes in synthesis. Part 16. Reactions of tricarbonyl(cyclohexadienyl)iron(1+) salts with aromatic amines 713-17
- CARBONYLCYCLOHEXADIENYL IUM**
Organoiron complexes in organic synthesis. Part 18. Spiroannellation reactions of some bifunctional tricarbonyl(cyclohexadienyl)iron hexafluorophosphate salts, 489-97
- CARBONYLDIENYL IUMIRON**
Organoiron complexes in organic synthesis. Part 21. Methods for controlling the regioselectivity of nucleophile addition to tricarbonyl(cyclohexadienyl)iron complexes, 1527-34
- CARBONYLIRON**
Thermal rearrangement reactions of tricarbonyliron lactone complexes, 1355-61
- CARBOWAX**
Gas-liquid phase-transfer synthesis of phenyl ethers and sulfides with carbonate as base and carbowax as catalyst, 1137-41
- CARBOXYALKENYLENETRIPHENYLPHOSPHORANE**
Synthesis of stable prostacyclin analogs from 2,3-disubstituted bicyclo[3.2.0]heptan-6-ones, 823-30
- CARBOXYLATE**
Synthetic and mechanistic aspects of gas-liquid phase-transfer catalysis: carboxylate esters, 993-7

CARBOXYLATE(contd)

- Oxidation of benzylic hydrocarbons with benzeneseleninic anhydride and related reactions, 2179–85
- Synthesis of γ -aminobutyric acid analogs of restricted conformation. Part 2. The 2-(aminomethyl)cycloalkancarboxylic acids, 2563–70

CARBOXYLATION

- Metal-assisted cycloadditions. Part 1. Synthesis of substituted cyclopentane derivatives obtained from the reactions of (η^1 -allyl)dicarbonyl(η^5 -cyclopentadienyl)iron with electron-deficient olefins and acetylenes, 285–94
- Metal-assisted cycloadditions. Part 2. Reactions of dicarbonyl(η^5 -cyclopentadienyl)(η^1 -3-methoxyallyl)iron with electron-deficient olefins and acetylenes, 295–300
- Synthesis of chlorinated isocoumarin derivatives, 1111–15
- 1,3-Acyl migration in carbonic acid derivatives. Synthesis of S-polyhaloalkyl N-acyl-N-aryl(alkyl)thiocarbamates, 2813–17

CARBOXYMETHOXYCARBONYLETHYLTRIPHENYLPHOSPHORANE

- Naturally occurring dibenzofurans. Part 1. A synthesis of cannabifuran, 1605–10

CARBOXYMETHYLPYRROLYLOXAZOLINE

- Regioselective β -metalations of 2-substituted furan and N-methylpyrrole derivatives employing the directing effect of the oxazolino group: syntheses of 2,3-disubstituted furans and N-methylpyrroles, 1343–7

CARCINOGEN

- Thiadiazoles and thiadiazolines. Part 3. Synthesis of triazol-3-yl- Δ^2 -1,3,4-thiadiazolines and a new synthesis of unsymmetrical 2,5-disubstituted 1,3,4-thiadiazoles, 1987–91

CARRIER

- Crown ethers as molecular bromine carriers for bromination reactions, 2153–6
- Active and passive transport of amino acid and oligopeptide derivatives by artificial ionophore-potassium ion complexes, 2359–63

CARROL

- Quinones. Part 2. General synthetic routes to quinone derivatives with modified polyprenyl side chains and the inhibitory effects of these quinones on the generation of the slow reacting substance of anaphylaxis (SRS-A), 2909–20

CARVONE

- Transition-metal mediated asymmetric synthesis. Part 3. Preparation and stereospecific alkylation of unsymmetrically substituted tricarbonyl(cyclohexadienyl)iron(1+) salts: an organometallic approach to the synthesis of carvone, cryptomerion, and bilobanone, 2449–56

CATALYSIS

- Synthetic and mechanistic aspects of gas-liquid phase-transfer catalysis: carboxylate esters, 993–7
- Silver(I)-catalyzed oxidation of cyclic secondary amines with peroxodisulfate, 3031–5

CATALYST

- Amide-catalyzed isomerization of 5,6-dihydroisoquinolines: a novel synthesis of 1,2-dihydroisoquinolines, 63–8
- Acid-catalyzed condensation of isoprene with phenols. Formation of 2,2-dimethylchromans, 335–8
- Depsidone synthesis. Part 21. A new synthesis of grisa-2',5'-diene-3,4'-diones, 403–11
- Catalytic hydrogenation of 3,4-epoxybut-1-ene with cationic rhodium complexes, 855–9
- Synthetic studies directed towards complex diterpenoids. Part 15. Synthesis and stereochemistry of the catalytic reduction of $\Delta^4b(5)$ -gibbenes and related compounds, 865–73
- Synthesis of ribosyl and arabinosyl cyanides by reaction of 1-O-acyl sugars with trimethylsilyl cyanide, 903–7
- Synthetic and mechanistic aspects of gas-liquid phase-transfer catalysis: carboxylate esters, 993–7
- A new procedure for olefin oxirane by peroxybenzimidic acid; synthesis of some carbohydrate-precursor oxiranes and other epoxides, 1009–11
- Lewis acid-catalyzed reactions of aryl cyclopropyl ketones. Scope and mechanism, 1029–35
- Gas-liquid phase-transfer synthesis of phenyl ethers and sulfides with carbonate as base and carbowax as catalyst, 1137–41
- Aspects of the chemistry of dehydromethionine, 1283–90
- Synthetic enzymes. Part 2. Catalytic asymmetric epoxidation by means of polyamino acids in a triphase system, 1317–24
- Regiospecific annulations of substituted tropones with ethane-1,2-

dithiol, 1865–9

- A practical catalytic method for the preparation of steroidal 1,4-dien-3-ones by oxygen atom transfer from iodoxybenzene to diphenyl diselenide, 1947–52
- New oxidative systems for alcohols: molecular sieves with chromium(VI) reagents, 1967–73
- Formose reactions. Part 3. Selective formose reaction catalyzed by organic bases, 1975–9
- Necic acid synthons. Part 1. Total synthesis of integerrineic acid, 2079–83
- Synthesis and properties of a series of sterically hindered guanidine bases, 2085–90
- Reactions of 2-chloro-N,N-diethyl-1,1,2-trifluoroethylamine with alcohols. Part 4. In the presence of lithium bromide and dimethyl sulfide: preparation of bromo- and methylsulfinylgibberellins, 2571–4
- Esters of α -arylalkanoic acids from 'masked' α -haloalkyl aryl ketones and silver salts: synthetic, kinetic, and mechanistic aspects, 2575–81
- Selectivity of hydrogenations. Part 3. N-methylquinolinium, N-methylisoquinolinium, and 4-(3-phenylpropyl)pyridinium salts, 2607–10
- Stereochemistry of olefin and fatty acid oxidation. Part 1. Autooxidation of hexene and hepta-2,5-diene isomers, 2707–13
- Photoresponsive crown ethers. Part 7. Proton and metal ion catalyses in the cis-trans isomerization of azopyridines and an azopyridine-bridged cryptand, 2741–7
- Silver(I)-catalyzed oxidation of cyclic secondary amines with peroxodisulfate, 3031–5

CATECHIN

- Synthesis of condensed tannins. Part 5. The first angular [4,6:4,8]triflavanoids and their natural counterparts, 527–33
- Electrophilic aromatic substitution of catechins: bromination and benzylation, 973–8

CATECHOL

- Polymer-supported periodate and iodate as oxidizing agents, 509–11

CD

- Synthesis of condensed tannins. Part 6. The sequence of units, coupling positions, and absolute configuration of the first linear [4,6:4,6]triflavanoid with terminal 3,4-diol function, 535–40
- Synthesis of (R,S)-(5Z,8E,10E)-12-hydroxyheptadeca-5,8,10-trienoic acid and of (R,S)- and (S)-(5Z,8Z,10E,14Z)-12-hydroxyeicosa-5,8,10,14-tetraenoic acid and their racemic 5,6,8,9-tetradeuterioisomers, 545–52
- Nuclear magnetic resonance and circular dichroism of penicillins derived from disubstituted acetic acids, 563–9
- The base-sugar conformation of certain derivatives of adenosine, 1197–1204
- Polycyclic analogs of trans-decalones. Part 5. Synthesis, optical resolution, and circular dichroism of trans-transoid-trans-perhydrophenanthren-3-one and trans-transoid-trans-perhydrophenanthren-9-one, 2117–22
- Determination of the anomeric configuration in glycosides of 3-deoxy-2-aldulosonic acids by circular dichroism and x-ray crystallography, 3055–63

CELLULOSE

- Homopolysaccharides interaction with the dimethyl sulfoxide-paraformaldehyde cellulose solvent system. Selective oxidation of amylose and cellulose at secondary alcohol groups, 1579–85

CENTER

- Decarboxylative rearrangement of an alkanoyl arylcarbonyl peroxide involving migration of a primary chiral center, 591–3

CHAENOMELES

- Polymeric proanthocyanidins. Carbon-13 NMR studies of procyanidins, 1217–21

CHALCONE

- Preparation and reactions of pyrylium salts containing α -pyridyl groups, 125–30
- Total synthesis of (\pm)-picropodophyllone, 271–6
- Synthetic enzymes. Part 2. Catalytic asymmetric epoxidation by means of polyamino acids in a triphase system, 1317–24
- Studies on plant tissue cultures. Part 36. Biosynthesis of a retrochalcone, echinatin, and other flavonoids in the cultured cells of *Glycyrrhiza echinata*. A new route to a chalcone with transposed A- and B-rings, 2725–34

CHAMAECYNONE

- Synthesis of sesquiterpenes occidentalol, chamaecynone, and related compounds characterized by a cis-eudesmane structure, 2849–53

CHERYLLINE

A facile total synthesis of (\pm)-cherylline via an aziridinium intermediate, 2935-7

CHIRAL

Asymmetric synthesis with carbohydrates. Part 2. Asymmetric Grignard addition reactions conditioned by chiral magnesium alkoxides, 197-200

Decarboxylative rearrangement of an alkanoyl arylcarbonyl peroxide involving migration of a primary chiral center, 591-3

Synthesis of β -amino acid peptides. Part 3. Preparation of racemic and chiral 3-aminobutyric acid derivatives and peptides using dihydrooxazin-6-ones and conventional coupling reagents, 1587-92

CHLORIDE

Studies of heterocyclic compounds. Part 28. Condensation of 3-substituted 5-phenyl-1,2-dithioliium salts with 2-amino-N-heterocycles, 499-507

Homolytic displacements at carbon. Part 8. Synthesis of 1-cyano-2-(trichloroethyl)cyclopropanes from allylcobaloximes via but-3-enylcobaloximes and 1-bromo-1-cyanobut-3-enes, 645-51

Versatile synthesis of sulfamate esters by phase-transfer methods, 677-9

The chemistry of pseudomonic acid. Part 4. α,β -Unsaturated ketones derived from monic acid A and its derivatives, 729-34

Synthesis of alkanesulfonyl chlorides from allylcobaloximes and trichloromethanesulfonyl chloride, 849-54

Studies in metal-ammonia reduction. Part 3. Reduction and reductive methylation of some acynaphthalenes with metal-ammonia solutions, 875-80

Reactions of norcarane and of norborn-2-ene with iodine(I) azide and iodine(I) chloride, 961-5

Lewis acid-catalyzed reactions of aryl cyclopropyl ketones. Scope and mechanism, 1029-35

Reaction of some 1,4-benzoquinone monooximes with methanolic hydrogen chloride, 1095-8

Kinetics and mechanism of the reaction of thionyl chloride with substituted acetophenone semicarbazones. The synthesis of 1,2,3-thiadiazoles, 1223-7

Ketenimine chemistry. Part 1. The reaction of triaryl ketenimines with arenesulfonyl chlorides, 1255-6

Heterocyclic syntheses with malonyl dichloride. Part 13. 6-Chloro-4-hydroxy-2-oxopyran-3-carboxanilides from N-sulfinylanilines and further reaction of malonyl dichloride with thiocyanates, 1575-8

Conformational behavior of medium-sized rings. Part 13. 5,18-Dihydro- and 5,11,12,18-tetrahydrotribenzob[*b,f*]1,4)diazacyclododecane-6,17-diones, 1715-20

Triazines and related products. Part 25. Methods for the attachment of sugar residues to cytotoxic 1,3,5-triazines, 1821-5

Synthesis of adamantane derivatives. Part 53. Simple synthesis of 7-thiaprotoadamantane (7-thiatriacyclo[4.3.1.0^{3,8}]decane) and related derivatives via a regioselective and stereoselective intramolecular Friedel-Crafts reaction, 1953-8

Stereochemical and mechanistic aspects of the base-promoted cyclization of *o*-vinylphenylhydrazonyl chlorides under phase-transfer conditions, 2041-4

Control of regioselectivity in the addition of sulfonyl chlorides to 3,3-dimethylbutyne (tert-butylacetylene) as a method for differential functionalization of triple bonds, 2197-201

Heterocyclic syntheses with malonyl dichloride. Part 14. A direct synthesis of 4,6-dichloropyrimidines with 5-benzyl or -phenyl and 2-thioalkyl or -thiophenyl substituents, 2499-503

Photochemistry of halogenated benzene derivatives. Part 2.

Photoreactions of α -substituted *p*-chlorotoluenes, 2957-61

The reaction of tris(4-methoxyphenyl)methyl chloride with sodium methoxide. Nonoperation of single-electron transfer paths, 3021-5

CHLORINATED

The biosynthesis of chlorine-containing metabolites of *Periconia macrospinos*, 3037-9

CHLORINATION

A novel and chemoselective preparation of chlorosulfonyl-containing azo dyes with phosphoryl chloride-N,N-dimethylacetamide, 1519-22

CHLORO

Synthesis of (R,S)-(5Z,8E,10E)-12-hydroxyheptadeca-5,8,10-trienic acid and of (R,S)- and (S)-(5Z,8Z,10E,14Z)-12-hydroxyeicosa-5,8,10,14-tetraenoic acid and their racemic 5,6,8,9-tetraenitersomers, 545-52

Convenient syntheses of 5-substituted 2-hydroxybenzoates and related reactions, 665-9

Reaction of some 1,4-benzoquinone monooximes with methanolic hydrogen chloride, 1095-8

Synthesis of chlorinated isocoumarin derivatives, 1111-15

Heterocyclic polyfluoro-compounds. Part 37. Diels-Alder reactions of trichloro- and trifluoro-1,2,4-triazine, 1245-9

Ketenimine chemistry. Part 1. The reaction of triaryl ketenimines with arenesulfonyl chlorides, 1255-6

Heterocyclic syntheses with malonyl dichloride. Part 13. 6-Chloro-4-hydroxy-2-oxopyran-3-carboxanilides from N-sulfinylanilines and further reaction of malonyl dichloride with thiocyanates, 1575-8

Thiadiazoles and thiadiazolines. Part 2. Δ^2 -1,3,4-Thiadiazoline-4-carboxamides derived from substituted acyclic thioureas, 1981-6

Thiadiazoles and thiadiazolines. Part 3. Synthesis of triazol-3-yl- Δ^2 -1,3,4-thiadiazolines and a new synthesis of unsymmetrical 2,5-disubstituted 1,3,4-thiadiazoles, 1987-91

Synthesis of annelated 1,3,4,6-thiaziazepines from reaction of cyclic thioureas with 1,4-dichloro-2,3-diazabutadienes, 1999-2005

Control of regioselectivity in the addition of sulfonyl chlorides to 3,3-dimethylbutyne (tert-butylacetylene) as a method for differential functionalization of triple bonds, 2197-201

Heterocyclic syntheses with malonyl dichloride. Part 14. A direct synthesis of 4,6-dichloropyrimidines with 5-benzyl or -phenyl and 2-thioalkyl or -thiophenyl substituents, 2499-503

Photochemistry of halogenated benzene derivatives. Part 2.

Photoreactions of α -substituted *p*-chlorotoluenes, 2957-61

A new phenanthrene synthesis, 3007-10

The biosynthesis of chlorine-containing metabolites of *Periconia macrospinos*, 3037-9

CHLOROACETAMIDE

Formation of N-substituted trichloroacetamides from amines and hexachloroacetone, 945-8

CHLOROACETAMIDOOXO

Synthesis and reactions of some novel imidazobenzoxazines and related systems, 1049-58

CHLOROACETAMIDOOXOBENZOXAZINYLACETATE

Synthesis and reactions of some novel imidazobenzoxazines and related systems, 1049-58

CHLOROACETAMIDOTHIAZOLE

Tautomerism in 2-trichloro- and 2-trifluoroacetamidothiazoles, 939-43

CHLOROACETATE

The preparation of thiazole-4- and -5-carboxylates, and an infrared study of their rotational isomers, 159-64

CHLOROACETOACETATE

Sulfur extrusion reactions. Part 5. Reactions of monoprolic thioureas with ethyl α -chloroacetoacetate, ethyl bromomalonate, and ethyl bromocynoacetate, 653-6

CHLOROACETONE

Formation of N-substituted trichloroacetamides from amines and hexachloroacetone, 945-8

CHLOROACETONITRILE

Activated nitriles in heterocyclic synthesis: a new procedure for the synthesis of pyrimidine derivatives, 2667-70

CHLOROALKADIONE

Reactions with heterocyclic diazonium salts: novel synthesis of pyrazolo[4,3-*c*]pyridazines and of pyrazolo[4,3-*c*]pyrazoles, 989-91

CHLOROBENZENE

Polyhaloaromatic compounds. Part 46. Circumstantial evidence for the intermediacy of radical anions during the reaction of magnesium with ω -bromoalkoxypolychloro-arenes and -heteroarenes, 93-9

CHLOROBENZOYL

Decarboxylative rearrangement of an alkanoyl arylcarbonyl peroxide involving migration of a primary chiral center, 591-3

CHLOROBENZYL

Decarboxylative rearrangement of an alkanoyl arylcarbonyl peroxide involving migration of a primary chiral center, 591-3

Photochemistry of halogenated benzene derivatives. Part 2.

Photoreactions of α -substituted *p*-chlorotoluenes, 2957-61

CHLOROBENZYL TETRAZINE

Investigations into the mechanism of the action of alkali in methanol on 3,6-dibenzyl-s-tetrazines and their 1,4-dihydro-derivatives: the role of s-tetrazines as hydride acceptors and an x-ray determination of the structure of 3,6-bis(4-chlorobenzyl)-

- CHLOROBENZYL TETRAZINE**(contd)
1,4-dihydro-s-tetrazine, 1165-70
- CHLOROCHROMATE**
New oxidative systems for alcohols: molecular sieves with chromium(VI) reagents, 1967-73
- CHLOROXYANOPYRIDINE**
Polyhaloaromatic compounds. Part 48. Reactions of tetrachloro-4-cyanopyridine with mono- and bifunctional nucleophiles, 2897-900
- CHLOROXYCLOALKANONE**
Conversion of toluenesulfonyl hydrazones of α -halo aldehydes and ketones into the corresponding phenylthio and phenylseleno derivatives, 2719-24
- CHLORODIMETHOXYMETHYLBENZOATE**
Synthesis of chlorinated isocoumarin derivatives, 1111-15
- CHLORODIMETHYLAMINOTRIAZINE**
Triazines and related products. Part 25. Methods for the attachment of sugar residues to cytotoxic 1,3,5-triazines, 1821-5
- CHLORODIMETHYLPREGNADIENYNONE**
Alkylated steroids. Part 5. Formation of 17 β -acetylenic steroids from hindered 20-oxo compounds via Grignard derived enolates 1079-84
- CHLORODIMETHYLTOLYLTHIOBUTENE**
Control of regioselectivity in the addition of sulfenyl chlorides to 3,3-dimethylbutyne (tert-butylacetylene) as a method for differential functionalization of triple bonds, 2197-201
- CHLORODIPHENYLDIAZABUTADIENE**
Thiadiazoles and thiadiazolines. Part 2. Δ^2 -1,3,4-Thiadiazoline-4-carboxamides derived from substituted acyclic thioureas, 1981-6
Synthesis of annelated 1,3,4,6-thiaziazepines from reaction of cyclic thioureas with 1,4-dichloro-2,3-diazabutadienes, 1999-2005
- CHLORODIPHENYLDIAZOBUTADIENE**
Thiadiazoles and thiadiazolines. Part 3. Synthesis of triazol-3-yl- Δ^2 -1,3,4-thiadiazolines and a new synthesis of unsymmetrical 2,5-disubstituted 1,3,4-thiadiazoles, 1987-91
- CHLOROEPHOXYPROPANE**
Synthesis of (R,S)-(5Z,8E,10E)-12-hydroxyheptadeca-5,8,10-trienoic acid and of (R,S)- and (S)-(5Z,8Z,10E,14Z)-12-hydroxyeicosa-5,8,10,14-tetraenoic acid and their racemic 5,6,8,9-tetra deuterioisomers, 545-52
- CHLOROETHOXYMETHYLENEBUTANAL**
Convenient syntheses of 5-substituted 2-hydroxybenzoates and related reactions, 665-9
- CHLOROETHYLCYCLOPROPANE**
Homolytic displacements at carbon. Part 8. Synthesis of 1-cyano-2-(trichloroethyl)cyclopropanes from allylcobaloximes via but-3-enylcobaloximes and 1-bromo-1-cyanobut-3-enes, 645-51
- CHLOROETHYLENE**
Benzocyclobutenes. Part 7. Synthesis and x-ray crystal structure of cyclobuta[1]phenanthrene-1,2-dione and the synthesis of hexabenz[a,c,g,i,m,o]triphenylene, 19-23
- CHLOROETHYLFLUOROETHYLAMINE**
Reactions of 2-chloro-N,N-diethyl-1,1,2-trifluoroethylamine with alcohols. Part 4. In the presence of lithium bromide and dimethyl sulfide: preparation of bromo- and methylsulfinylgibberellins, 2571-4
- CHLOROFLUOROBUTADIENE**
Polyhalo allenes and acetylenes. Part 14. The reactions of perfluoro-1,2-dienes with dichloro- and difluorocarbene, and a new route to 1,1-dichloroperfluoro-1,2-dienes, 2203-6
- CHLOROFUROPYRIDINE**
Polyhaloaromatic compounds. Part 46. Circumstantial evidence for the intermediacy of radical anions during the reaction of magnesium with ω -bromoalkoxypolychloro-arenes and -heteroarenes, 93-9
- CHLOROXYDROXYMETHOXYMETHYLISOCOUMARIN**
The biosynthesis of chlorine-containing metabolites of *Periconia macrospinoso*, 3037-9
- CHLOROXYDROXYPHENYLSUCCINAMATE**
Hydroxamic acid production and active-site induced Bamberger rearrangement from the action of α -ketoglutarate dehydrogenase on 4-chloronitrosobenzene, 345-50
- CHLOROISOCOUMARIN**
Synthesis of chlorinated isocoumarin derivatives, 1111-15
- CHLOROMETHANE**
Homolytic displacements at carbon. Part 8. Synthesis of 1-cyano-2-(trichloroethyl)cyclopropanes from allylcobaloximes via but-3-enylcobaloximes and 1-bromo-1-cyanobut-3-enes, 645-51
- CHLOROMETHOXYANILINE**
Reaction of some 1,4-benzoquinone monooximes with methanolic hydrogen chloride, 1095-8
- CHLOROMETHYLENEFLUOROCYCLOPROPANE**
Polyhalo allenes and acetylenes. Part 14. The reactions of perfluoro-1,2-dienes with dichloro- and difluorocarbene, and a new route to 1,1-dichloroperfluoro-1,2-dienes, 2203-6
- CHLOROMETHYLISOXAZOLOPYRIDINE**
Syntheses and reactivities of 3-methylisoxazolo[4,5-b]pyridines, 2391-4
- CHLOROMETHYLSULFONYL**
Homolytic displacements at carbon. Part 8. Synthesis of 1-cyano-2-(trichloroethyl)cyclopropanes from allylcobaloximes via but-3-enylcobaloximes and 1-bromo-1-cyanobut-3-enes, 645-51
Synthesis of alkanesulfonyl chlorides from allylcobaloximes and trichloromethanesulfonyl chloride, 849-54
- CHLOROMETHYLTHIOAMINOPYRIDINE**
Studies of heterocyclic compounds. Part 28. Condensation of 3-substituted 5-phenyl-1,2-dithiolylium salts with 2-amino-N-heterocycles, 499-507
- CHLOROMETHYLURACIL**
A chemical model for the thymidylate synthetase catalyzed methylation of deoxyuridine monophosphate, 1363-9
- CHLORONITROSOBENZENE**
Hydroxamic acid production and active-site induced Bamberger rearrangement from the action of α -ketoglutarate dehydrogenase on 4-chloronitrosobenzene, 345-50
- CHLOROPHENOL**
Polyhaloaromatic compounds. Part 46. Circumstantial evidence for the intermediacy of radical anions during the reaction of magnesium with ω -bromoalkoxypolychloro-arenes and -heteroarenes, 93-9
- CHLOROPHENYL**
Electrochemical reactions. Part 24. Reductive cyclization of i-(2-halophenyl)-j-phenyl compounds: a general reaction, 229-34
- CHLOROPHENYLDITHIOLYL IUM**
Studies of heterocyclic compounds. Part 28. Condensation of 3-substituted 5-phenyl-1,2-dithiolylium salts with 2-amino-N-heterocycles, 499-507
- CHLOROPHENYLSUCCINOXYDROXAMATE**
Hydroxamic acid production and active-site induced Bamberger rearrangement from the action of α -ketoglutarate dehydrogenase on 4-chloronitrosobenzene, 345-50
- CHLOROPHENYLTRIPHENYLPYRIDINE**
Electrochemical reactions. Part 24. Reductive cyclization of i-(2-halophenyl)-j-phenyl compounds: a general reaction, 229-34
- CHLOROPYRANOPYRIDINE**
Polyhaloaromatic compounds. Part 46. Circumstantial evidence for the intermediacy of radical anions during the reaction of magnesium with ω -bromoalkoxypolychloro-arenes and -heteroarenes, 93-9
- CHLOROPYRIDINE**
Polyhaloaromatic compounds. Part 46. Circumstantial evidence for the intermediacy of radical anions during the reaction of magnesium with ω -bromoalkoxypolychloro-arenes and -heteroarenes, 93-9
Heterocyclic polyfluoro-compounds. Part 37. Diels-Alder reactions of trichloro- and trifluoro-1,2,4-triazine, 1245-9
- CHLOROPYRIDINOL**
Polyhaloaromatic compounds. Part 46. Circumstantial evidence for the intermediacy of radical anions during the reaction of magnesium with ω -bromoalkoxypolychloro-arenes and -heteroarenes, 93-9
- CHLOROPYRIMIDINE**
Heterocyclic syntheses with malonyl chloride. Part 14. A direct synthesis of 4,6-dichloropyrimidines with 5-benzyl or -phenyl and 2-thioalkyl or -thiophenyl substituents, 2499-503
- CHLOROSTILBENE**
A new phenanthrene synthesis, 3007-10
- CHLOROSULFONYL**
A novel and chemoselective preparation of chlorosulfonyl-containing azo dyes with phosphoryl chloride-N,N-dimethylacetamide, 1519-22
- CHLOROTHIAPROTOADAMANTANONE**
Synthesis of adamantane derivatives. Part 53. Simple synthesis of 7-thiaprotoadamantane (7-thiatricyclo[4.3.1.0^{3,8}]decane) and related derivatives via a regioselective and stereoselective intramolecular Friedel-Crafts reaction, 1953-8

CHLOROTOLUENE

Photochemistry of halogenated benzene derivatives. Part 2. Photoreactions of α -substituted *p*-chlorotoluenes, 2957-61

CHLOROTRIAZINE

Heterocyclic polyfluoro-compounds. Part 37. Diels-Alder reactions of trichloro- and trifluoro-1,2,4-triazine, 1245-9

Heterocyclic polyfluoro-compounds. Part 39. Preparation and some nucleophilic substitution reactions of trifluoro-1,2,4-triazine, 1251-4

CHOLENECARBOXYLATE

Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ξ)-fluoro-25-hydroxyvitamin D³, 85-91

CHOLESTANAL

Base-catalyzed fragmentation of 5,6 β -epoxy-3 β -hydroxy-5 β -cholestan-19-al, 799-803

CHOLESTANE

Steroidal N-nitroamines. Part 1. Denitroamination of steroidal 4 β -, 6 β -, 7 α -, and 7 β -nitroamines, 923-9

CHOLESTENEDIOL

Steroidal N-nitroamines. Part 1. Denitroamination of steroidal 4 β -, 6 β -, 7 α -, and 7 β -nitroamines, 923-9

CHOLESTENOL

Stereochemistry of the reduction of 3 β -benzoyloxycholest-5-en-4-one with sodium borohydride, 1937-40

CHOLESTENONE

Stereochemistry of the reduction of 3 β -benzoyloxycholest-5-en-4-one with sodium borohydride, 1937-40

CHOLESTENYL

Steroidal N-nitroamines. Part 1. Denitroamination of steroidal 4 β -, 6 β -, 7 α -, and 7 β -nitroamines, 923-9

CHOLESTERYL

Photoinduced transformations. Part 60. Photoinduced rearrangements of cholesteryl nitrites with monochromatic light, 111-16

CHROMAN

Acid-catalyzed condensation of isoprene with phenols. Formation of 2,2-dimethylchromans, 335-8

Stereoselective olefin cyclization mediated by the selenyl group; direct formation of a selenyl caparrapi oxide, 1085-7

CHROMANOL

Analogues of antijuvenile hormones, 2013-18

Enamines in the synthesis of 2-(substituted amino)-3,3-dialkylchromanones, 2771-5

CHROMANONE

Analogues of antijuvenile hormones, 2013-18

Enamines in the synthesis of 2-(substituted amino)-3,3-dialkylchromanones, 2771-5

CHROMANYLBUTYRATE

A convenient solvent-specific synthesis of 4-[4-acetoxy-3-(3-methylbut-2-enyl)phenyl]butyric acid, 1601-3

CHROMATE

New oxidative systems for alcohols: molecular sieves with chromium(VI) reagents, 1967-73

CHROMEN

Analogues of antijuvenile hormones, 2013-18

CHRYSENE

Synthesis, resolution, and racemization studies of 1,2-epoxy-1,2-dihydrochrysenes, 1535-9

CINNAMYLIDENEAMINOMETHYLACRYLATE

Synthesis of (2RS,5RS,6SR)-3-methoxycarbonyl-7-oxo-6-phenoxyacetamido-1-azabicyclo[3.2.0]hept-3-ene-2-carboxylic acid, 2123-9

CITREOVIRIDIN

Biosynthesis of citreoviridin. A carbon-13 NMR study, 2175-8

CITRONELLAL

Synthesis of the natural enantiomers of irones from (+)-citronellal 1303-9

CLAISEN

Synthesis of 25 ξ ,26-dihydroxyvitamin D₂, 2111-16

Quinones. Part 2. General synthetic routes to quinone derivatives with modified polyprenyl side chains and the inhibitory effects of these quinones on the generation of the slow reacting substance of anaphylaxis (SRS-A), 2909-20

CLEAVAGE

Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ξ)-fluoro-25-hydroxyvitamin D³, 85-91

Photoinduced transformations. Part 60. Photoinduced rearrangements of cholesteryl nitrites with monochromatic light, 111-16

Steric factors in heterocyclic rearrangements. N-Methyl-N-phenylhydrazones of 3-benzoyl-5-phenyl-1,2,4-oxadiazole, 165-7

Synthetic application of azetidin-2-ones to a synthesis of furan derivatives, 257-60

A mild and efficient degradation of ring A of steroids, 513-16

Preparation of kaurenolide and its 5 α ,6 α (H)-isomer, 517-19

Reductive cleavage of propellane-type hydrazinium dication as a route to medium sized ring bicyclic diamines with bridgehead nitrogen atoms, 603-9

Addition reactions of benzo[b]thiophene. Part 3. Addition and ring-opening reactions with phenolic ethers, 615-21

1,3,2-Oxazaphospholidine-2-thiones from (+)-norephedrine: stereospecific ring opening, possibly by an elimination-addition mechanism, 639-43

Synthesis of 1H-1-benzazepines by thermolysis of 2a,7b-dihydro-3H-cyclobut[b]indoles, 741-8

Regioselective ether cleavages of rotenoids: spiro-ether formation and stereoselective isotopic labeling of (E)- or (Z)-prenyl methyl groups in (6aS, 12aS)-rot-2'-enonic acid, 779-88

Base-catalyzed fragmentation of 5,6 β -epoxy-3 β -hydroxy-5 β -cholestan-19-al, 799-803

Triazolopyridines. Part 2. Preparation of 7-substituted triazolo[1,5-a]pyridines by directed lithiation, 967-71

Organocuprate conjugate addition reactions of 2,3-dihydrothiin-4-one, its oxide and dioxide, 1177-82

Synthesis of novel β -lactamase inhibitors from clavulanic acid. Preparation and chemical reactions of (5R)-3-vinyl-4-oxa-1-azabicyclo[3.2.0]hept-2-en-7-one, 1509-17

Studies related to maytansinoids, 1541-51

Reaction between 2,2'-anhydro-1- β -D-arabinofuranosyluracil and thiolate ions, 1625-8

Triazines and related products. Part 24. Synthesis of pyrazol-4-ylidenehydrazinoimidazoles by hydrazinolysis of imidazo[5,1-c][1,2,4]triazines and 2-arylaazoimidazoles by diazonium coupling reactions, 1811-19

Synthesis of annelated 1,3,4,6-thiatriazepines from reaction of cyclic thioureas with 1,4-dichloro-2,3-diazabutadienes, 1999-2005

Novel synthesis of diimines by the transformation of 1-aryl-4,6-disubstituted pyrimidin-2(1H)-ones, 2149-52

A regioselective reductive ring opening of 4,6-O-prop-2-enylidene acetals of hexopyranosides, 2395-7

A novel synthesis of the 2-benzylisoquinoline alkaloids sendaverine and corgoine with aziridinium salts as reactive intermediates, 2399-401

Acid- and base-catalyzed reactions of 4 β ,5 β - and 4 α ,5 α -epoxyandrostane-3,17,19-trione, 2611-15

Asymmetric synthesis of a β -ketol moiety via 3,5-disubstituted isoxazoles: application to (+)-(S)-[6]-gingerol, 2983-7

CLERODANE

The x-ray structure and absolute configuration of insect antifeedant clerodane diterpenoids from *Teucrium africanum*, 1005-8

CLITOCYBE

Studies in terpenoid biosynthesis. Part 26. Applications of deuterium and carbon-13 NMR spectroscopy to the biosynthesis of the illudin sesquiterpenoids, 2445-8

CLOSURE

Preparation and reactions of pyrylium salts containing α -pyridyl groups, 125-30

Approaches to bridged thia[17]annulenes, 483-7

Stereoselective olefin cyclization mediated by the selenyl group; direct formation of a selenyl caparrapi oxide, 1085-7

Investigations into the mechanism of the action of alkali in methanol on 3,6-dibenzyl-s-tetrazines and their 1,4-dihydro-derivatives: the role of s-tetrazines as hydride acceptors and an x-ray determination of the structure of 3,6-bis(4-chlorobenzyl)-1,4-dihydro-s-tetrazine, 1165-70

Dinitrones from C-benzyl nitrones, 1395-8

Addition reactions of aminium radicals: oxidative and nonoxidative photoaddition of nitrosoamines to nonconjugated polyenes, 1419-28

Naturally occurring dibenzofurans. Part 1. A synthesis of cannabifuran, 1605-10

Synthesis of substituted dibenzophospholes. Part 3. Synthesis of 4,6-diaryldibenzophospholes from m-quaterphenyls, 2317-31

Acid-catalyzed cyclizations: structures of novel products isolated in the reaction of 2-[3-(2,6-dimethoxyphenyl)but-2-enyl]-2-methylcyclopentane-1,3-dione with methanol-hydrochloric acid,

- CLOSURE(contd)**
2791-4
Formation of some 3-aryl-3,4-dihydroisocoumarins by thermal ring closure of stilbene-2-carboxylic acids, 2819-25
Synthetic approaches to some aza analogs of benzimidazole N-oxides. Part 1. The imidazo[4,5-b]pyridine series, 2995-3006
A new phenanthrene synthesis, 3007-10
- COBALOXIME**
Homolytic displacements at carbon. Part 8. Synthesis of 1-cyano-2-(trichloroethyl)cyclopropanes from allylcobaloximes via but-3-enylcobaloximes and 1-bromo-1-cyanobut-3-enes, 645-51
Synthesis of alkanesulfonyl chlorides from alkylcobaloximes and trichloromethanesulfonyl chloride, 849-54
Cobaloximes. Part 2. A modified Schrauzer synthesis for base-sensitive cobaloximes, 1019-23
Cobaloximes. Part 3. A cobaloxime synthesis for use with reactive alkyl halides, 1025-8
- COBALT**
Cobaloximes. Part 3. A cobaloxime synthesis for use with reactive alkyl halides, 1025-8
- COBESTER**
The x-ray structure analysis of anhydrous heptamethyl dicyanocobyrinate (cobester), 2279-88
- COBYRINATE**
Biosynthesis of vitamin B₁₂. Analysis of the proton and carbon-13 NMR spectra of heptamethyl dicyanocobyrinate (cobester), 2265-77
- COELOGIN**
Coelogin and coeloginin: two novel 9,10-dihydrophenanthrene derivatives from the orchid *Coelogyne cristata*, 1131-6
- COELOGININ**
Coelogin and coeloginin: two novel 9,10-dihydrophenanthrene derivatives from the orchid *Coelogyne cristata*, 1131-6
- COELOGYNE**
Coelogin and coeloginin: two novel 9,10-dihydrophenanthrene derivatives from the orchid *Coelogyne cristata*, 1131-6
- COMPD**
The copper-promoted reaction of o-halodiaryloxy compounds with nucleophiles. Part 3. The copper-promoted reaction of o-bromodiaryloxy compounds with carboxylate ions. A novel method for the preparation of o-hydroxydiaryloxy compounds, 1775-82
- COMPLEXATION**
Organometallic compounds in organic synthesis. Part 13. Stereoselectivity of complexation of cyclohexadiene esters, 1755-62
The copper-promoted reaction of o-halodiaryloxy compounds with nucleophiles. Part 3. The copper-promoted reaction of o-bromodiaryloxy compounds with carboxylate ions. A novel method for the preparation of o-hydroxydiaryloxy compounds, 1775-82
- COMPUTER**
An algorithm for finding the intersection of molecular structures, 631-7
- CONDENSATION**
Stereoselective thioglycoside syntheses. Part 4. A new approach to 1,4-linked 1-thiodisaccharides and a synthesis of thiomaltose, 15-18
Syntheses and properties of trimethyltetrahydro[19]annulenes and the benzannulated derivatives, 31-42
Syntheses and properties of a trimethyltetrahydro[21]annulene and its benzannulated derivatives, 43-50
Syntheses and properties of a trimethyltetrahydro[23]annulene and a trimethyltetrahydro[25]annulene, 51-8
Polyhaloaromatic compounds. Part 46. Circumstantial evidence for the intermediacy of radical anions during the reaction of magnesium with ω-bromoalkoxy polychloro-arenes and -heteroarenes, 93-9
Synthesis and NMR spectra of 2,6- and 2,4-diaryl-3,7-dioxabicyclo[3.3.0]octanes, 183-90
Arylazoglycosides. Part 7. Syntheses of amino sugars from methyl arylazohexenopyranosides, 205-14
N-Bridged heterocycles. Part 5. α,ω-Bis(2-oxobenzimidazolyl)alkanes and -ethers as selective ligands for Group IA and IIA metals, 261-70
Asymmetric induction in the reduction of optically active N-alkylidenesulfonamides by metal hydrides. A new, efficient enantioselective route to chiral amines, 339-43
Hydroxamic acid production and active-site induced Bamberger rearrangement from the action of α-ketoglutarate dehydrogenase on 4-chloronitrosobenzene, 345-50
Indole β-nucleophilic substitution. Part 3. Synthesis of four isomeric pyrido[x',y':5,6]oxepino[3,2-b]indolones, 435-9
Studies of heterocyclic compounds. Part 28. Condensation of 3-substituted 5-phenyl-1,2-dithiolylium salts with 2-amino-N-heterocycles, 499-507
Synthesis of condensed tannins. Part 5. The first angular [4,6:4,8]triflavanoids and their natural counterparts, 527-33
Synthesis of condensed tannins. Part 6. The sequence of units, coupling positions, and absolute configuration of the first linear [4,6:4,6]triflavanoid with terminal 3,4-diol function, 535-40
The acyloin condensation of the diterpenoid fujenal, 611-14
Total syntheses of wyerone and dihydrowyerone, phytoalexins from the broad bean, *Vicia faba* L., using the dianion derived from 3-(2-furyl)acrylic acid, 623-6
Sulfur extrusion reactions. Part 5. Reactions of monoprotic thioureas with ethyl α-chloroacetate, ethyl bromomalonate, and ethyl bromocyanacetate, 653-6
Versatile synthesis of sulfamate esters by phase-transfer methods, 677-9
Regiospecificity in reactions of metal phenoxides. Synthesis of 2,2'-alkylidenebisphenols, 805-8
Vicinal multifunctional compounds. Tautomerism and isomerism in the condensation products of 2-hydroxyimino-3-oxobutanal or 3-hydroxyiminopentane-2,4-dione with benzylamines, 1013-18
Reactivity of the perhaloalkanes bromochloro- and dibromodifluoromethane with nucleophiles. Part 4. Condensation with carbanions, 1063-5
Gas-liquid phase-transfer synthesis of phenyl ethers and sulfides with carbonate as base and carbonyl as catalyst, 1137-41
Studies on S_{RN}1 reactions. Part 6. Synthesis of 3-methyl derivatives of the alkaloids thalactamine, doryanine, and 6,7-dimethoxy-N-methyl-1(2H)-isoquinoline, 1149-52
4-(1,2,4-Triazol-1-yl)- and 4-(3-nitro-1,2,4-triazol-1-yl)-1-(β-D-2,3,5-tri-O-acetyl-arabinofuranosyl)pyrimidin-2(1H)-ones. Valuable intermediates in the synthesis of derivatives of 1-(β-D-arabinofuranosyl)cytosine (ara-C), 1171-6
The enamine route to 2-morpholinoisoflav-3-ene, 1193-6
The reaction of Meldrum's acid with α-dicarbonyl monohydrazones: a new synthesis of pyridazin-3-ones, 1845-53
Necic acid synthons. Part 1. Total synthesis of integerrineic acid, 2079-83
Synthesis and properties of a series of sterically hindered guanidine bases, 2085-90
Activated nitriles in heterocyclic synthesis: a new procedure for the synthesis of pyrimidine derivatives, 2667-70
Conversion of toluenesulfonyl hydrazones of α-halo aldehydes and ketones into the corresponding phenylthio and phenylseleno derivatives, 2719-24
Compounds with bridgehead nitrogen. Part 43. The reaction between trans-2-aminocycloalkane thiols and formaldehyde, 2777-81
Base-promoted reactions of α-haloalkylanilides, 2969-72
- CONFIGURATION**
Constituents of *Geranium thunbergii* Sieb. et Zucc. Part 12. Hydrated stereostructure and equilibration of geramin, 9-14
Bromo derivatives of dimethyl 4-oxo-trans-2,6-diphenylcyclohexane-1,1-dicarboxylate and their dehydrobromination, 101-5
Synthesis, conformation, and chirality of di-O-methylsequirin D, a biogenetically novel metabolite of *Sequoia sempervirens*, 461-5
Synthesis of condensed tannins. Part 6. The sequence of units, coupling positions, and absolute configuration of the first linear [4,6:4,6]triflavanoid with terminal 3,4-diol function, 535-40
Studies on anhydroosazonones. Part 5. Structure and anomeric configuration of the C-nucleoside analogs obtained from the dehydration of D-gluco- and D-manno hept-2-ulose phenylsazonones, 557-62
Nuclear magnetic resonance and circular dichroism of penicillins derived from disubstituted acetic acids, 563-9
Ketol formation by peracid oxidation of a tricyclic styrene, 657-64
Stereochemistry of 2,3-dimethyl analogs of the reversed ester of pethidine and related compounds: examples of vicinal diaxial methyl groups in 2,3-dimethylpiperidine derivatives, 749-53
Structure and conformation of N-benzoyl derivatives of the biologically important 3-amino-2,3,6-trideoxy-L-hexoses and their synthetic precursor γ- and δ-lactones; a proton and carbon-13 nuclear magnetic resonance study, 885-91

CONFIGURATION(contd)

- Photo-induced transformations. Part LXI. Syntheses of some six-membered and eight-membered lactams of the β -homo- and α -nor- β , β -dihomocholestane series by the photo-Beckmann rearrangement, 931-8
- Cyclization of $\gamma\delta$ -unsaturated sulfenic acids to give thietane 1-oxide derivatives. Crystal structure of rel-(1R,2S,3R,4R)-3-hexyl-2-(hydroxymethyl)-4-methylthietane 1-oxide, 1325-32
- Organometallic compounds in organic synthesis. Part 12. Methods of determination of the stereochemistry of tricarbonylcyclohexa-1,3-dieneiron complexes, 1745-53
- Synthesis of γ -aminobutyric acid analogs of restricted conformation. Part 1. The 2-aminocycloalkylacetic acids, 2553-62
- Chemical synthesis and optical purity determination of optically active 1,2-epoxyindan and alcohol products which are also derived from mammalian or microbial metabolism of indene or indanones, 2767-70
- Inversion of configuration at C-8 in the olivanic acids: conversion into the thienamycins and other novel derivatives, 3011-16
- Determination of the anomeric configuration in glycosides of 3-deoxy-2-aldulosonic acids by circular dichroism and x-ray crystallography, 3055-63
- Synthesis and configurational and conformational study of the diastereoisomeric 2-(α -hydroxybenzyl)- and 2-(α -methoxybenzyl)cyclohexanols and some of their derivatives, 3065-71
- CONFORMATION
- Synthesis, conformation, and chirality of di-O-methylsequirin D, a biogenetically novel metabolite of *Sequoia sempervirens*, 461-5
- Stereochemistry of 2,3-dimethyl analogs of the reversed ester of pethidine and related compounds: examples of vicinal diaxial methyl groups in 2,3-dimethylpiperidine derivatives, 749-53
- Structure and conformation of N-benzoyl derivatives of the biologically important 3-amino-2,3,6-trideoxy-L-hexoses and their synthetic precursor γ - and δ -lactones; a proton and carbon-13 nuclear magnetic resonance study, 885-91
- Solution conformations of two synthetic analogs of quinoxaline antibiotics, 1041-8
- The base-sugar conformation of certain derivatives of adenosine, 1197-1204
- Cyclization of $\gamma\delta$ -unsaturated sulfenic acids to give thietane 1-oxide derivatives. Crystal structure of rel-(1R,2S,3R,4R)-3-hexyl-2-(hydroxymethyl)-4-methylthietane 1-oxide, 1325-32
- The action of nitrogen dioxide and nitric oxide on humulene, C₁₅H₂₄. X-ray crystallographic determination of the stereochemistries and conformations of humulene nitrosite, dinitrohumulene, and nitronitratohumulene, 1385-8
- Quinone-capped porphyrins: NMR studies of static and dynamic stereochemistry and coordination properties, 1617-24
- Conformational behavior of medium-sized rings. Part 9. Disalicylides and trisalicylides, 1629-36
- Conformational behavior of medium-sized rings. Part 10. Dithiosalicylides and trithiosalicylides, 1637-48
- Conformational behavior of medium-sized rings. Part 11. Dianthranilides and trianthranilides, 1649-99
- Conformational behavior of medium-sized rings. Part 12. Tri-3-methyltrianthranilide, 1701-14
- Conformational behavior of medium-sized rings. Part 13. 5,18-Dihydro- and 5,11,12,18-tetrahydrotribenzo[b,f,j][1,4]diazacyclododecine-6,17-diones, 1715-20
- Conformational behavior of medium-sized rings. Part 14. Tetraanthranilides, 1721-6
- Conformational behavior of medium-sized rings. Part 15. 1,19,17-Triaza[2.2.2]metacyclophane-2,10,18-trione derivatives, 1727-32
- Nuclear magnetic resonance and x-ray stereochemical studies on 1-benzyltetrahydroisoquinolinium salts, 2067-77
- Conformation study of dibenzocyclooctadiene systems related to the schizandrin-type lignans, 2353-8
- Synthesis of γ -aminobutyric acid analogs of restricted conformation. Part 2. The 2-(aminomethyl)cycloalkancarboxylic acids, 2563-70
- Tetrahydroisoxazolo[2,3-d][1,4]benzodiazepinone ring system: synthesis, stereochemistry, and conformation, 2701-5
- Synthesis and configurational and conformational study of the diastereoisomeric 2-(α -hydroxybenzyl)- and 2-(α -methoxybenzyl)cyclohexanols and some of their derivatives, 3065-71
- CONST
- Kinetics and mechanism of the reaction of thionyl chloride with substituted acetophenone semicarbazones. The synthesis of 1,2,3-thiadiazoles, 1223-7

- Crown ethers as molecular bromine carriers for bromination reactions, 2153-6
- CONTRACEPTIVE
- Synthesis of 17 α -ethynyl-7 α ,11 β -dihydroxyestra-1,3,5(10)-triene-3,17 β -diol, 2877-80
- CONTRACTION
- Synthesis of the four stereoisomers of 4-aminoadamantane-2-carboxylic acid, rigid analogs of γ -aminobutyric acid, 73-7
- Pyrimidine derivatives and related compounds. Part 41. Reactions of 1,3,6-trimethyl-5-nitrouacil and its 6-bromomethyl analog with amines and hydrazines. Synthesis of pyrazolo[4,3-d]pyrimidine N-oxides and their ring expansion to pyrimido[5,4-d]pyrimidines, 277-84
- Ring contractions of thiochroman-4-ones and thiochromen-4-ones 395-402
- Investigations into the mechanism of the action of alkali in methanol on 3,6-dibenzyl-s-tetrazines and their 1,4-dihydro-derivatives: the role of s-tetrazines as hydride acceptors and an x-ray determination of the structure of 3,6-bis(4-chlorobenzyl)-1,4-dihydro-s-tetrazine, 1165-70
- Solution photochemistry of 4-alkylidene-3,3,5,5-tetramethyl- Δ 1-pyrazolines, 2647-53
- The pyrolysis of 4-alkylidene-3,3,5,5-tetramethyl-1-pyrazolines, 2655-62
- CONVERSION
- A stereospecific synthesis of (+)-muscarine, 809-13
- Stereoselective olefin cyclization mediated by the selenyl group; direct formation of a selenyl caparrapi oxide, 1085-7
- Synthesis of the natural enantiomers of irones from (+)-citronellal 1303-9
- Aminosteroids. Part 8. Synthesis of the four isomeric 3,7-diamino-5 α -pregnanes, 1783-9
- Oxymetalation. Part 16. Modified procedures for reducing peroxymercurials: conversion of nonterminal alkenes into secondary alkyl tert-butyl peroxides, 1797-805
- Synthesis of ambrettolide from phloionolic acid, 1837-9
- One-pot conversions of amines into olefins via nonisolated pyridinium intermediates, 2347-52
- Organoiron complexes in organic synthesis. Part 22. Total synthesis of (\pm)-limaspermine and formal synthesis of (\pm)-aspidospermine using organoiron complexes, 2467-76
- Intramolecular reactions of pyridinium-2-carbonyl azides: conversion of amines into aldehydes, 2953-6
- COORDINATION
- Quinone-capped porphyrins: NMR studies of static and dynamic stereochemistry and coordination properties, 1617-24
- COPPER
- Polyformylation of copper(II) complexes of octaalkylporphyrins, 581-5
- Interaction of copper complexes derived from 1,2-quinone monooximes (2-nitrosophenols) with amines, 1075-8
- The copper-promoted reaction of o-halodiarylozo compounds with nucleophiles. Part 3. The copper-promoted reaction of o-bromodiarylozo compounds with carboxylate ions. A novel method for the preparation of o-hydroxydiarylozo compounds, 1775-82
- The reaction of copper(II) complexes of glycine imines with activated olefins, 1827-31
- CORDIA
- Cordialin A and B, two new triterpenes from *Cordia verbenacea* DC, 2697-700
- CORDIALIN
- Cordialin A and B, two new triterpenes from *Cordia verbenacea* DC, 2697-700
- CORGOINE
- A novel synthesis of the 2-benzylisoquinoline alkaloids sendaverine and corgoine with aziridinium salts as reactive intermediates, 2399-401
- CORTICOSTERONE
- 18-Substituted steroids. Part 10. Synthesis of 16 α ,18,21-trihydroxypregn-4-ene-3,20-dione (16 α ,18-dihydroxy-11-deoxycorticosterone), 723-8
- COSYNTHESE
- Biosynthesis of porphyrins and related macrocycles. Part 17. Chemical and enzymic transformation of isomeric aminomethylbilanes into uroporphyrinogens: proof that unrearranged bilane is the preferred enzymic substrate and detection of a transient intermediate, 2413-26
- Biosynthesis of porphyrins and related macrocycles. Part 18. Proof

COSYNTHEASE(contd)

by spectroscopy and synthesis that unrearranged hydroxymethylbilane is the product from deaminase and the substrate for cosynthetase in the biosynthesis of uroporphyrinogen-III, 2427-44

COUPLING

Syntheses and properties of trimethyltetrahydro[19]annulenes and the benzannulated derivatives, 31-42

Syntheses and properties of a trimethyltetrahydro[21]annulene and its benzannulated derivatives, 43-50

Syntheses and properties of a trimethyltetrahydro[23]annulene and a trimethyltetrahydro[25]annulene, 51-8

On the double bond isostere of the peptide bond: preparation of an enkephalin analog, 307-14

Synthesis of (R,S)-(5Z,8E,10E)-12-hydroxyheptadeca-5,8,10-trienoic acid and of (R,S)- and (S)-(5Z,8Z,10E,14Z)-12-hydroxyeicosa-5,8,10,14-tetraenoic acid and their racemic 5,6,8,9-tetraenantiomers, 545-52

Reactions with heterocyclic diazonium salts: novel synthesis of pyrazolo[4,3-c]pyridazines and of pyrazolo[4,3-c]pyrazoles, 989-91

Phosphonation of aryl halides by copper(I) complexes of trialkyl phosphites, 1143-8

The enamine route to 2-morpholinisoflav-3-ene, 1193-6

1,2-Disubstituted ethanes as possible precursors for the synthesis of Cannabis spirans, 1485-91

Synthesis of β -amino acid peptides. Part 3. Preparation of racemic and chiral 3-aminobutyric acid derivatives and peptides using dihydrooxazin-6-ones and conventional coupling reagents, 1587-92

Triazines and related products. Part 24. Synthesis of pyrazol-4-ylidenehydrazinoimidazoles by hydrazinolysis of imidazo[5,1-c][1,2,4]triazines and 2-arylazoimidazoles by diazonium coupling reactions, 1811-19

Triazines and related products. Part 25. Methods for the attachment of sugar residues to cytotoxic 1,3,5-triazines, 1821-5

Synthesis of a nonasaccharide containing terminal N-acetyl- β -D-lactosaminyl residues, part of the 'complex-type' carbohydrate moiety of glycoproteins, 1841-4

Stereochemical transformations of 5'-amino-5'-deoxyuridine and its 5,6-dihydro analog. 5'-N-aminoacyl derivatives of 5'-amino-5'-deoxy-5,6-dihydrouridine, 2091-7

Synthesis of substituted dibenzophospholes. Part 2. Syntheses of intermediate biphenyls and quaterphenyls, 2299-315

Biosynthesis of porphyrins and related macrocycles. Part 18. Proof by spectroscopy and synthesis that unrearranged hydroxymethylbilane is the product from deaminase and the substrate for cosynthetase in the biosynthesis of uroporphyrinogen-III, 2427-44

Spirans. Part 15. The effect of ring size upon the regioselective oxidative coupling of heterocyclic phenols, 2617-24

CRAFTS

Synthesis of adamantane derivatives. Part 53. Simple synthesis of 7-thiaprotoadamantane (7-thiatriacyclo[4.3.1.0^{3,8}]decane) and related derivatives via a regioselective and stereoselective intramolecular Friedel-Crafts reaction, 1953-8

CROSSLINK

Synthesis of 4- and 5-(1,3-dimethylbut-2-enylthio)-2,6-dimethylocta-2,6-diene, models for sulfur crosslinks in natural rubber, 3027-30

CROSSLINKING

Synthesis of 4- and 5-(1,3-dimethylbut-2-enylthio)-2,6-dimethylocta-2,6-diene, models for sulfur crosslinks in natural rubber, 3027-30

CROTALANINE

Pyrrrolizidine alkaloid analogs. Synthesis of eleven-membered macrocyclic diesters of retronecine, 1117-21

CROWN

Crown ethers as molecular bromine carriers for bromination reactions, 2153-6

Active and passive transport of amino acid and oligopeptide derivatives by artificial ionophore-potassium ion complexes, 2359-63

Photoresponsive crown ethers. Part 6. Ion transport mediated by photoinduced cis-trans interconversion of azobis(benzocrown ethers), 2735-9

Photoresponsive crown ethers. Part 7. Proton and metal ion catalyses in the cis-trans isomerization of azopyridines and an azopyridine-bridged cryptand, 2741-7

CRYPTAND

Photoresponsive crown ethers. Part 7. Proton and metal ion catalyses in the cis-trans isomerization of azopyridines and an azopyridine-bridged cryptand, 2741-7

CRYPTOLEURINE

Synthesis of the alkaloids, 3',4'-dimethoxy-2-(2-piperidyl)acetophenone, julandine, and cryptoleurine, 2487-90

CRYPTOSPORIOPSISINOL

The biosynthesis of chlorine-containing metabolites of *Periconia macrospinosa*, 3037-9

CRYSTAL

Benzocyclobutenes. Part 7. Synthesis and x-ray crystal structure of cyclobuta[1]phenanthrene-1,2-dione and the synthesis of hexabenz[o,a,c,g,i,m,o]triphenylene, 19-23

Ketol formation by peracid oxidation of a tricyclic styrene. 657-64

Synthesis of 1H-1-benzazepines by thermolysis of 2a.7b-dihydro-3H-cyclobut[b]indoles, 741-8

The x-ray structure and absolute configuration of insect antifeedant clerodane diterpenoids from *Teucrium africanum*, 1005-8

Investigations into the mechanism of the action of alkali in methanol on 3,6-dibenzyl-s-tetrazines and their 1,4-dihydro-derivatives: the role of s-tetrazines as hydride acceptors and an x-ray determination of the structure of 3,6-bis(4-chlorobenzyl)-1,4-dihydro-s-tetrazine, 1165-70

Alkaloids of the Annonaceae. Part 33. Annomontine and methoxyannomontine, two new pyrimidine- β -carboline-type alkaloids from *Annona montana*, 1205-8

X-ray structure determination of gardmultine. A bis-indole alkaloid isolated from *Gardneria multiflora* Makino, 1263-7

The meso-reactivity of porphyrins and related compounds. Part VIII. Substitution and addition reactions of octaethyl-21H,24H-bilin-1,19-dione, a model verdin system. X-ray analyses of octaethyl-5-nitro-21H,24H-bilin-1,19-dione and of 4,5-diethoxyoctaethyl-4,5-dihydro-21H,24H-bilin-1,19-dione, 1291-302

Cyclization of $\gamma\delta$ -unsaturated sulfenic acids to give thietane 1-oxide derivatives. Crystal structure of rel-(1R,2S,3R,4R)-3-hexyl-2-(hydroxymethyl)-4-methylthietane 1-oxide, 1325-32

Thermal rearrangement reactions of tricarbonyliron lactone complexes, 1355-61

The action of nitrogen dioxide and nitric oxide on humulene, C₁₅H₂₄. X-ray crystallographic determination of the stereochemistry and conformations of humulene nitrosite, dinitrohumulene, and nitronitratohumulene, 1385-8

Conformational behavior of medium-sized rings. Part 10.

Dithiosalicyclides and trithiosalicyclides, 1637-48

Dehydrogenation of lactones using benzeneseleninic anhydride. X-ray crystal structure of 3 β -acetoxy-14 α -hydroxy-17a-oxa-D-homo-5 α -androst-15-en-17-one, 1919-22

Nuclear magnetic resonance and x-ray stereochemical studies on 1-benzyltetrahydroisoquinolinium salts, 2067-77

Oxidation of aldose oximes. Formation and structure of hydroxydiazene oxidase acetals and preparation of hydroximolactones. X-ray crystal structure of 2,3:5,6-di-O-isopropylidene- α -D-mannofuranosyl-O,N,N-azoxy 2,3:5,6-di-O-isopropylidene- α -D-mannofuranoside, 2139-47

Tricyclic products from the reaction between penicillin derived thiazolineazetidionones and ethyl diazoacetate. X-ray structure of methyl 2-[(1R,3S,4R,5S,6S,8R)-3-benzyl-4,5-bismethoxycarbonyl-6-ethoxycarbonyl-9-oxo-7,10-diaza-2-thiatriacyclo[6.2.0.0^{3,7}]decan-10-yl]-3-methylbut-2-enoate, 2169-73

Thermal, photochemical, and acid-catalyzed rearrangements of the spiro dimer of α,α' -bis(methoxycarbonyl)-o-quinodimethane. X-ray crystal structure of trans,trans-tetrakis(methoxycarbonyl)dibenzo[a,e]-cyclooctene, 2257-63

The x-ray structure analysis of anhydrous heptamethyl dicyanocobryrate (cobester), 2279-88

Synthesis of substituted dibenzophospholes. Part 3. Synthesis of 4,6-diaryldibenzophospholes from m-quaterphenyls, 2317-31

Conformational study of dibenzocyclooctadiene systems related to the schizandrin-type lignans, 2353-8

Salvinorin, a new trans-neoclerodane diterpene from *Salvia divinorum* (Labiatae), 2505-8

Preparation of 6 α -monosubstituted and 6,6-disubstituted penicillanates from 6-diazopenicillanates: reactions of 6-diazopenicillanates with alcohols, thiols, phenylseleninyl compounds, and allylic sulfides, and their analogs, 2757-66

Novel dammarane triterpenoid glycosides from the leaves of *Hovenia dulcis*. X-ray crystal structure of hovenolactone

CRYSTAL(contd)

- monohydrate, 2795-9
- Stereochemical studies. Part 50. Saturated heterocycles. Part 29. Synthesis and x-ray analysis of stereoisomeric dodecahydropyrid-*o*[2,1-*b*]quinazolin-11-ones, 2801-6
- Chemical studies on the annonaceae. Part 9. Indolosesquiterpene and aporphine alkaloids from *Greenwayodendron* (*Polyalthia*) *suaveolens* stem bark. X-ray crystal structure of *greenwayodendrin-3-one*, 2807-12
- The chemistry of pseudomonic acid. Part 5. Structure and chemistry of pseudomonic acid C. X-ray crystal structure of ethyl monate C 2827-33
- Oxidation of alkoxyphenols. Part 26. The trimer of a 2,2'-diphenoquinone (1,1'-bicyclohexa-3,5-dienylidene-2,2'-dione), 2855-62
- A fragmentation approach to a maytansine synthon: lithium dimethylcuprate-opening of substituted cyclohexene epoxides. X-ray structure determination of ethyl *t*-2,3-epoxy-*c*-6-*p*-methoxybenzoyloxy-1-methylcyclohexane-*r*-1-carboxylate, 2885-96
- Isolation and crystal structure of an arsenic-containing sugar sulfate from the kidney of the giant clam, *Tridacna maxima*. X-ray crystal structure of (2*S*)-3-[5-deoxy-5-(dimethylarsinoyl)- β -*D*-ribofuranosyloxy]-2-hydroxypropyl hydrogen sulfate, 2989-93
- The crystal structure of *N*(α)-*tert*-butoxycarbonyl-*N*(π)-benzyloxymethyl-L-histidine, 3045-8
- Determination of the anomeric configuration in glycosides of 3-deoxy-2-aldulosonic acids by circular dichroism and x-ray crystallography, 3055-63

CUNNINGHAMELLA

- Microbiological transformations. Part 5. Microbiological transformations of 17*a*-*aza*- and 17-*aza*-*D*-homoandrost-5-ene derivatives with the fungus *Cunninghamella elegans*, 571-6

CUPRATE

- Organocuprate conjugate addition reactions of 2,3-dihydrothiin-4-one, its oxide and dioxide, 1177-82

CURVULARIA

- 7-*epi*-Brefeldin A, a cometabolite of brefeldin A in *Curvularia lunata*, 2387-90

CUSPIDIOL

- Studies on the chemical constituents of rutaceous plants. Part 45. Novel phenyl propanoids: cuspidiol, boninalenol, and methyl boninalenol, 2051-8

CYANATION

- Synthesis of ribosyl and arabinosyl cyanides by reaction of 1-*O*-acyl sugars with trimethylsilyl cyanide, 903-7
- Synthesis of the natural enantiomers of irones from (+)-citronellal 1303-9

CYANIDE

- Synthesis of ribosyl and arabinosyl cyanides by reaction of 1-*O*-acyl sugars with trimethylsilyl cyanide, 903-7

CYANO

- Cyclodienones. Part 8. Hydrolysis of 5-oxo-2,4-di-*tert*-butylcyclopenta-1,3-dienecarbonitrile, 243-6
- Homolytic displacements at carbon. Part 8. Synthesis of 1-cyano-2-(trichloroethyl)cyclopropanes from allylcobaloximes via but-3-enylcobaloximes and 1-bromo-1-cyanobut-3-enes, 645-51
- Photooxidation of oxazolidones and hydantoins in the presence of benzophenone, 2341-5
- The pyrolysis of 4-alkylidene-3,3,5,5-tetramethyl-1-pyrazolines, 2655-62
- Polyhaloaromatic compounds. Part 48. Reactions of tetrachloro-4-cyanopyridine with mono- and bifunctional nucleophiles, 2897-900

CYANOACETATE

- Organoiron complexes in organic synthesis. Part 18. Spiroannellation reactions of some bifunctional tricarbonyl(cyclohexadienyl)iron hexafluorophosphate salts, 489-97

CYANOALKANAL

- Reactions with heterocyclic diazonium salts: novel synthesis of pyrazolo[4,3-*c*]pyridazines and of pyrazolo[4,3-*c*]pyrazoles, 989-91

CYANOCOBYRINATE

- Biosynthesis of vitamin B₁₂. Analysis of the proton and carbon-13 NMR spectra of heptamethyl dicyanocobyrinate (cobester), 2265-77

CYANODIBUTYLCYCLOPENTADIENONE

- Cyclodienones. Part 8. Hydrolysis of 5-oxo-2,4-di-*tert*-

butylcyclopenta-1,3-dienecarbonitrile, 243-6

CYANOETHYLPYRIDINECOBALOXIME

- Cobaloximes. Part 2. A modified Schrauzer synthesis for base-sensitive cobaloximes, 1019-23

CYANOETHEROCYCLE

- Photooxidation of oxazolidones and hydantoins in the presence of benzophenone, 2341-5

CYANOMETHOXYCARBONYLSPIROALKENONE

- Organoiron complexes in organic synthesis. Part 18. Spiroannellation reactions of some bifunctional tricarbonyl(cyclohexadienyl)iron hexafluorophosphate salts, 489-97

CYANOOXAZOLIDONE

- Photooxidation of oxazolidones and hydantoins in the presence of benzophenone, 2341-5

CYANOSPIROALKENONE

- Organoiron complexes in organic synthesis. Part 18. Spiroannellation reactions of some bifunctional tricarbonyl(cyclohexadienyl)iron hexafluorophosphate salts, 489-97

CYANOTRICHOROETHYLCYCLOPROPANE

- Homolytic displacements at carbon. Part 8. Synthesis of 1-cyano-2-(trichloroethyl)cyclopropanes from allylcobaloximes via but-3-enylcobaloximes and 1-bromo-1-cyanobut-3-enes, 645-51

CYCLIC

- Chemistry of hop constituents. Part 43. Cyclic polysulfides and a thiophene from myrcene, and their occurrence in the essential oil of hops, 1089-94

- Synthesis of annelated 1,3,4,6-thiatriazepines from reaction of cyclic thioureas with 1,4-dichloro-2,3-diazabutadienes, 1999-2005

CYCLIZATION

- Synthesis of gambirtannine derivatives by photocyclization of enamine intermediates, 59-62
- Polyhaloaromatic compounds. Part 46. Circumstantial evidence for the intermediacy of radical anions during the reaction of magnesium with ω -bromoalkoxypolychloro-arenes and -heteroarenes, 93-9
- Partially fluorinated heterocyclic compounds. Part 16. Preparation of furan derivatives from pentafluorophenyl and heptafluoro-2-naphthyl prop-2-ynyl ethers with aromatic compounds, and the isolation of hydrogen-abstraction products, 107-10
- Photoinduced transformations. Part 60. Photoinduced rearrangements of cholesteryl nitrites with monochromatic light, 111-16
- Preparation and reactions of pyrylium salts containing α -pyridyl groups, 125-30
- Reactions of five-membered heteroaromatic oxonium cations with amines, 131-6
- Electrochemical reactions. Part 24. Reductive cyclization of *i*-(2-halophenyl)-*j*-phenyl compounds: a general reaction, 229-34
- Photochemical reactions of *N,N*-dialkyl- α -thioxoamides, 247-8
- Synthetic application of azetid-2-ones to a synthesis of furan derivatives, 257-60
- Total synthesis of (\pm)-picropodophyllone, 271-6
- Indole β -nucleophilic substitution. Part 3. Synthesis of four isomeric pyrido[*x',y'*:5,6]oxepino[3,2-*b*]indolones, 435-9
- Homolytic displacements at carbon. Part 8. Synthesis of 1-cyano-2-(trichloroethyl)cyclopropanes from allylcobaloximes via but-3-enylcobaloximes and 1-bromo-1-cyanobut-3-enes, 645-51
- Thermal reaction of *N*-(1-azido-2-oxoalkylidene)-*N'*-(α -alkenylphenyl)hydrazines; intramolecular 1,4-cycloaddition of 1,2,4-triaza-1,3-diene intermediates, 755-8
- Biosynthesis of rotenoids by *Amorpha fruticosa*: sequence, specificity, and stereochemistry in the development of the hemiterpenoid segment, 789-97
- Evidence for the biogenesis of 1 α -hydroxy-trans-eudesmanolides, 881-4
- Reactions with heterocyclic diazonium salts: novel synthesis of pyrazolo[4,3-*c*]pyridazines and of pyrazolo[4,3-*c*]pyrazoles, 989-91
- Lewis acid-catalyzed reactions of aryl cyclopropyl ketones. Scope and mechanism, 1029-35
- Synthesis and reactions of some novel imidazobenzoxazines and related systems, 1049-58
- Stereoselective olefin cyclization mediated by the selenyl group; direct formation of a selenyl caparrapi oxide, 1085-7
- Cyclol formation from tripeptides containing β -alanine, 1311-16
- Cyclization of $\gamma\delta$ -unsaturated sulfenic acids to give thietane 1-oxide derivatives. Crystal structure of *rel*-(1*R*,2*S*,3*R*,4*R*)-3-hexyl-2-(hydroxymethyl)-4-methylthietane 1-oxide, 1325-32
- Addition reactions of aminium radicals: oxidative and nonoxidative

CYCLIZATION(contd)

- photoaddition of nitrosoamines to nonconjugated polyenes, 1419-28
- 1,2-Disubstituted ethanes as possible precursors for the synthesis of Cannabis spirans, 1485-91
- Heterocyclic syntheses with malonyl dichloride. Part 13. 6-Chloro-4-hydroxy-2-oxopyran-3-carboxanilides from *N*-sulfinylanilines and further reaction of malonyl dichloride with thiocyanates, 1575-8
- Naturally occurring dibenzofurans. Part 1. A synthesis of cannabifuran, 1605-10
- Triazines and related products. Part 24. Synthesis of pyrazol-4-ylidenehydrazinoimidazoles by hydrazinolysis of imidazo[5,1-c][1,2,4]triazines and 2-arylazoinimidazoles by diazonium coupling reactions, 1811-19
- The reaction of copper(II) complexes of glycine imines with activated olefins, 1827-31
- The reaction of Meldrum's acid with α -dicarbonyl monohydrazones: a new synthesis of pyridazin-3-ones, 1845-53
- Intramolecular acetalization of naphthoquinones, 1933-6
- The thermolysis of polyazapentadienes. Part 2. Formation of quinoxalines from 5-aryl-1-phenyl-1,2,5-triazapentadienes, 1941-5
- Stereochemical and mechanistic aspects of the base-promoted cyclization of *o*-vinylphenylhydrazonyl chlorides under phase-transfer conditions, 2041-4
- Anthracyclines. Part 1. The synthesis of racemic daunomycinone and some related tetrahydronaphthacenequinones, 2227-38
- Naturally occurring dibenzofurans. Part 2. The synthesis of schizopeltic acid, 2373-7
- Syntheses and reactivities of 3-methylisooxazolo[4,5-b]pyridines, 2391-4
- Intramolecular reactions of *N*-nitrenes: oxidation of 3-amino-2-(aryllalkyl)quinazolin-4(3H)-ones, 2407-12
- Biosynthesis of porphyrins and related macrocycles. Part 17. Chemical and enzymic transformation of isomeric aminomethylbilanes into uroporphyrinogens: proof that unrearranged bilane is the preferred enzymic substrate and detection of a transient intermediate, 2413-26
- Biosynthesis of porphyrins and related macrocycles. Part 18. Proof by spectroscopy and synthesis that unrearranged hydroxymethylbilane is the product from deaminase and the substrate for cosynthetase in the biosynthesis of uroporphyrinogen-III, 2427-44
- Organoiron complexes in organic synthesis. Part 24. Studies in the synthesis and reactivity of 6-*exo*-substituted cyclohexadienylum-(tricarboxyl)iron salts, 2641-6
- Synthesis of 1,2,3,9b-tetrahydro-9b-hydroxy-1-phenylpyrrolo[2,1-*a*]isoindol-5-one via the hydrazinolysis of 2-phenyl-2-(2-phthalimidoethyl)indan-1,3-dione, 2783-6
- Acid-catalyzed cyclizations: structures of novel products isolated in the reaction of 2-[3-(2,6-dimethoxyphenyl)but-2-enyl]-2-methylcyclopentane-1,3-dione with methanol-hydrochloric acid, 2791-4
- Studies on heterocyclic chemistry. Part 26. The ring transformation of 3-acylthio-4-aryl-3-isothiazoline-5-thiones to benzo[*b*] and naphtho[2,1-*b*]thiophenes with an acylimino group at C-2 via the 2-arylethanethioamide derivatives, 2867-70
- Synthetic approaches to some aza analogs of benzimidazole *N*-oxides. Part 1. The imidazo[4,5-*b*]pyridine series, 2995-3006
- CYCLOADDN**
- Benzocyclobutenes. Part 7. Synthesis and x-ray crystal structure of cyclobuta[*l*]phenanthrene-1,2-dione and the synthesis of hexabenz[*a,c,g,i,m,o*]triphenylene, 19-23
- Preparation and reactions of pyridones: steric and electronic effects on cycloadditions with 2(1H)-pyridones, 169-73
- Studies on intramolecular cycloaddition reactions of some isoquinolinium salts, 249-55
- Metal-assisted cycloadditions. Part 1. Synthesis of substituted cyclopentane derivatives obtained from the reactions of (η^1 -allyl)dicarbonyl(η^5 -cyclopentadienyl)iron with electron-deficient olefins and acetylenes, 285-94
- Metal-assisted cycloadditions. Part 2. Reactions of dicarbonyl(η^5 -cyclopentadienyl)(η^1 -3-methoxyallyl)iron with electron-deficient olefins and acetylenes, 295-300
- Metal-assisted cycloadditions. Part 3. Reactions of dicarbonyl(η^5 -cyclopentadienyl)(η^1 -2-methoxyallyl)iron with electron-deficient olefins and acetylenes, 301-6
- Acid-catalyzed condensation of isoprene with phenols. Formation of 2,2-dimethylchromans, 335-8
- Reactions of spiroindazoles containing keto groups. Part 2. Evidence for a spirobenzocyclopropene intermediate in the thermolysis of anthrone-10-spiro-3'-3'H-indazoles to benz[*a*]aceanthrylenes, 577-9
- Studies on *v*-triazoles. Part 4. The 4-methoxybenzyl group, a versatile *N*-protecting group for the synthesis of *N*-unsubstituted *v*-triazoles, 627-30
- Synthesis of 1H-1-benzazepines by thermolysis of 2a,7b-dihydro-3H-cyclobut[*b*]indoles, 741-8
- Thermal reaction of *N*-(1-azido-2-oxoalkylidene)-*N'*-(*o*-alkenyloxyphenyl)hydrazines; intramolecular 1,4-cycloaddition of 1,2,4-triaza-1,3-diene intermediates, 755-8
- Reactions of norcarane and of norborn-2-ene with iodine(I) azide and iodine(I) chloride, 961-5
- Studies of heterocyclic chemistry. Part 25. Intramolecular cyclizations of *N*-acylarylethanethioamides leading to thiazoles, 4H-1,3-thiazines, 4H-pyrido[3,2-*e*]-1,3-thiazines, and 4H-1,3-benzothiazines, 1239-44
- Synthesis of some thietanoprostanoids, 1333-42
- Dinitrones from C-benzyl nitrones, 1395-8
- Fluorocarbon derivatives of nitrogen. Part 8. Reactions between heteroaromatic *N*-imines (*N*-iminopyridinium and *N*-iminoquinolinium ylide) and perfluoropropene, 2H-pentafluoropropene, perfluorobut-2-ene, perfluoro(2-methylpent-2-ene), perfluorobut-2-yne, and perfluoropyridine: synthesis of fluorinated 3-azaindolizines (pyrazolo[1,5-*a*]pyridines), 1593-600
- Photocycloaddition of 1-aminoanthraquinones to dienes by visible light irradiation, 1771-3
- The synthesis and reactions of 4H-tetrazolo[5,1-*c*][1,4]benzothiazines, 1879-84
- Preparation and reactions of 3-phenyl-4a,5,6,8a-tetrahydro-4H-1,2-benz[*e*]oxazines, 1891-5
- Thiadiazoles and thiadiazolines. Part 2. Δ^2 -1,3,4-Thiadiazoline-4-carboxamidines derived from substituted acyclic thioureas, 1981-6
- Heterocyclic polyfluoro compounds. Part 41. Photochemical isomerization of 1-substituted hexafluoro-1H-azepines: hexafluoro-2-azabicyclo[3.2.0]hepta-3,6-dienes and their reactions, 2105-9
- Tricyclic products from the reaction between penicillin derived thiazolineazetidiones and ethyl diazoacetate. X-ray structure of methyl 2-[(1R,3S,4R,5S,6S,8R)-3-benzyl-4,5-bismethoxycarbonyl-6-ethoxycarbonyl-9-oxo-7,10-diaza-2-thiatricyclo[6.2.0.0.3'-7]decan-10-yl]-3-methylbut-2-enoate, 2169-73
- Synthesis of β -lactams from imines and 1-lithiooxy-2-phenylacetylene, 2193-6
- Polyhalo allenes and acetylenes. Part 15. Dipolar cycloadditions of *N*-phenylsydnone and aryl azides to perfluoropropadiene and perfluoropropyne, 2207-10
- Fluoro olefin chemistry. Part 15. Thermal reaction of hexafluoropropene with hydrocarbon olefins, 2219-26
- Photochemistry of epoxyquinones. Part 7. Photoinduced cycloaddition of 2,3-dimethyl-2,3-dihydro-2,3-epoxy-1,4-naphthoquinone to olefins, 2671-85
- Tetrahydroisoxazolo[2,3-*d*][1,4]benzodiazepinone ring system: synthesis, stereochemistry, and conformation, 2701-5
- Studies of heterocyclic analogs of azulenes. Part 9. Regioselective cycloadditions of 2H-cycloheptathiazol-2-one with acetylenic esters and electron-deficient olefins, 2881-3
- CYCLOALKADIENE**
- Addition reactions of aminium radicals: oxidative and nonoxidative photoaddition of nitrosoamines to nonconjugated polyenes, 1419-28
- CYCLOALKANECARBOXYLATE**
- Synthesis of γ -aminobutyric acid analogs of restricted conformation. Part 2. The 2-(aminomethyl)cycloalkanecarboxylic acids, 2563-70
- CYCLOALKANODITHIADIAZECINE**
- Compounds with bridgehead nitrogen. Part 43. The reaction between trans-2-aminocycloalkane thiols and formaldehyde, 2777-81
- CYCLOALKANOTHIAZOLYLMETHANE**
- Compounds with bridgehead nitrogen. Part 43. The reaction between trans-2-aminocycloalkane thiols and formaldehyde, 2777-81
- CYCLOALKATRIENE**
- Addition reactions of aminium radicals: oxidative and nonoxidative photoaddition of nitrosoamines to nonconjugated polyenes,

CYCLOALKATRIENE(contd)

1419-28

CYCLOALKENE

- Nitroxide chemistry. Part 20. N,N-Bis(trifluoromethyl)hydroxylamine as a carbocation trapping agent, 835-9
- Heterocyclic polyfluoro-compounds. Part 37. Diels-Alder reactions of trichloro- and trifluoro-1,2,4-triazine, 1245-9
- Addition reactions of aminium radicals: synthetic studies of oxidative photoaddition of N-nitrodimethylamine, 1405-17
- Oxymetalation. Part 16. Modified procedures for reducing peroxymercurials: conversion of nonterminal alkenes into secondary alkyl tert-butyl peroxides, 1797-805

CYCLOALKENONE

- Ketene silyl acetal chemistry; simple synthesis of methyl jasmonate and related compounds by utilizing ketene methyl dimethyl-tert-butylsilyl acetal, 1099-104

CYCLOALKYL

- Oxymetalation. Part 16. Modified procedures for reducing peroxymercurials: conversion of nonterminal alkenes into secondary alkyl tert-butyl peroxides, 1797-805

CYCLOALKYLACETATE

- Synthesis of γ -aminobutyric acid analogs of restricted conformation. Part 1. The 2-aminocycloalkylacetic acids, 2553-62

CYCLOALKYLAMINE

- One-pot conversions of amines into olefins via nonisolated pyridinium intermediates, 2347-52

CYCLOALKYLATION

- Reductive cleavage of propellane-type hydrazinium dications as a route to medium sized ring bicyclic diamines with bridgehead nitrogen atoms, 603-9

CYCLOBUTANE

- Fluoro olefin chemistry. Part 15. Thermal reaction of hexafluoropropene with hydrocarbon olefins, 2219-26

CYCLOBUTAPHENANTHRENEDIONE

- Benzocyclobutenes. Part 7. Synthesis and x-ray crystal structure of cyclobuta[1]phenanthrene-1,2-dione and the synthesis of hexabenzol[a,c,g,i,m,o]triphenylene, 19-23

CYCLOBUTINDOLE

- Synthesis of 1H-1-benzazepines by thermolysis of 2a,7b-dihydro-3H-cyclobut[b]indoles, 741-8

CYCLOBUTYL CYCLOBUTENE

- Reactions involving fluoride ion. Part 25. A fluoride-ion-induced skeletal rearrangement, 673-6

CYCLOCONDENSATION

- The preparation of pyridiniums from pyriliams, 117-23
- Preparation and reactions of pyriliams salts containing α -pyridyl groups, 125-30
- Reactions of five-membered heteroaromatic oxonium cations with amines, 131-6
- 2-(2-Nitrophenyl)oxaheterocycloniums: potential reagents for oxidative deamination of primary amines, 137-42
- The preparation of thiazole-4- and -5-carboxylates, and an infrared study of their rotational isomers, 159-64
- Synthesis and NMR spectra of 2,6- and 2,4-diaryl-3,7-dioxabicyclo[3.3.0]octanes, 183-90
- Intramolecular cyclization reactions in aliphatic thymidine analogs series, 223-7
- Pyrimidine derivatives and related compounds. Part 41. Reactions of 1,3,6-trimethyl-5-nitouracil and its 6-bromomethyl analog with amines and hydrazines. Synthesis of pyrazolo[4,3-d]pyrimidine N-oxides and their ring expansion to pyrimido[5,4-d]pyrimidines, 277-84
- Fused mesoionic heterocycles: synthesis of 1,3,4-oxadiazolo[3,2-a]pyridine and 1,3,4-thiadiazolo[3,2-a]pyridine derivatives, 351-5
- Carbon-13 nuclear magnetic resonance spectra of quinoxaline derivatives, 357-63
- Approaches to bridged thia[17]annulenes, 483-7
- Organoiron complexes in organic synthesis. Part 18. Spiroannulation reactions of some bifunctional tricarboxyl(cyclohexadienyl)iron hexafluorophosphate salts, 489-97
- Reactions of mercury(II) acetate with nitrogen compounds. Part 9. Oxidations of the bis(4-nitrophenylhydrazones) of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553-5
- Studies on anhydroosazones. Part 5. Structure and anomeric configuration of the C-nucleoside analogs obtained from the dehydration of D-glucosyl- and D-mannosyl-phenylosazones, 557-62
- Chemistry of 6H-pyrido[4,3-b]carbazoles. Part 9. An efficient route

- to 3-[1-(3-ethylpyridyl)]indoles and the synthesis of some new ellipticines, 587-90

- Studies on v-triazoles. Part 4. The 4-methoxybenzyl group, a versatile N-protecting group for the synthesis of N-unsubstituted v-triazoles, 627-30

- 1,3,2-Oxazaphospholidine-2-thiones from (+)-norephedrine: stereospecific ring opening, possibly by an elimination-addition mechanism, 639-43

- Sulfur extrusion reactions. Part 5. Reactions of monoprotic thioureas with ethyl α -chloroacetoacetate, ethyl bromomalonate, and ethyl bromocyanoacetate, 653-6

- Convenient syntheses of 5-substituted 2-hydroxybenzoates and related reactions, 665-9

- Synthesis of stable prostacyclin analogs from 2,3-disubstituted bicyclo[3.2.0]heptan-6-ones, 823-30

- 1H-1,4-Benzothiazines. New cyclic sulfonium ylides, 831-4

- Synthesis of dihydrobenzofurans from phenolic Mannich bases and their quaternized derivatives, 841-8

- Reactions with heterocyclic diazonium salts: novel synthesis of pyrazolo[4,3-c]pyridazines and of pyrazolo[4,3-c]pyrazoles, 989-91

- Cobaloximes. Part 3. A cobaloxime synthesis for use with reactive alkyl halides, 1025-8

- Reactions of 3-acetylpropolone methyl ethers with guanidine and amidines, 1037-9

- Synthesis of heterocycles using a new immonium salt derived from N,N-dimethylthiourea, 1059-62

- Azonia-azulene salts. Part 5. Synthesis of 5H-pyrrolo[1,2-a]azepine and of 7H-pyrrolo[1,2-a]azepin-7-one, 1123-30

- Studies on S_{RN}1 reactions. Part 6. Synthesis of 3-methyl derivatives of the alkaloids thalactamine, doryanin, and 6,7-dimethoxy-N-methyl-1(2H)-isoquinoline, 1149-52

- Kinetics and mechanism of the reaction of thionyl chloride with substituted acetophenone semicarbazones. The synthesis of 1,2,3-thiadiazoles, 1223-7

- Studies of heterocyclic chemistry. Part 25. Intramolecular cyclizations of N-acylarylethanethioamides leading to thiazoles, 4H-1,3-thiazines, 4H-pyrido[3,2-e]-1,3-thiazines, and 4H-1,3-benzothiazines, 1239-44

- The chemistry of 4-mercaptoazetid-2-ones. Part 3. Synthesis of 6-phenoxyacetamido-2-alkylidenepenam-3-carboxylic acids, 1429-33

- The chemistry of 4-mercaptoazetid-2-ones. Part 4. Synthesis of cyclopropanespiro-2-bisnorpenicillanic acids, 1435-9

- Conformational behavior of medium-sized rings. Part 13. 5,18-Dihydro- and 5,11,12,18-tetrahydrotribenzob[b,f,j][1,4]diazacyclododecane-6,17-diones, 1715-20

- Regiospecific annulations of substituted tropones with ethane-1,2-dithiol, 1865-9

- Thiadiazoles and thiadiazolines. Part 3. Synthesis of triazol-3-yl- Δ^2 -1,3,4-thiadiazolines and a new synthesis of unsymmetrical 1,3,4-disubstituted 1,3,4-thiadiazoles, 1987-91

- Thiadiazoles and thiadiazolines. Part 4. Acetylation, hydrolysis, and cyclocondensations of Δ^2 -1,3,4-thiadiazoline- α -carboxamides, 1993-8

- Synthesis of annelated 1,3,4,6-thiatriazepines from reaction of cyclic thioureas with 1,4-dichloro-2,3-diazabutadienes, 1999-2005

- 1,3,4-Oxadiazol-2(3H)-one formation from N-acylaminobiurets and related compounds and from S-benzyl 3-acyl(thiocarbazate-s), 2019-21

- Heterocyclic polyfluoro compounds. Part 40. Preparation of polyfluoroazepines, 2101-4

- Synthesis of (2RS,5RS,6SR)-3-methoxycarbonyl-7-oxo-6-phenoxyacetamido-1-azabicyclo[3.2.0]hept-3-ene-2-carboxylic acid, 2123-9

- Novel synthesis of diimines by the transformation of 1-aryl-4,6-disubstituted pyrimidin-2(1H)-ones, 2149-52

- Reactions of 1-alkoxycarbonylpyridinium salts with nucleophiles: stereoelectronic restrictions on carbonyl activation of α -nucleophilic attack, 2365-8

- Heterocyclic syntheses with malonyl chloride. Part 14. A direct synthesis of 4,6-dichloropyrimidines with 5-benzyl or -phenyl and 2-thioalkyl or -thiophenyl substituents, 2499-503

- Enamines in the synthesis of 2-(substituted amino)-3,3-dialkylchromanones, 2771-5

CYCLODEHYDRATION

- Synthesis of chlorinated isocoumarin derivatives, 1111-15

- CYCLOGIBBATRIENONE**
Synthetic studies directed towards complex diterpenoids. Part 15. Synthesis and stereochemistry of the catalytic reduction of $\Delta^{4b(5)}$ -gibbenes and related compounds, 865-73
- CYCLOHEPTADIENE**
Reactions involving fluoride ion. Part 25. A fluoride-ion-induced skeletal rearrangement, 673-6
- CYCLOHEPTADITHIANE**
Regiospecific annulations of substituted tropones with ethane-1,2-dithiol, 1865-9
- CYCLOHEPTAPYRIMIDINE**
Reactions of 3-acetyltropolone methyl ethers with guanidine and amidines, 1037-9
- CYCLOHEPTATHIAZOLONE**
Studies of heterocyclic analogs of azulenes. Part 9. Regioselective cycloadditions of 2H-cycloheptathiazol-2-one with acetylenic esters and electron-deficient olefins, 2881-3
- CYCLOHEPTENE**
Reactions involving fluoride ion. Part 25. A fluoride-ion-induced skeletal rearrangement, 673-6
- CYCLOHEXADIENE**
Organometallic compounds in organic synthesis. Part 12. Methods of determination of the stereochemistry of tricarbonylcyclohexa-1,3-dieneiron complexes, 1745-53
Organometallic compounds in organic synthesis. Part 13. Stereoselectivity of complexation of cyclohexadiene esters, 1755-62
Preparation and reactions of 3-phenyl-4a,5,6,8a-tetrahydro-4H-1,2-benz[e]oxazines, 1891-5
Transition-metal mediated asymmetric synthesis. Part 3. Preparation and stereospecific alkylation of unsymmetrically substituted tricarbonyl(cyclohexadienyl)iron(1+) salts: an organometallic approach to the synthesis of carvone, cryptomerion, and bilobanone, 2449-56
Organoiron complexes in organic synthesis. Part 23. New strategies for steroid and aphidicolane synthesis, 2631-9
- CYCLOHEXADIENEIRON**
Organometallic compounds in organic synthesis. Part 12. Methods of determination of the stereochemistry of tricarbonylcyclohexa-1,3-dieneiron complexes, 1745-53
- CYCLOHEXADIENONE**
Base catalyzed rearrangements involving ylide intermediates. Part 14. Rearrangement of 4-oxidoanilinium ylides and 3-oxidoanilinium betaines, 893-901
Reactions of 4-hydroxycyclohexa-2,5-dienones under acidic conditions, 1499-507
- CYCLOHEXADIENYL**
Transition-metal mediated asymmetric synthesis. Part 3. Preparation and stereospecific alkylation of unsymmetrically substituted tricarbonyl(cyclohexadienyl)iron(1+) salts: an organometallic approach to the synthesis of carvone, cryptomerion, and bilobanone, 2449-56
- CYCLOHEXADIENYLIRON**
Organometallic complexes in synthesis. Part 16. Reactions of tricarbonyl(cyclohexadienyl)iron(1+) salts with aromatic amines 713-17
- CYCLOHEXADIENYLUMIRON**
Organoiron complexes in organic synthesis. Part 18. Spiroannellation reactions of some bifunctional tricarbonyl(cyclohexadienyl)iron hexafluorophosphate salts, 489-97
Organoiron complexes in organic synthesis. Part 23. New strategies for steroid and aphidicolane synthesis, 2631-9
- CYCLOHEXADIONE**
Reactivity of the perhaloalkanes bromochloro- and dibromodifluoromethane with nucleophiles. Part 4. Condensation with carbanions, 1063-5
- CYCLOHEXANEDICARBOXYLATE**
Bromo derivatives of dimethyl 4-oxo-trans-2,6-diphenylcyclohexane-1,1-dicarboxylate and their dehydrobromination, 101-5
- CYCLOHEXANEDIENE**
Reactions of mercury(II) acetate with nitrogen compounds. Part 9. Oxidations of the bis(4-nitrophenylhydrazones) of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553-5
- CYCLOHEXANOL**
Synthesis and configurational and conformational study of the diastereoisomeric 2-(α -hydroxybenzyl)- and 2-(α -methoxybenzyl)cyclohexanols and some of their derivatives, 3065-71
- CYCLOHEXANONE**
1,2-Disubstituted ethanes as possible precursors for the synthesis of Cannabis spirans, 1485-91
- CYCLOHEXENE**
Reactions of 1-methyl-4-tert-butylcyclohexene and 1-methylcyclohexene with thallium(I) acetate-iodine, 413-19
Reactions of mercury(II) acetate with nitrogen compounds. Part 9. Oxidations of the bis(4-nitrophenylhydrazones) of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553-5
A fragmentation approach to a maytansine synthon: lithium dimethylcuprate-opening of substituted cyclohexene epoxides. X-ray structure determination of ethyl t-2,3-epoxy-c-6-p-methoxybenzoyloxy-1-methylcyclohexane-r-1-carboxylate, 2885-96
- CYCLOHEXENECARBOXALDEHYDE**
Thermal rearrangement reactions of tricarbonyliron lactone complexes, 1355-61
- CYCLOHEXENONE**
New stereoselective synthesis of 9-methyl-cis-decalin derivatives by double Michael reaction of 3-methyl-4-methylenecyclohex-2-enone and its congeners with dimethyl 3-oxoglutarate, 25-30
1,2-Disubstituted ethanes as possible precursors for the synthesis of Cannabis spirans, 1485-91
Synthesis of sesquiterpenes occidentalol, chamaecynone, and related compounds characterized by a cis-eudesmane structure, 2849-53
- CYCLOHEXYL**
Reactions of 1-methyl-4-tert-butylcyclohexene and 1-methylcyclohexene with thallium(I) acetate-iodine, 413-19
Intramolecular acetalization of naphthoquinones, 1933-6
- CYCLOHEXYLACETALDEHYDE**
Synthesis of the natural enantiomers of irones from (+)-citronellal 1303-9
- CYCLOHEXYLEPOXYMETHANONAPHTHODIOXINONE**
Intramolecular acetalization of naphthoquinones, 1933-6
- CYCLOHEXYLOXADIAZOLONE**
1,3,4-Oxadiazol-2(3H)-one formation from N-acylaminobiurets and related compounds and from S-benzyl 3-acyl(thiocarbazates), 2019-21
- CYCLOHEXYLSULFAMATE**
Versatile synthesis of sulfamate esters by phase-transfer methods, 677-9
- CYCLOHEXYLTHIOQUINOLYLAMINE**
Photolysis of quinolyl azides in aliphatic thiols. Synthesis of α -alkylthioquinolylamine, 671-2
- CYCLOL**
Cyclol formation from tripeptides containing β -alanine, 1311-16
- CYCLOPENTABENZOXAZINONE**
Cyclodienones. Part 6. Preparation of 4-azido-2,4,6-tri-tert-butylcyclohexa-2,5-dienone and its thermal, photochemical, and acid-catalyzed decomposition, 2841-8
- CYCLOPENTADIENE**
Heterocyclic polyfluoro compounds. Part 41. Photochemical isomerization of 1-substituted hexafluoro-1H-azepines: hexafluoro-2-azabicyclo[3.2.0]hepta-3,6-dienes and their reactions, 2105-9
Polyhalo allenes and acetylenes. Part 14. The reactions of perfluoro-1,2-dienes with dichloro- and difluorocarbene, and a new route to 1,1-dichloroperfluoro-1,2-dienes, 2203-6
- CYCLOPENTADIENONE**
Cyclodienones. Part 8. Hydrolysis of 5-oxo-2,4-di-tert-butylcyclopenta-1,3-dienecarbonitrile, 243-6
Cyclodienones. Part 6. Preparation of 4-azido-2,4,6-tri-tert-butylcyclohexa-2,5-dienone and its thermal, photochemical, and acid-catalyzed decomposition, 2841-8
- CYCLOPENTAFURANONE**
Cyclodienones. Part 8. Hydrolysis of 5-oxo-2,4-di-tert-butylcyclopenta-1,3-dienecarbonitrile, 243-6
- CYCLOPENTANAPHTHALENE**
C-Aromatic steroids. Synthesis of 11,17 ξ -dimethoxy-18-norandrosta-4,8,11,13-tetraen-3-one, 201-4
- CYCLOPENTANAPHTHALENONE**
C-Aromatic steroids. Synthesis of 11,17 ξ -dimethoxy-18-norandrosta-4,8,11,13-tetraen-3-one, 201-4
- CYCLOPENTANE**
Metal-assisted cycloadditions. Part 1. Synthesis of substituted cyclopentane derivatives obtained from the reactions of (η^1 -allyl)dicarbonyl(η^5 -cyclopentadienyl)iron with electron-deficient olefins and acetylenes, 285-94
Metal-assisted cycloadditions. Part 2. Reactions of dicarbonyl(η^5 -cyclopentadienyl)(η^1 -3-methoxyallyl)iron with electron-deficient

- CYCLOPENTANE**(contd)
olefins and acetylenes, 295–300
Fluoro olefin chemistry. Part 15. Thermal reaction of hexafluoropropene with hydrocarbon olefins, 2219–26
- CYCLOPENTANEDIONE**
Acid-catalyzed cyclizations: structures of novel products isolated in the reaction of 2-[3-(2,6-dimethoxyphenyl)but-2-enyl]-2-methylcyclopentane-1,3-dione with methanol-hydrochloric acid, 2791–4
- CYCLOPENTANOL**
Synthesis of stable prostacyclin analogs from 2,3-disubstituted bicyclo[3.2.0]heptan-6-ones, 823–30
- CYCLOPENTANONE**
Metal-assisted cycloadditions. Part 3. Reactions of dicarbonyl(η^5 -cyclopentadienyl)(η^1 -2-methoxyallyl)iron with electron-deficient olefins and acetylenes, 301–6
Synthetic approaches to 11-deoxyhomoprostacyclin analogs, 1923–32
- CYCLOPENTENE**
Metal-assisted cycloadditions. Part 2. Reactions of dicarbonyl(η^5 -cyclopentadienyl)(η^1 -3-methoxyallyl)iron with electron-deficient olefins and acetylenes, 295–300
Metal-assisted cycloadditions. Part 3. Reactions of dicarbonyl(η^5 -cyclopentadienyl)(η^1 -2-methoxyallyl)iron with electron-deficient olefins and acetylenes, 301–6
- CYCLOPENTENONE**
Cyclodienones. Part 8. Hydrolysis of 5-oxo-2,4-di-tert-butylcyclopenta-1,3-dienecarbonitrile, 243–6
- CYCLOPENTENONECARBOXYLATE**
Cyclodienones. Part 8. Hydrolysis of 5-oxo-2,4-di-tert-butylcyclopenta-1,3-dienecarbonitrile, 243–6
- CYCLOPENTYLDICARBONYLCYCLOPENTADIENYL**
Metal-assisted cycloadditions. Part 2. Reactions of dicarbonyl(η^5 -cyclopentadienyl)(η^1 -3-methoxyallyl)iron with electron-deficient olefins and acetylenes, 295–300
- CYCLOPENTYLDICARBONYLCYCLOPENTADIENYL-IRON**
Metal-assisted cycloadditions. Part 1. Synthesis of substituted cyclopentane derivatives obtained from the reactions of (η^1 -allyl)dicarbonyl(η^5 -cyclopentadienyl)iron with electron-deficient olefins and acetylenes, 285–94
Metal-assisted cycloadditions. Part 2. Reactions of dicarbonyl(η^5 -cyclopentadienyl)(η^1 -3-methoxyallyl)iron with electron-deficient olefins and acetylenes, 295–300
- CYCLOPHANE**
Carbene insertion into [2.2]metacyclophane-1,10-dione: a convenient route to [3.2]- and [3.3]-metacyclophanes, 477–81
- CYCLOPROPACINNOLINE**
Stereochemical and mechanistic aspects of the base-promoted cyclization of *o*-vinylphenylhydrazonyl chlorides under phase-transfer conditions, 2041–4
- CYCLOPROPANATION**
Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ξ)-fluoro-25-hydroxyvitamin D³, 85–91
Total synthesis of (\pm)-picropodophyllone, 271–6
- CYCLOPROPANE**
Homolytic displacements at carbon. Part 8. Synthesis of 1-cyano-2-(trichloroethyl)cyclopropanes from allylcobaloximes via but-3-enylcobaloximes and 1-bromo-1-cyanobut-3-enes, 645–51
The chemistry of 4-mercaptoazetid-2-ones. Part 4. Synthesis of cyclopropanespiro-2-bisnorpenicillanic acids, 1435–9
Oxymetalation. Part 17. tert-Butyl peroxymercuration and subsequent demercuration of phenylcyclopropane, 1807–9
Polyhalo allenes and acetylenes. Part 14. The reactions of perfluoro-1,2-dienes with dichloro- and difluorocarbene, and a new route to 1,1-dichloroperfluoro-1,2-dienes, 2203–6
Solution photochemistry of 4-alkylidene-3,3,5,5-tetramethyl- Δ^1 -pyrazolines, 2647–53
The pyrolysis of 4-alkylidene-3,3,5,5-tetramethyl-1-pyrazolines, 2655–62
- CYCLOPROPANESPIROBISNORPENICILLANATE**
The chemistry of 4-mercaptoazetid-2-ones. Part 4. Synthesis of cyclopropanespiro-2-bisnorpenicillanic acids, 1435–9
- CYCLOPROPYL**
Lewis acid-catalyzed reactions of aryl cyclopropyl ketones. Scope and mechanism, 1029–35
- CYCLOPROPYLIDENEACETATE**
The chemistry of 4-mercaptoazetid-2-ones. Part 4. Synthesis of cyclopropanespiro-2-bisnorpenicillanic acids, 1435–9
- CYCLOPROSTAGLANDIN**
Synthesis of stable prostacyclin analogs from 2,3-disubstituted bicyclo[3.2.0]heptan-6-ones, 823–30
- CYMAROSE**
Convenient syntheses of L-digitoxose, L-cymarose, and L-ristosamine, 2583–7
- CYTOCHALASIN**
Cytochalasins E and K, toxic metabolites from *Aspergillus clavatus* 541–4
- CYTOSINE**
Synthesis of the two epimeric 5'-methylcytidines, their 5'-phosphates and [5-³H]-5'-pyrophosphates, and the two 5'-methyldeoxycytidines. A novel cytosine anhydronucleoside with two oxygen bridges between the base and the sugar, 385–93
4-(1,2,4-Triazol-1-yl)- and 4-(3-nitro-1,2,4-triazol-1-yl)-1-(β -D-2,3,5-tri-O-acetyl-arabinofuranosyl)pyrimidin-2(1H)-ones. Valuable intermediates in the synthesis of derivatives of 1-(β -D-arabinofuranosyl)cytosine (ara-C), 1171–6
- D2**
Synthesis of 25 ξ ,26-dihydroxyvitamin D₂, 2111–16
- D3**
Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ξ)-fluoro-25-hydroxyvitamin D³, 85–91
- DAMMARANE**
Novel dammarane triterpenoid glycosides from the leaves of *Hovenia dulcis*. X-ray crystal structure of hovenolactone monohydrate, 2795–9
- DAUNOMYCIN**
Anthracyclines. Part 1. The synthesis of racemic daunomycinone and some related tetrahydronaphthacenequinones, 2227–38
- DAUNOMYCINONE**
Anthracyclines. Part 1. The synthesis of racemic daunomycinone and some related tetrahydronaphthacenequinones, 2227–38
- DEALKYLATION**
Synthesis of substituted dibenzophospholes. Part 4. Chemical transformations of 4,6-diaryl-3,7-dialkoxydibenzophosphole 5-oxides, 2333–9
- DEAMINASE**
Biosynthesis of porphyrins and related macrocycles. Part 17. Chemical and enzymic transformation of isomeric aminomethylbilanes into uroporphyrinogens: proof that unrearranged bilane is the preferred enzymic substrate and detection of a transient intermediate, 2413–26
Biosynthesis of porphyrins and related macrocycles. Part 18. Proof by spectroscopy and synthesis that unrearranged hydroxymethylbilane is the product from deaminase and the substrate for cosynthetase in the biosynthesis of uroporphyrinogen-III, 2427–44
- DEAMINATION**
2-(2-Nitrophenyl)oxaheterocyclonium: potential reagents for oxidative deamination of primary amines, 137–42
Synthesis of substituted dibenzophospholes. Part 3. Synthesis of 4,6-diaryldibenzophospholes from *m*-quaterphenyls, 2317–31
Intramolecular reactions of N-nitrenes: oxidation of 3-amino-2-(arylalkyl)quinazolin-4(3H)-ones, 2407–12
- DECALIN**
New stereoselective synthesis of 9-methyl-cis-decalin derivatives by double Michael reaction of 3-methyl-4-methylenecyclohex-2-enone and its congeners with dimethyl 3-oxoglutarate, 25–30
Synthesis of polyoxygenated trans-decalins as potential insect antifeedants, 2157–62
- DECARBONYLATION**
Thermal rearrangement reactions of tricarbonyliron lactone complexes, 1355–61
- DECARBOXYLATION**
Studies of enzyme-mediated reactions. Part 14. Stereochemical course of the formation of cadaverine by decarboxylation of (2S)-lysine with lysine decarboxylase (E.C. 4.1.1.18) from *Bacillus cadaveris*, 449–53
Studies of enzyme-mediated reactions. Part 15. Stereochemical course of the formation of γ -aminobutyric acid (GABA) by decarboxylation of (2S)-glutamic acid with glutamate decarboxylase from *Escherichia coli*, 455–9
Decarboxylative rearrangement of an alkanoyl arylcarbonyl peroxide involving migration of a primary chiral center, 591–3
Thermal rearrangement reactions of tricarbonyliron lactone complexes, 1355–61

- DECARBOXYLATION**(contd)
The reaction of Meldrum's acid with α -dicarbonyl monohydrazone: a new synthesis of pyridazin-3-ones, 1845-53
Bridged-ring nitrogen compounds. Part 6. Synthesis of the 2,5-methano-3-benzazocine ring system, 2927-33
- DECENYL**
Synthesis of optically pure (R,Z)-5-dec-1-enyloxacyclopentan-2-one, the sex pheromone of the Japanese beetle, 69-71
- DECENYLOXACYCLOPENTANONE**
Synthesis of optically pure (R,Z)-5-dec-1-enyloxacyclopentan-2-one, the sex pheromone of the Japanese beetle, 69-71
- DECHLORINATION**
Syntheses and reactivities of 3-methylisooxazolo[4,5-b]pyridines, 2391-4
- DECOMP**
2-(2-Nitrophenyl)oxaheterocyclonium: potential reagents for oxidative deamination of primary amines, 137-42
Azonia-azulene salts. Part 5. Synthesis of 5H-pyrrolo[1,2-a]zajepine and of 7H-pyrrolo[1,2-a]zajepin-7-one, 1123-30
Formation of isocyanates by deoxygenation of C-nitrosocarbonyl compounds, 1571-4
Cyclodienones. Part 6. Preparation of 4-azido-2,4,6-tri-tert-butylcyclohexa-2,5-dienone and its thermal, photochemical, and acid-catalyzed decomposition, 2841-8
- DEESTRATRIENONE**
Ketol formation by peracid oxidation of a tricyclic styrene, 657-64
- DEFLUORINATION**
Fluorocarbon derivatives of nitrogen. Part 6. Reactions of some perfluorinated nitroso compounds with hydrogen sulfite ion: conversion of fluorocarbon olefins into perfluoro-ketone oximes 685-8
- DEHYDRATION**
Amide-catalyzed isomerization of 5,6-dihydroisoquinolines: a novel synthesis of 1,2-dihydroisoquinolines, 63-8
Studies on anhydroosazones. Part 5. Structure and anomeric configuration of the C-nucleoside analogs obtained from the dehydration of D-glucos- and D-manno hept-2-ulose phenylosazones, 557-62
Reactions of forskolin, a biologically active diterpenoid from *Coleus forskohlii*, 767-71
Biosynthesis of rotenoids by *Amorpha fruticosa*: sequence, specificity, and stereochemistry in the development of the hemiterpenoid segment, 789-97
1,2-Disubstituted ethanes as possible precursors for the synthesis of Cannabis spirans, 1485-91
Analogues of antijuvenile hormones, 2013-18
- DEHYDROBROMINATION**
Bromo derivatives of dimethyl 4-oxo-trans-2,6-diphenylcyclohexane-1,1-dicarboxylate and their dehydrobromination, 101-5
Synthesis and characterization of representative octa-1,3,5,7-tetraenes and deca-1,3,5,7,9-pentaenes, 2379-85
- DEHYDROGENASE**
Hydroxamic acid production and active-site induced Bamberger rearrangement from the action of α -ketoglutarate dehydrogenase on 4-chloronitrosobenzene, 345-50
- DEHYDROGENATION**
Reactions of mercury(II) acetate with nitrogen compounds. Part 9. Oxidations of the bis(4-nitrophenylhydrazones) of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553-5
Dehydrogenation of lactones using benzeneseleninic anhydride. X-ray crystal structure of 3 β -acetoxy-14 α -hydroxy-17 α -oxa-D-homo-5 α -androst-15-en-17-one, 1919-22
A practical catalytic method for the preparation of steroidal 1,4-dien-3-ones by oxygen atom transfer from iodoxybenzene to diphenyl diselenide, 1947-52
- DEHYDROHALOGENATION**
Base-promoted reactions of α -haloalkylanilides, 2969-72
- DEHYDROMETHIONINE**
Aspects of the chemistry of dehydromethionine, 1283-90
- DEMERCURATION**
On the stereochemistry of Grignard addition to bicyclo[3.3.1]nonan-2-one. Preferential axial attack on a cyclohexanone system by a bulky nucleophile, 979-82
- DEMERCURIATION**
Oxymetalation. Part 16. Modified procedures for reducing peroxymercurials: conversion of nonterminal alkenes into secondary alkyl tert-butyl peroxides, 1797-805
- DEMETALATION**
Metal-assisted cycloadditions. Part 1. Synthesis of substituted cyclopentane derivatives obtained from the reactions of (η^1 -allyl)dicarbonyl(η^5 -cyclopentadienyl)iron with electron-deficient olefins and acetylenes, 285-94
Metal-assisted cycloadditions. Part 2. Reactions of dicarbonyl(η^5 -cyclopentadienyl)(η^1 -3-methoxyallyl)iron with electron-deficient olefins and acetylenes, 295-300
Metal-assisted cycloadditions. Part 3. Reactions of dicarbonyl(η^5 -cyclopentadienyl) η^1 -2-methoxyallyl)iron with electron-deficient olefins and acetylenes, 301-6
Organoiron complexes in organic synthesis. Part 18. Spiroannellation reactions of some bifunctional tricarbonyl(cyclohexadienyl)iron hexafluorophosphate salts, 489-97
- DEMETHOXY**
Anthracyclines. Part 2. Investigations relating to the synthesis of 4-demethoxyanthracyclinones, 2239-48
- DEMETHOXYANTHRACYCLONE**
Anthracyclines. Part 2. Investigations relating to the synthesis of 4-demethoxyanthracyclinones, 2239-48
- DEMETHOXYBISEPIDAUNOMYCIN**
Anthracyclines. Part 3. The total synthesis of 4-demethoxydaunomycin, 2249-55
- DEMETHOXYBISEPIDAUNOMYCINONE**
Anthracyclines. Part 3. The total synthesis of 4-demethoxydaunomycin, 2249-55
- DEMETHOXYDAUNOMYCIN**
Anthracyclines. Part 3. The total synthesis of 4-demethoxydaunomycin, 2249-55
- DEMETHOXYDAUNOMYCINONE**
Anthracyclines. Part 3. The total synthesis of 4-demethoxydaunomycin, 2249-55
- DEMETHOXYGARDMULTINE**
Gardneria alkaloids. Part 13. Structure of gardmultine and demethoxygardmultine; bis-type indole alkaloids of Gardneria multiflora Makino, 1257-62
- DEMETHYL**
Regioselective ether cleavages of rotenoids: spiro-ether formation and stereoselective isotopic labeling of (E)- or (Z)-prenyl methyl groups in (6aS, 12aS)-rot-2'-enonic acid, 779-88
- DEMETHYLISOROTENONE**
Regioselective ether cleavages of rotenoids: spiro-ether formation and stereoselective isotopic labeling of (E)- or (Z)-prenyl methyl groups in (6aS, 12aS)-rot-2'-enonic acid, 779-88
- DENITROAMINATION**
Steroidal N-nitroamines. Part 1. Denitroamination of steroidal 4 β -, 6 β -, 7 α -, and 7 β -nitroamines, 923-9
- DEOXY**
Arylazoglycosides. Part 7. Syntheses of amino sugars from methyl arylazohexenopyranosides, 205-14
Synthesis of the two epimeric 5'-methylcytidines, their 5'-phosphates and [5-³H]-5'-pyrophosphates, and the two 5'-methyldeoxycytidines. A novel cytosine anhydronucleoside with two oxygen bridges between the base and the sugar, 385-93
Novel reagent system for converting a hydroxy group into an iodo group in carbohydrates with inversion of configuration. Part 3, 681-3
18-Substituted steroids. Part 10. Synthesis of 16 α ,18,21-trihydroxypregn-4-ene-3,20-dione (16 α ,18-dihydroxy-11-deoxycorticosterone), 723-8
Synthesis of stable prostacyclin analogs from 2,3-disubstituted bicyclo[3.2.0]heptan-6-ones, 823-30
Synthetic approaches to 11-deoxyhomoprostacyclin analogs, 1923-32
New oxidative systems for alcohols: molecular sieves with chromium(VI) reagents, 1967-73
The biosynthesis of thiamine. Syntheses of [1,1,1,5-²d₄]-1-deoxy-D-threo-2-pentulose and incorporation of this sugar in biosynthesis of thiazole by *Escherichia coli* cells, 2131-7
Oxidation of aldose oximes. Formation and structure of hydroxydiazene oxidase acetals and preparation of hydroximolactones. X-ray crystal structure of 2,3:5,6-di-O-isopropylidene- α -D-mannofuranosyl-O,N,N-azoxy 2,3:5,6-di-O-isopropylidene- α -D-mannofuranoside, 2139-47
- DEOXYALDUSONATE**
Determination of the anomeric configuration in glycosides of 3-deoxy-2-aldulosonic acids by circular dichroism and x-ray crystallography, 3055-63
- DEOXYALLOFURANOSYL**
Synthesis of the two epimeric 5'-methylcytidines, their 5'-phosphates and [5-³H]-5'-pyrophosphates, and the two 5'-

- DEOXYALLOFURANOSYL**(contd)
methyldeoxycytidines. A novel cytosine anhydronucleoside with two oxygen bridges between the base and the sugar, 385-93
- DEOXYALLOFURANOSYLCYTOSINE**
Synthesis of the two epimeric 5'-methylcytidines, their 5'-phosphates and [5-³H]-5'-pyrophosphates, and the two 5'-methyldeoxycytidines. A novel cytosine anhydronucleoside with two oxygen bridges between the base and the sugar, 385-93
- DEOXYCORTICOSTERONE**
18-Substituted steroids. Part 10. Synthesis of 16 α ,18,21-trihydroxypregn-4-ene-3,20-dione (16 α ,18-dihydroxy-11-deoxycorticosterone), 723-8
- DEOXYGENATION**
Interaction of copper complexes derived from 1,2-quinone monooximes (2-nitrosophenols) with amines, 1075-8
Formation of isocyanates by deoxygenation of C-nitrosocarbonyl compounds, 1571-4
Preparation and reactions of steroidal cross-conjugated 3-nitrones, 2599-606
- DEOXYHEXOFURANOSYLCYTOSINE**
Synthesis of the two epimeric 5'-methylcytidines, their 5'-phosphates and [5-³H]-5'-pyrophosphates, and the two 5'-methyldeoxycytidines. A novel cytosine anhydronucleoside with two oxygen bridges between the base and the sugar, 385-93
- DEOXYHEXONOLACTONE**
Structure and conformation of N-benzoyl derivatives of the biologically important 3-amino-2,3,6-trideoxy-L-hexoses and their synthetic precursor γ - and δ -lactones; a proton and carbon-13 nuclear magnetic resonance study, 885-91
- DEOXYHEXOPYRANOSYLTHEOPHYLLINE**
New oxidative systems for alcohols: molecular sieves with chromium(VI) reagents, 1967-73
- DEOXYHEXOSE**
Structure and conformation of N-benzoyl derivatives of the biologically important 3-amino-2,3,6-trideoxy-L-hexoses and their synthetic precursor γ - and δ -lactones; a proton and carbon-13 nuclear magnetic resonance study, 885-91
- DEOXYHOMOPROSTACYCLIN**
Synthetic approaches to 11-deoxyhomoprostacyclin analogs, 1923-32
- DEOXYMETHANOPOXYPROSTAGLANDIN**
Synthesis of stable prostacyclin analogs from 2,3-disubstituted bicyclo[3.2.0]heptan-6-ones, 823-30
- DEOXYNITROGLUCOPYRANOSE**
Oxidation of aldose oximes. Formation and structure of hydroxydiazene oxidase acetals and preparation of hydroximolactones. X-ray crystal structure of 2,3:5,6-di-O-isopropylidene- α -D-mannofuranosyl-O,N,N-azoxy 2,3:5,6-di-O-isopropylidene- α -D-mannofuranoside, 2139-47
- DEOXPENTONO**
Halogenated enolates. Synthesis of 2-deoxypentose derivatives from D-glyceraldehyde, 2063-6
- DEOXPENTONOLACTONE**
Halogenated enolates. Synthesis of 2-deoxypentose derivatives from D-glyceraldehyde, 2063-6
- DEOXPENTULOSE**
The biosynthesis of thiamine. Syntheses of [1,1,1,5-²d₄]-1-deoxy-D-threo-2-pentulose and incorporation of this sugar in biosynthesis of thiazole by *Escherichia coli* cells, 2131-7
- DEOXYPHOSPHORYLALLOFURANOSYLCYTOSINE**
Synthesis of the two epimeric 5'-methylcytidines, their 5'-phosphates and [5-³H]-5'-pyrophosphates, and the two 5'-methyldeoxycytidines. A novel cytosine anhydronucleoside with two oxygen bridges between the base and the sugar, 385-93
- DEOXYPYROPHOSPHORYLTALOFURANOSYLCYTOSINE**
Synthesis of the two epimeric 5'-methylcytidines, their 5'-phosphates and [5-³H]-5'-pyrophosphates, and the two 5'-methyldeoxycytidines. A novel cytosine anhydronucleoside with two oxygen bridges between the base and the sugar, 385-93
- DEOXYTALOFURANOSYL**
Synthesis of the two epimeric 5'-methylcytidines, their 5'-phosphates and [5-³H]-5'-pyrophosphates, and the two 5'-methyldeoxycytidines. A novel cytosine anhydronucleoside with two oxygen bridges between the base and the sugar, 385-93
- DEOXYTALOFURANOSYLCYTOSINE**
Synthesis of the two epimeric 5'-methylcytidines, their 5'-phosphates and [5-³H]-5'-pyrophosphates, and the two 5'-methyldeoxycytidines. A novel cytosine anhydronucleoside with two oxygen bridges between the base and the sugar, 385-93
- two oxygen bridges between the base and the sugar, 385-93
- DEOXYTHIOURIDINE**
Reaction between 2,2'-anhydro-1- β -D-arabinofuranosyluracil and thiolate ions, 1625-8
- DEOXYTYLOPHORININE**
Phenanthroindolizidine and related alkaloids: synthesis of tylophorine, septicine, and deoxytylophorinine, 2477-85
- DEPROTECTION**
Studies on v-triazoles. Part 4. The 4-methoxybenzyl group, a versatile N-protecting group for the synthesis of N-unsubstituted v-triazoles, 627-30
- DEPROTONATION**
Total syntheses of wyerone and dihydrowyerone, phytoalexins from the broad bean, *Vicia faba* L., using the dianion derived from 3-(2-furyl)acrylic acid, 623-6
Cobaloximes. Part 2. A modified Schrauzer synthesis for base-sensitive cobaloximes, 1019-23
- DESULFOXIDIN**
Asymmetric induction in the reduction of optically active N-alkylidenesulfinamides by metal hydrides. A new, efficient enantioselective route to chiral amines, 339-43
- DEUTERATION**
Synthesis of (R,S)-(5Z,8E,10E)-12-hydroxyheptadeca-5,8,10-trienoic acid and of (R,S)- and (S)-(5Z,8Z,10E,14Z)-12-hydroxyeicosa-5,8,10,14-tetraenoic acid and their racemic 5,6,8,9-tetradeuterioisomers, 545-52
The meso-reactivity of porphyrins and related compounds. Part VIII. Substitution and addition reactions of octaethyl-21H,24H-bilin-1,19-dione, a model verdin system. X-ray analyses of octaethyl-5-nitro-21H,24H-bilin-1,19-dione and of 4,5-diethoxyoctaethyl-4,5-dihydro-21H,24H-bilin-1,19-dione, 1291-302
Dihydrostilbenes of Cannabis. Synthesis of canniprene, 1467-75
- DEUTERIUM**
Regioselective ether cleavages of rotenoids: spiro-ether formation and stereoselective isotopic labeling of (E)- or (Z)-prenyl methyl groups in (6aS, 12aS)-rot-2'-enonic acid, 779-88
Aspects of the chemistry of dehydromethionine, 1283-90
- DIACETATE**
Steroidal N-nitroamines. Part 1. Denitroamination of steroidal 4 β -, 6 β -, 7 α -, and 7 β -nitroamines, 923-9
- DIACETOXY**
Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ζ)-fluoro-25-hydroxyvitamin D³, 85-91
Pyrazine chemistry. Part 13. Preparation and reactions of pyrazine N-oxides related to mycelianamide, 953-9
- DIACETOXYDINORCHOLESTADIENE**
Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ζ)-fluoro-25-hydroxyvitamin D³, 85-91
- DIALKOXY**
Synthesis of substituted dibenzophospholes. Part 2. Syntheses of intermediate biphenyls and quaterphenyls, 2299-315
- DIALKYL**
Sulfur extrusion reactions. Part 5. Reactions of monoprotic thioureas with ethyl α -chloroacetoacetate, ethyl bromomalonate, and ethyl bromocynoacetate, 653-6
An improved synthesis of amphiphilic 4,4'-disubstituted 2,2'-bipyridines, 3041-3
- DIALKYLARYLTHIOUREA**
Sulfur extrusion reactions. Part 5. Reactions of monoprotic thioureas with ethyl α -chloroacetoacetate, ethyl bromomalonate, and ethyl bromocynoacetate, 653-6
- DIALKYLTHIOXOAMIDE**
Photochemical reactions of N,N-dialkyl- α -thioxoamides, 247-8
- DIAMINE**
Photolysis of quinolyl and isoquinolyl azides in primary and secondary aliphatic amines: synthesis of bicyclic azepines, diazepines, and quinolyl- and isoquinolyl diamines, 421-9
Reductive cleavage of propellane-type hydrazinium dication as a route to medium sized ring bicyclic diamines with bridgehead nitrogen atoms, 603-9
- DIAMINO**
Arylazoglycosides. Part 7. Syntheses of amino sugars from methyl arylazohexenopyranosides, 205-14
Aminosteroids. Part 8. Synthesis of the four isomeric 3,7-diamino-5 α -pregnanes, 1783-9
Synthesis of substituted dibenzophospholes. Part 2. Syntheses of

- DIAMINO**(contd)
intermediate biphenyls and quaterphenyls, 2299–315
- DIAMINOPREGNANE**
Aminosteroids. Part 8. Synthesis of the four isomeric 3,7-diamino-5 α -pregnanes, 1783–9
- DIAMINOQUATERPHENYL**
Synthesis of substituted dibenzophospholes. Part 3. Synthesis of 4,6-diaryldibenzophospholes from *m*-quaterphenyls, 2317–31
- DIANHYDROTALOFURANOSYL**
Synthesis of the two epimeric 5'-methylcytidines, their 5'-phosphates and [5-³H]-5'-pyrophosphates, and the two 5'-methyldeoxycytidines. A novel cytosine anhydronucleoside with two oxygen bridges between the base and the sugar, 385–93
- DIANTHRANILIDE**
Conformational behavior of medium-sized rings. Part 11. Dianthranilides and trianthranilides, 1649–99
- DIARYL**
Addition reactions of benzo[b]thiophene. Part 4. Reactions of some acetoxy- and hydroxybenzo[b]thiophenes with benzene or toluene, 815–21
Lewis acid-catalyzed reactions of aryl cyclopropyl ketones. Scope and mechanism, 1029–35
Synthesis of substituted dibenzophospholes. Part 3. Synthesis of 4,6-diaryldibenzophospholes from *m*-quaterphenyls, 2317–31
Synthesis of substituted dibenzophospholes. Part 4. Chemical transformations of 4,6-diaryl-3,7-dialkoxydibenzophosphole 5-oxides, 2333–9
- DIARYLDIBENZOPHOSPHOLE**
Synthesis of substituted dibenzophospholes. Part 3. Synthesis of 4,6-diaryldibenzophospholes from *m*-quaterphenyls, 2317–31
- DIARYLDIOXABICYCLOOCTANE**
Synthesis and NMR spectra of 2,6- and 2,4-diaryl-3,7-dioxabicyclo[3.3.0]octanes, 183–90
- DIARYLTRIMETHOXYDIBENZOPHOSPHOLE**
Synthesis of substituted dibenzophospholes. Part 4. Chemical transformations of 4,6-diaryl-3,7-dialkoxydibenzophosphole 5-oxides, 2333–9
- DIASTEREOISOMERIZATION**
Radical rearrangements of 1,3-dimethylindene derivatives: a comparison with rearrangement by 1,5-sigmatropy, 467–72
- DIAZABICYCLOALKANE**
Reductive cleavage of propellane-type hydrazinium dications as a route to medium sized ring bicyclic diamines with bridgehead nitrogen atoms, 603–9
- DIAZABICYCLODECANE**
Reductive cleavage of propellane-type hydrazinium dications as a route to medium sized ring bicyclic diamines with bridgehead nitrogen atoms, 603–9
- DIAZABICYCLOOCTANE**
Reductive cleavage of propellane-type hydrazinium dications as a route to medium sized ring bicyclic diamines with bridgehead nitrogen atoms, 603–9
- DIAZABUTADIENE**
Thiadiazoles and thiadiazolines. Part 2. Δ^2 -1,3,4-Thiadiazoline-4-carboxamides derived from substituted acyclic thioureas, 1981–6
Thiadiazoles and thiadiazolines. Part 3. Synthesis of triazol-3-yl- Δ^2 -1,3,4-thiadiazolines and a new synthesis of unsymmetrical 2,5-disubstituted 1,3,4-thiadiazoles, 1987–91
Synthesis of annelated 1,3,4,6-thiaziazepines from reaction of cyclic thioureas with 1,4-dichloro-2,3-diazabutadienes, 1999–2005
- DIAZABUTADIENYLIDENE**
The reaction of Meldrum's acid with α -dicarbonyl monohydrazones: a new synthesis of pyridazin-3-ones, 1845–53
- DIAZABUTADIENYLIDENEDIMETHYLDIOXANEDIONE**
The reaction of Meldrum's acid with α -dicarbonyl monohydrazones: a new synthesis of pyridazin-3-ones, 1845–53
- DIAZATHIABICYCLOHEPTENYLMETHYLBUTENOATE**
Tricyclic products from the reaction between penicillin derived thiazolineazetidionones and ethyl diazoacetate. X-ray structure of methyl 2-[(1R,3S,4R,5S,6S,8R)-3-benzyl-4,5-bismethoxycarbonyl-6-ethoxycarbonyl-9-oxo-7,10-diaza-2-thiatricyclo[6.2.0.0³-7]decan-10-yl]-3-methylbut-2-enoate, 2169–73
- DIAZATHIATRICYCLODECANYLMETHYLBUTENOATE**
Tricyclic products from the reaction between penicillin derived thiazolineazetidionones and ethyl diazoacetate. X-ray structure of methyl 2-[(1R,3S,4R,5S,6S,8R)-3-benzyl-4,5-bismethoxycarbonyl-6-ethoxycarbonyl-9-oxo-7,10-diaza-2-thiatricyclo[6.2.0.0³-7]decan-10-yl]-3-methylbut-2-enoate, 2169–73
- DIAZEPAM**
Tetrahydroisoxazolo[2,3-d][1,4]benzodiazepinone ring system: synthesis, stereochemistry, and conformation, 2701–5
- DIAZEPINE**
Photolysis of quinolyl and isoquinolyl azides in primary and secondary aliphatic amines: synthesis of bicyclic azepines, diazepines, and quinolyl- and isoquinolyl diamines, 421–9
- DIAZO**
Reactions of spiroindazoles containing keto groups. Part 2. Evidence for a spirobenzocyclopropene intermediate in the thermolysis of anthrone-10-spiro-3'-3'H-indazoles to benz[a]aceanthrylenes, 577–9
- DIAZOACETATE**
Tricyclic products from the reaction between penicillin derived thiazolineazetidionones and ethyl diazoacetate. X-ray structure of methyl 2-[(1R,3S,4R,5S,6S,8R)-3-benzyl-4,5-bismethoxycarbonyl-6-ethoxycarbonyl-9-oxo-7,10-diaza-2-thiatricyclo[6.2.0.0³-7]decan-10-yl]-3-methylbut-2-enoate, 2169–73
- DIAZOALKANE**
Ylide formation and rearrangement in the thermal reaction of 6H-dibenzo[b,d]thiopyran and its 6-phenyl derivative with diazo alkanes, 917–22
- DIAZOANTHRONE**
Reactions of spiroindazoles containing keto groups. Part 2. Evidence for a spirobenzocyclopropene intermediate in the thermolysis of anthrone-10-spiro-3'-3'H-indazoles to benz[a]aceanthrylenes, 577–9
- DIAZOIMIDAZOLECARBOXAMIDE**
Triazines and related products. Part 24. Synthesis of pyrazol-4-ylidenehydrazinoimidazoles by hydrazinolysis of imidazo[5,1-c][1,2,4]triazines and 2-arylaizoimidazoles by diazonium coupling reactions, 1811–19
- DIAZOMETHANE**
Carbene insertion into [2.2]metacyclophane-1,10-dione: a convenient route to [3.2]- and [3.3]-metacyclophanes, 477–81
- DIAZONIAPHENANTHRENE**
Preparation and reactions of pyrylium salts containing α -pyridyl groups, 125–30
- DIAZONIATRICYCLOALKANE**
Reductive cleavage of propellane-type hydrazinium dications as a route to medium sized ring bicyclic diamines with bridgehead nitrogen atoms, 603–9
- DIAZOPENICILLINATE**
Preparation of 6 α -monosubstituted and 6,6-disubstituted penicillanates from 6-diazopenicillanates: reactions of 6-diazopenicillanates with alcohols, thiols, phenylseleninyl compounds, and allylic sulfides, and their analogs, 2757–66
- DIAZOTIZATION**
Reactions with heterocyclic diazonium salts: novel synthesis of pyrazolo[4,3-c]pyridazines and of pyrazolo[4,3-c]pyrazoles, 989–91
Triazines and related products. Part 24. Synthesis of pyrazol-4-ylidenehydrazinoimidazoles by hydrazinolysis of imidazo[5,1-c][1,2,4]triazines and 2-arylaizoimidazoles by diazonium coupling reactions, 1811–19
- DIBENZISOQUINOLINE**
Electrochemical reactions. Part 24. Reductive cyclization of *i*-(2-halophenyl)-*j*-phenyl compounds: a general reaction, 229–34
- DIBENZOCYCLOOCTADIENE**
Conformational study of dibenzocyclooctadiene systems related to the schizandrin-type lignans, 2353–8
- DIBENZOCYCLOOCTENE**
Thermal, photochemical, and acid-catalyzed rearrangements of the spiro dimer of α,α' -bis(methoxycarbonyl)-*o*-quinodimethane. X-ray crystal structure of *trans,trans*-tetrakis(methoxycarbonyl)dibenzof[a,e]cyclooctene, 2257–63
- DIBENZOCYCLOOCTENONECARBOXYLATE**
Synthesis of (-)-steganone, 521–5
- DIBENZOFURAN**
Naturally occurring dibenzofurans. Part 1. A synthesis of cannabifuran, 1605–10
Naturally occurring dibenzofurans. Part 2. The synthesis of schizopeltic acid, 2373–7
- DIBENZOFURAN CARBOXYLATE**
Naturally occurring dibenzofurans. Part 2. The synthesis of schizopeltic acid, 2373–7

DIBENZOPHOSPHOLE

- Synthesis of substituted dibenzophospholes. Part 1, 2289–97
 Synthesis of substituted dibenzophospholes. Part 3. Synthesis of 4,6-diaryldibenzophospholes from *m*-quaterphenyls, 2317–31
 Synthesis of substituted dibenzophospholes. Part 4. Chemical transformations of 4,6-diaryl-3,7-dialkoxydibenzophosphole 5-oxides, 2333–9

DIBENZOTHIPIEPIN

- Ylide formation and rearrangement in the thermal reaction of 6H-dibenzo[b,d]thiopyran and its 6-phenyl derivative with diazo alkanes, 917–22

DIBENZOTHIOPYRAN

- Ylide formation and rearrangement in the thermal reaction of 6H-dibenzo[b,d]thiopyran and its 6-phenyl derivative with diazo alkanes, 917–22

DIBENZYL

- Investigations into the mechanism of the action of alkali in methanol on 3,6-dibenzyl-*s*-tetrazines and their 1,4-dihydro-derivatives: the role of *s*-tetrazines as hydride acceptors and an x-ray determination of the structure of 3,6-bis(4-chlorobenzyl)-1,4-dihydro-*s*-tetrazine, 1165–70

DIBENZYL-TETRAZINE

- Investigations into the mechanism of the action of alkali in methanol on 3,6-dibenzyl-*s*-tetrazines and their 1,4-dihydro-derivatives: the role of *s*-tetrazines as hydride acceptors and an x-ray determination of the structure of 3,6-bis(4-chlorobenzyl)-1,4-dihydro-*s*-tetrazine, 1165–70

DIBORANE

- Reactions of organothallium compounds with diborane, 2949–51

DIBROMO

- Ring contractions of thiochroman-4-ones and thiochromen-4-ones 395–402
 One-pot conversions of amines into olefins via nonisolated pyridinium intermediates, 2347–52

DIBROMODIFLUOROMETHANE

- Reactivity of the perhaloalkanes bromochloro- and dibromodifluoromethane with nucleophiles. Part 4. Condensation with carbanions, 1063–5

DIBUTYL

- Cyclodienones. Part 8. Hydrolysis of 5-oxo-2,4-di-*tert*-butylcyclopenta-1,3-dienecarbonitrile, 243–6
 Cyclodienones. Part 6. Preparation of 4-azido-2,4,6-tri-*tert*-butylcyclohexa-2,5-dienone and its thermal, photochemical, and acid-catalyzed decomposition, 2841–8
 Oxidation of alkoxyphenols. Part 26. The trimer of a 2,2'-diphenoquinone (1,1'-bicyclohexa-3,5-dienylidene-2,2'-dione), 2855–62

DIBUTYLBENZOQUINONE

- Cyclodienones. Part 6. Preparation of 4-azido-2,4,6-tri-*tert*-butylcyclohexa-2,5-dienone and its thermal, photochemical, and acid-catalyzed decomposition, 2841–8

DICARBONYL

- Unusual Michael reaction of acyclic 1,3-dicarbonyl compounds with nitroolefins. A novel pyrrole synthesis, 441–7
 The reaction of Meldrum's acid with α -dicarbonyl monohydrazone-s: a new synthesis of pyridazin-3-ones, 1845–53

DICARVACROTIDE

- Conformational behavior of medium-sized rings. Part 9. Disalicylides and trisalicylides, 1629–36

DICHLORIDE

- Heterocyclic syntheses with malonyl dichloride. Part 13. 6-Chloro-4-hydroxy-2-oxopyran-3-carboxanilides from *N*-sulfinylanilines and further reaction of malonyl dichloride with thiocyanates, 1575–8

DICHLORINATION

- Photochemistry of halogenated benzene derivatives. Part 2. Photoreactions of α -substituted *p*-chlorotoluenes, 2957–61

DICHLORO

- Polyhaloaromatic compounds. Part 46. Circumstantial evidence for the intermediacy of radical anions during the reaction of magnesium with ω -bromoalkoxychloro-arenes and -heteroarenes, 93–9

- Alkylated steroids. Part 5. Formation of 17 β -acetylenic steroids from hindered 20-oxo compounds via Grignard derived enolates 1079–84

- Synthesis of annelated 1,3,4,6-thiatriazepines from reaction of cyclic thioureas with 1,4-dichloro-2,3-diazabutadienes, 1999–2005

- Heterocyclic syntheses with malonyl chloride. Part 14. A direct

- synthesis of 4,6-dichloropyrimidines with 5-benzyl or -phenyl and 2-thioalkyl or -thiophenyl substituents, 2499–503

DICHROMATE

- New oxidative systems for alcohols: molecular sieves with chromium(VI) reagents, 1967–73

DICYANO

- Biosynthesis of vitamin B₁₂. Analysis of the proton and carbon-13 NMR spectra of heptamethyl dicyanocobyrinate (cobester), 2265–77

DICYANOCOBYRINATE

- Biosynthesis of vitamin B₁₂. Analysis of the proton and carbon-13 NMR spectra of heptamethyl dicyanocobyrinate (cobester), 2265–77

- The x-ray structure analysis of anhydrous heptamethyl dicyanocobyrinate (cobester), 2279–88

DIDEOXY

- Novel reagent system for converting a hydroxy group into an iodo group in carbohydrates with inversion of configuration. Part 3, 681–3

DIELS

- Preparation and reactions of pyridones: steric and electronic effects on cycloadditions with 2(1H)-pyridones, 169–73
 Heterocyclic polyfluoro-compounds. Part 37. Diels-Alder reactions of trichloro- and trifluoro-1,2,4-triazine, 1245–9
 Synthesis of novel β -lactamase inhibitors from clavulanic acid. Preparation and chemical reactions of (5R)-3-vinyl-4-oxa-1-azabicyclo[3.2.0]hept-2-en-7-one, 1509–17
 Heterocyclic polyfluoro compounds. Part 41. Photochemical isomerization of 1-substituted hexafluoro-1H-azepines: hexafluoro-2-azabicyclo[3.2.0]hepta-3,6-dienes and their reactions, 2105–9

- Polyhalo allenes and acetylenes. Part 14. The reactions of perfluoro-1,2-dienes with dichloro- and difluorocarbene, and a new route to 1,1-dichloroperfluoro-1,2-dienes, 2203–6

DIENE

- Photocycloaddition of 1-aminoanthraquinones to dienes by visible light irradiation. 1771–3

DIENYLUM

- Organoiron complexes in organic synthesis. Part 21. Methods for controlling the regioselectivity of nucleophile addition to tricarbonyl(cyclohexadienylum)iron complexes, 1527–34

DIENYLUMIRON

- Organoiron complexes in organic synthesis. Part 21. Methods for controlling the regioselectivity of nucleophile addition to tricarbonyl(cyclohexadienylum)iron complexes, 1527–34

DIESTER

- Pyrrolizidine alkaloid analogs. Synthesis of eleven-membered macrocyclic diesters of retronecine, 1117–21

DIETHYLTHIOXOAMIDE

- Photochemical reactions of *N,N*-dialkyl-*x*-thioxoamides, 247–8

DIFLUORO

- Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ξ)-fluoro-25-hydroxyvitamin D₃, 85–91
 Electrophilic fluorination of some steroidal α,β -unsaturated ketones 1105–10

DIFLUOROCYCLOPROPANATION

- Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ξ)-fluoro-25-hydroxyvitamin D₃, 85–91

DIFLUOROMETHYLENE

- Polyhalo allenes and acetylenes. Part 14. The reactions of perfluoro-1,2-dienes with dichloro- and difluorocarbene, and a new route to 1,1-dichloroperfluoro-1,2-dienes, 2203–6

DIGITOXOSE

- Convenient syntheses of L-digitoxose, L-cymarose, and L-ristosamine, 2583–7

DIHYDROXY

- Synthesis of 2,6-diaryl-4,8-dihydroxy-3,7-dioxabicyclo[3.3.0]octanes, 175–81
 Cytochalasins E and K, toxic metabolites from *Aspergillus clavatus* 541–4

- Ketol formation by peracid oxidation of a tricyclic styrene, 657–64
 18-Substituted steroids. Part 10. Synthesis of 16 α ,18,21-trihydroxypregn-4-ene-3,20-dione (16 α ,18-dihydroxy-11-deoxycorticosterone), 723–8

- Base-catalyzed fragmentation of 5,6 β -epoxy-3 β -hydroxy-5 β -cholestan-19-ol, 799–803

- Pyrazine chemistry. Part 13. Preparation and reactions of pyrazine

DIHYDROXY(contd)

- N-oxides related to mycelianamide, 953-9
 Synthesis of 25 ξ ,26-dihydroxyvitamin D₂, 2111-16
 Chemical investigation of Ceylonese plants. Part 45. 28,29-
 Dihydroxyfriedelan-3-one, a friedelane with two oxygenated
 methyl groups, from *Elaeodendron balae* (Celastraceae), 2457-9

DIHYDROXYFRIEDELANONE

- Chemical investigation of Ceylonese plants. Part 45. 28,29-
 Dihydroxyfriedelan-3-one, a friedelane with two oxygenated
 methyl groups, from *Elaeodendron balae* (Celastraceae), 2457-9

DIHYDROXYMETHOXYDEESTRATRIENONE

- Ketol formation by peracid oxidation of a tricyclic styrene, 657-64

DIHYDROXYPHENYL

- Natural benzofurans: synthesis of the arylbenzofuran constituents
 of *Sophora tomentosa*, 3017-20

DIIMINE

- Novel synthesis of diimines by the transformation of 1-aryl-4,6-
 disubstituted pyrimidin-2(1H)-ones, 2149-52

DIiodo

- Novel reagent system for converting a hydroxy group into an iodo
 group in carbohydrates with inversion of configuration. Part 3,
 681-3

- Synthesis of substituted dibenzophospholes. Part 3. Synthesis of
 4,6-diaryldibenzophospholes from m-quaterphenyls, 2317-31

DIKETONE

- Reactions of mercury(II) acetate with nitrogen compounds. Part 9.
 Oxidations of the bis(4-nitrophenylhydrazones) of some 1,3-
 diketones with mercury(II) acetate and lead(IV) acetate, 553-5

DILACTONE

- Tannins and related compounds. Part 3. A new phenolic acid,
 sanguisorbic acid dilactone and three new ellagitannins, sanguiins
 H-1, H-2, and H-3, from *Sanguisorba officinalis*, 1067-73

DIMER

- Photoinduced transformations. Part 60. Photoinduced rearrangements
 of cholesteryl nitrites with monochromatic light, 111-16
 Syntheses and reactions of hydridorhodium(III) octaethylporphyrin
 and rhodium(II) octaethylporphyrin dimer, 983-7

- Heterocyclic polyfluoro-compounds. Part 39. Preparation and some
 nucleophilic substitution reactions of trifluoro-1,2,4-triazine,
 1251-4

- Thermal, photochemical, and acid-catalyzed rearrangements of the
 spiro dimer of α,α' -bis(methoxycarbonyl)- α -quinodimethane. X-
 ray crystal structure of trans,trans-tetrakis(methoxycarbonyl)dib-
 enzo[a,e]-cyclooctene, 2257-63

DIMERIZATION

- Heterocycle stabilized carbanions. Two series of anomalous
 products from 1-alkyl-4,6-diphenyl-2-pyridones, 143-51

- Metalation studies with pyrimidines, 153-8

- Ring contractions of thiochroman-4-ones and thiochromen-4-ones
 395-402

- Syntheses and reactions of hydridorhodium(III) octaethylporphyrin
 and rhodium(II) octaethylporphyrin dimer, 983-7

- Structures of the four possible [4 + 4] cycloaddition products
 formed on photodimerization of N-alkyl-2-pyridones, 1187-91

- Dinitrones from C-benzyl nitrones, 1395-8

- Benzenesulfenyl radicals. Reactivity of 4'-methoxy- and 4'-
 methoxy-2-nitrobenzenesulfenyl radicals, 3049-53

DIMETHOXY

- C-Aromatic steroids. Synthesis of 11,17 ξ -dimethoxy-18-
 norandrost-4,8,11,13-tetraen-3-one, 201-4

- Studies on S_{RN}1 reactions. Part 6. Synthesis of 3-methyl derivatives
 of the alkaloids thalactamine, doryanine, and 6,7-dimethoxy-N-
 methyl-1(2H)-isoquinoline, 1149-52

- Synthesis of the alkaloids, 3',4'-dimethoxy-2-(2-piperidyl)acetoph-
 enone, julandine, and cryptopleurine, 2487-90

- Acid-catalyzed cyclizations: structures of novel products isolated in
 the reaction of 2-[3-(2,6-dimethoxyphenyl)but-2-enyl]-2-
 methylcyclopentane-1,3-dione with methanol-hydrochloric acid,
 2791-4

- Oxidation of alkoxyphenols. Part 26. The trimer of a 2,2'-
 diphenquinone (1,1'-bicyclohexa-3,5-dienylidene-2,2'-dione),
 2855-62

DIMETHOXYDIBUTYLDIPHENOQUINONE

- Oxidation of alkoxyphenols. Part 26. The trimer of a 2,2'-
 diphenquinone (1,1'-bicyclohexa-3,5-dienylidene-2,2'-dione),
 2855-62

DIMETHOXYPHENYL

- Acid-catalyzed cyclizations: structures of novel products isolated in
 the reaction of 2-[3-(2,6-dimethoxyphenyl)but-2-enyl]-2-

- methylcyclopentane-1,3-dione with methanol-hydrochloric acid,
 2791-4

DIMETHOXYPHENYLBUTENYL

- Acid-catalyzed cyclizations: structures of novel products isolated in
 the reaction of 2-[3-(2,6-dimethoxyphenyl)but-2-enyl]-2-
 methylcyclopentane-1,3-dione with methanol-hydrochloric acid,
 2791-4

**DIMETHOXYPHENYLBUTENYLMETHYLCYCLOPEN-
TANEDIONE**

- Acid-catalyzed cyclizations: structures of novel products isolated in
 the reaction of 2-[3-(2,6-dimethoxyphenyl)but-2-enyl]-2-
 methylcyclopentane-1,3-dione with methanol-hydrochloric acid,
 2791-4

DIMETHOXYPHENYLETHYL

- 1,2-Disubstituted ethanes as possible precursors for the synthesis of
 Cannabis spirans, 1485-91

DIMETHYL

- Cyclodienones. Part 8. Hydrolysis of 5-oxo-2,4-di-tert-
 butylcyclopenta-1,3-dienecarbonitrile, 243-6

- Metal-assisted cycloadditions. Part 3. Reactions of dicarbonyl(η^5 -
 cyclopentadienyl) η^1 -2-methoxyallyliron with electron-deficient
 olefins and acetylenes, 301-6

- Acid-catalyzed condensation of isoprene with phenols. Formation
 of 2,2-dimethylchromans, 335-8

- Ring contractions of thiochroman-4-ones and thiochromen-4-ones
 395-402

- Radical rearrangements of 1,3-dimethylindene derivatives: a
 comparison with rearrangement by 1,5-sigmatropy, 467-72
 Cytochalasins E and K, toxic metabolites from *Aspergillus clavatus*
 541-4

- Reactions involving fluoride ion. Part 25. A fluoride-ion-induced
 skeletal rearrangement, 673-6

- A stable bromoalkoxyphosphorane, a model for the postulated
 five-coordinate intermediate in the Arbuzov and related reactions
 735-40

- Structures of homofarnesene and bishomofarnesene isomers from
Myrmica ants, 949-51

- Alkylated steroids. Part 5. Formation of 17 β -acetylenic steroids
 from hindered 20-oxo compounds via Grignard derived enolates
 1079-84

- Studies on S_{RN}1 reactions. Part 6. Synthesis of 3-methyl derivatives
 of the alkaloids thalactamine, doryanine, and 6,7-dimethoxy-N-
 methyl-1(2H)-isoquinoline, 1149-52

- Formation of isocyanates by deoxygenation of C-nitrosocarbonyl
 compounds, 1571-4

- Synthetic studies on terpenoids. Part 6. Synthesis of (\pm)-4,13-
 dimethyl-13-vinylpodocarp-8(14)-en-4 α - and -4 β -ols, 1959-62

- Photoinduced transformations. Part 63. Photorearrangement of
 17 β -acetoxo-4,4-dimethylestr-5-en-3 β -yl nitrite with
 monochromatic light, 1963-6

- Analogues of antijuvenile hormones, 2013-18

- Synthesis of polyoxygenated trans-decalins as potential insect
 antifeedants, 2157-62

- Control of regioselectivity in the addition of sulfonyl chlorides to
 3,3-dimethylbutyne (tert-butylacetylene) as a method for
 differential functionalization of triple bonds, 2197-201

- Acid-catalyzed cyclizations: structures of novel products isolated in
 the reaction of 2-[3-(2,6-dimethoxyphenyl)but-2-enyl]-2-
 methylcyclopentane-1,3-dione with methanol-hydrochloric acid,
 2791-4

DIMETHYLAMINO

- Convenient syntheses of 5-substituted 2-hydroxybenzoates and
 related reactions, 665-9

- Synthesis of heterocycles using a new immonium salt derived from
 N,N-dimethylthiourea, 1059-62

DIMETHYLAMINOMETHYLENE

- Synthesis of heterocycles using a new immonium salt derived from
 N,N-dimethylthiourea, 1059-62

DIMETHYLBIPYRIDINE

- An improved synthesis of amphiphilic 4,4'-disubstituted 2,2'-
 bipyridines, 3041-3

DIMETHYLBUTENYL

- Synthesis of 4- and 5-(1,3-dimethylbut-2-enylthio)-2,6-
 dimethylocta-2,6-diene, models for sulfur crosslinks in natural
 rubber, 3027-30

DIMETHYLBUTYNE

- Control of regioselectivity in the addition of sulfonyl chlorides to
 3,3-dimethylbutyne (tert-butylacetylene) as a method for
 differential functionalization of triple bonds, 2197-201

DIMETHYLDIOXANYL

Studies related to maytansinoids, 1541-51

DIMETHYLENE

Reactions involving fluoride ion. Part 25. A fluoride-ion-induced skeletal rearrangement, 673-6

DIMETHYLETHYL

Reactions of 1-methyl-4-tert-butylcyclohexene and 1-methylcyclohexene with thallium(I) acetate-iodine, 413-19

DIMETHYLOCTADIENYL

Synthesis of 4- and 5-(1,3-dimethylbut-2-enylthio)-2,6-dimethylocta-2,6-diene, models for sulfur crosslinks in natural rubber, 3027-30

DIMETHYLPENTANEDIONE

Reactions of mercury(II) acetate with nitrogen compounds. Part 9. Oxidations of the bis(4-nitrophenylhydrazones) of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553-5

DIMETHYLSEQUIRINSynthesis, conformation, and chirality of di-O-methylsequirin D, a biogenetically novel metabolite of *Sequoia sempervirens*, 461-5**DIMETHYLSULFAMATE**

Versatile synthesis of sulfamate esters by phase-transfer methods, 677-9

DINITRO

2,4-Dinitrobenzenesulfonylnitrene: addition to (Z)- and (E)-1-phenylpropene, 2491-7

DINITROBENZENESULFENAMIDE

2,4-Dinitrobenzenesulfonylnitrene: addition to (Z)- and (E)-1-phenylpropene, 2491-7

DINITROBENZENESULFENYL

2,4-Dinitrobenzenesulfonylnitrene: addition to (Z)- and (E)-1-phenylpropene, 2491-7

DINITROBENZENESULFENYLNITRENE

2,4-Dinitrobenzenesulfonylnitrene: addition to (Z)- and (E)-1-phenylpropene, 2491-7

DINITRONE

Dinitrones from C-benzyl nitrones, 1395-8

DINORCHOLESTADIENEStudies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ζ)-fluoro-25-hydroxyvitamin D³, 85-91**DIOXABICYCLOCTANE**

Synthesis of 2,6-diaryl-4,8-dihydroxy-3,7-dioxabicyclo[3.3.0]octanes, 175-81

DIOXANEDIONEThe reaction of Meldrum's acid with α -dicarbonyl monohydrazones: a new synthesis of pyridazin-3-ones, 1845-53**DIOXANYLEPOXYPENTANONE**

Studies related to maytansinoids, 1541-51

DIOXATRICYCLOUNDECANONE

Synthetic approaches to 11-deoxyhomoprostacyclin analogs, 1923-32

DIOXAZOLOPYRAZINONE

Pyrazine chemistry. Part 13. Preparation and reactions of pyrazine N-oxides related to mycelianamide, 953-9

DIOXIDE

Fused mesoionic heterocycles: synthesis of 1,3,4-oxadiazolo[3,2-a]pyridine and 1,3,4-thiadiazolo[3,2-a]pyridine derivatives, 351-5

Studies related to penicillins. Part 21. β -Elimination reactions of S,S-dioxides of penicillanic esters, 595-602

Pyrazine chemistry. Part 13. Preparation and reactions of pyrazine N-oxides related to mycelianamide, 953-9

Structure and reactivity of enamines derived from 5,6-dihydro-2H-thiapyran-3(4H)-one 1,1-dioxide, 2045-50

Benzenesulfenylidyl radicals. Reactivity of 4'-methoxy- and 4'-methoxy-2-nitrobenzenesulfenylidyl radicals, 3049-53

DIOXOBase-promoted reactions of α -haloalkylanilides, 2969-72**DIOXOCYCLOPENTYL**

Halogenated enolates. Synthesis of 2-deoxypentose derivatives from D-glyceraldehyde, 2063-6

DIOXOCYTOCHALASATRIENETRIONECytocalasins E and K, toxic metabolites from *Aspergillus clavatus*, 541-4**DIOXOLANYLMETHOXY**

Intramolecular acetalization of naphthoquinones, 1933-6

DIOXOLANYLMETHOXYNAPHTHOQUINONE

Intramolecular acetalization of naphthoquinones, 1933-6

DIOXY

A mild and efficient degradation of ring A of steroids, 513-16

DIOXYPHOSPHORANE

A stable bromoalkoxyphosphorane, a model for the postulated five-coordinate intermediate in the Arbuzov and related reactions, 735-40

DIPEPTIDESynthesis of β -amino acid peptides. Part 3. Preparation of racemic and chiral 3-aminobutyric acid derivatives and peptides using dihydrooxazin-6-ones and conventional coupling reagents, 1587-92**DIPHENOQUINONE**

Oxidation of alkoxyphenols. Part 26. The trimer of a 2,2'-diphenoquinone (1,1'-bicyclohexa-3,5-dienylidene-2,2'-dione), 2855-62

DIPHENYL

Bromo derivatives of dimethyl 4-oxo-trans-2,6-diphenylcyclohexane-1,1-dicarboxylate and their dehydrobromination, 101-5

Steric factors in heterocyclic rearrangements. N-Methyl-N-phenylhydrazones of 3-benzoyl-5-phenyl-1,2,4-oxadiazole, 165-7

Electrochemical reactions. Part 24. Reductive cyclization of i-(2-halophenyl)-j-phenyl compounds: a general reaction, 229-34

A stable bromoalkoxyphosphorane, a model for the postulated five-coordinate intermediate in the Arbuzov and related reactions, 735-40

Ketenimine chemistry. Part 1. The reaction of triaryl ketenimines with arenesulfonyl chlorides, 1255-6

The chemistry of some bicyclic pyridinium anhydrobases, 1349-53

Photochemical and thermal reactions of heterocycles. Part 3.

Photoisomerization, photofragmentation, and photodimerization of mesoionic 1,3-dithiol-4-one and -4-imine derivatives, 1885-9

A practical catalytic method for the preparation of steroidal 1,4-dien-3-ones by oxygen atom transfer from iodoxybenzene to diphenyl diselenide, 1947-52

Thiadiazoles and thiadiazolines. Part 2. Δ^2 -1,3,4-Thiadiazoline-4-carboxamides derived from substituted acyclic thioureas, 1981-6

Synthesis of annelated 1,3,4,6-thiatriazepines from reaction of cyclic thioureas with 1,4-dichloro-2,3-diazabutadienes, 1999-2005

Electroorganic reactions. Part 20. Electrogenerated bases, ylide formation, and Wittig alkene synthesis, 2921-6

DIPHENYLTOLYLQUINOLINE

The chemistry of some bicyclic pyridinium anhydrobases, 1349-53

DISACCHARIDE

Stereoselective thioglycoside syntheses. Part 4. A new approach to 1,4-linked 1-thiodisaccharides and a synthesis of thiomaltose, 15-18

Synthesis of a nonasaccharide containing terminal N-acetyl- β -D-lactosaminyl residues, part of the 'complex-type' carbohydrate moiety of glycoproteins, 1841-4**DISELENIDE**

A practical catalytic method for the preparation of steroidal 1,4-dien-3-ones by oxygen atom transfer from iodoxybenzene to diphenyl diselenide, 1947-52

DISPLACEMENT

Homolytic displacements at carbon. Part 8. Synthesis of 1-cyano-2-(trichloroethyl)cyclopropanes from allylcobaloximes via but-3-enylcobaloximes and 1-bromo-1-cyanobut-3-enes, 645-51

DISULFIDE

Organocuprate conjugate addition reactions of 2,3-dihydrothiin-4-one, its oxide and dioxide, 1177-82

Novel synthesis of diimines by the transformation of 1-aryl-4,6-disubstituted pyrimidin-2(1H)-ones, 2149-52

Benzenesulfenylidyl radicals. Reactivity of 4'-methoxy- and 4'-methoxy-2-nitrobenzenesulfenylidyl radicals, 3049-53

DITERPENEPreparation of kaurenolide and its 5 α ,6 α (H)-isomer, 517-19Gibberellins A₆₀, A₆₁, and A₆₂: partial syntheses and natural occurrence, 689-97

Synthetic studies directed towards complex diterpenoids. Part 15.

Synthesis and stereochemistry of the catalytic reduction of $\Delta^{4b(5)}$ -gibbenes and related compounds, 865-73The x-ray structure and absolute configuration of insect antifeedant clerodane diterpenoids from *Teucrium africanum*, 1005-8Salvinorin, a new trans-neoclerodane diterpene from *Salvia divinorum* (Labiatae), 2505-8

Organoiron complexes in organic synthesis. Part 23. New strategies for steroid and aphidicolane synthesis, 2631-9

- DITERPENOID**
The acyloin condensation of the diterpenoid fujenal, 611–14
Reactions of forskolin, a biologically active diterpenoid from *Coleus forskohlii*, 767–71
- DITHIODIPHENYLACETAMIDE**
Photochemical reactions of N,N-dialkyl- α -thioamides, 247–8
- DITHIOLANYLBUTANAL**
Convenient syntheses of 5-substituted 2-hydroxybenzoates and related reactions, 665–9
- DITHIOLIMINE**
Photochemical and thermal reactions of heterocycles. Part 3.
Photoisomerization, photofragmentation, and photodimerization of mesoionic 1,3-dithiol-4-one and -4-imine derivatives, 1885–9
- DITHIOLONE**
Photochemical and thermal reactions of heterocycles. Part 3.
Photoisomerization, photofragmentation, and photodimerization of mesoionic 1,3-dithiol-4-one and -4-imine derivatives, 1885–9
- DITHIOSALICYLIDE**
Conformational behavior of medium-sized rings. Part 10.
Dithiosalicylides and trithiosalicylides, 1637–48
- DITHYMOTIDE**
Conformational behavior of medium-sized rings. Part 9.
Disalicylides and trisalicylides, 1629–36
- DODECATETRAENE**
Structures of homofarnesene and bishomofarnesene isomers from *Myrmica* ants, 949–51
- DORYANINE**
Studies on $S_{RN}1$ reactions. Part 6. Synthesis of 3-methyl derivatives of the alkaloids thalactamine, doryanine, and 6,7-dimethoxy-N-methyl-1(2H)-isoquinoline, 1149–52
- DOUBLE**
New stereoselective synthesis of 9-methyl-cis-decalin derivatives by double Michael reaction of 3-methyl-4-methylenecyclohex-2-enone and its congeners with dimethyl 3-oxoglutarate, 25–30
- DUETERATE**
Synthesis of oct-1-ene-2,8-d₂, 2901–2
- DYE**
A novel and chemoselective preparation of chlorosulfonyl-containing azo dyes with phosphoryl chloride-N,N-dimethylacetamide, 1519–22
- EARTH**
N-Bridged heterocycles. Part 5. α,ω -Bis(2-oxobenzimidazolyl)alkanones and -ethers as selective ligands for Group IA and IIA metals, 261–70
- ECHINATIN**
Studies on plant tissue cultures. Part 36. Biosynthesis of a retrochalcone, echinatin, and other flavonoids in the cultured cells of *Glycyrrhiza echinata*. A new route to a chalcone with transposed A- and B-rings, 2725–34
- EGOSTEROL**
Synthesis of 25 ξ ,26-dihydroxyvitamin D₂, 2111–16
- EICOSATETRAENOATE**
Synthesis of (R,S)-(5Z,8E,10E)-12-hydroxyheptadeca-5,8,10-trienoic acid and of (R,S)- and (S)-(5Z,8Z,10E,14Z)-12-hydroxyeicosa-5,8,10,14-tetraenoic acid and their racemic 5,6,8,9-tetradeuterioisomers, 545–52
- ELAEODENDRON**
Chemical investigation of Ceylonese plants. Part 45. 28,29-Dihydroxyfriedelan-3-one, a friedelane with two oxygenated methyl groups, from *Elaeodendron balae* (Celastraceae), 2457–9
- ELEAGNINE**
The biosynthesis of the β -carboline alkaloids, harman and eleagnine, 1523–5
- ELEAGNUS**
The biosynthesis of the β -carboline alkaloids, harman and eleagnine, 1523–5
- ELECTROCHEM**
Electrochemical reactions. Part 24. Reductive cyclization of *i*-(2-halophenyl)-*j*-phenyl compounds: a general reaction, 229–34
Electroorganic reactions. Part 20. Electrogenerated bases, ylide formation, and Wittig alkene synthesis, 2921–6
- ELECTRONIC**
Organometallic compounds in organic synthesis. Part 14.
Tricarbonyliron as lateral control group in the selective alkaline hydrolysis of some cyclohexa-1,3-diene carboxylic esters, 1763–9
- ELECTROPHILE**
Ketene silyl acetal chemistry; simple synthesis of methyl jasmonate and related compounds by utilising ketene methyl dimethyl-tert-butylsilyl acetal, 1099–104
The chemistry of some bicyclic pyridinium anhydrobases, 1349–53
The synthesis and reactions of 4H-tetrazolo[5,1-c][1,4]benzothiazines, 1879–84
- ELECTROPHILIC**
Heterocycle stabilized carbanions. Two series of anomalous products from 1-alkyl-4,6-diphenyl-2-pyridones, 143–51
Electrophilic aromatic substitution of catechins: bromination and benzylation, 973–8
Electrophilic fluorination of some steroidal α,β -unsaturated ketones 1105–10
Synthesis of substituted dibenzophospholes. Part 4. Chemical transformations of 4,6-diaryl-3,7-dialkoxydibenzophosphole 5-oxides, 2333–9
Practicable syntheses of 2-hydroxymethyl-substituted benzimidazoles and 2-formylbenzimidazole, 2871–5
- ELEMICIN**
A new synthesis of kigelin. Conversion of elemicin into kigelin, 2099–100
- ELIMINATION**
Studies related to penicillins. Part 21. β -Elimination reactions of S,S-dioxides of penicillanic esters, 595–602
Sulfur extrusion reactions. Part 5. Reactions of monoprotonic thioureas with ethyl α -chloroacetate, ethyl bromomalonate, and ethyl bromocyanacetate, 653–6
Ketol formation by peracid oxidation of a tricyclic styrene, 657–64
A stable bromoalkoxyphosphorane, a model for the postulated five-coordinate intermediate in the Arbuzov and related reactions 735–40
Base-catalyzed fragmentation of 5,6 β -epoxy-3 β -hydroxy-5 β -cholestan-19-ol, 799–803
Synthesis and behavior under acidic conditions of 2-deoxy-D-arabinohexopyranose and 3-deoxy-2-ketoaldonic acids bearing O-phosphono or O-glucosyl substituents at position β to the carbonyl function, 1275–82
Reactions of 4-hydroxycyclohexa-2,5-dienones under acidic conditions, 1499–507
Cycloelimination of β -silylethyl sulfoxides: alkene, alkyne, and vinylsilane forming reactions, 1563–9
1,2,3-Triazoles produced from 5-substituted N-methoxytriazolium salts, 2749–56
- ELLAGITANNIN**
Tannins and related compounds. Part 3. A new phenolic acid, sanguisorbic acid dilactone and three new ellagitannins, sanguins H-1, H-2, and H-3, from *Sanguisorba officinalis*, 1067–73
- ELLIPTICINE**
Chemistry of 6H-pyrido[4,3-b]carbazoles. Part 9. An efficient route to 3-[1-(3-ethylpyridyl)]indoles and the synthesis of some new ellipticines, 587–90
- ELSERTA**
Solution conformations of two synthetic analogs of quinoxaline antibiotics, 1041–8
- ENAMINO**
Reaction of lithioenamines with sulfite esters. Stereospecific and stereoselective synthesis of β -enamino and β -imino sulfoxides, 1183–6
Activated nitriles in heterocyclic synthesis: a new procedure for the synthesis of pyrimidine derivatives, 2667–70
- ENIMINE**
Preparation and reactions of steroidal cross-conjugated 3-nitrones, 2599–606
- ENKEPHALIN**
On the double bond isostere of the peptide bond: preparation of an enkephalin analog, 307–14
Selectivity in the trimethylsilylation and acylation of peptide bonds, and its application to modification of the enkephalins, 2939–47
- ENLARGEMENT**
Photoinduced transformations. Part 60. Photoinduced rearrangements of cholesteryl nitrites with monochromatic light, 111–16
Pyrimidine derivatives and related compounds. Part 41. Reactions of 1,3,6-trimethyl-5-nitrouracil and its 6-bromomethyl analog with amines and hydrazines. Synthesis of pyrazolo[4,3-d]pyrimidine N-oxides and their ring expansion to pyrimido[5,4-d]pyrimidines, 277–84
Photolysis of quinolyl and isoquinolyl azides in the presence of methoxide ions. Synthesis of benzodiazepines and pyridozepines 431–3
Carbene insertion into [2.2]metacyclophane-1,10-dione: a convenient route to [3.2]- and [3.3]-metacyclophanes, 477–81
Photochemistry of epoxyquinones. Part 7. Photoinduced

- ENLARGEMENT**(contd)
cycloaddition of 2,3-dimethyl-2,3-dihydro-2,3-epoxy-1,4-naphthoquinone to olefins, 2671-85
- ENOL**
Photosensitized oxidation of furans. Part 4. Influence of the substituents on the behavior of the endo-peroxides of furans, 2007-12
Silyl phosphites. Part 20. A facile synthesis of phosphoenolpyruvate and its analog utilizing in situ generated trimethylsilyl bromide, 2509-13
- ENOLATE**
Organoiron complexes in organic synthesis. Part 21. Methods for controlling the regioselectivity of nucleophile addition to tricarbonyl(cyclohexadienyl)iron complexes, 1527-34
Halogenated enolates. Synthesis of 2-deoxypentose derivatives from D-glyceraldehyde, 2063-6
- ENONE**
Electrophilic fluorination of some steroidal α,β -unsaturated ketones 1105-10
- ENZYMIC**
Studies of enzyme-mediated reactions. Part 14. Stereochemical course of the formation of cadaverine by decarboxylation of (2S)-lysine with lysine decarboxylase (E.C. 4.1.1.18) from *Bacillus cadaveris*, 449-53
Studies of enzyme-mediated reactions. Part 15. Stereochemical course of the formation of γ -aminobutyric acid (GABA) by decarboxylation of (2S)-glutamic acid with glutamate decarboxylase from *Escherichia coli*, 455-9
Biosynthesis of porphyrins and related macrocycles. Part 17. Chemical and enzymic transformation of isomeric aminomethylbilanes into uroporphyrinogens: proof that unrearranged bilane is the preferred enzymic substrate and detection of a transient intermediate, 2413-26
- EPI**
Evidence for the biogenesis of 1 α -hydroxy-trans-eudesmanolides, 881-4
- EPIBREFELDIN**
7-*epi*-Brefeldin A, a cometabolite of brefeldin A in *Curvularia lunata*, 2387-90
- EPIDIOXY**
Photosensitized oxidation of furans. Part 4. Influence of the substituents on the behavior of the endo-peroxides of furans, 2007-12
- EPIDIOXYFURAN**
Photosensitized oxidation of furans. Part 4. Influence of the substituents on the behavior of the endo-peroxides of furans, 2007-12
- EPIMERIZATION**
Inversion of configuration at C-8 in the olivanic acids: conversion into the thienamycins and other novel derivatives, 3011-16
- EPOXIDE**
Synthetic enzymes. Part 2. Catalytic asymmetric epoxidation by means of polyamino acids in a triphase system, 1317-24
Oxymetalation. Part 16. Modified procedures for reducing peroxymercurials: conversion of nonterminal alkenes into secondary alkyl tert-butyl peroxides, 1797-805
Photosensitized oxidation of furans. Part 4. Influence of the substituents on the behavior of the endo-peroxides of furans, 2007-12
Studies on the 5 β ,6 β -epoxide opening in withanolides, 2835-9
A fragmentation approach to a maytansine synthon: lithium dimethylcuprate-opening of substituted cyclohexene epoxides. X-ray structure determination of ethyl t-2,3-epoxy-c-6-p-methoxybenzoyloxy-1-methylcyclohexane-r-1-carboxylate, 2885-96
- EPOXIDN**
Synthetic application of azetidin-2-ones to a synthesis of furan derivatives, 257-60
Microbiological transformations. Part 5. Microbiological transformations of 17a-aza- and 17-aza-D-homoandrost-5-ene derivatives with the fungus *Cunninghamella elegans*, 571-6
A new procedure for olefin oxirane by peroxybenzimidic acid; synthesis of some carbohydrate-precursor oxiranes and other epoxides, 1009-11
Synthetic enzymes. Part 2. Catalytic asymmetric epoxidation by means of polyamino acids in a triphase system, 1317-24
- EPOXY**
Selective aromatization of ring B in 19-norsteroids and synthesis of equilenin-type compounds, 1-7
- Synthetic application of azetidin-2-ones to a synthesis of furan derivatives, 257-60
Base-catalyzed fragmentation of 5,6 β -epoxy-3 β -hydroxy-5 β -cholestan-19-al, 799-803
Synthesis, resolution, and racemization studies of 1,2-epoxy-1,2-dihydrochrysenes, 1535-9
- EPOXYANDROSTANETRIONE**
Acid- and base-catalyzed reactions of 4 β ,5 β - and 4 α ,5 α -epoxyandrostane-3,17,19-trione, 2611-15
- EPOXYAZAHOMOANDROSTANONE**
Microbiological transformations. Part 5. Microbiological transformations of 17a-aza- and 17-aza-D-homoandrost-5-ene derivatives with the fungus *Cunninghamella elegans*, 571-6
- EPOXYAZETIDINONE**
Synthetic application of azetidin-2-ones to a synthesis of furan derivatives, 257-60
- EPOXYBUTENE**
Catalytic hydrogenation of 3,4-epoxybut-1-ene with cationic rhodium complexes, 855-9
- EPOXYCHOLESTANE**
Steroidal N-nitroamines. Part 1. Denitroamination of steroidal 4 β -, 6 β -, 7 α -, and 7 β -nitroamines, 923-9
- EPOXYCHRYSENE**
Synthesis, resolution, and racemization studies of 1,2-epoxy-1,2-dihydrochrysenes, 1535-9
- EPOXYESTRANONE**
Selective aromatization of ring B in 19-norsteroids and synthesis of equilenin-type compounds, 1-7
- EPOXYFURAN**
A new procedure for olefin oxirane by peroxybenzimidic acid; synthesis of some carbohydrate-precursor oxiranes and other epoxides, 1009-11
- EPOXYHYDROXYCHOLESTANAL**
Base-catalyzed fragmentation of 5,6 β -epoxy-3 β -hydroxy-5 β -cholestan-19-al, 799-803
- EPOXYIMINOANTHRACENE**
Formation of isocyanates by deoxygenation of C-nitrosocarbonyl compounds, 1571-4
- EPOXYINDAN**
Chemical synthesis and optical purity determination of optically active 1,2-epoxyindan and alcohol products which are also derived from mammalian or microbial metabolism of indene or indanones, 2767-70
- EPOXYMETHANO**
Intramolecular acetalization of naphthoquinones, 1933-6
- EPOXYMETHANONAPHTHODIOXINONE**
Intramolecular acetalization of naphthoquinones, 1933-6
- EPOXYMETHOXYBENZOYLOXYMETHYLCYCLOHEXANECARBOXYLATE**
A fragmentation approach to a maytansine synthon: lithium dimethylcuprate-opening of substituted cyclohexene epoxides. X-ray structure determination of ethyl t-2,3-epoxy-c-6-p-methoxybenzoyloxy-1-methylcyclohexane-r-1-carboxylate, 2885-96
- EPOXYNAPHTHOQUINONE**
Photochemistry of epoxyquinones. Part 7. Photoinduced cycloaddition of 2,3-dimethyl-2,3-dihydro-2,3-epoxy-1,4-naphthoquinone to olefins, 2671-85
- EPOXYPENTANONE**
Studies related to maytansinoids, 1541-51
- EPOXYPROPANE**
Synthesis of (R,S)-(5Z,8E,10E)-12-hydroxyheptadeca-5,8,10-trienoic acid and of (R,S)- and (S)-(5Z,8Z,10E,14Z)-12-hydroxyeicosa-5,8,10,14-tetraenoic acid and their racemic 5,6,8,9-tetra deuterioisomers, 545-52
- EQUILENIN**
Selective aromatization of ring B in 19-norsteroids and synthesis of equilenin-type compounds, 1-7
- ERGOSTADIENOATE**
Synthesis of 25 ξ ,26-dihydroxyvitamin D₂, 2111-16
- ERGOT**
Experiments towards the synthesis of the ergot alkaloids and related structures. Part 4. Lysergic acid - an attempted 'endo-amide' approach, 1897-903
- ERYSODINE**
Erythrina alkaloids. Part 6. Isolation and characterization of alkaloids from *Erythrina berteroana* seeds and leaves: formation of oxoerythroidines, 2903-7

- ERYSOLINE**
Erythrina alkaloids. Part 6. Isolation and characterization of alkaloids from *Erythrina berteroana* seeds and leaves: formation of oxoerythroidines, 2903-7
- ERYSONINE**
Erythrina alkaloids. Part 6. Isolation and characterization of alkaloids from *Erythrina berteroana* seeds and leaves: formation of oxoerythroidines, 2903-7
- ERYSOPINE**
Erythrina alkaloids. Part 6. Isolation and characterization of alkaloids from *Erythrina berteroana* seeds and leaves: formation of oxoerythroidines, 2903-7
- ERYSOVINE**
Erythrina alkaloids. Part 6. Isolation and characterization of alkaloids from *Erythrina berteroana* seeds and leaves: formation of oxoerythroidines, 2903-7
- ERYTHRINA**
Erythrina alkaloids. Part 6. Isolation and characterization of alkaloids from *Erythrina berteroana* seeds and leaves: formation of oxoerythroidines, 2903-7
- ERYTHROIDINE**
Erythrina alkaloids. Part 6. Isolation and characterization of alkaloids from *Erythrina berteroana* seeds and leaves: formation of oxoerythroidines, 2903-7
- ESCHERICHIA**
Studies of enzyme-mediated reactions. Part 15. Stereochemical course of the formation of γ -aminobutyric acid (GABA) by decarboxylation of (2S)-glutamic acid with glutamate decarboxylase from *Escherichia coli*, 455-9
The biosynthesis of thiamine. Syntheses of [1,1,1,5-2d₄]-1-deoxy-D-threo-2-pentulose and incorporation of this sugar in biosynthesis of thiazole by *Escherichia coli* cells, 2131-7
- ESTER**
Metal-assisted cycloadditions. Part 1. Synthesis of substituted cyclopentane derivatives obtained from the reactions of (η^1 -allyl)dicarbonyl(η^5 -cyclopentadienyl)iron with electron-deficient olefins and acetylenes, 285-94
Reactions of iodine(I) azide with $\alpha\beta$ -unsaturated carbonyl compounds, 327-33
Studies related to penicillins. Part 21. β -Elimination reactions of S,S-dioxides of penicillanic esters, 595-602
Versatile synthesis of sulfamate esters by phase-transfer methods, 677-9
Synthetic and mechanistic aspects of gas-liquid phase-transfer catalysis: carboxylate esters, 993-7
Cobaloximes. Part 3. A cobaloxime synthesis for use with reactive alkyl halides, 1025-8
Cyclol formation from tripeptides containing β -alanine, 1311-16
Addition reactions of aminium radicals: synthetic studies of oxidative photoaddition of N-nitrodimethylamine, 1405-17
Synthetic approaches to versatile hemoprotein model compounds built from porphyrins and peptides, 1441-8
Photosensitized oxidation of furans. Part 4. Influence of the substituents on the behavior of the endo-peroxides of furans, 2007-12
Halogenated enolates. Synthesis of 2-deoxypentose derivatives from D-glyceraldehyde, 2063-6
Reactions of 1-alkoxycarbonylpyridinium salts with nucleophiles: stereoelectronic restrictions on carbonyl activation of α -nucleophilic attack, 2365-8
The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 1. Introduction. Naturally occurring galloyl esters, 2515-24
The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 2. Esters of (S)-hexahydroxydiphenic acid with D-glucopyranose (4C₁), 2525-34
The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 3. Esters of (R) and (S)-hexahydroxydiphenic acid and dehydrohexahydroxydiphenic acid with D-glucopyranose (1C₄ and related conformations), 2535-45
Esters of α -arylalkanoic acids from "masked" α -haloalkyl aryl ketones and silver salts: synthetic, kinetic, and mechanistic aspects, 2575-81
Activated nitriles in heterocyclic synthesis: a new procedure for the synthesis of pyrimidine derivatives, 2667-70
- ESTERIFICATION**
Synthetic and mechanistic aspects of gas-liquid phase-transfer catalysis: carboxylate esters, 993-7
Pyrrolizidine alkaloid analogs. Synthesis of eleven-membered macrocyclic diesters of retronecine, 1117-21
- ESTRANONE**
Selective aromatization of ring B in 19-norsteroids and synthesis of equilenin-type compounds, 1-7
- ESTRATRIENE**
The reactions of estrogens with benzeneseleninic anhydride and hexamethyldisilazane, 1915-18
- ESTRATRIENETETRAOL**
Synthesis of 17 α -ethynyl-7 α ,11 β -dihydroxyestra-1,3,5(10)-triene-3,17 β -diol, 2877-80
- ESTRATRIENOL**
The reactions of estrogens with benzeneseleninic anhydride and hexamethyldisilazane, 1915-18
- ESTRENEDIONE**
Acid- and base-catalyzed reactions of 4 β ,5 β - and 4 α ,5 α -epoxyandrostane-3,17,19-trione, 2611-15
- ESTRENYL**
Photoinduced transformations. Part 63. Photorearrangement of 17 β -acetoxy-4,4-dimethylestr-5-en-3 β -yl nitrite with monochromatic light, 1963-6
- ESTRONE**
The reactions of estrogens with benzeneseleninic anhydride and hexamethyldisilazane, 1915-18
- ETHANAMINE**
Enamines in the synthesis of 2-(substituted amino)-3,3-dialkylchromanones, 2771-5
- ETHANEDITHIOL**
Regiospecific annulations of substituted tropones with ethane-1,2-dithiol, 1865-9
- ETHANEDIYLIDENETHIOINDIGO**
Ring contractions of thiochroman-4-ones and thiochromen-4-ones 395-402
- ETHANOBENZOQUINOLIZINIUM**
Studies on intramolecular cycloaddition reactions of some isoquinolinium salts, 249-55
- ETHENOTHEBAINYLOXADIAZOLONE**
1,3,4-Oxadiazol-2(3H)-one formation from N-acylaminobiurets and related compounds and from S-benzyl 3-acyl(thiocarbazate-s), 2019-21
- ETHER**
Partially fluorinated heterocyclic compounds. Part 16. Preparation of furan derivatives from pentafluorophenyl and heptafluoro-2-naphthyl prop-2-ynyl ethers with aromatic compounds, and the isolation of hydrogen-abstraction products, 107-10
N-Bridged heterocycles. Part 5. α,ω -Bis(2-oxobenzimidazolyl)alkanes and -ethers as selective ligands for Group IA and IIA metals, 261-70
Addition reactions of benzo[b]thiophene. Part 3. Addition and ring-opening reactions with phenolic ethers, 615-21
Regioselective ether cleavages of rotenoids: spiro-ether formation and stereoselective isotopic labeling of (E)- or (Z)-prenyl methyl groups in (6aS, 12aS)-rot-2-enonic acid, 779-88
Gas-liquid phase-transfer synthesis of phenyl ethers and sulfides with carbonate as base and carbowax as catalyst, 1137-41
The enamine route to 2-morpholinoisoflav-3-ene, 1193-6
Naturally occurring dibenzofurans. Part 1. A synthesis of cannabifuran, 1605-10
A new synthesis of kigelin. Conversion of elemicin into kigelin, 2099-100
Crown ethers as molecular bromine carriers for bromination reactions, 2153-6
Active and passive transport of amino acid and oligopeptide derivatives by artificial ionophore-potassium ion complexes, 2359-63
A regioselective reductive ring opening of 4,6-O-prop-2-enylidene acetals of hexopyranosides, 2395-7
Photoresponsive crown ethers. Part 6. Ion transport mediated by photoinduced cis-trans interconversion of azobis(benzocrown ethers), 2735-9
Photoresponsive crown ethers. Part 7. Proton and metal ion catalyses in the cis-trans isomerization of azopyridines and an azopyridine-bridged cryptand, 2741-7
- ETHOXYBILINDIONE**
The meso-reactivity of porphyrins and related compounds. Part VIII. Substitution and addition reactions of octaethyl-21H,24H-bilin-1,19-dione, a model verdin system. X-ray analyses of octaethyl-5-nitro-21H,24H-bilin-1,19-dione and of 4,5-diethoxyoctaethyl-4,5-dihydro-21H,24H-bilin-1,19-dione, 1291-302

ETHOXYCARBONYL

Synthesis of heterocycles using a new immonium salt derived from N,N-dimethylthiourea, 1059-62

Heterocyclic polyfluoro compounds. Part 41. Photochemical isomerization of 1-substituted hexafluoro-1H-azepines: hexafluoro-2-azabicyclo[3.2.0]hepta-3,6-dienes and their reactions, 2105-9

ETHOXYCARBONYLDIMETHYLSULFONIUM

Total synthesis of (\pm)-picropodophyllone, 271-6

ETHOXYCARBONYLFLUOROAZABICYCLOHEPTADIENE

Heterocyclic polyfluoro compounds. Part 41. Photochemical isomerization of 1-substituted hexafluoro-1H-azepines: hexafluoro-2-azabicyclo[3.2.0]hepta-3,6-dienes and their reactions, 2105-9

ETHOXYCARBONYLHYDRAZINOTHIAPYRANONE

Structure and reactivity of enamines derived from 5,6-dihydro-2H-thiapyran-3(4H)-one 1,1-dioxide, 2045-50

ETHOXYCARBONYLMIMINO

Heterocyclic polyfluoro compounds. Part 40. Preparation of polyfluoroazepines, 2101-4

ETHOXYCARBONYLMINOFUORONAPHTHALENE

Heterocyclic polyfluoro compounds. Part 40. Preparation of polyfluoroazepines, 2101-4

ETHOXYCARBONYLMETHYLIDENETRIPHENYLPHOSPHORANE

An investigation of the Wittig reaction between a series of monosubstituted phthalic anhydrides and ethoxycarbonylmethylidetriphenylphosphorane, 1855-63

ETHOXYCARBONYLMETHYLPYRIDINECOBALOXIME

Cobaloximes. Part 3. A cobaloxime synthesis for use with reactive alkyl halides, 1025-8

ETHYL

The preparation of thiazole-4- and -5-carboxylates, and an infrared study of their rotational isomers, 159-64

Photochemical reactions of N,N-dialkyl- α -thioamides, 247-8

Convenient syntheses of 5-substituted 2-hydroxybenzoates and related reactions, 665-9

Structures of homofarnesene and bishomofarnesene isomers from *Myrmica* ants, 949-51

The chemistry of pseudomonic acid. Part 5. Structure and chemistry of pseudomonic acid C. X-ray crystal structure of ethyl monate C

2827-33

A fragmentation approach to a maytansine synthon: lithium dimethylcuprate-opening of substituted cyclohexene epoxides. X-ray structure determination of ethyl t-2,3-epoxy-c-6-p-methoxybenzoyloxy-1-methylcyclohexane-r-1-carboxylate, 2885-96

ETHYLAMINOETHANOL

Formose reactions. Part 3. Selective formose reaction catalyzed by organic bases, 1975-9

ETHYLBILINDIONE

The meso-reactivity of porphyrins and related compounds. Part VIII. Substitution and addition reactions of octaethyl-21H,24H-bilin-1,19-dione, a model verdin system. X-ray analyses of octaethyl-5-nitro-21H,24H-bilin-1,19-dione and of 4,5-diethoxyoctaethyl-4,5-dihydro-21H,24H-bilin-1,19-dione, 1291-302

ETHYLENE

A mild and efficient degradation of ring A of steroids, 513-16

ETHYLENEBISIMINODIACETATE

Synthesis of bis(imides) and bis(half amides) of N,N'-ethylenebis(iminodiacetic acid), 2693-6

ETHYLIDENE

Ketenimine chemistry. Part 1. The reaction of triaryl ketenimines with arenesulfonyl chlorides, 1255-6

ETHYLPORPHYRINRHODIUM

Syntheses and reactions of hydridorhodium(III) octaethylporphyrin and rhodium(II) octaethylporphyrin dimer, 983-7

ETHYLTRIFLUOROACETYLSPARTYL

Decarboxylative rearrangement of an alkanoyl arylcarbonyl peroxide involving migration of a primary chiral center, 591-3

ETHYNYL

The reactions of estrogens with benzeneseleninic anhydride and hexamethyldisilazane, 1915-18

Synthesis of 17 α -ethynyl-7 α ,11 β -dihydroxyestra-1,3,5(10)-triene-3,17 β -diol, 2877-80

ETHYNYLESTRADIOL

The reactions of estrogens with benzeneseleninic anhydride and hexamethyldisilazane, 1915-18

ETHYNYLESTRATRIENETETRAOL

Synthesis of 17 α -ethynyl-7 α ,11 β -dihydroxyestra-1,3,5(10)-triene-3,17 β -diol, 2877-80

EUDESMANE

Synthetic studies on terpenoids. Part 7. Synthetic studies leading to the total synthesis of eudesmane sesquiterpenes, 2547-51

EUDESMANOLIDE

Evidence for the biogenesis of 1 α -hydroxy-trans-eudesmanolides, 881-4

EUDESMIN

Synthesis of 1,2,6-diaryl-4,8-dihydroxy-3,7-dioxabicyclo[3.3.0]octanes, 175-81

EXCHANGE

Aspects of the chemistry of dehydromethionine, 1283-90

EXPANSION

Synthetic application of azetidin-2-ones to a synthesis of furan derivatives, 257-60

Photolysis of quinolyl and isoquinolyl azides in primary and secondary aliphatic amines: synthesis of bicyclic azepines, diazepines, and quinolyl- and isoquinolylidiamines, 421-9

Synthesis of (-)-steganone, 521-5

Ylide formation and rearrangement in the thermal reaction of 6H-dibenzo[b,d]thiopyran and its 6-phenyl derivative with diazo alkanes, 917-22

Synthesis of 1,2,3,9b-tetrahydro-9b-hydroxy-1-phenylpyrrolo[2,1-a]isoindol-5-one via the hydrazinolysis of 2-phenyl-2-(2-phthalimidoethyl)indan-1,3-dione, 2783-6

EXPLOSION

Triazines and related products. Part 25. Methods for the attachment of sugar residues to cytotoxic 1,3,5-triazines, 1821-5

FATTY

Polyolefinic 18-methyl-19-oxoicosenoic acid pigments from the fungus *Piptoporus australiensis* (Wakefield) Cunningham, 1449-53

FERRIC

Studies in metal-ammonia reduction. Part 3. Reduction and reductive methylation of some acyl-naphthalenes with metal-ammonia solutions, 875-80

FISCHER

Chemistry of 6H-pyrido[4,3-b]carbazoles. Part 9. An efficient route to 3-[1-(3-ethylpyridyl)]indoles and the synthesis of some new ellipticines, 587-90

FISETINIDOLCATECHIN

Synthesis of condensed tannins. Part 5. The first angular [4,6:4,8]triflavanoids and their natural counterparts, 527-33

FISETINIDOLMOLLISACACIDIN

Synthesis of condensed tannins. Part 6. The sequence of units, coupling positions, and absolute configuration of the first linear [4,6:4,6]triflavanoid with terminal 3,4-diol function, 535-40

FLAVANOID

Studies on plant tissue cultures. Part 36. Biosynthesis of a retrochalcone, echinatin, and other flavonoids in the cultured cells of *Glycyrrhiza echinata*. A new route to a chalcone with transposed A- and B-rings, 2725-34

FLAVANOL

Polymeric proanthocyanidins. Carbon-13 NMR studies of procyanidins, 1217-21

FLAVONE

Natural products of Thailand high δ^1 -THC-strain Cannabis. The bibenzyl-spiran-dihydrophenanthrene group: relations with cannabinoids and canniflavones, 1455-66

FLINDERSIAMINE

Isolation and identification of three new phenolic furoquinoline alkaloids from *Tealea verdoorniana* Excell and Mendonca (Rutaceae), 909-15

FLUORENYLIDENEMETHANE

Electroorganic reactions. Part 20. Electrogenerated bases, ylide formation, and Wittig alkene synthesis, 2921-6

FLUORINATION

Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ϵ)-fluoro-25-hydroxyvitamin D³, 85-91

Electrophilic fluorination of some steroidal α,β -unsaturated ketones 1105-10

Heterocyclic polyfluoro-compounds. Part 39. Preparation and some nucleophilic substitution reactions of trifluoro-1,2,4-triazine,

FLUORINATION(contd)

- 1251-4
- FLUORO**
Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ξ)-fluoro-25-hydroxyvitamin D³, 85-91
Partially fluorinated heterocyclic compounds. Part 16. Preparation of furan derivatives from pentafluorophenyl and heptafluoro-2-naphthyl prop-2-ynyl ethers with aromatic compounds, and the isolation of hydrogen-abstraction products, 107-10
Alkylated steroids. Part 5. Formation of 17 β -acetylenic steroids from hindered 20-oxo compounds via Grignard derived enolates 1079-84
Electrophilic fluorination of some steroidal α,β -unsaturated ketones 1105-10
Heterocyclic polyfluoro-compounds. Part 37. Diels-Alder reactions of trichloro- and trifluoro-1,2,4-triazine, 1245-9
Heterocyclic polyfluoro-compounds. Part 39. Preparation and some nucleophilic substitution reactions of trifluoro-1,2,4-triazine, 1251-4
Fluorocarbon derivatives of nitrogen. Part 8. Reactions between heteroaromatic N-imines (N-iminopyridinium and N-iminoquinolinium ylide) and perfluoropropene, 2H-pentafluoropropene, perfluorobut-2-ene, perfluoro(2-methylpent-2-ene), perfluorobut-2-yne, and perfluoropyridine: synthesis of fluorinated 3-azaindolizines (pyrazolo[1,5-a]pyridines), 1593-600
Heterocyclic polyfluoro compounds. Part 40. Preparation of polyfluoroazepines, 2101-4
Heterocyclic polyfluoro compounds. Part 41. Photochemical isomerization of 1-substituted hexafluoro-1H-azepines: hexafluoro-2-azabicyclo[3.2.0]hepta-3,6-dienes and their reactions, 2105-9
Polyhalo allenes and acetylenes. Part 15. Dipolar cycloadditions of N-phenylsydnone and aryl azides to perfluoropropadiene and perfluoropropyne, 2207-10
Fluoro olefin chemistry. Part 15. Thermal reaction of hexafluoropropene with hydrocarbon olefins, 2219-26
- FLUOROACETAMIDOTHIAZOLE**
Tautomerism in 2-trichloro- and 2-trifluoroacetamidothiazoles, 939-43
- FLUOROACETATE**
Oxymetalation. Part 17. tert-Butyl peroxymercuration and subsequent demercuration of phenylcyclopropane, 1807-9
The biosynthesis of thiamine. Syntheses of [1,1,1,5-²d₄]-1-deoxy-D-threo-2-pentulose and incorporation of this sugar in biosynthesis of thiazole by *Escherichia coli* cells, 2131-7
- FLUOROACETYLATION**
Pyrazine chemistry. Part 13. Preparation and reactions of pyrazine N-oxides related to mycelianamide, 953-9
- FLUROALKADIENE**
Polyhalo allenes and acetylenes. Part 14. The reactions of perfluoro-1,2-dienes with dichloro- and difluorocarbene, and a new route to 1,1-dichloroperfluoro-1,2-dienes, 2203-6
- FLUROALKENE**
Fluorocarbon derivatives of nitrogen. Part 8. Reactions between heteroaromatic N-imines (N-iminopyridinium and N-iminoquinolinium ylide) and perfluoropropene, 2H-pentafluoropropene, perfluorobut-2-ene, perfluoro(2-methylpent-2-ene), perfluorobut-2-yne, and perfluoropyridine: synthesis of fluorinated 3-azaindolizines (pyrazolo[1,5-a]pyridines), 1593-600
Fluoro olefin chemistry. Part 14. Preparation and photochemical rearrangement of some acyclic perfluoroalkyl and polyfluoroalkyl olefins, 2211-17
- FLUROALKYNE**
Fluorocarbon derivatives of nitrogen. Part 8. Reactions between heteroaromatic N-imines (N-iminopyridinium and N-iminoquinolinium ylide) and perfluoropropene, 2H-pentafluoropropene, perfluorobut-2-ene, perfluoro(2-methylpent-2-ene), perfluorobut-2-yne, and perfluoropyridine: synthesis of fluorinated 3-azaindolizines (pyrazolo[1,5-a]pyridines), 1593-600
- FLUROAROM**
Partially fluorinated heterocyclic compounds. Part 16. Preparation of furan derivatives from pentafluorophenyl and heptafluoro-2-naphthyl prop-2-ynyl ethers with aromatic compounds, and the isolation of hydrogen-abstraction products, 107-10

FLUROAZABICYCLOHEPTADIENE

- Heterocyclic polyfluoro compounds. Part 41. Photochemical isomerization of 1-substituted hexafluoro-1H-azepines: hexafluoro-2-azabicyclo[3.2.0]hepta-3,6-dienes and their reactions, 2105-9
- FLUROAZEPINE**
Heterocyclic polyfluoro compounds. Part 41. Photochemical isomerization of 1-substituted hexafluoro-1H-azepines: hexafluoro-2-azabicyclo[3.2.0]hepta-3,6-dienes and their reactions, 2105-9
- FLUROBENZENE**
Heterocyclic polyfluoro compounds. Part 40. Preparation of polyfluoroazepines, 2101-4
- FLUROBUTYNE**
Fluoro olefin chemistry. Part 14. Preparation and photochemical rearrangement of some acyclic perfluoroalkyl and polyfluoroalkyl olefins, 2211-17
- FLUROCYCLOBUTANE**
Fluoro olefin chemistry. Part 15. Thermal reaction of hexafluoropropene with hydrocarbon olefins, 2219-26
- FLUROCYCLOPENTANE**
Fluoro olefin chemistry. Part 15. Thermal reaction of hexafluoropropene with hydrocarbon olefins, 2219-26
- FLUROCYCLOPROPANATION**
Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ξ)-fluoro-25-hydroxyvitamin D³, 85-91
- FLUROCYCLOPROPANE**
Polyhalo allenes and acetylenes. Part 14. The reactions of perfluoro-1,2-dienes with dichloro- and difluorocarbene, and a new route to 1,1-dichloroperfluoro-1,2-dienes, 2203-6
- FLURODIMETHYLPREGNENONE**
Alkylated steroids. Part 5. Formation of 17 β -acetylenic steroids from hindered 20-oxo compounds via Grignard derived enolates 1079-84
- FLUROHYDROXYCHOLENOCARBOXYLATE**
Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ξ)-fluoro-25-hydroxyvitamin D³, 85-91
- FLUROHYDROXYVITAMIN**
Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ξ)-fluoro-25-hydroxyvitamin D³, 85-91
- FLUROMETHANODINORCHOLESTENE**
Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ξ)-fluoro-25-hydroxyvitamin D³, 85-91
- FLUROMETHYL**
Polyhalo allenes and acetylenes. Part 15. Dipolar cycloadditions of N-phenylsydnone and aryl azides to perfluoropropadiene and perfluoropropyne, 2207-10
- FLUROMETHYLBICYCLONONADIENE**
Reactions involving fluoride ion. Part 25. A fluoride-ion-induced skeletal rearrangement, 673-6
- FLUROMETHYLHYDROXYLAMINE**
Nitroxide chemistry. Part 20. N,N-Bis(trifluoromethyl)hydroxylamine as a carbocation trapping agent, 835-9
- FLUROMETHYLSULFONYL**
Stereoselective thioglycoside syntheses. Part 4. A new approach to 1,4-linked 1-thiodisaccharides and a synthesis of thiomaltose, 15-18
- FLUROMETHYLSULFONYLGALACTOPYRANOSE**
Stereoselective thioglycoside syntheses. Part 4. A new approach to 1,4-linked 1-thiodisaccharides and a synthesis of thiomaltose, 15-18
- FLURONAPHTHYLCARBAMATE**
Heterocyclic polyfluoro compounds. Part 40. Preparation of polyfluoroazepines, 2101-4
- FLURONORCHOLESTENONE**
Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ξ)-fluoro-25-hydroxyvitamin D³, 85-91
- FLUROOXYTRIFLUOROMETHANE**
Electrophilic fluorination of some steroidal α,β -unsaturated ketones 1105-10
- FLUROPHENYLAZEPINE**
Heterocyclic polyfluoro compounds. Part 40. Preparation of polyfluoroazepines, 2101-4

- FLUOROPHENYLTRIAZATRICYCLONONADIENE**
Heterocyclic polyfluoro compounds. Part 40. Preparation of polyfluoroazepines, 2101-4
- FLUOROPROPADIENE**
Polyhalo allenes and acetylenes. Part 15. Dipolar cycloadditions of N-phenylsydnone and aryl azides to perfluoropropadiene and perfluoropropyne, 2207-10
- FLUOROPROPENE**
Fluoro olefin chemistry. Part 15. Thermal reaction of hexafluoropropene with hydrocarbon olefins, 2219-26
- FLUOROPROPYNE**
Polyhalo allenes and acetylenes. Part 15. Dipolar cycloadditions of N-phenylsydnone and aryl azides to perfluoropropadiene and perfluoropropyne, 2207-10
- FLUOROPYRIDINE**
Polyhaloaromatic compounds. Part 46. Circumstantial evidence for the intermediacy of radical anions during the reaction of magnesium with ω -bromoalkoxypolychloro-arenes and -heteroarenes, 93-9
Heterocyclic polyfluoro-compounds. Part 37. Diels-Alder reactions of trichloro- and trifluoro-1,2,4-triazine, 1245-9
Fluorocarbon derivatives of nitrogen. Part 8. Reactions between heteroaromatic N-imines (N-iminopyridinium and N-iminoquinolinium ylide) and perfluoropropene, 2H-pentafluoropropene, perfluorobut-2-ene, perfluoro(2-methylpent-2-ene), perfluorobut-2-yne, and perfluoropyridine: synthesis of fluorinated 3-azaindolizines (pyrazolo[1,5-a]pyridines), 1593-600
- FLUOROSPIROCLOHEXENEINDANONE**
Cannabis. Part 25. Synthesis of cannabispirenone-B and its 5,7-difluoro analog, 2403-5
- FLUOROTRIAZINE**
Heterocyclic polyfluoro-compounds. Part 37. Diels-Alder reactions of trichloro- and trifluoro-1,2,4-triazine, 1245-9
Heterocyclic polyfluoro-compounds. Part 39. Preparation and some nucleophilic substitution reactions of trifluoro-1,2,4-triazine, 1251-4
- FLUXIONALITY**
A study of the apicophilicity of the 2-furyl group in five-coordinate phosphoranes, 191-5
- FORMAL**
New stereoselective synthesis of 9-methyl-cis-decalin derivatives by double Michael reaction of 3-methyl-4-methylenecyclohex-2-enone and its congeners with dimethyl 3-oxoglutarate, 25-30
- FORMALDEHYDE**
Formose reactions. Part 3. Selective formose reaction catalyzed by organic bases, 1975-9
Compounds with bridgehead nitrogen. Part 43. The reaction between trans-2-aminocycloalkane thiols and formaldehyde, 2777-81
- FORMATION**
Studies of enzyme-mediated reactions. Part 14. Stereochemical course of the formation of cadaverine by decarboxylation of (2S)-lysine with lysine decarboxylase (E.C. 4.1.1.18) from *Bacillus cadaveris*, 449-53
The biosynthesis of the β -carboline alkaloids, harman and eleanine, 1523-5
Crown ethers as molecular bromine carriers for bromination reactions, 2153-6
Oxidation of alkoxyphenols. Part 26. The trimer of a 2,2'-diphenoquinone (1,1'-bicyclohexa-3,5-dienylidene-2,2'-dione), 2855-62
- FORMOSE**
Formose reactions. Part 3. Selective formose reaction catalyzed by organic bases, 1975-9
- FORMYL**
Synthesis of (R,S)-(5Z,8E,10E)-12-hydroxyheptadeca-5,8,10-trienoic acid and of (R,S)- and (S)-(5Z,8Z,10E,14Z)-12-hydroxyeicosa-5,8,10,14-tetraenoic acid and their racemic 5,6,8,9-tetra deuterioisomers, 545-52
- FORMYLAPAMIN**
Selective formylation of α - or ϵ -amino groups of peptides, 2625-9
- FORMYLATION**
Polyformylation of copper(II) complexes of octaalkylporphyrins, 581-5
Convenient syntheses of 5-substituted 2-hydroxybenzoates and related reactions, 665-9
A new synthesis of kigelin. Conversion of elemicin into kigelin, 2099-100
- Selective formylation of α - or ϵ -amino groups of peptides, 2625-9
- FORMYLAZEPINE**
Silver(I)-catalyzed oxidation of cyclic secondary amines with peroxodisulfate, 3031-5
- FORMYLAZOCINE**
Silver(I)-catalyzed oxidation of cyclic secondary amines with peroxodisulfate, 3031-5
- FORMYLBENZIMIDAZOLE**
Practicable syntheses of 2-hydroxymethyl-substituted benzimidazoles and 2-formylbenzimidazole, 2871-5
- FORMYLNONADIENOATE**
Synthesis of (R,S)-(5Z,8E,10E)-12-hydroxyheptadeca-5,8,10-trienoic acid and of (R,S)- and (S)-(5Z,8Z,10E,14Z)-12-hydroxyeicosa-5,8,10,14-tetraenoic acid and their racemic 5,6,8,9-tetra deuterioisomers, 545-52
- FORMYLNORCHOLESTADIENE**
Base-catalyzed fragmentation of 5,6 β -epoxy-3 β -hydroxy-5 β -cholestan-19-al, 799-803
- FORMYLOXYBUTANE**
Convenient syntheses of 5-substituted 2-hydroxybenzoates and related reactions, 665-9
- FORMYLOXYHYDROXYNORCHOLESTENE**
Base-catalyzed fragmentation of 5,6 β -epoxy-3 β -hydroxy-5 β -cholestan-19-al, 799-803
- FORSKOLIN**
Reactions of forskolin, a biologically active diterpenoid from *Coleus forskohlii*, 767-71
- FRAGMENT**
Studies related to maytansinoids, 1541-51
- FRIEDEL**
Synthesis of adamantane derivatives. Part 53. Simple synthesis of 7-thiaprotoadamantane (7-thiatricyclo[4.3.1.0^{3,8}]decane) and related derivatives via a regioselective and stereoselective intramolecular Friedel-Crafts reaction, 1953-8
- FRIEDELANONE**
Chemical investigation of Ceylonese plants. Part 45. 28,29-Dihydroxyfriedelan-3-one, a friedelane with two oxygenated methyl groups, from *Elaeodendron balae* (Celastraceae), 2457-9
- FRIES**
Addition reactions of benzo[b]thiophene. Part 4. Reactions of some acetoxy- and hydroxybenzo[b]thiophenes with benzene or toluene, 815-21
- FRUCTOSE**
Formose reactions. Part 3. Selective formose reaction catalyzed by organic bases, 1975-9
- FUJENAL**
The acyloin condensation of the diterpenoid fujenal, 611-14
- FURAN**
Synthetic application of azetidin-2-ones to a synthesis of furan derivatives, 257-60
Stereoselective olefin cyclization mediated by the selenyl group; direct formation of a selenyl caparrapi oxide, 1085-7
Photosensitized oxidation of furans. Part 4. Influence of the substituents on the behavior of the endo-peroxides of furans, 2007-12
Heterocyclic polyfluoro compounds. Part 41. Photochemical isomerization of 1-substituted hexafluoro-1H-azepines: hexafluoro-2-azabicyclo[3.2.0]hepta-3,6-dienes and their reactions, 2105-9
Polyhalo allenes and acetylenes. Part 14. The reactions of perfluoro-1,2-dienes with dichloro- and difluorocarbene, and a new route to 1,1-dichloroperfluoro-1,2-dienes, 2203-6
- FURANONE**
Metabolites of the higher fungi. Part 19. Serpenone, 3-methoxy-4-methyl-5-prop-1-enylfuran-2(5H)-one, a new γ -butyrolactone from the fungus *Hypoxylon serpens* (Barrons strain) (Persoon ex Fries) Kickx, 215-21
Synthetic application of azetidin-2-ones to a synthesis of furan derivatives, 257-60
- FURANOSYL**
Studies on anhydroosazones. Part 5. Structure and anomeric configuration of the C-nucleoside analogs obtained from the dehydration of D-glucosyl- and D-mannosyl-2-uronic acid derivatives, 557-62
- FUROPYRIDINE**
Polyhaloaromatic compounds. Part 46. Circumstantial evidence for the intermediacy of radical anions during the reaction of magnesium with ω -bromoalkoxypolychloro-arenes and -heteroarenes, 93-9

- FUROQUINOLINE**
Isolation and identification of three new phenolic furoquinoline alkaloids from *Teclea verdoorniana* Excell and Mendonca (Rutaceae), 909–15
- FURYL**
A study of the apicophilicity of the 2-furyl group in five-coordinate phosphoranes, 191–5
Regioselective β -metalations of 2-substituted furan and N-methylpyrrole derivatives employing the directing effect of the oxazolino group: syntheses of 2,3-disubstituted furans and N-methylpyrroles, 1343–7
- FURYLACRYLATE**
Total syntheses of wyerone and dihydrowyerone, phytoalexins from the broad bean, *Vicia faba* L., using the dianion derived from 3-(2-furyl)acrylic acid, 623–6
- FURYLHYDROXYLAMINE**
Unusual Michael reaction of acyclic 1,3-dicarbonyl compounds with nitroolefins. A novel pyrrole synthesis, 441–7
- FURYLMETHYL TETRAOXAPHOSPHASPIROUNDECANE**
A study of the apicophilicity of the 2-furyl group in five-coordinate phosphoranes, 191–5
- FURYLÓXAZOLINE**
Regioselective β -metalations of 2-substituted furan and N-methylpyrrole derivatives employing the directing effect of the oxazolino group: syntheses of 2,3-disubstituted furans and N-methylpyrroles, 1343–7
- FURYLPHOSPHORANE**
A study of the apicophilicity of the 2-furyl group in five-coordinate phosphoranes, 191–5
- GALACTOPYRANOSIDE**
Novel reagent system for converting a hydroxy group into an iodo group in carbohydrates with inversion of configuration. Part 3, 681–3
A regioselective reductive ring opening of 4,6-O-prop-2-enylidene acetals of hexopyranosides, 2395–7
- GALACTOPYRANOSYL**
Synthesis of a nonasaccharide containing terminal N-acetyl- β -D-lactosaminyl residues, part of the 'complex-type' carbohydrate moiety of glycoproteins, 1841–4
- GALACTOPYRANOSYLGALUCOPYRANOSYL**
Synthesis of a nonasaccharide containing terminal N-acetyl- β -D-lactosaminyl residues, part of the 'complex-type' carbohydrate moiety of glycoproteins, 1841–4
- GALACTOSE**
Stereoselective thioglycoside syntheses. Part 4. A new approach to 1,4-linked 1-thiodisaccharides and a synthesis of thiomaltose, 15–18
- GALLATE**
The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 1. Introduction. Naturally occurring galloyl esters, 2515–24
The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 2. Esters of (S)-hexahydroxydiphenic acid with D-glucopyranose (4C_1), 2525–34
The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 3. Esters of (R) and (S)-hexahydroxydiphenic acid and dehydrohexahydroxydiphenic acid with D-glucopyranose (1C_4 and related conformations), 2535–45
- GALLICIN**
Evidence for the biogenesis of 1 α -hydroxy-trans-eudesmanolides, 881–4
- GALLOTANNIN**
The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 1. Introduction. Naturally occurring galloyl esters, 2515–24
Tannins and related compounds. Part 5. Isolation and characterization of polygalloylglucoses from Chinese gallotannin, 2963–8
- GALLOYL**
The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 1. Introduction. Naturally occurring galloyl esters, 2515–24
The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 2. Esters of (S)-hexahydroxydiphenic acid with D-glucopyranose (4C_1), 2525–34
The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 3. Esters of (R) and (S)-hexahydroxydiphenic acid and dehydrohexahydroxydiphenic acid with D-glucopyranose (1C_4 and related conformations), 2535–45
- GALLOYLGLUCOSE**
Tannins and related compounds. Part 5. Isolation and characterization of polygalloylglucoses from Chinese gallotannin, 2963–8
- GAMBIRTANNINE**
Synthesis of gambirtannine derivatives by photocyclization of enamine intermediates, 59–62
- GARDMULTINE**
X-ray structure determination of gardmultine. A bis-indole alkaloid isolated from *Gardneria multiflora* Makino, 1263–7
- GARDNERIA**
Gardneria alkaloids. Part 13. Structure of gardmultine and demethoxygardmultine; bis-type indole alkaloids of *Gardneria multiflora* Makino, 1257–62
- GENERATION**
Quinones. Part 2. General synthetic routes to quinone derivatives with modified polyprenyl side chains and the inhibitory effects of these quinones on the generation of the slow reacting substance of anaphylaxis (SRS-A), 2909–20
- GERANIIN**
Constituents of *Geranium thunbergii* Sieb. et Zucc. Part 12. Hydrated stereostructure and equilibration of geraniin, 9–14
- GIBBATETRAENONE**
Synthetic studies directed towards complex diterpenoids. Part 15. Synthesis and stereochemistry of the catalytic reduction of $\Delta^{4b(5)}$ -gibbenes and related compounds, 865–73
- GIBBATRIENONE**
Synthetic studies directed towards complex diterpenoids. Part 15. Synthesis and stereochemistry of the catalytic reduction of $\Delta^{4b(5)}$ -gibbenes and related compounds, 865–73
- GIBBENE**
Synthetic studies directed towards complex diterpenoids. Part 15. Synthesis and stereochemistry of the catalytic reduction of $\Delta^{4b(5)}$ -gibbenes and related compounds, 865–73
- GIBBERELLATE**
Reactions of 2-chloro-N,N-diethyl-1,1,2-trifluoroethylamine with alcohols. Part 4. In the presence of lithium bromide and dimethyl sulfide: preparation of bromo- and methylsulfinylgibberellins, 2571–4
- GIBBERELLIN**
Gibberellins A_{60} , A_{61} , and A_{62} : partial syntheses and natural occurrence, 689–97
Partial synthesis of [17- ^{13}C ; 15,17- 3H]gibberellin A_{29} from gibberellin A_3 , 699–706
1 β -Hydroxygibberellin A_5 . Preparation and comparison with gibberellin A_3 , 707–11
Reactions of 2-chloro-N,N-diethyl-1,1,2-trifluoroethylamine with alcohols. Part 4. In the presence of lithium bromide and dimethyl sulfide: preparation of bromo- and methylsulfinylgibberellins, 2571–4
- GINGEROL**
Asymmetric synthesis of a β -ketol moiety via 3,5-disubstituted isoxazoles: application to (+)-(S)-[6]-gingerol, 2983–7
- GLUCITOL**
A stereospecific synthesis of (+)-muscarine, 809–13
- GLUCOFURANOSE**
Triazines and related products. Part 25. Methods for the attachment of sugar residues to cytotoxic 1,3,5-triazines, 1821–5
- GLUCOPYRANOSE**
The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 2. Esters of (S)-hexahydroxydiphenic acid with D-glucopyranose (4C_1), 2525–34
The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 3. Esters of (R) and (S)-hexahydroxydiphenic acid and dehydrohexahydroxydiphenic acid with D-glucopyranose (1C_4 and related conformations), 2535–45
- GLUCOPYRANOSIDE**
Novel reagent system for converting a hydroxy group into an iodo group in carbohydrates with inversion of configuration. Part 3, 681–3
Phosphorylated sugars. Part 23. Synthesis and reactions of phosphodiester containing 2-aminoethanol and a polyfunctional alcohol and their behavior during acid- and base-catalyzed hydrolysis, 1733–43
Triazines and related products. Part 25. Methods for the attachment of sugar residues to cytotoxic 1,3,5-triazines, 1821–5
A regioselective reductive ring opening of 4,6-O-prop-2-enylidene acetals of hexopyranosides, 2395–7
- GLUCOPYRANOSYL**
Synthesis of a nonasaccharide containing terminal N-acetyl- β -D-

- GLUCOPYRANOSYL**(contd)
lactosaminyl residues, part of the 'complex-type' carbohydrate moiety of glycoproteins, 1841-4
- GLUCOPYRANOSYLAMINE**
Oxidation of aldose oximes. Formation and structure of hydroxydiazene oxidase acetals and preparation of hydroximolactones. X-ray crystal structure of 2,3:5,6-di-O-isopropylidene- α -D-mannofuranosyl-O,N,N-azoxy 2,3:5,6-di-O-isopropylidene- α -D-mannofuranoside, 2139-47
- GLUCOPYRANOSYLAZOXYGLUCOPYRANOSIDE**
Oxidation of aldose oximes. Formation and structure of hydroxydiazene oxidase acetals and preparation of hydroximolactones. X-ray crystal structure of 2,3:5,6-di-O-isopropylidene- α -D-mannofuranosyl-O,N,N-azoxy 2,3:5,6-di-O-isopropylidene- α -D-mannofuranoside, 2139-47
- GLUCOPYRANOSYLHEXOPYRANOSE**
Synthesis and behavior under acidic conditions of 2-deoxy-D-arabinohexopyranose and 3-deoxy-2-ketoaldonic acids bearing O-phosphono or O-glucosyl substituents at position β to the carbonyl function, 1275-82
- GLUCOSAMINE**
Triazines and related products. Part 25. Methods for the attachment of sugar residues to cytotoxic 1,3,5-triazines, 1821-5
- GLUCOSE**
Synthesis and behavior under acidic conditions of 2-deoxy-D-arabinohexopyranose and 3-deoxy-2-ketoaldonic acids bearing O-phosphono or O-glucosyl substituents at position β to the carbonyl function, 1275-82
Triazines and related products. Part 25. Methods for the attachment of sugar residues to cytotoxic 1,3,5-triazines, 1821-5
The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 1. Introduction. Naturally occurring galloyl esters, 2515-24
The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 2. Esters of (S)-hexahydroxydiphenic acid with D-glucopyranose (4C_1), 2525-34
The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 3. Esters of (R) and (S)-hexahydroxydiphenic acid and dehydrohexahydroxydiphenic acid with D-glucopyranose (1C_4 and related conformations), 2535-45
- GLUCOSIDE**
Triazines and related products. Part 25. Methods for the attachment of sugar residues to cytotoxic 1,3,5-triazines, 1821-5
- GLUTAMATE**
Studies of enzyme-mediated reactions. Part 15. Stereochemical course of the formation of γ -aminobutyric acid (GABA) by decarboxylation of (2S)-glutamic acid with glutamate decarboxylase from *Escherichia coli*, 455-9
A chemical model for the thymidylate synthetase catalyzed methylation of deoxyuridine monophosphate, 1363-9
- GLUTARIC**
Pyrrolizidine alkaloid analogs. Synthesis of eleven-membered macrocyclic diesters of retronecine, 1117-21
- GLUTARYL**
Pyrrolizidine alkaloid analogs. Synthesis of eleven-membered macrocyclic diesters of retronecine, 1117-21
- GLYCEROL**
Formose reactions. Part 3. Selective formose reaction catalyzed by organic bases, 1975-9
- GLYCOL**
Polymer-supported periodate and iodate as oxidizing agents, 509-11
- GLUCOPYRANOSIDE**
Novel reagent system for converting a hydroxy group into an iodo group in carbohydrates with inversion of configuration. Part 3, 681-3
- GLUCOPYRANOSYLBENZOFURAN**
Neoraufuracin and ambofuracin. Two novel 2-benzyl-2-O-(methyl- β -D-glucopyranos-2-yl)-trans-2,3-dihydrobenzofurans. Synthesis of the methylated aglycone, 1157-62
- GLYCOSIDATION**
Anthracyclines. Part 3. The total synthesis of 4-demethoxydaunomycin, 2249-55
- GLYCOSIDE**
Synthesis of ribosyl and arabinosyl cyanides by reaction of 1-O-acyl sugars with trimethylsilyl cyanide, 903-7
The structure of four novel C_{31} -secodammarane-type triterpenoid saponins from the female flowers of *Alnus serrulata*oides, 1399-403
- Determination of the anomeric configuration in glycosides of 3-deoxy-2-aldulosonic acids by circular dichroism and x-ray crystallography, 3055-63
- GLYCYLPHENYLALANYLLEUCINE**
On the double bond isostere of the peptide bond: preparation of an enkephalin analog, 307-14
- GLYCYRRHIZA**
Studies on plant tissue cultures. Part 36. Biosynthesis of a retrochalcone, echinatin, and other flavonoids in the cultured cells of *Glycyrrhiza echinata*. A new route to a chalcone with transposed A- and B-rings, 2725-34
- GLYOXAL**
Carbon-13 nuclear magnetic resonance spectra of quinoxaline derivatives, 357-63
- GONATETRAENONE**
C-Aromatic steroids. Synthesis of 11,17 ξ -dimethoxy-18-norandrost-4,8,11,13-tetraen-3-one, 201-4
- GREENWAYODENDRINE**
Chemical studies on the annonaceae. Part 9. Indolosesquiterpene and aporphine alkaloids from Greenwayodendron (*Polyalthia suaveolens* stem bark. X-ray crystal structure of greenwayodendrin-3-one, 2807-12
- GREENWAYODENDRINONE**
Chemical studies on the annonaceae. Part 9. Indolosesquiterpene and aporphine alkaloids from Greenwayodendron (*Polyalthia suaveolens* stem bark. X-ray crystal structure of greenwayodendrin-3-one, 2807-12
- GREENWAYODENDRON**
Chemical studies on the annonaceae. Part 9. Indolosesquiterpene and aporphine alkaloids from Greenwayodendron (*Polyalthia suaveolens* stem bark. X-ray crystal structure of greenwayodendrin-3-one, 2807-12
- GRIGNARD**
Asymmetric synthesis with carbohydrates. Part 2. Asymmetric Grignard addition reactions conditioned by chiral magnesium alkoxides, 197-200
Asymmetric induction in the reduction of optically active N-alkylidenesulfonamides by metal hydrides. A new, efficient enantioselective route to chiral amines, 339-43
On the stereochemistry of Grignard addition to bicyclo[3.3.1]nonan-2-one. Preferential axial attack on a cyclohexanone system by a bulky nucleophile, 979-82
Alkylated steroids. Part 5. Formation of 17 β -acetylenic steroids from hindered 20-oxo compounds via Grignard derived enolates 1079-84
Synthesis of 25 ξ ,26-dihydroxyvitamin D₂, 2111-16
- GRISADIENEDIONE**
Depsidone synthesis. Part 21. A new synthesis of grisa-2',5'-diene-3,4'-diones, 403-11
- GUAIANOLIDE**
Structures of the artabsinoides; photo-oxygenation studies on artabsin, 861-4
- GUANIDINE**
Synthesis and properties of a series of sterically hindered guanidine bases, 2085-90
- HALIDE**
Electrochemical reactions. Part 24. Reductive cyclization of i-(2-halophenyl)-j-phenyl compounds: a general reaction, 229-34
Syntheses and reactions of hydridorhodium(III) octaethylporphyrin and rhodium(II) octaethylporphyrin dimer, 983-7
- HALO**
Halogenated enolates. Synthesis of 2-deoxypentose derivatives from D-glyceraldehyde, 2063-6
Polyhalo allenes and acetylenes. Part 14. The reactions of perfluoro-1,2-dienes with dichloro- and difluorocarbene, and a new route to 1,1-dichloroperfluoro-1,2-dienes, 2203-6
- HALOACETAMINO**
Tautomerism in 2-trichloro- and 2-trifluoroacetamidothiazoles, 939-43
- HALOACETATE**
Halogenated enolates. Synthesis of 2-deoxypentose derivatives from D-glyceraldehyde, 2063-6
- HALOACYLTHIOISOTHIAZOLINETHIONE**
Studies of heterocyclic chemistry. Part 25. Intramolecular cyclizations of N-acylarylethanethioamides leading to thiazoles, 4H-1,3-thiazines, 4H-pyrido[3,2-e]-1,3-thiazines, and 4H-1,3-benzothiazines, 1239-44
- HALOALKANE**
N-Bridged heterocycles. Part 5. α,ω -Bis(2-oxobenzimidazolyl)al-

- HALOALKANE**(contd)
kanes and -ethers as selective ligands for Group IA and IIA metals, 261-70
Synthetic and mechanistic aspects of gas-liquid phase-transfer catalysis: carboxylate esters, 993-7
Cobaloximes. Part 3. A cobaloxime synthesis for use with reactive alkyl halides, 1025-8
Gas-liquid phase-transfer synthesis of phenyl ethers and sulfides with carbonate as base and carbowax as catalyst, 1137-41
- HALOALKANOATE**
Sulfur extrusion reactions. Part 5. Reactions of monoprotonic thioureas with ethyl α -chloroacetate, ethyl bromomalonate, and ethyl bromocynoacetate, 653-6
- HALOALKYL**
Esters of α -arylalkanoic acids from 'masked' α -haloalkyl aryl ketones and silver salts: synthetic, kinetic, and mechanistic aspects, 2575-81
1,3-Acyl migration in carbonic acid derivatives. Synthesis of S-polyhaloalkyl N-acyl-N-aryl(alkyl)thiocarbamates, 2813-17
- HALOALKYLANILIDE**
Base-promoted reactions of α -haloalkylanilides, 2969-72
- HALOAZOBENZENE**
Phosphonation of aryl halides by copper(I) complexes of trialkyl phosphites, 1143-8
- HALOBENZALDEHYDE**
Photochemistry of halogenated benzene derivatives. Part 2. Photoreactions of α -substituted p-chlorotoluenes, 2957-61
- HALOBENZOYL DITHIOLYLIDENEETHANETHIOAMIDE**
Studies of heterocyclic chemistry. Part 25. Intramolecular cyclizations of N-acylarylethanethioamides leading to thiazoles, 4H-1,3-thiazines, 4H-pyrido[3,2-e]-1,3-thiazines, and 4H-1,3-benzothiazines, 1239-44
- HALOCARBENE**
Polyhalo allenes and acetylenes. Part 14. The reactions of perfluoro-1,2-dienes with dichloro- and difluorocarbene, and a new route to 1,1-dichloroperfluoro-1,2-dienes, 2203-6
- HALOETHER**
N-Bridged heterocycles. Part 5. α,ω -Bis(2-oxobenzimidazolyl)alkanones and -ethers as selective ligands for Group IA and IIA metals, 261-70
- HALOGENATION**
Further studies on the protection of histidine side chains in peptide synthesis: the use of the π -benzyloxymethyl group, 1553-61
- HALOMETHANE**
Alkylated steroids. Part 5. Formation of 17 β -acetylenic steroids from hindered 20-oxo compounds via Grignard derived enolates 1079-84
- HALOMETHYLENE**
Polyhalo allenes and acetylenes. Part 14. The reactions of perfluoro-1,2-dienes with dichloro- and difluorocarbene, and a new route to 1,1-dichloroperfluoro-1,2-dienes, 2203-6
- HALOTOLYLSULFONYL**
Conversion of toluenesulfonyl hydrazones of α -halo aldehydes and ketones into the corresponding phenylthio and phenylseleno derivatives, 2719-24
- HALOTRIAZINE**
Heterocyclic polyfluoro-compounds. Part 37. Diels-Alder reactions of trichloro- and trifluoro-1,2,4-triazine, 1245-9
- HARMALINE**
Synthesis of gambirtannine derivatives by photocyclization of enamine intermediates, 59-62
- HARMAN**
The biosynthesis of the β -carboline alkaloids, harman and eleanine, 1523-5
- HAZARD**
Triazines and related products. Part 25. Methods for the attachment of sugar residues to cytotoxic 1,3,5-triazines, 1821-5
- HEDERAGENIN**
Synthesis and properties of a series of sterically hindered guanidine bases, 2085-90
- HEMOPROTEIN**
Synthetic approaches to versatile hemoprotein model compounds built from porphyrins and peptides, 1441-8
- HENEICOSA OCTENEDIYNONE**
Syntheses and properties of a trimethyltetrahydro[21]annulenone and its benzannulated derivatives, 43-50
- HEPTADECATRIENOATE**
Synthesis of (R,S)-(5Z,8E,10E)-12-hydroxyheptadeca-5,8,10-trienoic acid and of (R,S)- and (S)-(5Z,8Z,10E,14Z)-12-hydroxyeicosa-5,8,10,14-tetraenoic acid and their racemic 5,6,8,9-tetra deuterioisomers, 545-52
- HEPTADIENE**
Addition reactions of aminium radicals: oxidative and nonoxidative photoaddition of nitrosoamines to nonconjugated polyenes, 1419-28
Stereochemistry of olefin and fatty acid oxidation. Part 1. Autoxidation of hexene and hepta-2,5-diene isomers, 2707-13
Stereochemistry of olefin and fatty acid oxidation. Part 2. Photosensitized oxidation of hexene and hepta-2,5-diene isomers 2715-17
- HEPTAMETHYL**
Biosynthesis of vitamin B₁₂. Analysis of the proton and carbon-13 NMR spectra of heptamethyl dicyanocobyrinate (cobester), 2265-77
The x-ray structure analysis of anhydrous heptamethyl dicyanocobyrinate (cobester), 2279-88
- HEPTULOSE**
Studies on anhydroosazones. Part 5. Structure and anomeric configuration of the C-nucleoside analogs obtained from the dehydration of D-gluco- and D-manno hept-2-ulose phenylosazones, 557-62
- HEPTYNYL**
Synthesis of (R,S)-(5Z,8E,10E)-12-hydroxyheptadeca-5,8,10-trienoic acid and of (R,S)- and (S)-(5Z,8Z,10E,14Z)-12-hydroxyeicosa-5,8,10,14-tetraenoic acid and their racemic 5,6,8,9-tetra deuterioisomers, 545-52
- HEPTYNYLLITHIUM**
Synthesis of (R,S)-(5Z,8E,10E)-12-hydroxyheptadeca-5,8,10-trienoic acid and of (R,S)- and (S)-(5Z,8Z,10E,14Z)-12-hydroxyeicosa-5,8,10,14-tetraenoic acid and their racemic 5,6,8,9-tetra deuterioisomers, 545-52
- HETEROAROM**
Oxidation of benzylic hydrocarbons with benzeneseleninic anhydride and related reactions, 2179-85
- HETEROARYL**
Oxidation of benzylic hydrocarbons with benzeneseleninic anhydride and related reactions, 2179-85
- HETEROCYCLE**
Photooxidation of oxazolidones and hydantoins in the presence of benzophenone, 2341-5
Spirans. Part 15. The effect of ring size upon the regioselective oxidative coupling of heterocyclic phenols, 2617-24
Silver(I)-catalyzed oxidation of cyclic secondary amines with peroxodisulfate, 3031-5
- HETEROCYCLIC**
Formation of N-substituted trichloroacetamides from amines and hexachloroacetone, 945-8
- HEXABENZOTRIPHENYLENE**
Benzocyclobutenes. Part 7. Synthesis and x-ray crystal structure of cyclobuta[1]phenanthrene-1,2-dione and the synthesis of hexabenzof[a,c,g,i,m,o]triphenylene, 19-23
- HEXACHLOROACETONE**
Formation of N-substituted trichloroacetamides from amines and hexachloroacetone, 945-8
- HEXADIENAL**
Synthesis and characterization of representative octa-1,3,5,7-tetraenes and deca-1,3,5,7,9-pentaenes, 2379-85
- HEXADIENYNE**
The pyrolysis of 4-alkylidene-3,3,5,5-tetramethyl-1-pyrazolines, 2655-62
- HEXAFLUORO**
Heterocyclic polyfluoro compounds. Part 41. Photochemical isomerization of 1-substituted hexafluoro-1H-azepines: hexafluoro-2-azabicyclo[3.2.0]hepta-3,6-dienes and their reactions, 2105-9
- HEXENE**
Stereochemistry of olefin and fatty acid oxidation. Part 1. Autoxidation of hexene and hepta-2,5-diene isomers, 2707-13
Stereochemistry of olefin and fatty acid oxidation. Part 2. Photosensitized oxidation of hexene and hepta-2,5-diene isomers 2715-17
- HEXENOATE**
On the double bond isostere of the peptide bond: preparation of an enkephalin analog, 307-14
- HEXENOPYRANOSIDE**
Arylazoglycosides. Part 7. Syntheses of amino sugars from methyl arylazohexenopyranosides, 205-14

HEXENYNE-DIOATE

Products from dimethyl hex-2-en-1-yne-1,6-dioate and dimethyl penta-2,3-diene-1,5-dioate with compounds possessing two adjacent nucleophilic centers, 1905-14

HEXENYNYLMETHYLTHIOPHENE

Approaches to bridged thia[17]annulenes, 483-7

HEXONOLACTONE

Structure and conformation of N-benzoyl derivatives of the biologically important 3-amino-2,3,6-trideoxy-L-hexoses and their synthetic precursor γ - and δ -lactones; a proton and carbon-13 nuclear magnetic resonance study, 885-91

HEXOPYRANOSIDE

A regioselective reductive ring opening of 4,6-O-prop-2-enylidene acetals of hexopyranosides, 2395-7

HEXOPYRANOSYLTHEOPHYLLINE

New oxidative systems for alcohols: molecular sieves with chromium(VI) reagents, 1967-73

HEXOSE

Structure and conformation of N-benzoyl derivatives of the biologically important 3-amino-2,3,6-trideoxy-L-hexoses and their synthetic precursor γ - and δ -lactones; a proton and carbon-13 nuclear magnetic resonance study, 885-91

HEXULOPYRANOSIDONATE

Synthesis and behavior under acidic conditions of 2-deoxy-D-arabinohexopyranose and 3-deoxy-2-ketoaldonic acids bearing O-phosphono or O-glucosyl substituents at position β to the carbonyl function, 1275-82

HEXYLHYDROXYMETHYLMETHYLTHIETANE

Cyclization of $\gamma\delta$ -unsaturated sulfenic acids to give thietane 1-oxide derivatives. Crystal structure of rel-(1R,2S,3R,4R)-3-hexyl-2-(hydroxymethyl)-4-methylthietane 1-oxide, 1325-32

HINDERED

Synthesis and properties of a series of sterically hindered guanidine bases, 2085-90

HISTIDINE

Further studies on the protection of histidine side chains in peptide synthesis: the use of the π -benzyloxymethyl group, 1553-61
The crystal structure of N(α)-tert-butoxycarbonyl-N(π)-benzyloxymethyl-L-histidine, 3045-8

HOFMANN

Synthesis and characterization of representative octa-1,3,5,7-tetraenes and deca-1,3,5,7,9-pentaenes, 2379-85

HOMO

Synthetic approaches to 11-deoxyhomoprostacyclin analogs, 1923-32

HOMOAROM

Organoiron complexes in organic synthesis. Part 23. New strategies for steroid and aphidicolane synthesis, 2631-9

HOMOFARNESENE

Structures of homofarnesene and bishomofarnesene isomers from *Myrmica* ants, 949-51

HOMOLOGATION

Carbene insertion into [2.2]metacyclophane-1,10-dione: a convenient route to [3.2]- and [3.3]-metacyclophanes, 477-81

HOMOLYTIC

Homolytic displacements at carbon. Part 8. Synthesis of 1-cyano-2-(trichloroethyl)cyclopropanes from allylcobaloximes via but-3-enylcobaloximes and 1-bromo-1-cyanobut-3-enes, 645-51

HOMOPHTHALATE

Synthesis of chlorinated isocoumarin derivatives, 1111-15

HOP

Chemistry of hop constituents. Part 43. Cyclic polysulfides and a thiophene from myrcene, and their occurrence in the essential oil of hops, 1089-94

HORMONE

Analogues of antijuvenile hormones, 2013-18

HOVENIA

Novel dammarane triterpenoid glycosides from the leaves of *Hovenia dulcis*. X-ray crystal structure of hovenolactone monohydrate, 2795-9

HOVENOLACTONE

Novel dammarane triterpenoid glycosides from the leaves of *Hovenia dulcis*. X-ray crystal structure of hovenolactone monohydrate, 2795-9

HUMULENE

The action of nitrogen dioxide and nitric oxide on humulene, C₁₅H₂₄. X-ray crystallographic determination of the stereochemistry and conformations of humulene nitrosite, dinitrohumulene, and nitronitratohumulene, 1385-8

HUMULONE

New rearrangement and oxidation products from humulone, 375-83

HYDANTOIN

Photooxidation of oxazolidones and hydantoins in the presence of benzophenone, 2341-5

Selectivity in the trimethylsilylation and acylation of peptide bonds, and its application to modification of the enkephalins, 2939-47

HYDRATE

Constituents of *Geranium thunbergii* Sieb. et Zucc. Part 12.

Hydrated stereostructure and equilibration of geraniin, 9-14

HYDRAZINE

Pyrimidine derivatives and related compounds. Part 41. Reactions of 1,3,6-trimethyl-5-nitrouacil and its 6-bromomethyl analog with amines and hydrazines. Synthesis of pyrazolo[4,3-d]pyrimidine N-oxides and their ring expansion to pyrimido[5,4-d]pyrimidines, 277-84

Pyrimidine derivatives and related compounds. Part 42. Isolation of the intermediates in the ring transformation of 1,3-oxazine-2,4-diones into pyrimidines and pyrazoles, and their structure determination by nitrogen-15 nuclear magnetic resonance analysis, 473-5

A mild and efficient degradation of ring A of steroids, 513-16

Reactions of mercury(II) acetate with nitrogen compounds. Part 9.

Oxidations of the bis(4-nitrophenylhydrazones) of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553-5

Thermal reaction of N-(1-azido-2-oxoalkylidene)-N'-(*o*-alkenyloxyphenyl)hydrazines; intramolecular 1,4-cycloaddition of 1,2,4-triaza-1,3-diene intermediates, 755-8

Reactions with heterocyclic diazonium salts: novel synthesis of pyrazolo[4,3-c]pyridazines and of pyrazolo[4,3-c]pyrazoles, 989-91

Synthesis of heterocycles using a new immonium salt derived from N,N-dimethylthiourea, 1059-62

Triazines and related products. Part 24. Synthesis of pyrazol-4-ylidenehydrazinoimidazoles by hydrazinolysis of imidazo[5,1-c][1,2,4]triazines and 2-arylazimidazoles by diazonium coupling reactions, 1811-19

HYDRAZINECARBOXAMIDE

Kinetics and mechanism of the reaction of thionyl chloride with substituted acetophenone semicarbazones. The synthesis of 1,2,3-thiadiazoles, 1223-7

HYDRAZINOLYSIS

Synthesis of 1,2,3,9b-tetrahydro-9b-hydroxy-1-phenylpyrrolo[2,1-a]isoindol-5-one via the hydrazinolysis of 2-phenyl-2-(2-phthalimidoethyl)indan-1,3-dione, 2783-6

HYDRAZONE

Arylazoglycosides. Part 7. Syntheses of amino sugars from methyl arylazohexenopyranosides, 205-14

The reaction of Meldrum's acid with α -dicarbonyl monohydrazones: a new synthesis of pyridazin-3-ones, 1845-53

Conversion of toluenesulfonyl hydrazones of α -halo aldehydes and ketones into the corresponding phenylthio and phenylseleno derivatives, 2719-24

HYDRIDE

Base-promoted reactions of α -haloalkylanilides, 2969-72

HYDRIDORHODIUM

Syntheses and reactions of hydridorhodium(III) octaethylporphyrin and rhodium(II) octaethylporphyrin dimer, 983-7

HYDROBORATION

Reaction of 1-substituted indenones with diborane or N-bromoacetamide in protic solvents. The effect of the substituent on the stereochemistry of addition, 79-83

HYDROCARBON

Oxidation of benzylic hydrocarbons with benzeneseleninic anhydride and related reactions, 2179-85

HYDRÓCARBYLIMINOCHLOROMETHYL

1,3-Acyl migration in carbonic acid derivatives. Synthesis of S-polyhaloalkyl N-acyl-N-aryl(alkyl)thiocarbamates, 2813-17

HYDROGEN

Photochemical reactions of N,N-dialkyl- α -thioxoamides, 247-8

Reaction of some 1,4-benzoquinone monooximes with methanolic hydrogen chloride, 1095-8

Alkyl nitrenes from N-alkylbenzoquinone imine N-oxides, 2027-34

HYDROGENATION

Catalytic hydrogenation of 3,4-epoxybut-1-ene with cationic rhodium complexes, 855-9

Synthetic studies directed towards complex diterpenoids. Part 15. Synthesis and stereochemistry of the catalytic reduction of $\Delta^{4b(5)}$ -

HYDROGENATION(contd)

- gibbenes and related compounds, 865-73
 Synthesis of novel β -lactamase inhibitors from clavulanic acid.
 Preparation and chemical reactions of (5R)-3-vinyl-4-oxa-1-azabicyclo[3.2.0]hept-2-en-7-one, 1509-17
 Selectivity of hydrogenations. Part 3. N-methylquinolinium, N-methylisoquinolinium, and 4-(3-phenylpropyl)pyridinium salts, 2607-10
 Tetrahydroisoxazolo[2,3-d][1,4]benzodiazepinone ring system: synthesis, stereochemistry, and conformation, 2701-5

HYDROGENOLYSIS

- The enamine route to 2-morpholinoisoflav-3-ene, 1193-6

HYDROLYSIS

- Synthesis of the four stereoisomers of 4-aminoadamantane-2-carboxylic acid, rigid analogs of γ -aminobutyric acid, 73-7
 Cyclodienones. Part 8. Hydrolysis of 5-oxo-2,4-di-tert-butylcyclopenta-1,3-dienecarbonitrile, 243-6
 Organoiron complexes in organic synthesis. Part 18. Spiroannellation reactions of some bifunctional tricarbonyl(cyclohexadienyl)iron hexafluorophosphate salts, 489-97
 Preparation of kaurenolide and its 5 α ,6 α (H)-isomer, 517-19
 The chemistry of organoborates. Part 8. Unique Michael reactions of lithium trialkylalkynylborates, 719-22
 Phosphorylated sugars. Part 23. Synthesis and reactions of phosphodiester containing 2-aminoethanol and a polyfunctional alcohol and their behavior during acid- and base-catalyzed hydrolysis, 1733-43
 Organometallic compounds in organic synthesis. Part 14. Tricarbonyliron as lateral control group in the selective alkaline hydrolysis of some cyclohexa-1,3-diene carboxylic esters, 1763-9
 Preparation and reactions of 3-phenyl-4a,5,6,8a-tetrahydro-4H-1,2-benz[e]oxazines, 1891-5
 Synthesis of adamantane derivatives. Part 53. Simple synthesis of 7-thiaprotoadamantane (7-thiatricyclo[4.3.1.0^{3,8}]decane) and related derivatives via a regioselective and stereoselective intramolecular Friedel-Crafts reaction, 1953-8
 Thiadiazoles and thiazolines. Part 4. Acetylation, hydrolysis, and cyclocondensations of Δ^2 -1,3,4-thiadiazoline- α -carboxamides, 1993-8
 Reactions of 1-alkoxycarbonylpyridinium salts with nucleophiles: stereoelectronic restrictions on carbonyl activation of α -nucleophilic attack, 2365-8
 Synthesis of bis(imides) and bis(half amides) of N,N'-ethylenebis(iminodiacetic acid), 2693-6

HYDROPEROXIDE

- Stereochemistry of olefin and fatty acid oxidation. Part 1. Autoxidation of hexene and hepta-2,5-diene isomers, 2707-13
 Stereochemistry of olefin and fatty acid oxidation. Part 2. Photosensitized oxidation of hexene and hepta-2,5-diene isomers 2715-17

HYDROXIDE

- Investigations into the mechanism of the action of alkali in methanol on 3,6-dibenzyl-s-tetrazines and their 1,4-dihydro-derivatives: the role of s-tetrazines as hydride acceptors and an x-ray determination of the structure of 3,6-bis(4-chlorobenzyl)-1,4-dihydro-s-tetrazine, 1165-70

HYDROXIMOLACTONE

- Oxidation of aldose oximes. Formation and structure of hydroxydiazene oxidase acetals and preparation of hydroximolactones. X-ray crystal structure of 2,3:5,6-di-O-isopropylidene- α -D-mannofuranosyl-O,N,N'-azoxy 2,3:5,6-di-O-isopropylidene- α -D-mannofuranoside, 2139-47

HYDROXY

- Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ξ)-fluoro-25-hydroxyvitamin D³, 85-91
 Bromo derivatives of dimethyl 4-oxo-trans-2,6-diphenylcyclohexane-1,1-dicarboxylate and their dehydrobromination, 101-5
 Synthesis of 2,6-diaryl-4,8-dihydroxy-3,7-dioxabicyclo[3.3.0]octanes, 175-81
 C-Aromatic steroids. Synthesis of 11,17 ξ -dimethoxy-18-norandrost-4,8,11,13-tetraen-3-one, 201-4
 Intramolecular cyclization reactions in aliphatic thymidine analogs series, 223-7
 Reactions of 1-methyl-4-tert-butylcyclohexane and 1-methylcyclohexene with thallium(I) acetate-iodine, 413-19
 Pyrimidine derivatives and related compounds. Part 42. Isolation of the intermediates in the ring transformation of 1,3-oxazine-2,4-diones into pyrimidines and pyrazoles, and their structure

- determination by nitrogen-15 nuclear magnetic resonance analysis, 473-5
 Preparation of kaurenolide and its 5 α ,6 α (H)-isomer, 517-19
 Synthesis of (R,S)-(5Z,8E,10E)-12-hydroxyheptadeca-5,8,10-trienoic acid and of (R,S)- and (S)-(5Z,8Z,10E,14Z)-12-hydroxyeicosa-5,8,10,14-tetraenoic acid and their racemic 5,6,8,9-tetradeuterioisomers, 545-52
 Convenient syntheses of 5-substituted 2-hydroxybenzoates and related reactions, 665-9
 1 β -Hydroxygibberellin A₃. Preparation and comparison with gibberellin A₃, 707-11
 18-Substituted steroids. Part 10. Synthesis of 16 α ,18,21-trihydroypregn-4-ene-3,20-dione (16 α ,18-dihydroxy-11-deoxycorticosterone), 723-8
 Base-catalyzed fragmentation of 5,6 β -epoxy-3 β -hydroxy-5 β -cholestan-19-al, 799-803
 Addition reactions of benzo[b]thiophene. Part 4. Reactions of some acetoxy- and hydroxybenzo[b]thiophenes with benzene or toluene, 815-21
 Evidence for the biogenesis of 1 α -hydroxy-trans-eudesmanolides, 881-4
 Base catalyzed rearrangements involving ylide intermediates. Part 14. Rearrangement of 4-oxidoanilinium ylides and 3-oxidoanilinium betaines, 893-901
 Pyrazine chemistry. Part 13. Preparation and reactions of pyrazine N-oxides related to mycelianamide, 953-9
 Stereoselective olefin cyclization mediated by the selenyl group; direct formation of a selenyl caparrapi oxide, 1085-7
 Synthesis of some thietanoprostanoids, 1333-42
 Dye-sensitized photooxygenation of the Aspidosperma alkaloids vincadifformine and tabersonine. A new, convenient approach to vincamine, 1371-9
 1,2-Disubstituted ethanes as possible precursors for the synthesis of Cannabis spirans, 1485-91
 Reactions of 4-hydroxycyclohexa-2,5-dienones under acidic conditions, 1499-507
 Heterocyclic syntheses with malonyl dichloride. Part 13. 6-Chloro-4-hydroxy-2-oxopyran-3-carboxanilides from N-sulfinylanilines and further reaction of malonyl dichloride with thiocyanates, 1575-8
 Experiments towards the synthesis of the ergot alkaloids and related structures. Part 4. Lysergic acid - an attempted 'endo-amide' approach, 1897-903
 Dehydrogenation of lactones using benzeneseleninic anhydride. X-ray crystal structure of 3 β -acetoxy-14 α -hydroxy-17 α -oxa-D-homo-5 α -androst-15-en-17-one, 1919-22
 Photoinduced transformations. Part 63. Photorearrangement of 17 β -acetoxy-4,4-dimethylestr-5-en-3 β -yl nitrite with monochromatic light, 1963-6
 Halogenated enolates. Synthesis of 2-deoxyribose derivatives from D-glyceraldehyde, 2063-6
 Synthesis of 25 ξ ,26-dihydroxyvitamin D₂, 2111-16
 Acid- and base-catalyzed reactions of 4 β ,5 β - and 4 α ,5 α -epoxyandrostane-3,17,19-trione, 2611-15
 Synthesis of 1,2,3,9b-tetrahydro-9b-hydroxy-1-phenylpyrrolo[2,1-a]isoindol-5-one via the hydrazinolysis of 2-phenyl-2-(2-phthalimidoethyl)indan-1,3-dione, 2783-6
 Asymmetric synthesis of a β -ketol moiety via 3,5-disubstituted isoxazoles: application to (+)-(S)-[6]-gingerol, 2983-7
 The biosynthesis of chlorine-containing metabolites of Periconia macrospinoso, 3037-9

HYDROXYACETYLAMINODIARYLAZO

- The copper-promoted reaction of o-halodiarylaZO compounds with nucleophiles. Part 3. The copper-promoted reaction of o-bromodiarylaZO compounds with carboxylate ions. A novel method for the preparation of o-hydroxydiarylaZO compounds, 1775-82

HYDROXYALKYL

- Triazolopyridines. Part 2. Preparation of 7-substituted triazolo[1,5-a]pyridines by directed lithiation, 967-71
HYDROXYALKYLPYRIDINECARBOXALDEHYDE
 Triazolopyridines. Part 2. Preparation of 7-substituted triazolo[1,5-a]pyridines by directed lithiation, 967-71
HYDROXYALKYLTRIAZOLOPYRIDINE
 Triazolopyridines. Part 2. Preparation of 7-substituted triazolo[1,5-a]pyridines by directed lithiation, 967-71
HYDROXYALKYLTRIPHENYLPHOSPHONIUM
 Synthesis of (R,S)-(5Z,8E,10E)-12-hydroxyheptadeca-5,8,10-trienoic acid and of (R,S)- and (S)-(5Z,8Z,10E,14Z)-12-

- HYDROXYALKYLTRIPHENYLPHOSPHONIUM**(contd)
hydroxyeicosa-5,8,10,14-tetraenoic acid and their racemic 5,6,8,9-tetradeuterioisomers, 545-52
- HYDROXYAZAHOMOANDROSTENONE**
Microbiological transformations. Part 5. Microbiological transformations of 17 α -aza- and 17-aza-D-homoandrost-5-ene derivatives with the fungus *Cunninghamella elegans*, 571-6
- HYDROXYBENZALDEHYDE**
Enamines in the synthesis of 2-(substituted amino)-3,3-dialkylchromanones, 2771-5
- HYDROXYBENZOATE**
Bromo derivatives of dimethyl 4-oxo-trans-2,6-diphenylcyclohexane-1,1-dicarboxylate and their dehydrobromination, 101-5
Convenient syntheses of 5-substituted 2-hydroxybenzoates and related reactions, 665-9
- HYDROXYBENZOTHIOPHENE**
Addition reactions of benzo[b]thiophene. Part 4. Reactions of some acetoxy- and hydroxybenzo[b]thiophenes with benzene or toluene, 815-21
- HYDROXYBENZYL**
Pyrazine chemistry. Part 13. Preparation and reactions of pyrazine N-oxides related to mycelianamide, 953-9
Electrophilic aromatic substitution of catechins: bromination and benzylation, 973-8
Rearrangement of 1-(α -hydroxybenzyl)-1,2,3,4-tetrahydroisoquinolines to 1-phenyl-2,3,4,5-tetrahydro-1H-3-benzazepines, 2163-7
Synthesis and configurational and conformational study of the diastereoisomeric 2-(α -hydroxybenzyl)- and 2-(α -methoxybenzyl)cyclohexanols and some of their derivatives, 3065-71
- HYDROXYBENZYL BUTANEDIOL**
Synthesis and NMR spectra of 2,6- and 2,4-diaryl-3,7-dioxabicyclo[3.3.0]octanes, 183-90
- HYDROXYBENZYL CYCLOHEXANOL**
Synthesis and configurational and conformational study of the diastereoisomeric 2-(α -hydroxybenzyl)- and 2-(α -methoxybenzyl)cyclohexanols and some of their derivatives, 3065-71
- HYDROXYBENZYLIDENE**
Pyrazine chemistry. Part 13. Preparation and reactions of pyrazine N-oxides related to mycelianamide, 953-9
- HYDROXYBENZYLISOUQUINOLINE**
Rearrangement of 1-(α -hydroxybenzyl)-1,2,3,4-tetrahydroisoquinolines to 1-phenyl-2,3,4,5-tetrahydro-1H-3-benzazepines, 2163-7
- HYDROXYBUTYLSULFINYL VINYLDECANOATE**
Synthesis of some thietanoprostanooids, 1333-42
- HYDROXYCYCLOHEXADIENE**
Organoiron complexes in organic synthesis. Part 24. Studies in the synthesis and reactivity of 6-exo-substituted cyclohexadienyl- (tricarbonyl)iron salts, 2641-6
- HYDROXYCYCLOHEXADIENONE**
Reactions of 4-hydroxycyclohexa-2,5-dienones under acidic conditions, 1499-507
- HYDROXYCYCLOHEXADIENYLUMIRON**
Organoiron complexes in organic synthesis. Part 24. Studies in the synthesis and reactivity of 6-exo-substituted cyclohexadienyl- (tricarbonyl)iron salts, 2641-6
- HYDROXYCYCLOHEXANONE**
Studies related to maytansinoids, 1541-51
- HYDROXYDECENYLTRIPHENYLPHOSPHONIUM**
Synthesis of (R,S)-(5Z,8E,10E)-12-hydroxyheptadeca-5,8,10-trienoic acid and of (R,S)- and (S)-(5Z,8Z,10E,14Z)-12-hydroxyeicosa-5,8,10,14-tetraenoic acid and their racemic 5,6,8,9-tetradeuterioisomers, 545-52
- HYDROXYDIBENZOPHOSPHOLE**
Synthesis of substituted dibenzophospholes. Part 1, 2289-97
- HYDROXYDINORCHOLESTERYL**
Synthesis of 25 ζ ,26-dihydroxyvitamin D₂, 2111-16
- HYDROXYDIPHENATE**
The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 3. Esters of (R) and (S)-hexahydroxydiphenic acid and dehydrohexahydroxydiphenic acid with D-glucopyranose (¹C₄ and related conformations), 2535-45
- HYDROXYDIPHENYL**
The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 2. Esters of (S)-hexahydroxydiphenic acid with D-glucopyranose (⁴C₁), 2525-34
- HYDROXYEICOSATETRAENOATE**
Synthesis of (R,S)-(5Z,8E,10E)-12-hydroxyheptadeca-5,8,10-trienoic acid and of (R,S)- and (S)-(5Z,8Z,10E,14Z)-12-hydroxyeicosa-5,8,10,14-tetraenoic acid and their racemic 5,6,8,9-tetradeuterioisomers, 545-52
- HYDROXYEPOXYANDROSTANONE**
A mild and efficient degradation of ring A of steroids, 513-16
- HYDROXYERGOSTADIENOATE**
Synthesis of 25 ζ ,26-dihydroxyvitamin D₂, 2111-16
- HYDROXYETHYLMETHYLTHIAZOLE**
The biosynthesis of thiamine. Syntheses of [1,1,1,5-²d₄]-1-deoxy-D-threo-2-pentulose and incorporation of this sugar in biosynthesis of thiazole by *Escherichia coli* cells, 2131-7
- HYDROXYETHYLTHIOMETHYLENEBUTANAL**
Convenient syntheses of 5-substituted 2-hydroxybenzoates and related reactions, 665-9
- HYDROXYEUDESMANOLIDE**
Evidence for the biogenesis of 1 α -hydroxy-trans-eudesmanolides, 881-4
- HYDROXYEUDESMIN**
Synthesis of 2,6-diaryl-4,8-dihydroxy-3,7-dioxabicyclo[3.3.0]octanes, 175-81
- HYDROXYFRIEDELANONE**
Chemical investigation of Ceylonese plants. Part 45. 28,29-Dihydroxyfriedelan-3-one, a friedelane with two oxygenated methyl groups, from *Elaeodendron balae* (Celastraceae), 2457-9
- HYDROXYGIBBERELLIN**
1 β -Hydroxygibberellin A₅. Preparation and comparison with gibberellin A₃, 707-11
- HYDROXYHEPTADECATRIENOATE**
Synthesis of (R,S)-(5Z,8E,10E)-12-hydroxyheptadeca-5,8,10-trienoic acid and of (R,S)- and (S)-(5Z,8Z,10E,14Z)-12-hydroxyeicosa-5,8,10,14-tetraenoic acid and their racemic 5,6,8,9-tetradeuterioisomers, 545-52
- HYDROXYHEPTYLTRIPHENYLPHOSPHONIUM**
Synthesis of (R,S)-(5Z,8E,10E)-12-hydroxyheptadeca-5,8,10-trienoic acid and of (R,S)- and (S)-(5Z,8Z,10E,14Z)-12-hydroxyeicosa-5,8,10,14-tetraenoic acid and their racemic 5,6,8,9-tetradeuterioisomers, 545-52
- HYDROXYHYDROXYBENZYL METHYL PYRAZINE**
Pyrazine chemistry. Part 13. Preparation and reactions of pyrazine N-oxides related to mycelianamide, 953-9
- HYDROXYIMINO OXOBUTANAL**
Vicinal multifunctional compounds. Tautomerism and isomerism in the condensation products of 2-hydroxyimino-3-oxobutanal or 3-hydroxyiminopentane-2,4-dione with benzylamines, 1013-18
- HYDROXYIMINOPENTANEDIONE**
Vicinal multifunctional compounds. Tautomerism and isomerism in the condensation products of 2-hydroxyimino-3-oxobutanal or 3-hydroxyiminopentane-2,4-dione with benzylamines, 1013-18
- HYDROXYIMINOPENTANONE**
Vicinal multifunctional compounds. Tautomerism and isomerism in the condensation products of 2-hydroxyimino-3-oxobutanal or 3-hydroxyiminopentane-2,4-dione with benzylamines, 1013-18
- HYDROXYINDOLE**
Dye-sensitized photooxygenation of the *Aspidosperma* alkaloids vincadifformine and tabersonine. A new, convenient approach to vincamine, 1371-9
- HYDROXYKAURADIENOATE**
Preparation of kaurenolide and its 5 α ,6 α (H)-isomer, 517-19
- HYDROXYKAURENOLIDE**
Preparation of kaurenolide and its 5 α ,6 α (H)-isomer, 517-19
- HYDROXYLAMINE**
Nitroxide chemistry. Part 20. N,N-Bis(trifluoromethyl)hydroxylamine as a carbocation trapping agent, 835-9
- HYDROXYLATION**
Microbiological transformations. Part 5. Microbiological transformations of 17 α -aza- and 17-aza-D-homoandrost-5-ene derivatives with the fungus *Cunninghamella elegans*, 571-6
Biosynthesis of rotenoids by *Amorpha fruticosa*: sequence, specificity, and stereochemistry in the development of the hemiterpenoid segment, 789-97
The copper-promoted reaction of o-halodiaryloxy compounds with nucleophiles. Part 3. The copper-promoted reaction of o-bromodiaryloxy compounds with carboxylate ions. A novel method for the preparation of o-hydroxydiaryloxy compounds, 1775-82
Dehydrogenation of lactones using benzeneseleninic anhydride. X-

- HYDROXYLATION(contd)**
ray crystal structure of 3 β -acetoxy-14 α -hydroxy-17 α -oxa-D-homo-5 α -androst-15-en-17-one, 1919-22
Synthesis of 25 ξ ,26-dihydroxyvitamin D₂, 2111-16
- HYDROXYMETHOXYCHOLESTANAL**
Base-catalyzed fragmentation of 5,6 β -epoxy-3 β -hydroxy-5 β -cholestan-19-al, 799-803
- HYDROXYMETHOXYCYCLOPENTANAPHTHALENE**
C-Aromatic steroids. Synthesis of 11,17 ξ -dimethoxy-18-norandrosta-4,8,11,13-tetraen-3-one, 201-4
- HYDROXYMETHOXYCYCLOPENTANAPHTHALENONE**
C-Aromatic steroids. Synthesis of 11,17 ξ -dimethoxy-18-norandrosta-4,8,11,13-tetraen-3-one, 201-4
- HYDROXYMETHOXYDEESTRATETRAENE**
Ketol formation by peracid oxidation of a tricyclic styrene, 657-64
- HYDROXYMETHOXYDEESTRATRIENONE**
Ketol formation by peracid oxidation of a tricyclic styrene, 657-64
- HYDROXYMETHOXYPHENYLETHYL CYCLOHEXANONE**
1,2-Disubstituted ethanes as possible precursors for the synthesis of Cannabis spirans, 1485-91
- HYDROXYMETHOXYPHENYLMETHYLENEDIOXYBENZOFURAN**
Natural benzofurans: synthesis of the arylbenzofuran constituents of *Sophora tomentosa*, 3017-20
- HYDROXYMETHOXYSTILBENE**
1,2-Disubstituted ethanes as possible precursors for the synthesis of Cannabis spirans, 1485-91
- HYDROXYMETHYL**
Intramolecular cyclization reactions in aliphatic thymidine analogs series, 223-7
Synthesis of some thietanoprostanoids, 1333-42
Formose reactions. Part 3. Selective formose reaction catalyzed by organic bases, 1975-9
Biosynthesis of porphyrins and related macrocycles. Part 18. Proof by spectroscopy and synthesis that unrearranged hydroxymethylbilane is the product from deaminase and the substrate for cosynthetase in the biosynthesis of uroporphyrinogen-III, 2427-44
- HYDROXYMETHYLATION**
Total synthesis of (\pm)-picropodophyllone, 271-6
- HYDROXYMETHYLBENZIMIDAZOLE**
Practicable syntheses of 2-hydroxymethyl-substituted benzimidazoles and 2-formylbenzimidazole, 2871-5
- HYDROXYMETHYLBILANE**
Biosynthesis of porphyrins and related macrocycles. Part 18. Proof by spectroscopy and synthesis that unrearranged hydroxymethylbilane is the product from deaminase and the substrate for cosynthetase in the biosynthesis of uroporphyrinogen-III, 2427-44
- HYDROXYMETHYLBUTYL CYCLOHEXYL**
Reactions of 1-methyl-4-tert-butylcyclohexene and 1-methylcyclohexene with thallium(I) acetate-iodine, 413-19
- HYDROXYMETHYLGlycerol**
Formose reactions. Part 3. Selective formose reaction catalyzed by organic bases, 1975-9
- HYDROXYMETHYLMETHOXYCARBONYLHEXYLTHIETANE**
Synthesis of some thietanoprostanoids, 1333-42
- HYDROXYMETHYLMETHYLOXAZOLOPYRIMIDINONE**
Intramolecular cyclization reactions in aliphatic thymidine analogs series, 223-7
- HYDROXYMETHYLMETHYLTHIETANE**
Cyclization of $\gamma\delta$ -unsaturated sulfenic acids to give thietane 1-oxide derivatives. Crystal structure of rel-(1R,2S,3R,4R)-3-hexyl-2-(hydroxymethyl)-4-methylthietane 1-oxide, 1325-32
- HYDROXYMETHYLOXOBUTANOATE**
Lewis acid-catalyzed reactions of aryl cyclopropyl ketones. Scope and mechanism, 1029-35
- HYDROXYMETHYLPYRIDYL**
Indole β -nucleophilic substitution. Part 3. Synthesis of four isomeric pyrido[x',y':5,6]oxepino[3,2-b]indolones, 435-9
- HYDROXYNORCHOLESTENE**
Base-catalyzed fragmentation of 5,6 β -epoxy-3 β -hydroxy-5 β -cholestan-19-al, 799-803
- HYDROXYPHENYLALKANE**
Regiospecificity in reactions of metal phenoxides. Synthesis of 2,2'-alkylidenebisphenols, 805-8
- HYDROXYPHENYLBUTYRATE**
A convenient solvent-specific synthesis of 4-[4-acetoxy-3-(3-methylbut-2-enyl)phenyl]butyric acid, 1601-3
- HYDROXYPHENYLMETHYLFURYL OXAZOLINE**
Regioselective β -metalations of 2-substituted furan and N-methylpyrrole derivatives employing the directing effect of the oxazolino group: syntheses of 2,3-disubstituted furans and N-methylpyrroles, 1343-7
- HYDROXYPHOSPHINYL**
Silyl phosphites. Part 20. A facile synthesis of phosphoenolpyruvate and its analog utilizing in situ generated trimethylsilyl bromide, 2509-13
- HYDROXPREGNENONE**
18-Substituted steroids. Part 10. Synthesis of 16 α ,18,21-trihydroxypregn-4-ene-3,20-dione (16 α ,18-dihydroxy-11-deoxycorticosterone), 723-8
- HYDROXYPROPYL**
Intramolecular cyclization reactions in aliphatic thymidine analogs series, 223-7
- HYDROXYPROPYLMETHOXY**
Nuclear magnetic resonance and x-ray stereochemical studies on 1-benzyltetrahydroisoquinolinium salts, 2067-77
- HYDROXYPROPYLMETHOXYLAUDANOSINIUM**
Nuclear magnetic resonance and x-ray stereochemical studies on 1-benzyltetrahydroisoquinolinium salts, 2067-77
- HYDROXYPROPYLTHYMINE**
Intramolecular cyclization reactions in aliphatic thymidine analogs series, 223-7
- HYDROXYSESAMIN**
Synthesis of 2,6-diaryl-4,8-dihydroxy-3,7-dioxabicyclo[3.3.0]octanes, 175-81
Synthesis and NMR spectra of 2,6- and 2,4-diaryl-3,7-dioxabicyclo[3.3.0]octanes, 183-90
- HYDROXYSTILBENECARBOXYLATE**
Formation of some 3-aryl-3,4-dihydroisocoumarins by thermal ring closure of stilbene-2-carboxylic acids, 2819-25
- HYDROXYURACIL**
Pyrimidine derivatives and related compounds. Part 42. Isolation of the intermediates in the ring transformation of 1,3-oxazine-2,4-diones into pyrimidines and pyrazoles, and their structure determination by nitrogen-15 nuclear magnetic resonance analysis, 473-5
- HYDROXYVITAMIN**
Synthesis of 25 ξ ,26-dihydroxyvitamin D₂, 2111-16
- HYPERIODITE**
18-Substituted steroids. Part 10. Synthesis of 16 α ,18,21-trihydroxypregn-4-ene-3,20-dione (16 α ,18-dihydroxy-11-deoxycorticosterone), 723-8
- HYPOPHYLLANTHIN**
Structure and synthesis of the aryltetralin lignans hypophyllanthin and nirtetralin, 999-1003
- HYPOXYLON**
Metabolites of the higher fungi. Part 19. Serpenone, 3-methoxy-4-methyl-5-prop-1-enylfuran-2(SH)-one, a new γ -butyrolactone from the fungus *Hypoxylon serpens* (Barrons strain) (Persoon ex Fries) Kickx, 215-21
- IAN**
Synthesis of oct-1-ene-2,8-d₂, 2901-2
- II**
Synthetic approaches to versatile hemoprotein model compounds built from porphyrins and peptides, 1441-8
Further studies on the protection of histidine side chains in peptide synthesis: the use of the π -benzyloxymethyl group, 1553-61
- ILLUDIN**
Studies in terpenoid biosynthesis. Part 26. Applications of deuterium and carbon-13 NMR spectroscopy to the biosynthesis of the illudin sesquiterpenoids, 2445-8
- IMIDAZOBENZOXAZEPINE**
Synthesis and reactions of some novel imidazobenzoxazines and related systems, 1049-58
- IMIDAZOBENZOXAZINE**
Synthesis and reactions of some novel imidazobenzoxazines and related systems, 1049-58
- IMIDAZOLE**
Novel reagent system for converting a hydroxy group into an iodo group in carbohydrates with inversion of configuration. Part 3, 681-3

IMIDAZOLECARBOXAMIDE

Triazines and related products. Part 24. Synthesis of pyrazol-4-ylidenehydrazinoimidazoles by hydrazinolysis of imidazo[5,1-c][1,2,4]triazines and 2-arylaizoimidazoles by diazonium coupling reactions, 1811-19

IMIDAZOLIUM

Reactions of five-membered heteroaromatic oxonium cations with amines, 131-6

IMIDAZOPYRAZOLE

Novel synthesis of pyrazolo[5,1-c]-1,2,4-triazoles, imidazo[1,2-b]pyrazoles, and [1,2,4]-triazolo[4,3-a]benzimidazoles. Reaction of nitrile imines with amino- and oxo-substituted diazoles, 2663-6

IMIDAZOPYRIDINE

Synthetic approaches to some aza analogs of benzimidazole N-oxides. Part 1. The imidazo[4,5-b]pyridine series, 2995-3006

IMIDAZOTETRAZINE

Investigations into the mechanism of the action of alkali in methanol on 3,6-dibenzyl-s-tetrazines and their 1,4-dihydro-derivatives: the role of s-tetrazines as hydride acceptors and an x-ray determination of the structure of 3,6-bis(4-chlorobenzyl)-1,4-dihydro-s-tetrazine, 1165-70

IMIDAZOTHIATRIAZEPINE

Synthesis of annelated 1,3,4,6-thiatriazepines from reaction of cyclic thioureas with 1,4-dichloro-2,3-diazabutadienes, 1999-2005

IMIDAZOTRIAZINECARBOXAMIDE

Triazines and related products. Part 24. Synthesis of pyrazol-4-ylidenehydrazinoimidazoles by hydrazinolysis of imidazo[5,1-c][1,2,4]triazines and 2-arylaizoimidazoles by diazonium coupling reactions, 1811-19

IMIDE

Synthesis of bis(imides) and bis(half amides) of N,N'-ethylenebis(iminodiacetic acid), 2693-6

IMINATION

The reactions of estrogens with benzeneseleninic anhydride and hexamethyldisilazane, 1915-18

IMINE

Reaction of lithioenamines with sulfite esters. Stereospecific and stereoselective synthesis of β -enamino and β -imino sulfoxides, 1183-6

Aryl nitrenes from N,N'-diarylbenzoquinone diimine N,N'-dioxides and N-arylbenzoquinone imine N-oxides, 2023-6

Alkyl nitrenes from N-alkylbenzoquinone imine N-oxides, 2027-34

Photolysis of N-alkoxybenzoquinone imine N-oxides, 2035-9

Synthesis of β -lactams from imines and 1-lithiooxy-2-phenylacetylene, 2193-6

Novel synthesis of pyrazolo[5,1-c]-1,2,4-triazoles, imidazo[1,2-b]pyrazoles, and [1,2,4]-triazolo[4,3-a]benzimidazoles. Reaction of nitrile imines with amino- and oxo-substituted diazoles, 2663-6

IMINO

Reaction of lithioenamines with sulfite esters. Stereospecific and stereoselective synthesis of β -enamino and β -imino sulfoxides, 1183-6

Fluorocarbon derivatives of nitrogen. Part 8. Reactions between heteroaromatic N-imines (N-iminopyridinium and N-iminoquinolinium ylide) and perfluoropropene, 2H-pentafluoropropene, perfluorobut-2-ene, perfluoro(2-methylpent-2-ene), perfluorobut-2-yne, and perfluoropyridine: synthesis of fluorinated 3-azaindolizines (pyrazolo[1,5-a]pyridines), 1593-600

IMINOPYRIDINIUM

Fluorocarbon derivatives of nitrogen. Part 8. Reactions between heteroaromatic N-imines (N-iminopyridinium and N-iminoquinolinium ylide) and perfluoropropene, 2H-pentafluoropropene, perfluorobut-2-ene, perfluoro(2-methylpent-2-ene), perfluorobut-2-yne, and perfluoropyridine: synthesis of fluorinated 3-azaindolizines (pyrazolo[1,5-a]pyridines), 1593-600

IMINOQUINOLINIUM

Fluorocarbon derivatives of nitrogen. Part 8. Reactions between heteroaromatic N-imines (N-iminopyridinium and N-iminoquinolinium ylide) and perfluoropropene, 2H-pentafluoropropene, perfluorobut-2-ene, perfluoro(2-methylpent-2-ene), perfluorobut-2-yne, and perfluoropyridine: synthesis of fluorinated 3-azaindolizines (pyrazolo[1,5-a]pyridines), 1593-600

IMMONIUM

Synthesis of heterocycles using a new immonium salt derived from N,N-dimethylthiourea, 1059-62

IMPROVEMENT

Preparation of kaurenolide and its 5 α ,6 α (H)-isomer, 517-19

INCORPORATION

Biosynthesis of aristolochic acid, 1153-5

The biosynthesis of the β -carboline alkaloids, harman and eleanine, 1523-5

The biosynthesis of thiamine. Syntheses of [1,1,1,5-2d₄]-1-deoxy-D-threo-2-pentulose and incorporation of this sugar in biosynthesis of thiazole by *Escherichia coli* cells, 2131-7

INDAN

Reaction of 1-substituted indenenes with diborane or N-bromoacetamide in protic solvents. The effect of the substituent on the stereochemistry of addition, 79-83

Chemical synthesis and optical purity determination of optically active 1,2-epoxyindan and alcohol products which are also derived from mammalian or microbial metabolism of indene or indanones, 2767-70

INDANCARBOXALDEHYDE

Cannabis. Part 25. Synthesis of cannabispirenone-B and its 5,7-difluoro analog, 2403-5

INDAZOLE

Steric factors in heterocyclic rearrangements. N-Methyl-N-phenylhydrazones of 3-benzoyl-5-phenyl-1,2,4-oxadiazole, 165-7

Ring transformation of 3-(2-aminoaryl)-1,2,4-oxadiazoles into 3-acylaminoindazoles; extension of the Boulton-Katritzky scheme, 759-66

INDAZOLYLIMIDAZOLECARBOXAMIDE

Triazines and related products. Part 24. Synthesis of pyrazol-4-ylidenehydrazinoimidazoles by hydrazinolysis of imidazo[5,1-c][1,2,4]triazines and 2-arylaizoimidazoles by diazonium coupling reactions, 1811-19

INDENE

Reaction of 1-substituted indenenes with diborane or N-bromoacetamide in protic solvents. The effect of the substituent on the stereochemistry of addition, 79-83

Radical rearrangements of 1,3-dimethylindene derivatives: a comparison with rearrangement by 1,5-sigmatropy, 467-72

A new procedure for olefin oxirane by peroxybenzimidic acid; synthesis of some carbohydrate-precursor oxiranes and other epoxides, 1009-11

INDOLE

Indole β -nucleophilic substitution. Part 3. Synthesis of four isomeric pyrido[x',y':5,6]oxepino[3,2-b]indolones, 435-9

Chemistry of 6H-pyrido[4,3-b]carbazoles. Part 9. An efficient route to 3-[1-(3-ethylpyridyl)]indoles and the synthesis of some new ellipticines, 587-90

Synthesis of 1H-1-benzazepines by thermolysis of 2a,7b-dihydro-3H-cyclobut[b]indoles, 741-8

Dye-sensitized photooxygenation of the *Aspidosperma* alkaloids vincadifformine and tabersonine. A new, convenient approach to vincamine, 1371-9

INDOLOSESQUITERPENE

Chemical studies on the annonaceae. Part 9. Indolosesquiterpene and aporphine alkaloids from *Greenwayodendron* (*Polyalthia*) *suaveolens* stem bark. X-ray crystal structure of *greenwayodendrin-3-one*, 2807-12

INDOLYL

Indole β -nucleophilic substitution. Part 3. Synthesis of four isomeric pyrido[x',y':5,6]oxepino[3,2-b]indolones, 435-9

INHIBITION

A chemical model for the thymidylate synthetase catalyzed methylation of deoxyuridine monophosphate, 1363-9

Quinones. Part 2. General synthetic routes to quinone derivatives with modified polyphenyl side chains and the inhibitory effects of these quinones on the generation of the slow reacting substance of anaphylaxis (SRS-A), 2909-20

INHIBITOR

Synthesis of novel β -lactamase inhibitors from clavulanic acid. Preparation and chemical reactions of (5R)-3-vinyl-4-oxa-1-azabicyclo[3.2.0]hept-2-en-7-one, 1509-17

INSECT

Synthesis of polyoxygenated trans-decalins as potential insect antifeedants, 2157-62

INSECTICIDE

Analogues of antijuvenile hormones, 2013-18

INSERTION

Carbene insertion into [2.2]metacyclophane-1,10-dione: a convenient route to [3.2]- and [3.3]-metacyclophanes, 477-81
[4.2]- and [4.3]-Metacyclophanes, 2369-72

INTEGERRINEATE

Necic acid synthons. Part 1. Total synthesis of integerrineic acid, 2079-83

INTEGERRINEIC

Necic acid synthons. Part 1. Total synthesis of integerrineic acid, 2079-83

INTERMEDIATE

Reactions of spiroindazoles containing keto groups. Part 2. Evidence for a spirobenzocyclopropene intermediate in the thermolysis of anthrone-10-spiro-3'-3'H-indazoles to benz[a]aceanthrylenes, 577-9
A stable bromoalkoxyphosphorane, a model for the postulated five-coordinate intermediate in the Arbuzov and related reactions 735-40
Dinitrones from C-benzyl nitrones, 1395-8

INTERSECTION

An algorithm for finding the intersection of molecular structures, 631-7

INTRAMOL

Synthesis and NMR spectra of 2,6- and 2,4-diaryl-3,7-dioxabicyclo[3.3.0]octanes, 183-90

Intramolecular cyclization reactions in aliphatic thymidine analogs series, 223-7

Studies on intramolecular cycloaddition reactions of some isoquinolinium salts, 249-55

Fused mesoionic heterocycles: synthesis of 1,3,4-oxadiazolo[3,2-a]pyridine and 1,3,4-thiadiazolo[3,2-a]pyridine derivatives, 351-5

Depsidone synthesis. Part 21. A new synthesis of grisa-2',5'-diene-3,4'-diones, 403-11

Indole β -nucleophilic substitution. Part 3. Synthesis of four isomeric pyrido[x',y':5,6]oxepino[3,2-b]indolones, 435-9

Studies on anhydroosazones. Part 5. Structure and anomeric configuration of the C-nucleoside analogs obtained from the dehydration of D-glucosyl- and D-mannosyl-hept-2-ulose phenylosazones, 557-62

Chemistry of 6H-pyrido[4,3-b]carbazoles. Part 9. An efficient route to 3-[1-(3-ethylpyridyl)]indoles and the synthesis of some new ellipticines, 587-90

Studies on v-triazoles. Part 4. The 4-methoxybenzyl group, a versatile N-protecting group for the synthesis of N-unsubstituted v-triazoles, 627-30

Thermal reaction of N-(1-azido-2-oxoalkylidene)-N'-(o-alkenyloxyphenyl)hydrazines; intramolecular 1,4-cycloaddition of 1,2,4-triazole-1,3-diene intermediates, 755-8

Synthesis of stable prostacyclin analogs from 2,3-disubstituted bicyclo[3.2.0]heptan-6-ones, 823-30

1H-1,4-Benzothiazines. New cyclic sulfonium ylides, 831-4

1,2-Disubstituted ethanes as possible precursors for the synthesis of Cannabis spirans, 1485-91

The synthesis and reactions of 4H-tetrazolo[5,1-c][1,4]benzothiazines, 1879-84

Intramolecular acetalization of naphthoquinones, 1933-6

Synthesis of adamantane derivatives. Part 53. Simple synthesis of 7-thiaprotadamantane (7-thiatricyclo[4.3.1.0^{3,8}]decane) and related derivatives via a regioselective and stereoselective intramolecular Friedel-Crafts reaction, 1953-8

1,3,4-Oxadiazol-2(3H)-one formation from N-acylamino biurets and related compounds and from S-benzyl 3-acyl(thiocarbamate)s, 2019-21

INVERSION

Conformational behavior of medium-sized rings. Part 10.

Dithiosalicylides and trithiosalicylides, 1637-48

Conformational behavior of medium-sized rings. Part 12. Tri-3-methyltrianthranilide, 1701-14

Conformational behavior of medium-sized rings. Part 13. 5,18-Dihydro- and 5,11,12,18-tetrahydrotribenzo[b,f,j][1,4]diazacyclododecane-6,17-diones, 1715-20

[4.2]- and [4.3]-Metacyclophanes, 2369-72

Inversion of configuration at C-8 in the olivanic acids: conversion into the thienamycins and other novel derivatives, 3011-16

INVERSIONAL

Conformational behavior of medium-sized rings. Part 11. Dianthranilides and trianthranilides, 1649-99

IODATE

Polymer-supported periodate and iodate as oxidizing agents, 509-11

IODIDE

Synthesis of (R,S)-(5Z,8E,10E)-12-hydroxyheptadeca-5,8,10-trienoic acid and of (R,S)- and (S)-(5Z,8Z,10E,14Z)-12-hydroxyeicosa-5,8,10,14-tetraenoic acid and their racemic 5,6,8,9-tetra-deuterioisomers, 545-52

A stable bromoalkoxyphosphorane, a model for the postulated five-coordinate intermediate in the Arbuzov and related reactions 735-40

Synthesis of heterocycles using a new immonium salt derived from N,N-dimethylthiourea, 1059-62

Nuclear magnetic resonance and x-ray stereochemical studies on 1-benzyltetrahydroisoquinolinium salts, 2067-77

IODINATION

Novel reagent system for converting a hydroxy group into an iodo group in carbohydrates with inversion of configuration. Part 3, 681-3

18-Substituted steroids. Part 10. Synthesis of 16 α ,18,21-trihydroxypregn-4-ene-3,20-dione (16 α ,18-dihydroxy-11-deoxycorticosterone), 723-8

Synthesis of substituted dibenzophospholes. Part 3. Synthesis of 4,6-diaryldibenzophospholes from m-quaterphenyls, 2317-31

IODINE

Conversion of aromatic ketones into π -arylalkanoic acids. Oxidation by thallium(III) and by halogens, 235-42

Iodoazide adducts of exocyclic alkenes; structure and solvolysis, 315-25

Reactions of iodine(I) azide with $\alpha\beta$ -unsaturated carbonyl compounds, 327-33

Reactions of 1-methyl-4-tert-butylcyclohexene and 1-methylcyclohexene with thallium(I) acetate-iodine, 413-19

Novel reagent system for converting a hydroxy group into an iodo group in carbohydrates with inversion of configuration. Part 3, 681-3

Reactions of norcarane and of norborn-2-ene with iodine(I) azide and iodine(I) chloride, 961-5

IODO

Novel reagent system for converting a hydroxy group into an iodo group in carbohydrates with inversion of configuration. Part 3, 681-3

Synthesis of substituted dibenzophospholes. Part 2. Syntheses of intermediate biphenyls and quaterphenyls, 2299-315

IODOACETATE

Reactions of 1-methyl-4-tert-butylcyclohexene and 1-methylcyclohexene with thallium(I) acetate-iodine, 413-19

IODODEAMINATION

Synthesis of substituted dibenzophospholes. Part 3. Synthesis of 4,6-diaryldibenzophospholes from m-quaterphenyls, 2317-31

IODOGALACTOPYRANOSIDE

Novel reagent system for converting a hydroxy group into an iodo group in carbohydrates with inversion of configuration. Part 3, 681-3

IODOLACTONIZATION

Acid-catalyzed lactonization and iodolactonization of norbornene-carboxylic acids, 2461-5

IODOMETHANE

On the stereochemistry of Grignard addition to bicyclo[3.3.1]nonan-2-one. Preferential axial attack on a cyclohexanone system by a bulky nucleophile, 979-82

Iodomethoxynitrobiphenyl

Synthesis of substituted dibenzophospholes. Part 2. Syntheses of intermediate biphenyls and quaterphenyls, 2299-315

IODOFLUOROALKANE

Fluoro olefin chemistry. Part 14. Preparation and photochemical rearrangement of some acyclic perfluoroalkyl and polyfluoroalkyl olefins, 2211-17

IODOQUATERPHENYL

Synthesis of substituted dibenzophospholes. Part 3. Synthesis of 4,6-diaryldibenzophospholes from m-quaterphenyls, 2317-31

IODOXYBENZENE

A practical catalytic method for the preparation of steroidal 1,4-dien-3-ones by oxygen atom transfer from iodoxybenzene to diphenyl diselenide, 1947-52

ION

Photoresponsive crown ethers. Part 6. Ion transport mediated by photoinduced cis-trans interconversion of azobis(benzocrown ethers), 2735-9

- IR**
The preparation of pyridiniums from pyryliums, 117–23
The preparation of thiazole-4- and -5-carboxylates, and an infrared study of their rotational isomers, 159–64
Tautomerism in 2-trichloro- and 2-trifluoroacetamidothiazoles, 939–43
- IRON**
Metal-assisted cycloadditions. Part 1. Synthesis of substituted cyclopentane derivatives obtained from the reactions of (η^1 -allyl)dicarbonyl(η^5 -cyclopentadienyl)iron with electron-deficient olefins and acetylenes, 285–94
Metal-assisted cycloadditions. Part 2. Reactions of dicarbonyl(η^5 -cyclopentadienyl)(η^1 -3-methoxyallyl)iron with electron-deficient olefins and acetylenes, 295–300
Metal-assisted cycloadditions. Part 3. Reactions of dicarbonyl(η^5 -cyclopentadienyl) η^1 -2-methoxyallyl)iron with electron-deficient olefins and acetylenes, 301–6
Organoiron complexes in organic synthesis. Part 18. Spiroannulation reactions of some bifunctional tricarbonyl(cyclohexadienyl)iron hexafluorophosphate salts, 489–97
Organometallic complexes in synthesis. Part 16. Reactions of tricarbonyl(cyclohexadienyl)iron(1+) salts with aromatic amines, 713–17
Thermal rearrangement reactions of tricarbonyliron lactone complexes, 1355–61
Organoiron complexes in organic synthesis. Part 21. Methods for controlling the regioselectivity of nucleophile addition to tricarbonyl(cyclohexadienyl)iron complexes, 1527–34
Organometallic compounds in organic synthesis. Part 12. Methods of determination of the stereochemistry of tricarbonylcyclohexa-1,3-dieneiron complexes, 1745–53
Organometallic compounds in organic synthesis. Part 13. Stereoselectivity of complexation of cyclohexadiene esters, 1755–62
Organometallic compounds in organic synthesis. Part 14. Tricarbonyliron as lateral control group in the selective alkaline hydrolysis of some cyclohexa-1,3-diene carboxylic esters, 1763–9
Transition-metal mediated asymmetric synthesis. Part 3. Preparation and stereospecific alkylation of unsymmetrically substituted tricarbonyl(cyclohexadienyl)iron(1+) salts: an organometallic approach to the synthesis of carvone, cryptomerin, and bilobanone, 2449–56
Organoiron complexes in organic synthesis. Part 23. New strategies for steroid and aphidicolane synthesis, 2631–9
Organoiron complexes in organic synthesis. Part 24. Studies in the synthesis and reactivity of 6-exo-substituted cyclohexadienyliron(tricarbonyl)iron salts, 2641–6
- IRONES**
Synthesis of the natural enantiomers of irones from (+)-citronellal, 1303–9
- ISOAUSTIN**
Studies on fungal metabolites. Part 3. Carbon-13 NMR spectral and structural studies on austin and new related meroterpenoids from *Aspergillus ustus*, *Aspergillus varicolor*, and *Penicillium diversum*, 2687–92
- ISOBUTYRALDEHYDE**
The preparation of thiazole-4- and -5-carboxylates, and an infrared study of their rotational isomers, 159–64
- ISOCOUMARIN**
Synthesis of chlorinated isocoumarin derivatives, 1111–15
A new synthesis of kigelin. Conversion of elemicin into kigelin, 2099–100
Formation of some 3-aryl-3,4-dihydroisocoumarins by thermal ring closure of stilbene-2-carboxylic acids, 2819–25
The biosynthesis of chlorine-containing metabolites of *Periconia macrospinoso*, 3037–9
- ISOCYANATE**
Formation of isocyanates by deoxygenation of C-nitrosocarbonyl compounds, 1571–4
- ISODRIMENIN**
A new, efficient synthesis of (+)-isodrimenin, 1163–4
- ISOFLAVAN**
The enamine route to 2-morpholinoisoflav-3-ene, 1193–6
- ISOFLAVANONE**
Synthesis of some pterocarpenes obtained from *Brya ebenus*, 1389–94
- ISOFLAVENYL**
The enamine route to 2-morpholinoisoflav-3-ene, 1193–6
- ISOFLAVONE**
Synthesis of some pterocarpenes obtained from *Brya ebenus*, 1389–94
- ISOFLAVYLIUM**
The enamine route to 2-morpholinoisoflav-3-ene, 1193–6
- ISOHUMULINONE**
The structure of isohumulone A, a product derived by oxidation and isomerization of humulone from hop resin, 1791–5
- ISOLEUCINE**
Further studies on the protection of histidine side chains in peptide synthesis: the use of the π -benzyloxymethyl group, 1553–61
- ISOLEUCINEANGIOTENSIN**
Further studies on the protection of histidine side chains in peptide synthesis: the use of the π -benzyloxymethyl group, 1553–61
- ISOMERISM**
The preparation of thiazole-4- and -5-carboxylates, and an infrared study of their rotational isomers, 159–64
Vicinal multifunctional compounds. Tautomerism and isomerism in the condensation products of 2-hydroxyimino-3-oxobutanal or 3-hydroxyiminopentane-2,4-dione with benzylamines, 1013–18
Linkage isomerism in trimeric and polymeric 2,3-cis-procyanidins, 1209–16
- ISOMERIZATION**
Amide-catalyzed isomerization of 5,6-dihydroisoquinolines: a novel synthesis of 1,2-dihydroisoquinolines, 63–8
Steric factors in heterocyclic rearrangements. N-Methyl-N-phenylhydrazones of 3-benzoyl-5-phenyl-1,2,4-oxadiazole, 165–7
Synthesis of the natural enantiomers of irones from (+)-citronellal, 1303–9
Heterocyclic polyfluoro compounds. Part 41. Photochemical isomerization of 1-substituted hexafluoro-1H-azepines: hexafluoro-2-azabicyclo[3.2.0]hepta-3,6-dienes and their reactions, 2105–9
Control of regioselectivity in the addition of sulfonyl chlorides to 3,3-dimethylbutyne (tert-butylacetylene) as a method for differential functionalization of triple bonds, 2197–201
Photoresponsive crown ethers. Part 6. Ion transport mediated by photoinduced cis-trans interconversion of azobis(benzocrown ethers), 2735–9
Photoresponsive crown ethers. Part 7. Proton and metal ion catalyses in the cis-trans isomerization of azopyridines and an azopyridine-bridged cryptand, 2741–7
- ISOPRENE**
Acid-catalyzed condensation of isoprene with phenols. Formation of 2,2-dimethylchromans, 335–8
- ISOPROPENYL**
The pyrolysis of 4-alkylidene-3,3,5,5-tetramethyl-1-pyrazolines, 2655–62
- ISOPROPENYL BENZIMIDAZOLINONE**
N-Bridged heterocycles. Part 5. α,ω -Bis(2-oxobenzimidazolyl)alkanes and -ethers as selective ligands for Group IA and IIA metals, 261–70
- ISOPROPYL**
Naturally occurring dibenzofurans. Part 1. A synthesis of cannabifuran, 1605–10
- ISOPROPYLIDENE**
Cyclodienones. Part 8. Hydrolysis of 5-oxo-2,4-di-tert-butylcyclopenta-1,3-dienecarbonitrile, 243–6
Solution photochemistry of 4-alkylidene-3,3,5,5-tetramethyl- Δ^1 -pyrazolines, 2647–53
- ISOPROPYLIDENEGLUCOFURANOSE**
Triazines and related products. Part 25. Methods for the attachment of sugar residues to cytotoxic 1,3,5-triazines, 1821–5
- ISOPROPYLIDENEGLYCERALDEHYDE**
Halogenated enolates. Synthesis of 2-deoxypentose derivatives from D-glyceraldehyde, 2063–6
- ISOPROPYLIDENEMETHYLPYRAZOLINE**
Solution photochemistry of 4-alkylidene-3,3,5,5-tetramethyl- Δ^1 -pyrazolines, 2647–53
- ISOPROPYLMETHYLBENZOFURAN CARBOXALDEHYDE**
Naturally occurring dibenzofurans. Part 1. A synthesis of cannabifuran, 1605–10
- ISOQUINOLINE**
Amide-catalyzed isomerization of 5,6-dihydroisoquinolines: a novel synthesis of 1,2-dihydroisoquinolines, 63–8
Studies on intramolecular cycloaddition reactions of some

- ISOQUINOLINE**(contd)
isoquinolinium salts, 249–55
Rearrangement of 1-(α -hydroxybenzyl)-1,2,3,4-tetrahydroisoquinolines to 1-phenyl-2,3,4,5-tetrahydro-1H-3-benzazepines, 2163–7
- ISOQUINOLINIUM**
Studies on intramolecular cycloaddition reactions of some isoquinolinium salts, 249–55
- ISOQUINOLONE**
Studies on $S_{RN}1$ reactions. Part 6. Synthesis of 3-methyl derivatives of the alkaloids thalactamine, doryanine, and 6,7-dimethoxy-N-methyl-1(2H)-isoquinolone, 1149–52
- ISOQUINOLYL**
Photolysis of quinolyl and isoquinolyl azides in the presence of methoxide ions. Synthesis of benzodiazepines and pyridozepines 431–3
- ISOROTENONE**
New synthetic methods in rotenoid chemistry: [$7^{13}C$]– and [$7^{14}C$]–(–)-rotenone and (\pm)-isorotenone, 773–8
Regioselective ether cleavages of rotenoids: spiro-ether formation and stereoselective isotopic labeling of (E)– or (Z)–prenyl methyl groups in (6aS, 12aS)–rot-2'-enonic acid, 779–88
- ISOXAZOLE**
Asymmetric synthesis of a β -ketol moiety via 3,5-disubstituted isoxazoles: application to (+)–(S)–[6]–gingerol, 2983–7
- ISOXAZOLOBENZODIAZEPINONE**
Tetrahydroisoxazolo[2,3-d][1,4]benzodiazepinone ring system: synthesis, stereochemistry, and conformation, 2701–5
- ISOXAZOLOPYRIDINE**
Syntheses and reactivities of 3-methylisoxazolo[4,5-b]pyridines, 2391–4
- ISOXAZOLYLMALONAMATE**
Syntheses and reactivities of 3-methylisoxazolo[4,5-b]pyridines, 2391–4
- JASMONATE**
Ketene silyl acetal chemistry; simple synthesis of methyl jasmonate and related compounds by utilising ketene methyl dimethyl-tert-butylsilyl acetal, 1099–104
- JULANDINE**
Synthesis of the alkaloids, 3',4'-dimethoxy-2-(2-piperidyl)acetophenone, julandine, and cryptopleurine, 2487–90
- JUNEOLE**
Synthetic studies on terpenoids. Part 7. Synthetic studies leading to the total synthesis of eudesmane sesquiterpenes, 2547–51
- KADSURIN**
Conformation study of dibenzocyclooctadiene systems related to the schizandrin-type lignans, 2353–8
- KAUREADIENOATE**
Preparation of kaurenolide and its 5 α ,6 α (H)–isomer, 517–19
- KAURENOATE**
Preparation of kaurenolide and its 5 α ,6 α (H)–isomer, 517–19
- KAURENOID**
The acyloin condensation of the diterpenoid fujenal, 611–14
- KAURENOLIDE**
Preparation of kaurenolide and its 5 α ,6 α (H)–isomer, 517–19
- KETENE**
Ketene silyl acetal chemistry; simple synthesis of methyl jasmonate and related compounds by utilising ketene methyl dimethyl-tert-butylsilyl acetal, 1099–104
- KETENIMINE**
Ketenimine chemistry. Part 1. The reaction of triaryl ketenimines with arenesulfenyl chlorides, 1255–6
- KETO**
A practical catalytic method for the preparation of steroidal 1,4-dien-3-ones by oxygen atom transfer from iodoxybenzene to diphenyl diselenide, 1947–52
- KETOGLUTARATE**
Hydroxamic acid production and active-site induced Bamberger rearrangement from the action of α -ketoglutarate dehydrogenase on 4-chloronitrosobenzene, 345–50
- KETOISOQUINOLINE**
Amide-catalyzed isomerization of 5,6-dihydroisoquinolines: a novel synthesis of 1,2-dihydroisoquinolines, 63–8
- KETONE**
Asymmetric synthesis with carbohydrates. Part 2. Asymmetric Grignard addition reactions conditioned by chiral magnesium alkoxides, 197–200
Conversion of aromatic ketones into π -arylalkanoic acids. Oxidation by thallium(III) and by halogens, 235–42
- Reactions of iodine(I) azide with $\alpha\beta$ -unsaturated carbonyl compounds, 327–33
- Indole β -nucleophilic substitution. Part 3. Synthesis of four isomeric pyrido[x',y':5,6]oxepino[3,2-b]indolones, 435–9
- Fluorocarbon derivatives of nitrogen. Part 6. Reactions of some perfluorinated nitroso compounds with hydrogen sulfite ion: conversion of fluorocarbon olefins into perfluoro-ketone oximes 685–8
- The chemistry of pseudomonic acid. Part 4. α,β -Unsaturated ketones derived from monic acid A and its derivatives, 729–34
- Triazolopyridines. Part 2. Preparation of 7-substituted triazolo[1,5-a]pyridines by directed lithiation, 967–71
- Lewis acid-catalyzed reactions of aryl cyclopropyl ketones. Scope and mechanism, 1029–35
- Electrophilic fluorination of some steroidal α,β -unsaturated ketones 1105–10
- Studies related to maytansinoids, 1541–51
- Oxidation of benzylic hydrocarbons with benzeneseleninic anhydride and related reactions, 2179–85
- Asymmetric synthesis of a β -ketol moiety via 3,5-disubstituted isoxazoles: application to (+)–(S)–[6]–gingerol, 2983–7
- KETONES**
C-Aromatic steroids. Synthesis of 11,17 ξ -dimethoxy-18-norandrosta-4,8,11,13-tetraen-3-one, 201–4
- KIGELIA**
A new synthesis of kigelina. Conversion of elemicin into kigelina, 2099–100
- KIGELIN**
A new synthesis of kigelina. Conversion of elemicin into kigelina, 2099–100
- KINETICS**
Ring transformation of 3-(2-aminoaryl)-1,2,4-oxadiazoles into 3-acylaminoindazoles; extension of the Boulton-Katritzky scheme, 759–66
- Formation of N-substituted trichloroacetamides from amines and hexachloroacetone, 945–8
- Phosphonation of aryl halides by copper(I) complexes of trialkyl phosphites, 1143–8
- Kinetics and mechanism of the reaction of thionyl chloride with substituted acetophenone semicarbazones. The synthesis of 1,2,3-thiadiazoles, 1223–7
- Synthesis, resolution, and racemization studies of 1,2-epoxy-1,2-dihydrochrysenes, 1535–9
- Cycloelimination of β -silylethyl sulfoxides: alkene, alkyne, and vinylsilane forming reactions, 1563–9
- Formation of isocyanates by deoxygenation of C-nitrosocarbonyl compounds, 1571–4
- Phosphorylated sugars. Part 23. Synthesis and reactions of phosphodiester containing 2-aminoethanol and a polyfunctional alcohol and their behavior during acid- and base-catalyzed hydrolysis, 1733–43
- New oxidative systems for alcohols: molecular sieves with chromium(VI) reagents, 1967–73
- Crown ethers as molecular bromine carriers for bromination reactions, 2153–6
- Syntheses and reactivities of 3-methylisoxazolo[4,5-b]pyridines, 2391–4
- Biosynthesis of porphyrins and related macrocycles. Part 17. Chemical and enzymic transformation of isomeric aminomethylbilanes into uroporphyrinogens: proof that unrearranged bilane is the preferred enzymic substrate and detection of a transient intermediate, 2413–26
- Esters of α -arylalkanoic acids from 'masked' α -haloalkyl aryl ketones and silver salts: synthetic, kinetic, and mechanistic aspects, 2575–81
- The pyrolysis of 4-alkylidene-3,3,5,5-tetramethyl-1-pyrazolines, 2655–62
- KOKUSAGININE**
Isolation and identification of three new phenolic furoquinoline alkaloids from *Teclea verdoorniana* Exell and *Mendonca* (Rutaceae), 909–15
- LABELED**
Partial synthesis of [$17^{13}C$; 15,17- 3H]gibberellin A₂₉ from gibberellin A₃, 699–706
- Aspects of the chemistry of dehydromethionine, 1283–90
- LABELING**
New synthetic methods in rotenoid chemistry: [$7^{13}C$]– and [$7^{14}C$]–(–)-rotenone and (\pm)-isorotenone, 773–8
Regioselective ether cleavages of rotenoids: spiro-ether formation

LABELING(contd)

and stereoselective isotopic labeling of (E)- or (Z)-prenyl methyl groups in (6aS, 12aS)-rot-2'-enonic acid, 779-88
Aspects of the chemistry of dehydromethionine, 1283-90

LACTAM

Synthetic application of azetidin-2-ones to a synthesis of furan derivatives, 257-60
Studies related to penicillins. Part 21. β -Elimination reactions of S,S-dioxides of penicillanic esters, 595-602
Synthesis of β -lactams from imines and 1-lithiooxy-2-phenylacetylene, 2193-6

LACTAMASE

Synthesis of novel β -lactamase inhibitors from clavulanic acid. Preparation and chemical reactions of (5R)-3-vinyl-4-oxa-1-azabicyclo[3.2.0]hept-2-en-7-one, 1509-17

LACTONE

Indole β -nucleophilic substitution. Part 3. Synthesis of four isomeric pyrido[x',y':5,6]oxepino[3,2-b]indolones, 435-9
Preparation of kaurenolide and its 5 α ,6 α (H)-isomer, 517-19
Partial synthesis of [17-¹³C; 15,17-³H]gibberellin A₂₉ from gibberellin A₃, 699-706
Thermal rearrangement reactions of tricarbonyliron lactone complexes, 1355-61
Dehydrogenation of lactones using benzeneseleninic anhydride. X-ray crystal structure of 3 β -acetoxy-14 α -hydroxy-17 α -oxa-D-homo-5 α -androst-15-en-17-one, 1919-22
Halogenated enolates. Synthesis of 2-deoxypentose derivatives from D-glyceraldehyde, 2063-6
Acid-catalyzed lactonization and iodolactonization of norbornene-carboxylic acids, 2461-5
Isolation and structure determination of norditerpene dilactones from *Podocarpus saligna* D. Don, 2589-93

LACTONIZATION

Pyrrrolizidine alkaloid analogs. Synthesis of eleven-membered macrocyclic diesters of retronecine, 1117-21
Acid-catalyzed lactonization and iodolactonization of norbornene-carboxylic acids, 2461-5

LAUDANOSINE

Nuclear magnetic resonance and x-ray stereochemical studies on 1-benzyltetrahydroisoquinolinium salts, 2067-77

LAUDANOSINIUM

Nuclear magnetic resonance and x-ray stereochemical studies on 1-benzyltetrahydroisoquinolinium salts, 2067-77

LEAD

Reactions of mercury(II) acetate with nitrogen compounds. Part 9. Oxidations of the bis(4-nitrophenylhydrazones) of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553-5
Benzenesulfenyl radicals. Reactivity of 4'-methoxy- and 4'-methoxy-2-nitrobenzenesulfenyl radicals, 3049-53

LEWIS

Synthesis of ribosyl and arabinosyl cyanides by reaction of 1-O-acyl sugars with trimethylsilyl cyanide, 903-7

LICHEN

Naturally occurring dibenzofurans. Part 2. The synthesis of schizopeltic acid, 2373-7

LIGAND

N-Bridged heterocycles. Part 5. α,ω -Bis(2-oxobenzimidazolyl)alkanes and -ethers as selective ligands for Group IA and IIA metals, 261-70

Catalytic hydrogenation of 3,4-epoxybut-1-ene with cationic rhodium complexes, 855-9

LIGNAN

Synthesis of 2,6-diaryl-4,8-dihydroxy-3,7-dioxabicyclo[3.3.0]octanes, 175-81
Synthesis and NMR spectra of 2,6- and 2,4-diaryl-3,7-dioxabicyclo[3.3.0]octanes, 183-90
Synthesis of (-)-steganone, 521-5
Structure and synthesis of the aryltetralin lignans hypophyllanthin and nirtetralin, 999-1003

LIMASPERMINE

Organoiron complexes in organic synthesis. Part 22. Total synthesis of (\pm)-limaspermene and formal synthesis of (\pm)-aspidospermine using organoiron complexes, 2467-76

LINKAGE

Linkage isomerism in trimeric and polymeric 2,3-cis-procyanidins, 1209-16

LIPOPOLYSACCHARIDE

Syntheses of the biological repeating units of *Salmonella* serogroups A, B, and D₁ O-antigenic polysaccharides, 2973-82

LITHIATION

Triazolopyridines. Part 2. Preparation of 7-substituted triazolopyridines by directed lithiation, 967-71

Regioselective β -metalations of 2-substituted furan and N-methylpyrrole derivatives employing the directing effect of the oxazolino group: syntheses of 2,3-disubstituted furans and N-methylpyrroles, 1343-7

Lithiations of 1-trialkylsilylpyrroles: nitrogen to carbon silyl group rearrangement, 1833-6

Practicable syntheses of 2-hydroxymethyl-substituted benzimidazoles and 2-formylbenzimidazole, 2871-5

A fragmentation approach to a maytansine synthon: lithium dimethylcuprate-opening of substituted cyclohexene epoxides. X-ray structure determination of ethyl t-2,3-epoxy-c-6-p-methoxybenzoyloxy-1-methylcyclohexane-r-1-carboxylate, 2885-96

LITHIO

Indole β -nucleophilic substitution. Part 3. Synthesis of four isomeric pyrido[x',y':5,6]oxepino[3,2-b]indolones, 435-9

LITHIOOXY

Synthesis of β -lactams from imines and 1-lithiooxy-2-phenylacetylene, 2193-6

LITHIOOXYPHENYLACETYLENE

Synthesis of β -lactams from imines and 1-lithiooxy-2-phenylacetylene, 2193-6

LITHIOPHENYLSULFONYLINDOLE

Indole β -nucleophilic substitution. Part 3. Synthesis of four isomeric pyrido[x',y':5,6]oxepino[3,2-b]indolones, 435-9

LITHIOTRIAZOLOPYRIDINE

Triazolopyridines. Part 2. Preparation of 7-substituted triazolopyridines by directed lithiation, 967-71

LITHIUM

Synthesis of (R,S)-(5Z,8E,10E)-12-hydroxyheptadeca-5,8,10-trienoic acid and of (R,S)- and (S)-(5Z,8Z,10E,14Z)-12-hydroxyeicosa-5,8,10,14-tetraenoic acid and their racemic 5,6,8,9-tetra-deuterioisomers, 545-52

LOCUSTA

Synthesis of polyoxygenated trans-decalins as potential insect antifeedants, 2157-62

LUPEOL

Isolation and identification of three new phenolic furoquinoline alkaloids from *Teclea verdoorniana* Excell and Mendonca (Rutaceae), 909-15

LYSINE

Studies of enzyme-mediated reactions. Part 14. Stereochemical course of the formation of cadaverine by decarboxylation of (2S)-lysine with lysine decarboxylase (E.C. 4.1.1.18) from *Bacillus cadaveris*, 449-53

MACROCYCLIC

Pyrrrolizidine alkaloid analogs. Synthesis of eleven-membered macrocyclic diesters of retronecine, 1117-21

MAGNESIUM

Polyhaloaromatic compounds. Part 46. Circumstantial evidence for the intermediacy of radical anions during the reaction of magnesium with ω -bromoalkoxypolychloro-arenes and -heteroarenes, 93-9

Dihydrostilbenes of *Cannabis*. Synthesis of canniprene, 1467-75
Quinone-capped porphyrins; NMR studies of static and dynamic stereochemistry and coordination properties, 1617-24

Halogenated enolates. Synthesis of 2-deoxypentose derivatives from D-glyceraldehyde, 2063-6

MALONATE

Studies on v-triazoles. Part 4. The 4-methoxybenzyl group, a versatile N-protecting group for the synthesis of N-unsubstituted v-triazoles, 627-30

Reactivity of the perhaloalkanes bromochloro- and dibromodifluoromethane with nucleophiles. Part 4. Condensation with carbanions, 1063-5

MALONONITRILE

Organoiron complexes in organic synthesis. Part 18. Spiroannellation reactions of some bifunctional tricarbonyl(cyclohexadienyl)iron hexafluorophosphate salts, 489-97

MALONYL

Heterocyclic syntheses with malonyl dichloride. Part 13. 6-Chloro-4-hydroxy-2-oxopyran-3-carboxanilides from N-sulfinylanilines and further reaction of malonyl dichloride with thiocyanates, 1575-8

Heterocyclic syntheses with malonyl chloride. Part 14. A direct synthesis of 4,6-dichloropyrimidines with 5-benzyl or -phenyl

- MALONYL**(contd)
and 2-thioalkyl or -thiophenyl substituents, 2499-503
- MANNICH**
Synthesis of dihydrobenzofurans from phenolic Mannich bases and their quaternized derivatives, 841-8
- MANNOFURANOSYLAZOXYMANNOFURANOSIDE**
Oxidation of aldose oximes. Formation and structure of hydroxydiazene oxidase acetals and preparation of hydroximolactones. X-ray crystal structure of 2,3:5,6-di-O-isopropylidene- α -D-mannofuranosyl-O,N,N-azoxy 2,3:5,6-di-O-isopropylidene- α -D-mannofuranoside, 2139-47
- MARASMIUS**
Studies in terpenoid biosynthesis. Part 27. The acetate and mevalonate labeling patterns of the sesquiterpenoid, alliacolide, 2787-90
- MAYTANSINE**
A fragmentation approach to a maytansine synthon: lithium dimethylcuprate-opening of substituted cyclohexene epoxides. X-ray structure determination of ethyl t-2,3-epoxy-c-6-p-methoxybenzoyloxy-1-methylcyclohexane-r-1-carboxylate, 2885-96
- MAYTANSINOID**
Studies related to maytansinoids, 1541-51
- MECHANICS**
Photo-induced transformations. Part LXI. Syntheses of some six-membered and eight-membered lactams of the β -homo- and α -nor- β , β -dihomocholestane series by the photo-Beckmann rearrangement, 931-8
- MECHANISM**
Amide-catalyzed isomerization of 5,6-dihydroisoquinolines: a novel synthesis of 1,2-dihydroisoquinolines, 63-8
Polyhaloaromatic compounds. Part 46. Circumstantial evidence for the intermediacy of radical anions during the reaction of magnesium with ω -bromoalkoxy polychloro-arenes and -heteroarenes, 93-9
Steric factors in heterocyclic rearrangements. N-Methyl-N-phenylhydrazones of 3-benzoyl-5-phenyl-1,2,4-oxadiazole, 165-7
Conversion of aromatic ketones into π -arylalkanoic acids. Oxidation by thallium(III) and by halogens, 235-42
Photochemical reactions of N,N-dialkyl- α -thioamides, 247-8
6-Farnesyl-5,7-dihydroxy-4-methylphthalide oxidation mechanism in mycophenolic acid biosynthesis, 365-73
Ring contractions of thiochroman-4-ones and thiochromen-4-ones 395-402
Unusual Michael reaction of acyclic 1,3-dicarbonyl compounds with nitroolefins. A novel pyrrole synthesis, 441-7
Radical rearrangements of 1,3-dimethylindene derivatives: a comparison with rearrangement by 1,5-sigmatropy, 467-72
Pyrimidine derivatives and related compounds. Part 42. Isolation of the intermediates in the ring transformation of 1,3-oxazine-2,4-diones into pyrimidines and pyrazoles, and their structure determination by nitrogen-15 nuclear magnetic resonance analysis, 473-5
Studies of heterocyclic compounds. Part 28. Condensation of 3-substituted 5-phenyl-1,2-dithiolylium salts with 2-amino-N-heterocycles, 499-507
Synthesis of (R,S)-(5Z,8E,10E)-12-hydroxyheptadeca-5,8,10-trienoic acid and of (R,S)- and (S)-(5Z,8Z,10E,14Z)-12-hydroxyeicosa-5,8,10,14-tetraenoic acid and their racemic 5,6,8,9-tetradeuterioisomers, 545-52
Reactions of mercury(II) acetate with nitrogen compounds. Part 9. Oxidations of the bis(4-nitrophenylhydrazones) of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553-5
Studies on anhydroosazones. Part 5. Structure and anomeric configuration of the C-nucleoside analogs obtained from the dehydration of D-glucosyl- and D-mannosyl hept-2-ulose phenylosazones, 557-62
Reactions of spiroindazoles containing keto groups. Part 2. Evidence for a spirobenzocyclopropene intermediate in the thermolysis of anthrone-10-spiro-3'-3'H-indazoles to benz[a]aceanthrylenes, 577-9
Addition reactions of benzo[b]thiophene. Part 3. Addition and ring-opening reactions with phenolic ethers, 615-21
1,3,2-Oxazaphospholidine-2-thiones from (+)-norephedrine: stereospecific ring opening, possibly by an elimination-addition mechanism, 639-43
Homolytic displacements at carbon. Part 8. Synthesis of 1-cyano-2-(trichloroethyl)cyclopropanes from allylcobaloximes via but-3-enylcobaloximes and 1-bromo-1-cyanobut-3-enes, 645-51
Sulfur extrusion reactions. Part 5. Reactions of monoprotic thioureas with ethyl α -chloroacetate, ethyl bromomalonate, and ethyl bromocynoacetate, 653-6
Reactions involving fluoride ion. Part 25. A fluoride-ion-induced skeletal rearrangement, 673-6
Fluorocarbon derivatives of nitrogen. Part 6. Reactions of some perfluorinated nitroso compounds with hydrogen sulfite ion: conversion of fluorocarbon olefins into perfluoro-ketone oximes 685-8
Ring transformation of 3-(2-aminoaryl)-1,2,4-oxadiazoles into 3-acylaminoindazoles; extension of the Boulton-Katritzky scheme, 759-66
Base-catalyzed fragmentation of 5,6 β -epoxy-3 β -hydroxy-5 β -cholestan-19-ol, 799-803
Addition reactions of benzo[b]thiophene. Part 4. Reactions of some acetoxy- and hydroxybenzo[b]thiophenes with benzene or toluene, 815-21
Synthesis of alkanesulfonyl chlorides from allylcobaloximes and trichloromethanesulfonyl chloride, 849-54
Catalytic hydrogenation of 3,4-epoxybut-1-ene with cationic rhodium complexes, 855-9
Studies in metal-ammonia reduction. Part 3. Reduction and reductive methylation of some acynaphthalenes with metal-ammonia solutions, 875-80
Evidence for the biogenesis of 1 α -hydroxy-trans-eudesmanolides, 881-4
Base catalyzed rearrangements involving ylide intermediates. Part 14. Rearrangement of 4-oxidoanilinium ylides and 3-oxidoanilinium betaines, 893-901
Ylide formation and rearrangement in the thermal reaction of 6H-dibenzo[b,d]thiopyran and its 6-phenyl derivative with diazo alkanes, 917-22
Steroidal N-nitroamines. Part 1. Denitroamination of steroidal 4 β -, 6 β -, 7 α -, and 7 β -nitroamines, 923-9
Formation of N-substituted trichloroacetamides from amines and hexachloroacetone, 945-8
Synthetic and mechanistic aspects of gas-liquid phase-transfer catalysis: carboxylate esters, 993-7
Lewis acid-catalyzed reactions of aryl cyclopropyl ketones. Scope and mechanism, 1029-35
Reactivity of the perhaloalkanes bromochloro- and dibromodifluoromethane with nucleophiles. Part 4. Condensation with carbanions, 1063-5
Interaction of copper complexes derived from 1,2-quinone monooximes (2-nitrosophenols) with amines, 1075-8
Alkylated steroids. Part 5. Formation of 17 β -acetylenic steroids from hindered 20-oxo compounds via Grignard derived enolates 1079-84
Gas-liquid phase-transfer synthesis of phenyl ethers and sulfides with carbonate as base and carbowax as catalyst, 1137-41
Biosynthesis of aristolochic acid, 1153-5
Investigations into the mechanism of the action of alkali in methanol on 3,6-dibenzyl-s-tetrazines and their 1,4-dihydro-derivatives: the role of s-tetrazines as hydride acceptors and an x-ray determination of the structure of 3,6-bis(4-chlorobenzyl)-1,4-dihydro-s-tetrazine, 1165-70
Kinetics and mechanism of the reaction of thionyl chloride with substituted acetophenone semicarbazones. The synthesis of 1,2,3-thiadiazoles, 1223-7
Heterocyclic polyfluoro-compounds. Part 37. Diels-Alder reactions of trichloro- and trifluoro-1,2,4-triazine, 1245-9
Cyclization of $\gamma\delta$ -unsaturated sulfenic acids to give thietane 1-oxide derivatives. Crystal structure of rel-(1R,2S,3R,4R)-3-hexyl-2-(hydroxymethyl)-4-methylthietane 1-oxide, 1325-32
Thermal rearrangement reactions of tricarbonyliron lactone complexes, 1355-61
Dye-sensitized photooxygenation of the Aspidosperma alkaloids vincadifformine and tabersonine. A new, convenient approach to vincamine, 1371-9
Studies in metal-ammonia reduction. Part 4. Reduction and reductive methylation of 7-methoxy-3,4-dihydrophenanthren-1(2H)-one and 7-methoxy-1,2-dihydrophenanthren-4(3H)-one, 1381-4
Synthesis, resolution, and racemization studies of 1,2-epoxy-1,2-dihydrochrysene, 1535-9
Homopolysaccharides interaction with the dimethyl sulfoxide-paraformaldehyde cellulose solvent system. Selective oxidation of amylose and cellulose at secondary alcohol groups, 1579-85

MECHANISM(contd)

- Fluorocarbon derivatives of nitrogen. Part 8. Reactions between heteroaromatic N-imines (N-iminopyridinium and N-iminoquinolinium ylide) and perfluoropropene, 2H-pentafluoropropene, perfluorobut-2-ene, perfluoro(2-methylpent-2-ene), perfluorobut-2-yne, and perfluoropyridine: synthesis of fluorinated 3-azaindolizines (pyrazolo[1,5-a]pyridines), 1593-600
- Intramolecular acetalization of naphthoquinones, 1933-6
- Stereochemistry of the reduction of 3 β -benzoyloxycholest-5-en-4-one with sodium borohydride, 1937-40
- Photoinduced transformations. Part 63. Photorearrangement of 17 β -acetoxy-4,4-dimethylestr-5-en-3 β -yl nitrite with monochromatic light, 1963-6
- Formose reactions. Part 3. Selective formose reaction catalyzed by organic bases, 1975-9
- Thiadiazoles and thiadiazolines. Part 3. Synthesis of triazol-3-yl- Δ^2 -1,3,4-thiadiazolines and a new synthesis of unsymmetrical 2,5-disubstituted 1,3,4-thiadiazoles, 1987-91
- Aryl nitrenes from N,N'-diarylbenzoquinone diimine N,N'-dioxides and N-arylbenzoquinone imine N-oxides, 2023-6
- Alkyl nitrenes from N-alkylbenzoquinone imine N-oxides, 2027-34
- Photolysis of N-alkoxybenzoquinone imine N-oxides, 2035-9
- Stereochemical and mechanistic aspects of the base-promoted cyclization of o-vinylphenylhydrazonyl chlorides under phase-transfer conditions, 2041-4
- Polyhalo allenes and acetylenes. Part 14. The reactions of perfluoro-1,2-dienes with dichloro- and difluorocarbene, and a new route to 1,1-dichloroperfluoro-1,2-dienes, 2203-6
- Polyhalo allenes and acetylenes. Part 15. Dipolar cycloadditions of N-phenylsydnone and aryl azides to perfluoropropadiene and perfluoropropyne, 2207-10
- Fluoro olefin chemistry. Part 14. Preparation and photochemical rearrangement of some acyclic perfluoroalkyl and polyfluoroalkyl olefins, 2211-17
- Fluoro olefin chemistry. Part 15. Thermal reaction of hexafluoropropene with hydrocarbon olefins, 2219-26
- Intramolecular reactions of N-nitrenes: oxidation of 3-amino-2-(arylalkyl)quinazolin-4(3H)-ones, 2407-12
- Biosynthesis of porphyrins and related macrocycles. Part 17. Chemical and enzymic transformation of isomeric aminomethylbilanes into uroporphyrinogens: proof that unrearranged bilane is the preferred enzymic substrate and detection of a transient intermediate, 2413-26
- Biosynthesis of porphyrins and related macrocycles. Part 18. Proof by spectroscopy and synthesis that unrearranged hydroxymethylbilane is the product from deaminase and the substrate for cosynthetase in the biosynthesis of uroporphyrinogen-III, 2427-44
- Acid-catalyzed lactonization and iodolactonization of norbornene-carboxylic acids, 2461-5
- 2,4-Dinitrobenzenesulfonylnitrene: addition to (Z)- and (E)-1-phenylpropene, 2491-7
- The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 2. Esters of (S)-hexahydroxydiphenic acid with D-glucopyranose (⁴C₁), 2525-34
- The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 3. Esters of (R) and (S)-hexahydroxydiphenic acid and dehydrohexahydroxydiphenic acid with D-glucopyranose (¹C₄ and related conformations), 2535-45
- Esters of α -arylalkanoic acids from 'masked' α -haloalkyl aryl ketones and silver salts: synthetic, kinetic, and mechanistic aspects, 2575-81
- Solution photochemistry of 4-alkylidene-3,3,5,5-tetramethyl- Δ^1 -pyrazolines, 2647-53
- Studies on plant tissue cultures. Part 36. Biosynthesis of a retrochalcone, echinatin, and other flavonoids in the cultured cells of *Glycyrrhiza echinata*. A new route to a chalcone with transposed A- and B-rings, 2725-34
- Synthesis of 1,2,3,9b-tetrahydro-9b-hydroxy-1-phenylpyrrolo[2,1-a]isoindol-5-one via the hydrazinolysis of 2-phenyl-2-(2-phthalimidoethyl)indan-1,3-dione, 2783-6
- Studies in terpenoid biosynthesis. Part 27. The acetate and mevalonate labeling patterns of the sesquiterpenoid, alliocolide, 2787-90
- Oxidation of alkoxyphenols. Part 27. The mechanism of formation of dibenzo[d,f][1,3]dioxepins, 2863-6
- The reaction of tris(4-methoxyphenyl)methyl chloride with sodium methoxide. Nonoperation of single-electron transfer paths, 3021-5
- Benzenesulfenanilidyl radicals. Reactivity of 4'-methoxy- and 4'-methoxy-2-nitrobenzenesulfenanilidyl radicals, 3049-53
- MELDRUMS
The reaction of Meldrum's acid with α -dicarbonyl monohydrazones: a new synthesis of pyridazin-3-ones, 1845-53
- MEMBRANE
Active and passive transport of amino acid and oligopeptide derivatives by artificial ionophore-potassium ion complexes, 2359-63
- MENTHENE
Reaction of lithioenamines with sulfite esters. Stereospecific and stereoselective synthesis of β -enamino and β -imino sulfoxides, 1183-6
- MENTHYL
Asymmetric induction in the reduction of optically active N-alkylidenesulfonamides by metal hydrides. A new, efficient enantioselective route to chiral amines, 339-43
- MERCAPTO
Photochemical reactions of N,N-dialkyl- α -thioxoamides, 247-8
The chemistry of 4-mercaptoazetidin-2-ones. Part 3. Synthesis of 6-phenoxyacetamido-2-alkylidenepenam-3-carboxylic acids, 1429-33
- MERCAPTOAZETIDINONE
Photochemical reactions of N,N-dialkyl- α -thioxoamides, 247-8
The chemistry of 4-mercaptoazetidin-2-ones. Part 3. Synthesis of 6-phenoxyacetamido-2-alkylidenepenam-3-carboxylic acids, 1429-33
- MERCURY
Reactions of mercury(II) acetate with nitrogen compounds. Part 9. Oxidations of the bis(4-nitrophenylhydrazones) of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553-5
- MEROTERPENOID
Studies on fungal metabolites. Part 3. Carbon-13 NMR spectral and structural studies on austin and new related meroterpenoids from *Aspergillus ustus*, *Aspergillus varicolor*, and *Penicillium diversum*, 2687-92
- MESOIION
Photochemical and thermal reactions of heterocycles. Part 3. Photoisomerization, photofragmentation, and photodimerization of mesoionic 1,3-dithiol-4-one and -4-imine derivatives, 1885-9
- MESOPORPHYRIN
Synthetic approaches to versatile hemoprotein model compounds built from porphyrins and peptides, 1441-8
Quinone-capped porphyrins: synthesis and some chemical properties, 1611-15
- META
Carbene insertion into [2.2]metacyclophane-1,10-dione: a convenient route to [3.2]- and [3.3]-metacyclophanes, 477-81
- METAB
The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 1. Introduction. Naturally occurring galloyl esters, 2515-24
The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 2. Esters of (S)-hexahydroxydiphenic acid with D-glucopyranose (⁴C₁), 2525-34
The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 3. Esters of (R) and (S)-hexahydroxydiphenic acid and dehydrohexahydroxydiphenic acid with D-glucopyranose (¹C₄ and related conformations), 2535-45
- METABOLITE
The biosynthesis of chlorine-containing metabolites of *Periconia macrospinoso*, 3037-9
- METACYCLOPHANE
Carbene insertion into [2.2]metacyclophane-1,10-dione: a convenient route to [3.2]- and [3.3]-metacyclophanes, 477-81
[4.2]- and [4.3]-Metacyclophanes, 2369-72
- METACYCLOPHANEDIONE
Carbene insertion into [2.2]metacyclophane-1,10-dione: a convenient route to [3.2]- and [3.3]-metacyclophanes, 477-81
[4.2]- and [4.3]-Metacyclophanes, 2369-72
- METAL
N-Bridged heterocycles. Part 5. α,ω -Bis(2-oxobenzimidazoliny)alkanones and -ethers as selective ligands for Group IA and IIA metals, 261-70
- METALATION
Quinone-capped porphyrins: synthesis and some chemical properties, 1611-15

- METHANE**
Compounds with bridgehead nitrogen. Part 43. The reaction between trans-2-aminocycloalkane thiols and formaldehyde, 2777-81
- METHANESULFENYL**
Control of regioselectivity in the addition of sulfenyl chlorides to 3,3-dimethylbutyne (tert-butylacetylene) as a method for differential functionalization of triple bonds, 2197-201
- METHANOBENZAZOCINE**
Bridged-ring nitrogen compounds. Part 6. Synthesis of the 2,5-methano-3-benzazocine ring system, 2927-33
- METHANOBENZAZOCINEDIONE**
Bridged-ring nitrogen compounds. Part 6. Synthesis of the 2,5-methano-3-benzazocine ring system, 2927-33
- METHANOEPOXY**
Synthesis of stable prostacyclin analogs from 2,3-disubstituted bicyclo[3.2.0]heptan-6-ones, 823-30
- METHANOL**
Polyhalo allenes and acetylenes. Part 14. The reactions of perfluoro-1,2-dienes with dichloro- and difluorocarbene, and a new route to 1,1-dichloroperfluoro-1,2-dienes, 2203-6
- METHANOLYSIS**
Synthesis of bis(imides) and bis(half amides) of N,N'-ethylenebis(i-minodiacetic acid), 2693-6
- METHANOPROSTAGLANDIN**
Synthesis of stable prostacyclin analogs from 2,3-disubstituted bicyclo[3.2.0]heptan-6-ones, 823-30
- METHIONINE**
Aspects of the chemistry of dehydromethionine, 1283-90
- METHOXIDE**
Photolysis of quinolyl and isoquinolyl azides in the presence of methoxide ions. Synthesis of benzodiazepines and pyridozepines 431-3
- METHOXIDN**
Syntheses and reactivities of 3-methylisooxazolo[4,5-b]pyridines, 2391-4
- METHOXY**
Synthesis of gambirtannine derivatives by photocyclization of enamine intermediates, 59-62
Preparation and reactions of pyrylium salts containing α -pyridyl groups, 125-30
C-Aromatic steroids. Synthesis of 11,17 ξ -dimethoxy-18-norandrosta-4,8,11,13-tetraen-3-one, 201-4
Metabolites of the higher fungi. Part 19. Serpenone, 3-methoxy-4-methyl-5-prop-1-enylfuran-2(5H)-one, a new γ -butyrolactone from the fungus *Hypoxylon serpens* (Barrons strain) (Persoon ex Fries) Kickx, 215-21
Metal-assisted cycloadditions. Part 3. Reactions of dicarbonyl(η^5 -cyclopentadienyl) η^1 -2-methoxyallyl)iron with electron-deficient olefins and acetylenes, 301-6
Photolysis of quinolyl and isoquinolyl azides in the presence of methoxide ions. Synthesis of benzodiazepines and pyridozepines 431-3
Ketol formation by peracid oxidation of a tricyclic styrene, 657-64
A new procedure for olefin oxirane by peroxybenzimidic acid; synthesis of some carbohydrate-precursor oxiranes and other epoxides, 1009-11
Reactions of 3-acetylpropolone methyl ethers with guanidine and amidines, 1037-9
Reaction of some 1,4-benzoquinone monooximes with methanolic hydrogen chloride, 1095-8
Neoraufuracin and ambofuracin. Two novel 2-benzyl-2-O-(methyl- β -D-glucopyranos-2-yl)-trans-2,3-dihydrobenzofurans. Synthesis of the methylated aglycone, 1157-62
Studies in metal-ammonia reduction. Part 4. Reduction and reductive methylation of 7-methoxy-3,4-dihydrophenanthren-1(2H)-one and 7-methoxy-1,2-dihydrophenanthren-4(3H)-one, 1381-4
Synthesis of substituted dibenzophospholes. Part 2. Syntheses of intermediate biphenyls and quaterphenyls, 2299-315
Acid- and base-catalyzed reactions of 4 β ,5 β - and 4 α ,5 α -epoxyandrostane-3,17,19-trione, 2611-15
Formation of some 3-aryl-3,4-dihydroisocoumarins by thermal ring closure of stilbene-2-carboxylic acids, 2819-25
Oxidation of alkoxyphenols. Part 27. The mechanism of formation of dibenzo[d,f][1,3]dioxepins, 2863-6
The biosynthesis of chlorine-containing metabolites of *Periconia macrospinos*, 3037-9
- METHOXYALLYLDICARBONYLCYCLOPENTADIENYLIRON**
Metal-assisted cycloadditions. Part 2. Reactions of dicarbonyl(η^5 -cyclopentadienyl)(η^1 -3-methoxyallyl)iron with electron-deficient olefins and acetylenes, 295-300
Metal-assisted cycloadditions. Part 3. Reactions of dicarbonyl(η^5 -cyclopentadienyl) η^1 -2-methoxyallyl)iron with electron-deficient olefins and acetylenes, 301-6
- METHOXYANILINE**
Reaction of some 1,4-benzoquinone monooximes with methanolic hydrogen chloride, 1095-8
- METHOXYANNOMONTINE**
Alkaloids of the Annonaceae. Part 33. Annomontine and methoxyannomontine, two new pyrimidine- β -carboline-type alkaloids from *Annona montana*, 1205-8
- METHOXYAZEPINE**
Photolysis of quinolyl and isoquinolyl azides in the presence of methoxide ions. Synthesis of benzodiazepines and pyridozepines 431-3
- METHOXYBENZENESULFENANILIDE**
Benzenesulfenylidyl radicals. Reactivity of 4'-methoxy- and 4'-methoxy-2-nitrobenzenesulfenylidyl radicals, 3049-53
- METHOXYBENZYL**
Studies on v-triazoles. Part 4. The 4-methoxybenzyl group, a versatile N-protecting group for the synthesis of N-unsubstituted v-triazoles, 627-30
Synthesis and configurational and conformational study of the diastereoisomeric 2-(α -hydroxybenzyl)- and 2-(α -methoxybenzyl)cyclohexanols and some of their derivatives, 3065-71
- METHOXYBENZYL BENZOFURAN**
Neoraufuracin and ambofuracin. Two novel 2-benzyl-2-O-(methyl- β -D-glucopyranos-2-yl)-trans-2,3-dihydrobenzofurans. Synthesis of the methylated aglycone, 1157-62
- METHOXYBENZYL CYCLOHEXANOL**
Synthesis and configurational and conformational study of the diastereoisomeric 2-(α -hydroxybenzyl)- and 2-(α -methoxybenzyl)cyclohexanols and some of their derivatives, 3065-71
- METHOXYBENZYL METHANOBENZAZOCINE**
Bridged-ring nitrogen compounds. Part 6. Synthesis of the 2,5-methano-3-benzazocine ring system, 2927-33
- METHOXYBENZYL TRIAZOLE**
Studies on v-triazoles. Part 4. The 4-methoxybenzyl group, a versatile N-protecting group for the synthesis of N-unsubstituted v-triazoles, 627-30
- METHOXYBENZYL TRIPHENYLPHOSPHONIUM**
Dihydrostilbenes of Cannabis. Synthesis of canniprene, 1467-75
- METHOXYBUTYLPHENOL**
Oxidation of alkoxyphenols. Part 26. The trimer of a 2,2'-diphenylquinone (1,1'-bicyclohexa-3,5-dienylidene-2,2'-dione), 2855-62
Oxidation of alkoxyphenols. Part 27. The mechanism of formation of dibenzo[d,f][1,3]dioxepins, 2863-6
- METHOXYCARBONYL**
Synthesis of (2RS,5RS,6SR)-3-methoxycarbonyl-7-oxo-6-phenoxyacetamido-1-azabicyclo[3.2.0]hept-3-ene-2-carboxylic acid, 2123-9
Syntheses and reactivities of 3-methylisooxazolo[4,5-b]pyridines, 2391-4
- METHOXYCARBONYLHEXYL**
Synthesis of some thietanoprostanoids, 1333-42
- METHOXYCARBONYLMETHYLISOXAZOLYLMALONAMATE**
Syntheses and reactivities of 3-methylisooxazolo[4,5-b]pyridines, 2391-4
- METHOXYCARBONYLQUINODIMETHANE**
Thermal, photochemical, and acid-catalyzed rearrangements of the spiro dimer of α,α' -bis(methoxycarbonyl)-o-quinodimethane. X-ray crystal structure of trans,trans-tetrakis(methoxycarbonyl)dibenzo[a,e]-cyclooctene, 2257-63
- METHOXYCYCLOPENTENE**
Metal-assisted cycloadditions. Part 3. Reactions of dicarbonyl(η^5 -cyclopentadienyl) η^1 -2-methoxyallyl)iron with electron-deficient olefins and acetylenes, 301-6
- METHOXYCYCLOPENTYLDICARBONYLCYCLOPENTADIENYL**
Metal-assisted cycloadditions. Part 3. Reactions of dicarbonyl(η^5 -cyclopentadienyl) η^1 -2-methoxyallyl)iron with electron-deficient olefins and acetylenes, 301-6

METHOXYCYCLOPENTYLDICARBONYLCYCLOPENTADIENYLIRON

Metal-assisted cycloadditions. Part 3. Reactions of dicarbonyl(η^5 -cyclopentadienyl) η^1 -2-methoxyallyl)iron with electron-deficient olefins and acetylenes, 301-6

METHOXYDECHLORINATION

Syntheses and reactivities of 3-methylisooxazolo[4,5-b]pyridines, 2391-4

METHOXYDIBUTYLDIPHENOQUINONE

Oxidation of alkoxyphenols. Part 26. The trimer of a 2,2'-diphenoquinone (1,1'-bicyclohexa-3,5-dienylidene-2,2'-dione), 2855-62

METHOXYDIMETHYLISOQUINOLONE

Studies on $S_{RN}1$ reactions. Part 6. Synthesis of 3-methyl derivatives of the alkaloids thalactamine, doryanine, and 6,7-dimethoxy-N-methyl-1(2H)-isoquinolone, 1149-52

METHOXYEPOXYFURAN

A new procedure for olefin oxirane by peroxybenzimidic acid; synthesis of some carbohydrate-precursor oxiranes and other epoxides, 1009-11

METHOXYETHYLPHENYLPYRIDYLPYRIDINIUM

Preparation and reactions of pyrylium salts containing α -pyridyl groups, 125-30

METHOXYFURANONE

Metabolites of the higher fungi. Part 19. Serpenone, 3-methoxy-4-methyl-5-prop-1-enylfuran-2(5H)-one, a new γ -butyrolactone from the fungus *Hypoxyton serpens* (Barrons strain) (Persoon ex Fries) Kickx, 215-21

METHOXYLATION

The reaction of tris(4-methoxyphenyl)methyl chloride with sodium methoxide. Nonoperation of single-electron transfer paths, 3021-5

METHOXYMETHYLENEDIOXYPYRROLIDINYLPHENANTHRENE

Synthesis of (-)-steganone, 521-5

METHOXYMETHYLPROPYLFURANONE

Metabolites of the higher fungi. Part 19. Serpenone, 3-methoxy-4-methyl-5-prop-1-enylfuran-2(5H)-one, a new γ -butyrolactone from the fungus *Hypoxyton serpens* (Barrons strain) (Persoon ex Fries) Kickx, 215-21

METHOXYNORANDROSTATETRAENONE

C-Aromatic steroids. Synthesis of 11,17 ξ -dimethoxy-18-norandrosta-4,8,11,13-tetraen-3-one, 201-4

METHOXYPHENANTHRENE

Studies in metal-ammonia reduction. Part 4. Reduction and reductive methylation of 7-methoxy-3,4-dihydrophenanthren-1(2H)-one and 7-methoxy-1,2-dihydrophenanthren-4(3H)-one, 1381-4

METHOXYPHENYLBUTENYLMETHYLCYCLOPENTANEDIONE

Acid-catalyzed cyclizations: structures of novel products isolated in the reaction of 2-[3-(2,6-dimethoxyphenyl)but-2-enyl]-2-methylcyclopentane-1,3-dione with methanol-hydrochloric acid, 2791-4

METHOXYPHENYLDIMETHYLBICYCLOOCTANEDIONE

Acid-catalyzed cyclizations: structures of novel products isolated in the reaction of 2-[3-(2,6-dimethoxyphenyl)but-2-enyl]-2-methylcyclopentane-1,3-dione with methanol-hydrochloric acid, 2791-4

METHOXYPHENYLDIOXABICYCLOOCTANEDIONE

Synthesis of 2,6-diaryl-4,8-dihydroxy-3,7-dioxabicyclo[3.3.0]octanes, 175-81

METHOXYPHENYLTHIOANILINE

Benzenesulfenyl radicals. Reactivity of 4'-methoxy- and 4'-methoxy-2-nitrobenzenesulfenyl radicals, 3049-53

METHOXYPROPENYL

Synthesis of stable prostacyclin analogs from 2,3-disubstituted bicyclo[3.2.0]heptan-6-ones, 823-30

METHOXYPROPENYLCYCLOPENTANAL

Synthesis of stable prostacyclin analogs from 2,3-disubstituted bicyclo[3.2.0]heptan-6-ones, 823-30

METHOXYQUINOLYL

Photolysis of quinolyl azides in aliphatic thiols. Synthesis of o-alkylthioquinolylamine, 671-2

METHOXYSTILBENECARBOXYLATE

Formation of some 3-aryl-3,4-dihydroisocoumarins by thermal ring closure of stilbene-2-carboxylic acids, 2819-25

METHOXYTRIAZINE

Heterocyclic polyfluoro-compounds. Part 39. Preparation and some nucleophilic substitution reactions of trifluoro-1,2,4-triazine, 1251-4

METHOXYTRIAZOLIUM

1,2,3-Triazoles produced from 5-substituted N-methoxytriazolium salts, 2749-56

METHOXYTRIBUTYLSPIROCYCLOHEXADIENEDIBENZODIOXEPINONE

Oxidation of alkoxyphenols. Part 27. The mechanism of formation of dibenzo[d,f][1,3]dioxepins, 2863-6

METHOXYTRITYL

The reaction of tris(4-methoxyphenyl)methyl chloride with sodium methoxide. Nonoperation of single-electron transfer paths, 3021-5

METHYL

New stereoselective synthesis of 9-methyl-cis-decalin derivatives by double Michael reaction of 3-methyl-4-methylenecyclohex-2-enone and its congeners with dimethyl 3-oxoglutarate, 25-30

Partially fluorinated heterocyclic compounds. Part 16. Preparation of furan derivatives from pentafluorophenyl and heptafluoro-2-naphthyl prop-2-ynyl ethers with aromatic compounds, and the isolation of hydrogen-abstraction products, 107-10

Heterocycle stabilized carbanions. Two series of anomalous products from 1-alkyl-4,6-diphenyl-2-pyridones, 143-51

The preparation of thiazole-4- and -5-carboxylates, and an infrared study of their rotational isomers, 159-64

Steric factors in heterocyclic rearrangements. N-Methyl-N-phenylhydrazones of 3-benzoyl-5-phenyl-1,2,4-oxadiazole, 165-7

Preparation and reactions of pyridones: steric and electronic effects on cycloadditions with 2(1H)-pyridones, 169-73

Intramolecular cyclization reactions in aliphatic thymidine analogs series, 223-7

Cyclodienones. Part 8. Hydrolysis of 5-oxo-2,4-di-tert-butylcyclopenta-1,3-dienecarbonitrile, 243-6

Photochemical reactions of N,N-dialkyl- α -thioxoamides, 247-8

Studies on intramolecular cycloaddition reactions of some isoquinolinium salts, 249-55

Reactions of 1-methyl-4-tert-butylcyclohexene and 1-methylcyclohexene with thallium(I) acetate-iodine, 413-19

Approaches to bridged thia[17]annulenes, 483-7

Studies of heterocyclic compounds. Part 28. Condensation of 3-substituted 5-phenyl-1,2-dithiolylium salts with 2-amino-N-heterocycles, 499-507

Reactions of mercury(II) acetate with nitrogen compounds. Part 9. Oxidations of the bis(4-nitrophenylhydrazones) of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553-5

Reactions of spiroindazoles containing keto groups. Part 2. Evidence for a spirobenzocyclopropene intermediate in the thermolysis of anthrone-10-spiro-3'-3'H-indazoles to benz[a]aceanthrylenes, 577-9

Reactions involving fluoride ion. Part 25. A fluoride-ion-induced skeletal rearrangement, 673-6

Pyrazine chemistry. Part 13. Preparation and reactions of pyrazine N-oxides related to mycelianamide, 953-9

On the stereochemistry of Grignard addition to bicyclo[3.3.1]nonan-2-one. Preferential axial attack on a cyclohexanone system by a bulky nucleophile, 979-82

Reactions of 3-acetyltropolone methyl ethers with guanidine and amidines, 1037-9

Ketene silyl acetal chemistry; simple synthesis of methyl jasmonate and related compounds by utilising ketene methyl dimethyl-tert-butylsilyl acetal, 1099-104

Synthesis of chlorinated isocoumarin derivatives, 1111-15

Studies on $S_{RN}1$ reactions. Part 6. Synthesis of 3-methyl derivatives of the alkaloids thalactamine, doryanine, and 6,7-dimethoxy-N-methyl-1(2H)-isoquinolone, 1149-52

Structures of the four possible [4 + 4] cycloaddition products formed on photodimerization of N-alkyl-2-pyridones, 1187-91

Synthesis of the natural enantiomers of irones from (+)-citronellal 1303-9

Thermal rearrangement reactions of tricarbonyliron lactone complexes, 1355-61

The biosynthesis of the β -carboline alkaloids, harman and ealegmine, 1523-5

Naturally occurring dibenzofurans. Part 1. A synthesis of cannabifuran, 1605-10

Experiments towards the synthesis of the ergot alkaloids and related

- METHYL**(contd)
structures. Part 4. Lysergic acid – an attempted 'endo-amide' approach, 1897–903
Studies on the chemical constituents of rutaceous plants. Part 45. Novel phenyl propanoids: cuspidiol, boninal, and methyl boninalate, 2051–8
A new synthesis of kigelin. Conversion of elemicin into kigelin, 2099–100
Syntheses and reactivities of 3-methylisooxazolo[4,5-b]pyridines, 2391–4
Selectivity of hydrogenations. Part 3. N-methylquinolinium, N-methylisoquinolinium, and 4-(3-phenylpropyl)pyridinium salts, 2607–10
Solution photochemistry of 4-alkylidene-3,3,5,5-tetramethyl- Δ^1 -pyrazolines, 2647–53
The pyrolysis of 4-alkylidene-3,3,5,5-tetramethyl-1-pyrazolines, 2655–62
Acid-catalyzed cyclizations: structures of novel products isolated in the reaction of 2-[3-(2,6-dimethoxyphenyl)but-2-enyl]-2-methylcyclopentane-1,3-dione with methanol–hydrochloric acid, 2791–4
Synthesis of sesquiterpenes occidentalol, chamaecynone, and related compounds characterized by a cis-eudesmane structure, 2849–53
The biosynthesis of chlorine-containing metabolites of *Periconia macrospina*, 3037–9
- METHYLAMINE**
Addition reactions of aminium radicals: synthetic studies of oxidative photoaddition of N-nitrodimethylamine, 1405–17
- METHYLAMINOPROPENAL**
Convenient syntheses of 5-substituted 2-hydroxybenzoates and related reactions, 665–9
- METHYLANTHRACENE**
Formation of isocyanates by deoxygenation of C-nitrosocarbonyl compounds, 1571–4
- METHYLANTHRONE**
Reactions of spiroindazoles containing keto groups. Part 2. Evidence for a spirobenzocyclopropene intermediate in the thermolysis of anthrone-10-spiro-3'-3'H-indazoles to benz[a]aceanthrylenes, 577–9
- METHYLANTHRONESPIROINDAZOLE**
Reactions of spiroindazoles containing keto groups. Part 2. Evidence for a spirobenzocyclopropene intermediate in the thermolysis of anthrone-10-spiro-3'-3'H-indazoles to benz[a]aceanthrylenes, 577–9
- METHYLATION**
Studies in metal-ammonia reduction. Part 3. Reduction and reductive methylation of some acynaphthalenes with metal-ammonia solutions, 875–80
A chemical model for the thymidylate synthetase catalyzed methylation of deoxyuridine monophosphate, 1363–9
Studies in metal-ammonia reduction. Part 4. Reduction and reductive methylation of 7-methoxy-3,4-dihydrophenanthren-1(2H)-one and 7-methoxy-1,2-dihydrophenanthren-4(3H)-one, 1381–4
Structure and reactivity of enamines derived from 5,6-dihydro-2H-thiapyran-3(4H)-one 1,1-dioxide, 2045–50
Synthesis and properties of a series of sterically hindered guanidine bases, 2085–90
The reaction of tris(4-methoxyphenyl)methyl chloride with sodium methoxide. Nonoperation of single-electron transfer paths, 3021–5
- METHYLBENZOYLMETHYLENEPYRIDOTHIA DIAZOLE**
Studies of heterocyclic compounds. Part 28. Condensation of 3-substituted 5-phenyl-1,2-dithiolylium salts with 2-amino-N-heterocycles, 499–507
- METHYLBENZYLNE**
Reactions of spiroindazoles containing keto groups. Part 2. Evidence for a spirobenzocyclopropene intermediate in the thermolysis of anthrone-10-spiro-3'-3'H-indazoles to benz[a]aceanthrylenes, 577–9
- METHYLBISBENZOTHIENOPYRAN**
Ring contractions of thiochroman-4-ones and thiochromen-4-ones 395–402
- METHYLBUTENYL**
Dihydrostilbenes of *Cannabis*. Synthesis of canniprene, 1467–75
A convenient solvent-specific synthesis of 4-[4-acetoxy-3-(3-methylbut-2-enyl)phenyl]butyric acid, 1601–3
- METHYLBUTENYLBENZALDEHYDE**
Dihydrostilbenes of *Cannabis*. Synthesis of canniprene, 1467–75
- METHYLBUTENYLTHIODIMETHYLOCTADIENE**
Synthesis of 4- and 5-(1,3-dimethylbut-2-enylthio)-2,6-dimethylocta-2,6-diene, models for sulfur crosslinks in natural rubber, 3027–30
- METHYLBUTYLCYCLOHEXENE**
Reactions of 1-methyl-4-tert-butylcyclohexene and 1-methylcyclohexene with thallium(I) acetate-iodine, 413–19
- METHYLBUTYLCYCLOPENTAFURANONE**
Cyclodienones. Part 8. Hydrolysis of 5-oxo-2,4-di-tert-butylcyclopenta-1,3-dienecarbonitrile, 243–6
- METHYLBUTYNE**
Control of regioselectivity in the addition of sulfonyl chlorides to 3,3-dimethylbutyne (tert-butylacetylene) as a method for differential functionalization of triple bonds, 2197–201
- METHYLCARBOLINECARBOXYLATE**
The biosynthesis of the β -carboline alkaloids, harman and eleagnine, 1523–5
- METHYLCATECHIN**
Electrophilic aromatic substitution of catechins: bromination and benzylation, 973–8
- METHYLCYCLOHEXENE**
Reactions of 1-methyl-4-tert-butylcyclohexene and 1-methylcyclohexene with thallium(I) acetate-iodine, 413–19
- METHYLCYCLOPENTANEDIONE**
Acid-catalyzed cyclizations: structures of novel products isolated in the reaction of 2-[3-(2,6-dimethoxyphenyl)but-2-enyl]-2-methylcyclopentane-1,3-dione with methanol–hydrochloric acid, 2791–4
- METHYLDECALIN**
New stereoselective synthesis of 9-methyl-cis-decalin derivatives by double Michael reaction of 3-methyl-4-methylenecyclohex-2-enone and its congeners with dimethyl 3-oxoglutarate, 25–30
- METHYLDEOXYARABINOHEPTULOPYRANOSIDONATE**
Determination of the anomeric configuration in glycosides of 3-deoxy-2-aldulosonic acids by circular dichroism and x-ray crystallography, 3055–63
- METHYLDIOXANYLEPOXYPENTANONE**
Studies related to maytansinoids, 1541–51
- METHYLDITOLYLPIRIMIDINONE**
Metalation studies with pyrimidines, 153–8
- METHYLENE**
New stereoselective synthesis of 9-methyl-cis-decalin derivatives by double Michael reaction of 3-methyl-4-methylenecyclohex-2-enone and its congeners with dimethyl 3-oxoglutarate, 25–30
Synthesis of gambirtannine derivatives by photocyclization of enamine intermediates, 59–62
Iodoazide adducts of exocyclic alkenes; structure and solvolysis, 315–25
Reactions involving fluoride ion. Part 25. A fluoride-ion-induced skeletal rearrangement, 673–6
Pyrazine chemistry. Part 13. Preparation and reactions of pyrazine N-oxides related to mycelianamide, 953–9
On the stereochemistry of Grignard addition to bicyclo[3.3.1]nonan-2-one. Preferential axial attack on a cyclohexanone system by a bulky nucleophile, 979–82
Synthesis of the natural enantiomers of irones from (+)-citronellal 1303–9
Synthesis of sesquiterpenes occidentalol, chamaecynone, and related compounds characterized by a cis-eudesmane structure, 2849–53
- METHYLENEANDROSTANE**
Iodoazide adducts of exocyclic alkenes; structure and solvolysis, 315–25
- METHYLENEBICYCLOOCTANE**
On the stereochemistry of Grignard addition to bicyclo[3.3.1]nonan-2-one. Preferential axial attack on a cyclohexanone system by a bulky nucleophile, 979–82
- METHYLENECARBOLINE**
Synthesis of gambirtannine derivatives by photocyclization of enamine intermediates, 59–62
- METHYLENECYCLOHEXENONE**
New stereoselective synthesis of 9-methyl-cis-decalin derivatives by double Michael reaction of 3-methyl-4-methylenecyclohex-2-enone and its congeners with dimethyl 3-oxoglutarate, 25–30
- METHYLENE DIOXY**
Natural benzofurans: synthesis of the arylbenzofuran constituents of *Sophora tomentosa*, 3017–20

METHYLENEDIOXYBENZOFURAN

Natural benzofurans: synthesis of the arylbenzofuran constituents of *Sophora tomentosa*, 3017-20

METHYLENEDIOXYBENZOYL CYCLOPROPANECARBOXYLATE

Total synthesis of (\pm)-picropodophyllone, 271-6

METHYLENEDIOXYOXO

Total synthesis of (\pm)-picropodophyllone, 271-6

METHYLENEDIOXYOXONAPHTHALENECARBOXYLATE

Total synthesis of (\pm)-picropodophyllone, 271-6

METHYLENETRIPHENYLPHOSPHORANE

Partial synthesis of [17-¹³C; 15,17-³H]gibberellin A₂₉ from gibberellin A₃, 699-706

METHYLGINGEROL

Asymmetric synthesis of a β -ketol moiety via 3,5-disubstituted isoxazoles: application to (+)-(S)-[6]-gingerol, 2983-7

METHYLGLYOXIME

Cobaloximes. Part 3. A cobaloxime synthesis for use with reactive alkyl halides, 1025-8

METHYLHYDANTOIN

Photooxidation of oxazolidones and hydantoins in the presence of benzophenone, 2341-5

METHYLIDE

Total synthesis of (\pm)-picropodophyllone, 271-6

Synthesis of dihydrobenzofurans from phenolic Mannich bases and their quaternized derivatives, 841-8

METHYLINDENE

Radical rearrangements of 1,3-dimethylindene derivatives: a comparison with rearrangement by 1,5-sigmatropy, 467-72

METHYLISOQUINOLINE

Studies on intramolecular cycloaddition reactions of some isoquinolinium salts, 249-55

METHYLISOQUINOLINIUM

Selectivity of hydrogenations. Part 3. N-methylquinolinium, N-methylisoquinolinium, and 4-(3-phenylpropyl)pyridinium salts, 2607-10

METHYLISOXAZOLOPYRIDINE

Syntheses and reactivities of 3-methylisooxazolo[4,5-b]pyridines, 2391-4

METHYLMETHYLENOCYCLOHEXENONE

New stereoselective synthesis of 9-methyl-cis-decalin derivatives by double Michael reaction of 3-methyl-4-methylenecyclohex-2-enone and its congeners with dimethyl 3-oxoglutarate, 25-30

Synthesis of sesquiterpenes occidentalol, chamaecynone, and related compounds characterized by a cis-eudesmane structure, 2849-53

METHYLMETHYLTHIOBUTENE

Control of regioselectivity in the addition of sulfonyl chlorides to 3,3-dimethylbutyne (tert-butylacetylene) as a method for differential functionalization of triple bonds, 2197-201

METHYLOXOBUTYL CYCLOPENTENECARBOXYLATE

Cyclodienones. Part 8. Hydrolysis of 5-oxo-2,4-di-tert-butylcyclopenta-1,3-dienecarbonitrile, 243-6

METHYLOXOPHENYL AZABICYCLOOCTADIENEDICARBOXYLATE

Preparation and reactions of pyridones: steric and electronic effects on cycloadditions with 2(1H)-pyridones, 169-73

METHYLOXOPHENYL PYRIDYL METHYLPHENYL PYRIDONE

Heterocycle stabilized carbanions. Two series of anomalous products from 1-alkyl-4,6-diphenyl-2-pyridones, 143-51

METHYLPENTANEDIONE

Reactions of mercury(II) acetate with nitrogen compounds. Part 9.

Oxidations of the bis(4-nitrophenylhydrazones) of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553-5

METHYLPENTENYL

Chemistry of hop constituents. Part 43. Cyclic polysulfides and a thiophene from myrcene, and their occurrence in the essential oil of hops, 1089-94

METHYLPHENYLHYDRAZONE

Steric factors in heterocyclic rearrangements. N-Methyl-N-phenylhydrazones of 3-benzoyl-5-phenyl-1,2,4-oxadiazole, 165-7

METHYLPHENYLPHthalate

Preparation and reactions of pyridones: steric and electronic effects on cycloadditions with 2(1H)-pyridones, 169-73

METHYLPHENYLPIPERIDINOL

Stereochemistry of 2,3-dimethyl analogs of the reversed ester of

pethidine and related compounds: examples of vicinal diaxial methyl groups in 2,3-dimethylpiperidine derivatives, 749-53

METHYLPHENYL PYRIDONE

Preparation and reactions of pyridones: steric and electronic effects on cycloadditions with 2(1H)-pyridones, 169-73

METHYLPYRIDINE

An improved synthesis of amphiphilic 4,4'-disubstituted 2,2'-bipyridines, 3041-3

METHYLPYRIDONE

Structures of the four possible [4 + 4] cycloaddition products formed on photodimerization of N-alkyl-2-pyridones, 1187-91

METHYLPYRROLYL

Regioselective β -metalations of 2-substituted furan and N-methylpyrrole derivatives employing the directing effect of the oxazolino group: syntheses of 2,3-disubstituted furans and N-methylpyrroles, 1343-7

METHYLPYRROLYLOXAZOLINE

Regioselective β -metalations of 2-substituted furan and N-methylpyrrole derivatives employing the directing effect of the oxazolino group: syntheses of 2,3-disubstituted furans and N-methylpyrroles, 1343-7

METHYLQUINOLINIUM

Selectivity of hydrogenations. Part 3. N-methylquinolinium, N-methylisoquinolinium, and 4-(3-phenylpropyl)pyridinium salts, 2607-10

METHYLSEQUIRIN

Synthesis, conformation, and chirality of di-O-methylsequirin D, a biogenetically novel metabolite of *Sequoia sempervirens*, 461-5

METHYLSILYLATION

Selectivity in the trimethylsilylation and acylation of peptide bonds, and its application to modification of the enkephalins, 2939-47

METHYLSILYLOXYBUTENE

Necic acid synthons. Part 1. Total synthesis of integerrinecic acid, 2079-83

METHYLSILYLOXYVINYL

Silyl phosphites. Part 20. A facile synthesis of phosphoenolpyruvate and its analog utilizing in situ generated trimethylsilyl bromide, 2509-13

METHYLSTANNYLTRIFLUOROPYRIDINE

Heterocyclic polyfluoro-compounds. Part 37. Diels-Alder reactions of trichloro- and trifluoro-1,2,4-triazine, 1245-9

METHYLSTYRENE

Crown ethers as molecular bromine carriers for bromination reactions, 2153-6

METHYLSULFINYL

1H-1,4-Benzothiazines. New cyclic sulfonium ylides, 831-4

METHYLSULFINYLATION

Reactions of 2-chloro-N,N-diethyl-1,1,2-trifluoroethylamine with alcohols. Part 4. In the presence of lithium bromide and dimethyl sulfide: preparation of bromo- and methylsulfinylgibberellins, 2571-4

METHYLSULFINYL GIBBERELLIN

Reactions of 2-chloro-N,N-diethyl-1,1,2-trifluoroethylamine with alcohols. Part 4. In the presence of lithium bromide and dimethyl sulfide: preparation of bromo- and methylsulfinylgibberellins, 2571-4

METHYLSULFINYLPHENYLAMINOALKENE

1H-1,4-Benzothiazines. New cyclic sulfonium ylides, 831-4

METHYLSULFOXONIUM

Synthesis of dihydrobenzofurans from phenolic Mannich bases and their quaternized derivatives, 841-8

METHYLTHIABICYCLOHEPTADECATETRAENDIYNE

Approaches to bridged thia[17]annulenes, 483-7

METHYLTHIAPYRANONE

Structure and reactivity of enamines derived from 5,6-dihydro-2H-thiapyran-3(4H)-one 1,1-dioxide, 2045-50

METHYLTHIO

Synthesis of heterocycles using a new immonium salt derived from N,N-dimethylthiourea, 1059-62

METHYLTHIOBUTENE

Control of regioselectivity in the addition of sulfonyl chlorides to 3,3-dimethylbutyne (tert-butylacetylene) as a method for differential functionalization of triple bonds, 2197-201

METHYLTHIOCHROMANONE

Ring contractions of thiochroman-4-ones and thiochromen-4-ones 395-402

METHYLTRIANTHRANILIDE

Conformational behavior of medium-sized rings. Part 12. Tri-3-

- METHYLTRIANTHRANILIDE**(contd)
methyltrianthranilide, 1701-14
- METHYLTRIBENZODIAZACYCLODODECINEDIONE**
Conformational behavior of medium-sized rings. Part 13. 5,18-Dihydro- and 5,11,12,18-tetrahydrotribenzo[b,f,j][1,4]diazacyclododecine-6,17-diones, 1715-20
- METHYLURACILYMETHYLPTEROYLGLUTAMATE**
A chemical model for the thymidylate synthetase catalyzed methylation of deoxyuridine monophosphate, 1363-9
- METHYL VINYLPODOCARPENOL**
Synthetic studies on terpenoids. Part 6. Synthesis of (\pm)-4,13-dimethyl-13-vinylpodocarp-8(14)-en-4 α - and -4 β -ols, 1959-62
- MEVALONATE**
Studies in terpenoid biosynthesis. Part 25. The fate of the mevalonoid hydrogen atoms in the biosynthesis of the sesquiterpenoid, dihydrobotrydial, 2187-92
- MICHAEL**
New stereoselective synthesis of 9-methyl-cis-decalin derivatives by double Michael reaction of 3-methyl-4-methylenecyclohex-2-enone and its congeners with dimethyl 3-oxoglutarate, 25-30
Unusual Michael reaction of acyclic 1,3-dicarbonyl compounds with nitroolefins. A novel pyrrole synthesis, 441-7
The chemistry of organoborates. Part 8. Unique Michael reactions of lithium trialkylalkynylborates, 719-22
Ketene silyl acetal chemistry; simple synthesis of methyl jasmonate and related compounds by utilizing ketene methyl dimethyl-tert-butylsilyl acetal, 1099-104
Synthesis of sesquiterpenes occidentalol, chamaecynone, and related compounds characterized by a cis-eudesmane structure, 2849-53
- MIGRATION**
Iodoazide adducts of exocyclic alkenes; structure and solvolysis, 315-25
- MOL**
An algorithm for finding the intersection of molecular structures, 631-7
Photo-induced transformations. Part LXI. Syntheses of some six-membered and eight-membered lactams of the B-homo- and A-nor-B,B-dihomocholestane series by the photo-Beckmann rearrangement, 931-8
X-ray structure determination of gardmultine. A bis-indole alkaloid isolated from *Gardneria multiflora* Makino, 1263-7
The structure of isohumulone A, a product derived by oxidation and isomerization of humulone from hop resin, 1791-5
New oxidative systems for alcohols: molecular sieves with chromium(VI) reagents, 1967-73
Nuclear magnetic resonance and x-ray stereochemical studies on 1-benzyltetrahydroisoquinolinium salts, 2067-77
The x-ray structure analysis of anhydrous heptamethyl dicyanocobryinate (cobester), 2279-88
7-epi-Brefeldin A, a cometabolite of brefeldin A in *Curvularia lunata*, 2387-90
Isolation and structure determination of norditerpene dilactones from *Podocarpus saligna* D. Don, 2589-93
Cordialin A and B, two new triterpenes from *Cordia verbenacea* DC, 2697-700
- MOLLISACACIDIN**
Synthesis of condensed tannins. Part 5. The first angular [4,6:4,8]triflavanoids and their natural counterparts, 527-33
Synthesis of condensed tannins. Part 6. The sequence of units, coupling positions, and absolute configuration of the first linear [4,6:4,6]triflavanoid with terminal 3,4-diol function, 535-40
- MONATE**
The chemistry of pseudomonic acid. Part 4. α,β -Unsaturated ketones derived from monic acid A and its derivatives, 729-34
The chemistry of pseudomonic acid. Part 5. Structure and chemistry of pseudomonic acid C. X-ray crystal structure of ethyl monate C 2827-33
- MONOESTER**
Pyrrolizidine alkaloid analogs. Synthesis of eleven-membered macrocyclic diesters of retronecine, 1117-21
- MORPHOLINE**
Enamines in the synthesis of 2-(substituted amino)-3,3-dialkylchromanones, 2771-5
- MORPHOLINOISOFLAVENE**
The enamine route to 2-morpholinoisoflav-3-ene, 1193-6
- MORPHOLINYLTHIAPYRAN**
Structure and reactivity of enamines derived from 5,6-dihydro-2H-thiapyran-3(4H)-one 1,1-dioxide, 2045-50
- MUSCARINE**
A stereospecific synthesis of (+)-muscarine, 809-13
- MUTAROTATION**
Constituents of *Geranium thunbergii* Sieb. et Zucc. Part 12. Hydrated stereostructure and equilibration of geraniin, 9-14
- MYCOPHENOLATE**
6-Farnesyl-5,7-dihydroxy-4-methylphthalide oxidation mechanism in mycophenolic acid biosynthesis, 365-73
- MYCOTOXIN**
Biosynthesis of citreoviridin. A carbon-13 NMR study, 2175-8
- MYRMICA**
Structures of homofarnesene and bishomofarnesene isomers from *Myrmica* ants, 949-51
- NAPHTHACENE**
Anthracylines. Part 1. The synthesis of racemic daunomycinone and some related tetrahydronaphthacenequinones, 2227-38
- NAPHTHACENEQUINONE**
Anthracylines. Part 1. The synthesis of racemic daunomycinone and some related tetrahydronaphthacenequinones, 2227-38
Anthracylines. Part 2. Investigations relating to the synthesis of 4-demethoxyanthracylinones, 2239-48
- NAPHTHALÉNE**
New stereoselective synthesis of 9-methyl-cis-decalin derivatives by double Michael reaction of 3-methyl-4-methylenecyclohex-2-enone and its congeners with dimethyl 3-oxoglutarate, 25-30
Studies in metal-ammonia reduction. Part 3. Reduction and reductive methylation of some acylnaphthalenes with metal-ammonia solutions, 875-80
Heterocyclic polyfluoro compounds. Part 40. Preparation of polyfluoroazepines, 2101-4
Anthracylines. Part 2. Investigations relating to the synthesis of 4-demethoxyanthracylinones, 2239-48
- NAPHTHALÉNECARBOXYLATE**
Total synthesis of (\pm)-picropodophyllone, 271-6
- NAPHTHODIOXINONE**
Intramolecular acetalization of naphthoquinones, 1933-6
- NAPHTHOFURAN**
Synthesis of dihydrobenzofurans from phenolic Mannich bases and their quaternized derivatives, 841-8
- NAPHTHOL**
A novel and chemoselective preparation of chlorosulfonyl-containing azo dyes with phosphoryl chloride-N,N-dimethylacetamide, 1519-22
- NAPHTHOQUINONE**
Interaction of copper complexes derived from 1,2-quinone monooximes (2-nitrosophenols) with amines, 1075-8
Intramolecular acetalization of naphthoquinones, 1933-6
- NAPHTHOTHIOPHENE**
Studies on heterocyclic chemistry. Part 26. The ring transformation of 3-acylthio-4-aryl-3-isothiazoline-5-thiones to benzof[*b*] and naphtho[2,1-*b*]thiophenes with an acylimino group at C-2 via the 2-arylethanethioamide derivatives, 2867-70
- NAPHTHOXAZINONE**
Experiments towards the synthesis of the ergot alkaloids and related structures. Part 4. Lysergic acid - an attempted 'endo-amide' approach, 1897-903
- NAPHTHYL**
Partially fluorinated heterocyclic compounds. Part 16. Preparation of furan derivatives from pentafluorophenyl and heptafluoro-2-naphthyl prop-2-ynyl ethers with aromatic compounds, and the isolation of hydrogen-abstraction products, 107-10
- NAPHTHYLMETHOXY**
Anthracylines. Part 1. The synthesis of racemic daunomycinone and some related tetrahydronaphthacenequinones, 2227-38
- NAPHTHYLMETHOXYPTHALIDE**
Anthracylines. Part 1. The synthesis of racemic daunomycinone and some related tetrahydronaphthacenequinones, 2227-38
- NEORAUFURACIN**
Neoraufuracin and ambofuracin. Two novel 2-benzyl-2-O-(methyl- β -D-glucopyranos-2-yl)-trans-2,3-dihydrobenzofurans. Synthesis of the methylated aglycone, 1157-62
- NEORAUTANENIA**
Neoraufuracin and ambofuracin. Two novel 2-benzyl-2-O-(methyl- β -D-glucopyranos-2-yl)-trans-2,3-dihydrobenzofurans. Synthesis of the methylated aglycone, 1157-62
- NEROLIDOL**
Stereoselective olefin cyclization mediated by the selenyl group; direct formation of a selenyl caparrapi oxide, 1085-7

NIRTETRALIN

Structure and synthesis of the aryltetralin lignans hypophyllanthin and nirtetralin, 999-1003

NITRATE

Addition reactions of aminium radicals: synthetic studies of oxidative photoaddition of N-nitrodimethylamine, 1405-17

NITRATION

The meso-reactivity of porphyrins and related compounds. Part VIII. Substitution and addition reactions of octaethyl-21H,24H-bilin-1,19-dione, a model verdin system. X-ray analyses of octaethyl-5-nitro-21H,24H-bilin-1,19-dione and of 4,5-diethoxyoctaethyl-4,5-dihydro-21H,24H-bilin-1,19-dione, 1291-302

NITRENE

Thermal reaction of N-(1-azido-2-oxoalkylidene)-N'-(o-alkenyloxyphenyl)hydrazines; intramolecular 1,4-cycloaddition of 1,2,4-triaza-1,3-diene intermediates, 755-8

Alkyl nitrenes from N-alkylbenzoquinone imine N-oxides, 2027-34

Intramolecular reactions of N-nitrenes: oxidation of 3-amino-2-(arylalkyl)quinazolin-4(3H)-ones, 2407-12

2,4-Dinitrobenzenesulfenylnitrene: addition to (Z)- and (E)-1-phenylpropene, 2491-7

NITRILE

Organoiron complexes in organic synthesis. Part 18. Spiroannellation reactions of some bifunctional tricarbonyl(cyclohexadienyl)iron hexafluorophosphate salts, 489-97

Reactions with heterocyclic diazonium salts: novel synthesis of pyrazolo[4,3-c]pyridazines and of pyrazolo[4,3-c]pyrazoles, 989-91

Novel synthesis of pyrazolo[5,1-c]-1,2,4-triazoles, imidazo[1,2-b]pyrazoles, and [1,2,4]-triazolo[4,3-a]benzimidazoles. Reaction of nitrile imines with amino- and oxo-substituted diazoles, 2663-6

Activated nitriles in heterocyclic synthesis: a new procedure for the synthesis of pyrimidine derivatives, 2667-70

NITRITE

Photoinduced transformations. Part 60. Photoinduced rearrangements of cholesteryl nitrites with monochromatic light, 111-16

Photoinduced transformations. Part 63. Photorearrangement of 17 β -acetoxo-4,4-dimethylestr-5-en-3 β -yl nitrite with monochromatic light, 1963-6

NITRO

Pyrimidine derivatives and related compounds. Part 41. Reactions of 1,3,6-trimethyl-5-nitrouacil and its 6-bromomethyl analog with amines and hydrazines. Synthesis of pyrazolo[4,3-d]pyrimidine N-oxides and their ring expansion to pyrimido[5,4-d]pyrimidines, 277-84

Addition reactions of aminium radicals: synthetic studies of oxidative photoaddition of N-nitrodimethylamine, 1405-17

Synthesis of substituted dibenzophospholes. Part 2. Syntheses of intermediate biphenyls and quaterphenyls, 2299-315

Synthetic approaches to some aza analogs of benzimidazole N-oxides. Part 1. The imidazo[4,5-b]pyridine series, 2995-3006

NITROAMINO

Steroidal N-nitroamines. Part 1. Denitroamination of steroidal 4 β -, 6 β -, 7 α -, and 7 β -nitroamines, 923-9

NITROAMINOCHOLESTANE

Steroidal N-nitroamines. Part 1. Denitroamination of steroidal 4 β -, 6 β -, 7 α -, and 7 β -nitroamines, 923-9

NITROBENZENESULFENAMIDE

2,4-Dinitrobenzenesulfenylnitrene: addition to (Z)- and (E)-1-phenylpropene, 2491-7

NITROBENZENSULFENYLNITRENE

2,4-Dinitrobenzenesulfenylnitrene: addition to (Z)- and (E)-1-phenylpropene, 2491-7

NITROBENZYL

Formation of some 3-aryl-3,4-dihydroisocoumarins by thermal ring closure of stilbene-2-carboxylic acids, 2819-25

NITROBENZYLAMINO

Synthetic approaches to some aza analogs of benzimidazole N-oxides. Part 1. The imidazo[4,5-b]pyridine series, 2995-3006

NITROBENZYLPHthalide

Formation of some 3-aryl-3,4-dihydroisocoumarins by thermal ring closure of stilbene-2-carboxylic acids, 2819-25

NITROBILINDIONE

The meso-reactivity of porphyrins and related compounds. Part VIII. Substitution and addition reactions of octaethyl-21H,24H-bilin-1,19-dione, a model verdin system. X-ray analyses of octaethyl-5-nitro-21H,24H-bilin-1,19-dione and of 4,5-

diethoxyoctaethyl-4,5-dihydro-21H,24H-bilin-1,19-dione, 1291-302

NITROCHROMEN

Analogues of antijuvenile hormones, 2013-18

NITRODIMETHYLAMINE

Addition reactions of aminium radicals: synthetic studies of oxidative photoaddition of N-nitrodimethylamine, 1405-17

NITROGEN

Pyrimidine derivatives and related compounds. Part 42. Isolation of the intermediates in the ring transformation of 1,3-oxazine-2,4-diones into pyrimidines and pyrazoles, and their structure determination by nitrogen-15 nuclear magnetic resonance analysis, 473-5

Reductive cleavage of propellane-type hydrazinium dications as a route to medium sized ring bicyclic diamines with bridgehead nitrogen atoms, 603-9

Studies on v-triazoles. Part 4. The 4-methoxybenzyl group, a versatile N-protecting group for the synthesis of N-unsubstituted v-triazoles, 627-30

Silver(I)-catalyzed oxidation of cyclic secondary amines with peroxodisulfate, 3031-5

NITROGLUCOPYRANOSE

Oxidation of aldose oximes. Formation and structure of hydroxydiazene oxidase acetals and preparation of hydroximolactones. X-ray crystal structure of 2,3:5,6-di-O-isopropylidene- α -D-mannofuranosyl-O,N,N-azoxy 2,3:5,6-di-O-isopropylidene- α -D-mannofuranoside, 2139-47

NITROHUMULENE

The action of nitrogen dioxide and nitric oxide on humulene, C₁₅H₂₄. X-ray crystallographic determination of the stereochemistry and conformations of humulene nitrosite, dinitrohumulene, and nitronitratohumulene, 1385-8

NITRONE

Dinitrones from C-benzyl nitrones, 1395-8

Preparation and reactions of steroidal cross-conjugated 3-nitrones, 2599-606

NITRONITRATOHUMULENE

The action of nitrogen dioxide and nitric oxide on humulene, C₁₅H₂₄. X-ray crystallographic determination of the stereochemistry and conformations of humulene nitrosite, dinitrohumulene, and nitronitratohumulene, 1385-8

NITRONITROBENZYLAMINOPYRIDINE

Synthetic approaches to some aza analogs of benzimidazole N-oxides. Part 1. The imidazo[4,5-b]pyridine series, 2995-3006

NITROPHENYL

Reactions of mercury(II) acetate with nitrogen compounds. Part 9.

Oxidations of the bis(4-nitrophenylhydrazones) of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553-5

Cyclol formation from tripeptides containing β -alanine, 1311-16

Formation of isocyanates by deoxygenation of C-nitrosocarbonyl compounds, 1571-4

Synthetic approaches to some aza analogs of benzimidazole N-oxides. Part 1. The imidazo[4,5-b]pyridine series, 2995-3006

NITROPHENYLACETYLDHYDRAZINE

Reactions of mercury(II) acetate with nitrogen compounds. Part 9.

Oxidations of the bis(4-nitrophenylhydrazones) of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553-5

NITROPHENYLAZO

Reactions of mercury(II) acetate with nitrogen compounds. Part 9.

Oxidations of the bis(4-nitrophenylhydrazones) of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553-5

NITROPHENYLAZODIDEOXYPENTENOPYRANOSIDE

Reactions of mercury(II) acetate with nitrogen compounds. Part 9.

Oxidations of the bis(4-nitrophenylhydrazones) of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553-5

NITROPHENYLHYDRAZINE

Reactions of mercury(II) acetate with nitrogen compounds. Part 9.

Oxidations of the bis(4-nitrophenylhydrazones) of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553-5

NITROPHENYLIMIDAZOPYRIDINE

Synthetic approaches to some aza analogs of benzimidazole N-oxides. Part 1. The imidazo[4,5-b]pyridine series, 2995-3006

NITROPHENYLMETHYLPYRAZOLE

Reactions of mercury(II) acetate with nitrogen compounds. Part 9. Oxidations of the bis(4-nitrophenylhydrazones) of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553-5

NITROPHENYLOXAHETEROCYCLONIUM

2-(2-Nitrophenyl)oxaheterocycloniums: potential reagents for oxidative deamination of primary amines, 137-42

NITROSITE

The action of nitrogen dioxide and nitric oxide on humulene, C₁₅H₂₄. X-ray crystallographic determination of the stereochemistries and conformations of humulene nitrosite, dinitrohumulene, and nitronitratohumulene, 1385-8

NITROSO

Photoinduced rearrangements. Part 60. Photoinduced rearrangements of cholesteryl nitrites with monochromatic light, 111-16

Addition reactions of aminium radicals: oxidative and nonoxidative photoaddition of nitrosoamines to nonconjugated polyenes, 1419-28

Preparation and reactions of 3-phenyl-4a,5,6,8a-tetrahydro-4H-1,2-benz[e]oxazines, 1891-5

NITROSOALKANE

Fluorocarbon derivatives of nitrogen. Part 6. Reactions of some perfluorinated nitroso compounds with hydrogen sulfite ion: conversion of fluorocarbon olefins into perfluoro-ketone oximes 685-8

NITROSOAMINE

Addition reactions of aminium radicals: oxidative and nonoxidative photoaddition of nitrosoamines to nonconjugated polyenes, 1419-28

NITROSOBUTENAMINONE

Vicinal multifunctional compounds. Tautomerism and isomerism in the condensation products of 2-hydroxyimino-3-oxobutanal or 3-hydroxyiminopentane-2,4-dione with benzylamines, 1013-18

NITROSOCARBONYLBENZENE

Formation of isocyanates by deoxygenation of C-nitrosocarbonyl compounds, 1571-4

NITROSODIMETHYLAMINE

Addition reactions of aminium radicals: oxidative and nonoxidative photoaddition of nitrosoamines to nonconjugated polyenes, 1419-28

NITROSOPIPERIDINE

Addition reactions of aminium radicals: oxidative and nonoxidative photoaddition of nitrosoamines to nonconjugated polyenes, 1419-28

NITROSOSTYRENE

Preparation and reactions of 3-phenyl-4a,5,6,8a-tetrahydro-4H-1,2-benz[e]oxazines, 1891-5

NITROSTYRENE

Unusual Michael reaction of acyclic 1,3-dicarbonyl compounds with nitroolefins. A novel pyrrole synthesis, 441-7

NITROURACIL

Pyrimidine derivatives and related compounds. Part 41. Reactions of 1,3,6-trimethyl-5-nitroouracil and its 6-bromomethyl analog with amines and hydrazines. Synthesis of pyrazolo[4,3-d]pyrimidine N-oxides and their ring expansion to pyrimido[5,4-d]pyrimidines, 277-84

NMR

Syntheses and properties of trimethyltetrahydro[19]annulenones and the benzannulated derivatives, 31-42

Syntheses and properties of a trimethyltetrahydro[21]annulenone and its benzannulated derivatives, 43-50

The preparation of pyridiniums from pyryliums, 117-23

Synthesis of 2,6-diaryl-4,8-dihydroxy-3,7-dioxabicyclo[3.3.0]octanes, 175-81

Synthesis and NMR spectra of 2,6- and 2,4-diaryl-3,7-dioxabicyclo[3.3.0]octanes, 183-90

A study of the apicophilicity of the 2-furyl group in five-coordinate phosphoranes, 191-5

Carbon-13 nuclear magnetic resonance spectra of quinoxaline derivatives, 357-63

Pyrimidine derivatives and related compounds. Part 42. Isolation of the intermediates in the ring transformation of 1,3-oxazine-2,4-diones into pyrimidines and pyrazoles, and their structure determination by nitrogen-15 nuclear magnetic resonance analysis, 473-5

Studies of heterocyclic compounds. Part 28. Condensation of 3-substituted 5-phenyl-1,2-dithiolylium salts with 2-amino-N-heterocycles, 499-507

Synthesis of condensed tannins. Part 6. The sequence of units, coupling positions, and absolute configuration of the first linear [4,6:4,6]triflavanoid with terminal 3,4-diol function, 535-40

Nuclear magnetic resonance and circular dichroism of penicillins derived from disubstituted acetic acids, 563-9

A stable bromoalkoxyphosphorane, a model for the postulated five-coordinate intermediate in the Arbuzov and related reactions 735-40

Structure and conformation of N-benzoyl derivatives of the biologically important 3-amino-2,3,6-trideoxy-L-hexoses and their synthetic precursor γ - and δ -lactones; a proton and carbon-13 nuclear magnetic resonance study, 885-91

Vicinal multifunctional compounds. Tautomerism and isomerism in the condensation products of 2-hydroxyimino-3-oxobutanal or 3-hydroxyiminopentane-2,4-dione with benzylamines, 1013-18

Solution conformations of two synthetic analogs of quinoxaline antibiotics, 1041-8

The base-sugar conformation of certain derivatives of adenosine, 1197-1204

Polymeric proanthocyanidins. Carbon-13 NMR studies of procyanidins, 1217-21

Aspects of the chemistry of dehydromethionine, 1283-90

Organometallic compounds in organic synthesis. Part 12. Methods of determination of the stereochemistry of tricarbonylcyclohexa-1,3-dieneiron complexes, 1745-53

Nuclear magnetic resonance and x-ray stereochemical studies on 1-benzyltetrahydroisoquinolinium salts, 2067-77

Biosynthesis of citreoviridin. A carbon-13 NMR study, 2175-8

Studies in terpenoid biosynthesis. Part 25. The fate of the mevalonoid hydrogen atoms in the biosynthesis of the sesquiterpenoid, dihydrobotrydial, 2187-92

Biosynthesis of vitamin B₁₂. Analysis of the proton and carbon-13 NMR spectra of heptamethyl dicyanocobyrinate (cobester), 2265-77

[4.2]- and [4.3]-Metacyclophanes, 2369-72

Studies in terpenoid biosynthesis. Part 26. Applications of deuterium and carbon-13 NMR spectroscopy to the biosynthesis of the illudin sesquiterpenoids, 2445-8

The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 1. Introduction. Naturally occurring galloyl esters, 2515-24

The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 2. Esters of (S)-hexahydroxydiphenic acid with D-glucopyranose (C₁), 2525-34

The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 3. Esters of (R) and (S)-hexahydroxydiphenic acid and dehydrohexahydroxydiphenic acid with D-glucopyranose (1C₄ and related conformations), 2535-45

Studies on fungal metabolites. Part 3. Carbon-13 NMR spectral and structural studies on austin and new related meroterpenoids from *Aspergillus ustus*, *Aspergillus varicolor*, and *Penicillium diversum*, 2687-92

Studies in terpenoid biosynthesis. Part 27. The acetate and mevalonate labeling patterns of the sesquiterpenoid, alliacolide, 2787-90

Selectivity in the trimethylsilylation and acylation of peptide bonds, and its application to modification of the enkephalins, 2939-47

NOMENCLATURE

Linkage isomerism in trimeric and polymeric 2,3-cis-procyanidins, 1209-16

NONADECHEPTAENEDIYNONE

Syntheses and properties of trimethyltetrahydro[19]annulenones and the benzannulated derivatives, 31-42

NONADIENOATE

Synthesis of (R,S)-(5Z,8E,10E)-12-hydroxyheptadeca-5,8,10-trienoic acid and of (R,S)- and (S)-(5Z,8Z,10E,14Z)-12-hydroxyeicosa-5,8,10,14-tetraenoic acid and their racemic 5,6,8,9-tetradeuterioisomers, 545-52

NONASACCHARIDE

Synthesis of a nonasaccharide containing terminal N-acetyl- β -D-lactosaminyl residues, part of the 'complex-type' carbohydrate moiety of glycoproteins, 1841-4

NONATETRAENE

Synthesis and characterization of representative octa-1,3,5,7-tetraenes and deca-1,3,5,7,9-pentaenes, 2379-85

NONCANNABINOID

Natural products of Thailand high δ 1-THC-strain Cannabis. The bibenzyl-spiran-dihydrophenanthrene group: relations with

- NONCANNABINOID**(contd)
cannabinoids and cannflavones, 1455-66
- NONCONJUGATED**
Addition reactions of aminium radicals: oxidative and nonoxidative photoaddition of nitrosoamines to nonconjugated polyenes, 1419-28
- NORANDROSTATETRAENONE**
C-Aromatic steroids. Synthesis of 11,17 ξ -dimethoxy-18-norandrosta-4,8,11,13-tetraen-3-one, 201-4
- NORBORNANE**
Acid-catalyzed lactonization and iodolactonization of norbornene-carboxylic acids, 2461-5
- NORBORNENE**
Reactions of norcarane and of norborn-2-ene with iodine(I) azide and iodine(I) chloride, 961-5
Cross-linked poly-(4-vinylpyridine-styrene)-bromine complexes as stereoselective brominating agents, 2059-62
- NORBORNENYL**
Acid-catalyzed lactonization and iodolactonization of norbornene-carboxylic acids, 2461-5
- NORBORNENYLALKANOATE**
Acid-catalyzed lactonization and iodolactonization of norbornene-carboxylic acids, 2461-5
- NORCARANE**
Reactions of norcarane and of norborn-2-ene with iodine(I) azide and iodine(I) chloride, 961-5
- NORCHOLESTENE**
Base-catalyzed fragmentation of 5,6 β -epoxy-3 β -hydroxy-5 β -cholestan-19-al, 799-803
- NORCHOLESTENONE**
Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ξ)-fluoro-25-hydroxyvitamin D³, 85-91
- NORDITERPENE**
Synthetic studies on terpenoids. Part 6. Synthesis of (\pm)-4,13-dimethyl-13-vinylpodocarp-8(14)-en-4 α - and -4 β -ols, 1959-62
- NOREPHEDRINE**
1,3,2-Oxazaphospholidine-2-thiones from (+)-norephedrine: stereospecific ring opening, possibly by an elimination-addition mechanism, 639-43
- NORHOMOCHOLESTANONE**
Photo-induced transformations. Part LXI. Syntheses of some six-membered and eight-membered lactams of the β -homo- and α -nor- β , β -dihomocholestane series by the photo-Beckmann rearrangement, 931-8
- NORSTEROID**
Selective aromatization of ring B in 19-norsteroids and synthesis of equilenin-type compounds, 1-7
- NORTERPENE**
Isolation and structure determination of norditerpene dilactones from *Podocarpus saligna* D. Don, 2589-93
- NUCLEOPHILE**
Arylazoglycosides. Part 7. Syntheses of amino sugars from methyl arylazohexenopyranosides, 205-14
Synthesis of heterocycles using a new immonium salt derived from N,N-dimethylthiourea, 1059-62
The meso-reactivity of porphyrins and related compounds. Part VIII. Substitution and addition reactions of octaethyl-21H,24H-bilin-1,19-dione, a model verdin system. X-ray analyses of octaethyl-5-nitro-21H,24H-bilin-1,19-dione and of 4,5-diethoxyoctaethyl-4,5-dihydro-21H,24H-bilin-1,19-dione, 1291-302
Products from dimethyl hex-2-en-1-yne-1,6-dioate and dimethyl penta-2,3-diene-1,5-dioate with compounds possessing two adjacent nucleophilic centers, 1905-14
Reactions of 1-alkoxycarbonylpyridinium salts with nucleophiles: stereoelectronic restrictions on carbonyl activation of α -nucleophilic attack, 2365-8
Regio- and stereospecificity of nucleophilic attack on steroidal π -allylpalladium complexes, 2595-7
1,2,3-Triazoles produced from 5-substituted N-methoxytriazolium salts, 2749-56
Polyhaloaromatic compounds. Part 48. Reactions of tetrachloro-4-cyanopyridine with mono- and bifunctional nucleophiles, 2897-900
- NUCLEOPHILIC**
Heterocyclic polyfluoro-compounds. Part 39. Preparation and some nucleophilic substitution reactions of trifluoro-1,2,4-triazine, 1251-4
- The meso-reactivity of porphyrins and related compounds. Part VIII. Substitution and addition reactions of octaethyl-21H,24H-bilin-1,19-dione, a model verdin system. X-ray analyses of octaethyl-5-nitro-21H,24H-bilin-1,19-dione and of 4,5-diethoxyoctaethyl-4,5-dihydro-21H,24H-bilin-1,19-dione, 1291-302
- NUCLEOSIDE**
New oxidative systems for alcohols: molecular sieves with chromium(VI) reagents, 1967-73
- OCCIDENTALOL**
Synthesis of sesquiterpenes occidantalol, chamaecynone, and related compounds characterized by a cis-eudesmane structure, 2849-53
- OCTAALKYL**
Polyformylation of copper(II) complexes of octaalkylporphyrins, 581-5
- OCTAALKYLPORPHYRIN**
Polyformylation of copper(II) complexes of octaalkylporphyrins, 581-5
- OCTAETHYL**
Syntheses and reactions of hydridorhodium(III) octaethylporphyrin and rhodium(II) octaethylporphyrin dimer, 983-7
The meso-reactivity of porphyrins and related compounds. Part VIII. Substitution and addition reactions of octaethyl-21H,24H-bilin-1,19-dione, a model verdin system. X-ray analyses of octaethyl-5-nitro-21H,24H-bilin-1,19-dione and of 4,5-diethoxyoctaethyl-4,5-dihydro-21H,24H-bilin-1,19-dione, 1291-302
- OCTAETHYLBILINDIONE**
The meso-reactivity of porphyrins and related compounds. Part VIII. Substitution and addition reactions of octaethyl-21H,24H-bilin-1,19-dione, a model verdin system. X-ray analyses of octaethyl-5-nitro-21H,24H-bilin-1,19-dione and of 4,5-diethoxyoctaethyl-4,5-dihydro-21H,24H-bilin-1,19-dione, 1291-302
- OCTAETHYLPORPHYRIN**
Syntheses and reactions of hydridorhodium(III) octaethylporphyrin and rhodium(II) octaethylporphyrin dimer, 983-7
- OCTAETHYLPORPHYRINRHODIUM**
Syntheses and reactions of hydridorhodium(III) octaethylporphyrin and rhodium(II) octaethylporphyrin dimer, 983-7
- OCTATETRAENE**
Synthesis and characterization of representative octa-1,3,5,7-tetraenes and deca-1,3,5,7,9-pentaenes, 2379-85
- OCTATRIENOL**
Synthesis and characterization of representative octa-1,3,5,7-tetraenes and deca-1,3,5,7,9-pentaenes, 2379-85
- OCTENE**
Synthesis of oct-1-ene-2,8-d₂, 2901-2
- OIL**
Chemistry of hop constituents. Part 43. Cyclic polysulfides and a thiophene from myrcene, and their occurrence in the essential oil of hops, 1089-94
- OLEFIN**
A new procedure for olefin oxirane by peroxybenzimidic acid; synthesis of some carbohydrate-precursor oxiranes and other epoxides, 1009-11
Photochemistry of epoxyquinones. Part 7. Photoinduced cycloaddition of 2,3-dimethyl-2,3-dihydro-2,3-epoxy-1,4-naphthoquinone to olefins, 2671-85
- OLIGOMER**
Linkage isomerism in trimeric and polymeric 2,3-cis-procyanidins, 1209-16
- OLIGOPEPTIDE**
Active and passive transport of amino acid and oligopeptide derivatives by artificial ionophore-potassium ion complexes, 2359-63
- OLIVANATE**
Inversion of configuration at C-8 in the olivanic acids: conversion into the thienamycins and other novel derivatives, 3011-16
- OPENING**
Studies on the 5 β ,6 β -epoxide opening in withanolides, 2835-9
A facile total synthesis of (\pm)-cherylline via an aziridinium intermediate, 2935-7
- OPTICAL**
Reaction of lithioenamides with sulfite esters. Stereospecific and stereoselective synthesis of β -enamino and β -imino sulfoxides, 1183-6
- OPTICALLY**
Asymmetric induction in the reduction of optically active N-

- OPTICALLY**(contd)
alkylidenesulfonamides by metal hydrides. A new, efficient enantioselective route to chiral amines, 339-43
- OPTIMIZATION**
Oxymetalation. Part 16. Modified procedures for reducing peroxymercureals: conversion of nonterminal alkenes into secondary alkyl tert-butyl peroxides, 1797-805
- ORGANOIRON**
Organoiron complexes in organic synthesis. Part 22. Total synthesis of (\pm)-limaspermine and formal synthesis of (\pm)-aspidospermine using organoiron complexes, 2467-76
- ORGANORHODIUM**
Syntheses and reactions of hydridorhodium(III) octaethylporphyrin and rhodium(II) octaethylporphyrin dimer, 983-7
- ORGANOTHALLIUM**
Reactions of organothallium compounds with diborane, 2949-51
- ORIENTALINE**
Biosynthesis of aristolochic acid, 1153-5
- ORTHOPHOSPHORATE**
Acid-catalyzed condensation of isoprene with phenols. Formation of 2,2-dimethylchromans, 335-8
- OXAAZABICYCLOHEPTENONE**
Synthesis of novel β -lactamase inhibitors from clavulanic acid. Preparation and chemical reactions of (5R)-3-vinyl-4-oxa-1-azabicyclo[3.2.0]hept-2-en-7-one, 1509-17
- OXAAZATETRACYCLODODECADIENE**
Heterocyclic polyfluoro compounds. Part 41. Photochemical isomerization of 1-substituted hexafluoro-1H-azepines: hexafluoro-2-azabicyclo[3.2.0]hepta-3,6-dienes and their reactions, 2105-9
- OXABICYCLOOCTANONECARBONYLMETHYLENEIRON**
Thermal rearrangement reactions of tricarbonyliron lactone complexes, 1355-61
- OXACYCLOL**
Cyclol formation from tripeptides containing β -alanine, 1311-16
- OXACYCLOPENTANONE**
Synthesis of optically pure (R,Z)-5-dec-1-enyloxacyclopentan-2-one, the sex pheromone of the Japanese beetle, 69-71
- OXADIAZOLE**
Ring transformation of 3-(2-aminoaryl)-1,2,4-oxadiazoles into 3-acylaminoindazoles; extension of the Boulton-Katritzky scheme, 759-66
Synthesis of heterocycles using a new immonium salt derived from N,N-dimethylthiourea, 1059-62
Investigations into the mechanism of the action of alkali in methanol on 3,6-dibenzyl-s-tetrazines and their 1,4-dihydro-derivatives: the role of s-tetrazines as hydride acceptors and an x-ray determination of the structure of 3,6-bis(4-chlorobenzyl)-1,4-dihydro-s-tetrazine, 1165-70
- OXADIAZOLONE**
1,3,4-Oxadiazol-2(3H)-one formation from N-acylaminobiurets and related compounds and from S-benzyl 3-acyl(thiocarbazate-s), 2019-21
- OXADIAZOLOPYRIDYLUMPHENYLAMINIDE**
Fused mesoionic heterocycles: synthesis of 1,3,4-oxadiazolo[3,2-a]pyridine and 1,3,4-thiadiazolo[3,2-a]pyridine derivatives, 351-5
- OXAHOMOADAMANTANONE**
Synthesis of the four stereoisomers of 4-aminoadamantane-2-carboxylic acid, rigid analogs of γ -aminobutyric acid, 73-7
- OXAHOMOANDROSTENONE**
Dehydrogenation of lactones using benzeneseleninic anhydride. X-ray crystal structure of 3 β -acetoxy-14 α -hydroxy-17a-oxa-D-homo-5 α -androst-15-en-17-one, 1919-22
- OXATHIOLE**
Sulfur extrusion reactions. Part 5. Reactions of monoprotic thioureas with ethyl α -chloroacetate, ethyl bromomalonate, and ethyl bromocynoacetate, 653-6
- OXAZAPHOSPHOLIDINETHIONE**
1,3,2-Oxazaphospholidine-2-thiones from (+)-norephedrine: stereospecific ring opening, possibly by an elimination-addition mechanism, 639-43
- OXAZINEDIONE**
Pyrimidine derivatives and related compounds. Part 42. Isolation of the intermediates in the ring transformation of 1,3-oxazine-2,4-diones into pyrimidines and pyrazoles, and their structure determination by nitrogen-15 nuclear magnetic resonance analysis, 473-5
- OXAZINONE**
Synthesis of β -amino acid peptides. Part 3. Preparation of racemic and chiral 3-aminobutyric acid derivatives and peptides using dihydrooxazin-6-ones and conventional coupling reagents, 1587-92
- OXAZOLIDINE**
Photooxidation of oxazolidones and hydantoin in the presence of benzophenone, 2341-5
- OXAZOLIDINEDIONE**
Photooxidation of oxazolidones and hydantoin in the presence of benzophenone, 2341-5
- OXAZOLIDINONE**
Base-promoted reactions of α -haloalkylanilides, 2969-72
- OXAZOLINE**
Regioselective β -metalations of 2-substituted furan and N-methylpyrrole derivatives employing the directing effect of the oxazolino group: syntheses of 2,3-disubstituted furans and N-methylpyrroles, 1343-7
- OXAZOLIUM**
Reactions of five-membered heteroaromatic oxonium cations with amines, 131-6
- OXAZOLOPYRIMIDINONE**
Intramolecular cyclization reactions in aliphatic thymidine analogs series, 223-7
- OXETANE**
Photocycloaddition of 1-aminoanthraquinones to dienes by visible light irradiation, 1771-3
- OXIDATIVE**
2-(2-Nitrophenyl)oxaheterocycloniums: potential reagents for oxidative deamination of primary amines, 137-42
Approaches to bridged thia[1,7]annulenes, 483-7
Addition reactions of aminium radicals: synthetic studies of oxidative photoaddition of N-nitrodimethylamine, 1405-17
Spirans. Part 15. The effect of ring size upon the regioselective oxidative coupling of heterocyclic phenols, 2617-24
Organoiron complexes in organic synthesis. Part 24. Studies in the synthesis and reactivity of 6-exo-substituted cyclohexadienylum-(tricarbonyl)iron salts, 2641-6
Benzenesulfenyl radicals. Reactivity of 4'-methoxy- and 4'-methoxy-2-nitrobenzenesulfenyl radicals, 3049-53
- OXIDE**
Pyrimidine derivatives and related compounds. Part 41. Reactions of 1,3,6-trimethyl-5-nitrouacil and its 6-bromomethyl analog with amines and hydrazines. Synthesis of pyrazolo[4,3-d]pyrimidine N-oxides and their ring expansion to pyrimido[5,4-d]pyrimidines, 277-84
Ring contractions of thiochroman-4-ones and thiochromen-4-ones 395-402
Stereoselective olefin cyclization mediated by the selenyl group; direct formation of a selenyl caparrapi oxide, 1085-7
Organocuprate conjugate addition reactions of 2,3-dihydrothiin-4-one, its oxide and dioxide, 1177-82
Cyclization of $\gamma\delta$ -unsaturated sulfenic acids to give thietane 1-oxide derivatives. Crystal structure of rel-(1R,2S,3R,4R)-3-hexyl-2-(hydroxymethyl)-4-methylthietane 1-oxide, 1325-32
Synthesis of some thietanoprostanoids, 1333-42
Dinitrones from C-benzyl nitrones, 1395-8
Formation of isocyanates by deoxygenation of C-nitrosocarbonyl compounds, 1571-4
Aryl nitrenes from N,N'-diarylbenzoquinone diimine N,N'-dioxides and N-arylbenzoquinone imine N-oxides, 2023-6
Alkyl nitrenes from N-alkylbenzoquinone imine N-oxides, 2027-34
Photolysis of N-alkoxybenzoquinone imine N-oxides, 2035-9
Synthesis of substituted dibenzophospholes. Part 1, 2289-97
Synthesis of substituted dibenzophospholes. Part 3. Synthesis of 4,6-diaryldibenzophospholes from m-quaterphenyls, 2317-31
Synthesis of substituted dibenzophospholes. Part 4. Chemical transformations of 4,6-diaryl-3,7-dialkoxydibenzophosphole 5-oxides, 2333-9
Tetrahydroisoxazolo[2,3-d][1,4]benzodiazepinone ring system: synthesis, stereochemistry, and conformation, 2701-5
Synthetic approaches to some aza analogs of benzimidazole N-oxides. Part 1. The imidazo[4,5-b]pyridine series, 2995-3006
- OXIDIZING**
Oxidation of benzylic hydrocarbons with benzeneseleninic anhydride and related reactions, 2179-85
- OXIDN**
Syntheses and properties of trimethyltetrahydro[19]annulenes and the benzannulated derivatives, 31-42

OXIDN(contd)

- Syntheses and properties of a trimethyltetrahydro[21]annulenone and its benzannulated derivatives, 43–50
- Syntheses and properties of a trimethyltetrahydro[23]annulenone and a trimethyltetrahydro[25]annulenone, 51–8
- Amide-catalyzed isomerization of 5,6-dihydroisoquinolines: a novel synthesis of 1,2-dihydroisoquinolines, 63–8
- Conversion of aromatic ketones into π -arylalkanoic acids.
- Oxidation by thallium(III) and by halogens, 235–42
- Metal-assisted cycloadditions. Part 1. Synthesis of substituted cyclopentane derivatives obtained from the reactions of (η^1 -allyl)dicarbonyl(η^5 -cyclopentadienyl)iron with electron-deficient olefins and acetylenes, 285–94
- Metal-assisted cycloadditions. Part 2. Reactions of dicarbonyl(η^5 -cyclopentadienyl)(η^1 -3-methoxyallyl)iron with electron-deficient olefins and acetylenes, 295–300
- New rearrangement and oxidation products from humulone, 375–83
- Polymer-supported periodate and iodate as oxidizing agents, 509–11
- Reactions of mercury(II) acetate with nitrogen compounds. Part 9. Oxidations of the bis(4-nitrophenylhydrazones) of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553–5
- Microbiological transformations. Part 5. Microbiological transformations of 17a-aza- and 17-aza-D-homoandrost-5-ene derivatives with the fungus *Cunninghamella elegans*, 571–6
- Ketol formation by peracid oxidation of a tricyclic styrene, 657–64
- The chemistry of organoborates. Part 8. Unique Michael reactions of lithium trialkylalkynylborates, 719–22
- Reactions of forskolin, a biologically active diterpenoid from *Coleus forskohlii*, 767–71
- Triazolopyridines. Part 2. Preparation of 7-substituted triazolo[1,5-a]pyridines by directed lithiation, 967–71
- Investigations into the mechanism of the action of alkali in methanol on 3,6-dibenzyl-s-tetrazines and their 1,4-dihydro-derivatives: the role of s-tetrazines as hydride acceptors and an x-ray determination of the structure of 3,6-bis(4-chlorobenzyl)-1,4-dihydro-s-tetrazine, 1165–70
- Aspects of the chemistry of dehydromethionine, 1283–90
- Dye-sensitized photooxygenation of the *Aspidosperma* alkaloids vincadifformine and tabersonine. A new, convenient approach to vincamine, 1371–9
- Dinitrones from C-benzyl nitrones, 1395–8
- 1,2-Disubstituted ethanes as possible precursors for the synthesis of Cannabis spirans, 1485–91
- Homopolysaccharides interaction with the dimethyl sulfoxide-paraformaldehyde cellulose solvent system. Selective oxidation of amylose and cellulose at secondary alcohol groups, 1579–85
- New oxidative systems for alcohols: molecular sieves with chromium(VI) reagents, 1967–73
- Oxidation of aldose oximes. Formation and structure of hydroxydiazene oxidase acetals and preparation of hydroximolactones. X-ray crystal structure of 2,3:5,6-di-O-isopropylidene- α -D-mannofuranosyl-O,N,N-azoxy 2,3:5,6-di-O-isopropylidene- α -D-mannofuranoside, 2139–47
- Oxidation of benzylic hydrocarbons with benzeneseleninic anhydride and related reactions, 2179–85
- Photooxidation of oxazolones and hydantoins in the presence of benzophenone, 2341–5
- Intramolecular reactions of N-nitrenes: oxidation of 3-amino-2-(arylalkyl)quinazolin-4(3H)-ones, 2407–12
- 2,4-Dinitrobenzenesulfonylnitrene: addition to (Z)- and (E)-1-phenylpropene, 2491–7
- Stereochemistry of olefin and fatty acid oxidation. Part 2. Photosensitized oxidation of hexene and hepta-2,5-diene isomers 2715–17
- Enamines in the synthesis of 2-(substituted amino)-3,3-dialkylchromanones, 2771–5
- Oxidation of alkoxyphenols. Part 26. The trimer of a 2,2'-diphenoquinone (1,1'-bicyclohexa-3,5-dienylidene-2,2'-dione), 2855–62
- Oxidation of alkoxyphenols. Part 27. The mechanism of formation of dibenzo[d,f][1,3]dioxepins, 2863–6
- Studies on heterocyclic chemistry. Part 26. The ring transformation of 3-acylthio-4-aryl-3-isothiazoline-5-thiones to benzo[b]- and naphtho[2,1-b]-thiophenes with an acylimino group at C-2 via the 2-arylethanethioamide derivatives, 2867–70
- Silver(I)-catalyzed oxidation of cyclic secondary amines with peroxodisulfate, 3031–5
- Benzenesulfenanilidyl radicals. Reactivity of 4'-methoxy- and 4'-methoxy-2-nitrobenzenesulfenanilidyl radicals, 3049–53
- OXIDO**
- Base catalyzed rearrangements involving ylide intermediates. Part 14. Rearrangement of 4-oxidoanilinium ylides and 3-oxidoanilinium betaines, 893–901
- OXIDOANILINIUM**
- Base catalyzed rearrangements involving ylide intermediates. Part 14. Rearrangement of 4-oxidoanilinium ylides and 3-oxidoanilinium betaines, 893–901
- OXIMATOCOPPER**
- Interaction of copper complexes derived from 1,2-quinone monooximes (2-nitrosophenols) with amines, 1075–8
- OXIME**
- Fluorocarbon derivatives of nitrogen. Part 6. Reactions of some perfluorinated nitroso compounds with hydrogen sulfite ion: conversion of fluorocarbon olefins into perfluoro-ketone oximes 685–8
- Photo-induced transformations. Part LXI. Syntheses of some six-membered and eight-membered lactams of the β -homo- and α -nor- β , β -dihomocholestane series by the photo-Beckmann rearrangement, 931–8
- Interaction of copper complexes derived from 1,2-quinone monooximes (2-nitrosophenols) with amines, 1075–8
- Reaction of some 1,4-benzoquinone monooximes with methanolic hydrogen chloride, 1095–8
- Photoinduced transformations. Part 63. Photorearrangement of 17 β -acetoxy-4,4-dimethylestr-5-en-3 β -yl nitrite with monochromatic light, 1963–6
- Oxidation of aldose oximes. Formation and structure of hydroxydiazene oxidase acetals and preparation of hydroximolactones. X-ray crystal structure of 2,3:5,6-di-O-isopropylidene- α -D-mannofuranosyl-O,N,N-azoxy 2,3:5,6-di-O-isopropylidene- α -D-mannofuranoside, 2139–47
- OXIRANE**
- A new procedure for olefin oxirane by peroxybenzimidic acid; synthesis of some carbohydrate-precursor oxiranes and other epoxides, 1009–11
- OXIRANYLBICYCLODODECANE**
- Synthesis of polyoxygenated trans-decalins as potential insect antifeedants, 2157–62
- OXO**
- Bromo derivatives of dimethyl 4-oxo-trans-2,6-diphenylcyclohexane-1,1-dicarboxylate and their dehydrobromination, 101–5
- Preparation and reactions of pyridones: steric and electronic effects on cycloadditions with 2(1H)-pyridones, 169–73
- Preparation of kaurenolide and its 5 α ,6 α (H)-isomer, 517–19
- Studies on v-triazoles. Part 4. The 4-methoxybenzyl group, a versatile N-protecting group for the synthesis of N-unsubstituted v-triazoles, 627–30
- Reactions of 3-acetyltropolone methyl ethers with guanidine and amidines, 1037–9
- Dye-sensitized photooxygenation of the *Aspidosperma* alkaloids vincadifformine and tabersonine. A new, convenient approach to vincamine, 1371–9
- Heterocyclic syntheses with malonyl dichloride. Part 13. 6-Chloro-4-hydroxy-2-oxopyran-3-carboxanilides from N-sulfinylanilines and further reaction of malonyl dichloride with thiocyanates, 1575–8
- Experiments towards the synthesis of the ergot alkaloids and related structures. Part 4. Lysergic acid – an attempted 'endo-amide' approach, 1897–903
- Photoinduced transformations. Part 63. Photorearrangement of 17 β -acetoxy-4,4-dimethylestr-5-en-3 β -yl nitrite with monochromatic light, 1963–6
- Synthesis of (2RS,5RS,6SR)-3-methoxycarbonyl-7-oxo-6-phenoxacetamido-1-azabicyclo[3.2.0]hept-3-ene-2-carboxylic acid, 2123–9
- Tricyclic products from the reaction between penicillin derived thiazolineazetidiones and ethyl diazoacetate. X-ray structure of methyl 2-[(1R,3S,4R,5S,6S,8R)-3-benzyl-4,5-bismethoxycarbonyl-6-ethoxycarbonyl-9-oxo-7,10-diaza-2-thiatricyclo[6.2.0.0.0³-7]decane-10-yl]-3-methylbut-2-enoate, 2169–73
- OXOAZETIDINE**
- Studies related to penicillins. Part 21. β -Elimination reactions of S,S-dioxides of penicillanic esters, 595–602
- OXOBENZIMIDAZOLINYL**
- N-Bridged heterocycles. Part 5. α,ω -Bis(2-oxobenzimidazolyl)alkanes and -ethers as selective ligands for Group IA and IIA

- OXOBENZIMIDAZOLINYL**(contd)
metals, 261-70
- OXOBENZIMIDAZOLINYLALKANE**
N-Bridged heterocycles. Part 5. α,ω -Bis(2-oxobenzimidazolyl)alkanes and -ethers as selective ligands for Group IA and IIA metals, 261-70
- OXOBENZOCYCLOHEPTENECARBOXYLATE**
Bridged-ring nitrogen compounds. Part 6. Synthesis of the 2,5-methano-3-benzazocine ring system, 2927-33
- OXOBENZOCYCLOHEPTENEDICARBOXYLATE**
Bridged-ring nitrogen compounds. Part 6. Synthesis of the 2,5-methano-3-benzazocine ring system, 2927-33
- OXOBUTANOATE**
Convenient syntheses of 5-substituted 2-hydroxybenzoates and related reactions, 665-9
Lewis acid-catalyzed reactions of aryl cyclopropyl ketones. Scope and mechanism, 1029-35
- OXOBUTYL**
Azonia-azulene salts. Part 5. Synthesis of 5H-pyrrolo[1,2-a]azepine and of 7H-pyrrolo[1,2-a]azepin-7-one, 1123-30
- OXOBUTYLPYRROLECARBOXALDEHYDE**
Azonia-azulene salts. Part 5. Synthesis of 5H-pyrrolo[1,2-a]azepine and of 7H-pyrrolo[1,2-a]azepin-7-one, 1123-30
- OXOCYCLOHEXANEDICARBOXYLATE**
Bromo derivatives of dimethyl 4-oxo-trans-2,6-diphenylcyclohexane-1,1-dicarboxylate and their dehydrobromination, 101-5
- OXOCYCLOHEXENEDICARBOXYLATE**
Bromo derivatives of dimethyl 4-oxo-trans-2,6-diphenylcyclohexane-1,1-dicarboxylate and their dehydrobromination, 101-5
- OXODIAZATHIABICYCLOHEPTENYLMETHYLBUTENOATE**
Tricyclic products from the reaction between penicillin derived thiazolineazetidiones and ethyl diazoacetate. X-ray structure of methyl 2-[(1R,3S,4R,5S,6S,8R)-3-benzyl-4,5-bismethoxycarbonyl-6-ethoxycarbonyl-9-oxo-7,10-diaza-2-thiatriacyclo[6.2.0.0^{3,7}]decan-10-yl]-3-methylbut-2-enoate, 2169-73
- OXODIAZATHIATRICYCLODECANYLMETHYLBUTENOATE**
Tricyclic products from the reaction between penicillin derived thiazolineazetidiones and ethyl diazoacetate. X-ray structure of methyl 2-[(1R,3S,4R,5S,6S,8R)-3-benzyl-4,5-bismethoxycarbonyl-6-ethoxycarbonyl-9-oxo-7,10-diaza-2-thiatriacyclo[6.2.0.0^{3,7}]decan-10-yl]-3-methylbut-2-enoate, 2169-73
- OXODIAZOLE**
Novel synthesis of pyrazolo[5,1-c]-1,2,4-triazoles, imidazo[1,2-b]pyrazoles, and [1,2,4]-triazolo[4,3-a]benzimidazoles. Reaction of nitrile imines with amino- and oxo-substituted diazoles, 2663-6
- OXODINORGIBBERELLANEDICARBOXYLATE**
Partial synthesis of [17-¹³C; 15,17-³H]gibberellin A₂₉ from gibberellin A₃, 699-706
- OXOERYTHROIDINE**
Erythrina alkaloids. Part 6. Isolation and characterization of alkaloids from Erythrina berteroana seeds and leaves: formation of oxoerythroidines, 2903-7
- OXOGLUTARATE**
New stereoselective synthesis of 9-methyl-cis-decalin derivatives by double Michael reaction of 3-methyl-4-methylenecyclohex-2-enone and its congeners with dimethyl 3-oxoglutarate, 25-30
Synthesis of sesquiterpenes occidentalol, chamaecynone, and related compounds characterized by a cis-eudesmane structure, 2849-53
- OXOINDOLE**
Dye-sensitized photooxygenation of the Aspidosperma alkaloids vincadifformine and tabersonine. A new, convenient approach to vincamine, 1371-9
- OXOKAURENOATE**
Preparation of kaurenolide and its 5 α ,6 α (H)-isomer, 517-19
- OXOMETACYCLOPHANE**
Carbene insertion into [2.2]metacyclophane-1,10-dione: a convenient route to [3.2]- and [3.3]-metacyclophanes, 477-81
- OXOPIPERAZINE**
Base-promoted reactions of α -haloalkylanilides, 2969-72
- OXOPROPANYLYLIDENE**
Acid-catalyzed cyclizations: structures of novel products isolated in the reaction of 2-[3-(2,6-dimethoxyphenyl)but-2-enyl]-2-methylcyclopentane-1,3-dione with methanol-hydrochloric acid, 2791-4
- OXOPROPANYLYLIDENEBENZOXOCIN**
Acid-catalyzed cyclizations: structures of novel products isolated in the reaction of 2-[3-(2,6-dimethoxyphenyl)but-2-enyl]-2-methylcyclopentane-1,3-dione with methanol-hydrochloric acid, 2791-4
- OXOPYRANCARBOXANILIDE**
Heterocyclic syntheses with malonyl dichloride. Part 13. 6-Chloro-4-hydroxy-2-oxopyran-3-carboxanilides from N-sulfinylanilines and further reaction of malonyl dichloride with thiocyanates, 1575-8
- OXOPYRAZOLYLHYDRAZONE**
Reactions with heterocyclic diazonium salts: novel synthesis of pyrazolo[4,3-c]pyridazines and of pyrazolo[4,3-c]pyrazoles, 989-91
- OXOPYRIDAZINECARBOXYLATE**
The reaction of Meldrum's acid with α -dicarbonyl monohydrazones: a new synthesis of pyridazin-3-ones, 1845-53
- OXOSECOESTRENAL**
Photoinduced transformations. Part 63. Photorearrangement of 17 β -acetoxy-4,4-dimethylestr-5-en-3 β -yl nitrite with monochromatic light, 1963-6
- OXOVINCADIFFORMINE**
Dye-sensitized photooxygenation of the Aspidosperma alkaloids vincadifformine and tabersonine. A new, convenient approach to vincamine, 1371-9
- OXYGENATION**
Structures of the artabinsolides; photo-oxygenation studies on artabsin, 861-4
- OXYMERCURATION**
On the stereochemistry of Grignard addition to bicyclo[3.3.1]nonan-2-one. Preferential axial attack on a cyclohexanone system by a bulky nucleophile, 979-82
- OZONOLYSIS**
Synthesis of (2RS,5RS,6SR)-3-methoxycarbonyl-7-oxo-6-phenoxyacetamido-1-azabicyclo[3.2.0]hept-3-ene-2-carboxylic acid, 2123-9
- PALLADIUM**
Regio- and stereospecificity of nucleophilic attack on steroidal π -allylpalladium complexes, 2595-7
- PASSIFLORA**
The biosynthesis of the β -carboline alkaloids, harman and eleagnine, 1523-5
- PENAM**
The chemistry of 4-mercaptoazetidion-2-ones. Part 4. Synthesis of cyclopropanespiro-2-bisnorpenicillanic acids, 1435-9
- PENAMCARBOXYLATE**
The chemistry of 4-mercaptoazetidion-2-ones. Part 3. Synthesis of 6-phenoxyacetamido-2-alkylidenepenam-3-carboxylic acids, 1429-33
- PENICILLANIC**
Studies related to penicillins. Part 21. β -Elimination reactions of S,S-dioxides of penicillanic esters, 595-602
- PENICILLIN**
Nuclear magnetic resonance and circular dichroism of penicillins derived from disubstituted acetic acids, 563-9
- PENICILLINATE**
Preparation of 6 α -monosubstituted and 6,6-disubstituted penicillanates from 6-diazopenicillanates: reactions of 6-diazopenicillanates with alcohols, thiols, phenylseleninyl compounds, and allylic sulfides, and their analogs, 2757-66
- PENICILLIUM**
6-Farnesyl-5,7-dihydroxy-4-methylphthalide oxidation mechanism in mycophenolic acid biosynthesis, 365-73
Biosynthesis of citreoviridin. A carbon-13 NMR study, 2175-8
- PENTADIENEDIOATE**
Products from dimethyl hex-2-en-1-yne-1,6-dioate and dimethyl penta-2,3-diene-1,5-dioate with compounds possessing two adjacent nucleophilic centers, 1905-14
- PENTADIENYLPHENYLPHOSPHONIUM**
Synthesis and characterization of representative octa-1,3,5,7-tetraenes and deca-1,3,5,7,9-pentaenes, 2379-85
- PENTANEDIONE**
Reactions of mercury(II) acetate with nitrogen compounds. Part 9. Oxidations of the bis(4-nitrophenylhydrazones) of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553-5
- PENTENOPYRANOSIDE**
Arylazoglycosides. Part 7. Syntheses of amino sugars from methyl arylazohexenopyranosides, 205-14
- PENTULOSE**
The biosynthesis of thiamine. Syntheses of [1,1,1,5-²d₄]-1-deoxy-D-threo-2-pentulose and incorporation of this sugar in

PENTULOSE(contd)

biosynthesis of thiazole by *Escherichia coli* cells, 2131-7

PEPTIDE

On the double bond isostere of the peptide bond: preparation of an enkephalin analog, 307-14

Synthetic approaches to versatile hemoprotein model compounds built from porphyrins and peptides, 1441-8

Further studies on the protection of histidine side chains in peptide synthesis: the use of the π -benzyloxymethyl group, 1553-61

Synthesis of β -amino acid peptides. Part 3. Preparation of racemic and chiral 3-aminobutyric acid derivatives and peptides using dihydrooxazin-6-ones and conventional coupling reagents, 1587-92

Selective formylation of α - or ϵ -amino groups of peptides, 2625-9

Selectivity in the trimethylsilylation and acylation of peptide bonds, and its application to modification of the enkephalins, 2939-47

PERCHLORATE

The enamine route to 2-morpholinoisoflav-3-ene, 1193-6

PERFLUORO

Reactions involving fluoride ion. Part 25. A fluoride-ion-induced skeletal rearrangement, 673-6

Fluorocarbon derivatives of nitrogen. Part 6. Reactions of some perfluorinated nitroso compounds with hydrogen sulfite ion: conversion of fluorocarbon olefins into perfluoro-ketone oximes 685-8

Fluoro olefin chemistry. Part 14. Preparation and photochemical rearrangement of some acyclic perfluoroalkyl and polyfluoroalkyl olefins, 2211-17

PERFLUOROALKENE

Fluoro olefin chemistry. Part 14. Preparation and photochemical rearrangement of some acyclic perfluoroalkyl and polyfluoroalkyl olefins, 2211-17

PERFLUORODICYCLOBUTYLCYCLOBUTENE

Reactions involving fluoride ion. Part 25. A fluoride-ion-induced skeletal rearrangement, 673-6

PERFLUORONITROSOALKANE

Fluorocarbon derivatives of nitrogen. Part 6. Reactions of some perfluorinated nitroso compounds with hydrogen sulfite ion: conversion of fluorocarbon olefins into perfluoro-ketone oximes 685-8

PERFLUOROSPIROBICYCLONONENECYCLOBUTENE

Reactions involving fluoride ion. Part 25. A fluoride-ion-induced skeletal rearrangement, 673-6

PERHYDRO

Polycyclic analogs of trans-decalones. Part 5. Synthesis, optical resolution, and circular dichroism of trans-transoid-trans-perhydrophenanthren-3-one and trans-transoid-trans-perhydrophenanthren-9-one, 2117-22

PERHYDROPHENANTHRENONE

Polycyclic analogs of trans-decalones. Part 5. Synthesis, optical resolution, and circular dichroism of trans-transoid-trans-perhydrophenanthren-3-one and trans-transoid-trans-perhydrophenanthren-9-one, 2117-22

PERICONIA

Synthesis of chlorinated isocoumarin derivatives, 1111-15

The biosynthesis of chlorine-containing metabolites of *Periconia macrospinoso*, 3037-9

PERIODATE

Polymer-supported periodate and iodate as oxidizing agents, 509-11

PERKOW

Silyl phosphites. Part 20. A facile synthesis of phosphoenolpyruvate and its analog utilizing in situ generated trimethylsilyl bromide, 2509-13

PEROXIDE

Decarboxylative rearrangement of an alkanoyl arylcarbonyl peroxide involving migration of a primary chiral center, 591-3

Oxymetalation. Part 16. Modified procedures for reducing peroxymercurials: conversion of nonterminal alkenes into secondary alkyl tert-butyl peroxides, 1797-805

Oxymetalation. Part 17. tert-Butyl peroxymercuriation and subsequent demercuriation of phenylcyclopropane, 1807-9

PEROXODISULFATE

Silver(I)-catalyzed oxidation of cyclic secondary amines with peroxodisulfate, 3031-5

PEROXYBENZIMIDATE

A new procedure for olefin oxirane by peroxybenzimidic acid; synthesis of some carbohydrate-precursor oxiranes and other epoxides, 1009-11

PEROXYMERCURIAL

Oxymetalation. Part 16. Modified procedures for reducing peroxymercurials: conversion of nonterminal alkenes into secondary alkyl tert-butyl peroxides, 1797-805

PEROXYMERCURIATION

Oxymetalation. Part 17. tert-Butyl peroxymercuriation and subsequent demercuriation of phenylcyclopropane, 1807-9

PGF

Synthesis of stable prostacyclin analogs from 2,3-disubstituted bicyclo[3.2.0]heptan-6-ones, 823-30

PHASE

Synthetic and mechanistic aspects of gas-liquid phase-transfer catalysis: carboxylate esters, 993-7

PHENANTHRENE

Benzocyclobutenes. Part 7. Synthesis and x-ray crystal structure of cyclobuta[1]phenanthrene-1,2-dione and the synthesis of hexabenz[a,c,g,i,m,o]triphenylene, 19-23

Synthesis of (-)-steganone, 521-5

Natural products of Thailand high δ^1 -THC-strain *Cannabis*. The dibenzyl-spiran-dihydrophenanthrene group: relations with cannabinoids and canniflavones, 1455-66

A new phenanthrene synthesis, 3007-10

PHENANTHRENONE

Studies in metal-ammonia reduction. Part 4. Reduction and reductive methylation of 7-methoxy-3,4-dihydrophenanthren-1(2H)-one and 7-methoxy-1,2-dihydrophenanthren-4(3H)-one, 1381-4

1,2-Disubstituted ethanes as possible precursors for the synthesis of *Cannabis* spirans, 1485-91

Polycyclic analogs of trans-decalones. Part 5. Synthesis, optical resolution, and circular dichroism of trans-transoid-trans-perhydrophenanthren-3-one and trans-transoid-trans-perhydrophenanthren-9-one, 2117-22

PHENANTHROINDOLIZINE

Phenanthroindolizidine and related alkaloids: synthesis of tylophorine, septicine, and deoxytylophorinine, 2477-85

PHENOL

Depsidone synthesis. Part 21. A new synthesis of grisa-2',5'-diene-3,4'-diones, 403-11

Versatile synthesis of sulfamate esters by phase-transfer methods, 677-9

Gas-liquid phase-transfer synthesis of phenyl ethers and sulfides with carbonate as base and carbowax as catalyst, 1137-41

Spirans. Part 15. The effect of ring size upon the regioselective oxidative coupling of heterocyclic phenols, 2617-24

Cyclodienones. Part 6. Preparation of 4-azido-2,4,6-tri-tert-butylcyclohexa-2,5-dienone and its thermal, photochemical, and acid-catalyzed decomposition, 2841-8

Oxidation of alkoxyphenols. Part 27. The mechanism of formation of dibenzo[d,f][1,3]dioxepins, 2863-6

Reactions of organothallium compounds with diborane, 2949-51

PHENOLIC

Addition reactions of benzo[b]thiophene. Part 3. Addition and ring-opening reactions with phenolic ethers, 615-21

PHENOTHIAZINONE

1H-1,4-Benzothiazines. New cyclic sulfonium ylides, 831-4

PHENOXAZINONE

Interaction of copper complexes derived from 1,2-quinone monooximes (2-nitrosophenols) with amines, 1075-8

Cyclodienones. Part 6. Preparation of 4-azido-2,4,6-tri-tert-butylcyclohexa-2,5-dienone and its thermal, photochemical, and acid-catalyzed decomposition, 2841-8

PHENOXY

Depsidone synthesis. Part 21. A new synthesis of grisa-2',5'-diene-3,4'-diones, 403-11

PHENOXYACETAMIDO

The chemistry of 4-mercaptoazetid-2-ones. Part 3. Synthesis of 6-phenoxyacetamido-2-alkyldenepenam-3-carboxylic acids, 1429-33

Synthesis of (2RS,5RS,6SR)-3-methoxycarbonyl-7-oxo-6-phenoxyacetamido-1-azabicyclo[3.2.0]hept-3-ene-2-carboxylic acid, 2123-9

PHENOXYACETAMIDOALKYLIDENEPENAMCARBOXYLATE

The chemistry of 4-mercaptoazetid-2-ones. Part 3. Synthesis of 6-phenoxyacetamido-2-alkyldenepenam-3-carboxylic acids, 1429-33

PHENOXYACETAMIDOAZABICYCLOHEPTENECARB-

OXYLATE

Synthesis of (2RS,5RS,6SR)-3-methoxycarbonyl-7-oxo-6-phenoxycetamido-1-azabicyclo[3.2.0]hept-3-ene-2-carboxylic acid, 2123-9

PHENOXYBENZOATE

Depsidone synthesis. Part 21. A new synthesis of grisa-2',5'-diene-3,4'-diones, 40

PHENOXYBENZOATE ARBOXYLATE

Studies on *v*-triazoles. Part 4. The 4-methoxybenzyl group, a versatile N-protecting group for the synthesis of N-unsubstituted *v*-triazoles, 627-30

PHENYL

Preparation and reactions of pyrylium salts containing α -pyridyl groups, 125-30

Heterocycle stabilized carbanions. Two series of anomalous products from 1-alkyl-4,6-diphenyl-2-pyridones, 143-51

Preparation and reactions of pyridones: steric and electronic effects on cycloadditions with 2(1H)-pyridones, 169-73

Photochemical reactions of N,N-dialkyl- α -thioamides, 247-8

Cytochalasins E and K, toxic metabolites from *Aspergillus clavatus* 541-4

Studies on anhydroosazones. Part 5. Structure and anomeric configuration of the C-nucleoside analogs obtained from the dehydration of D-glucos- and D-manno hept-2-ulose phenylosazones, 557-62

Sulfur extrusion reactions. Part 5. Reactions of monoprotic thioureas with ethyl α -chloroacetoacetate, ethyl bromomalonate, and ethyl bromocynoacetate, 653-6

Convenient syntheses of 5-substituted 2-hydroxybenzoates and related reactions, 665-9

A stable bromoalkoxyphosphorane, a model for the postulated five-coordinate intermediate in the Arbuzov and related reactions 735-40

Stereochemistry of 2,3-dimethyl analogs of the reversed ester of pethidine and related compounds: examples of vicinal diaxial methyl groups in 2,3-dimethylpiperidine derivatives, 749-53

Ring transformation of 3-(2-aminoaryl)-1,2,4-oxadiazoles into 3-acylaminoindazoles; extension of the Boulton-Katritzky scheme, 759-66

Reactions of 3-acetylpropolone methyl ethers with guanidine and amidines, 1037-9

Photolysis and thermolysis of phenyl azide in acetic acid. Trapping of 1-azacyclohepta-1,2,4,6-tetraene and nucleophilic aromatic substitution, 1269-73

Naturally occurring dibenzofurans. Part 1. A synthesis of cannabifuran, 1605-10

Oxymetalation. Part 17. tert-Butyl peroxymercuration and subsequent demercuration of phenylcyclopropane, 1807-9

Preparation and reactions of 3-phenyl-4a,5,6,8a-tetrahydro-4H-1,2-benz[e]oxazines, 1891-5

A practical catalytic method for the preparation of steroidal 1,4-dien-3-ones by oxygen atom transfer from iodoxybenzene to diphenyl diselenide, 1947-52

Studies on the chemical constituents of rutaceous plants. Part 45. Novel phenyl propanoids: cuspidiol, boninenal, and methyl boninenalate, 2051-8

Heterocyclic polyfluoro compounds. Part 40. Preparation of polyfluoroazepines, 2101-4

Heterocyclic polyfluoro compounds. Part 41. Photochemical isomerization of 1-substituted hexafluoro-1H-azepines: hexafluoro-2-azabicyclo[3.2.0]hepta-3,6-dienes and their reactions, 2105-9

Rearrangement of 1-(α -hydroxybenzyl)-1,2,3,4-tetrahydroisoquinolines to 1-phenyl-2,3,4,5-tetrahydro-1H-3-benzazepines, 2163-7

Polyhalo allenes and acetylenes. Part 15. Dipolar cycloadditions of N-phenylsydnone and aryl azides to perfluoropropadiene and perfluoropropyne, 2207-10

Synthesis of 1,2,3,9b-tetrahydro-9b-hydroxy-1-phenylpyrrolo[2,1-a]isoindol-5-one via the hydrazinolysis of 2-phenyl-2-(2-phthalimidoethyl)indan-1,3-dione, 2783-6

Benzenesulfenylidyl radicals. Reactivity of 4'-methoxy- and 4'-methoxy-2-nitrobenzenesulfenylidyl radicals, 3049-53

PHENYLACETALDEHYDE

Intramolecular reactions of pyridinium-2-carbonyl azides: conversion of amines into aldehydes, 2953-6

PHENYLACETYLENE

Reactivity of the perhaloalkanes bromochloro- and dibromodifluoromethane with nucleophiles. Part 4. Condensation with

carbanions, 1063-5

Synthesis of β -lactams from imines and 1-lithiooxy-2-phenylacetylene, 2193-6

PHENYLALANYL

Synthetic approaches to versatile hemoprotein model compounds built from porphyrins and peptides, 1441-8

PHENYLAMINO

1H-1,4-Benzothiazines. New cyclic sulfonium ylides, 831-4

PHENYLAZO

Arylazoglycosides. Part 7. Syntheses of amino sugars from methyl arylazohexenopyranosides, 205-14

PHENYLAZOTRIDEOXYHEXENOPYRANOSIDE

Arylazoglycosides. Part 7. Syntheses of amino sugars from methyl arylazohexenopyranosides, 205-14

PHENYLBENZAZEPINE

Rearrangement of 1-(α -hydroxybenzyl)-1,2,3,4-tetrahydroisoquinolines to 1-phenyl-2,3,4,5-tetrahydro-1H-3-benzazepines, 2163-7

PHENYLBENZOXAZINE

Preparation and reactions of 3-phenyl-4a,5,6,8a-tetrahydro-4H-1,2-benz[e]oxazines, 1891-5

PHENYLBENZOXAZINONE

Preparation and reactions of 3-phenyl-4a,5,6,8a-tetrahydro-4H-1,2-benz[e]oxazines, 1891-5

PHENYLBUTADIENE

Electroorganic reactions. Part 20. Electrogenated bases. ylide formation, and Wittig alkene synthesis, 2921-6

PHENYLBUTANEDIYLIDENE BISALKYLAMINE

Dinitrones from C-benzyl nitrones, 1395-8

PHENYLBUTANOL

Asymmetric synthesis with carbohydrates. Part 2. Asymmetric Grignard addition reactions conditioned by chiral magnesium alkoxides, 197-200

PHENYLBUTENE

Azonia-azulene salts. Part 5. Synthesis of 5H-pyrrolo[1,2-a]azepine and of 7H-pyrrolo[1,2-a]azepin-7-one, 1123-30

PHENYLBUTYRATE

A convenient solvent-specific synthesis of 4-[4-acetoxy-3-(3-methylbut-2-enyl)phenyl]butyric acid, 1601-3

PHENYL CARBAMOYL TOLYLQUINOLINE

The chemistry of some bicyclic pyridinium anhydrobases, 1349-53

PHENYLCYCLOHEXENE

Cross-linked poly-(4-vinylpyridine-styrene)-bromine complexes as stereoselective brominating agents, 2059-62

PHENYLCYCLOPROPANE

Oxymetalation. Part 17. tert-Butyl peroxymercuration and subsequent demercuration of phenylcyclopropane, 1807-9

PHENYLDIAZABUTADIENE

Thiadiazoles and thiadiazolines. Part 2. Δ^2 -1,3,4-Thiadiazoline-4-carboxamides derived from substituted acyclic thioureas, 1981-6

Thiadiazoles and thiadiazolines. Part 3. Synthesis of triazol-3-yl- Δ^2 -1,3,4-thiadiazolines and a new synthesis of unsymmetrical 2,5-disubstituted 1,3,4-thiadiazoles, 1987-91

Synthesis of annelated 1,3,4,6-thiaziazepines from reaction of cyclic thioureas with 1,4-dichloro-2,3-diazabutadienes, 1999-2005

PHENYLDIBENZISOQUINOLINE

Electrochemical reactions. Part 24. Reductive cyclization of i-(2-halophenyl)-j-phenyl compounds: a general reaction, 229-34

PHENYLDIMETHYLTHIOUREA

Sulfur extrusion reactions. Part 5. Reactions of monoprotic thioureas with ethyl α -chloroacetoacetate, ethyl bromomalonate, and ethyl bromocynoacetate, 653-6

PHENYLDITHIOLONE

Photochemical and thermal reactions of heterocycles. Part 3. Photoisomerization, photofragmentation, and photodimerization of mesoionic 1,3-dithiol-4-one and -4-imine derivatives, 1885-9

PHENYLDITHIOLYLIDENEAMINO

Studies of heterocyclic compounds. Part 28. Condensation of 3-substituted 5-phenyl-1,2-dithiolylium salts with 2-amino-N-heterocycles, 499-507

PHENYLDITHIOLYLIDENEAMINOTHIAZOLE

Studies of heterocyclic compounds. Part 28. Condensation of 3-substituted 5-phenyl-1,2-dithiolylium salts with 2-amino-N-heterocycles, 499-507

PHENYLENEDIAMINE

Conformational behavior of medium-sized rings. Part 13. 5,18-Dihydro- and 5,11,12,18-tetrahydrotribenzo[b,f,j][1,4]diazacyclododecine-6,17-diones, 1715-20

- PHENYLETHYL**
1,2-Disubstituted ethanes as possible precursors for the synthesis of Cannabis spirans, 1485-91
- PHENYLETHYLAMINE**
Asymmetric induction in the reduction of optically active N-alkylidenesulfinamides by metal hydrides. A new, efficient enantioselective route to chiral amines, 339-43
- PHENYLETHYLAZIDOCARBONYLPYRIDINIUM**
Intramolecular reactions of pyridinium-2-carbonyl azides: conversion of amines into aldehydes, 2953-6
- PHENYLETHYLIDENE**
Kinetics and mechanism of the reaction of thionyl chloride with substituted acetophenone semicarbazones. The synthesis of 1,2,3-thiadiazoles, 1223-7
- PHENYLETHYLIDENECYCLOHEXANONE**
1,2-Disubstituted ethanes as possible precursors for the synthesis of Cannabis spirans, 1485-91
- PHENYLETHYLIDENEHYDRAZINECARBOXYAMIDE**
Kinetics and mechanism of the reaction of thionyl chloride with substituted acetophenone semicarbazones. The synthesis of 1,2,3-thiadiazoles, 1223-7
- PHENYLHYDRAZINE**
Arylazoglycosides. Part 7. Syntheses of amino sugars from methyl arylazohexenopyranosides, 205-14
Thermal reaction of N-(1-azido-2-oxoalkylidene)-N'-(o-alkenyloxyphenyl)hydrazines; intramolecular 1,4-cycloaddition of 1,2,4-triaza-1,3-diene intermediates, 755-8
- PHENYLIMINE**
Interaction of copper complexes derived from 1,2-quinone monooximes (2-nitrosophenols) with amines, 1075-8
- PHENYLIMINO**
Sulfur extrusion reactions. Part 5. Reactions of monoprotic thioureas with ethyl α -chloroacetoacetate, ethyl bromomalonate, and ethyl bromocycanoacetate, 653-6
- PHENYLMALONYL**
Heterocyclic syntheses with malonyl chloride. Part 14. A direct synthesis of 4,6-dichloropyrimidines with 5-benzyl or -phenyl and 2-thioalkyl or -thiophenyl substituents, 2499-503
- PHENYLOSAZONE**
Studies on anhydroosazones. Part 5. Structure and anomeric configuration of the C-nucleoside analogs obtained from the dehydration of D-glucosyl- and D-mannosyl hept-2-ulose phenylosazones, 557-62
- PHENYLOXADIAZOLONE**
1,3,4-Oxadiazol-2(3H)-one formation from N-acylaminobiurets and related compounds and from S-benzyl 3-acyl(thiocarbazate-s), 2019-21
- PHENYLOXOCYCLOHEXANEDICARBOXYLATE**
Bromo derivatives of dimethyl 4-oxo-trans-2,6-diphenylcyclohexane-1,1-dicarboxylate and their dehydrobromination, 101-5
- PHENYLOXODIPHENYLPYRIDYLUREA**
Fused mesoionic heterocycles: synthesis of 1,3,4-oxadiazolo[3,2-a]pyridine and 1,3,4-thiadiazolo[3,2-a]pyridine derivatives, 351-5
- PHENYLPHOSPHINE**
Novel reagent system for converting a hydroxy group into an iodo group in carbohydrates with inversion of configuration. Part 3, 681-3
Formation of isocyanates by deoxygenation of C-nitrosocarbonyl compounds, 1571-4
- PHENYLPHOSPHORANYLIDENEAMINODIPHENYLPYRIDINETHIONE**
Fused mesoionic heterocycles: synthesis of 1,3,4-oxadiazolo[3,2-a]pyridine and 1,3,4-thiadiazolo[3,2-a]pyridine derivatives, 351-5
- PHENYLPYPERIDINOL**
Stereochemistry of 2,3-dimethyl analogs of the reversed ester of pethidine and related compounds: examples of vicinal diaxial methyl groups in 2,3-dimethylpiperidine derivatives, 749-53
- PHENYLPROPANOL**
Oxymetalation. Part 17. tert-Butyl peroxymercuration and subsequent demercuration of phenylcyclopropane, 1807-9
- PHENYLPROPENE**
Cross-linked poly-(4-vinylpyridine-styrene)-bromine complexes as stereoselective brominating agents, 2059-62
2,4-Dinitrobenzenesulfonylnitrene: addition to (Z)- and (E)-1-phenylpropene, 2491-7
- PHENYLPROPYL**
Oxymetalation. Part 17. tert-Butyl peroxymercuration and subsequent demercuration of phenylcyclopropane, 1807-9
- PHENYLPROPYLPYRIDINIUM**
Selectivity of hydrogenations. Part 3. N-methylquinolinium, N-methylisoquinolinium, and 4-(3-phenylpropyl)pyridinium salts, 2607-10
- PHENYLPYRIDYLPROPIONALDEHYDE**
Preparation and reactions of 3-phenyl-4a,5,6,8a-tetrahydro-4H-1,2-benz[e]oxazines, 1891-5
- PHENYLSELENIDE**
Preparation of 6 α -monosubstituted and 6,6-disubstituted penicillanates from 6-diazopenicillanates: reactions of 6-diazopenicillanates with alcohols, thiols, phenylseleninyl compounds, and allylic sulfides, and their analogs, 2757-66
- PHENYLSELENO**
Stereoselective olefin cyclization mediated by the selenyl group; direct formation of a selenyl caparrapi oxide, 1085-7
The reactions of estrogens with benzeneseleninic anhydride and hexamethyldisilazane, 1915-18
Conversion of toluenesulfonyl hydrazones of α -halo aldehydes and ketones into the corresponding phenylthio and phenylseleno derivatives, 2719-24
- PHENYLSELENOALKENYL**
Stereoselective olefin cyclization mediated by the selenyl group; direct formation of a selenyl caparrapi oxide, 1085-7
- PHENYLSELENOIMINATION**
The reactions of estrogens with benzeneseleninic anhydride and hexamethyldisilazane, 1915-18
- PHENYLSELENOIMINOESTRADIENONE**
The reactions of estrogens with benzeneseleninic anhydride and hexamethyldisilazane, 1915-18
- PHENYLSELENOOPENICILLINATE**
Preparation of 6 α -monosubstituted and 6,6-disubstituted penicillanates from 6-diazopenicillanates: reactions of 6-diazopenicillanates with alcohols, thiols, phenylseleninyl compounds, and allylic sulfides, and their analogs, 2757-66
- PHENYLSELENOTRIMETHYLDODECADIEDIOL**
Stereoselective olefin cyclization mediated by the selenyl group; direct formation of a selenyl caparrapi oxide, 1085-7
- PHENYLSULFONYLINDOLYL**
Indole β -nucleophilic substitution. Part 3. Synthesis of four isomeric pyrido[x',y':5,6]oxepino[3,2-b]indolones, 435-9
- PHENYLSYDNONE**
Polyhalo allenes and acetylenes. Part 15. Dipolar cycloadditions of N-phenylsydnone and aryl azides to perfluoropropadiene and perfluoropropyne, 2207-10
- PHENYLTHIO**
Ketenimine chemistry. Part 1. The reaction of triaryl ketenimines with arenesulfonyl chlorides, 1255-6
Conversion of toluenesulfonyl hydrazones of α -halo aldehydes and ketones into the corresponding phenylthio and phenylseleno derivatives, 2719-24
Preparation of 6 α -monosubstituted and 6,6-disubstituted penicillanates from 6-diazopenicillanates: reactions of 6-diazopenicillanates with alcohols, thiols, phenylseleninyl compounds, and allylic sulfides, and their analogs, 2757-66
- PHENYLTHIOANISIDINE**
Benzenesulfenylidyl radicals. Reactivity of 4'-methoxy- and 4'-methoxy-2-nitrobenzenesulfenylidyl radicals, 3049-53
- PHENYLTOLYL**
Ketenimine chemistry. Part 1. The reaction of triaryl ketenimines with arenesulfonyl chlorides, 1255-6
- PHENYLTOLYLKETENIMINE**
Ketenimine chemistry. Part 1. The reaction of triaryl ketenimines with arenesulfonyl chlorides, 1255-6
- PHENYLTOLYLQUINOLINE**
The chemistry of some bicyclic pyridinium anhydrobases, 1349-53
- PHEROMONE**
Synthesis of optically pure (R,Z)-5-dec-1-enyloxacyclopentan-2-one, the sex pheromone of the Japanese beetle, 69-71
- PHLOIONOLATE**
Synthesis of ambretolide from phloiononic acid, 1837-9
- PHOSPHATE**
Synthesis and behavior under acidic conditions of 2-deoxy-D-arabinohexopyranose and 3-deoxy-2-ketoaldonic acids bearing O-phosphono or O-glucosyl substituents at position β to the carbonyl function, 1275-82
Silyl phosphites. Part 20. A facile synthesis of phosphoenolpyruvate and its analog utilizing in situ generated trimethylsilyl bromide, 2509-13

PHOSPHO

Silyl phosphites. Part 20. A facile synthesis of phosphoenolpyruvate and its analog utilizing in situ generated trimethylsilyl bromide, 2509-13

PHOSPHODIESTER

Phosphorylated sugars. Part 23. Synthesis and reactions of phosphodiester containing 2-aminoethanol and a polyfunctional alcohol and their behavior during acid- and base-catalyzed hydrolysis, 1733-43

PHOSPHOENOLPYRUVATE

Silyl phosphites. Part 20. A facile synthesis of phosphoenolpyruvate and its analog utilizing in situ generated trimethylsilyl bromide, 2509-13

PHOSPHONATE

Phosphonation of aryl halides by copper(I) complexes of trialkyl phosphites, 1143-8

Silyl phosphites. Part 20. A facile synthesis of phosphoenolpyruvate and its analog utilizing in situ generated trimethylsilyl bromide, 2509-13

PHOSPHONATION

Phosphonation of aryl halides by copper(I) complexes of trialkyl phosphites, 1143-8

PHOSPHONIUM

A stable bromoalkoxyphosphorane, a model for the postulated five-coordinate intermediate in the Arbuzov and related reactions 735-40

Synthetic and mechanistic aspects of gas-liquid phase-transfer catalysis: carboxylate esters, 993-7

Electroorganic reactions. Part 20. Electrogenerated bases, ylide formation, and Wittig alkene synthesis, 2921-6

PHOSPHONO

Synthesis and behavior under acidic conditions of 2-deoxy-D-arabinohexopyranose and 3-deoxy-2-ketoaldonic acids bearing O-phosphono or O-glucosyl substituents at position β to the carbonyl function, 1275-82

PHOSPHONOHEXULOPYRANOSIDONATE

Synthesis and behavior under acidic conditions of 2-deoxy-D-arabinohexopyranose and 3-deoxy-2-ketoaldonic acids bearing O-phosphono or O-glucosyl substituents at position β to the carbonyl function, 1275-82

PHOSPHORANE

Naturally occurring dibenzofurans. Part 1. A synthesis of cannabifuran, 1605-10

Synthesis of (2RS,5RS,6SR)-3-methoxycarbonyl-7-oxo-6-phenoxacetamido-1-azabicyclo[3.2.0]hept-3-ene-2-carboxylic acid, 2123-9

PHOSPHORYLTALOFURANOSYLCYTOSINE

Synthesis of the two epimeric 5'-methylcytidines, their 5'-phosphates and [5-³H]-5'-pyrophosphates, and the two 5'-methyldeoxycytidines. A novel cytosine anhydronucleoside with two oxygen bridges between the base and the sugar, 385-93

PHOTINIA

Linkage isomerism in trimeric and polymeric 2,3-cis-procyanidins, 1209-16

PHOTOADDN

Addition reactions of aminium radicals: synthetic studies of oxidative photoaddition of N-nitrodimethylamine, 1405-17

Addition reactions of aminium radicals: oxidative and nonoxidative photoaddition of nitrosoamines to nonconjugated polyenes, 1419-28

PHOTOCHEM

Benzocyclobutenes. Part 7. Synthesis and x-ray crystal structure of cyclobuta[1]phenanthrene-1,2-dione and the synthesis of hexabenz[a,c,g,i,m,o]triphenylene, 19-23

Synthesis of gambirtannine derivatives by photocyclization of enamine intermediates, 59-62

Photoinduced transformations. Part 60. Photoinduced rearrangements of cholesteryl nitrites with monochromatic light, 111-16

Photochemical reactions of N,N-dialkyl- α -thioamides, 247-8

Photolysis of quinolyl and isoquinolyl azides in primary and secondary aliphatic amines: synthesis of bicyclic azepines, diazepines, and quinolyl- and isoquinolylidiamines, 421-9

18-Substituted steroids. Part 10. Synthesis of 16 α ,18,21-trihydroxypregn-4-ene-3,20-dione (16 α ,18-dihydroxy-11-deoxycorticosterone), 723-8

Synthesis of alkanesulfonyl chlorides from alkylcobaloximes and trichloromethanesulfonyl chloride, 849-54

Structures of the artabsinoides; photo-oxygenation studies on artabsin, 861-4

Photo-induced transformations. Part LXI. Syntheses of some six-membered and eight-membered lactams of the B-homo- and A-nor-B,B-dihomocholestane series by the photo-Beckmann rearrangement, 931-8

Structures of the four possible [4 + 4] cycloaddition products formed on photodimerization of N-alkyl-2-pyridones, 1187-91

Studies of heterocyclic chemistry. Part 25. Intramolecular cyclizations of N-acylarylethanethioamides leading to thiazoles, 4H-1,3-thiazines, 4H-pyrido[3,2-e]-1,3-thiazines, and 4H-1,3-benzothiazines, 1239-44

Dye-sensitized photooxygenation of the Aspidosperma alkaloids vincadifformine and tabersonine. A new, convenient approach to vincamine, 1371-9

Addition reactions of aminium radicals: synthetic studies of oxidative photoaddition of N-nitrodimethylamine, 1405-17

Addition reactions of aminium radicals: oxidative and nonoxidative photoaddition of nitrosoamines to nonconjugated polyenes, 1419-28

Photocycloaddition of 1-aminoanthraquinones to dienes by visible light irradiation, 1771-3

Azonia-azulenes. Part 6. Photochemical addition of alcohols to 10H-azepino[1,2-a]indoles, 1871-8

Heterocyclic polyfluoro compounds. Part 41. Photochemical isomerization of 1-substituted hexafluoro-1H-azepines: hexafluoro-2-azabicyclo[3.2.0]hepta-3,6-dienes and their reactions, 2105-9

Novel synthesis of diimines by the transformation of 1-aryl-4,6-disubstituted pyrimidin-2(1H)-ones, 2149-52

Fluoro olefin chemistry. Part 14. Preparation and photochemical rearrangement of some acyclic perfluoroalkyl and polyfluoroalkyl olefins, 2211-17

Thermal, photochemical, and acid-catalyzed rearrangements of the spiro dimer of α,α' -bis(methoxycarbonyl)-o-quinodimethane. X-ray crystal structure of trans,trans-tetrakis(methoxycarbonyl)dibenzo[a,e]-cyclooctene, 2257-63

Photooxidation of oxazolidones and hydantoins in the presence of benzophenone, 2341-5

Solution photochemistry of 4-alkylidene-3,3,5,5-tetramethyl- Δ^1 -pyrazolines, 2647-53

Photochemistry of epoxyquinones. Part 7. Photoinduced cycloaddition of 2,3-dimethyl-2,3-dihydro-2,3-epoxy-1,4-naphthoquinone to olefins, 2671-85

Stereochemistry of olefin and fatty acid oxidation. Part 2.

Photosensitized oxidation of hexene and hepta-2,5-diene isomers 2715-17

Photoresponsive crown ethers. Part 6. Ion transport mediated by photoinduced cis-trans interconversion of azobis(benzocrown ethers), 2735-9

Photoresponsive crown ethers. Part 7. Proton and metal ion catalyses in the cis-trans isomerization of azopyridines and an azopyridine-bridged cryptand, 2741-7

Photochemistry of halogenated benzene derivatives. Part 2.

Photoreactions of p -chlorotoluenes, 2957-61

PHOTOCYCLIZATION

Synthesis of gambirtannine derivatives by photocyclization of enamine intermediates, 59-62

Photochemical reactions of N,N-dialkyl- α -thioamides, 247-8

PHOTODIMER

Structures of the four possible [4 + 4] cycloaddition products formed on photodimerization of N-alkyl-2-pyridones, 1187-91

PHOTODIMERIZATION

Structures of the four possible [4 + 4] cycloaddition products formed on photodimerization of N-alkyl-2-pyridones, 1187-91

PHOTOISOHUMULONE

New rearrangement and oxidation products from humulone, 375-83

PHOTOLYSIS

Photolysis of quinolyl and isoquinolyl azides in primary and secondary aliphatic amines: synthesis of bicyclic azepines, diazepines, and quinolyl- and isoquinolylidiamines, 421-9

Photolysis of quinolyl and isoquinolyl azides in the presence of methoxide ions. Synthesis of benzodiazepines and pyridoazepines 431-3

Photolysis of quinolyl azides in aliphatic thiols. Synthesis of α -alkylthioquinolylamine, 671-2

Synthesis of alkanesulfonyl chlorides from alkylcobaloximes and trichloromethanesulfonyl chloride, 849-54

Photolysis and thermolysis of phenyl azide in acetic acid. Trapping of 1-azacyclohepta-1,2,4,6-tetraene and nucleophilic aromatic

PHOTOLYSIS(contd)

- substitution, 1269-73
- Photochemical and thermal reactions of heterocycles. Part 3. Photoisomerization, photofragmentation, and photodimerization of mesoionic 1,3-dithiol-4-one and -4-imine derivatives, 1885-9
- Photoinduced transformations. Part 63. Photorearrangement of 17 β -acetoxy-4,4-dimethylestr-5-en-3 β -yl nitrite with monochromatic light, 1963-6
- Aryl nitrenes from N,N'-diarylbenzoquinone diimine N,N'-dioxides and N-arylbenzoquinone imine N-oxides, 2023-6
- Alkyl nitrenes from N-alkylbenzoquinone imine N-oxides, 2027-34
- Photolysis of N-alkoxybenzoquinone imine N-oxides, 2035-9
- Photooxidation of oxazolidones and hydantoins in the presence of benzophenone, 2341-5
- Solution photochemistry of 4-alkylidene-3,3,5,5-tetramethyl- Δ^1 -pyrazolines, 2647-53
- Cyclodienones. Part 6. Preparation of 4-azido-2,4,6-tri-tert-butylcyclohexa-2,5-dienone and its thermal, photochemical, and acid-catalyzed decomposition, 2841-8
- Intramolecular reactions of pyridinium-2-carbonyl azides: conversion of amines into aldehydes, 2953-6
- Photochemistry of halogenated benzene derivatives. Part 2. Photoreactions of α -substituted p-chlorotoluenes, 2957-61
- PHOTOOXIDN**
- Dye-sensitized photooxygenation of the Aspidosperma alkaloids vincadifformine and tabersonine. A new, convenient approach to vincamine, 1371-9
- Photooxidation of oxazolidones and hydantoins in the presence of benzophenone, 2341-5
- PHSOPHORANE**
- A study of the apicophilicity of the 2-furyl group in five-coordinate phosphoranes, 191-5
- PHthalALDEHYDE**
- Anthracylines. Part 2. Investigations relating to the synthesis of 4-demethoxyanthracylines, 2239-48
- PHthalATE**
- Anthracylines. Part 2. Investigations relating to the synthesis of 4-demethoxyanthracylines, 2239-48
- PHthalIC**
- An investigation of the Wittig reaction between a series of monosubstituted phthalic anhydrides and ethoxycarbonylmethylidetriphenylphosphorane, 1855-63
- PHthalIDE**
- An investigation of the Wittig reaction between a series of monosubstituted phthalic anhydrides and ethoxycarbonylmethylidetriphenylphosphorane, 1855-63
- Anthracylines. Part 1. The synthesis of racemic daunomycinone and some related tetrahydronaphthaquinones, 2227-38
- Formation of some 3-aryl-3,4-dihydroisocoumarins by thermal ring closure of stilbene-2-carboxylic acids, 2819-25
- PHthalIMIDOETHYLINDANDIONE**
- Synthesis of 1,2,3,9b-tetrahydro-9b-hydroxy-1-phenylpyrrolo[2,1-a]isoindol-5-one via the hydrazinolysis of 2-phenyl-2-(2-phthalimidoethyl)indan-1,3-dione, 2783-6
- PHYLLANTHUS**
- Structure and synthesis of the aryltetralin lignans hypophyllanthin and nirtetralin, 999-1003
- PHYTOALEXIN**
- Total syntheses of wyerone and dihydrowyerone, phytoalexins from the broad bean, *Vicia faba* L., using the dianion derived from 3-(2-furyl)acrylic acid, 623-6
- PICROPODOPHYLLONE**
- Total synthesis of (\pm)-picropodophyllone, 271-6
- PIGMENT**
- Polyolefinic 18-methyl-19-oxoicosenoic acid pigments from the fungus *Piptoporus australiensis* (Wakefield) Cunningham, 1449-53
- PINUS**
- Linkage isomerism in trimeric and polymeric 2,3-cis-procyanidins, 1209-16
- PIPER**
- Isolation and identification of amides from Piper callosum. Synthesis of pipercollosine and pipercollosidine, 1493-8
- PIPERAZINE**
- Base-promoted reactions of α -haloalkylanilides, 2969-72
- PIPERAZINEDIONE**
- Pyrazine chemistry. Part 13. Preparation and reactions of pyrazine N-oxides related to mycelianamide, 953-9

PIPERCALLOSIDINE

- Isolation and identification of amides from Piper callosum. Synthesis of pipercollosine and pipercollosidine, 1493-8
- PIPERCALLOSINE**
- Isolation and identification of amides from Piper callosum. Synthesis of pipercollosine and pipercollosidine, 1493-8
- PIPERIDINE**
- Addition reactions of aminium radicals: oxidative and nonoxidative photoaddition of nitrosoamines to nonconjugated polyenes, 1419-28
- Selectivity of hydrogenations. Part 3. N-methylquinolinium, N-methylisoquinolinium, and 4-(3-phenylpropyl)pyridinium salts, 2607-10
- Silver(I)-catalyzed oxidation of cyclic secondary amines with peroxodisulfate, 3031-5
- PIPERIDINOL**
- Stereochemistry of 2,3-dimethyl analogs of the reversed ester of pethidine and related compounds: examples of vicinal diaxial methyl groups in 2,3-dimethylpiperidine derivatives, 749-53
- PIPERIDINOPYRIDINE**
- Polyhaloaromatic compounds. Part 48. Reactions of tetrachloro-4-cyanopyridine with mono- and bifunctional nucleophiles, 2897-900
- PIPERIDYL**
- Synthesis of the alkaloids, 3',4'-dimethoxy-2-(2-piperidyl)acetophenone, julandine, and cryptopleurine, 2487-90
- PIPERIDYLACETOPHENONE**
- Synthesis of the alkaloids, 3',4'-dimethoxy-2-(2-piperidyl)acetophenone, julandine, and cryptopleurine, 2487-90
- PIPEROVATINE**
- Isolation and identification of amides from Piper callosum. Synthesis of pipercollosine and pipercollosidine, 1493-8
- PIPTOPORATE**
- Polyolefinic 18-methyl-19-oxoicosenoic acid pigments from the fungus *Piptoporus australiensis* (Wakefield) Cunningham, 1449-53
- PIPTOPORUS**
- Polyolefinic 18-methyl-19-oxoicosenoic acid pigments from the fungus *Piptoporus australiensis* (Wakefield) Cunningham, 1449-53
- PLANT**
- The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 1. Introduction. Naturally occurring galloyl esters, 2515-24
- The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 2. Esters of (S)-hexahydroxydiphenic acid with D-glucopyranose (4C₁), 2525-34
- The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 3. Esters of (R) and (S)-hexahydroxydiphenic acid and dehydrohexahydroxydiphenic acid with D-glucopyranose (1C₄ and related conformations), 2535-45
- PODOCARPENOL**
- Synthetic studies on terpenoids. Part 6. Synthesis of (\pm)-4,13-dimethyl-13-vinylpodocarp-8(14)-en-4 α - and -4 β -ols, 1959-62
- PODOCARPUS**
- Isolation and structure determination of norditerpene dilactones from *Podocarpus saligna* D. Don, 2589-93
- POLYAMINO**
- Synthetic enzymes. Part 2. Catalytic asymmetric epoxidation by means of polyamino acids in a triphase system, 1317-24
- POLYENE**
- Addition reactions of aminium radicals: oxidative and nonoxidative photoaddition of nitrosoamines to nonconjugated polyenes, 1419-28
- Polyolefinic 18-methyl-19-oxoicosenoic acid pigments from the fungus *Piptoporus australiensis* (Wakefield) Cunningham, 1449-53
- POLYFORMYLATION**
- Polyformylation of copper(II) complexes of octaalkylporphyrins, 581-5
- POLYGALLOYLGLUCOSE**
- Tannins and related compounds. Part 5. Isolation and characterization of polygalloylglucoses from Chinese gallotannin, 2963-8
- POLYMER**
- Polymer-supported periodate and iodate as oxidizing agents, 509-11
- Polymeric proanthocyanidins. Carbon-13 NMR studies of procyanidins, 1217-21

POLYOXYGENATED

Synthesis of polyoxygenated trans-decalins as potential insect antifeedants, 2157-62

POLYPRENYLQUINONE

Quinones. Part 2. General synthetic routes to quinone derivatives with modified polyprenyl side chains and the inhibitory effects of these quinones on the generation of the slow reacting substance of anaphylaxis (SRS-A), 2909-20

POLYSACCHARIDE

Syntheses of the biological repeating units of *Salmonella* serogroups A, B, and D₁ O-antigenic polysaccharides, 2973-82

POLYSTYRENEPYRIDINE

Cross-linked poly-(4-vinylpyridine-styrene)-bromine complexes as stereoselective brominating agents, 2059-62

POLYSULFIDE

Chemistry of hop constituents. Part 43. Cyclic polysulfides and a thiophene from myrcene, and their occurrence in the essential oil of hops, 1089-94

POPILLIA

Synthesis of optically pure (R,Z)-5-dec-1-enyloxacyclopentan-2-one, the sex pheromone of the Japanese beetle, 69-71

PORPHOBILINOGEN

Biosynthesis of porphyrins and related macrocycles. Part 18. Proof by spectroscopy and synthesis that unrearranged hydroxymethylbilane is the product from deaminase and the substrate for cosynthetase in the biosynthesis of uroporphyrinogen-III, 2427-44

PORPHYRIN

Polyformylation of copper(II) complexes of octaalkylporphyrins, 581-5

Synthetic approaches to versatile hemoprotein model compounds built from porphyrins and peptides, 1441-8

Quinone-capped porphyrins: NMR studies of static and dynamic stereochemistry and coordination properties, 1617-24

PORPHYRINRHODIUM

Syntheses and reactions of hydridorhodium(III) octaethylporphyrin and rhodium(II) octaethylporphyrin dimer, 983-7

POSTCOITAL

Synthesis of 17 α -ethynyl-7 α ,11 β -dihydroxyestra-1,3,5(10)-triene-3,17 β -diol, 2877-80

POTASSIUM

Amide-catalyzed isomerization of 5,6-dihydroisoquinolines: a novel synthesis of 1,2-dihydroisoquinolines, 63-8

A new procedure for olefin oxirane by peroxybenzimidic acid; synthesis of some carbohydrate-precursor oxiranes and other epoxides, 1009-11

Investigations into the mechanism of the action of alkali in methanol on 3,6-dibenzyl-s-tetrazines and their 1,4-dihydro-derivatives: the role of s-tetrazines as hydride acceptors and an x-ray determination of the structure of 3,6-bis(4-chlorobenzyl)-1,4-dihydro-s-tetrazine, 1165-70

Photoresponsive crown ethers. Part 6. Ion transport mediated by photoinduced cis-trans interconversion of azobis(benzocrown ethers), 2735-9

POTENTIAL

Synthesis, resolution, and racemization studies of 1,2-epoxy-1,2-dihydrochrysenes, 1535-9

Conformational behavior of medium-sized rings. Part 10.

Dithiosalicylides and trithiosalicylides, 1637-48

Conformational behavior of medium-sized rings. Part 11.

Dianthranilides and trianthranilides, 1649-99

Conformational behavior of medium-sized rings. Part 12. Tri-3-methyltrianthranilide, 1701-14

Conformational behavior of medium-sized rings. Part 13. 5,18-Dihydro- and 5,11,12,18-tetrahydrotribenzo[b,f,j][1,4]diazacyclododecine-6,17-diones, 1715-20

[4,2]- and [4,3]-Metacyclophanes, 2369-72

PRECURSOR

A new procedure for olefin oxirane by peroxybenzimidic acid; synthesis of some carbohydrate-precursor oxiranes and other epoxides, 1009-11

PREGNADIENYNONE

Alkylated steroids. Part 5. Formation of 17 β -acetylenic steroids from hindered 20-oxo compounds via Grignard derived enolates 1079-84

PREGNANE

Aminosteroids. Part 8. Synthesis of the four isomeric 3,7-diamino-5 α -pregnanes, 1783-9

PREGNATRIENEDIONE

Electrophilic fluorination of some steroidal α,β -unsaturated ketones 1105-10

PREGNENOLONE

Aminosteroids. Part 8. Synthesis of the four isomeric 3,7-diamino-5 α -pregnanes, 1783-9

PREGNENONE

18-Substituted steroids. Part 10. Synthesis of 16 α ,18,21-trihydroxypregn-4-ene-3,20-dione (16 α ,18-dihydroxy-11-deoxycorticosterone), 723-8

Alkylated steroids. Part 5. Formation of 17 β -acetylenic steroids from hindered 20-oxo compounds via Grignard derived enolates 1079-84

Electrophilic fluorination of some steroidal α,β -unsaturated ketones 1105-10

PREGNENYNOL

Alkylated steroids. Part 5. Formation of 17 β -acetylenic steroids from hindered 20-oxo compounds via Grignard derived enolates 1079-84

PREGNENYNONE

Alkylated steroids. Part 5. Formation of 17 β -acetylenic steroids from hindered 20-oxo compounds via Grignard derived enolates 1079-84

PRENYL

Natural products of Thailand high δ^1 -THC-strain *Cannabis*. The dibenzyl-spiran-dihydrophenanthrene group: relations with cannabinoids and canniflavones, 1455-66

Quinones. Part 2. General synthetic routes to quinone derivatives with modified polyprenyl side chains and the inhibitory effects of these quinones on the generation of the slow reacting substance of anaphylaxis (SRS-A), 2909-20

PREVOST

Reactions of 1-methyl-4-tert-butylcyclohexene and 1-methylcyclohexene with thallium(I) acetate-iodine, 413-19

PRIMARY

2-(2-Nitrophenyl)oxaheterocycloniums: potential reagents for oxidative deamination of primary amines, 137-42

Decarboxylative rearrangement of an alkanoyl arylcarbonyl peroxide involving migration of a primary chiral center, 591-3

PROANTHOCYANIDIN

Linkage isomerism in trimeric and polymeric 2,3-cis-procyanidins, 1209-16

Polymeric proanthocyanidins. Carbon-13 NMR studies of procyanidins, 1217-21

PROCYANIDIN

Linkage isomerism in trimeric and polymeric 2,3-cis-procyanidins, 1209-16

Polymeric proanthocyanidins. Carbon-13 NMR studies of procyanidins, 1217-21

PROGESTERONE

Electrophilic fluorination of some steroidal α,β -unsaturated ketones 1105-10

PROLINE

The reaction of copper(II) complexes of glycine imines with activated olefins, 1827-31

PROMOTION

Base-promoted reactions of α -haloalkylanilides, 2969-72

PROPANOATE

Acid-catalyzed lactonization and iodolactonization of norbornene-carboxylic acids, 2461-5

PROPANOID

Studies on the chemical constituents of rutaceous plants. Part 45. Novel phenyl propanoids: cuspidiol, boninenal, and methyl boninenalate, 2051-8

PROPENAL

Convenient syntheses of 5-substituted 2-hydroxybenzoates and related reactions, 665-9

PROPENE

Fluoro olefin chemistry. Part 15. Thermal reaction of hexafluoropropene with hydrocarbon olefins, 2219-26

PROPENYL

A regioselective reductive ring opening of 4,6-O-prop-2-enylidene acetals of hexopyranosides, 2395-7

PROPIOLATE

Studies on v-triazoles. Part 4. The 4-methoxybenzyl group, a versatile N-protecting group for the synthesis of N-unsubstituted v-triazoles, 627-30

PROPIONALDEHYDE

Preparation and reactions of 3-phenyl-4a,5,6,8a-tetrahydro-4H-

- PROPIONALDEHYDE**(contd)
1,2-benz[e]oxazines, 1891-5
- PROPYLIDENE**
A regioselective reductive ring opening of 4,6-O-prop-2-enylidene acetals of hexopyranosides, 2395-7
- PROPYNYL**
Partially fluorinated heterocyclic compounds. Part 16. Preparation of furan derivatives from pentafluorophenyl and heptafluoro-2-naphthyl prop-2-ynyl ethers with aromatic compounds, and the isolation of hydrogen-abstraction products, 107-10
- PROSTACYCLIN**
Synthetic approaches to 11-deoxyhomoprostacyclin analogs, 1923-32
- PROTECTION**
Studies on *v*-triazoles. Part 4. The 4-methoxybenzyl group, a versatile N-protecting group for the synthesis of N-unsubstituted *v*-triazoles, 627-30
Further studies on the protection of histidine side chains in peptide synthesis: the use of the π -benzyloxymethyl group, 1553-61
- PROTON**
Photoresponsive crown ethers. Part 7. Proton and metal ion catalyses in the cis-trans isomerization of azopyridines and an azopyridine-bridged cryptand, 2741-7
- PSEUDOMONAS**
The chemistry of pseudomonic acid. Part 5. Structure and chemistry of pseudomonic acid C. X-ray crystal structure of ethyl monate C 2827-33
- PSEUDOMONIC**
The chemistry of pseudomonic acid. Part 5. Structure and chemistry of pseudomonic acid C. X-ray crystal structure of ethyl monate C 2827-33
- PTEROCARPENE**
Synthesis of some pterocarpenes obtained from *Brya ebenus*, 1389-94
- PTEROYL**
A chemical model for the thymidylate synthetase catalyzed methylation of deoxyuridine monophosphate, 1363-9
- PTEROYLGLUTAMATE**
A chemical model for the thymidylate synthetase catalyzed methylation of deoxyuridine monophosphate, 1363-9
- PURINONE**
Triazines and related products. Part 24. Synthesis of pyrazol-4-ylidenehydrazinoimidazoles by hydrazinolysis of imidazo[5,1-c][1,2,4]triazines and 2-arylazoidimidazoles by diazonium coupling reactions, 1811-19
- PYRANCARBOXANILIDE**
Heterocyclic syntheses with malonyl dichloride. Part 13. 6-Chloro-4-hydroxy-2-oxopyran-3-carboxanilides from N-sulfinylanilines and further reaction of malonyl dichloride with thiocyanates, 1575-8
- PYRANOOXAZINEDIONE**
Heterocyclic syntheses with malonyl dichloride. Part 13. 6-Chloro-4-hydroxy-2-oxopyran-3-carboxanilides from N-sulfinylanilines and further reaction of malonyl dichloride with thiocyanates, 1575-8
Heterocyclic syntheses with malonyl chloride. Part 14. A direct synthesis of 4,6-dichloropyrimidines with 5-benzyl or -phenyl and 2-thioalkyl or -thiophenyl substituents, 2499-503
- PYRANOPYRIDINE**
Polyhaloaromatic compounds. Part 46. Circumstantial evidence for the intermediacy of radical anions during the reaction of magnesium with ω -bromoalkoxypolychloro-arenes and -heteroarenes, 93-9
- PYRANOSYL**
Studies on anhydroosazones. Part 5. Structure and anomeric configuration of the C-nucleoside analogs obtained from the dehydration of D-gluco- and D-manno hept-2-ulose phenylosazones, 557-62
- PYRANYLOXY**
Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ξ)-fluoro-25-hydroxyvitamin D³, 85-91
- PYRANYLOXYTOLYLSULFONYLOXYCHOLENECARBOXYLATE**
Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ξ)-fluoro-25-hydroxyvitamin D³, 85-91
- PYRAZINE**
Pyrazine chemistry. Part 13. Preparation and reactions of pyrazine N-oxides related to mycelianamide, 953-9
- PYRAZINONE**
Pyrazine chemistry. Part 13. Preparation and reactions of pyrazine N-oxides related to mycelianamide, 953-9
- PYRAZOLE**
Pyrimidine derivatives and related compounds. Part 42. Isolation of the intermediates in the ring transformation of 1,3-oxazine-2,4-diones into pyrimidines and pyrazoles, and their structure determination by nitrogen-15 nuclear magnetic resonance analysis, 473-5
Reactions of mercury(II) acetate with nitrogen compounds. Part 9. Oxidations of the bis(4-nitrophenylhydrazone)s of some 1,3-diketones with mercury(II) acetate and lead(IV) acetate, 553-5
Polyhalo allenes and acetylenes. Part 15. Dipolar cycloadditions of N-phenylsydnone and aryl azides to perfluoropropadiene and perfluoropropyne, 2207-10
- PYRAZOLINE**
Solution photochemistry of 4-alkylidene-3,3,5,5-tetramethyl- Δ 1-pyrazolines, 2647-53
- PYRAZOLONE**
Pyrimidine derivatives and related compounds. Part 41. Reactions of 1,3,6-trimethyl-5-nitrouracil and its 6-bromomethyl analog with amines and hydrazines. Synthesis of pyrazolo[4,3-d]pyrimidine N-oxides and their ring expansion to pyrimido[5,4-d]pyrimidines, 277-84
Reactions with heterocyclic diazonium salts: novel synthesis of pyrazolo[4,3-c]pyridazines and of pyrazolo[4,3-c]pyrazoles, 989-91
A novel and chemoselective preparation of chlorosulfonyl-containing azo dyes with phosphoryl chloride-N,N-dimethylacetamide, 1519-22
- PYRAZOLOPYRAZOLE**
Ring transformation of 3-(2-aminoaryl)-1,2,4-oxadiazoles into 3-acylaminoindazoles; extension of the Boulton-Katritzky scheme, 759-66
Reactions with heterocyclic diazonium salts: novel synthesis of pyrazolo[4,3-c]pyridazines and of pyrazolo[4,3-c]pyrazoles, 989-91
- PYRAZOLOPYRIDAZINE**
Reactions with heterocyclic diazonium salts: novel synthesis of pyrazolo[4,3-c]pyridazines and of pyrazolo[4,3-c]pyrazoles, 989-91
- PYRAZOLOPYRIDINE**
Fluorocarbon derivatives of nitrogen. Part 8. Reactions between heteroaromatic N-imines (N-iminopyridinium and N-iminoquinolinium ylide) and perfluoropropene, 2H-pentafluoropropene, perfluorobut-2-ene, perfluoro(2-methylpent-2-ene), perfluorobut-2-yne, and perfluoropyridine: synthesis of fluorinated 3-azaindolizines (pyrazolo[1,5-a]pyridines), 1593-600
- PYRAZOLOPYRIMIDINE**
Pyrimidine derivatives and related compounds. Part 41. Reactions of 1,3,6-trimethyl-5-nitrouracil and its 6-bromomethyl analog with amines and hydrazines. Synthesis of pyrazolo[4,3-d]pyrimidine N-oxides and their ring expansion to pyrimido[5,4-d]pyrimidines, 277-84
- PYRAZOLOQUINOLINE**
Fluorocarbon derivatives of nitrogen. Part 8. Reactions between heteroaromatic N-imines (N-iminopyridinium and N-iminoquinolinium ylide) and perfluoropropene, 2H-pentafluoropropene, perfluorobut-2-ene, perfluoro(2-methylpent-2-ene), perfluorobut-2-yne, and perfluoropyridine: synthesis of fluorinated 3-azaindolizines (pyrazolo[1,5-a]pyridines), 1593-600
- PYRAZOLOTRIAZOLE**
Novel synthesis of pyrazolo[5,1-c]-1,2,4-triazoles, imidazo[1,2-b]pyrazoles, and [1,2,4]-triazolo[4,3-a]benzimidazoles. Reaction of nitrile imines with amino- and oxo-substituted diazoles, 2663-6
- PYRAZOLYLIDENEHYDRAZINO**
Triazines and related products. Part 24. Synthesis of pyrazol-4-ylidenehydrazinoimidazoles by hydrazinolysis of imidazo[5,1-c][1,2,4]triazines and 2-arylazoidimidazoles by diazonium coupling reactions, 1811-19
- PYRAZOLYLIDENEHYDRAZINOIMIDAZOLECARBOXAMIDE**
Triazines and related products. Part 24. Synthesis of pyrazol-4-ylidenehydrazinoimidazoles by hydrazinolysis of imidazo[5,1-c][1,2,4]triazines and 2-arylazoidimidazoles by diazonium coupling

- XAMIDE**(contd)
reactions, 1811-19
- PYRAZOLYLIDENEHYDRAZINOPYRAZOLONE**
Reactions with heterocyclic diazonium salts: novel synthesis of pyrazolo[4,3-c]pyridazines and of pyrazolo[4,3-c]pyrazoles, 989-91
- PYRAZOLYL PYRIDAZINE**
Reactions with heterocyclic diazonium salts: novel synthesis of pyrazolo[4,3-c]pyridazines and of pyrazolo[4,3-c]pyrazoles, 989-91
- PYRIDAZINONE**
The reaction of Meldrum's acid with α -dicarbonyl monohydrazone-s: a new synthesis of pyridazin-3-ones, 1845-53
- PYRIDINE**
Polyhaloaromatic compounds. Part 46. Circumstantial evidence for the intermediacy of radical anions during the reaction of magnesium with ω -bromoalkoxypolychloro-arenes and -heteroarenes, 93-9
Electrochemical reactions. Part 24. Reductive cyclization of *i*-(2-halophenyl)-*j*-phenyl compounds: a general reaction, 229-34
Indole β -nucleophilic substitution. Part 3. Synthesis of four isomeric pyrido[*x'*,*y'*:5,6]oxepino[3,2-*b*]indolones, 435-9
Cobaloximes. Part 2. A modified Schrauzer synthesis for base-sensitive cobaloximes, 1019-23
Cobaloximes. Part 3. A cobaloxime synthesis for use with reactive alkyl halides, 1025-8
Heterocyclic polyfluoro-compounds. Part 37. Diels-Alder reactions of trichloro- and trifluoro-1,2,4-triazine, 1245-9
The pyrolysis of 4-alkylidene-3,3,5,5-tetramethyl-1-pyrazolines, 2655-62
Polyhaloaromatic compounds. Part 48. Reactions of tetrachloro-4-cyanopyridine with mono- and bifunctional nucleophiles, 2897-900
Synthetic approaches to some aza analogs of benzimidazole N-oxides. Part 1. The imidazo[4,5-*b*]pyridine series, 2995-3006
- PYRIDINECARBOXALDEHYDE**
Triazolopyridines. Part 2. Preparation of 7-substituted triazolo[1,5-*a*]pyridines by directed lithiation, 967-71
- PYRIDINECOBALOXIME**
Cobaloximes. Part 3. A cobaloxime synthesis for use with reactive alkyl halides, 1025-8
- PYRIDINIUM**
The preparation of pyridiniums from pyryliums, 117-23
Preparation and reactions of pyrylium salts containing α -pyridyl groups, 125-30
2-(2-Nitrophenyl)oxaheterocycloniums: potential reagents for oxidative deamination of primary amines, 137-42
Fluorocarbon derivatives of nitrogen. Part 8. Reactions between heteroaromatic N-imines (N-iminopyridinium and N-iminoquinolinium ylides) and perfluoropropene, 2H-pentafluoropropene, perfluorobut-2-ene, perfluoro(2-methylpent-2-ene), perfluorobut-2-yne, and perfluoropyridine: synthesis of fluorinated 3-azaindolizines (pyrazolo[1,5-*a*]pyridines), 1593-600
New oxidative systems for alcohols: molecular sieves with chromium(VI) reagents, 1967-73
Reactions of 1-alkoxycarbonylpyridinium salts with nucleophiles: stereoelectronic restrictions on carbonyl activation of α -nucleophilic attack, 2365-8
- PYRIDOAZEPINE**
Photolysis of quinolyl and isoquinolyl azides in the presence of methoxide ions. Synthesis of benzodiazepines and pyridoazepines 431-3
- PYRIDONE**
Heterocycle stabilized carbanions. Two series of anomalous products from 1-alkyl-4,6-diphenyl-2-pyridones, 143-51
Preparation and reactions of pyridones: steric and electronic effects on cycloadditions with 2(1H)-pyridones, 169-73
Structures of the four possible [4 + 4] cycloaddition products formed on photodimerization of N-alkyl-2-pyridones, 1187-91
- PYRIDOOXEPINOINDOLONE**
Indole β -nucleophilic substitution. Part 3. Synthesis of four isomeric pyrido[*x'*,*y'*:5,6]oxepino[3,2-*b*]indolones, 435-9
- PYRIDOPYRAZINE**
Polyhaloaromatic compounds. Part 48. Reactions of tetrachloro-4-cyanopyridine with mono- and bifunctional nucleophiles, 2897-900
- PYRIDOPYRAZOLE**
Ring transformation of 3-(2-aminoaryl)-1,2,4-oxadiazoles into 3-acylaminoindazoles; extension of the Boulton-Katritzky scheme, 759-66
- PYRIDOQUINAZOLINONE**
Stereochemical studies. Part 50. Saturated heterocycles. Part 29. Synthesis and x-ray analysis of stereoisomeric dodecahydropyrid-*o*[2,1-*b*]quinazolin-11-ones, 2801-6
- PYRIDOQUINOXALINE**
Polyhaloaromatic compounds. Part 48. Reactions of tetrachloro-4-cyanopyridine with mono- and bifunctional nucleophiles, 2897-900
- PYRIDOTHIADIAZOLE**
Studies of heterocyclic compounds. Part 28. Condensation of 3-substituted 5-phenyl-1,2-dithiolylium salts with 2-amino-N-heterocycles, 499-507
- PYRIDOTHIADIAZOLONE**
Studies of heterocyclic compounds. Part 28. Condensation of 3-substituted 5-phenyl-1,2-dithiolylium salts with 2-amino-N-heterocycles, 499-507
- PYRIDOTHIAZINE**
Studies of heterocyclic chemistry. Part 25. Intramolecular cyclizations of N-acylarylethanethioamides leading to thiazoles, 4H-1,3-thiazines, 4H-pyrido[3,2-*e*]-1,3-thiazines, and 4H-1,3-benzothiazines, 1239-44
- PYRIDYL**
Preparation and reactions of 3-phenyl-4a,5,6,8a-tetrahydro-4H-1,2-benz[e]oxazines, 1891-5
- PYRIDYLBUTANAL**
Chemistry of 6H-pyrido[4,3-*b*]carbazoles. Part 9. An efficient route to 3-[1-(3-ethylpyridyl)]indoles and the synthesis of some new ellipticines, 587-90
- PYRIDYLLINDOLE**
Chemistry of 6H-pyrido[4,3-*b*]carbazoles. Part 9. An efficient route to 3-[1-(3-ethylpyridyl)]indoles and the synthesis of some new ellipticines, 587-90
- PYRIDYLMETHYLPYRIDONE**
Heterocycle stabilized carbanions. Two series of anomalous products from 1-alkyl-4,6-diphenyl-2-pyridones, 143-51
- PYRIMIDINE**
Synthesis of the two epimeric 5'-methylcytidines, their 5'-phosphates and [5-³H]-5'-pyrophosphates, and the two 5'-methyldeoxycytidines. A novel cytosine anhydronucleoside with two oxygen bridges between the base and the sugar, 385-93
Pyrimidine derivatives and related compounds. Part 42. Isolation of the intermediates in the ring transformation of 1,3-oxazine-2,4-diones into pyrimidines and pyrazoles, and their structure determination by nitrogen-15 nuclear magnetic resonance analysis, 473-5
Heterocyclic syntheses with malonyl chloride. Part 14. A direct synthesis of 4,6-dichloropyrimidines with 5-benzyl or -phenyl and 2-thioalkyl or -thiophenyl substituents, 2499-503
Activated nitriles in heterocyclic synthesis: a new procedure for the synthesis of pyrimidine derivatives, 2667-70
- PYRIMIDINETHIONE**
Novel synthesis of diimines by the transformation of 1-aryl-4,6-disubstituted pyrimidin-2(1H)-ones, 2149-52
- PYRIMIDINONE**
Metalation studies with pyrimidines, 153-8
4-(1,2,4-Triazol-1-yl)- and 4-(3-nitro-1,2,4-triazol-1-yl)-1-(β -D-2,3,5-tri-O-acetylraabinofuranosyl)pyrimidin-2(1H)-ones. Valuable intermediates in the synthesis of derivatives of 1-(β -D-arabinofuranosyl)cytosine (ara-C), 1171-6
Novel synthesis of diimines by the transformation of 1-aryl-4,6-disubstituted pyrimidin-2(1H)-ones, 2149-52
- PYRIMIDINYLTTHIADIAZOLINE**
Thiadiazoles and thiadiazolines. Part 4. Acetylation, hydrolysis, and cyclocondensations of Δ^2 -1,3,4-thiadiazoline- α -carboxamides, 1993-8
- PYRIMIDOOXAZINONE**
Intramolecular cyclization reactions in aliphatic thymidine analogs series, 223-7
- PYRIMIDOPYRAZOLE**
Ring transformation of 3-(2-aminoaryl)-1,2,4-oxadiazoles into 3-acylaminoindazoles; extension of the Boulton-Katritzky scheme, 759-66
- PYRIMIDOPYRIDINE**
Pyrimidine derivatives and related compounds. Part 41. Reactions of 1,3,6-trimethyl-5-nitrouracil and its 6-bromomethyl analog with amines and hydrazines. Synthesis of pyrazolo[4,3-*d*]pyrimidine N-oxides and their ring expansion to pyrimido[5,4-

- PYRIMIDOPYRIDINE**(contd)
dipyrimidines, 277–84
- PYROLYSIS**
Benzocyclobutenes. Part 7. Synthesis and x-ray crystal structure of cyclobuta[1]phenanthrene-1,2-dione and the synthesis of hexabenz[o,a,c,g,i,m,o]triphenylene, 19–23
Reactions involving fluoride ion. Part 25. A fluoride-ion-induced skeletal rearrangement, 673–6
The thermolysis of polyazapentadienes. Part 2. Formation of quinoxalines from 5-aryl-1-phenyl-1,2,5-triazapentadienes, 1941–5
Heterocyclic polyfluoro compounds. Part 40. Preparation of polyfluoroazepines, 2101–4
Polyhalo allenes and acetylenes. Part 14. The reactions of perfluoro-1,2-dienes with dichloro- and difluorocarbene, and a new route to 1,1-dichloroperfluoro-1,2-dienes, 2203–6
The pyrolysis of 4-alkylidene-3,3,5,5-tetramethyl-1-pyrazolines, 2655–62
- PYROPHOSPHORYLALLOFURANOSYLCYTOSINE**
Synthesis of the two epimeric 5'-methylcytidines, their 5'-phosphates and [5-³H]-5'-pyrophosphates, and the two 5'-methyldeoxycytidines. A novel cytosine anhydronucleoside with two oxygen bridges between the base and the sugar, 385–93
- PYRROLE**
Unusual Michael reaction of acyclic 1,3-dicarbonyl compounds with nitroolefins. A novel pyrrole synthesis, 441–7
Dinitrones from C-benzyl nitrones, 1395–8
Lithiations of 1-trialkylsilylpyrroles: nitrogen to carbon silyl group rearrangement, 1833–6
- PYRROLECARBOXALDEHYDE**
Azonia-azulene salts. Part 5. Synthesis of 5H-pyrrolo[1,2-a]azepine and of 7H-pyrrolo[1,2-a]azepin-7-one, 1123–30
- PYRROLIDINYL**
Structure and reactivity of enamines derived from 5,6-dihydro-2H-thiapyran-3(4H)-one 1,1-dioxide, 2045–50
- PYRROLIDINYLBENZOQUINONE**
Alkyl nitrenes from N-alkylbenzoquinone imine N-oxides, 2027–34
- PYRROLIDINYLPHENANTHRENE**
Synthesis of (–)-steganone, 521–5
- PYRROLIDINYLTHIAPYRAN**
Structure and reactivity of enamines derived from 5,6-dihydro-2H-thiapyran-3(4H)-one 1,1-dioxide, 2045–50
- PYRROLINE**
Silver(I)-catalyzed oxidation of cyclic secondary amines with peroxodisulfate, 3031–5
- PYRROLIZIDINE**
Pyrrolizidine alkaloid analogs. Synthesis of eleven-membered macrocyclic diesters of retronecine, 1117–21
- PYRROLOAZEPINE**
Azonia-azulene salts. Part 5. Synthesis of 5H-pyrrolo[1,2-a]azepine and of 7H-pyrrolo[1,2-a]azepin-7-one, 1123–30
- PYRROLOISOINDOLONE**
Synthesis of 1,2,3,9b-tetrahydro-9b-hydroxy-1-phenylpyrrolo[2,1-a]isoindol-5-one via the hydrazinolysis of 2-phenyl-2-(2-phthalimidoethyl)indan-1,3-dione, 2783–6
- PYRROLYLOXAZOLINE**
Regioselective β -metalations of 2-substituted furan and N-methylpyrrole derivatives employing the directing effect of the oxazolino group: syntheses of 2,3-disubstituted furans and N-methylpyrroles, 1343–7
- PYRUS**
Gibberellins A₆₀, A₆₁, and A₆₂: partial syntheses and natural occurrence, 689–97
- PYRUVAMIDOTETRALONE**
Experiments towards the synthesis of the ergot alkaloids and related structures. Part 4. Lysergic acid – an attempted 'endo-amide' approach, 1897–903
- PYRUVATE**
Silyl phosphites. Part 20. A facile synthesis of phosphoenolpyruvate and its analog utilizing in situ generated trimethylsilyl bromide, 2509–13
- PYRUVOYLIDENEGLYCINATO**
The reaction of copper(II) complexes of glycine imines with activated olefins, 1827–31
- PYRYLIUM**
The preparation of pyridiniums from pyryliums, 117–23
Preparation and reactions of pyrylium salts containing α -pyridyl groups, 125–30
2-(2-Nitrophenyl)oxaheterocycloniums: potential reagents for oxidative deamination of primary amines, 137–42
One-pot conversions of amines into olefins via nonisolated pyridinium intermediates, 2347–52
Reactions of 1-alkoxycarbonylpyridinium salts with nucleophiles: stereoelectronic restrictions on carbonyl activation of α -nucleophilic attack, 2365–8
- QUATERNARY**
Synthetic and mechanistic aspects of gas-liquid phase-transfer catalysis: carboxylate esters, 993–7
A facile total synthesis of (\pm)-cherylline via an aziridinium intermediate, 2935–7
- QUATERNIZATION**
Nuclear magnetic resonance and x-ray stereochemical studies on 1-benzyltetrahydroisoquinolinium salts, 2067–77
Stereochemical studies. Part 50. Saturated heterocycles. Part 29. Synthesis and x-ray analysis of stereoisomeric dodecahydropyrid-*o*[2,1-b]quinazolin-11-ones, 2801–6
- QUATERPHENYL**
Synthesis of substituted dibenzophospholes. Part 2. Syntheses of intermediate biphenyls and quaterphenyls, 2299–315
Synthesis of substituted dibenzophospholes. Part 3. Synthesis of 4,6-diaryldibenzophospholes from *m*-quaterphenyls, 2317–31
- QUINAZOLINOBENZODIAZEPINONE**
Intramolecular reactions of N-nitrenes: oxidation of 3-amino-2-(arylalkyl)quinazolin-4(3H)-ones, 2407–12
- QUINAZOLINONE**
Intramolecular reactions of N-nitrenes: oxidation of 3-amino-2-(arylalkyl)quinazolin-4(3H)-ones, 2407–12
- QUINODIMETHANE**
Thermal, photochemical, and acid-catalyzed rearrangements of the spiro dimer of α,α' -bis(methoxycarbonyl)-*o*-quinodimethane. X-ray crystal structure of trans,trans-tetrakis(methoxycarbonyl)dibenzo[*a,e*]cyclooctene, 2257–63
- QUINOL**
Polymer-supported periodate and iodate as oxidizing agents, 509–11
- QUINOLINE**
The chemistry of some bicyclic pyridinium anhydrobases, 1349–53
- QUINOLINIUM**
Fluorocarbon derivatives of nitrogen. Part 8. Reactions between heteroaromatic N-imines (N-iminopyridinium and N-iminoquinolinium ylide) and perfluoropropene, 2H-pentafluoropropene, perfluorobut-2-ene, perfluoro(2-methylpent-2-ene), perfluorobut-2-yne, and perfluoropyridine: synthesis of fluorinated 3-azaindolizines (pyrazolo[1,5-*a*]pyridines), 1593–600
- QUINOLYL**
Photolysis of quinolyl and isoquinolyl azides in primary and secondary aliphatic amines: synthesis of bicyclic azepines, diazepines, and quinolyl- and isoquinolylidiamines, 421–9
Photolysis of quinolyl and isoquinolyl azides in the presence of methoxide ions. Synthesis of benzodiazepines and pyridozepines 431–3
Photolysis of quinolyl azides in aliphatic thiols. Synthesis of *o*-alkylthioquinolylamine, 671–2
- QUINOLYLAMINE**
Photolysis of quinolyl azides in aliphatic thiols. Synthesis of *o*-alkylthioquinolylamine, 671–2
- QUINONE**
Polymer-supported periodate and iodate as oxidizing agents, 509–11
Quinone-capped porphyrins: synthesis and some chemical properties, 1611–15
Quinone-capped porphyrins: NMR studies of static and dynamic stereochemistry and coordination properties, 1617–24
Anthracyclines. Part 1. The synthesis of racemic daunomycinone and some related tetrahydronaphthacenequinones, 2227–38
Quinones. Part 2. General synthetic routes to quinone derivatives with modified polyprenyl side chains and the inhibitory effects of these quinones on the generation of the slow reacting substance of anaphylaxis (SRS-A), 2909–20
- QUINOXALINE**
Carbon-13 nuclear magnetic resonance spectra of quinoxaline derivatives, 357–63
Solution conformations of two synthetic analogs of quinoxaline antibiotics, 1041–8
The thermolysis of polyazapentadienes. Part 2. Formation of quinoxalines from 5-aryl-1-phenyl-1,2,5-triazapentadienes, 1941–5

RACEMIC

Synthesis of β -amino acid peptides. Part 3. Preparation of racemic and chiral 3-aminobutyric acid derivatives and peptides using dihydrooxazin-6-ones and conventional coupling reagents, 1587-92

RACEMIZATION

Radical rearrangements of 1,3-dimethylindene derivatives: a comparison with rearrangement by 1,5-sigmatropy, 467-72
Decarboxylative rearrangement of an alkanoyl arylcarbonyl peroxide involving migration of a primary chiral center, 591-3
Synthesis, resolution, and racemization studies of 1,2-epoxy-1,2-dihydrochrysenes, 1535-9

RADICAL

Radical rearrangements of 1,3-dimethylindene derivatives: a comparison with rearrangement by 1,5-sigmatropy, 467-72
Benzenesulfenylidyl radicals. Reactivity of 4'-methoxy- and 4'-methoxy-2-nitrobenzenesulfenylidyl radicals, 3049-53

REACTING

Quinones. Part 2. General synthetic routes to quinone derivatives with modified polyprenyl side chains and the inhibitory effects of these quinones on the generation of the slow reacting substance of anaphylaxis (SRS-A), 2909-20

REACTION

Reactions of 1-methyl-4-tert-butylcyclohexene and 1-methylcyclohexene with thallium(I) acetate-iodine, 413-19
Unusual Michael reaction of acyclic 1,3-dicarbonyl compounds with nitroolefins. A novel pyrrole synthesis, 441-7
Sulfur extrusion reactions. Part 5. Reactions of monoprotic thioureas with ethyl α -chloroacetate, ethyl bromomalonate, and ethyl bromocyanacetate, 653-6
Syntheses and reactions of hydridorhodium(III) octaethylporphyrin and rhodium(II) octaethylporphyrin dimer, 983-7
Interaction of copper complexes derived from 1,2-quinone monooximes (2-nitrosophenols) with amines, 1075-8
Reaction of some 1,4-benzoquinone monooximes with methanolic hydrogen chloride, 1095-8

Investigations into the mechanism of the action of alkali in methanol on 3,6-dibenzyl-s-tetrazines and their 1,4-dihydro-derivatives: the role of s-tetrazines as hydride acceptors and an x-ray determination of the structure of 3,6-bis(4-chlorobenzyl)-1,4-dihydro-s-tetrazine, 1165-70

Kinetics and mechanism of the reaction of thionyl chloride with substituted acetophenone semicarbazones. The synthesis of 1,2,3-thiadiazoles, 1223-7

Aspects of the chemistry of dehydromethionine, 1283-90

The meso-reactivity of porphyrins and related compounds. Part VIII. Substitution and addition reactions of octaethyl-21H,24H-bilin-1,19-dione, a model verdin system. X-ray analyses of octaethyl-5-nitro-21H,24H-bilin-1,19-dione and of 4,5-diethoxyoctaethyl-4,5-dihydro-21H,24H-bilin-1,19-dione, 1291-302

Formose reactions. Part 3. Selective formose reaction catalyzed by organic bases, 1975-9

Synthesis of substituted dibenzophospholes. Part 4. Chemical transformations of 4,6-diaryl-3,7-dialkoxydibenzophosphole 5-oxides, 2333-9

Preparation of 6 α -monosubstituted and 6,6-disubstituted penicillanates from 6-diazopenicillanates: reactions of 6-diazopenicillanates with alcohols, thiols, phenylseleninyl compounds, and allylic sulfides, and their analogs, 2757-66

Reactions of organothallium compounds with diborane, 2949-51

REACTIVITY

Carbene insertion into [2.2]metacyclophane-1,10-dione: a convenient route to [3.2]- and [3.3]-metacyclophanes, 477-81
Benzenesulfenylidyl radicals. Reactivity of 4'-methoxy- and 4'-methoxy-2-nitrobenzenesulfenylidyl radicals, 3049-53

REARRANGEMENT

Partially fluorinated heterocyclic compounds. Part 16. Preparation of furan derivatives from pentafluorophenyl and heptafluoro-2-naphthyl prop-2-ynyl ethers with aromatic compounds, and the isolation of hydrogen-abstraction products, 107-10

Steric factors in heterocyclic rearrangements. N-Methyl-N-phenylhydrazones of 3-benzoyl-5-phenyl-1,2,4-oxadiazole, 165-7

Arylazoglycosides. Part 7. Syntheses of amino sugars from methyl arylazohexenopyranosides, 205-14

New rearrangement and oxidation products from humulone, 375-83

Radical rearrangements of 1,3-dimethylindene derivatives: a

comparison with rearrangement by 1,5-sigmatropy, 467-72

Approaches to bridged thia[17]annulenes, 483-7

A mild and efficient degradation of ring A of steroids, 513-16

Cytochalasins E and K, toxic metabolites from *Aspergillus clavatus* 541-4

Reactions of spiroindazoles containing keto groups. Part 2.

Evidence for a spirobenzocyclopropane intermediate in the thermolysis of anthrone-10-spiro-3'-3'H-indazoles to benz[a]aceanthrylenes, 577-9

Decarboxylative rearrangement of an alkanoyl arylcarbonyl

peroxide involving migration of a primary chiral center, 591-3

Reactions involving fluoride ion. Part 25. A fluoride-ion-induced skeletal rearrangement, 673-6

Versatile synthesis of sulfamate esters by phase-transfer methods, 677-9

Synthesis of 1H-1-benzazepines by thermolysis of 2a,7b-dihydro-3H-cyclobut[b]indoles, 741-8

Ring transformation of 3-(2-aminoaryl)-1,2,4-oxadiazoles into 3-acylaminoindazoles; extension of the Boulton-Katritzky scheme, 759-66

Regioselective ether cleavages of rotenoids: spiro-ether formation and stereoselective isotopic labeling of (E)- or (Z)-prenyl methyl groups in (6aS, 12aS)-rot-2'-enonic acid, 779-88

Addition reactions of benzo[b]thiophene. Part 4. Reactions of some acetoxy- and hydroxybenzo[b]thiophenes with benzene or toluene, 815-21

Nitroxide chemistry. Part 20. N,N-Bis(trifluoromethyl)hydroxylamine as a carbocation trapping agent, 835-9

Base catalyzed rearrangements involving ylide intermediates. Part 14. Rearrangement of 4-oxidoanilinium ylides and 3-oxidoanilinium betaines, 893-901

Photo-induced transformations. Part LXI. Syntheses of some six-membered and eight-membered lactams of the β -homo- and Δ -nor-B,B-dihomocholestane series by the photo-Beckmann rearrangement, 931-8

Reactions of 3-acetylpropolone methyl ethers with guanidine and amidines, 1037-9

Structures of the four possible [4 + 4] cycloaddition products formed on photodimerization of N-alkyl-2-pyridones, 1187-91

Thermal rearrangement reactions of tricarbonyliron lactone complexes, 1355-61

Reactions of 4-hydroxycyclohexa-2,5-dienones under acidic conditions, 1499-507

Lithiations of 1-trialkylsilylpyrroles: nitrogen to carbon silyl group rearrangement, 1833-6

Intramolecular acetalization of naphthoquinones, 1933-6

Photoinduced transformations. Part 63. Photorearrangement of 17 β -acetoxy-4,4-dimethylestr-5-en-3 β -yl nitrite with monochromatic light, 1963-6

Rearrangement of 1-(α -hydroxybenzyl)-1,2,3,4-tetrahydroisoquinolines to 1-phenyl-2,3,4,5-tetrahydro-1H-3-benzazepines, 2163-7

Fluoro olefin chemistry. Part 14. Preparation and photochemical rearrangement of some acyclic perfluoroalkyl and polyfluoroalkyl olefins, 2211-17

Thermal, photochemical, and acid-catalyzed rearrangements of the spiro dimer of α,α' -bis(methoxycarbonyl)-o-quinodimethane. X-ray crystal structure of trans,trans-tetrakis(methoxycarbonyl)dibenzo[a,e]-cyclooctene, 2257-63

Biosynthesis of porphyrins and related macrocycles. Part 18. Proof by spectroscopy and synthesis that unrearranged hydroxymethylbilane is the product from deaminase and the substrate for cosynthetase in the biosynthesis of uroporphyrinogen-III, 2427-44

Acid- and base-catalyzed reactions of 4 β ,5 β - and 4 α ,5 α -epoxyandrostane-3,17,19-trione, 2611-15

Studies in terpenoid biosynthesis. Part 27. The acetate and mevalonate labeling patterns of the sesquiterpenoid, alliacolide, 2787-90

1,3-Acyl migration in carbonic acid derivatives. Synthesis of S-polyhaloalkyl N-acyl-N-aryl(alkyl)thiocarbamates, 2813-17

REDN

Amide-catalyzed isomerization of 5,6-dihydroisoquinolines: a novel synthesis of 1,2-dihydroisoquinolines, 63-8

Synthesis of 2,6-diaryl-4,8-dihydroxy-3,7-dioxabicyclo[3.3.0]octanes, 175-81

Synthesis and NMR spectra of 2,6- and 2,4-diaryl-3,7-dioxabicyclo[3.3.0]octanes, 183-90

C-Aromatic steroids. Synthesis of 11,17 ξ -dimethoxy-18-

REDN(contd)

- norandrosta-4,8,11,13-tetraen-3-one, 201-4
 Arylazoglycosides. Part 7. Syntheses of amino sugars from methyl arylazohexenopyranosides, 205-14
 Electrochemical reactions. Part 24. Reductive cyclization of *i*-(2-halophenyl)-*j*-phenyl compounds: a general reaction, 229-34
 Asymmetric induction in the reduction of optically active *N*-alkylidenesulfonamides by metal hydrides. A new, efficient enantioselective route to chiral amines, 339-43
 Hydroxamic acid production and active-site induced Bamberger rearrangement from the action of α -ketoglutarate dehydrogenase on 4-chloronitrosobenzene, 345-50
 Preparation of kaurenolide and its 5 α ,6 α (H)-isomer, 517-19
 Reductive cleavage of propellane-type hydrazinium dications as a route to medium sized ring bicyclic diamines with bridgehead nitrogen atoms, 603-9
 Fluorocarbon derivatives of nitrogen. Part 6. Reactions of some perfluorinated nitroso compounds with hydrogen sulfite ion: conversion of fluorocarbon olefins into perfluoro-ketone oximes 685-8
 Reactions of forskolin, a biologically active diterpenoid from *Coleus forskohlii*, 767-71
 Studies in metal-ammonia reduction. Part 3. Reduction and reductive methylation of some acynaphthalenes with metal-ammonia solutions, 875-80
 Interaction of copper complexes derived from 1,2-quinone monooximes (2-nitrosophenols) with amines, 1075-8
 A chemical model for the thymidylate synthetase catalyzed methylation of deoxyuridine monophosphate, 1363-9
 Dye-sensitized photooxygenation of the *Aspidosperma* alkaloids vincadifformine and tabersonine. A new, convenient approach to vincamine, 1371-9
 Studies in metal-ammonia reduction. Part 4. Reduction and reductive methylation of 7-methoxy-3,4-dihydrophenanthren-1(2H)-one and 7-methoxy-1,2-dihydrophenanthren-4(3H)-one, 1381-4
 Synthesis of some pterocarpenes obtained from *Brya ebenus*, 1389-94
 Addition reactions of aminium radicals: synthetic studies of oxidative photoaddition of *N*-nitrodimethylamine, 1405-17
 Dihydrostilbenes of *Cannabis*. Synthesis of canniprene, 1467-75
 Reaction between 2,2'-anhydro-1- β -D-arabinofuranosyluracil and thiolate ions, 1625-8
 Oxymetalation. Part 16. Modified procedures for reducing peroxymercurials: conversion of nonterminal alkenes into secondary alkyl tert-butyl peroxides, 1797-805
 Oxymetalation. Part 17. tert-Butyl peroxymercuriation and subsequent demercuriation of phenylcyclopropane, 1807-9
 Triazines and related products. Part 24. Synthesis of pyrazol-4-ylidenehydrazinoimidazoles by hydrazinolysis of imidazo[5,1-c][1,2,4]triazines and 2-arylaizoimidazoles by diazonium coupling reactions, 1811-19
 The reactions of estrogens with benzeneseleninic anhydride and hexamethyldisilazane, 1915-18
 Stereochemistry of the reduction of 3 β -benzoyloxycholest-5-en-4-one with sodium borohydride, 1937-40
 Synthesis of adamantane derivatives. Part 53. Simple synthesis of 7-thiaprotoadamantane (7-thiatricyclo[4.3.1.0^{3,8}]decane) and related derivatives via a regioselective and stereoselective intramolecular Friedel-Crafts reaction, 1953-8
 Analogs of antijuvenile hormones, 2013-18
 Synthesis of 25 ξ ,26-dihydroxyvitamin D₂, 2111-16
 Naturally occurring dibenzofurans. Part 2. The synthesis of schizopeltic acid, 2373-7
 A regioselective reductive ring opening of 4,6-O-prop-2-enylidene acetals of hexopyranosides, 2395-7
 Stereochemistry of olefin and fatty acid oxidation. Part 1. Autoxidation of hexene and hepta-2,5-diene isomers, 2707-13
 Stereochemistry of olefin and fatty acid oxidation. Part 2. Photosensitized oxidation of hexene and hepta-2,5-diene isomers 2715-17
 Stereochemical studies. Part 50. Saturated heterocycles. Part 29. Synthesis and x-ray analysis of stereoisomeric dodecahydropyrid-*o*[2,1-*b*]quinazolin-11-ones, 2801-6
 Electroorganic reactions. Part 20. Electrogenerated bases, ylide formation, and Wittig alkene synthesis, 2921-6
 Bridged-ring nitrogen compounds. Part 6. Synthesis of the 2,5-methano-3-benzazocine ring system, 2927-33
 Asymmetric synthesis of a β -ketol moiety via 3,5-disubstituted

isoxazoles: application to (+)-(S)-[6]-gingerol, 2983-7

REDUCTIVE

Studies in metal-ammonia reduction. Part 4. Reduction and reductive methylation of 7-methoxy-3,4-dihydrophenanthren-1(2H)-one and 7-methoxy-1,2-dihydrophenanthren-4(3H)-one, 1381-4

REGIOCHEM

- Carbene insertion into [2.2]metacyclophane-1,10-dione: a convenient route to [3.2]- and [3.3]-metacyclophanes, 477-81
 Regioselective ether cleavages of rotenoids: spiro-ether formation and stereoselective isotopic labeling of (E)- or (Z)-prenyl methyl groups in (6aS, 12aS)-rot-2'-enonic acid, 779-88
 Studies in metal-ammonia reduction. Part 3. Reduction and reductive methylation of some acynaphthalenes with metal-ammonia solutions, 875-80
 The meso-reactivity of porphyrins and related compounds. Part VIII. Substitution and addition reactions of octaethyl-21H,24H-bilin-1,19-dione, a model verdin system. X-ray analyses of octaethyl-5-nitro-21H,24H-bilin-1,19-dione and of 4,5-diethoxyoctaethyl-4,5-dihydro-21H,24H-bilin-1,19-dione, 1291-302
 Organometallic compounds in organic synthesis. Part 14. Tricarbonyliron as lateral control group in the selective alkaline hydrolysis of some cyclohexa-1,3-diene carboxylic esters, 1763-9
 Lithiations of 1-trialkylsilylpyrroles: nitrogen to carbon silyl group rearrangement, 1833-6
 An investigation of the Wittig reaction between a series of monosubstituted phthalic anhydrides and ethoxycarbonylmethylidenetriphenylphosphorane, 1855-63
 The thermolysis of polyazapentadienes. Part 2. Formation of quinoxalines from 5-aryl-1-phenyl-1,2,5-triazapentadienes, 1941-5
 Polyhalo allenes and acetylenes. Part 15. Dipolar cycloadditions of *N*-phenylsydnone and aryl azides to perfluoropropadiene and perfluoropropyne, 2207-10
 Photooxidation of oxazolidones and hydantoin in the presence of benzophenone, 2341-5
 [4.2]- and [4.3]-Metacyclophanes, 2369-72
 Tetrahydroisoxazolo[2,3-*d*][1,4]benzodiazepinone ring system: synthesis, stereochemistry, and conformation, 2701-5

REGIOSELECTIVE

- Iodoazide adducts of exocyclic alkenes; structure and solvolysis, 315-25
 Homopolysaccharides interaction with the dimethyl sulfoxide-paraformaldehyde cellulose solvent system. Selective oxidation of amylose and cellulose at secondary alcohol groups, 1579-85
 A regioselective reductive ring opening of 4,6-O-prop-2-enylidene acetals of hexopyranosides, 2395-7
 Spirans. Part 15. The effect of ring size upon the regioselective oxidative coupling of heterocyclic phenols, 2617-24

REGIOSELECTIVITY

- Novel reagent system for converting a hydroxy group into an iodo group in carbohydrates with inversion of configuration. Part 3, 681-3
 Organometallic complexes in synthesis. Part 16. Reactions of tricarbonyl(cyclohexadienyl)iron(1+) salts with aromatic amines 713-17
 Electrophilic aromatic substitution of catechins: bromination and benzylation, 973-8
 Structures of the four possible [4 + 4] cycloaddition products formed on photodimerization of *N*-alkyl-2-pyridones, 1187-91
 Regioselective β -metalations of 2-substituted furan and *N*-methylpyrrole derivatives employing the directing effect of the oxazolino group: syntheses of 2,3-disubstituted furans and *N*-methylpyrroles, 1343-7
 A novel and chemoselective preparation of chlorosulfonyl-containing azo dyes with phosphoryl chloride-*N,N*-dimethylacetamide, 1519-22
 Organoniron complexes in organic synthesis. Part 21. Methods for controlling the regioselectivity of nucleophile addition to tricarbonyl(cyclohexadienyl)iron complexes, 1527-34
 Control of regioselectivity in the addition of sulfonyl chlorides to 3,3-dimethylbutyne (tert-butylacetylene) as a method for differential functionalization of triple bonds, 2197-201
 Photooxidation of oxazolidones and hydantoin in the presence of benzophenone, 2341-5

REGIOSPECIFIC

- Metalation studies with pyrimidines, 153-8
 Studies in metal-ammonia reduction. Part 3. Reduction and

- REGIOSPECIFIC(contd)**
 reductive methylation of some acyl-naphthalenes with metal-ammonia solutions, 875-80
 Regioselective β -metalations of 2-substituted furan and N-methylpyrrole derivatives employing the directing effect of the oxazolino group: syntheses of 2,3-disubstituted furans and N-methylpyrroles, 1343-7
 Studies related to maytansinoids, 1541-51
 A convenient solvent-specific synthesis of 4-[4-acetoxy-3-(3-methylbut-2-enyl)phenyl]butyric acid, 1601-3
 Regio- and stereospecificity of nucleophilic attack on steroidal π -allylpalladium complexes, 2595-7
 Practicable syntheses of 2-hydroxymethyl-substituted benzimidazoles and 2-formylbenzimidazole, 2871-5
- REGIOSPECIFICITY**
 Studies on intramolecular cycloaddition reactions of some isoquinolinium salts, 249-55
 Biosynthesis of rotenoids by *Amorpha fruticosa*: sequence, specificity, and stereochemistry in the development of the hemiterpenoid segment, 789-97
 Regiospecificity in reactions of metal phenoxides. Synthesis of 2,2'-alkylidenebisphenols, 805-8
 Synthesis of adamantane derivatives. Part 53. Simple synthesis of 7-thiaprotoadamantane (7-thiatricyclo[4.3.1.0^{3,8}]decane) and related derivatives via a regioselective and stereoselective intramolecular Friedel-Crafts reaction, 1953-8
- REPEATING**
 Syntheses of the biological repeating units of *Salmonella* serogroups A, B, and D₁ O-antigenic polysaccharides, 2973-82
- RESOLN**
 Synthesis of (-)-steganone, 521-5
 Synthesis, resolution, and racemization studies of 1,2-epoxy-1,2-dihydrochrysenes, 1535-9
 Polycyclic analogs of trans-decalones. Part 5. Synthesis, optical resolution, and circular dichroism of trans-transoid-trans-perhydrophenanthren-3-one and trans-transoid-trans-perhydrophenanthren-9-one, 2117-22
 Chemical synthesis and optical purity determination of optically active 1,2-epoxyindan and alcohol products which are also derived from mammalian or microbial metabolism of indene or indanones, 2767-70
- RESORCINOL**
 Acid-catalyzed condensation of isoprene with phenols. Formation of 2,2-dimethylchromans, 335-8
- RETRO**
 Preparation and reactions of pyridones: steric and electronic effects on cycloadditions with 2(1H)-pyridones, 169-73
- RETROCHALCONE**
 Studies on plant tissue cultures. Part 36. Biosynthesis of a retrochalcone, echinatin, and other flavonoids in the cultured cells of *Glycyrrhiza echinata*. A new route to a chalcone with transposed A- and B-rings, 2725-34
- RETRONECINE**
 Pyrrolizidine alkaloid analogs. Synthesis of eleven-membered macrocyclic diesters of retronecine, 1117-21
- RHODIUM**
 Catalytic hydrogenation of 3,4-epoxybut-1-ene with cationic rhodium complexes, 855-9
 Syntheses and reactions of hydridorhodium(III) octaethylporphyrin and rhodium(II) octaethylporphyrin dimer, 983-7
- RHUS**
 Tannins and related compounds. Part 5. Isolation and characterization of polygalloylglucoses from Chinese gallotannin, 2963-8
- RIBOSYL**
 Synthesis of ribosyl and arabinosyl cyanides by reaction of 1-O-acyl sugars with trimethylsilyl cyanide, 903-7
- RING**
 Synthesis of the four stereoisomers of 4-aminoadamantane-2-carboxylic acid, rigid analogs of γ -aminobutyric acid, 73-7
 Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ζ)-fluoro-25-hydroxyvitamin D₃, 85-91
 Photoinduced transformations. Part 60. Photoinduced rearrangements of cholesteryl nitrites with monochromatic light, 111-16
 Preparation and reactions of pyrylium salts containing α -pyridyl groups, 125-30
 Steric factors in heterocyclic rearrangements. N-Methyl-N-phenylhydrazones of 3-benzoyl-5-phenyl-1,2,4-oxadiazole, 165-7
 Synthetic application of azetidin-2-ones to a synthesis of furan derivatives, 257-60
 Pyrimidine derivatives and related compounds. Part 41. Reactions of 1,3,6-trimethyl-5-nitrouracil and its 6-bromomethyl analog with amines and hydrazines. Synthesis of pyrazolo[4,3-d]pyrimidine N-oxides and their ring expansion to pyrimido[5,4-d]pyrimidines, 277-84
 Ring contractions of thiochroman-4-ones and thiochromen-4-ones 395-402
 Photolysis of quinolyl and isoquinolyl azides in primary and secondary aliphatic amines: synthesis of bicyclic azepines, diazepines, and quinolyl- and isoquinolylidiamines, 421-9
 Photolysis of quinolyl and isoquinolyl azides in the presence of methoxide ions. Synthesis of benzodiazepines and pyridoazepines 431-3
 Pyrimidine derivatives and related compounds. Part 42. Isolation of the intermediates in the ring transformation of 1,3-oxazine-2,4-diones into pyrimidines and pyrazoles, and their structure determination by nitrogen-15 nuclear magnetic resonance analysis, 473-5
 Carbene insertion into [2.2]metacyclophane-1,10-dione: a convenient route to [3.2]- and [3.3]-metacyclophanes, 477-81
 Approaches to bridged thia[1.7]annulenes, 483-7
 A mild and efficient degradation of ring A of steroids, 513-16
 Preparation of kaurenolide and its 5 α ,6 α (H)-isomer, 517-19
 Synthesis of (-)-steganone, 521-5
 Reductive cleavage of propellane-type hydrazinium dications as a route to medium sized ring bicyclic diamines with bridgehead nitrogen atoms, 603-9
 Addition reactions of benzo[b]thiophene. Part 3. Addition and ring-opening reactions with phenolic ethers, 615-21
 1,3,2-Oxazaphospholidine-2-thiones from (+)-norephedrine: stereospecific ring opening, possibly by an elimination-addition mechanism, 639-43
 Synthesis of 1H-1-benzazepines by thermolysis of 2a,7b-dihydro-3H-cyclobut[b]indoles, 741-8
 Regioselective ether cleavages of rotenoids: spiro-ether formation and stereoselective isotopic labeling of (E)- or (Z)-prenyl methyl groups in (6aS, 12aS)-rot-2'-enonic acid, 779-88
 Base-catalyzed fragmentation of 5,6 β -epoxy-3 β -hydroxy-5 β -cholestan-19-al, 799-803
 Ylide formation and rearrangement in the thermal reaction of 6H-dibenzo[b,d]thiopyran and its 6-phenyl derivative with diazo alkanes, 917-22
 Triazolopyridines. Part 2. Preparation of 7-substituted triazolo[1,5-a]pyridines by directed lithiation, 967-71
 Stereoselective olefin cyclization mediated by the selenyl group; direct formation of a selenyl caparrapi oxide, 1085-7
 Investigations into the mechanism of the action of alkali in methanol on 3,6-dibenzyl-s-tetrazines and their 1,4-dihydro-derivatives: the role of s-tetrazines as hydride acceptors and an x-ray determination of the structure of 3,6-bis(4-chlorobenzyl)-1,4-dihydro-s-tetrazine, 1165-70
 Organocuprate conjugate addition reactions of 2,3-dihydrothiin-4-one, its oxide and dioxide, 1177-82
 Dinitrones from C-benzyl nitrones, 1395-8
 Addition reactions of aminium radicals: oxidative and nonoxidative photoaddition of nitrosoamines to nonconjugated polyenes, 1419-28
 Synthesis of novel β -lactamase inhibitors from clavulanic acid. Preparation and chemical reactions of (5R)-3-vinyl-4-oxa-1-azabicyclo[3.2.0]hept-2-en-7-one, 1509-17
 Studies related to maytansinoids, 1541-51
 Naturally occurring dibenzofurans. Part 1. A synthesis of cannabifuran, 1605-10
 Reaction between 2,2'-anhydro-1- β -D-arabinofuranosyluracil and thiolate ions, 1625-8
 Triazines and related products. Part 24. Synthesis of pyrazol-4-ylidenehydrazinoimidazoles by hydrazinolysis of imidazo[5,1-c][1,2,4]triazines and 2-arylazoinimidazoles by diazonium coupling reactions, 1811-19
 Synthesis of annelated 1,3,4,6-thiatriazepines from reaction of cyclic thioureas with 1,4-dichloro-2,3-diazabutadienes, 1999-2005
 Novel synthesis of diimines by the transformation of 1-aryl-4,6-disubstituted pyrimidin-2(1H)-ones, 2149-52
 Synthesis of substituted dibenzophospholes. Part 3. Synthesis of 4,6-diaryldibenzophospholes from m-quaterphenyls, 2317-31
 A regioselective reductive ring opening of 4,6-O-prop-2-enylidene

RING(contd)

- acetals of hexopyranosides, 2395-7
 A novel synthesis of the 2-benzylisoquinoline alkaloids sendaverine and corgoine with aziridinium salts as reactive intermediates, 2399-401
 Acid- and base-catalyzed reactions of 4 β ,5 β - and 4 α ,5 α -epoxyandrosterane-3,17,19-trione, 2611-15
 Solution photochemistry of 4-alkylidene-3,3,5,5-tetramethyl- Δ^1 -pyrazolines, 2647-53
 The pyrolysis of 4-alkylidene-3,3,5,5-tetramethyl-1-pyrazolines, 2655-62
 Photochemistry of epoxyquinones. Part 7. Photoinduced cycloaddition of 2,3-dimethyl-2,3-dihydro-2,3-epoxy-1,4-naphthoquinone to olefins, 2671-85
 Synthesis of 1,2,3,9b-tetrahydro-9b-hydroxy-1-phenylpyrrolo[2,1-a]isoindol-5-one via the hydrazinolysis of 2-phenyl-2-(2-phthalimidoethyl)indan-1,3-dione, 2783-6
 Acid-catalyzed cyclizations: structures of novel products isolated in the reaction of 2-[3-(2,6-dimethoxyphenyl)but-2-enyl]-2-methylcyclopentane-1,3-dione with methanol-hydrochloric acid, 2791-4
 Formation of some 3-aryl-3,4-dihydroisocoumarins by thermal ring closure of stilbene-2-carboxylic acids, 2819-25
 Studies on the 5 β ,6 β -epoxide opening in withanolides, 2835-9
 A facile total synthesis of (\pm)-cherylline via an aziridinium intermediate, 2935-7
 Asymmetric synthesis of a β -ketol moiety via 3,5-disubstituted isoxazoles: application to (+)-(-)-[6]-gingerol, 2983-7
 Synthetic approaches to some aza analogs of benzimidazole N-oxides. Part 1. The imidazo[4,5-b]pyridine series, 2995-3006
 A new phenanthrene synthesis, 3007-10
- RISTOSAMINE**
 Convenient syntheses of L-digitoxose, L-cymarose, and L-ristosamine, 2583-7
- ROBINSON**
 C-Aromatic steroids. Synthesis of 11,17 ξ -dimethoxy-18-norandrosta-4,8,11,13-tetraen-3-one, 201-4
- ROSACEAE**
 The metabolism of gallic acid and hexahydroxydiphenic acid in plants. Part 2. Esters of (S)-hexahydroxydiphenic acid with D-glucopyranose (⁴C₁), 2525-34
- ROTATION**
 A stable bromoalkoxyphosphorane, a model for the postulated five-coordinate intermediate in the Arbuzov and related reactions 735-40
- ROTATIONAL**
 The preparation of thiazole-4- and -5-carboxylates, and an infrared study of their rotational isomers, 159-64
- ROTENOID**
 Regioselective ether cleavages of rotenoids: spiro-ether formation and stereoselective isotopic labeling of (E)- or (Z)-prenyl methyl groups in (6aS, 12aS)-rot-2'-enonic acid, 779-88
 Biosynthesis of rotenoids by *Amorpha fruticosa*: sequence, specificity, and stereochemistry in the development of the hemiterpenoid segment, 789-97
- ROTENONATE**
 Biosynthesis of rotenoids by *Amorpha fruticosa*: sequence, specificity, and stereochemistry in the development of the hemiterpenoid segment, 789-97
- ROTENONE**
 New synthetic methods in rotenoid chemistry: [7'-¹³C]- and [7'-¹⁴C]-(-)-rotenone and (\pm)-isorotenone, 773-8
 Biosynthesis of rotenoids by *Amorpha fruticosa*: sequence, specificity, and stereochemistry in the development of the hemiterpenoid segment, 789-97
- ROTENONIC**
 Regioselective ether cleavages of rotenoids: spiro-ether formation and stereoselective isotopic labeling of (E)- or (Z)-prenyl methyl groups in (6aS, 12aS)-rot-2'-enonic acid, 779-88
- RUBBER**
 Synthesis of 4- and 5-(1,3-dimethylbut-2-enylthio)-2,6-dimethylocta-2,6-diene, models for sulfur crosslinks in natural rubber, 3027-30
- SAFETY**
 Triazines and related products. Part 25. Methods for the attachment of sugar residues to cytotoxic 1,3,5-triazines, 1821-5
 Thiadiazoles and thiadiazolines. Part 3. Synthesis of triazol-3-yl- Δ^2 -1,3,4-thiadiazolines and a new synthesis of unsymmetrical 2,5-disubstituted 1,3,4-thiadiazoles, 1987-91

SALICYLALDEHYDE

- The enamine route to 2-morpholinoisoflav-3-ene, 1193-6
- SALMONELLA**
 Syntheses of the biological repeating units of *Salmonella* serogroups A, B, and D₁ O-antigenic polysaccharides, 2973-82
- SALT**
 Nuclear magnetic resonance and x-ray stereochemical studies on 1-benzyltetrahydroisoquinolinium salts, 2067-77
 Synthesis and properties of a series of sterically hindered guanidine bases, 2085-90
- SALVIA**
 Salvinorin, a new trans-neoclerodane diterpene from *Salvia divinorum* (Labiatae), 2505-8
- SALVINORIN**
 Salvinorin, a new trans-neoclerodane diterpene from *Salvia divinorum* (Labiatae), 2505-8
- SANGUIN**
 Tannins and related compounds. Part 3. A new phenolic acid, sangisorbic acid dilactone and three new ellagitannins, sanguiins H-1, H-2, and H-3, from *Sanguisorba officinalis*, 1067-73
- SANGUISORBA**
 Tannins and related compounds. Part 3. A new phenolic acid, sangisorbic acid dilactone and three new ellagitannins, sanguiins H-1, H-2, and H-3, from *Sanguisorba officinalis*, 1067-73
- SANGUISORBATE**
 Tannins and related compounds. Part 3. A new phenolic acid, sangisorbic acid dilactone and three new ellagitannins, sanguiins H-1, H-2, and H-3, from *Sanguisorba officinalis*, 1067-73
- SAPONIN**
 The structure of four novel C₃₁-secodammarane-type triterpenoid saponins from the female flowers of *Alnus serrulata*, 1399-403
- SCELERANECIC**
 Necic acid synthons. Part 1. Total synthesis of integerrinecic acid, 2079-83
- SCHIZOPELTATE**
 Naturally occurring dibenzofurans. Part 2. The synthesis of schizopeltic acid, 2373-7
- SECODAMMARANE**
 The structure of four novel C₃₁-secodammarane-type triterpenoid saponins from the female flowers of *Alnus serrulata*, 1399-403
- SECODINORANDROSTANAL**
 A mild and efficient degradation of ring A of steroids, 513-16
- SECODINORESTRAPENTAENONE**
 Acid-catalyzed cyclizations: structures of novel products isolated in the reaction of 2-[3-(2,6-dimethoxyphenyl)but-2-enyl]-2-methylcyclopentane-1,3-dione with methanol-hydrochloric acid, 2791-4
- SECODINORESTRATETRAENONE**
 Acid-catalyzed cyclizations: structures of novel products isolated in the reaction of 2-[3-(2,6-dimethoxyphenyl)but-2-enyl]-2-methylcyclopentane-1,3-dione with methanol-hydrochloric acid, 2791-4
- SECOSTRENAL**
 Photoinduced transformations. Part 63. Photorearrangement of 17 β -acetoxy-4,4-dimethylestr-5-en-3 β -yl nitrite with monochromatic light, 1963-6
- SECOPREGNYNEDIONE**
 A mild and efficient degradation of ring A of steroids, 513-16
- SELECTIVE**
 Selective aromatization of ring B in 19-norsteroids and synthesis of equilenin-type compounds, 1-7
 N-Bridged heterocycles. Part 5. α,ω -Bis(2-oxobenzimidazolyl)alkanes and -ethers as selective ligands for Group IA and IIA metals, 261-70
 Selective formylation of α - or ϵ -amino groups of peptides, 2625-9
- SELECTIVITY**
 Selectivity in the trimethylsilylation and acylation of peptide bonds, and its application to modification of the enkephalins, 2939-47
- SELENIDE**
 Stereoselective olefin cyclization mediated by the selenyl group; direct formation of a selenyl caparrapi oxide, 1085-7
- SELENYL**
 Stereoselective olefin cyclization mediated by the selenyl group; direct formation of a selenyl caparrapi oxide, 1085-7
- SELENYLARENE**
 Oxidation of benzylic hydrocarbons with benzeneseleninic anhydride and related reactions, 2179-85

SELF

Synthesis of condensed tannins. Part 6. The sequence of units, coupling positions, and absolute configuration of the first linear [4,6:4,6]triflavanoid with terminal 3,4-diol function, 535-40
 Biosynthesis of porphyrins and related macrocycles. Part 18. Proof by spectroscopy and synthesis that unrearranged hydroxymethylbilane is the product from deaminase and the substrate for cosynthetase in the biosynthesis of uroporphyrinogen-III, 2427-44

SEMICARBAZIDE

1,3,4-Oxadiazol-2(3H)-one formation from N-acylaminobiurets and related compounds and from S-benzyl 3-acyl(thiocarbazate-s), 2019-21

SENDAVERINE

A novel synthesis of the 2-benzylisoquinoline alkaloids sendaverine and corgoine with aziridinium salts as reactive intermediates, 2399-401

SEPN

Active and passive transport of amino acid and oligopeptide derivatives by artificial ionophore-potassium ion complexes, 2359-63

SEPTICINE

Phenanthroindolizidine and related alkaloids: synthesis of tylophorine, septicine, and deoxytylophorinine, 2477-85

SEQUENCE

18-Substituted steroids. Part 10. Synthesis of 16 α ,18,21-trihydroxypregn-4-ene-3,20-dione (16 α ,18-dihydroxy-11-deoxycorticosterone), 723-8

SEQUIRIN

Synthesis, conformation, and chirality of di-O-methylsequirin D, a biogenetically novel metabolite of *Sequoia sempervirens*, 461-5

SEQUOIA

Synthesis, conformation, and chirality of di-O-methylsequirin D, a biogenetically novel metabolite of *Sequoia sempervirens*, 461-5

SERPENONE

Metabolites of the higher fungi. Part 19. Serpenone, 3-methoxy-4-methyl-5-prop-1-enylfuran-2(5H)-one, a new γ -butyrolactone from the fungus *Hypoxyton serpens* (Barrons strain) (Persoon ex Fries) Kickx, 215-21

SESAMIN

Synthesis of 2,6-diaryl-4,8-dihydroxy-3,7-dioxabicyclo[3.3.0]octanes, 175-81

SESQUITERPENE

New stereoselective synthesis of 9-methyl-cis-decalin derivatives by double Michael reaction of 3-methyl-4-methylenecyclohex-2-enone and its congeners with dimethyl 3-oxoglutarate, 25-30

Stereoselective olefin cyclization mediated by the selenyl group; direct formation of a selenyl caparrapi oxide, 1085-7

A new, efficient synthesis of (+)-isodrimenin, 1163-4

Studies in terpenoid biosynthesis. Part 25. The fate of the mevalonoid hydrogen atoms in the biosynthesis of the sesquiterpenoid, dihydrobotrydial, 2187-92

Studies in terpenoid biosynthesis. Part 26. Applications of deuterium and carbon-13 NMR spectroscopy to the biosynthesis of the illudin sesquiterpenoids, 2445-8

Synthetic studies on terpenoids. Part 7. Synthetic studies leading to the total synthesis of eudesmane sesquiterpenes, 2547-51

Studies in terpenoid biosynthesis. Part 27. The acetate and mevalonate labeling patterns of the sesquiterpenoid, alliacolide, 2787-90

Synthesis of sesquiterpenes occidantalol, chamaecynone, and related compounds characterized by a cis-eudesmane structure, 2849-53

SEX

Synthesis of optically pure (R,Z)-5-dec-1-enyloxacyclopentan-2-one, the sex pheromone of the Japanese beetle, 69-71

SIEVE

New oxidative systems for alcohols: molecular sieves with chromium(VI) reagents, 1967-73

SILANE

Cycloelimination of β -silylethyl sulfoxides: alkene, alkyne, and vinylsilane forming reactions, 1563-9

SILVER

Conversion of aromatic ketones into π -arylalkanoic acids.

Oxidation by thallium(III) and by halogens, 235-42

Esters of α -arylalkanoic acids from 'masked' α -haloalkyl aryl ketones and silver salts: synthetic, kinetic, and mechanistic aspects, 2575-81

Silver(I)-catalyzed oxidation of cyclic secondary amines with peroxodisulfate, 3031-5

SILYL

Synthesis of ribosyl and arabinosyl cyanides by reaction of 1-O-acyl sugars with trimethylsilyl cyanide, 903-7

Ketene silyl acetal chemistry; simple synthesis of methyl jasmonate and related compounds by utilizing ketene methyl dimethyl-tert-butylsilyl acetal, 1099-104

SILYLETHYL

Cycloelimination of β -silylethyl sulfoxides: alkene, alkyne, and vinylsilane forming reactions, 1563-9

SILYLOXYALKENYLACETATE

Ketene silyl acetal chemistry; simple synthesis of methyl jasmonate and related compounds by utilizing ketene methyl dimethyl-tert-butylsilyl acetal, 1099-104

SILYLPYRROLE

Lithiations of 1-trialkylsilylpyrroles: nitrogen to carbon silyl group rearrangement, 1833-6

SLOW

Quinones. Part 2. General synthetic routes to quinone derivatives with modified polyprenyl side chains and the inhibitory effects of these quinones on the generation of the slow reacting substance of anaphylaxis (SRS-A), 2909-20

SODIUM

Approaches to bridged thia[17]annulenes, 483-7

SOLN

Stereochemistry of 2,3-dimethyl analogs of the reversed ester of pethidine and related compounds: examples of vicinal diaxial methyl groups in 2,3-dimethylpiperidine derivatives, 749-53

SOLUBILIZATION

Synthesis of substituted dibenzophospholes. Part 4. Chemical transformations of 4,6-diaryl-3,7-dialkoxydibenzophosphole 5-oxides, 2333-9

SOLVENT

Photochemical reactions of N,N-dialkyl- α -thioamides, 247-8

Regiospecificity in reactions of metal phenoxides. Synthesis of 2,2'-alkylidenebisphenols, 805-8

Structures of the four possible [4 + 4] cycloaddition products formed on photodimerization of N-alkyl-2-pyridones, 1187-91

Regioselective β -metalations of 2-substituted furan and N-methylpyrrole derivatives employing the directing effect of the oxazolino group: syntheses of 2,3-disubstituted furans and N-methylpyrroles, 1343-7

A convenient solvent-specific synthesis of 4-[4-acetoxy-3-(3-methylbut-2-enyl)phenyl]butyric acid, 1601-3

Oxidation of aldose oximes. Formation and structure of hydroxydiazene oxidase acetals and preparation of hydroximolactones. X-ray crystal structure of 2,3,5,6-di-O-isopropylidene- α -D-mannofuranosyl-O,N,N-azoxy 2,3:5,6-di-O-isopropylidene- α -D-mannofuranoside, 2139-47

SOLVOLYSIS

Iodoazide adducts of exocyclic alkenes; structure and solvolysis, 315-25

Esters of α -arylalkanoic acids from 'masked' α -haloalkyl aryl ketones and silver salts: synthetic, kinetic, and mechanistic aspects, 2575-81

Acid- and base-catalyzed reactions of 4 β ,5 β - and 4 α ,5 α -epoxyandrostane-3,17,19-trione, 2611-15

SOPHORA

Natural benzofurans: synthesis of the arylbenzofuran constituents of *Sophora tomentosa*, 3017-20

SPECTRA

Studies on anhydroosazones. Part 5. Structure and anomeric configuration of the C-nucleoside analogs obtained from the dehydration of D-glucosyl- and D-mannosyl hept-2-ulose phenylosazones, 557-62

The biosynthesis of thiamine. Syntheses of [1,1,1,5-²D₄]-1-deoxy-D-threo-2-pentulose and incorporation of this sugar in biosynthesis of thiazole by *Escherichia coli* cells, 2131-7

Synthesis of γ -aminobutyric acid analogs of restricted conformation. Part 1. The 2-aminocycloalkylacetic acids, 2553-62

Synthesis of γ -aminobutyric acid analogs of restricted conformation. Part 2. The 2-(aminomethyl)cycloalkanecarboxylic acids, 2563-70

SPIRAN

Natural products of Thailand high δ 1-THC-strain *Cannabis*. The bibenzyl-spiran-dihydrophenanthrene group: relations with cannabinoids and canniflavones, 1455-66

Total synthesis of the spirans of *Cannabis*: cannabispiradienone, cannabispirenone-A and -B, Cannabispironone, α - and β -cannabispiranols, and the dihydrophenanthrene cannithrene-1,

SPIRAN(contd)

1477-84

Spirans. Part 15. The effect of ring size upon the regioselective oxidative coupling of heterocyclic phenols, 2617-24

SPIRO

Regioselective ether cleavages of rotenoids: spiro-ether formation and stereoselective isotopic labeling of (E)- or (Z)-prenyl methyl groups in (6aS, 12aS)-rot-2'-enonic acid, 779-88

Photocycloaddition of 1-aminoanthraquinones to dienes by visible light irradiation, 1771-3

Thermal, photochemical, and acid-catalyzed rearrangements of the spiro dimer of α,α' -bis(methoxycarbonyl)-o-quinodimethane. X-ray crystal structure of trans,trans-tetrakis(methoxycarbonyl)dibenzo[a,e]-cyclooctene, 2257-63

Acid-catalyzed lactonization and iodolactonization of norbornene-carboxylic acids, 2461-5

SPIROANNULATION

Cannabis. Part 25. Synthesis of cannabispirenone-B and its 5,7-difluoro analog, 2403-5

SPIROBENZOCYCLOPROPENE

Reactions of spiroindazoles containing keto groups. Part 2. Evidence for a spirobenzocyclopropene intermediate in the thermolysis of anthrone-10-spiro-3'-3'H-indazoles to benz[a]aceanthrylenes, 577-9

SPIROBIBENZOXAPHOSPHOLE

A stable bromoalkoxyphosphorane, a model for the postulated five-coordinate intermediate in the Arbuzov and related reactions 735-40

SPIROBICYCLONONENECYCLOBUTENE

Reactions involving fluoride ion. Part 25. A fluoride-ion-induced skeletal rearrangement, 673-6

SPIROCYCLOHEXADIENEBENZODIOXEPINONE

Oxidation of alkoxyphenols. Part 27. The mechanism of formation of dibenzo[d,f][1,3]dioxepins, 2863-6

SPIROCYCLOHEXADIENEXANTHENDIONE

Oxidation of alkoxyphenols. Part 26. The trimer of a 2,2'-diphenoquinone (1,1'-bicyclohexa-3,5-dienylidene-2,2'-dione), 2855-62

SPIROCYCLOPROPANE

The chemistry of 4-mercaptoazetid-2-ones. Part 4. Synthesis of cyclopropanespiro-2-bisnorpenicillanic acids, 1435-9

SPIROINDAZOLE

Reactions of spiroindazoles containing keto groups. Part 2. Evidence for a spirobenzocyclopropene intermediate in the thermolysis of anthrone-10-spiro-3'-3'H-indazoles to benz[a]aceanthrylenes, 577-9

SPIROPENAM

The chemistry of 4-mercaptoazetid-2-ones. Part 4. Synthesis of cyclopropanespiro-2-bisnorpenicillanic acids, 1435-9

SPIROPTHALIDE

Photochemistry of epoxyquinones. Part 7. Photoinduced cycloaddition of 2,3-dimethyl-2,3-dihydro-2,3-epoxy-1,4-naphthoquinone to olefins, 2671-85

SPIROPYRANOBENZOFURANONE

Spirans. Part 15. The effect of ring size upon the regioselective oxidative coupling of heterocyclic phenols, 2617-24

SPORORMIA

Synthesis of chlorinated isocoumarin derivatives, 1111-15

STABILITYReaction of lithioenamines with sulfite esters. Stereospecific and stereoselective synthesis of β -enamino and β -imino sulfoxides, 1183-6**STEGANONE**

Synthesis of (-)-steganone, 521-5

STEREOCHEM

Asymmetric synthesis with carbohydrates. Part 2. Asymmetric Grignard addition reactions conditioned by chiral magnesium alkoxides, 197-200

Studies of enzyme-mediated reactions. Part 14. Stereochemical course of the formation of cadaverine by decarboxylation of (2S)-lysine with lysine decarboxylase (E.C. 4.1.1.18) from *Bacillus cadaveris*, 449-53Studies of enzyme-mediated reactions. Part 15. Stereochemical course of the formation of γ -aminobutyric acid (GABA) by decarboxylation of (2S)-glutamic acid with glutamate decarboxylase from *Escherichia coli*, 455-9

Organometallic compounds in organic synthesis. Part 13.

Stereoselectivity of complexation of cyclohexadiene esters, 1755-62

Organometallic compounds in organic synthesis. Part 14.

Tricarbonyliron as lateral control group in the selective alkaline hydrolysis of some cyclohexa-1,3-diene carboxylic esters, 1763-9

Stereochemistry of the reduction of 3 β -benzoyloxycholest-5-en-4-one with sodium borohydride, 1937-40

New oxidative systems for alcohols: molecular sieves with chromium(VI) reagents, 1967-73

Nuclear magnetic resonance and x-ray molecular stereochemical studies on 1-benzyltetrahydroisoquinolinium salts, 2067-77

Regio- and stereospecificity of nucleophilic attack on steroidal π -allylpalladium complexes, 2595-7

Photochemistry of epoxyquinones. Part 7. Photoinduced cycloaddition of 2,3-dimethyl-2,3-dihydro-2,3-epoxy-1,4-naphthoquinone to olefins, 2671-85

Stereochemistry of olefin and fatty acid oxidation. Part 1. Autoxidation of hexene and hepta-2,5-diene isomers, 2707-13

Stereochemistry of olefin and fatty acid oxidation. Part 2. Photosensitized oxidation of hexene and hepta-2,5-diene isomers 2715-17

Compounds with bridgehead nitrogen. Part 43. The reaction between trans-2-aminocycloalkane thiols and formaldehyde, 2777-81

Electroorganic reactions. Part 20. Electrogenerated bases, ylide formation, and Wittig alkene synthesis, 2921-6

STEREOSELECTIVE

Asymmetric induction in the reduction of optically active N-alkylidenesulfonamides by metal hydrides. A new, efficient enantioselective route to chiral amines, 339-43

Synthetic studies directed towards complex diterpenoids. Part 15. Synthesis and stereochemistry of the catalytic reduction of $\Delta^{4b(5)}$ -gibbenes and related compounds, 865-73**STEREOSELECTIVITY**

New stereoselective synthesis of 9-methyl-cis-decalin derivatives by double Michael reaction of 3-methyl-4-methylenecyclohex-2-enone and its congeners with dimethyl 3-oxoglutarate, 25-30

Synthesis of the four stereoisomers of 4-aminoadamantane-2-carboxylic acid, rigid analogs of γ -aminobutyric acid, 73-7

Reaction of 1-substituted indenyls with diborane or N-bromoacetamide in protic solvents. The effect of the substituent on the stereochemistry of addition, 79-83

Synthesis of (R,S)-(5Z,8E,10E)-12-hydroxyheptadeca-5,8,10-trienoic acid and of (R,S)- and (S)-(5Z,8Z,10E,14Z)-12-hydroxyeicosa-5,8,10,14-tetraenoic acid and their racemic 5,6,8,9-tetra-deuterioisomers, 545-52

On the stereochemistry of Grignard addition to bicyclo[3.3.1]nonan-2-one. Preferential axial attack on a cyclohexanone system by a bulky nucleophile, 979-82

Stereoselective olefin cyclization mediated by the selenyl group; direct formation of a selenyl caparapi oxide, 1085-7

Reaction of lithioenamines with sulfite esters. Stereospecific and stereoselective synthesis of β -enamino and β -imino sulfoxides, 1183-6

Synthetic enzymes. Part 2. Catalytic asymmetric epoxidation by means of polyamino acids in a triphase system, 1317-24

Cyclization of $\gamma\delta$ -unsaturated sulfenic acids to give thietane 1-oxide derivatives. Crystal structure of rel-(1R,2S,3R,4R)-3-hexyl-2-(hydroxymethyl)-4-methylthietane 1-oxide, 1325-32

Synthesis of some thietanoprostanoids, 1333-42

Dye-sensitized photooxygenation of the *Aspidosperma* alkaloids vincadifformine and tabersonine. A new, convenient approach to vincamine, 1371-9

Studies in metal-ammonia reduction. Part 4. Reduction and reductive methylation of 7-methoxy-3,4-dihydrophenanthren-1(2H)-one and 7-methoxy-1,2-dihydrophenanthren-4(3H)-one, 1381-4

The reaction of copper(II) complexes of glycine imines with activated olefins, 1827-31

Synthesis of adamantane derivatives. Part 53. Simple synthesis of 7-thiaprotoadamantane (7-thiatricyclo[4.3.1.0^{3,8}]decane) and related derivatives via a regioselective and stereoselective intramolecular Friedel-Crafts reaction, 1953-8

Halogenated enolates. Synthesis of 2-deoxypentose derivatives from D-glyceraldehyde, 2063-6

Crown ethers as molecular bromine carriers for bromination reactions, 2153-6

Control of regioselectivity in the addition of sulfenyl chlorides to 3,3-dimethylbutyne (tert-butylacetylene) as a method for differential functionalization of triple bonds, 2197-201

STEREOSPECIFIC

- Synthesis and NMR spectra of 2,6- and 2,4-diaryl-3,7-dioxabicyclo[3.3.0]octanes, 183-90
- Studies of enzyme-mediated reactions. Part 15. Stereochemical course of the formation of γ -aminobutyric acid (GABA) by decarboxylation of (2S)-glutamic acid with glutamate decarboxylase from *Escherichia coli*, 455-9
- 1,3,2-Oxazaphospholidine-2-thiones from (+)-norephedrine: stereospecific ring opening, possibly by an elimination-addition mechanism, 639-43
- Synthetic studies on terpenoids. Part 6. Synthesis of (\pm)-4,13-dimethyl-13-vinylpodocarp-8(14)-en-4 α - and -4 β -ols, 1959-62
- Cross-linked poly-(4-vinylpyridine-styrene)-bromine complexes as stereoselective brominating agents, 2059-62

STEREOSPECIFICITY

- Synthesis of optically pure (R,Z)-5-dec-1-enyloxacyclopentan-2-one, the sex pheromone of the Japanese beetle, 69-71
- Synthesis of (-)-steganone, 521-5
- Biosynthesis of rotenoids by *Amorpha fruticosa*: sequence, specificity, and stereochemistry in the development of the hemiterpenoid segment, 789-97
- A stereospecific synthesis of (+)-muscarine, 809-13
- Evidence for the biogenesis of 1 α -hydroxy-trans-eudesmanolides, 881-4
- Biosynthesis of aristolochic acid, 1153-5
- Addition reactions of aminium radicals: oxidative and nonoxidative photoaddition of nitrosoamines to nonconjugated polyenes, 1419-28
- Synthetic studies on terpenoids. Part 6. Synthesis of (\pm)-4,13-dimethyl-13-vinylpodocarp-8(14)-en-4 α - and -4 β -ols, 1959-62
- Anthracyclines. Part 3. The total synthesis of 4-demethoxydaunomycin, 2249-55
- Transition-metal mediated asymmetric synthesis. Part 3. Preparation and stereospecific alkylation of unsymmetrically substituted tricarbonyl(cyclohexadienyl)iron(1+) salts: an organometallic approach to the synthesis of carvone, cryptomerin, and bilobanone, 2449-56

STERIC

- Reaction of 1-substituted indenenes with diborane or N-bromoacetamide in protic solvents. The effect of the substituent on the stereochemistry of addition, 79-83
- Steric factors in heterocyclic rearrangements. N-Methyl-N-phenylhydrazones of 3-benzoyl-5-phenyl-1,2,4-oxadiazole, 165-7
- Preparation and reactions of pyridones: steric and electronic effects on cycloadditions with 2(1H)-pyridones, 169-73
- Carbene insertion into [2.2]metacyclophane-1,10-dione: a convenient route to [3.2]- and [3.3]-metacyclophanes, 477-81
- Vicinal multifunctional compounds. Tautomerism and isomerism in the condensation products of 2-hydroxyimino-3-oxobutanal or 3-hydroxyiminopentane-2,4-dione with benzylamines, 1013-18
- Alkylated steroids. Part 5. Formation of 17 β -acetylenic steroids from hindered 20-oxo compounds via Grignard derived enolates 1079-84
- Organometallic compounds in organic synthesis. Part 13. Stereoselectivity of complexation of cyclohexadiene esters, 1755-62
- Organometallic compounds in organic synthesis. Part 14. Tricarbonyliron as lateral control group in the selective alkaline hydrolysis of some cyclohexa-1,3-diene carboxylic esters, 1763-9
- Reactions of 1-alkoxycarbonylpyridinium salts with nucleophiles: stereoelectronic restrictions on carbonyl activation of α -nucleophilic attack, 2365-8
- Solution photochemistry of 4-alkylidene-3,3,5,5-tetramethyl- Δ^1 -pyrazolines, 2647-53

STERICALLY

- Synthesis and properties of a series of sterically hindered guanidine bases, 2085-90

STEROID

- Electrophilic fluorination of some steroidal α,β -unsaturated ketones 1105-10
- A practical catalytic method for the preparation of steroidal 1,4-dien-3-ones by oxygen atom transfer from iodoxybenzene to diphenyl diselenide, 1947-52
- Photoinduced transformations. Part 63. Photorearrangement of 17 β -acetoxy-4,4-dimethylestr-5-en-3 β -yl nitrite with monochromatic light, 1963-6
- Regio- and stereospecificity of nucleophilic attack on steroidal π -

allylpalladium complexes, 2595-7

- Preparation and reactions of steroidal cross-conjugated 3-nitrones, 2599-606
- Acid- and base-catalyzed reactions of 4 $\beta,5\beta$ - and 4 $\alpha,5\alpha$ -epoxyandrosterane-3,17,19-trione, 2611-15
- Organoiron complexes in organic synthesis. Part 23. New strategies for steroid and aphidicolane synthesis, 2631-9

STEROIDAL

- Dehydrogenation of lactones using benzeneseleninic anhydride. X-ray crystal structure of 3 β -acetoxy-14 α -hydroxy-17 α -oxa-D-homo-5 α -androst-15-en-17-one, 1919-22

STILBENE

- Electroorganic reactions. Part 20. Electrogenated bases, ylide formation, and Wittig alkene synthesis, 2921-6
- A new phenanthrene synthesis, 3007-10

STILBENECARBOXYLATE

- Formation of some 3-aryl-3,4-dihydroisocoumarins by thermal ring closure of stilbene-2-carboxylic acids, 2819-25

STYRENE

- Synthetic enzymes. Part 2. Catalytic asymmetric epoxidation by means of polyamino acids in a triphase system, 1317-24
- Preparation and reactions of 3-phenyl-4 $\alpha,5,6,8\alpha$ -tetrahydro-4H-1,2-benz[e]oxazines, 1891-5

STYRYLAZETIDINONE

- Synthesis of (2RS,5RS,6SR)-3-methoxycarbonyl-7-oxo-6-phenoxycetamido-1-azabicyclo[3.2.0]hept-3-ene-2-carboxylic acid, 2123-9

STYRYLMORPHOLINE

- The enamine route to 2-morpholinoisoflav-3-ene, 1193-6

SUBSTANCE

- Quinones. Part 2. General synthetic routes to quinone derivatives with modified polyprenyl side chains and the inhibitory effects of these quinones on the generation of the slow reacting substance of anaphylaxis (SRS-A), 2909-20

SUBSTITUENT

- Ring transformation of 3-(2-aminoaryl)-1,2,4-oxadiazoles into 3-acylaminoindazoles; extension of the Boulton-Katritzky scheme, 759-66
- Synthetic studies directed towards complex diterpenoids. Part 15. Synthesis and stereochemistry of the catalytic reduction of $\Delta^{4b(5)}$ -gibbenes and related compounds, 865-73
- Lewis acid-catalyzed reactions of aryl cyclopropyl ketones. Scope and mechanism, 1029-35
- Organoiron complexes in organic synthesis. Part 21. Methods for controlling the regioselectivity of nucleophile addition to tricarbonyl(cyclohexadienyl)iron complexes, 1527-34
- Photosensitized oxidation of furans. Part 4. Influence of the substituents on the behavior of the endo-peroxides of furans, 2007-12
- Stereochemical and mechanistic aspects of the base-promoted cyclization of o-vinylphenylhydrazonyl chlorides under phase-transfer conditions, 2041-4
- Esters of α -arylalkanoic acids from 'masked' α -haloalkyl aryl ketones and silver salts: synthetic, kinetic, and mechanistic aspects, 2575-81

SUBSTITUTED

- 1,2,3-Triazoles produced from 5-substituted N-methoxytriazolium salts, 2749-56

SUBSTITUTION

- Preparation and reactions of pyrylium salts containing α -pyridyl groups, 125-30
- Photolysis of quinolyl and isoquinolyl azides in primary and secondary aliphatic amines: synthesis of bicyclic azepines, diazepines, and quinolyl- and isoquinolyl diamines, 421-9
- Photolysis of quinolyl and isoquinolyl azides in the presence of methoxide ions. Synthesis of benzodiazepines and pyridoazepines 431-3
- Indole β -nucleophilic substitution. Part 3. Synthesis of four isomeric pyrido[x',y':5,6]oxepino[3,2-b]indolones, 435-9
- Organoiron complexes in organic synthesis. Part 18. Spiroannulation reactions of some bifunctional tricarbonyl(cyclohexadienyl)iron hexafluorophosphate salts, 489-97
- Photolysis of quinolyl azides in aliphatic thiols. Synthesis of o-alkylthioquinolylamine, 671-2
- Novel reagent system for converting a hydroxy group into an iodo group in carbohydrates with inversion of configuration. Part 3, 681-3
- Synthesis of alkanesulfonyl chlorides from alkylcobaloximes and trichloromethanesulfonyl chloride, 849-54

SUBSTITUTION(contd)

- Ylide formation and rearrangement in the thermal reaction of 6H-dibenzo[b,d]thiopyran and its 6-phenyl derivative with diazo alkanes, 917-22
- Electrophilic aromatic substitution of catechins: bromination and benzylation, 973-8
- Cobaloximes. Part 3. A cobaloxime synthesis for use with reactive alkyl halides, 1025-8
- Ketene silyl acetal chemistry; simple synthesis of methyl jasmonate and related compounds by utilising ketene methyl dimethyl-tert-butylsilyl acetal, 1099-104
- 4-(1,2,4-Triazol-1-yl)- and 4-(3-nitro-1,2,4-triazol-1-yl)-1-(β -D-2,3,5-tri-O-acetyl-arabinofuranosyl)pyrimidin-2(1H)-ones. Valuable intermediates in the synthesis of derivatives of 1-(β -D-arabinofuranosyl)cytosine (ara-C), 1171-6
- Reaction of lithioenamines with sulfite esters. Stereospecific and stereoselective synthesis of β -enamino and β -imino sulfoxides, 1183-6
- Heterocyclic polyfluoro-compounds. Part 39. Preparation and some nucleophilic substitution reactions of trifluoro-1,2,4-triazine, 1251-4
- Reaction between 2,2'-anhydro-1- β -D-arabinofuranosyluracil and thiolate ions, 1625-8
- Organometallic compounds in organic synthesis. Part 12. Methods of determination of the stereochemistry of tricarbonylcyclohexa-1,3-dieneiron complexes, 1745-53
- The synthesis and reactions of 4H-tetrazolo[5,1-c][1,4]benzothiazines, 1879-84
- Synthesis of substituted dibenzophospholes. Part 4. Chemical transformations of 4,6-diaryl-3,7-dialkoxydibenzophosphole 5-oxides, 2333-9
- Regio- and stereospecificity of nucleophilic attack on steroidal π -allylpalladium complexes, 2595-7
- 1,2,3-Triazoles produced from 5-substituted N-methoxytriazolium salts, 2749-56
- Practicable syntheses of 2-hydroxymethyl-substituted benzimidazoles and 2-formylbenzimidazole, 2871-5
- Polyhaloaromatic compounds. Part 48. Reactions of tetrachloro-4-cyanopyridine with mono- and bifunctional nucleophiles, 2897-900
- SUGAR**
- Arylazoglycosides. Part 7. Syntheses of amino sugars from methyl arylazohexenopyranosides, 205-14
- Synthesis of ribosyl and arabinosyl cyanides by reaction of 1-O-acyl sugars with trimethylsilyl cyanide, 903-7
- The biosynthesis of thiamine. Syntheses of [1,1,1,5-²d₄]-1-deoxy-D-threo-2-pentulose and incorporation of this sugar in biosynthesis of thiazole by *Escherichia coli* cells, 2131-7
- Convenient syntheses of L-digitoxose, L-cymarose, and L-ristosamine, 2583-7
- Isolation and crystal structure of an arsenic-containing sugar sulfate from the kidney of the giant clam, *Tridacna maxima*. X-ray crystal structure of (2S)-3-[5-deoxy-5-(dimethylarsinoyl)- β -D-ribofuranosyloxy]-2-hydroxypropyl hydrogen sulfate, 2989-93
- SULFAMATE**
- Versatile synthesis of sulfamate esters by phase-transfer methods, 677-9
- SULFAMOYL**
- Versatile synthesis of sulfamate esters by phase-transfer methods, 677-9
- SULFATE**
- Isolation and crystal structure of an arsenic-containing sugar sulfate from the kidney of the giant clam, *Tridacna maxima*. X-ray crystal structure of (2S)-3-[5-deoxy-5-(dimethylarsinoyl)- β -D-ribofuranosyloxy]-2-hydroxypropyl hydrogen sulfate, 2989-93
- SULFENYL**
- Control of regioselectivity in the addition of sulfenyl chlorides to 3,3-dimethylbutyne (tert-butylacetylene) as a method for differential functionalization of triple bonds, 2197-201
- SULFIDE**
- Approaches to bridged thia[17]annulenes, 483-7
- Polymer-supported periodate and iodate as oxidizing agents, 509-11
- Chemistry of hop constituents. Part 43. Cyclic polysulfides and a thiophene from myrcene, and their occurrence in the essential oil of hops, 1089-94
- Gas-liquid phase-transfer synthesis of phenyl ethers and sulfides with carbonate as base and carbowax as catalyst, 1137-41
- 1,3-Acyl migration in carbonic acid derivatives. Synthesis of S-polyhaloalkyl N-acyl-N-aryl(alkyl)thiocarbamates, 2813-17
- Synthesis of 4- and 5-(1,3-dimethylbut-2-enylthio)-2,6-dimethylocta-2,6-diene, models for sulfur crosslinks in natural rubber, 3027-30
- SULFINIC**
- Studies related to penicillins. Part 21. β -Elimination reactions of S,S-dioxides of penicillanic esters, 595-602
- SULFINYL**
- Heterocyclic syntheses with malonyl dichloride. Part 13. 6-Chloro-4-hydroxy-2-oxopyran-3-carboxanilides from N-sulfinylanilines and further reaction of malonyl dichloride with thiocyanates, 1575-8
- SULFINYLANILINE**
- Heterocyclic syntheses with malonyl dichloride. Part 13. 6-Chloro-4-hydroxy-2-oxopyran-3-carboxanilides from N-sulfinylanilines and further reaction of malonyl dichloride with thiocyanates, 1575-8
- SULFYLATION**
- A mild and efficient degradation of ring A of steroids, 513-16
- SULFONATE**
- A novel and chemoselective preparation of chlorosulfonyl-containing azo dyes with phosphoryl chloride-N,N-dimethylacetamide, 1519-22
- SULFONE**
- A mild and efficient degradation of ring A of steroids, 513-16
- SULFONIUM**
- 1H-1,4-Benzothiazines. New cyclic sulfonium ylides, 831-4
- SULFOXIDE**
- Polymer-supported periodate and iodate as oxidizing agents, 509-11
- Reaction of lithioenamines with sulfite esters. Stereospecific and stereoselective synthesis of β -enamino and β -imino sulfoxides, 1183-6
- Cycloelimination of β -silylethyl sulfoxides: alkene, alkyne, and vinylsilane forming reactions, 1563-9
- SULFUR**
- Synthesis of 4- and 5-(1,3-dimethylbut-2-enylthio)-2,6-dimethylocta-2,6-diene, models for sulfur crosslinks in natural rubber, 3027-30
- SULFURATION**
- Preparation and reactions of steroidal cross-conjugated 3-nitrones, 2599-606
- SUPPORT**
- Polymer-supported periodate and iodate as oxidizing agents, 509-11
- SWARTZIA**
- Synthesis of chlorinated isocoumarin derivatives, 1111-15
- SYLVECARVONE**
- Transition-metal mediated asymmetric synthesis. Part 3. Preparation and stereospecific alkylation of unsymmetrically substituted tricarbonyl(cyclohexadienyl)iron(1+) salts: an organometallic approach to the synthesis of carvone, cryptomerin, and bilobanone, 2449-56
- SYNTHESIS**
- Synthesis of 2,6-diaryl-4,8-dihydroxy-3,7-dioxabicyclo[3.3.0]octanes, 175-81
- Total synthesis of (\pm)-picropodophyllone, 271-6
- Preparation of kaurenolide and its 5 α ,6 α (H)-isomer, 517-19
- Synthesis of (-)-steganone, 521-5
- Chemistry of 6H-pyrido[4,3-b]carbazoles. Part 9. An efficient route to 3-[1-(3-ethylpyridyl)]indoles and the synthesis of some new ellipticines, 587-90
- Total syntheses of wyerone and dihydrowyerone, phytoalexins from the broad bean, *Vicia faba* L., using the dianion derived from 3-(2-furyl)acrylic acid, 623-6
- Gibberellins A₆₀, A₆₁, and A₆₂: partial syntheses and natural occurrence, 689-97
- 18-Substituted steroids. Part 10. Synthesis of 16 α ,18,21-trihydroxypregn-4-ene-3,20-dione (16 α ,18-dihydroxy-11-deoxycorticosterone), 723-8
- A stereospecific synthesis of (+)-muscarine, 809-13
- Ketene silyl acetal chemistry; simple synthesis of methyl jasmonate and related compounds by utilising ketene methyl dimethyl-tert-butylsilyl acetal, 1099-104
- Synthesis of chlorinated isocoumarin derivatives, 1111-15
- Dihydrostilbenes of Cannabis. Synthesis of canniprene, 1467-75
- Total synthesis of the spirans of Cannabis: cannabispiradienone,

SYNTHESIS(contd)

- cannabispirenone-A and -B, Cannabispirone, α - and β -cannabispiranols, and the dihydrophenanthrene cannithrene-1, 1477-84
- Naturally occurring dibenzofurans. Part 1. A synthesis of cannabifuran, 1605-10
- Synthesis of ambrettolide from phloionolic acid, 1837-9
- Experiments towards the synthesis of the ergot alkaloids and related structures. Part 4. Lysergic acid - an attempted 'endo-amide' approach, 1897-903
- Necic acid synthons. Part 1. Total synthesis of integerrineic acid, 2079-83
- A new synthesis of kigelin. Conversion of elemicin into kigelin, 2099-100
- Anthracyclines. Part 3. The total synthesis of 4-demethoxydaunomycin, 2249-55
- Naturally occurring dibenzofurans. Part 2. The synthesis of schizopeltic acid, 2373-7
- A novel synthesis of the 2-benzylisoquinoline alkaloids sendaverine and corgoine with aziridinium salts as reactive intermediates, 2399-401
- Organoiron complexes in organic synthesis. Part 22. Total synthesis of (\pm)-limaspermine and formal synthesis of (\pm)-aspidospermine using organoiron complexes, 2467-76
- Synthetic studies on terpenoids. Part 7. Synthetic studies leading to the total synthesis of eudesmane sesquiterpenes, 2547-51
- Convenient syntheses of L-digitoxose, L-cymarose, and L-ristosamine, 2583-7
- Organoiron complexes in organic synthesis. Part 23. New strategies for steroid and aphidicolane synthesis, 2631-9
- Synthesis of sesquiterpenes occidantalol, chamaecynone, and related compounds characterized by a cis-eudesmane structure, 2849-53
- Synthesis of oct-1-ene-2,8-d₂, 2901-2
- Electroorganic reactions. Part 20. Electrogenated bases, ylide formation, and Wittig alkene synthesis, 2921-6
- A facile total synthesis of (\pm)-cherylline via an aziridinium intermediate, 2935-7
- Asymmetric synthesis of a β -ketol moiety via 3,5-disubstituted isoxazoles: application to (+)-S-[6]-gingerol, 2983-7
- Natural benzofurans: synthesis of the arylbenzofuran constituents of *Sophora tomentosa*, 3017-20
- SYNTHETASE**
A chemical model for the thymidylate synthetase catalyzed methylation of deoxyuridine monophosphate, 1363-9
- SYNTHON**
Necic acid synthons. Part 1. Total synthesis of integerrineic acid, 2079-83
- Organoiron complexes in organic synthesis. Part 23. New strategies for steroid and aphidicolane synthesis, 2631-9
- A fragmentation approach to a maytansine synthon: lithium dimethylcuprate-opening of substituted cyclohexene epoxides. X-ray structure determination of ethyl t-2,3-epoxy-c-6-p-methoxybenzoyloxy-1-methylcyclohexane-r-1-carboxylate, 2885-96
- TABERSONINE**
Dye-sensitized photooxygenation of the *Aspidosperma* alkaloids vincadifformine and tabersonine. A new, convenient approach to vincamine, 1371-9
- TAFRICANIN**
The x-ray structure and absolute configuration of insect antifeedant clerodane diterpenoids from *Teucrium africanum*, 1005-8
- TALOFURANOSYLCYTOSINE**
Synthesis of the two epimeric 5'-methylcytidines, their 5'-phosphates and [5-³H]-5'-pyrophosphates, and the two 5'-methyldeoxycytidines. A novel cytosine anhydronucleoside with two oxygen bridges between the base and the sugar, 385-93
- TANDEM**
Solution conformations of two synthetic analogs of quinoxaline antibiotics, 1041-8
- TANNIN**
Linkage isomerism in trimeric and polymeric 2,3-cis-procyanidins, 1209-16
- TAUTOMERISM**
Tautomerism in 2-trichloro- and 2-trifluoroacetamidothiazoles, 939-43
- Vicinal multifunctional compounds. Tautomerism and isomerism in the condensation products of 2-hydroxyimino-3-oxobutanal or 3-hydroxyiminopentane-2,4-dione with benzylamines, 1013-18
- The chemistry of some bicyclic pyridinium anhydrobases, 1349-53
- TECLEA**
Isolation and identification of three new phenolic furoquinoline alkaloids from *Teclea verdoorniana* Excell and Mendonca (Rutaceae), 909-15
- TECLEAVERDINE**
Isolation and identification of three new phenolic furoquinoline alkaloids from *Teclea verdoorniana* Excell and Mendonca (Rutaceae), 909-15
- TECLEAVERDOORNINE**
Isolation and identification of three new phenolic furoquinoline alkaloids from *Teclea verdoorniana* Excell and Mendonca (Rutaceae), 909-15
- TECLEINE**
Isolation and identification of three new phenolic furoquinoline alkaloids from *Teclea verdoorniana* Excell and Mendonca (Rutaceae), 909-15
- TERPENE**
Chemistry of hop constituents. Part 43. Cyclic polysulfides and a thiophene from myrcene, and their occurrence in the essential oil of hops, 1089-94
- TETRAANTHRANILIDE**
Conformational behavior of medium-sized rings. Part 14. Tetraanthranilides, 1721-6
- TETRAARYL**
Synthesis of β -lactams from imines and 1-lithiooxy-2-phenylacetylene, 2193-6
- TETRABUTYL**
Cyclodienones. Part 6. Preparation of 4-azido-2,4,6-tri-tert-butylcyclohexa-2,5-dienone and its thermal, photochemical, and acid-catalyzed decomposition, 2841-8
- TETRACARBONYL**
Thermal rearrangement reactions of tricarbonyliron lactone complexes, 1355-61
- TETRACHLORO**
Polyhaloaromatic compounds. Part 46. Circumstantial evidence for the intermediacy of radical anions during the reaction of magnesium with ω -bromoalkoxypolychloro-arenes and -heteroarenes, 93-9
- Polyhaloaromatic compounds. Part 48. Reactions of tetrachloro-4-cyanopyridine with mono- and bifunctional nucleophiles, 2897-900
- TETRACHLOROCYANOPYRIDINE**
Polyhaloaromatic compounds. Part 48. Reactions of tetrachloro-4-cyanopyridine with mono- and bifunctional nucleophiles, 2897-900
- TETRAETHYL**
Photochemical reactions of N,N-dialkyl- α -thioamides, 247-8
- TETRAFLUORO**
Partially fluorinated heterocyclic compounds. Part 16. Preparation of furan derivatives from pentafluorophenyl and heptafluoro-2-naphthyl prop-2-ynyl ethers with aromatic compounds, and the isolation of hydrogen-abstraction products, 107-10
- TETRAKISMETHOXYCARBONYL**
Thermal, photochemical, and acid-catalyzed rearrangements of the spiro dimer of α,α' -bis(methoxycarbonyl)-o-quinodimethane. X-ray crystal structure of trans,trans-tetrakis(methoxycarbonyl)dibenzo[a,e]-cyclooctene, 2257-63
- TETRAKISMETHOXYCARBONYLDIBENZOCYCLOOCTENE**
Thermal, photochemical, and acid-catalyzed rearrangements of the spiro dimer of α,α' -bis(methoxycarbonyl)-o-quinodimethane. X-ray crystal structure of trans,trans-tetrakis(methoxycarbonyl)dibenzo[a,e]-cyclooctene, 2257-63
- TETRALONE**
Lewis acid-catalyzed reactions of aryl cyclopropyl ketones. Scope and mechanism, 1029-35
- TETRAMETHYL**
A study of the apicophilicity of the 2-furyl group in five-coordinate phosphoranes, 191-5
- A stable bromoalkoxyphosphorane, a model for the postulated five-coordinate intermediate in the Arbuzov and related reactions 735-40
- Stereoselective olefin cyclization mediated by the selenyl group; direct formation of a selenyl caparrapi oxide, 1085-7
- TETRAOXAPHOSPHASPIROUNDECANE**
A study of the apicophilicity of the 2-furyl group in five-coordinate phosphoranes, 191-5

TETRAZINE

Investigations into the mechanism of the action of alkali in methanol on 3,6-dibenzyl-s-tetrazines and their 1,4-dihydro-derivatives: the role of s-tetrazines as hydride acceptors and an x-ray determination of the structure of 3,6-bis(4-chlorobenzyl)-1,4-dihydro-s-tetrazine, 1165-70

TETRAZOLE

Reactions of norcarane and of norborn-2-ene with iodine(I) azide and iodine(I) chloride, 961-5

TETRAZOLOBENZOTHIAZINE

The synthesis and reactions of 4H-tetrazolo[5,1-c][1,4]benzothiazines, 1879-84

TEUCRIUM

The x-ray structure and absolute configuration of insect antifeedant clerodane diterpenoids from *Teucrium africanum*, 1005-8

THALACTAMINE

Studies on $S_{RN}1$ reactions. Part 6. Synthesis of 3-methyl derivatives of the alkaloids thalactamine, doryanine, and 6,7-dimethoxy-N-methyl-1(2H)-isoquinoline, 1149-52

THALLIUM

Conversion of aromatic ketones into π -arylalkanoic acids. Oxidation by thallium(III) and by halogens, 235-42

Reactions of 1-methyl-4-tert-butylcyclohexene and 1-methylcyclohexene with thallium(I) acetate-iodine, 413-19

THERMOLYSIS

Cyclodienones. Part 8. Hydrolysis of 5-oxo-2,4-di-tert-butylcyclopenta-1,3-dienecarbonitrile, 243-6

Synthesis of 1H-1-benzazepines by thermolysis of 2a,7b-dihydro-3H-cyclobut[b]indoles, 741-8

Azonia-azulene salts. Part 5. Synthesis of 5H-pyrrolo[1,2-a]azepine and of 7H-pyrrolo[1,2-a]azepin-7-one, 1123-30

Photolysis and thermolysis of phenyl azide in acetic acid. Trapping of 1-azacyclohepta-1,2,4,6-tetraene and nucleophilic aromatic substitution, 1269-73

Cyclization of $\gamma\delta$ -unsaturated sulfenic acids to give thietane 1-oxide derivatives. Crystal structure of rel-(1R,2S,3R,4R)-3-hexyl-2-(hydroxymethyl)-4-methylthietane 1-oxide, 1325-32

Synthesis of some thietanoprostanoids, 1333-42

Thermal rearrangement reactions of tricarbonyliron lactone complexes, 1355-61

A chemical model for the thymidylate synthetase catalyzed methylation of deoxyuridine monophosphate, 1363-9

Photosensitized oxidation of furans. Part 4. Influence of the substituents on the behavior of the endo-peroxides of furans, 2007-12

Cyclodienones. Part 6. Preparation of 4-azido-2,4,6-tri-tert-butylcyclohexa-2,5-dienone and its thermal, photochemical, and acid-catalyzed decomposition, 2841-8

THIAANNULENE

Approaches to bridged thia[17]annulenes, 483-7

THIAAZACYCLOPENTAHEPTALENE

Studies of heterocyclic analogs of azulenes. Part 9. Regioselective cycloadditions of 2H-cycloheptathiazol-2-one with acetylenic esters and electron-deficient olefins, 2881-3

THIAAZACYCLOPENTAZULENONE

Studies of heterocyclic analogs of azulenes. Part 9. Regioselective cycloadditions of 2H-cycloheptathiazol-2-one with acetylenic esters and electron-deficient olefins, 2881-3

THIABICYCLOHEPTADECATETRAENDIYNE

Approaches to bridged thia[17]annulenes, 483-7

THIABICYCLONONENECARBONYL

Synthesis of adamantane derivatives. Part 53. Simple synthesis of 7-thiaprotoadamantane (7-thiatriacyclo[4.3.1.0^{3,8}]decane) and related derivatives via a regioselective and stereoselective intramolecular Friedel-Crafts reaction, 1953-8

THIADIAZOLE

Kinetics and mechanism of the reaction of thionyl chloride with substituted acetophenone semicarbazones. The synthesis of 1,2,3-thiadiazoles, 1223-7

Thiadiazoles and thiadiazolines. Part 3. Synthesis of triazol-3-yl- Δ^2 -1,3,4-thiadiazolines and a new synthesis of unsymmetrical 1,3,4-thiadiazoles, 1987-91

Synthesis of annelated 1,3,4,6-thiatiazepines from reaction of cyclic thioureas with 1,4-dichloro-2,3-diazabutadienes, 1999-2005

THIADIAZOLINE

Thiadiazoles and thiadiazolines. Part 3. Synthesis of triazol-3-yl- Δ^2 -1,3,4-thiadiazolines and a new synthesis of unsymmetrical 2,5-disubstituted 1,3,4-thiadiazoles, 1987-91

THIADIAZOLINECARBOXAMIDINE

Thiadiazoles and thiadiazolines. Part 2. Δ^2 -1,3,4-Thiadiazoline-4-carboxamides derived from substituted acyclic thioureas, 1981-6

Thiadiazoles and thiadiazolines. Part 4. Acetylation, hydrolysis, and cyclocondensations of Δ^2 -1,3,4-thiadiazoline- α -carboxamides, 1993-8

THIADIAZOLOPYRIDYLIUMOLATE

Fused mesoionic heterocycles: synthesis of 1,3,4-oxadiazolo[3,2-a]pyridine and 1,3,4-thiadiazolo[3,2-a]pyridine derivatives, 351-5

THIAMINE

The biosynthesis of thiamine. Syntheses of [1,1,1,5-²d₄]-1-deoxy-D-threo-2-pentulose and incorporation of this sugar in biosynthesis of thiazole by *Escherichia coli* cells, 2131-7

THIANONE

Organocuprate conjugate addition reactions of 2,3-dihydrothiin-4-one, its oxide and dioxide, 1177-82

THIAPROTOADAMANTANE

Synthesis of adamantane derivatives. Part 53. Simple synthesis of 7-thiaprotoadamantane (7-thiatriacyclo[4.3.1.0^{3,8}]decane) and related derivatives via a regioselective and stereoselective intramolecular Friedel-Crafts reaction, 1953-8

THIAPYRAN

Structure and reactivity of enamines derived from 5,6-dihydro-2H-thiapyran-3(4H)-one 1,1-dioxide, 2045-50

THIATRIAZEPINE

Synthesis of annelated 1,3,4,6-thiatiazepines from reaction of cyclic thioureas with 1,4-dichloro-2,3-diazabutadienes, 1999-2005

THIAZINE

Studies of heterocyclic chemistry. Part 25. Intramolecular cyclizations of N-acylarylethanethioamides leading to thiazoles, 4H-1,3-thiazines, 4H-pyrido[3,2-e]-1,3-thiazines, and 4H-1,3-benzothiazines, 1239-44

THIAZINETHIONE

Novel synthesis of diimines by the transformation of 1-aryl-4,6-disubstituted pyrimidin-2(1H)-ones, 2149-52

THIAZOLE

Studies of heterocyclic compounds. Part 28. Condensation of 3-substituted 5-phenyl-1,2-dithiolylium salts with 2-amino-N-heterocycles, 499-507

Tautomerism in 2-trichloro- and 2-trifluoroacetamidothiazoles, 939-43

Synthesis of heterocycles using a new immonium salt derived from N,N-dimethylthiourea, 1059-62

Studies of heterocyclic chemistry. Part 25. Intramolecular cyclizations of N-acylarylethanethioamides leading to thiazoles, 4H-1,3-thiazines, 4H-pyrido[3,2-e]-1,3-thiazines, and 4H-1,3-benzothiazines, 1239-44

The biosynthesis of thiamine. Syntheses of [1,1,1,5-²d₄]-1-deoxy-D-threo-2-pentulose and incorporation of this sugar in biosynthesis of thiazole by *Escherichia coli* cells, 2131-7

THIAZOLECARBOXYLATE

The preparation of thiazole-4- and -5-carboxylates, and an infrared study of their rotational isomers, 159-64

THIAZOLIDINONE

Photochemical reactions of N,N-dialkyl- α -thioamides, 247-8

Sulfur extrusion reactions. Part 5. Reactions of monoprotonic thioureas with ethyl α -chloroacetate, ethyl bromomalonate, and ethyl bromocynoacetate, 653-6

THIAZOLINE

Sulfur extrusion reactions. Part 5. Reactions of monoprotonic thioureas with ethyl α -chloroacetate, ethyl bromomalonate, and ethyl bromocynoacetate, 653-6

THIAZOLOAZETIDINONE

Tricyclic products from the reaction between penicillin derived thiazoloneazetidines and ethyl diazoacetate. X-ray structure of methyl 2-[(1R,3S,4R,5S,6S,8R)-3-benzyl-4,5-bismethoxycarbonyl-6-ethoxycarbonyl-9-oxo-7,10-diaza-2-thiatriacyclo[6.2.0.0^{3,7}]decan-10-yl]-3-methylbut-2-enoate, 2169-73

THIAZOLOTHIADIAZOLE

Studies of heterocyclic compounds. Part 28. Condensation of 3-substituted 5-phenyl-1,2-dithiolylium salts with 2-amino-N-heterocycles, 499-507

THIENAMYCIN

Inversion of configuration at C-8 in the olivanic acids: conversion into the thienamycins and other novel derivatives, 3011-16

THIETANE

Cyclization of $\gamma\delta$ -unsaturated sulfenic acids to give thietane 1-oxide

- THIETANE**(contd)
 derivatives. Crystal structure of rel-(1R,2S,3R,4R)-3-hexyl-2-(hydroxymethyl)-4-methylthietane 1-oxide, 1325-32
 Synthesis of some thietanoprostanoids, 1333-42
- THIETANOPROSTANOID**
 Synthesis of some thietanoprostanoids, 1333-42
- THIINONE**
 Organocuprate conjugate addition reactions of 2,3-dihydrothiin-4-one, its oxide and dioxide, 1177-82
- THIO**
 Stereoselective thioglycoside syntheses. Part 4. A new approach to 1,4-linked 1-thiodisaccharides and a synthesis of thiomaltose, 15-18
- THIOACETAL**
 1,2-Disubstituted ethanes as possible precursors for the synthesis of Cannabis spirans, 1485-91
 Studies related to maytansinoids, 1541-51
- THIOACETAMIDE**
 Thiadiazoles and thiadiazolines. Part 3. Synthesis of triazol-3-yl- Δ^2 -1,3,4-thiadiazolines and a new synthesis of unsymmetrical 2,5-disubstituted 1,3,4-thiadiazoles, 1987-91
- THIOAMIDE**
 Thiadiazoles and thiadiazolines. Part 3. Synthesis of triazol-3-yl- Δ^2 -1,3,4-thiadiazolines and a new synthesis of unsymmetrical 2,5-disubstituted 1,3,4-thiadiazoles, 1987-91
- THIOBENZOYLMETHYLENE**
 Studies of heterocyclic compounds. Part 28. Condensation of 3-substituted 5-phenyl-1,2-dithiolylium salts with 2-amino-N-heterocycles, 499-507
- THIOBENZOYLMETHYLENEPYRIDOTHIADIAZOLE**
 Studies of heterocyclic compounds. Part 28. Condensation of 3-substituted 5-phenyl-1,2-dithiolylium salts with 2-amino-N-heterocycles, 499-507
- THIOBENZOYLMETHYLENETHIAZOLOTHIADIAZOLE**
 Studies of heterocyclic compounds. Part 28. Condensation of 3-substituted 5-phenyl-1,2-dithiolylium salts with 2-amino-N-heterocycles, 499-507
- THIOCARBAMATE**
 1,3-Acyl migration in carbonic acid derivatives. Synthesis of S-polyhaloalkyl N-acyl-N-aryl(alkyl)thiocarbamates, 2813-17
- THIOCHROMANONE**
 Ring contractions of thiochroman-4-ones and thiochromen-4-ones 395-402
- THIOCHROMENONE**
 Ring contractions of thiochroman-4-ones and thiochromen-4-ones 395-402
- THIOCYANATE**
 Heterocyclic syntheses with malonyl dichloride. Part 13. 6-Chloro-4-hydroxy-2-oxopyran-3-carboxanilides from N-sulfinylanilines and further reaction of malonyl dichloride with thiocyanates, 1575-8
 Heterocyclic syntheses with malonyl chloride. Part 14. A direct synthesis of 4,6-dichloropyrimidines with 5-benzyl or -phenyl and 2-thioalkyl or -thiophenyl substituents, 2499-503
- THIODISACCHARIDE**
 Stereoselective thioglycoside syntheses. Part 4. A new approach to 1,4-linked 1-thiodisaccharides and a synthesis of thiomaltose, 15-18
- THIOGLUCOPYRANOSE**
 Stereoselective thioglycoside syntheses. Part 4. A new approach to 1,4-linked 1-thiodisaccharides and a synthesis of thiomaltose, 15-18
- THIOGLUCOSE**
 Stereoselective thioglycoside syntheses. Part 4. A new approach to 1,4-linked 1-thiodisaccharides and a synthesis of thiomaltose, 15-18
- THIOINDIGO**
 Ring contractions of thiochroman-4-ones and thiochromen-4-ones 395-402
- THIOINDIRUBIN**
 Ring contractions of thiochroman-4-ones and thiochromen-4-ones 395-402
- THIOL**
 Photolysis of quinolyl azides in aliphatic thiols. Synthesis of o-alkylthioquinolylamine, 671-2
 Gas-liquid phase-transfer synthesis of phenyl ethers and sulfides with carbonate as base and carbowax as catalyst, 1137-41
 Preparation of 6 α -monosubstituted and 6,6-disubstituted penicillanates from 6-diazopenicillanates: reactions of 6-diazopenicillanates with alcohols, thiols, phenylseleninyl compounds, and allylic sulfides, and their analogs, 2757-66
 Compounds with bridgehead nitrogen. Part 43. The reaction between trans-2-aminocycloalkane thiols and formaldehyde, 2777-81
- THIOLATE**
 Reaction between 2,2'-anhydro-1- β -D-arabinofuranosyluracil and thiolate ions, 1625-8
- THIOMALTOSE**
 Stereoselective thioglycoside syntheses. Part 4. A new approach to 1,4-linked 1-thiodisaccharides and a synthesis of thiomaltose, 15-18
- THIOMETHOXYCARBONYL**
 Synthesis of heterocycles using a new immonium salt derived from N,N-dimethylthiourea, 1059-62
- THIOMETHYLIMMONIUM**
 Synthesis of heterocycles using a new immonium salt derived from N,N-dimethylthiourea, 1059-62
- THIONATION**
 Studies of heterocyclic compounds. Part 28. Condensation of 3-substituted 5-phenyl-1,2-dithiolylium salts with 2-amino-N-heterocycles, 499-507
- THIONE**
 Preparation and reactions of steroidal cross-conjugated 3-nitrones, 2599-606
- THIONYL**
 Kinetics and mechanism of the reaction of thionyl chloride with substituted acetophenone semicarbazones. The synthesis of 1,2,3-thiadiazoles, 1223-7
- THIOPHENE**
 Approaches to bridged thia[17]annulenes, 483-7
 Chemistry of hop constituents. Part 43. Cyclic polysulfides and a thiophene from myrcene, and their occurrence in the essential oil of hops, 1089-94
- THIOPHOSPHORODICHLORIDATE**
 1,3,2-Oxazaphospholidine-2-thiones from (+)-norephedrine: stereospecific ring opening, possibly by an elimination-addition mechanism, 639-43
- THIOSEMICARBAZIDE**
 Thiadiazoles and thiadiazolines. Part 3. Synthesis of triazol-3-yl- Δ^2 -1,3,4-thiadiazolines and a new synthesis of unsymmetrical 2,5-disubstituted 1,3,4-thiadiazoles, 1987-91
- THIOUREA**
 The preparation of thiazole-4- and -5-carboxylates, and an infrared study of their rotational isomers, 159-64
 Sulfur extrusion reactions. Part 5. Reactions of monoprotic thioureas with ethyl α -chloroacetoacetate, ethyl bromomalonate, and ethyl bromocynoacetate, 653-6
 Thiadiazoles and thiadiazolines. Part 2. Δ^2 -1,3,4-Thiadiazoline-4-carboxamides derived from substituted acyclic thioureas, 1981-6
 Synthesis of annelated 1,3,4,6-thiatriazepines from reaction of cyclic thioureas with 1,4-dichloro-2,3-diazabutadienes, 1999-2005
 Synthesis and properties of a series of sterically hindered guanidine bases, 2085-90
- THIOXO**
 Photochemical reactions of N,N-dialkyl- α -thioxoamides, 247-8
- THIOXOIMIDAZOLINYLDIAZABUTADIENE**
 Synthesis of annelated 1,3,4,6-thiatriazepines from reaction of cyclic thioureas with 1,4-dichloro-2,3-diazabutadienes, 1999-2005
- THYMIDYLATE**
 A chemical model for the thymidylate synthetase catalyzed methylation of deoxyuridine monophosphate, 1363-9
- THYMINE**
 Intramolecular cyclization reactions in aliphatic thymidine analogs series, 223-7
 A chemical model for the thymidylate synthetase catalyzed methylation of deoxyuridine monophosphate, 1363-9
- TIN**
 Lewis acid-catalyzed reactions of aryl cyclopropyl ketones. Scope and mechanism, 1029-35
- TITANIUM**
 Depsidone synthesis. Part 21. A new synthesis of grisa-2',5'-diene-3,4'-diones, 403-11
 Necic acid synthons. Part 1. Total synthesis of integerrineic acid, 2079-83

TOLUENE

Addition reactions of benzo[b]thiophene. Part 4. Reactions of some acetoxy- and hydroxybenzo[b]thiophenes with benzene or toluene, 815-21

Control of regioselectivity in the addition of sulfenyl chlorides to 3,3-dimethylbutyne (tert-butylacetylene) as a method for differential functionalization of triple bonds, 2197-201

Photochemistry of halogenated benzene derivatives. Part 2. Photoreactions of α -substituted p-chlorotoluenes, 2957-61

TOLUENESULFINATE

Asymmetric induction in the reduction of optically active N-alkylidenesulfonamides by metal hydrides. A new, efficient enantioselective route to chiral amines, 339-43

Reaction of lithioenamines with sulfite esters. Stereospecific and stereoselective synthesis of β -enamino and β -imino sulfoxides, 1183-6

TOLUENESULFONATE

Preparation of kaurenolide and its 5 α ,6 α (H)-isomer, 517-19

TOLUENETHIOL

4-(1,2,4-Triazol-1-yl)- and 4-(3-nitro-1,2,4-triazol-1-yl)-1-(β -D-2,3,5-tri-O-acetyl arabinofuranosyl)pyrimidin-2(1H)-ones. Valuable intermediates in the synthesis of derivatives of 1-(β -D-arabinofuranosyl)cytosine (ara-C), 1171-6

TOLUIDINE

Ketenimine chemistry. Part 1. The reaction of triaryl ketenimines with arenosulfonyl chlorides, 1255-6

TOLYL

A mild and efficient degradation of ring A of steroids, 513-16
The chemistry of some bicyclic pyridinium anhydrobases, 1349-53

TOLYLSULFONYL

A mild and efficient degradation of ring A of steroids, 513-16
Conversion of toluenesulfonyl hydrazones of α -halo aldehydes and ketones into the corresponding phenylthio and phenylseleno derivatives, 2719-24

TOLYLSULFONYLATION

Synthesis of 2,6-diaryl-4,8-dihydroxy-3,7-dioxabicyclo[3.3.0]octanes, 175-81

TOLYLSULFONYLMETHOXYCYCLOHEXADIENYLIRON

Organoiron complexes in organic synthesis. Part 18. Spiroannellation reactions of some bifunctional tricarboxyl(cyclohexadienyl)iron hexafluorophosphate salts, 489-97

TOLYLSULFONYLOXY

Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ξ)-fluoro-25-hydroxyvitamin D₃, 85-91

TOLYLSULFONYLOXYCHOLENECARBOXYLATE

Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ξ)-fluoro-25-hydroxyvitamin D₃, 85-91

TOLYLTHIOBUTENE

Control of regioselectivity in the addition of sulfenyl chlorides to 3,3-dimethylbutyne (tert-butylacetylene) as a method for differential functionalization of triple bonds, 2197-201

TOWNSEND

Synthesis of oct-1-ene-2,8-d₂, 2901-2

TRANSFER

Synthetic and mechanistic aspects of gas-liquid phase-transfer catalysis: carboxylate esters, 993-7

TRANSFORMATION

Pyrimidine derivatives and related compounds. Part 42. Isolation of the intermediates in the ring transformation of 1,3-oxazine-2,4-diones into pyrimidines and pyrazoles, and their structure determination by nitrogen-15 nuclear magnetic resonance analysis, 473-5

TRANSMETALATION

Reactions of organothallium compounds with diborane, 2949-51

TRANSPORT

N-Bridged heterocycles. Part 5. α,ω -Bis(2-oxobenzimidazolyl)alkanes and -ethers as selective ligands for Group IA and IIA metals, 261-70

Active and passive transport of amino acid and oligopeptide derivatives by artificial ionophore-potassium ion complexes, 2359-63

Photoresponsive crown ethers. Part 6. Ion transport mediated by photoinduced cis-trans interconversion of azobis(benzocrown ethers), 2735-9

TRAP

Nitroxide chemistry. Part 20. N,N-Bis(trifluoromethyl)hydroxyla-

mine as a carbocation trapping agent, 835-9

TRIACETYL

Novel reagent system for converting a hydroxy group into an iodo group in carbohydrates with inversion of configuration. Part 3, 681-3

TRIALKYL

Lithiations of 1-trialkylsilylpyrroles: nitrogen to carbon silyl group rearrangement, 1833-6

TRIALKYLSILYL

Lithiations of 1-trialkylsilylpyrroles: nitrogen to carbon silyl group rearrangement, 1833-6

TRIANTHRANILIDE

Conformational behavior of medium-sized rings. Part 11.

Dianthranilides and trianthranilides, 1649-99

Conformational behavior of medium-sized rings. Part 12. Tri-3-methyltrianthranilide, 1701-14

TRIARYL

A stable bromoalkoxyphosphorane, a model for the postulated five-coordinate intermediate in the Arbuzov and related reactions 735-40

TRIARYLMETHYLPHOSPHONIUM

A stable bromoalkoxyphosphorane, a model for the postulated five-coordinate intermediate in the Arbuzov and related reactions 735-40

TRIAZADIENE

Thermal reaction of N-(1-azido-2-oxoalkylidene)-N'-(*o*-alkenylxyphenyl)hydrazines; intramolecular 1,4-cycloaddition of 1,2,4-triaza-1,3-diene intermediates, 755-8

TRIAZAMETACYCLOPHANETRIONE

Conformational behavior of medium-sized rings. Part 15. 1,19,17-Triaza[2.2.2]metacyclopentane-2,10,18-trione derivatives, 1727-32

TRIAZAPENTADIENE

The thermolysis of polyazapentadienes. Part 2. Formation of quinoxalines from 5-aryl-1-phenyl-1,2,5-triazapentadienes, 1941-5

TRIAZATRICYCLONONADIENE

Heterocyclic polyfluoro compounds. Part 40. Preparation of polyfluoroazepines, 2101-4

TRIAZINE

Synthesis of heterocycles using a new immonium salt derived from N,N-dimethylthiourea, 1059-62

Heterocyclic polyfluoro-compounds. Part 37. Diels-Alder reactions of trichloro- and trifluoro-1,2,4-triazine, 1245-9

Heterocyclic polyfluoro-compounds. Part 39. Preparation and some nucleophilic substitution reactions of trifluoro-1,2,4-triazine, 1251-4

TRIAZINEDIONE

Heterocyclic polyfluoro-compounds. Part 39. Preparation and some nucleophilic substitution reactions of trifluoro-1,2,4-triazine, 1251-4

TRIAZINOBENZOXAZINE

Thermal reaction of N-(1-azido-2-oxoalkylidene)-N'-(*o*-alkenylxyphenyl)hydrazines; intramolecular 1,4-cycloaddition of 1,2,4-triaza-1,3-diene intermediates, 755-8

TRIAZINYL

Triazines and related products. Part 25. Methods for the attachment of sugar residues to cytotoxic 1,3,5-triazines, 1821-5

TRIAZINYLAMMONIUM

Triazines and related products. Part 25. Methods for the attachment of sugar residues to cytotoxic 1,3,5-triazines, 1821-5

TRIAZINYLGLUCOFURANOSE

Triazines and related products. Part 25. Methods for the attachment of sugar residues to cytotoxic 1,3,5-triazines, 1821-5

TRIAZOLE

Steric factors in heterocyclic rearrangements. N-Methyl-N-phenylhydrazones of 3-benzoyl-5-phenyl-1,2,4-oxadiazole, 165-7

Studies on anhydroosazones. Part 5. Structure and anomeric configuration of the C-nucleoside analogs obtained from the dehydration of D-gluco- and D-manno hept-2-ulose phenylosazones, 557-62

Studies on v-triazoles. Part 4. The 4-methoxybenzyl group, a versatile N-protecting group for the synthesis of N-unsubstituted v-triazoles, 627-30

4-(1,2,4-Triazol-1-yl)- and 4-(3-nitro-1,2,4-triazol-1-yl)-1-(β -D-2,3,5-tri-O-acetyl arabinofuranosyl)pyrimidin-2(1H)-ones. Valuable intermediates in the synthesis of derivatives of 1-(β -D-arabinofuranosyl)cytosine (ara-C), 1171-6

Polyhalo allenes and acetylenes. Part 15. Dipolar cycloadditions of

- TRIAZOLE**(contd)
N-phenylsulfone and aryl azides to perfluoropropadiene and perfluoropropene, 2207-10
1,2,3-Triazoles produced from 5-substituted N-methoxytriazolium salts, 2749-56
- TRIAZOLINETHIONE**
Synthesis of heterocycles using a new immonium salt derived from N,N-dimethylthiourea, 1059-62
- TRIAZOLOBENZIMIDAZOLE**
Novel synthesis of pyrazolo[5,1-c]-1,2,4-triazoles, imidazo[1,2-b]pyrazoles, and [1,2,4]-triazolo[4,3-a]benzimidazoles. Reaction of nitrile imines with amino- and oxo-substituted diazoles, 2663-6
- TRIAZOLOPYRIDINE**
Triazolopyridines. Part 2. Preparation of 7-substituted triazolo[1,5-a]pyridines by directed lithiation, 967-71
- TRIAZOLOPYRIDINYL**
Triazolopyridines. Part 2. Preparation of 7-substituted triazolo[1,5-a]pyridines by directed lithiation, 967-71
- TRIAZOLYL**
Thiadiazoles and thiadiazolines. Part 3. Synthesis of triazol-3-yl- Δ^2 -1,3,4-thiadiazolines and a new synthesis of unsymmetrical 2,5-disubstituted 1,3,4-thiadiazoles, 1987-91
- TRIAZOLYLARABINOFURANOSYL**
4-(1,2,4-Triazol-1-yl)- and 4-(3-nitro-1,2,4-triazol-1-yl)-1-(β -D-2,3,5-tri-O-acetyl arabinofuranosyl)pyrimidin-2(1H)-ones. Valuable intermediates in the synthesis of derivatives of 1-(β -D-arabinofuranosyl)cytosine (ara-C), 1171-6
- TRIAZOLYLARABINOFURANOSYLPYRIMIDINONE**
4-(1,2,4-Triazol-1-yl)- and 4-(3-nitro-1,2,4-triazol-1-yl)-1-(β -D-2,3,5-tri-O-acetyl arabinofuranosyl)pyrimidin-2(1H)-ones. Valuable intermediates in the synthesis of derivatives of 1-(β -D-arabinofuranosyl)cytosine (ara-C), 1171-6
- TRIAZOLYLTHIADIAZOLINE**
Thiadiazoles and thiadiazolines. Part 3. Synthesis of triazol-3-yl- Δ^2 -1,3,4-thiadiazolines and a new synthesis of unsymmetrical 2,5-disubstituted 1,3,4-thiadiazoles, 1987-91
- TRIBENZODIAZACYCLODODECINEDIONE**
Conformational behavior of medium-sized rings. Part 13. 5,18-Dihydro- and 5,11,12,18-tetrahydrotribenzo[b,f,j][1,4]diazacyclododecine-6,17-diones, 1715-20
- TRIBENZOTRIAZACYCLODODECINE**
Conformational behavior of medium-sized rings. Part 11. Dianthranilides and trianthranilides, 1649-99
- TRIBROMIDE**
Regioselective ether cleavages of rotenoids: spiro-ether formation and stereoselective isotopic labeling of (E)- or (Z)-prenyl methyl groups in (6aS, 12aS)-rot-2'-enonic acid, 779-88
- TRIBUTYL**
Cyclodienones. Part 6. Preparation of 4-azido-2,4,6-tri-tert-butylcyclohexa-2,5-dienone and its thermal, photochemical, and acid-catalyzed decomposition, 2841-8
Oxidation of alkoxyphenols. Part 27. The mechanism of formation of dibenzo[d,f][1,3]dioxepins, 2863-6
- TRICARBONYL**
Organometallic complexes in synthesis. Part 16. Reactions of tricarbonyl(cyclohexadienyl)iron(1+) salts with aromatic amines 713-17
Thermal rearrangement reactions of tricarbonyliron lactone complexes, 1355-61
Organometallic compounds in organic synthesis. Part 12. Methods of determination of the stereochemistry of tricarbonylcyclohexa-1,3-dieneiron complexes, 1745-53
Organometallic compounds in organic synthesis. Part 14. Tricarbonyliron as lateral control group in the selective alkaline hydrolysis of some cyclohexa-1,3-diene carboxylic esters, 1763-9
- TRICARBONYLCYCLOHEXADIENEIRON**
Organometallic compounds in organic synthesis. Part 12. Methods of determination of the stereochemistry of tricarbonylcyclohexa-1,3-dieneiron complexes, 1745-53
- TRICARBONYLCYCLOHEXADIENYL**
Organometallic complexes in synthesis. Part 16. Reactions of tricarbonyl(cyclohexadienyl)iron(1+) salts with aromatic amines 713-17
- TRICARBONYLIRON**
Thermal rearrangement reactions of tricarbonyliron lactone complexes, 1355-61
- TRICHLORO**
Polyhaloaromatic compounds. Part 46. Circumstantial evidence for the intermediacy of radical anions during the reaction of magnesium with ω -bromoalkoxy polychloro-arenes and -heteroarenes, 93-9
Tautomerism in 2-trichloro- and 2-trifluoroacetamidothiazoles, 939-43
Formation of N-substituted trichloroacetamides from amines and hexachloroacetone, 945-8
Polyhaloaromatic compounds. Part 48. Reactions of tetrachloro-4-cyanopyridine with mono- and bifunctional nucleophiles, 2897-900
- TRICHLOROETHYL**
Homolytic displacements at carbon. Part 8. Synthesis of 1-cyano-2-(trichloroethyl)cyclopropanes from allylcobaloximes via but-3-enylcobaloximes and 1-bromo-1-cyanobut-3-enes, 645-51
- TRICHLOROMETHANE**
Homolytic displacements at carbon. Part 8. Synthesis of 1-cyano-2-(trichloroethyl)cyclopropanes from allylcobaloximes via but-3-enylcobaloximes and 1-bromo-1-cyanobut-3-enes, 645-51
- TRICHLOROMETHYL**
Synthetic approaches to 11-deoxyhomoprostacyclin analogs, 1923-32
- TRICOSANONAENEDIYNONE**
Syntheses and properties of a trimethyltetrahydro[23]annulenone and a trimethyltetrahydro[25]annulenone, 51-8
- TRICRESOTIDE**
Conformational behavior of medium-sized rings. Part 9. Disalicylides and trisalicylides, 1629-36
- TRICYCLIC**
Synthetic studies on terpenoids. Part 6. Synthesis of (\pm)-4,13-dimethyl-13-vinylpodocarp-8(14)-en-4 α - and -4 β -ols, 1959-62
- TRIDACNA**
Isolation and crystal structure of an arsenic-containing sugar sulfate from the kidney of the giant clam, *Tridacna maxima*. X-ray crystal structure of (2S)-3-[5-deoxy-5-(dimethylarsinoyl)- β -D-ribofuranosyloxy]-2-hydroxypropyl hydrogen sulfate, 2989-93
- TRIDECATETRAENE**
Structures of homofarnesene and bishomofarnesene isomers from *Myrmica* ants, 949-51
- TRIDEOXY**
Structure and conformation of N-benzoyl derivatives of the biologically important 3-amino-2,3,6-trideoxy-L-hexoses and their synthetic precursor γ - and δ -lactones; a proton and carbon-13 nuclear magnetic resonance study, 885-91
- TRIFLAVANOID**
Synthesis of condensed tannins. Part 6. The sequence of units, coupling positions, and absolute configuration of the first linear [4,6,4,6]triflavanoid with terminal 3,4-diol function, 535-40
- TRIFLUORIDE**
Regiospecific annulations of substituted tropones with ethane-1,2-dithiol, 1865-9
- TRIFLUORO**
Tautomerism in 2-trichloro- and 2-trifluoroacetamidothiazoles, 939-43
Heterocyclic polyfluoro-compounds. Part 37. Diels-Alder reactions of trichloro- and trifluoro-1,2,4-triazine, 1245-9
Heterocyclic polyfluoro-compounds. Part 39. Preparation and some nucleophilic substitution reactions of trifluoro-1,2,4-triazine, 1251-4
Fluoro olefin chemistry. Part 15. Thermal reaction of hexafluoropropene with hydrocarbon olefins, 2219-26
- TRIFLUOROMETHYL**
Nitroxide chemistry. Part 20. N,N-Bis(trifluoromethyl)hydroxylamine as a carbocation trapping agent, 835-9
Fluoro olefin chemistry. Part 15. Thermal reaction of hexafluoropropene with hydrocarbon olefins, 2219-26
- TRIFLUOROMETHYLHYDROXYLAMINE**
Nitroxide chemistry. Part 20. N,N-Bis(trifluoromethyl)hydroxylamine as a carbocation trapping agent, 835-9
- TRIFLUOROTRIAZINE**
Heterocyclic polyfluoro-compounds. Part 39. Preparation and some nucleophilic substitution reactions of trifluoro-1,2,4-triazine, 1251-4
- TRIHALO**
Heterocyclic polyfluoro-compounds. Part 37. Diels-Alder reactions of trichloro- and trifluoro-1,2,4-triazine, 1245-9
- TRIHISTIDINE**
Further studies on the protection of histidine side chains in peptide synthesis: the use of the π -benzyloxymethyl group, 1553-61

TRIHYROXY

Synthesis of substituted dibenzophospholes. Part 1, 2289–97

TRIMANNOSE

Synthesis of a nonasaccharide containing terminal N-acetyl- β -D-lactosaminyl residues, part of the 'complex-type' carbohydrate moiety of glycoproteins, 1841–4

TRIMER

Silver(I)-catalyzed oxidation of cyclic secondary amines with peroxodisulfate, 3031–5

TRIMERIZATION

Oxidation of alkoxyphenols. Part 26. The trimer of a 2,2'-diphenoquinone (1,1'-bicyclohexa-3,5-dienylidene-2,2'-dione), 2855–62

TRIMETHOXY

Synthesis of substituted dibenzophospholes. Part 4. Chemical transformations of 4,6-diaryl-3,7-dialkoxydibenzophosphole 5-oxides, 2333–9

Acid-catalyzed cyclizations: structures of novel products isolated in the reaction of 2-[3-(2,6-dimethoxyphenyl)but-2-enyl]-2-methylcyclopentane-1,3-dione with methanol-hydrochloric acid, 2791–4

Oxidation of alkoxyphenols. Part 27. The mechanism of formation of dibenzo[d,f][1,3]dioxepins, 2863–6

TRIMETHOXYTRITYL

The reaction of tris(4-methoxyphenyl)methyl chloride with sodium methoxide. Nonoperation of single-electron transfer paths, 3021–5

TRIMETHYL

Cyclodienones. Part 8. Hydrolysis of 5-oxo-2,4-di-tert-butylcyclopenta-1,3-dienecarbonitrile, 243–6

Stereochemistry of 2,3-dimethyl analogs of the reversed ester of pethidine and related compounds: examples of vicinal diaxial methyl groups in 2,3-dimethylpiperidine derivatives, 749–53

Conformational behavior of medium-sized rings. Part 12. Tri-3-methyltrianthranilide, 1701–14

TRIMETHYLPHENYLPIPERIDINOL

Stereochemistry of 2,3-dimethyl analogs of the reversed ester of pethidine and related compounds: examples of vicinal diaxial methyl groups in 2,3-dimethylpiperidine derivatives, 749–53

TRIMETHYLSILYL

Synthesis of ribosyl and arabinosyl cyanides by reaction of 1-O-acyl sugars with trimethylsilyl cyanide, 903–7

TRIMETHYLSILYLATION

Selectivity in the trimethylsilylation and acylation of peptide bonds, and its application to modification of the enkephalins, 2939–47

TRIMETHYLTRIANTHRANILIDE

Conformational behavior of medium-sized rings. Part 12. Tri-3-methyltrianthranilide, 1701–14

TRIPEPTIDE

Cyclol formation from tripeptides containing β -alanine, 1311–16

Synthesis of β -amino acid peptides. Part 3. Preparation of racemic and chiral 3-aminobutyric acid derivatives and peptides using dihydrooxazin-6-ones and conventional coupling reagents, 1587–92

TRIPHENYL

Electrochemical reactions. Part 24. Reductive cyclization of *i*-(2-halophenyl)-*j*-phenyl compounds: a general reaction, 229–34

TRIPHENYLTRIMETHYLSILYLPROPYNYLPHOSPHONIUM

On the double bond isostere of the peptide bond: preparation of an enkephalin analog, 307–14

TRISACCHARIDE

Synthesis of a nonasaccharide containing terminal N-acetyl- β -D-lactosaminyl residues, part of the 'complex-type' carbohydrate moiety of glycoproteins, 1841–4

TRITERPENE

Chemical investigation of Ceylonese plants. Part 45. 28,29-Dihydroxyfriedelane-3-one, a friedelane with two oxygenated methyl groups, from *Elaeodendron balae* (Celastraceae), 2457–9
Cordialin A and B, two new triterpenes from *Cordia verbenacea* DC, 2697–700

TRITERPENOID

The structure of four novel C₃₁-secodammarane-type triterpenoid saponins from the female flowers of *Alnus serrulata*, 1399–403

Novel dammarane triterpenoid glycosides from the leaves of *Hovenia dulcis*. X-ray crystal structure of hovenolactone monohydrate, 2795–9

TRITHIACYCLOPHANE

Approaches to bridged thia[17]annulenes, 483–7

TRITHIOSALICYLIDE

Conformational behavior of medium-sized rings. Part 10. Dithiosalicylides and trithiosalicylides, 1637–48

TRITICUM

Gibberellins A₆₀, A₆₁, and A₆₂: partial syntheses and natural occurrence, 689–97

TRITIUM

Partial synthesis of [17-¹³C; 15,17-³H]gibberellin A₂₉ from gibberellin A₃, 699–706

TROPONE

Reactions of 3-acetyltropolone methyl ethers with guanidine and amidines, 1037–9

Regiospecific annulations of substituted tropones with ethane-1,2-dithiol, 1865–9

TYLOPHORINE

Phenanthroindolizidine and related alkaloids: synthesis of tylophorine, septicine, and deoxytylophorine, 2477–85

ULLMANN

Depsidone synthesis. Part 21. A new synthesis of grisa-2',5'-diene-3,4'-diones, 403–11

Synthesis of substituted dibenzophospholes. Part 2. Syntheses of intermediate biphenyls and quaterphenyls, 2299–315

UNDECAPENTAENE

Synthesis and characterization of representative octa-1,3,5,7-tetraenes and deca-1,3,5,7,9-pentaenes, 2379–85

UNIT

Syntheses of the biological repeating units of *Salmonella* serogroups A, B, and D₁ O-antigenic polysaccharides, 2973–82

UNSATD

Syntheses and properties of trimethyltetrahydro[19]annulenes and the benzannulated derivatives, 31–42

Syntheses and properties of a trimethyltetrahydro[21]annulene and its benzannulated derivatives, 43–50

Syntheses and properties of a trimethyltetrahydro[23]annulene and a trimethyltetrahydro[25]annulene, 51–8

Reactions of iodine(I) azide with $\alpha\beta$ -unsaturated carbonyl compounds, 327–33

The chemistry of pseudomonic acid. Part 4. α,β -Unsaturated ketones derived from monic acid A and its derivatives, 729–34

Electrophilic fluorination of some steroidal α,β -unsaturated ketones 1105–10

URACIL

Pyrimidine derivatives and related compounds. Part 41. Reactions of 1,3,6-trimethyl-5-nitrouracil and its 6-bromomethyl analog with amines and hydrazines. Synthesis of pyrazolo[4,3-d]pyrimidine N-oxides and their ring expansion to pyrimido[5,4-d]pyrimidines, 277–84

Pyrimidine derivatives and related compounds. Part 42. Isolation of the intermediates in the ring transformation of 1,3-oxazine-2,4-diones into pyrimidines and pyrazoles, and their structure determination by nitrogen-15 nuclear magnetic resonance analysis, 473–5

4-(1,2,4-Triazol-1-yl)- and 4-(3-nitro-1,2,4-triazol-1-yl)-1-(β -D-2,3,5-tri-O-acetyl-arabinofuranosyl)pyrimidin-2(1H)-ones.

Valuable intermediates in the synthesis of derivatives of 1-(β -D-arabinofuranosyl)cytosine (ara-C), 1171–6

Stereochemical transformations of 5'-amino-5'-deoxyuridine and its 5,6-dihydro analog. 5'-N-aminoacyl derivatives of 5'-amino-5'-deoxy-5,6-dihydrouridine, 2091–7

URACILYLMETHYLPTEROYLGLUTAMATE

A chemical model for the thymidylate synthetase catalyzed methylation of deoxyuridine monophosphate, 1363–9

UREA

Formation of isocyanates by deoxygenation of C-nitrosocarbonyl compounds, 1571–4

Synthesis and properties of a series of sterically hindered guanidine bases, 2085–90

URIDINE

Stereochemical transformations of 5'-amino-5'-deoxyuridine and its 5,6-dihydro analog. 5'-N-aminoacyl derivatives of 5'-amino-5'-deoxy-5,6-dihydrouridine, 2091–7

UROPORPHYRINOGEN

Biosynthesis of porphyrins and related macrocycles. Part 17.

Chemical and enzymic transformation of isomeric aminomethylbilanes into uroporphyrinogens: proof that unrearranged bilane is the preferred enzymic substrate and detection of a transient intermediate, 2413–26

- UROPORPHYRINOGEN**(contd)
Biosynthesis of porphyrins and related macrocycles. Part 18. Proof by spectroscopy and synthesis that unrearranged hydroxymethylbilane is the product from deaminase and the substrate for cosynthetase in the biosynthesis of uroporphyrinogen-III, 2427-44
- UV**
Syntheses and properties of trimethyltetrahydro[19]annulenones and the benzannulated derivatives, 31-42
Syntheses and properties of a trimethyltetrahydro[21]annulenone and its benzannulated derivatives, 43-50
Tautomerism in 2-trichloro- and 2-trifluoroacetamidothiazoles, 939-43
- VICIA**
Total syntheses of wyerone and dihydrowyerone, phytoalexins from the broad bean, *Vicia faba* L., using the dianion derived from 3-(2-furyl)acrylic acid, 623-6
Polymeric proanthocyanidins. Carbon-13 NMR studies of procyanidins, 1217-21
- VICINAL**
Arylazoglycosides. Part 7. Syntheses of amino sugars from methyl arylazohexenopyranosides, 205-14
- VILSMEIER**
Polyformylation of copper(II) complexes of octaalkylporphyrins, 581-5
Convenient syntheses of 5-substituted 2-hydroxybenzoates and related reactions, 665-9
Synthesis and properties of a series of sterically hindered guanidine bases, 2085-90
- VINCADIFFORMINE**
Dye-sensitized photooxygenation of the *Aspidosperma* alkaloids vincadifformine and tabersonine. A new, convenient approach to vincamine, 1371-9
- VINCAMINE**
Dye-sensitized photooxygenation of the *Aspidosperma* alkaloids vincadifformine and tabersonine. A new, convenient approach to vincamine, 1371-9
- VINYLA**
C-Aromatic steroids. Synthesis of 11,17 ξ -dimethoxy-18-norandrosta-4,8,11,13-tetraen-3-one, 201-4
Stereoselective olefin cyclization mediated by the selenyl group; direct formation of a selenyl caparrapi oxide, 1085-7
Synthesis of novel β -lactamase inhibitors from clavulanic acid. Preparation and chemical reactions of (5R)-3-vinyl-4-oxa-1-azabicyclo[3.2.0]hept-2-en-7-one, 1509-17
Cycloelimination of β -silylethyl sulfoxides: alkene, alkyne, and vinylsilane forming reactions, 1563-9
Synthetic studies on terpenoids. Part 6. Synthesis of (\pm)-4,13-dimethyl-13-vinylpodocarp-8(14)-en-4 α - and -4 β -ols, 1959-62
Silyl phosphites. Part 20. A facile synthesis of phosphoenolpyruvate and its analog utilizing in situ generated trimethylsilyl bromide, 2509-13
- VINYLBORANE**
The chemistry of organoborates. Part 8. Unique Michael reactions of lithium trialkylalkynylborates, 719-22
- VINYLDICANOATE**
Synthesis of some thietanoprostanoids, 1333-42
- VINYLNONANOL**
Cyclization of $\gamma\delta$ -unsaturated sulfenic acids to give thietane 1-oxide derivatives. Crystal structure of rel-(1R,2S,3R,4R)-3-hexyl-2-(hydroxymethyl)-4-methylthietane 1-oxide, 1325-32
- VINYLOXAAZABICYCLOHEPTENONE**
Synthesis of novel β -lactamase inhibitors from clavulanic acid. Preparation and chemical reactions of (5R)-3-vinyl-4-oxa-1-azabicyclo[3.2.0]hept-2-en-7-one, 1509-17
- VINYLPHENYLHYDRAZONYL**
Stereochemical and mechanistic aspects of the base-promoted cyclization of o-vinylphenylhydrazonyl chlorides under phase-transfer conditions, 2041-4
- VITAMIN**
Studies on organic fluorine compounds. Part 37. Studies on steroids. Part 78. Synthesis of 24,24-difluoro- and 24(ξ)-fluoro-25-hydroxyvitamin D³, 85-91
Synthesis of 25 ξ ,26-dihydroxyvitamin D₂, 2111-16
Electroorganic reactions. Part 20. Electrogenated bases, ylide formation, and Wittig alkene synthesis, 2921-6
- WITHANOLID**
Studies on the 5 β ,6 β -epoxide opening in withanolides, 2835-9
- WITTIG**
On the double bond isostere of the peptide bond: preparation of an enkephalin analog, 307-14
Synthesis of (R,S)-(5Z,8E,10E)-12-hydroxyheptadeca-5,8,10-trienoic acid and of (R,S)- and (S)-(5Z,8Z,10E,14Z)-12-hydroxyeicosa-5,8,10,14-tetraenoic acid and their racemic 5,6,8,9-tetradeuterioisomers, 545-52
Partial synthesis of [17-¹³C; 15,17-³H]gibberellin A₂₉ from gibberellin A₃, 699-706
Synthesis of stable prostacyclin analogs from 2,3-disubstituted bicyclo[3.2.0]heptan-6-ones, 823-30
Dihydrostilbenes of *Cannabis*. Synthesis of canniprene, 1467-75
Naturally occurring dibenzofurans. Part 1. A synthesis of cannabifuran, 1605-10
An investigation of the Wittig reaction between a series of monosubstituted phthalic anhydrides and ethoxycarbonylmethylidenetriphenylphosphorane, 1855-63
Naturally occurring dibenzofurans. Part 2. The synthesis of schizopeltic acid, 2373-7
Synthesis and characterization of representative octa-1,3,5,7-tetraenes and deca-1,3,5,7,9-pentaenes, 2379-85
Electroorganic reactions. Part 20. Electrogenated bases, ylide formation, and Wittig alkene synthesis, 2921-6
- WOODWARD**
Reactions of 1-methyl-4-tert-butylcyclohexene and 1-methylcyclohexene with thallium(I) acetate-iodine, 413-19
- WYERONE**
Total syntheses of wyerone and dihydrowyerone, phytoalexins from the broad bean, *Vicia faba* L., using the dianion derived from 3-(2-furyl)acrylic acid, 623-6
- XANTHONE**
Depsidone synthesis. Part 21. A new synthesis of grisa-2',5'-diene-3,4'-diones, 403-11
- XANTHOXYLUM**
Studies on the chemical constituents of rutaceous plants. Part 45. Novel phenyl propanoids: cuspidiol, boninal, and methyl boninalate, 2051-8
- XYLOFURANOSYL**
Stereochemical transformations of 5'-amino-5'-deoxyuridine and its 5,6-dihydro analog. 5'-N-aminoacyl derivatives of 5'-amino-5'-deoxy-5,6-dihydrouridine, 2091-7
- XYLOFURANOSYLURACIL**
Stereochemical transformations of 5'-amino-5'-deoxyuridine and its 5,6-dihydro analog. 5'-N-aminoacyl derivatives of 5'-amino-5'-deoxy-5,6-dihydrouridine, 2091-7
- YLIDE**
1H-1,4-Benzothiazines. New cyclic sulfonium ylides, 831-4
Base catalyzed rearrangements involving ylide intermediates. Part 14. Rearrangement of 4-oxidoanilinium ylides and 3-oxidoanilinium betaines, 893-901
Electroorganic reactions. Part 20. Electrogenated bases, ylide formation, and Wittig alkene synthesis, 2921-6
- YLIDENE**
An investigation of the Wittig reaction between a series of monosubstituted phthalic anhydrides and ethoxycarbonylmethylidenetriphenylphosphorane, 1855-63
- YLIDENEPHTHALIDE**
An investigation of the Wittig reaction between a series of monosubstituted phthalic anhydrides and ethoxycarbonylmethylidenetriphenylphosphorane, 1855-63
