JOURNAL OF THE CHEMICAL SOCIETY

# Perkin Transactions I

A journal of organic and bio-organic chemistry

No.7  
July  
1988

ROYAL SOCIETY OF CHEMISTRY

**Officers and Council of the Perkin Division  
1988-89**

*President*

Professor A. R. Battersby

*Vice Presidents*

Professor J. E. Baldwin  
Professor A. G. Davies

Professor C. H. Hassall  
Professor P. G. Sammes

*Ordinary Members*

Dr. G. M. Blackburn  
Professor J. G. Buchanan  
Dr. N. S. Crossley  
Dr. P. M. Cullis  
Dr. S. G. Davies

Dr. J. Dixon  
Professor D. M. X. Donnelly  
Professor B. T. Golding  
Professor J. MacMillan  
Professor M. I. Page  
Professor C. J. M. Stirling

*Honorary Secretary/Treasurer*

Dr. J. S. Davies

---

*Chairman of the Publications & Information Board*  
Miss A. R. Haygarth Jackson

*Chairman of Journals Management Committee*  
Professor H. M. Frey

*Perkin Editorial Board*

Professor I. O. Sutherland (Chairman)

Dr. D. Bethell  
Dr. G. M. Blackburn  
Professor D. H. G. Crout

Dr. R. F. Newton  
Professor S. M. Roberts  
Dr. J. K. M. Sanders

---

*Manager Journals*

Dr. A. D. McNaught

*Perkin I Transactions Editor*

Dr. E. R. Smith

*Senior Assistant Editor*

Dr. P. I. C. Berthier

*Perkin II Transactions Editor*

Mr. H. MacGrillen

*Assistant Editors*

Miss P. A. Cross  
Miss P. Sehmi  
Miss B. Sharma  
Dr. J. Whittaker

*Editorial Office*

The Royal Society of Chemistry, Burlington House, London, W1V 0BN  
Telephone No. 01-734 9864

---

**Information for Authors**

Full details of how to submit material for publication in *Perkin Transactions 1* and *2* are given in Instructions for Authors (*J. Chem. Soc., Perkin Trans. 1* or *2*, 1988, Issue 1).

The subject matter of *Perkin Transactions 1* embraces all aspects of organic and bio-organic chemistry. These include synthetic organic chemistry of all types, organometallic chemistry, chemistry and biosynthesis of natural products, the relationship between molecular structure and biological activity, the chemistry of polymers and biological macromolecules, and medicinal and agricultural chemistry where there is originality in the science.

*Perkin Transactions 2* deals with the physicochemical aspects of organic, organometallic and bio-organic chemistry including kinetic, mechanistic, structural, spectroscopic, and theoretical studies. Such topics include structure-activity relationships and physical aspects of biological processes and of the study of polymers and biological macromolecules.

All contributions are judged on the criteria of (i) originality and quality of scientific content and (ii) appropriateness of the length to the content of new science. Short papers are acceptable provided that they constitute full reports of completed pieces of work and are not fragments of more extensive studies.

Manuscripts (three copies typed in double spacing) should be addressed to:  
The Manager, Journals,  
Royal Society of Chemistry,  
Burlington House,  
Piccadilly,  
LONDON W1V 0BN

Particular attention should be paid to the use of standard methods of literature citation, including the journal abbreviations defined in Chemical Abstracts Service Source Index. Wherever possible, the nomenclature employed should follow IUPAC recommendations, and units and symbols should be those associated with SI.

All queries relating to the presentation and submission of papers, and any correspondence regarding accepted papers and proofs, should be directed to the Editor, *Perkin Transactions 1* or *2* (address as above). Members of the Perkin Editorial Board (who may be contacted directly or via the Editorial Office) would welcome comments, suggestions, and advice on general policy matters concerning *Perkin Transactions*.

Fifty reprints of each published contribution are supplied free of charge, and further copies can be purchased.
