

NATURAL PRODUCT REPORTS

A JOURNAL OF CURRENT DEVELOPMENTS IN BIOORGANIC CHEMISTRY

Articles that will appear in forthcoming issues include:

Muscarine, Oxazole, Imidazole, Thiazole, and Peptide Alkaloids, and Other Miscellaneous Alkaloids **J R Lewis** (reviewing the literature published between July 1991 and June 1992)

Isotope Effects in the Elucidation of Enzyme Mechanisms **N P Botting**

Marine Natural Products **D J Faulkner** (reviewing the literature published during 1992)

Tropane Alkaloids **G Fodor and R Dharanipragada** (reviewing the literature published during 1992)

Steroids: Reactions and Partial Syntheses **V Cerny** (reviewing the literature published during 1992)

Natural Sesquiterpenoids **B M Fraga** (reviewing the literature published during 1992)

Triterpenoids **J D Connolly, R A Hill, and B T Ngadju** (reviewing the literature published between January 1990 and December 1991)

The Use of Supercritical Fluids in the Isolation of Natural Products **C D Bevan and P S Marshall**

β -Phenylethylamines and the Isoquinoline Alkaloids **K W Bentley** (reviewing the literature published between July 1992 and June 1993)

Recent Progress in the Chemistry of Indole Alkaloids and Mould Metabolites **J E Saxton** (reviewing the literature published in 1992)

The Biosynthesis of Plant Alkaloids and Nitrogenous Microbial Metabolites **R B Herbert** (reviewing the literature published in 1992)

Pyrrole, Pyrrolidine, Pyridine, Piperidine, and Azepine Alkaloids **A O Plunkett** (reviewing the literature published between July 1991 and June 1992)

Modern Mass Spectrometry in Bioorganic Analysis **M A Baldwin**

Phenylethanoid Glycosides in Plants: Structure and Biological Activity **C Jiménez and R Riguera**

Steroid Total Synthesis **F J Zeelan** (reviewing the literature published between 1986 and 1993)

Recent Eicosanoid Chemistry **D Clissold and C Thickitt**

Biosynthesis of Fatty Acid and Polyketide Metabolites **D O'Hagan** (reviewing the literature published between mid-1992 and mid-1993)

Pyrrolizidine Alkaloids **D J Robins** (reviewing the literature published between July 1992 and June 1993)

The Chemistry of Heterocyclic *o*-Quinone Cofactors **S Itoh and Y Ohshiro**

Contemporary Organic Synthesis

NEW
REVIEW
JOURNAL

... a milestone in organic chemistry publishing ...

Contemporary Organic Synthesis, is a NEW bi-monthly critical review journal, bringing you:

- Regular, up-to-date coverage of all major functional group interconversions
- Chemo-, regio- and stereo-selectivity in modern synthesis
- Design and development of chiral auxiliaries, catalytic asymmetric processes and biological methods
- Scope for organometallic reagents in rational, efficient design
- Timely reviews of the place of synthesis in all areas of natural product chemistry, medicine, agriculture and materials science
- Developments at the cutting edge of molecular recognition phenomena, supramolecular chemistry and self-assembly processes
- The needs of modern industry and the industrial chemist, taking into account economic and environmental factors

A subscription to **Contemporary Organic Synthesis** will give you:

- New approaches and new directions in synthesis design
- Coverage of major areas each year, and more specialised areas every two or three years
- International outlook and coverage
- An attractive, highly readable publication with clear diagrams and figures

The Royal Society of Chemistry

2nd INTERNATIONAL SYMPOSIUM ON SUPPORTED REAGENTS AND CATALYSTS IN CHEMISTRY

University of Wales, Swansea
5–8 July 1994

INTRODUCTION

The 2nd International Symposium on Supported Reagents and Catalysts in Chemistry will take place at the University of Wales, Swansea, commencing at lunchtime on Wednesday 6 July and closing at lunchtime on Friday 8 July 1994. The first meeting in the series took place at the University of York in July 1991.

Teach-in

The meeting will be preceded by a one-day course/teach-in which will commence at lunchtime on Tuesday 5 July. The course will be directed by Professor Pierre Laszlo (*Ecole Polytechnique, France*), and will cover both practical and theoretical aspects. The aim of the course is to provide detailed and practical advice on the preparation and utilisation of supported reagents and catalysts.

There will be a limit on the number of participants accepted for the course and priority will be given to early applications.

SCIENTIFIC PROGRAMME

The programme will comprise keynote, invited and contributed oral presentations. Posters will also form a valuable part of the programme and time will be set aside for formal viewing and discussion.

INVITED LECTURERS

The following persons have accepted invitations to contribute lectures to the programme:

Sir John Cadogan *Imperial College, London, UK*
J H Clark *University of York, UK*
B K Hodnett *University of Limerick, Eire*
P Laszlo *University of Liège, Belgium*
S Murahashi *Osaka University, Japan*
K Smith *University College Swansea, UK*

Sir John Meurig Thomas *The Royal Institution, UK*
T Isumi *Nagoya University, Japan*
A Fürstner *Max-Planck-Institute für Kohlen Forschung*
G Pérot *Université de Poitiers, France*
R Pagni *University of Tennessee, USA*
J Klinowski *University of Cambridge, UK*

For details contact: Dr J.F. Gibson, Secretary (Scientific), The Royal Society of Chemistry, Burlington House, London UK W1V 0BN. Tel + 44 (0) 71 437 8656. Fax + 44 (0) 71 734 1227.

Ideas flourish in this environment.

Global warming...hazardous waste... water scarcity...ecosystem ecology... risk communication...You'll explore today's most important environmental concerns in the critically-acclaimed *Environmental Science and Technology*. Rated #1 of all environmental science journals in the latest *Science Citation Index*, *ES&T* provides breakthrough ideas, insightful analyses, and up-to-the-minute research every month.

Research Journal and Professional Magazine in One

Scientifically rigorous, *ES&T* combines peer-reviewed research with a lively magazine section to present the latest thinking in environmental science and protection in a reader-friendly format. International in scope, *ES&T* offers research articles, critical reviews, and

special reports which examine environmental problems—and their solutions—in key geographic regions worldwide.

Strong Editorial Commitment

International Symposium on

CASCADE REACTIONS

University of Leeds,
12th—14th September 1994

Cascade Reactions will cover topics defined by the three general subject areas:

- i Organotransition Metal Cascades
- ii Radical Cascades
- iii General Synthetic Cascades

Cascade Reactions will consist of a series of lectures as well as both oral and poster presentations.

Keynote and Invited Lecturers

W. R. Bowman <i>Loughborough, UK</i>	G. A. Molander <i>Colorado, USA</i>
R. Grigg <i>Leeds, UK</i>	W. B. Motherwell <i>London, UK</i>
A. B. Holmes <i>Cambridge, UK</i>	E.-I. Negishi <i>Purdue, USA</i>
R. A. Holton <i>Florida, USA</i>	L. A. Paquette <i>Ohio, USA</i>
S. V. Ley <i>Cambridge, UK</i>	P. Parsons <i>Reading, UK</i>
I. E. Markó <i>Louvain, Belgium</i>	P. Quayle <i>Manchester, UK</i>
A. De Meijere <i>Gottingen, Germany</i>	L. F. Tietze <i>Gottingen, Germany</i>

For a copy of the Second Circular and Application Form, contact Dr John F. Gibson, Secretary (Scientific), The Royal Society of Chemistry, Burlington House, London W1V 0BN, UK; Tel. + 44 (0) 71 437 8656; Fax. + 44 (0) 71 734 1227.
