

Nucleic Acids and Combinatorial Chemistry in Drug Discovery

September 9, (1 pm-6 pm) and September 10, (10 am-3 pm), 1995
The H. C. Ørsted Institute, Universitetsparken 5,
DK-2100 Copenhagen Ø, Denmark.

Speakers:

Thomas Horn, Ph.D (Chiron INC., USA)	Modified Oligonucleotides
Brian Sproat, Ph.D (Ribonetics GMBH, Germany)	RNA Cleaving Molecules
Michael Egholm, Ph.D (PerSeptive Biosystems, USA)	PNA (Peptide Nucleic Acids)
Jesper Wengel, Ph.D (University of Odense, Denmark)	Antisense Compounds: Modified Oligonucleotides
Richard Houghten, Ph.D (Houghten Pharmaceuticals INC., USA)	Combinatorial Chemistry in Drug Discovery
John Nielsen, Ph.D (The Technical University of Denmark)	Small Molecule Libraries
Morten Meldal, Ph.D (The Carlsberg Laboratory, Denmark)	Peptide Libraries for Enzymatic Reactions
Michael Famulok, Ph.D (University of Munich, Germany)	DNA and RNA Libraries

The emphasis of this symposium is to provide an informal atmosphere for discussion. There will be a dinner on the evening of Saturday, 9th September and an opportunity to see some of Copenhagen.

To register, please contact Ms. Birgitte Hyrup, The H. C. Ørsted Institute, Kemisk Lab. II, Universitetsparken 5, DK-2100 Copenhagen Ø, Denmark.

Ph (+45) 35 32 01 56, Fax (+45) 35 32 02 12, E-mail Hyrup@kiku.dk.

Deadline for registration: September 1, 1995. For hotel registration: August 1, 1995.

Registration is free. Cost of dinner (incl. wine) dkr. 300.

General inquiries: Dr. Glenn Tong, Institute of Organic Chemistry, Building 201, Technical University of Denmark, DK-2800 Lyngby, Denmark.

Ph (+45) 45 25 21 43, Fax (+45) 45 93 39 68, E-mail okgt@kbar.dtu.dk.

**Sponsored by DAKO A/S, Leo Pharmaceutical Products,
H. Lundbeck A/S, and Novo Nordisk A/S.**

THE FUTURE STARTING POINT IN ORGANIC SYNTHESIS

Encyclopedia of Reagents for Organic Synthesis

Leo Paquette and his distinguished editorial board have compiled the reviews of almost 3500 reagents to make the *Encyclopedia of Reagents for Organic Synthesis* the primary source of synthetic organic information. Numerous features mean that its comprehensiveness will be matched with an unrivalled ease of use:

- The A-Z listing and thorough cross-referencing allow you to find the most appropriate reagent...fast
- Comparison of a reagent's specific properties with those of other reagents capable of similar chemistry, and...
- A pros and cons assessment for each reagent – including its exemplary transformations – will guide researchers in their decision-making process
- Stereo-, regio- and enantio-control qualifications of reagents (where pertinent)
- Fully illustrated with thorough literature references up to and including 1993

EDITOR-IN-CHIEF
Leo A. Paquette,
The Ohio State University

SECTION EDITORS
S.D. Burke, R.M. Coates, R.L. Danheiser, S.E. Denmark,
D.J. Hart, L.S. Liebeskind, D. Liotta, A.J. Pearson,
H.J. Reich, J.H. Rigby, W.R. Roush

*Encyclopedia of Reagents for
Organic Synthesis*

ISBN 0471 936235 8 Volumes
Approx 6500pp due August 1995

Pre-publication price:
£1400/\$2250

Price after publication:
£1750/\$2750

PERSONAL PURCHASE SCHEME: If an institution purchases the Encyclopedia at the full published price and registers it with Wiley, then individuals working at that institution can purchase an *additional* copy at a substantial saving (price approx £625/\$995). Contact Wiley for details.
