The latest information on
trends in organic chemistry on
a powerful new CD-ROM!

ECTOC – The First of its Kind

The **Electronic Conference on Trends in Organic Chemistry (ECTOC)** was the first completely electronic conference to be held on the subject of organic chemistry. The conference took place over the Internet, and included not just high-level academic research but new and exciting ways of presenting that information. The content of this conference is now available on a powerful new CD-ROM, allowing you to benefit from the advantages unique to this electronic medium.

What does the ECTOC CD-ROM contain?

- 6 keynote articles highlighting significant work from leading scientists
- 71 peer-reviewed articles and posters from authors in 13 different countries in synthetic, mechanistic and bio-organic chemistry
- the E-mail discussion of the articles among chemists across the whole organic scientific community

What else can the CD-ROM offer me?

- colour and "clickable" 2D diagrams
- rotatable 3D molecular images
- a "molecular hyperglossary" of 3D coordinates
- video animation and "virtual reality" navigation
- editable reaction schemes and search queries

Price: £50 (plus VAT in the UK); \$95

ISBN: 0 85404 899 5

Software: The ECTOC files on the CD-ROM can be viewed with a World Wide Web client program such as Netscape, Internet Explorer or Mosaic, on a Mac or a PC running Windows 3.1 or Windows 95.
