

NEW
PRICING
STRUCTURE
FOR 1996

JOURNAL OF
Materials
CHEMISTRY

Since its launch in 1991, **Journal of Materials Chemistry** has helped put materials chemistry firmly on the map of scientific literature. The RSC is pleased to announce a new pricing structure for 1996, which makes it more accessible than ever to all those in the field.

JOURNAL OF MATERIALS CHEMISTRY ... even more affordable in 1996!

NEW Personal Subscription Rate

- Does your organisation subscribe to **Journal of Materials Chemistry**?
- If so, you are now eligible for your own personal copy at the vastly discounted rate of just £89 or \$139
- If not, then perhaps you should persuade them to, so that you too can take advantage of this generous new offer.

NEW Reduction in Members Price

For the first time ever, subscription fees have actually been LOWERED! RSC members can now subscribe to **Journal of Materials Chemistry** for just £80

NEW From 1996 **Journal of Materials Chemistry** will be included in the RSC's prestigious **Special Journals Package**. For £4302 or US \$8159 you can now have the latest information and research in every *discipline* of chemistry, in the form of 7 primary journals. This represents a substantial saving on the combined cover prices.

1996 PRICING (12 Issues a year) ISSN 0959-9428

	Institutional Rate	NEW Personal Rate*
EEA	£519.00	£89.00
USA	\$984.00	\$139.00
Rest of World	£532.00	£89.00

* Offer available only to individuals working for organisations that already have a full non-member subscription at the same site

Can you afford *not* to subscribe today?

CALL FOR PAPERS

ORGANIC PROCESS RESEARCH AND DEVELOPMENT

*A new journal from The Royal Society of Chemistry
and the American Chemical Society*

Scientific Editor: Trevor Laird, *Scientific Update (UK)*
Associate Editors: John F Arnett, *Recombinant BioCatalysis, Inc (USA)*
Richard Pariza, *C&P Associates (USA)*

The Royal Society of Chemistry and the American Chemical Society are pleased to announce the co-publication of *Organic Process Research and Development*. The premiere issue of this new bi-monthly research journal will be released in January 1997.

Organic Process Research and Development will report on original work in the broad field of process chemistry encompassing aspects of organic chemistry, catalysis, analytical chemistry and chemical engineering, with a special focus on the design of chemical processes and their translation from laboratory, via pilot plant, to manufacture.

The journal will cover R&D in the fine organic chemical and specialty chemical industries, including pharmaceuticals, electronics, agrochemicals, intermediates, flavours and fragrances, food additives, dyestuffs and photographic chemicals, and specialty polymers. Academic work in these areas will also be covered. The journal will concentrate on the batch/semibatch chemical process industries, but also welcomes reports on R&D aimed at continuous processes.

Submissions for *Organic Process Research and Development* are now being sought.

We are particularly keen to receive papers in the following areas:

- ◆ Organic process research
- ◆ Scale-up issues
- ◆ New technologies
- ◆ Legislation and regulatory issues related to process R&D
- ◆ Organic process development
- ◆ Related safety issues
- ◆ Environmental waste minimization and benign or green chemistry

Submissions can be full research papers, reviews, notes, summaries of research (no experimental details necessary), technology reports, etc. The deadline for receipt of papers for possible inclusion in the inaugural issue is July 31st 1996.

Interested authors should contact the editors to request a comprehensive Guide for Authors. Submissions may be forwarded to:

Trevor Laird, Editor, *Scientific Update*

Wyvern Cottage, High Street, Mayfield, East Sussex TN20 6AE, UK
