

INDEX OF AUTHORS, 1972

A

- Abraham, M. H.** Substitution at saturated carbon. Part XIV. Solvent effects on the free energies of ions, ion-pairs, non-electrolytes, and transition states in some S_N and S_E reactions, 1343.
- Abraham, R. J., and Siverns, T. M.** Rotational isomerism. Part XIV. Medium effects on the conformational equilibria of halogenocyclohexanes, 1587.
- Abraham, R. J., Wileman, D. F., Bedford, G. R., and Greatbanks, D.** The nuclear magnetic resonance spectra of fluoroaromatics. Part V. The ^{13}C spectra of some fluorobenzenes and fluorobenzofurans, 1733.
- Adams, C. H. M., Mackenzie, K., and Young, P. R.** Nucleophilic addition and substitution reactions of polyhalogenated norbornadienes with alkoxide and alkenoxide anions. A novel Claisen rearrangement of allyl norbornadienyl ethers, 1856.
- Adams, D. M., and Gardner, J. A.** *In situ* Raman spectroscopic analysis of thin layer chromatograms, 2278.
- Ager, I. R., and Phillips, L.** ^{19}F Nuclear magnetic resonance studies of aromatic compounds. Part I. The effect of solvents on the chemical shift of fluorine nuclei in *para*-substituted fluorobenzenes, 4-substituted 4'-fluoro-*trans*-stilbenes, and 4-substituted 3'-fluoro-*trans*-stilbenes, 1975.
- Ager, I. R., Phillips, L., and Roberts, S. J.** ^{19}F Nuclear magnetic resonance studies of aromatic compounds. Part III. The transmission of substituent effects across bridged ring systems, 1988.
- Ager, I. R., Phillips, L., Tewson, T. J., and Wray, V.** ^{19}F Nuclear magnetic resonance studies of aromatic compounds. Part II. The ^{19}F chemical shifts in *meta*- and *para*-substituted fluorobenzenes, and 4-substituted 3'- and 4'-fluoro-*trans*-stilbenes, 1979.
- Agnihotri, V. G., and Giles, C. H.** The cellulose-dye adsorption process. A study by the monolayer method, 2241.
- Ahmed, N. U., Baugh, P. J., and Phillips, G. O.** Radiation chemistry of carbohydrates. Part XVIII. The extreme and variable susceptibility of crystalline lactose to ionising radiations, 1305.
- Aiyar, L., Datta, A. N., and Kundu, K. K.** Determination of H_- acidity function for glycolic sodium glycoxide by use of *t*-butylphenols as indicators and a comparison with that found by use of amine indicators, 1046.
- Aiyar, L.** See also Kundu, K. K., 715, 1240.
- Albeck, M., Hoz, S., and Rappoport, Z.** $E1cB$ eliminations. Substituent and solvent effects on the $E1cB$ elimination of the second type from 2-aryl-1,1,2-tricyanopropanes, 1248.
- Albery, W. J., Bridgeland, J. R., and Curran, J. S.** Kinetic isotope effects and aliphatic diazo-compounds. Part V. Secondary isotope effects in general acid catalysis, 2203.
- Albery, W. J., and Campbell-Crawford, A. N.** Kinetic isotope effects and aliphatic diazo-compounds. Part III. Solvent isotope effects for 3-diazobutan-2-one and ethyl diazopropionate, 2190.
- Albery, W. J., Campbell-Crawford, A. N., and Hobbs, K. S.** Kinetic isotope effects and aliphatic diazo-compounds. Part I. General acid catalysis and the Brønsted coefficients, 2180.
- Albery, W. J., Campbell-Crawford, A. N., and Stevenson, R. W.** Kinetic isotope effects and aliphatic diazo-compounds. Part IV. Primary isotope effects in general acid catalysis, 2198.
- Albery, W. J., Curran, J. S., and Campbell-Crawford, A. N.** Kinetic isotope effects and aliphatic diazo-compounds. Part II. Experiments at high buffer concentrations. Part VI. The values of α and the Marcus theory, 2185, 2206.
- Alcais, P., and Brouillard, R.** Influence of structure on β -diketo-enol equilibria: a kinetic study by the relaxation technique, 1214.
- Alexander, C. W., and Jackson, W. R.** Addition reactions of conjugated double bonds. Part IV. The stereochemistry of cyanide ion addition to some $\alpha\beta$ -unsaturated ketones and their π -allylpalladium derivatives, 1601.
- Allen, D. W., and Hutley, B. G.** The chemistry of heteroarylphosphorus compounds. Part III. The alkaline hydrolysis of heteroarylmethyl analogues of benzyltriphenylphosphonium bromide; relative stabilities of heteroarylmethyl carbanions, 67.
- Allen, D. W., Hutley, B. G., and Mellor, T. J.** The chemistry of heteroarylphosphorus compounds. Part II. The importance of inductive effects on pre-equilibria in the alkaline hydrolysis of heteroarylphosphonium salts; phosphorus-31 nuclear magnetic resonance studies, 63.
- Almog, J., Meyer, A. Y., and Shanan-Atidi, H.** Barriers to rotation in dialkylaminopyrimidines, 451.
- Aloisi, G. G., Bordignon, E., and Signor, A.** Nitro-heteroaromatic derivatives of amino-acids and peptides. Part V. Photochemical formation of 2-isobutylpyrido[2,3-*d*]-imidazole 1-oxide from 3-nitro-2-pyridyl-DL-leucine, 2218.
- Alunni, S., and Clementi, S.** Kinetics and mechanism of trifluoroacetylation of aromatic compounds, 1521.
- Alunni, S., Linda, P., Marino, G., Santini, S., and Savelli, G.** The mechanism of the Vilsmeier-Haack reaction. Part II. A kinetic study of the formylation of thiophen derivatives with dimethylformamide and phosphorus oxychloride or carbonyl chloride in 1,2-dichloroethane, 2070.
- Alwair, K., Archer, J. F., and Grimshaw, J.** Electrochemical reactions. Part X. 4-Styrylpyridine: polarography and cyclic voltammetry in dimethylformamide and reduction in protic solvents, 1663.
- Anderson, E., and Capon, B.** Intramolecular nucleophilic assistance in reactions of acetals, 515.
- Anderson, S. N., Ballard, D. H., and Johnson, M. D.** Activation of electrophilic aromatic substitution by the substituent $-CH_2Co(dmgh)_2py$. Products of reaction of benzylcobaloximes with halogens in acetic acid, 311.

- Andriessen, H. J. M., Laarhoven, W. H., and Nivard, R. J. F.** Nuclear magnetic resonance study of charge transfer complexes of 1,3,5-trinitrobenzene, picric acid, and fluoranil with methoxy- and methyl-substituted benzenes and biphenyls. Indication of the structure of the complexes in solution, 861.
- Angiolini, L., Duke, R. P., Jones, R. A. Y., and Katritzky, A. R.** The conformational analysis of saturated heterocycles. Part XLV. *N*-Alkyldihydro-1,3,5-dithiazines and *N*-alkyltetrahydro-1,3,5-thiadiazines, 674.
- Angyal, S. J.** See **McConnell, J. F.**, 2039.
- Ansell, G. B.** Crystal structure of 1,3-dimethylimidazole-2(3*H*)-thione (C₅H₈N₂S), 841.
- Ansell, H. V., Clegg, R. B., and Taylor, R.** Aromatic detritiation. Part IV. 1,3,5-Triphenylbenzene: a possible example of steric hindrance to hydrogen exchange, 766.
- Anteonis, M.** See **Vandenbroucke, W.**, 123.
- Archer, J. F.** See **Alwair, K.**, 1663.
- Arnott, S., and Scott, W. E.** Accurate *X*-ray diffraction analysis of fibrous polysaccharides containing pyranose rings. Part I. The linked-atom approach, 324.
- Ashraf, M., and Jackson, W. R.** The stereochemistry of organometallic compounds. Part XII. The acid strengths of some tricarbonyl(alkylbenzoic acid)chromium compounds, their nuclear magnetic resonance spectra, and the spectra of some related compounds, 103.
- Ashton, D. C., and Tedder, J. M.** Free-radical substitution in aliphatic compounds. Part XXV. The gas-phase chlorination of chlorocyclobutane and methylcyclobutane, 965.
- Ashworth, P., and Dixon, W. T.** Secondary radicals in the autoxidation of hydroquinones and quinones, 1130.
Electron spin resonance spectra of radicals derived from arylhydroquinones, 2264.
- Astley, V., and Sutcliffe, H.** Trichloronitrosomethane. Part II. Thermal decomposition, and an improved synthesis, of trichloronitrosomethane, 197.
- Atidia, M.** See **Rappoport, Z.**, 2316.
- Atkin, J., Gall, R. E., and Slee, A. M.** Stereoselectivity in reactions involving the hydrolysis of acetoxonium ions, 1185.
- Atkinson, A., Hopkinson, A. C., and Lee-Ruff, E.** The electronic spectra of diphenylmethyl carbonium ions, 1854.
- Atkinson, R. E., and Hardy, F. E.** The synthesis and fluorescent characteristics of some heteroaromatic derivatives of 2,2'-bithienyl, 27.
- Aukett, P., and Barker, I. R. L.** The kinetics and mechanism of the oxidation of benzyl alcohol to benzaldehyde by bromine, 568.
- Avaca, L. A., and Bewick, A.** The cathodic reduction of anthracene in lithium chloride-hexamethylphosphoramide, 1709.
The reduction of acetamide by solvated electrons electrochemically generated in lithium chloride-hexamethylphosphoramide, 1712.
- Aw, C. T., Huang, H. H., and Tan, E. L. K.** Conformations of substituted benzaldehydes and acetophenones by molecular polarisability measurements and infrared spectroscopy, 1638.
- B**
- Bacaloglu, R., Dăescu, C., and Ostrogovich, G.** Nucleophilic substitution in carbonic acid derivatives. Part II. Kinetics and mechanism of the solvolyses of *NN*-dialkylcarbonyl chlorides, 1011.
- Baggio, S., Barriola, A., and de Perazzo, P. K.** Crystal and molecular structure of 7-oxabicyclo[2,2,1]hept-5-ene-2,3-*exo*-dicarboxylic anhydride, 934.
- Baker, R., Eaborn, C., and Taylor, R.** Aromatic reactivity. Part L. Thiophen, benzo[*b*]thiophen, anisole, and thioanisole in detritiation. Substituent constants for use in electrophilic aromatic substitution, 97.
- Baker, R., and Mason, T. J.** Solvolysis of *exo*- and *endo*-5,6-(*o*-phenylene)- and -(1,8-naphthylene)-2-norbornyl toluene-*p*-sulphonates, 18.
- Baker, R. W., and Pauling, P. J.** Crystal structure of 6,6,12,12-tetrachloro-3,3,9,9-tetramethoxytricyclo-[9,1,0,0^{6,7}]dodecane: C₁₆H₂₄Cl₄O₄, 1451.
Crystal structure and absolute configuration of (*R*)-(-)-3-acetoxyquinuclidine methiodide, 2340.
- Ballabio, M., Beltrame, P. L., and Beltrame, P.** An attempt to effect allenic elimination by a thiolate ion in *NN*-dimethylformamide, 1229.
- Ballard, D. H.** See **Anderson, S. N.**, 311.
- Bancroft, K. C. C., Bott, R. W., and Eaborn, C.** Aromatic reactivity. Part XLIX. Detritiation of [³H]phenanthrenes and 9,10-dihydro[2-³H]phenanthrene, 95.
- Banthorpe, D. V., and Winter, J. G.** Mechanism of benzidine and semidine rearrangements. Part XXV. The acid-catalysed disproportionation of hydrazobenzenes. Part XXVI. Solvent isotope effects and conclusions concerning the nature of the proton transfers, 868, 874.
Rearrangement of aromatic *N*-nitroamines. Part VII. The acid-catalysed transformation of *N*-methyl-*N*-nitro-9-aminoanthracene, 1259.
- Barber, M., Broadbent, S. J., Connor, J. A., Guest, M. F., Hillier, I. H., and Puxley, H. J.** Electronic structure of sydnone. An investigation by means of ESCA and molecular orbital calculations, 1517.
- Barbieri, G., and Taddei, F.** ²⁰⁷Pb Satellite spectra and ²⁰⁷Pb-H long-range coupling constants of the symmetrical isomers of tetrafulryl- and tetrathienyl-lead, 262.
¹H Nuclear magnetic resonance study of (*d-p*)π interactions in stananes containing unsaturated systems, 1323.
¹¹⁷Sn,¹¹⁹Sn-Proton long-range coupling constants in the ¹H nuclear magnetic resonance spectra of alkylhalogenostannanes, 1327.
