

Specialist Periodical Reports

A series of reviews by leading specialists in their fields which gives systematic and comprehensive coverage of the progress in major areas of research.

Organophosphorus Chemistry Vol. 3

Senior Reporter, Professor S. TRIPPETT
University of Leicester

This volume, the third annual review of the literature on the subject, covers the significant work on all organophosphorus compounds and their derivatives over the period from June 1970 to July 1971. 316pp £7.00 (Still available, Vol. 2 £7.00)

Organic Compounds of Sulphur, Selenium, and Tellurium Vol. 1

Senior Reporter: Dr. D. H. REID
University of St. Andrews

This biennial report is designed to be used both for reference purposes and as a critical commentary. It covers the period from April 1969 to March 1970. 494pp £11.00. Vol. 2 available late 1972

Terpenoids and Steroids Vol. 2

Senior Reporter: Dr. K. H. OVERTON
University of Glasgow

Research in the area of terpenoids and steroids accounts for a substantial fraction of the literature of organic chemistry each year. This volume covers the literature published between September 1970 and August 1971. 450pp £9.00 (Still available, Vol. 1 557pp £11.00)

The Alkaloids Vol. 2

Senior Reporter: Dr. J. E. SAXTON
University of Leeds

This second volume, published in March 1972, covers the alkaloid literature of the period July 1970–June 1971. The whole field of alkaloid chemistry, with the exception of certain steroidal alkaloids, is critically reviewed. 293pp £7.50 (Still available, Vol. 1 505pp £11.00)

Amino-acids, Peptides, and Proteins Vol. 4.

Senior Reporter: Dr. G. T. YOUNG
University of Oxford

"The reviewers have done a superlative job of assimilating the data. An indispensable key to the literature for the scientist working in any of these areas." *J. M. Stewart, Journal of Medicinal Chemistry, reviewing Vol. 3 500pp. £9.00. Still available Vol. 1 £4.50 Vol. 2 £6.00 Vol. 3 £6.00.*

Foreign Compound Metabolism in Mammals Vol. 2

Senior Reporter: Dr. D. E. HATHWAY
University of Essex

"The volume (and those promised to come) is clearly very timely and provides a most useful summary and guide to a complicated and highly important field of study." *H. Egan, Chemistry and Industry reviewing Vol. 1. 500pp £11.00. Still available Vol. 1 £11.00.*

Carbohydrate Chemistry Vol. 5

Senior Reporter: Professor J. S. BRIMACOMBE
University of Dundee

This volume is arranged into two parts: (i) the chemistry of mono-, di-, and tri-saccharides and their derivatives; (ii) structural studies of carbohydrate macromolecules. It covers the 1971 literature. 420pp £8.00 (Still available Vol. 1 £3.50 Vol. 2 £3.50 Vol. 3 £7.00 Vol. 4 £7.00)

Fluorocarbon and Related Chemistry Vol. 1

Senior Reporters: Dr. R. E. BANKS and Dr. M. G. BARLOW
University of Manchester Institute of Science and Technology

This biennial review covers 1969 and 1970 literature on saturated fluorocarbons, fluorocarbon halides and hydrides, and poly-fluoro-organic compounds and their spectroscopic properties. 307pp £7.00

Further information about any of these publications can be obtained from: **The Marketing Officer, The Chemical Society, Burlington House, London W1V 0BN.** Orders (enclosing remittance) should be sent to: **The Publications Sales Officer, The Chemical Society, Blackhorse Road, Letchworth, Herts SG6 1HN, England.**
