

ORGANIC REACTIONS MECHANISMS GROUP

Following the annual general meeting of the Organic Reactions Mechanisms Group (ORMG) of The Royal Society of Chemistry on 5th January 1988, membership of the ORMG will be open to non-members of the RSC from 1989. This initiative by the ORMG is intended to widen its membership to all those interested in its subject area: experimental and theoretical investigations into mechanisms of reactions and reactivity of organic compounds including reactive intermediates and biologically important molecules. For further details and information during 1988, please contact the secretary/treasurer of the ORMG: **Dr. H. Maskill, Department of Chemistry, University of Stirling, Stirling FK9 4LA, Scotland.**
