

Announcement

INTERNATIONAL CONFERENCE ON COMPOSITE MATERIALS
FOR HIGH TEMPERATURES—FUNDAMENTAL PRINCIPLES
AND PERFORMANCE
25–29 JUNE 1989 JERUSALEM, ISRAEL

The conference is organised and sponsored by The National Council for Research and Development and held under the auspices of the European Association for Composite Materials and the Israeli Metallurgical Society.

The conference will focus on the processing, microstructural design and performance of metallic, intermetallic and ceramic matrix composites including carbon/carbon composites intended primarily for high temperature aerospace applications.

The second circular and preliminary programme will be sent out in July 1988; 31 December 1988 will be the deadline for receipt of Abstracts. Abstracts for presentation will be accepted in February 1989, and 11 June 1989 will be the deadline for receipt of manuscripts for publication.

The Proceedings will be published as a special issue of *Materials Science and Engineering*. All published papers will be fully refereed. Further information may be obtained from: Mrs Shulamit Cahana, Ministry of Science & Development, PO Box 18195, 91181 Jerusalem, Israel.
