

## Additions and Corrections

---

**Reactions of Silylated Schiff Bases with Trichloro(cyclopentadienyl)titanium,  
Dichloro(cyclopentadienyl)methoxotitanium, and Dichlorobis(methoxo)titanium**  
(1982, 911)

Page 912, Table 2(a). The CH<sub>3</sub> resonance in C-bonded acac should be 2.08(s), *not* 7.92(s).

Page 913, left-hand column, line 5. The methyl proton signal should be  $\delta$  2.08, *not*  $\delta$  7.92.
