

Conference on 'Electrodes in Industrial Applications'

A conference to discuss aspects of the use of electrodes in industrial applications has been organized by industrial members of the Executive Committee of the Society and will be held at Shell Thornton Research Centre, Chester, 6-7 March, 1974. The meeting will commence on the evening of 6 March with a conference dinner to be followed by the introductory lecture given by Professor Martin Fleischmann. On March 7, seven lectures will be given relating to the use of electrodes in the Chlor-Alkali Industry, Electrowinning, Fuel Cells and Batteries, Effluent Treatment, Electro-organic Synthesis and other areas. Aspects to be covered

will include electrode design features, materials of construction, performance, corrosion behaviour and economics.

Attendance will be limited to 65 persons. The AGM of the Society will precede the conference at 4.30 p.m. on 6 March, 1974. Further information may be obtained from:
