

Notice

Advanced Instrumental Methods in Electrode Kinetics

The short course 'Advanced Instrumental Methods in Electrode Kinetics' will be held in the University of Southampton during the week 20-25 April 1975. This is the third occasion on which this course has been organized and it will be run on similar lines to those of earlier years; there will be a restricted number of lectures and the main emphasis will be on prac-

tical work in the laboratory and tutorial sessions.

Further details and application forms may be obtained from

Dr D. Pletcher,
