

NOTICES

Spring informal discussion

The biennial spring informal discussion meeting, organized by the Electrochemistry Group of the Chemical Society, will be held in the University of Southampton on April 19th and 20th, 1977. The meeting fee will be £8 for members of the Electrochemistry Group and £12 for non-members and the cost of accommodation is £12. Further details from Professor G. J. Hills, Department of Chemistry, The University, Southampton.

Euchem meeting

An Euchem conference will be held on 8th to 12th of May, 1977 near Strasbourg, France. The main topic is 'Electrochemistry and chemistry of solids, especially in their use as electrodes or electrocatalysts in electrochemical cells'. For any information, please contact Professor J. Brenet, Laboratory of Electrochemistry and Physical Chemistry of Solids, Université Louis Pasteur, 4, rue Blaise Pascal, 67070 Strasbourg Cedex, France.

Summer school 'advanced instrumental methods in Electrode Kinetics'

The fourth Southampton summer school will be held in the Department of Chemistry from July 10th to 15th, 1977. This intensive course is designed to provide a theoretical background to electrode processes and electroanalytical techniques and to give practical experience in the use of such methods. The course fee is £60 and the cost of accommodation £50. Further details from Dr D. Pletcher, Department of Chemistry, The University, Southampton.

Electrocrystallization, nucleation and phase formation

This Faraday symposium will be held in the University of Southampton on December 13th and 14th, 1977. Further details from Dr A. Bewick, Department of Chemistry, The University, Southampton.
